2.5 Deposits

The Company does not require a deposit from the Customer.

2.6 Payment for Service

As a prepaid calling card provider the Company does not anticipate issuing bills to end users. However, the Company reserves the right to issues bills, subject to the rules of the Missouri Commission and, to the extent not inconsistent, the following rules:

The Customer is responsible for payment of all charges for services and equipment furnished to the Customer or to an Authorized User of the Customer by the Company. All charges due by the Customer are payable to the Company or to any agency duly authorized to receive such payments. The billing agency may be a local exchange telephone company, interexchange carrier, or other billing service. Terms of payment shall be according to the rules and regulations of the agency and subject to the rules of appropriate regulatory agencies. Any objections to billed charges must be promptly reported to the Company or the Company's billing agent. Customers may contact the Company at Enhanced Global Convergence Services, Inc. d/b/a eGCS, 45 High Street, Nashua, NH 03060; or by telephone number 603-889-8411. SECTION 3 - DESCRIPTION OF SERVICE

3.1 Prepaid Calling Card Service.

This service permits use of the Company's Prepaid Calling Cards for placing long distance calls. Customers may purchase the Company's Prepaid Calling Cards at a variety of retail outlets or through other distribution channels. Prepaid Calling Cards are available at a variety of face values ranging from ten dollars (\$10.00) to fifty dollars (\$50.00) in ten dollar increments. The Company's Prepaid Calling Card service is accessed using the Company's toll-free number printed on the card. The caller is prompted by an automated voice response system to enter his/her Authorization Code, and then to enter the terminating telephone number. The Company's processor tracks the call duration on a real time basis to determine the value consumed. The total value consumed, which includes applicable taxes, is deducted from the remaining balance on the Customer's Prepaid Calling Card. The rate at which a Prepaid Calling Card is decremented depends on the Rate Plan associated with that Prepaid Calling Card. Rate Plans are described in Section 4 below.

All calls must be charged against a Prepaid Calling Card issued by the Company that has a sufficient balance to pay for the call. A Customer's call will be interrupted with an announcement when the balance is about to be depleted. Such announcement will occur when one (1) minute remains before the balance will be depleted, based upon the terminating location of the call.

Calls in progress will be terminated by the Company if the balance on the Prepaid Calling Card is insufficient to continue the call and the Customer fails to enter the number of another valid Prepaid Calling Card prior to termination.

Prepaid Calling Cards will expire at the date stated on the card.

SECTION 3 - DESCRIPTION OF SERVICE, CONT.

3.1 Prepaid Calling Card Service, Cont.

Credit allowances for calls pursuant to the Company's Prepaid Card Service do not apply for interruptions not reported promptly to the Company or interruptions that are due to the failure of power, equipment or systems not provided by the Company.

Credit for failure of service shall be allowed only when such failure is caused by or occurs due to causes within the control of the Company.

The Company will block all calls beginning with the NPA "900", and NXX "976" calls, therefore such calls can not be completed.

3.2 Specialized Pricing Arrangements.

Customized service packages and competitive pricing packages at negotiated rates may be furnished on a case-by-case basis in response to requests by Customers to the Company for proposals or for competitive bids. Service offered under this tariff provision will be provided to Customers pursuant to contract. Unless otherwise specified, the regulations for such arrangements are in addition to the applicable regulations and prices in other sections of the tariff.

SECTION 3 - DESCRIPTION OF SERVICE, CONT.

3.3 Timing of Calls

- 3.3.1 Long distance usage charges are based on the actual usage of the Company's network. The Company will determine that a call has been established by signal from the local telephone company.
- 3.3.2 Minimum billed call duration and billing increments may differ from product to product.
- 3.3.3 Usage is measured and rounded to the next higher billing increment for billing purposes.
- 3.3.4 There is no billing applied for incomplete calls.

SECTION 4 - RATES

4.1 Computation of Charges

There are three rate components used in calculating the total charge for each intrastate call made using the Prepaid Calling Card Service: (1) a Payphone Surcharge assessed once per call for calls originating from a payphone, (2) a Domestic Rate that is assessed for each minute that the call continues, and (3) a Domestic Surcharge assessed once per call, including those calls for which the Payphone Surcharge also applies. The Payphone Surcharge, Domestic Rate, and Domestic Surcharge constitute the particular Rate Plan that is associated with each Prepaid Calling Card. Current Rate Plans are set forth in Section 4.2. Pursuant to Missouri Revised Statutes Section 392.510, maximum and minimum rates for each of the three rate components are stated in Section 4.3.

In addition to the above, a separate surcharge is assessed for directory assistance calls. This charge is stated at the conclusion of 4.2 below. Separate non-regulated charges are assessed for wireless calls.
