

# American Wireless Inc.

14 March 2016

Memorandum for: Public Service Commission, State of Missouri

Memorandum from: American Wireless, Inc.

Subject: Response to Attachment A of the Ordered Investigation of Facility Extension Practices by ETCs Eligible to Receive High Cost USF Support – File No. TO-2016-0184

FILED  
March 15, 2016  
Data Center  
Missouri Public  
Service Commission

In submission to the Commission's investigation into facility extension practices of ETCs that are eligible to receive High Cost USF support as authorized by Section 386.330, RSMO 2000, American Wireless Inc. (AWI) offers the following response in sequence corresponding to the questions posed, also named Attachment A. AWI concedes an initial unfamiliarity with Commission policies and language, but welcomes the opportunity to adapt and achieve regulatory compliance by adherence to any feedback offered.

Questions or suggestions should be addressed to the undersigned at 2106 East Jackson Boulevard, Jackson MO 63755 or [grant.snowden@americanwirelessinc.net](mailto:grant.snowden@americanwirelessinc.net). The Commission's patience and support during this period of attunement is greatly appreciated.

W. Grant Snowden II  
Project Manager

Enclosures:

1. Attachment A

---

ATTACHMENT A

1. American Wireless, Inc. ("AWI" or "Company") was granted ETC status January 15, 2016. Since that time, AWI has not participated in any high-cost USF support programs while the company prepares to seek application for high-cost Connect America Fund territories to serve. Because of the recency of being granted ETC status, AWI has not developed or specifically tailored a line extension policy for requests when an applicant for high-cost services requests service to a previously un-served area.
