

EC-2023-0395

Brett Felber  
Vs  
Ameren Missouri

### Opposing Counsels Data Request

Counsel asking the commission to commit Tortious Interference pertaining data that 1) is irrelevant to the complaint and 2) is only to be given to the parties involved in the lawsuit matters.

- 1) JPC-23-02415-22. Credit card/bank fraud
- 2) JP02-23-SC00024061, attorney misconduct, legal malpractice, tortious interference and slander, libel, defamation.

Counsel knows the correct procedure in process in getting data discovery on these matters. It involved him filing an answer within 14 days to the citation, once served.

It would be unethical, unprofessional and attorney misconduct, or misconduct for I, to elaborate or discuss this matter with parties outside litigation. In addition, due to it now involving litigation, unfortunately I will not discuss this without outside parties. Ameren and their counsel know the correct manner in receiving discovery, for this manner. They need to follow Texas rules and procedures.

Last, I've given Ameren a generous amount of time to rectify the situation. They've failed. They've withheld information from the commission that would have resulted and should've resulted in Ameren re-establishing services.

Unfortunately, I cannot continue to pay at the convenience of Ameren's illegal disconnect or any other instances that they've done, at my expense any longer. Ameren has been able to enjoy Kangaroo Court.

I plan as early as Monday or Tuesday of this week, introducing an emergency petition to have utility services restored to the premises as a result of Ameren's illegal disconnection of services.

I'm giving, again, as I've done for numerous months for Ameren and the PSC to order Ameren to restore services.

Otherwise, I will take the information from Kangaroo Court, such as the document that shows Ameren clearly defaulted any agreement and breached the terms and illegal disconnected utility services.

However, taking advantage of rectifying the situation, further leads to lawsuits, outside of Kangaroo Court, where the plaintiff will get a fair trial, not an unfair trial, such as in Kangaroo Court on this matter
