MISSOURI-AMERICAN WATER COMPANY
NAME OF ISSUING CORPORATION

. .

FOR ST. LOUIS COUNTY, MO
COMMUNITY, TOWN, OR CITY

DESCRIPTION AND TERMS:  To provide for the experimental consolidation of water usage for billing purposes for customers in the St. Louis District owning and occupying contiguous properties served by multiple meters. Qualifying customers and facilities are those locations where a customer's property or contiguous properties are served by a single distribution main or distribution facility, although service is provided through more than one meter.  APPLICABILITY:  This consolidation will be provided to existing customers who apply and whose eligibility under the terms above is confirmed by the Company. Initiation of the bill consolidation for an existing customer will commence at the conclusion of the Company's next general rate case, except for The Boeing Company and DaimlerChrysler, for whom the experiment will start as soon as possible after the effective date of this tariff sheet. New customers may apply for such consolidation at the time service is requested. Bill consolidation will be applied for new customers to the first bill issued to the customer following application and the Company's confirmation of eligibility.  RATE CALCULATION:  Customers qualifying for experimental bill consolidation will be charged for each meter associated with each of the subject property or contiguous properties. Consumption rates under Rate J will be applied to the total aggregated usage of all meters at the property or contiguous properties to arrive at the total bill for service. For Rate J, the 60% maximum usage criteria for any of the months of June July, August or September will be based on the consolidated consumption volume. Thus, the customer's bill calculation will be governed by the rules for the Rate J tariff until such time the customer is no longer eligible under the Experimental Bill Consolidation Tariff.  *— Indicates new rate or text	Europius antal Dill Concellidation Touiss	*
To provide for the experimental consolidation of water usage for billing purposes for customers in the St. Louis District owning and occupying contiguous properties served by multiple meters.
