

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the matter of the verified application and petition)
of Laclede Gas Company for establishment of) Case No. GO-2008-01__
an infrastructure system replacement surcharge)

**VERIFIED APPLICATION AND PETITION
OF LACLEDE GAS COMPANY FOR ESTABLISHMENT
OF AN INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE**

COMES NOW Laclede Gas Company ("Laclede" or "Company"), pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri (2004 Supp.) and 4 CSR 240-2.060, 2.080 and 3.265 of the Rules of Practice and Procedure of the Missouri Public Service Commission ("Commission") and, for its Verified Application and Petition for Establishment of an Infrastructure System Replacement Surcharge, respectfully states as follows:

BACKGROUND

1. On August 28, 2003, Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri became effective. These new statutory provisions authorize eligible gas corporations to recover certain infrastructure replacement costs through the implementation of an infrastructure system replacement surcharge ("ISRS"). Prior to implementing an ISRS, the gas corporation must file a petition with the Commission for review and approval before its rates and charges can be adjusted to provide for the recovery of the ISRS costs. To that end, Laclede submits this Verified Application and Petition.

THE APPLICANT

2. Laclede is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 720 Olive Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Laclede's standing to do business in Missouri was submitted in Case No. GF-2007-0220 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

3. Laclede is engaged in the business of distributing and transporting natural gas to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler in Eastern Missouri, as a gas corporation subject to the jurisdiction of the Commission.

4. Communications in regard to this Application should be addressed to:

Michael C. Pendergast
Vice President & Associate General Counsel
Laclede Gas Company
720 Olive Street, Room 1520
St. Louis, MO 63101
(314) 342-0532

Glenn W. Buck
Manager, Financial Services
Laclede Gas Company
720 Olive Street, Room 1305
St. Louis, Missouri 63101
(314) 342-0767

5. Other than cases that have been docketed at the Commission, Laclede has no pending actions or final unsatisfied judgements or decisions against it from any state or federal agency or court which involve customer service or rates.

6. Laclede is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

THE ISRS REQUEST

7. With this application, Laclede requests an adjustment to its rates and charges through the implementation of an ISRS rate schedule that provides for the recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period beginning April 1, 2007 through September 30, 2007. In accordance with the provisions of Sections 393.1009-1015 and 4 CSR 240-3.265, the proposed ISRS rate schedule should reflect the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Laclede's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS, including recognition of accumulated deferred income taxes and accumulated depreciation associated with the aforesaid infrastructure system replacements. Laclede also seeks to recover all state, federal and local income or excise taxes applicable to such ISRS income and to recover all other ISRS costs such as depreciation expense and property taxes due within 12 months of this filing.

A. Eligibility of Costs

8. The infrastructure system replacements for which Laclede seeks ISRS recognition are set forth on Appendix A, which is attached hereto and made a part hereof for all purposes. The infrastructure system replacements listed on Appendix A are eligible gas utility plant projects in that they are either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to comply with

state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

9. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendix A are also eligible for ISRS treatment because they: a) did not increase revenues by directly connecting to new customers; b) are currently in service and used and useful; c) were not included in Laclede's rate base in its most recently completed general rate case, and d) replaced and/or extended the useful life of existing infrastructure.

10. Finally, the infrastructure system replacements listed on Appendix A are eligible for ISRS treatment because Laclede's last general rate case proceeding (the "Rate Case") was decided by Commission Order issued on July 19, 2007, effective July 29, 2007, in Case No. GR-2007-0208.

B. Rate Schedules, Calculations and Supporting Documentation

11. Attached hereto as Appendix B is the rate schedule, with supporting documents, proposed by Laclede in order to establish the ISRS and to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs.

This proposed rate schedule, on an annualized basis, will produce ISRS revenues of at least one million dollars, but not in excess of ten percent of Laclede's base revenue level as approved by the Commission in its most recently completed general rate proceeding.

12. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state, and federal income tax rates through a combined income tax rate conversion factor of 1.62709.

13. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes the average regulatory capital structure consistent with Attachment 5 to the Unanimous Stipulation and Agreement (the "Rate Case Stipulation") that was approved in the Rate Case, and reflects an overall rate of return of 8.4646%.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a weighted average cost of debt of 3.2227% consistent with Attachment 5 of the Rate Case Stipulation.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes a cost of common equity of 10.00% consistent with Attachment 5 of the Rate Case Stipulation.

16. In determining the appropriate pre-tax ISRS revenues, this filing reflects that there are no property taxes due within twelve months on the ISRS-eligible infrastructure system replacements made during the period beginning April 1, 2007 through September 30, 2007.

17. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Laclede in the Rate Case.

18. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, which is derived by dividing the appropriate pre-tax revenues, as calculated above, by the average number of customers in the most recent fiscal year ended September 30, 2007, and then further dividing this quotient by twelve. (*See* Appendix B, page 10). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

ADDITIONAL INFORMATION

19. Depending on the time of the Commission's decision, Laclede intends to provide a bill insert or bill message notifying customers of the ISRS charge with the initial bills containing the ISRS. Thereafter, Laclede intends to provide customers with informational bill inserts once a year in which it will explain the ISRS and what it is designed to recover.

20. Laclede will update information on its website as necessary to inform customers of the ISRS. The information on this page of the website will reflect the information provided in the bill inserts.

21. Laclede will provide the Commission with a copy of the talking points and information distributed to its customer call center in connection with this ISRS filing.

WHEREFORE, pursuant to 393.1015.2(3) and Commission Rule 3.265(12), Laclede Gas Company respectfully requests that the Commission issue an Order, effective as soon as reasonably possible in accordance with the Stipulation and Agreement approved in Case No. GR-2007-0208, approving Laclede's ISRS rate

schedules in order to provide for the recovery of the eligible infrastructure system replacement investments made by Laclede from April 1, 2007, through September 30, 2007, and granting such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015.

Respectfully submitted,

/s/ Michael C. Pendergast

ISRS Revenue Requirement Calculation

ISRS Activity:

Gas Utility Plant Projects - Main Replacements and Other Projects Extending Useful Life of Mains:

<u>Work Orders Placed in Service</u>	
Gross Additions	2,593,144
Deferred Taxes	(12,763)
Accumulated Depreciation	(6,505)
Total Net	2,573,876

Gas Utility Plant Projects - Service Line Replacements and Insertion Projects:

<u>Work Orders Placed in Service</u>	
Gross Additions	7,554,170
Deferred Taxes	(52,181)
Accumulated Depreciation	(53,461)
Total Net	7,448,528

Gas Utility Plant Projects - Regulator Stations:

<u>Work Orders Placed in Service</u>	
Gross Additions	409,548
Deferred Taxes	(3,845)
Accumulated Depreciation	(263)
Total Net	405,440

Gas Utility Plant Projects - Main Relocations net of Reimbursements:

<u>Work Orders Placed in Service</u>	
Gross Additions	2,469,764
Deferred Taxes	(21,825)
Accumulated Depreciation	(4,362)
Total Net	2,443,577

Gas Utility Plant Projects - Main Reinforcements Related to Other ISRS Eligible Projects:

<u>Work Orders Placed in Service</u>	
Gross Additions	502
Deferred Taxes	(4)
Accumulated Depreciation	(1)
Total Net	497

Total ISRS Rate Base 12,871,918

Overall Rate of Return per GR-2007-0208 8.46%

UOI Required 1,089,556

Income Tax Conversion Factor 1.62709

Revenue Requirement Before Interest Deductibility 1,772,806

Total ISRS Rate Base 12,871,918

Weighted Cost of Debt per GR-2007-0208 3.22%

Interest Deduction 414,823

Marginal Income Tax Rate 38.5406%

Income Tax Reduction due to Interest 159,875

Income Tax Conversion Factor 1.62709

Revenue Requirement Impact of Interest Deductibility 260,131
