

**LTA
SECOND CUSTOMER NOTICE AND
NOTICE OF LOCAL PUBLIC HEARING
January 27, 2010**

On July 15, 2009, Aqua Missouri, Inc. (Company) submitted a request for an increase in its annual water operating revenues for LTA to the Missouri Public Service Commission (PSC) under the provisions of the PSC's small utility rate case procedure. As a result of the Company's request, the Staff of the PSC conducted an independent audit of the Company's books and records, and an investigation of the Company's business and system operations. Based upon the results of the audit and investigation, and negotiations conducted between the PSC Staff and the Company, the PSC Staff and the Company have reached an agreement, which if approved by the Commission would result in an increase of \$12,283 in the Company's annual water operating revenues.

If approved, the agreement would increase the residential customer monthly minimum charge, which includes the first 2,000 gallons of usage, from \$22.44 to \$27.76, and would change the usage charge over the minimum from \$5.03 to \$6.22 for each 1,000 gallons used. This means that under the proposal, a customer who uses 4,000 gallons per month would see an increased bill from \$32.50 to \$40.20.

The Office of the Public Counsel (OPC), a state agency responsible for representing the interests of utility consumers before the PSC, has not signed the agreement and has requested the PSC to hold local public hearings to allow the Company's customers to comment on the proposed increase in rates or any recent service-related problems.

Public Hearings Scheduled

The PSC has scheduled local public hearings as follows. A question-and-answer session will be held thirty minutes before the start of each hearing.
