for a Certificate of Service Authority to provide)	<u>Case No. XA-2009-0420</u>
Interexchange Telecommunications Services)	Tariff No. YX-2009-0823

STAFF RECOMMENDATION

COMES NOW the Staff (“Staff”) of the Missouri Public Service Commission (“Commission”), by and through counsel, and for its Staff Recommendation respectfully states as follows:

1. On May 22, 2009, Inteltrace, Inc., (“Inteltrace” or “Company”) filed an Application (“Application”) with the Commission requesting that the Commission grant the Company a certificate of service authority to provide interexchange telecommunication services in the State of Missouri, classify Company and its services as competitive, grant the requested waivers, and approve the Company’s initial proposed interexchange tariff.

2. On May 27, 2009, the Commission published its *Notice of Applications for Interstate Certificates of Service Authority and Opportunity to Intervene*, providing notice and setting an intervention deadline of June 11, 2009.

3. In its *Order Directing Filing of Staff Recommendation*, issued June 16, 2009, the Commission ordered Staff to file a recommendation regarding the Company’s *Application* no later than June 25, 2009.

4. Pursuant to Sections 392.430 and 392.44 RSMo (2000)¹, the Commission shall grant an application for a certificate of telecommunications service authority upon a finding that the grant of authority is in the public interest.

¹ All statutory references refer to the Revised Statute of Missouri (2000), as currently supplement.

5. In the attached Memorandum, labeled Appendix A, Staff recommends that because the *Application* demonstrates that the grant of authority is in the public interest that the Commission grants Intellease a certificate to provide interexchange telecommunication services.

6. Staff also recommends that the Commission classify Intellease and the services it proposes to offer in its *Application* as competitive. Pursuant to Section 392.361.4, the Commission may classify a telecommunications provider or its services as competitive if the Commission determines it is subject to sufficient competition to justify a lesser degree of regulation. Under Section 392.361.3, as amended by HB 1779 (effective August 28, 2008), in order to be classified as competitive, the majority of services offered by the company must be classified as competitive.

7. Staff further recommends that the Commission grant the waivers listed in Intellease's *Application*. Pursuant to Sections 392.185, 392.361.5 and 392.420, the Commission may waive the application of its rules and certain statutes if the Commission determines that waiver is consistent with the purposes of Chapter 392.

8. Staff has no objection to Intellease's submitted tariff becoming effective on the proposed effective date of July 7, 2009.

9. The Company is not delinquent in the filing of its annual report, the payment of Public Service Commission assessment, or the remittance of either the MoUSF or Relay Missouri surcharges.

WHEREFORE, Staff recommends that the Commission issue an Order (1) granting Intellease, Inc. a certificate of service authority to provide interexchange telecommunications services; (2) granting the Company the requested competitive classification and requested

waivers listed in Intellectrace's *Application*; (3) approving Intellectrace's proposed interexchange tariff; and (4) indicating that unless exercised within one year from its issuance that authority conferred by a certificate of service authority shall be null and void.

Respectfully submitted,

2. If the directly competing ILEC, in whose service area the applicant is operating, decreases its originating and/or terminating access service rates, the applicant shall file an appropriate tariff amendment to reduce its originating and/or terminating access rates in the directly competing ILEC's service area
