Response to Renew MO Data Requests
Docket Nos. WKT
Solar Generation Certificate for O'Fallon MO Facility
Data Request Response Date: 3/13/2014

RMO 0010

What are the reasons for the Company choosing not to issue the RFP for this proposed project through a competitive public bidding process? Given that the proposed facility is the Company's first utility-scale solar project, why did the Company not consider broadening the bidding process beyond entities with whom the Company had a pre-existing relationship?

RESPONSE

Prepared By: William Barbieri
Title: Director, Renewable Strategy, Policy & Generation
Date: March 12, 2014

The RFP was competitively bid.

The company complied with the internal policy requirements for bidding a project of this scope and size.

The company exercised reasonable discretion regarding the list of potential bidders and does not believe that a broader list would have produced a different result.
