Response to Renew MO Data Requests
Docket Nos. WKT
Solar Generation Certificate for O'Fallon MO Facility
Data Request Response Date: 3/13/2014

RMO 0002

Is the Company aware of the current average installation cost of utility-scale solar projects in: A) Missouri, B) the Midwest region, and/or C) nationwide? Please provide an explanation for any substantial divergence between the cost of the proposed project and these local, regional, and national averages. Please include any and all documentation that may help to explain all primary and secondary reasons for this divergence.

RESPONSE

Prepared By: William Barbieri
Title: Director, Renewable Strategy, Policy & Generation
Date: March 12, 2014

The company is generally aware of price estimates for utility scale solar projects and understands that except for those areas with higher capacity factors. There does not appear to be any substantial divergence of cost.
