**AND ORDER DIRECTING FILING**

**ISSUE DATE:** January 3, 2007

**EFFECTIVE DATE:** January 3, 2007

***Procedural History***

On December 15, 2006, Missouri-American Water Company submitted to the Missouri Public Service Commission certain proposed tariff sheets, Tariff File Nos. YS-2007-0415, YS-2007-0416, and YS-2007-0417. The purpose of the filing, according to Missouri-American, is to implement a general rate increase for sewer service provided by the Company. Missouri-American states that the revised sewer rates are designed to produce an additional \$73,795 in gross annual sewer revenues excluding gross receipts and sales taxes, a 25.7% increase over existing sewer revenues.

The rate schedules attached to Missouri-American's filing bear issue dates of December 15, 2006, and are proposed to become effective on January 14, 2007. Together with its proposed tariff sheets and other minimum filing requirements, the Company also filed prepared direct testimony in support of its requested rate increase.

### ***The Commission's Authority to Suspend Proposed Tariffs:***

Section 393.150, RSMo 2000, authorizes the Commission to suspend the effective date of a proposed tariff of a sewer company for 120 days plus an additional six months so that the Commission may have a hearing on the matter. The statute states:

Whenever there shall be filed with the commission by any . . . sewer corporation . . . any schedule stating a new rate . . . the commission . . . may suspend the operation of such schedule . . . one hundred and twenty days beyond the time when such rate . . . would otherwise go into effect. [T]he commission may, in its discretion, extend the time of suspension for a further period not exceeding six months . . . .

The same statute further imposes the burden of proof on the Company to show that its proposed increased rate is just and reasonable. The statute also directs the Commission to give the rate increase matter preference over other pending items and to decide the matter expeditiously. The statute states:

At any hearing involving a rate sought to be increased, the burden of proof to show that the increased rate or proposed increased rate is just and reasonable shall be upon the . . . sewer corporation . . . and the commission shall give to the hearing and decision of such questions preference over all other questions pending before it and decide the same as speedily as possible.

Thus, in order to allow sufficient time to study the effect of the proposed tariffs and to determine if they are just, reasonable, and in the public interest, the proposed tariffs will be suspended for a period of 120 days beyond the requested effective date. Furthermore, because a hearing on the proposed tariffs cannot be concluded within the period of suspension above stated, the proposed tariffs will be suspended for an additional six months beyond the 120<sup>th</sup> day following the requested effective date.

***Test Year, True-up and Local Public Hearing Recommendations:***

Inasmuch as the Commission is required by law to give rate increase cases preference over all other questions pending before it and to decide such cases as quickly as possible, and since the burden of proof that the proposed rates are just and reasonable is upon the company proposing the rates, the Company must file both its recommendation concerning the proper test year to be used in these proceedings and any request for a true-up. On December 22, 2006, the Company filed its Recommendation Concerning Test Year and Request for True-Up Audit and Hearing.

The Staff, the Public Counsel, and all intervenors must state their positions regarding the Company's true-up and test year proposals as hereinafter ordered. The test year is the 12-month period used to audit a company's books to determine the proper amounts of rate base, expenses, and revenues to use in calculating a revenue requirement for a company. A resolution of the test year issue must be made early in the proceedings so that the parties' testimony can be reconciled to the same period. The test year involves an audit of all books and records of a company so that a total revenue requirement can be calculated.

All test year proposals must include a specific 12-month period as a test year and should include any additional period for which a party has updated significant items from the test year. The test year with the additional period will be called a "test year as updated" or "updated test year." In addition to a proposed test year or a proposed updated test year, a party may request isolated changes, such as those imposed by governmental bodies, as part of its case and the Commission will consider whether those isolated changes are known and measurable and whether they should be included in Company's revenue

requirement. An issue to be considered in this determination is whether the proposed adjustment affects the matching of rate base, expenses and revenue.

In addition to test year and true-up recommendations, the Commission will direct the parties to file recommendations as to the number, date, time, and location of local public hearings to be held in this matter. Local public hearings should not be scheduled until a week has passed after the filing of all direct testimony; that is, both revenue requirement and rate design.

***Hearing Dates, Customer Notice, and Prehearing Conference:***

The Commission will schedule the evidentiary hearing dates in this order and will reserve dates for a true-up hearing. By establishing the hearing dates now, the Commission will ensure that this matter is heard as expeditiously as possible. Additionally, the early establishment of the hearing dates will allow ample time for notice to be sent to customers. The Company must give notice to customers as directed in the ordered paragraphs below. The Commission will also set an early prehearing conference and require the parties to file a proposed procedural schedule, with additional filing dates for testimony, a second prehearing conference, the statement of issues, the position statements of the parties, and the reconciliation. The Staff of the Commission will have primary responsibility for preparing the proposed procedural schedule. Staff should coordinate the proposed schedule with the Company, the Office of the Public Counsel, and any intervenors, where possible.

***Intervention:***

The Commission finds that proper persons should be allowed 20 days from the issuance of this order to file an application to intervene. The Commission's Data Center

must serve a copy of this order upon the county commission of each county in the Company's service area and upon the Mayor of any city not within a county in the Company's service area, as well as upon every party to Missouri-American's last rate case. In addition, the Commission's Public Information Office shall make notice of this order available to the media serving the Company's service area and to the members of the General Assembly representing the residents of the Company's service area.
