Subject: MAWC Rate Case, WR-2007-0216 -- Necessity for a Discovery Conference

Judge Dale--

It will be necessary to convene an on-the-record discovery conference in the above-referenced case on the afternoon of Friday, August 3, 2007, in order to take up the issue of AG Processing's failure and refusal to timely respond to DR 285, which I am told is now some 35 days overdue.

I attempted to open a dialogue on the subject with Mr. Conrad and Mr. Woodsmall by e-mail yesterday, but have had no response, although I have received at least one other e-mail communication on a different topic from Mr. Conrad in the interim. Given the scant time remaining until the hearing in this case and my other pressing obligations, I do not have the time to cajole Mr. Conrad into doing what he is in any event obligated to do.

Thank-you.

Kevin A. Thompson
