Unlimited Calling.

Call anyone in Kansas,
Missouri and the United States,
talk as long as you want,
call as frequently as you like

Talk as long as you want. Don't be bound by traditional telephone rate plans that fluctuate by the time of day or day of the week. Instead, pay the same price no matter how often, how long, when or where you call.

And the savings don't stop there. **International calls, Directory Assistance and Operator Services** are billed separately at rates that are competitive with other major carriers.

Call Waiting, Caller ID and Call Waiting ID at no extra charge

Get the most convenient, most popular calling features — Call Waiting, Caller ID and Call Waiting ID — without paying extra charges.

Call Waiting lets you answer a second call when you're on the phone. With the press of a button, put your first caller on hold and connect with the second one.

Caller ID lets you know who is calling before you pick up the phone, so you only answer the calls you choose to.

Call Waiting ID combines Call Waiting and Caller ID when you're on the phone to show you the name and number of your second caller.

One bill for local and long-distance calls, Cable and High-Speed Internet

One convenient bill, one dependable company. No matter where you call in Kansas, Missouri, and across the United States, you'll pay the same rate each month, so your bill is easy to understand.

And with one bill for Standard Cable, High-Speed Internet, Local and Long-Distance service, if you ever have questions, you know who to call: Time Warner Cable.

Note: Digital Phone does not include back-up power, and in the case of a cordless phone, should there be a power outage, Digital Phone, including the ability to access 911 services will not be available until the power is restored.
