

**BEFORE THE PUBLIC SERVICE COMMISSION
OF THE STATE OF MISSOURI**

In the Matter of the Application of Spire Missouri)
Inc. to Change its Infrastructure System) Case No. GO-2023-
Replacement Surcharge in its Spire Missouri East)
and West Service Territories)

**VERIFIED APPLICATION AND PETITION OF SPIRE MISSOURI INC. TO
CHANGE ITS INFRASTRUCTURE SYSTEM REPLACEMENT SURCHARGE
FOR ITS SPIRE MISSOURI EAST AND WEST SERVICE TERRITORIES, AND
REQUEST FOR WAIVER FROM 60 DAY NOTICE RULE**

COMES NOW Spire Missouri Inc. (“Spire Missouri” or “Company”), by and through counsel, and pursuant to Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri and 20 CSR 4240-2.060, 2.080 and 3.265 of the Rules of Practice and Procedure of the Missouri Public Service Commission (“Commission”) and, for its Verified Application and Petition to Change its Infrastructure System Replacement Surcharge (“ISRS”) for its Spire Missouri East (“Spire East”) and Spire Missouri West (“Spire West”) Service Territories and Request for Waiver from the 60 Day Notice Rule respectfully states as follows:

BACKGROUND

1. On August 28, 2020, Sections 393.1009, 393.1012 and 393.1015 of the Revised Statutes of Missouri became effective, as amended. These statutory provisions authorize eligible gas corporations to recover certain infrastructure replacement costs through the implementation of an ISRS. Prior to implementing an ISRS or changing an ISRS, the gas corporation must file a petition with the Commission for review and approval before its rates and charges can be adjusted to provide for the recovery of the ISRS costs. To that end, the Company submits this Verified Application and Petition.

THE APPLICANT

2. Spire Missouri Inc. is a public utility and gas corporation incorporated under the laws of the State of Missouri, with its principal office located at 700 Market Street, St. Louis, Missouri 63101. A Certificate of Good Standing evidencing Spire East's and Spire West's standing to do business in Missouri was submitted in Case No. GF-2020-0334 and is incorporated by reference herein for all purposes. The information in such Certificate is current and correct.

3. Spire Missouri Inc. is engaged in the business of distributing and transporting natural gas to customers in Missouri as a gas corporation subject to the jurisdiction of the Commission. Spire East provides gas service in eastern Missouri to customers in the City of St. Louis and the Counties of St. Louis, St. Charles, Crawford, Jefferson, Franklin, Iron, St. Genevieve, St. Francois, Madison, and Butler. Spire West provides gas service to western Missouri in the counties of Barry, Barton, Bates, Buchanan, Carroll, Cass, Cedar, Christian, Clay, Clinton, Cooper, Dade, Dekalb, Greene, Henry, Howard, Jackson, Jasper, Johnson, Lafayette, Lawrence, McDonald, Moniteau, Newton, Pettis, Platte, Ray, Saline, Stone, and Vernon.

4. Communications in regard to this Application should be addressed to the undersigned counsel as well as:

Trisha Lavin
Senior Analyst, Regulatory Rates and Planning
Spire Missouri Inc
700 Market Street
St. Louis, MO 63101
314-934-9838
Trisha.lavin@spireenergy.com

5. Other than cases that have been docketed at the Commission, Spire Missouri has no final unsatisfied judgments or decisions against it from any state or federal agency or court which involve customer service or rates. Spire Missouri currently has no pending actions against it in any court involving customer service or rates.

6. Spire Missouri is current on its annual report and assessment fee obligations to the Commission, and no such report or assessment fee is overdue.

THE ISRS REQUEST

7. With this application, Spire Missouri requests an adjustment to its rates and charges for its Spire East and Spire West service territories through the implementation of an ISRS rate schedule that provides for the recovery of costs incurred in connection with ISRS-eligible infrastructure system replacements made during the period of October 1, 2022 through February 28, 2023. Attached to this application as Appendix A is Spire East's recommended revenue requirement and supporting calculations. Also attached to this application as Appendix B is Spire West's recommended revenue requirement and supporting calculations. Spire Missouri supports full recovery of its ISRS investments and believes all of the projects submitted in this filing are eligible under the ISRS statute. The Company is confident that it has provided the requisite evidence necessary to demonstrate that the replacement of connected or associated facilities replaced as part of a qualifying ISRS project compared to tying in or reusing existing facilities. Therefore, as contemplated by the ISRS statute, the ISRS revenue calculations included in Appendices A and B reflect an adjustment for the minimal incremental cost of replacement of connected or associated facilities such as

plastic or coated steel pipe but are reflective of the Company's ISRS calculations pursuant to Section 393.1009(5)(a) RSMo.

8. Consistent with filings approved in Spire Missouri's ISRS cases dating back to 2009, this Application also includes *pro forma* ISRS costs. The Company included pro forma costs for the months of December 2022, January 2023 and February 2023 in this filing. In accordance with the provisions of Sections 393.1009-1015 RSMo. and 20 CSR 4240-3.265, the proposed ISRS rate schedules should reflect the appropriate pre-tax ISRS revenues necessary to produce net operating income equal to Spire East and Spire West's weighted cost of capital multiplied by the net original cost of the requested infrastructure replacements during this period that are eligible for the ISRS. Spire Missouri also seeks to recover all federal, state and local income or excise taxes applicable to such ISRS income, and to recover all other ISRS costs such as depreciation expense.

The revenue calculations in Appendices A and B produce incremental annual ISRS revenues for Spire East of \$3,609,497, and Spire West of \$5,169,671, respectively.

Eligibility of Costs

10. The infrastructure system replacements for which Spire Missouri seeks ISRS recognition are set forth in Appendix A and B, which are attached hereto and made a part hereof for all purposes. As previously stated, these Appendices include those eligible infrastructure investments placed into service or to be placed into service on or after October 1, 2022. The infrastructure system replacements listed on Appendices A and B are eligible gas utility plant projects in that they are all either: a) mains, valves, service lines, regulator stations, vaults, and other pipeline system components installed to

comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their materials, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities; or b) main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life, or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements; or c) unreimbursed infrastructure facility relocations due to the construction or improvement of a highway, road, street, public way or other public work required by or on behalf of the United States, the State of Missouri, a political subdivision of the State of Missouri, or another entity having the power of eminent domain.

11. In addition to meeting the foregoing criteria, the infrastructure system replacements listed on Appendices A and B are also eligible for ISRS treatment because they: a) did not increase revenues by directly connecting to new customers; b) are currently in service and used and useful; c) were not included in Spire Missouri's rate base in its most recently completed general rate case, Case No. GR-2022-0179 (the "Rate Case"), and d) replaced and/or extended the useful life of existing infrastructure.

12. Finally, the infrastructure system replacements listed on Appendices A and B are eligible for ISRS treatment because Spire Missouri's Rate Case was decided by the Commission's Order Approving the Stipulation and Agreement, which was issued on

November 11, 2022, had an effective date of December 26, 2022, and included rate base investments made through September 30, 2022.

Rate Schedules, Calculations and Supporting Documentation

13. Attached hereto as Appendices A and B, Schedule 16 are the rate schedules, with supporting documents, proposed by Spire Missouri in order to change its ISRS, for both its East and West service territories, and to provide for the adjustment of its rates and charges to reflect recovery of eligible infrastructure costs. This proposed rate schedule, on an annualized basis, will produce ISRS revenues of at least one million dollars, but not in excess of ten percent of Spire Missouri's base revenue level as approved by the Commission in its most recently completed general rate case proceeding.

14. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes current local, state, and federal income tax rates through a combined income tax rate conversion factor of 1.31305.

15. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes an overall rate of return of 8.25% as stipulated in the Company's most recent Rate Case. The proposed rate schedule does not specifically identify cost of debt or cost of equity, as those components were not specifically ordered in the Company's most recent Rate Case.

16. In determining the appropriate pre-tax ISRS revenues, the proposed rate schedule utilizes depreciation rates currently applicable to the eligible infrastructure system replacements, as approved by the Commission for Spire Missouri in the Rate Case.

17. In determining the appropriate monthly ISRS charge, the proposed rate schedule is based on a reasonable estimate of billing units in the period in which the charge will be in effect, which is derived by dividing the appropriate pre-tax revenues, as calculated above, by the customer class billing determinants approved in the Rate Case, and then further dividing this quotient by twelve. (*See Appendix A and B*). Consistent with the methodology used in previous ISRS filings, the monthly ISRS charge is apportioned between customer classes in proportion to the customer charges applicable to those classes.

ADDITIONAL INFORMATION

18. In connection with 20 CSR 4240-3.265(22), attached hereto and incorporated herein as Appendix C is a description of the Company's call center instructions pertaining to the ISRS, along with a description of ISRS information posted on the Company's website.

19. Pursuant to 20 CSR 4240-3.265(8) and (9), Spire Missouri intends to continue using the annual notices and customer bill language approved by the Commission in Case No. GO-2018-0309.

Contractor Prequalification Process

20. The amendments in the new ISRS legislation made effective in August 2020 included Section 393.1012.4 RSMo, which requires a gas corporation to develop and file a prequalification process for contractors seeking to participate in competitive bidding for ISRS-eligible projects by July 1, 2021. Spire Missouri is in compliance with this provision of the statute per the filing of its pre-qualification process on April 29, 2021 in Case No. GO-2021-0382. Additionally, a verified statement from the Company

confirming that such pre-qualification process is in place was also filed in that same docket on October 8, 2021 in compliance with Section 393.1012.4 RSMo.

Competitive Bidding Process

21. The new ISRS legislation also requires, pursuant to Section 393.1012.4 RSMo, that the Company utilize a competitive bidding process for no less than twenty-five percent of installation expenditures for ISRS eligible gas plant projects. This requirement applies to the combined expenditures of Spire's operating units (East and West). A verified statement confirming compliance with this section of 393.1012.44 RSMo, is required with all ISRS petitions filed after January 1, 2022. The Company has included such verified statement which is attached to this Application as Appendix D

REQUEST FOR WAIVER

22. Commission Rule 20 CSR 4240-4.017(1) provides, in part, as follows:

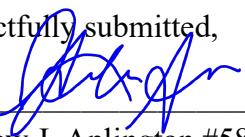

Any person that intends to file a case shall file a notice with the secretary of the commission a minimum of sixty (60) days prior to filing such case. Such notice shall detail the type of case and issues likely to be before the commission and shall include a summary of all communication regarding substantive issues likely to be in the case between the filing party and the office of the commission that occurred in the ninety (90) days prior to filing the notice.

Commission Rule 20 CSR 4240-4.017(1)(D) permits a party to request a waiver of the above cited rule for good cause. The rule provision specifically provides that good cause may be established by submitting a verified declaration that the filing party has had no communication with the office of the commission within the prior one hundred fifty (150) days regarding any substantive issue likely to be in the case. The Company interprets this to mean that good cause is established if the filing party has had no

communication with a member of the office of the Commission outside of pleadings or other public communications. Subject to that understanding, the Company has attached to this request a verified declaration that neither the Company nor any person or entity acting on behalf of the Company or its Missouri operating units has had any communication with a member of the office of the Commission in the last 150 days regarding any substantive issue relating to this case. For that reason, the Company requests that the Commission grant a waiver of the 60-day notice requirement for Spire Missouri's application to change its ISRS.

WHEREFORE, pursuant to Section 393.1015.2(3) RSMo. and Commission Rule 20 CSR 4240-3.265(12), Spire Missouri respectfully requests that the Commission issue an Order approving the ISRS rate schedules submitted in connection with this Application in order to provide for the recovery of the eligible infrastructure system replacement investments made by Spire East and Spire West from October 1, 2022 through February 28, 2023 and granting such other relief as may be necessary and appropriate to accomplish the purposes of Sections 393.1009 through 393.1015. RSMo. The Company further request that Commission grant its request for waiver of the 60-day notice requirement for good cause.

Respectfully submitted,

ISRS Statute 393.1009(5)
Appendix A - Schedule 6

ISRS Statute 393.1009(5): Effective 28 Aug 2020

- (a) Mains, valves, service lines, regulator stations, vaults and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their material, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities;
- (b) Main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements;
- (c) Facilities relocations required due to construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain provided that the costs related to such projects have not been reimbursed to the gas corporation;

ISRS Statute 393.1009(5)
Appendix A - Schedule 6

ISRS Statute 393.1009(5): Effective 28 August 2020

- (a) Mains, valves, service lines, regulator stations, vaults and other pipeline system components installed to comply with state or federal safety requirements as replacements for existing facilities that have worn out or are in deteriorated condition or that can no longer be installed under currently applicable safety requirements or any cast iron or steel facilities including any connected or associated facilities that, regardless of their material, age, or condition, are replaced as part of a qualifying replacement project in a manner that adds no incremental cost to a project compared to tying into or reusing existing facilities;
- (b) Main relining projects, service line insertion projects, joint encapsulation projects, and other similar projects extending the useful life or enhancing the integrity of pipeline system components undertaken to comply with state or federal safety requirements;
- (c) Facilities relocations required due to construction or improvement of a highway, road, street, public way, or other public work by or on behalf of the United States, this state, a political subdivision of this state, or another entity having the power of eminent domain provided that the costs related to such projects have not been reimbursed to the gas corporation;

Context and talking points for Customer Service Pipeline Upgrade Charge (Infrastructure System Replacement Surcharge- ISRS)

December 2022

What is the Pipeline Upgrade Charge (ISRS) for?

We're committed to bringing the people we serve reliable energy that's safe. In 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe, over time, with a safer, more reliable material (plastic). The Pipeline Upgrade Charge (ISRS) covers a portion of the upfront cost we pay for these pipeline upgrades. The Pipeline Upgrade Charge (ISRS) also covers costs we incur to meet government requirements to relocate our pipelines for the greater good of the communities we serve, such as for road expansions.

Who approves or regulates this charge?

The Pipeline Upgrade Charge (ISRS) is authorized by a Missouri statute (section 393.1009-1015). The charge and amount are approved by the Missouri Public Service Commission.

What's the charge for?

On December 27th, the Company filed ISRS petitions for the recovery of costs associated with work for the period October 1, 2022 through February 28, 2023.

How much is the charge?

As a result of this most recent filing, residential customers will now see a Pipeline Upgrade Charge (ISRS) on their bill:

- Missouri East-\$0.40
- Missouri West-\$0.69

The approved amount only covers a portion of the cost needed to upgrade our infrastructure.

Throughout the year, we'll continue working with the MoPSC to determine a fair rate for the Pipeline Upgrade Charge (ISRS).

How often can this charge change?

This charge can change up to twice a year.

How do customers learn about the charge?

Appendix C

At the time, the Pipeline Upgrade Charge (ISRS) was renewed, we provided our customers with an initial notice about the change through a bill insert. We'll also send, once a year, a bill message to further educate customers about the charge.

Here is some helpful information for you to share with customers inquiring about the Pipeline Upgrade Charge (ISRS).

- We care about your safety, so in 2011, we developed a pipeline upgrade program to comply with a safety requirement to replace hundreds of miles of old pipe over time with safer, more reliable plastic pipes. The Pipeline Upgrade Charge (ISRS) covers a portion of the costs of those pipeline upgrades, as well as a portion of what we spend on projects for the greater good of the communities we serve (i.e. road improvements).
- We work with MoPSC closely to make sure rates are fair, and we're following Missouri law. And according to those laws, we can work with the MoPSC to adjust the charge up to two times a year.
- Even with this charge, it will take us decades to fully recover our costs.
- We always try to keep this charge as low as possible for customers. This charge has generally been an increase of less than 2 percent of the total annual bills.
- This charge is lower for residential customers than for commercial and industrial customers.

The screenshot shows a Microsoft Internet Explorer window displaying the Spire Energy website at <https://www.spireenergy.com/tariffs-and-tariffs>. The page title is "Local Natural Gas Rates and...". The top navigation bar includes links for File, Edit, View, Favorites, Tools, Help, Suggested Sites, and Web Slice Gallery. The main content area features the Spire logo and navigation links for Natural gas energy, Ways to save, Customer service, Pay My Bill, and Get Started. A sidebar titled "Terms Explained" lists several terms with expandable sections indicated by plus and minus signs:

- Customer charge
- Usage
- Infrastructure System Replacement Surcharge (ISRS)
 - A portion of the cost to upgrade our pipelines to bring you even safer, more reliable service.
- Natural gas cost
- Therm

Below this, a section titled "More Information" lists "Rate schedules and clauses" with an expandable section indicated by a plus sign. The taskbar at the bottom of the screen shows various open application icons, and the system tray indicates the date and time as 10:13 AM on 6/26/2018.
