Att: Hearing Committee

JAN 16 2004

January 13, 2004 Missouri Public
Camdenton, Missouri Service Commission

Dear Sirs:

We purchased the first home from
Summit Properties in Eagle Trade
Subdivision in December, 1998.

There has been on-going problems
with water and sewer to this
date. Volumes of correspondence
and numerous meetings with
state officials, developer and
utility providers have not
corrected the problems. Home
owners paid the developer for
the installation of water and
sewer when they purchased
their homes.

Camdenton
Public Hearing Exhibit No. 6

Date 1-13-04 Case No. SF-20030562

Reporter KF

(2)

The fee any increase for water and sewer is a hardship and unfair cost to the home owners. The inferior installation by the developer and the poor maintenance by the provider should not be the burden of the home owners.

Yours truly

Andrea Phillips
