**Data Request Response Date: 3/13/2014**

RMO 0004

Please indicate whether the Company has considered – as an alternative to the proposed project – offering community solar programs in which the Company owns, operates and sells the output of solar systems to participating individual customers. Please provide any documentation related to the Company's consideration and rejection of such alternatives.

**Date: March 12, 2014**

The company has done some preliminary review of this potential option but believes there to be considerable regulatory issues involved with utilizing rate payer dollars to construct a specific generation facility that then only sells its energy to a select group of customers under a special tariff.

No final analysis or conclusion has been reached concerning this option.
