SECTION 3 - DESCRIPTION OF SERVICE (Cont'd)

3.6 Additional Local Exchange Service Offerings

3.6.1 Call Blocking

3.6.1.A Per Call Blocking

Per Call blocking of CPN will be available, upon request, at no charge, to any Customer. Per Call blocking enables a Customer to prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their touch tone pad or 1167 from a rotary phone) immediately prior to placing a Call. The access code activates per Call blocking, and the CPN will not be transmitted across the line to the called party. Instead, called parties with Caller ID will receive an anonymous indicator, which notifies the Caller ID party that the calling party has elected to block the delivery of their name and telephone number. The blocking of CPN will not be provided on Calls originating from Customer Owned Pay Telephones. If the Caller ID party also subscribes to Anonymous Call rejection, the calling party will be routed to a telephone company recording advising the caller that the called party will not accept Calls whose CPN has been blocked.

3.6.1.B Per Line Blocking

Per line blocking for the blocking of CPN will be available upon request, at no charge, **only** to the following entities for lines over which the official business of the agency is conducted, including those at the residences of employees/volunteers, where an executive officer of the agency registers a need for blocking and provides the required certification to the Company: a) private, nonprofit, tax exempt, domestic violence intervention agencies and b) federal, state and local law enforcement agencies. The CPN will not be transmitted from a line equipped with this capability. Per line blocking is operational on a continuous basis but can be deactivated by the customer by dialing an access code immediately prior to placing a call. Line blocking customers can unblock their CPN information on a per call basis, at no charge, by dialing an access code (*82 on their touch tone pad or 1182 from a rotary phone) immediately prior to placing a call.
