In support of its request, Applicant provides the following information:

1. Applicant is a limited liability company organized on November 24, 2003 under the laws of Arizona. Its principal office is located at:

Andiamo Telecom, LLC
10575 North 114th Street, Suite 103
Scottsdale, Arizona 85259

Telephone: (602) 344-0115
Facsimile: (602) 344-0118
Toll Free: (866) 253-8746

A copy of Applicant's Articles of Organization and Certificate of Authority to transact business in Missouri are attached hereto as Exhibit I and incorporated herein by reference.

¹ All statutory references are to revised statutes of Missouri, 2000, unless otherwise noted.

2. Andiamo Telecom, LLC proposes to offer resold telecommunications services including travel service available through toll free access, prepaid calling cards, and operator assisted services. Service will be offered to both residential and business customers. The applicant proposes to offer intrastate long distance services in conjunction with interstate services. Service is not mileage sensitive and will be provided twenty-four hours per day, seven (7) days per week. The applicant proposes to offer service statewide. The Applicant's tariff contains the rules and regulations applicable to its customers, a description of the services offered and a list of rates associated with those services. The Applicant's tariff is filed simultaneously with this application showing a forty-five (45) day effective date.
3. Andiamo's statutory representation in the state of Missouri is:

National Registered Agents
300 B- East High Street
Jefferson City, MO 65101
4. Andiamo intends to provide resold long distance telecommunications service seven days a week on a twenty-four (24) hour a day basis, originating and terminating throughout the state of Missouri.
5. Andiamo possesses managerial and technical expertise to provide resale interexchange telecommunications services.
6. Andiamo has ample financial resources to operate as a telecommunications reseller.
7. Andiamo's tariff, which contains the rules and regulations applicable to its customers, a description of the services offered, and a list of rates associated with such services, is being filed simultaneously with this application showing a forty-five (45) day effective date.
8. Andiamo requests classification as a competitive telecommunications company operating within the state of Missouri. Andiamo further requests classification of services described in the Applicant's tariff as competitive services.

9. Applicant will not unjustly discriminate among its customers, which discrimination is prohibited pursuant to Section 392.200.
10. Applicant, pursuant to Section 386.570, will comply with all applicable Commission rules except those which are specifically waived by the Commission pursuant to a request filed by the Applicant.
11. The Applicant will offer operator services to customers and aggregators within Missouri. The primary customers of the Applicant's operator services are presubscribed business and residential customers. Some of these companies may, in their normal course of business, be responsible for providing access and directing telephone calls for end users. Applicant proposes to conduct its operator services within the guidelines determined in rulemaking Docket TX-91-129, or according to subsequent rules for policies established for the State of Missouri. Specifically:
 - All calls are branded before call charges are incurred;
 - Rates, billing method and complaint resolution procedures are disclosed upon request. This service is available at no charge, 24 hours per day.
 - Traffic aggregators are obligated by contract and tariff to display and notice information that complies with FCC rules and applicable state requirements.
 - Traffic aggregators are obligated by contract and tariff to provide access to alternative operator service providers.
 - Where the local exchange carrier has the capability of identifying multiple carriers, Applicant is identified on the end user bill.
 - No location surcharges are collected by Applicant for intrastate Missouri calls.
 - Applicant does not intercept or route 011 calls. These calls complete directly through the serving local exchange carrier. Applicant routes emergency 0- and 00- calls efficiently to the appropriate emergency agency in locations where it handles such calls.

Applicant's carrier uses reliable answer detection techniques and Applicant will not knowingly bill for incomplete calls. If for any reason a caller believes he or she has been charged for an uncompleted call, Applicant will issue credit for the charges under all reasonable circumstances.

13. Applicant also respectfully requests, pursuant to Section 392.420, that the Commission suspend, waive or modify the application of the following rules and statutory provisions as they relate to the regulation of the applicant:

4 CSR 240-10.020	--	Depreciation fund income
4 CSR 240-3.545 (2)(C)	--	Posting of exchange rates at central operating offices
4 CSR240-30.040	--	Uniform system of accounts
4 CSR 240-32.030	--	Inform customers of lowest price
Section 392.210.2	--	Uniform System of Accounts
Section 392.240(1)	--	Just & Reasonable Rates
Section 392.270	--	Property valuation
Section 392.280	--	Depreciation rates
Section 392.290	--	Issuance of securities
Section 392.300.2	--	Acquisition of Stocks
Section 392.310	--	Issuance of stocks and bonds
Section 392.320	--	Stock dividends
Section 392.330	--	Issuance of securities, debt and notes
Section 392.340	--	Reorganization

The above referenced rules and statutory provisions have been waived with regard to other interexchange carriers in prior cases. These rules or statutory provisions are principally designed to apply to noncompetitive telecommunications carriers. It would be inconsistent with the goal and purpose of Section 392.530 to apply them to a competitive telecommunications carrier such as the Applicant.

14. Applicant has no annual reports or regulatory assessment fees that are overdue in Missouri.
15. Applicant has no pending actions of final unjustified judgments or decisions against it from any state or federal agency or court which involve customer service or rates, which action, judgment or decision has occurred within three (3) years of the date of the Application.

WHEREFORE, Andiamo Telecom, LLC, respectfully requests that the Commission grant it a certificate of authority to offer competitive intrastate interexchange telecommunications service within the state of Missouri; an order classifying it as a competitive telecommunications company providing competitive service; an order suspending, waiving or modifying the above referenced rules and statutory provision as they relate to the regulation of the Applicant in the state of Missouri, and for such further orders as the Commission deems appropriate.

Respectfully submitted,

James M. Fischer, MBN 27543
