**Chariton Valley Telephone Corporation  
and  
Northeast Missouri Rural Telephone Company's  
Objection  
To SprintPCS's Data Request 1**

1. Please provide all billing records, individual call detail records, documentation, evaluation data, and any other analysis information used in formulating and developing the analysis labeled Schedule 4 to Mr. William Biere's Direct Testimony/Schedule 3 to Mr. Gary Godfrey's Testimony.

**Objection:**

Insofar as this data request asks for the raw switch data for the period utilized for these schedules, production by duplication of this data either in electronic format or printed copy would be unduly burdensome and unnecessarily hazardous to prudent operations. As described in the testimony and schedules, the sorts run against raw switch data for specific wireless carrier traffic resulted in the traffic described in the study. If Sprint PCS desires to view the raw switch

data, Chariton Valley and Northeast will produce such data at their premises where the integrity of the switch data and operations can be controlled and safeguarded.
