TARIFF FORMAT SHEETS

- A. Sheet numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between pages 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Public Service Commission of Missouri. For example, the fourth revised Sheet 14 cancels the third revised Sheet 14. Because of various suspension periods, deferrals, etc., the Public Service Commission of Missouri follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.A.
 - 2.1.1.A.1
 - 2.1.1.A.1(a)
 - 2.1.1.A.1(a)I
 - 2.1.1.A.1(a)I(i)
 - 2.1.1.A.1(a)I(i)(1)
- D. Check Sheets - When a tariff filing is made with the Public Service Commission of Missouri, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Public Service Commission of Missouri.

SECTION 2 - RULES AND REGULATIONS (cont.)

- 2.8 Deposits. The Company may, at its sole discretion, require a deposit from the Customer as a condition to receiving service or additional services. The Company reserves the right to review an applicant's or a Customer's credit history at any time to determine if a deposit is required. The amount of such deposit shall not exceed twice the estimated average monthly bill for the class of service for which the deposit is to be applied. Interest on deposits will be set at the 3-month commercial paper rate published by the Federal Reserve Board, except no interest will be paid if the Customer has received a minimum of two discontinuance of service notices in a 12-month period. The fact that a deposit has been made neither relieves the Customer from complying with the Company's regulation on the prompt payment of bills on presentation nor constitutes a waiver or modification of the regulations of the Company providing for the discontinuance of service for nonpayment of any sums due the Company for services rendered.

Upon discontinuance or termination of service, the Company will credit the deposit to the charges stated on the final bill. The balance, if any, will be returned to the Customer within 30 days of rendition of the final bill, and will include any interest on the deposit as set forth above.

After prompt and timely payment of all charges for 12 consecutive billing periods, within 30 days, the Company will refund the deposit to the Customer. The refund will include interest at the rate set forth above. Payment of a charge is satisfactory if received prior to the date that the charge becomes delinquent provided that it is not returned for insufficient funds or closed account. However, deposits may not receive interest if the Customer has received a minimum of two notices of discontinuance of service for nonpayment of bills in a 12-month period.

- 2.9 Advance Payments. For Customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount. Such amount shall be equal to two (2) months' service charges and/or the service connection and/or equipment charges which may be applicable, as well as any nonrecurring charges for any required special construction. The amount of the first month's service is credited to the Customer's account on the first bill rendered.
- 2.10 Taxes. All state and local taxes (*i.e.*, gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.
- 2.11 Billing of Calls. All charges due by the subscriber are payable at any agency duly authorized to receive such payments. Any objection to billed charges should be promptly reported to the Company. Adjustments to Customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.
- 2.12 Minimum Call Completion Rate. A Customer can expect a call completion rate comparable to that of the local underlining carrier.

SECTION 2 - RULES AND REGULATIONS (cont.)

2.13 Application for Service

Service is installed by arrangement between the Company and the Customer.

- 2.13.1 A Customer desiring to obtain service may do so based on an oral or written agreement. In order to initiate service, the Customer must provide the following information: an address to which the Company shall mail or deliver all notices and other communications, except that the Customer may also designate a separate address to which the Company's bills for service shall be mailed.

The Company shall designate an address to which the Customer shall mail or deliver all notices and other communications, except that the Company may designate a separate address on each bill for service to which the Customer shall mail payment on that bill.

If the service agreement is made verbally, the Company will, within 5 days of initiating the service order, provide a confirmation letter setting forth a brief description of the services ordered and itemizing all charges which will appear on the Customer's bill. Within 5 days of initiating service, the Company shall state in writing for all new Customers all material terms and conditions that could affect what the Customer pays for telecommunications service provided by the Company. If services requested by Customer are bundled, however, by agreement with the Customer, bundled services will not be initiated for up to 60 days.

Potential Customers who are denied service for failure to establish credit or pay the required deposit will be notified in writing by the Company of the reason for the denial within 10 days of the denial.

2.13.2 Cancellation of Application for Service

No charge applies when the applicant cancels an application for service prior to the start of installation or special construction.

When an applicant cancels an application for service after the start of installation or special construction, the applicant shall pay a cancellation fee which is the lesser of 1) the costs incurred by the Carrier, or 2) the charge for the minimum period of the service ordered, plus applicable installation charges.

Customers of CBS may cancel service by providing thirty (30) days' written notice to CBS. Customers are responsible for all charges, including fixed fees, which accrue up to the cancellation date.

SECTION 2 - RULES AND REGULATIONS (cont.)

2.13 Application for Service (cont.)

2.13.3 Cancellation of Service

The Customer may have service discontinued upon verbal or written notice to the Company. The Company shall hold the Customer responsible for payment of all bills for services furnished until the cancellation date specified by the Customer or until the date that the written cancellation notice is received, whichever is later. A termination liability charge applies to early cancellation of a term agreement.

At the expiration of the initial term specified in each Service Order, or in any extension thereof, service shall continue on a month to month basis at the then current rates unless terminated by either party. Any termination shall not relieve the Customer of his or her obligation to pay any charges incurred under the Service Order and this tariff prior to termination. The rights and obligations which by their nature extend beyond the termination of the terms of the Service Order shall survive such termination.

2.13.4 Termination Liability

Unless otherwise specified in individually negotiated contracts, the termination liability for services purchased under a Term Agreement will equal to the lesser of either:

- A. 20% of the balance of the total billing payable during the life of the term; or
- B. the difference between the monthly rate for the selected term plan and the monthly rates for the longest term plan that Customer could have satisfied prior to early discontinuance of service.

2.14 Discontinuance and Restoration of Service

2.14.1 Discontinuance of Service

- A. A Customer may have service discontinued upon oral or written notice to the Company on or before the date of disconnection. Customers remain responsible for payment of all bills for services furnished.
- B. If a Customer cancels his or her order for service before the service begins, a charge equal to the greater of \$25.00 or the actual costs incurred by the Company in provisioning the service prior to the cancellation will be levied upon the Customer. However, no charge will be levied if a Customer cancels his or her service within three (3) days of the date the order was placed in writing or within three (3) days of the date of the Company's written confirmation. No cancellation charge applies to orders canceled due to delays in installation that are caused by the Company that are five (5) days past the promised due date. The Customer will be informed of the cancellation charge at the time the order is placed.
- C. No minimum or termination charge will apply if service is terminated because of condemnation, destruction, or damage to the property by fire or other causes beyond the control of the Customer.
- D. Upon termination, presubscribed Customers may be held responsible for charges thereafter if the Customer has not selected an alternative local exchange carrier and service has not been transferred to the alternative carrier and such Customer is continuing to receive service from the Company.

SECTION 3 DESCRIPTION OF BASIC SERVICE AND RATES (cont.)3.3 Payment of Bills

- 3.3.1 Rendering and Payment. Customer bills are issued monthly. The Customer will receive its bill on or about the same day of each month. Months are presumed to have 30 days. The billing date is dependent on the billing cycle assigned to the Customer. Each bill contains monthly recurring charges billed in advance, and the last date for timely payment. The Company will pro-rate monthly recurring charges based on a 30 day month.

Bills are due and payable as specified on the bill. Bills may be paid by mail or in person at the business office of the Company or an agency authorized to receive such payment. All charges for service are payable only in United States currency. Payment may be made by cash, check, money order, or cashier's check.

Customer payments are considered prompt when received by the company or its agent by the due date on the bill. The due date is 30 days after the bill is rendered and is designated by the due date on the Customer's bill to timely pay the charges stated. The Company will credit payments within 24 hours of receipt.

- 3.3.2 Late Payment Charges. Interest charges of 1.5% per month will be assessed on all unpaid balances more than thirty (30) days old. There will not be interest on previously-charged late payment fees.
- 3.3.3 Return Check Charges. A return check charge of \$25.00 will be assessed for checks returned for insufficient funds if the face value does not exceed \$50.00; \$30.00 if the face value does exceed \$50.00 but does not exceed \$300.00; \$40.00 if the face value exceeds \$300.00 or 5% of the value of the check, whichever is greater. The Company may waive the bad check charge under appropriate circumstances.

3.5 Exchange Areas served in Missouri by CBS

Local calling areas are based on the exchange and Network Access Area designation of the location from which the Customer is served and based on which incumbent LECs serve the same area. The Network Access Area assignment is the same assignment that applies to service provided at the same location and maps as that by the incumbent LEC – Southwestern Bell and GTE Midwest).

SECTION 4 – SERVICE PROVIDER NUMBER PORTABILITY4.1 DescriptionLocation Routing Number (SPNP - LRN)

SPNP - LRN depends on AIN/IN technology. LRN is a 10-digit number used to uniquely identify a switch that has ported numbers. The LRN for a particular switch must be a native NPA-NXX assigned to the local exchange provider for that switch and serves as a network address. Telecommunications carriers routing telephone calls to an end-user that has ported their telephone number from one Telecommunications Carrier to another must perform a database query to obtain the LRN that corresponds to the dialed telephone number. The N-1 telecommunications provider (the next to the last terminating carrier) is responsible for determining the LRN for the call being terminated. The database query is performed for all calls where the NPA-NXX of the Telecommunications Carrier routes the call to the appropriate Telecommunications Carrier based on the LRN.

SPNP-LRN will be initially deployed in Kansas City and St. Louis by October 26, 1999, and will continue through a phase in deployment which will complete around March 2000 according to FCC Docket No. 95-116, as published in the Local Exchange Routing Guide (LERG). Subsequent deployment in additional switches beyond initial deployment pursuant to FCC Docket No. 95-116 will be accomplished through receipt of a bona fide request.

4.2 Terms and ConditionsGeneral

Service Provider Number Portability (SPNP) is only available to telecommunications carriers for use in the provision of a telecommunications service as specified and to the extent required by the Telecommunications Act of 1996, Pub. L. No. 104-104, 110 Stat. 56 (1996) ("The Act") and the rules and regulations of the Federal Communications Commission and the Public Service Commission of Missouri.

Service Provider Number Portability is a service arrangement provided by the Company to Telecommunication Carriers whereby a customer, who switches subscription to local exchange service from the Company to a Telecommunication Carrier is permitted to retain for their use the existing Company assigned telephone number provided that the customer's service location remains within the same Company rate center.

SECTION 4 -- SERVICE PROVIDER NUMBER PORTABILITY (cont'd)4.2 Terms and Conditions (cont'd)Rules and Regulations

SPNP service is only available to Telecommunications Carriers. SPNP service and facilities will only be provided where technically feasible, subject to the availability of facilities and pursuant to FCC Docket No. 95-116, and may only be furnished from properly equipped central offices. SPNP service and facilities are not offered for Mass-Calling NXX Codes, FX service, or Southwestern Bell or GTE Midwest coin telephone service.

General Regulations as found in this Tariff apply to this section unless otherwise specified in this section. The term "customer", which appears in Part 3.1 of the General Regulations is the equivalent of the term "telecommunications carrier" as used in this section.

Telecommunications Carriers will be assessed Local Number Portability (LNP) Query Charges as defined in FCC No. 2, Section 6, as SPNP-LRN becomes available in an area if the Company performs an LNP database query on behalf of the Telecommunications Carrier.

Interim Arrangements (SPNP-Remote and SPNP-Direct) are only available to Telecommunications Carriers in areas where SPNP-Location Routing Number (LRN) is not available. Telecommunications Carriers shall migrate from Interim Arrangements to SPNP-LRN as soon as practicable, but no later than 120 days from the last day which the FCC has mandated SPNP-LRN be available in a particular Metropolitan Statistical Area (MSA). Requests for Interim Arrangements will also not be processed after the last day which the FCC has mandated SPNP-LRN be available in a particular Metropolitan Statistical Area (MSA). The parties shall provide long-term number portability to each other in accordance with rules and regulations prescribed by the FCC and/or the PSCSM.

Responsibilities of the Company

The Company's sole responsibility is to comply with the service requests it receives from the Telecommunications Carrier and to provide SPNP in accordance with its tariff. In the event that the Company becomes aware that a dispute or discrepancy may have occurred, it may insist that the Telecommunications Carrier provide to the Company a signed letter of authorization from the end-user.

The Company is not responsible for the allocation of charges for resold or shared SPNP service or for misdialed calls.

SECTION 4 – SERVICE PROVIDER NUMBER PORTABILITY (cont'd)4.2 Terms and Conditions (cont'd)Responsibilities of the Telecommunication Carrier

The Telecommunications Carrier is solely responsible to obtain a signed letter of authorization from the end-user for the handling of the disconnection of the end-user's service with the Company, the provision of service by the Telecommunication Carrier and the provision of SPNP service. Should a dispute or discrepancy arise regarding the authority of a Telecommunications Carrier to act on behalf of the end-user, the Telecommunications Carrier is responsible for providing a signed letter of authorization to the Company. In the event that the Telecommunication Carrier is unable to provide such authorization, the Company may either refuse to disconnect the end-user's service and establish SPNP service as requested by the Telecommunications Carrier or, where the conversion from end-user to SPNP service has already occurred, may choose to restore the end-user's prior service with the Company and terminate SPNP service for that particular end-user. In such event, the Telecommunication Carrier is responsible to compensate the Company for its cancellation costs if the end-user's service had not been disconnected and SPNP service had not yet been established or to pay all applicable restoral costs for terminating the SPNP service and restoring the end-user's prior service with the Company.

The Telecommunication Carrier is responsible for coordinating the provision of service with the Company to assure that its switch is capable of accepting SPNP ported traffic.

The Telecommunication Carrier is solely responsible to provide equipment and facilities that are compatible with the Company's service parameters, interfaces, equipment, and facilities. The Telecommunication Carrier is required to provide sufficient terminating facilities and services at the terminating end of an SPNP call to adequately handle all traffic to that location and is solely responsible to ensure that its facilities, equipment and services do not interfere with or impair any facility, equipment or service of the Company or any of its end-users. In the event that the Company terminates in its sole judgement that Telecommunications Carrier will likely impair or is impairing, or interfering with any equipment, facility or service of the Company or any of its end-users, the Company may either refuse to provide SPNP service or terminate it in accordance with other provisions of the Company's tariff.

The Telecommunication Carrier is responsible for providing an appropriate intercept announcement service for any telephone numbers subscribed to SPNP service for which it is not presently providing local exchange service or terminating to an end-user.

4.2 Terms and Conditions (cont'd)

Responsibilities of the Telecommunication Carrier (cont'd).

The Telecommunication Carrier is responsible for designating to the Company at the time of its initial service request for SPNP service one of the following options for the handling and processing of Calling Card, Collect, Third party, and other operator handled non-sent paid calls from or to SPNP assigned telephone numbers: (1) the Connecting Carrier may request that the Company block all such calls; (2) the Telecommunication Carrier may accept billing from the Company for such calls; or (3) the Telecommunication Carrier may negotiate a separate, detariffed billing and collection agreement with the Company establishing the call handling, processing and billing responsibilities of the parties.

Limitations of Service

The Company is not responsible for adverse effects on any service, facility or equipment from the use of SPNP service.

End-to-end transmission characteristics may vary depending on the distance and routing necessary to complete calls over SPNP facilities and the fact that another carrier is involved in the provisioning of service. Therefore, end-to-end transmission characteristics cannot be specified by the Company for such calls.

The Company is not responsible to the Telecommunication Carrier if necessary changes in protection criteria or in any of the facilities, operation, or procedures of the Company renders any facilities provided by a Telecommunication Carrier obsolete or renders modification of the Telecommunication Carrier's equipment necessary except as otherwise required by the Public Service Commission of Missouri.

TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 16 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PPUC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the PSCK follows in their tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.1.
 - 2.1.1.
 - 2.1.1 .A.
 - 2.1.1 .A.1 .
 - 2.1.1 .A.1 .(a).
 - 2.1.1 .A.1 .(a).l.
 - 2.1.1 .A.1 .(a).l.(i).
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk. There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

The customer's long distance usage charge is based on the actual usage of CBS's network. Usage begins when called party picks up the receiver. When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up. There is no charge for an uncompleted call.

3.2 Minimum Call Completion Rate

A customer can expect a call completion rate (number of calls completed/number of calls attempted) of not less than 90% during peak use periods for all FG D services ("1+" dialing).

3.3 Special Services

For the purpose of this tariff, a Special Service is deemed to be any service requested by the customer for which there is no prescribed rate in this tariff. Special Service charges will be developed on an individual case basis and filed in this tariff.

3.3.1 Special Service Regulations

Special Service charges will be based on the estimated cost of furnishing such services including the cost of operating and maintaining such a service, the cost of equipment and materials used in providing such a service, the cost of installation including engineering, labor supervision, transportation, and the cost of any other specific item associated with the particular Special Service request.
