The purpose of this rate is to evaluate the viability of a residential time-of-use rate. Such pilot is a result of a collaborative group as specified in Sections 10 and 11.c. of the Stipulation and Agreement in Missouri Public Service Commission Case No. EC-2002-1. The primary feature of this pilot application is providing rates that vary during different times of the day and evaluating the customers' response to the variations in these rates.

Availability

This rate is only being offered to a limited number of residential customers that meet certain criteria. The customers that meet this criteria will be asked to participate in this pilot. Approximately 225 customers will be on the pilot.

Customer Rate Groups

Customers will be in one of three groups, with approximately 75 customers in each of the following groups:

1. Group 1 will consist of customers that will be billed on a three-tiered time-of-use rate;
2. Group 2 will consist of customers that will be billed on a three-tiered time-of-use rate with a Critical Peak Period; and
3. Group 3 will consist of customers that will be billed on the same rates as Group 2, but have been provided with a smart thermostat.
