### SECTION 3 - DESCRIPTION OF SERVICES

#### 3.7 Custom Business Services (continued)

##### 3.7.10 Business Domestic Saver (continued)

For Customers subscribing to Business Domestic Saver with one BTN, all qualified usage generated under all of the Customer's WTNs billed under that BTN will be totaled to determine if the minimum monthly usage charge applies. For Customers subscribing to TFS with one BTN, all qualified usage generated under all of the Customer's TFS Numbers associated with that BTN will be totaled to determine if the minimum monthly usage charge applies. Multiple BTN aggregation is not available with this Service.

The minimum monthly usage charge will be prorated for the first billing cycle after subscribing to the optional calling plan. For each billing cycle thereafter, Customers whose usage revenue is less than or equal to the monthly minimum usage charge specified in Section 4.7.10 of this Tariff will be billed the difference between actual usage revenue and the minimum monthly usage charge. Customers that generate usage revenue in excess of the minimum monthly usage charge specified in Section 4.7.10 of this Tariff in any given billing cycle will not incur the minimum monthly usage charge for that billing cycle. Customers subscribing to Business Domestic Saver may be LEC-billed or direct-billed. The method of billing is determined by the Company.

When ordering Service, the Business Customer must specify if Business Domestic Saver is to be used for outgoing calls only, inbound calls only, or both. Customers subscribing to Business Domestic Saver may also subscribe to the Proprietary Calling Card - Option 2. Fully automated calling card calls are billed at the rates specified in Section 4.7.10 of this Tariff in lieu of the rates and charges specified in Section 4.1.1 (B), Section 4.1.2 (A), and Section 4.1.2 (C) of this Tariff. A per call charge applies in addition to the initial period and additional period charges applicable to the call.
