RE: **Memorandum of Ex Parte Presentation**
WC Docket 04-313, Review of the Section 251 Unbundling
Obligations of Incumbent Local Exchange Carriers; Redacted for
Public inspection pursuant to protective order adopted in WC
04-313

Dear Ms. Dortch:

Pursuant to a staff request, SBC is submitting data regarding the extent of fiber-based collocation for its wire centers in every state but Connecticut¹. The wire center business line data is based on the ARMIS 43.08 report and includes retail business, resale and coin lines. UNE-P business lines and stand alone UNE loops and BELs were added to these numbers to reach a total business line number. These business line counts ignore the millions of lines that CLECs serve using their own last-mile facilities, competitive fiber, and other types of bypass.

I ask that this letter be placed in the files for the proceedings identified above.

Please call me should you have any questions.

Sincerely,

No. of Copies rec'd
List ABOVE

012

CC: Ian Dillner

¹ In order to be responsive to the staff's requests, SBC is filing the first twelve states because they are available and will supplement this filing with Connecticut data as soon as it is available.
