In addition, Applicants request that each of them and their services be classified as competitive and that the Commission waive certain statutes and regulations. STi Prepaid provides the following information to support this Application:

**I. Description of Applicant**

STi Prepaid is a limited liability company organized under the laws of Delaware. A copy of Applicant’s articles of organization are attached as Exhibit A. STi Prepaid is qualified to transact business in the state of Missouri and holds a certificate of authority as a foreign limited liability company. A copy of the certificate of authority is attached as Exhibit B. Applicant will provide service under the fictitious names Telco Group, Telco, TGI, Dialaround Enterprises, Dialaround, VOIP Enterprises, VOIP and DEL. A copy of the registrations of the fictitious names is attached as Exhibit C.

Pursuant to an Asset Purchase and Contribution Agreement (“Agreement”) Dialaround Enterprises Inc. (“DEI”), a certificated provider of interexchange services in Missouri,<sup>1</sup> and certain of its affiliates, and STi Prepaid and certain of its affiliates agreed to transfer all or substantially all of DEI’s assets and liabilities to STi Prepaid, including the authorization held by DEI to provide service in the state of Missouri (the “Transaction”). Concurrent with this Application, DEI and STi Prepaid are filing with this Commission an application to transfer DEI’s assets to STi Prepaid.

After consummation of this transaction, STi Prepaid will provide telecommunications services to former DEI customers. Specifically, STi Prepaid plans to provide intrastate resold interexchange telecommunications services in Missouri, including dial-around (10-10) and prepaid calling card services. Following approval by the Commission of this transaction, DEI will cease operations in Missouri and surrender its authorization.

## **II. Proposed Services**

Each Applicant seeks to be classified as a competitive telecommunications company. Each Applicant is a switchless, non-facilities-based interexchange resale carrier providing switched interexchange telecommunications services, including prepaid calling card services and dial-around (10-10) services to businesses and residences. Each Applicant proposes to offer these services throughout the state of Missouri. All underlying network services will be supplied by other certificated carriers in Missouri. Applicants' proposed tariffs setting out the services and charges offered by STi Prepaid are attached as Exhibits D, E, F, G, H, I, J, K, and L, and will be effective 45 days from the date of submission.

As a newly formed entity, STi Prepaid does not have any annual reports or assessment fees that are overdue in Missouri.

## **III. Waivers**

Each Applicant respectfully requests that the Commission waive the following rules and statutory provisions as they relate to the regulation of the Applicant as an interexchange carrier:

<u>Rule/Statute</u>	
392.210.2	Uniform System of Accounts
392.240(1)	Just and Reasonable Rates
392.270	Ascertain Property Values
392.280	Depreciation Accounts

392.290	Issuance of Securities
392.300.2	Acquisition of Stock
392.310	Issuance of Stock and Debt
392.320	Stock Dividend Payment

392.340	Reorganizations
4 CSR 240-10.020	Depreciation Fund Income
4 CSR 240-30.040	Uniform System of Accounts

#### **IV. Public Interest**

STi Prepaid's entry into the Missouri marketplace is in the public interest because STi Prepaid intends to make available an attractive blend of service quality and low rates. In addition to the direct benefits delivered to the public by its services, STi Prepaid's entry into the Missouri marketplace will benefit the public indirectly by increasing the competitive pressure felt by existing interexchange carriers ("IXCs") spurring them to lower costs and improve services in response.

## **V. Conclusion**

STi Prepaid respectfully requests that the Missouri Public Service Commission: grant Certificates of Service Authority to it and each of its listed d/b/a's to provide competitive intrastate interexchange telecommunications services within the State of Missouri; classify each as a competitive telecommunications company providing competitive service; and waive the above-referenced rules and statutory provisions as they relate to the regulation of each of the Applicants in the state of Missouri.

Respectfully submitted.
