ORDER SUSPENDING TARIFF

On November 3, 1994, ACC National Long Distance Corp., (ACC or Applicant), applied to the Missouri Public Service Commission (Commission) for a certificate of service authority to provide intrastate interexchange telecommunications services within the state of Missouri, for classification as a competitive telecommunications company, and for waiver of certain statutes and Commission rules as authorized by statute. The Commission issued its Notice and Schedule of Applicants on November 15, 1994, directing parties wishing to intervene in the case to do so by November 30, 1994. ACC was also directed to file a proposed tariff, carrying a thirty-day effective date, reflecting the rates, rules, and regulations under which it proposes to offer services in Missouri.

ACC filed its proposed tariff on December 12, 1994, with an effective date of January 12, 1995. The Commission's Staff filed a memorandum recommending approval on January 9, 1995. Staff stated that ACC had filed substitute sheets on January 4 and January 6, 1995.

A review of the Commission's official file indicates that the substitute sheets mentioned by Staff were never officially filed and that one or more of the substitute sheets may have been inconsistent with Commission practice and policy. The Commission is of the opinion that it would not be prudent to approve the proposed tariff without resolution of the problems regarding those sheets. Therefore, to allow sufficient time for the Applicant to bring its application and proposed tariff into compliance, the proposed tariff should be
