**3. SERVICE AND RATE DESCRIPTION****.1 Debit Card Service<sup>1</sup>** (C)

The ASC Telecom Debit Card allows customers to pay a fixed dollar amount in advance for long distance calling over ASC Telecom's network. Customers use an "800" number for access from touch tone phones. Customers can place domestic and international direct dial calls using the service. Cards are decremented for each minute or fractional minute of use as set forth below. As calls are placed, charges for the call are deducted on a real time basis until the full amount of the card is exhausted. Customers will be notified in advance of the exhaustion of the card. An expiration date, if applicable, is printed on the card. The rates paid by the customer until the card is exhausted or until there are insufficient funds remaining to initiate an additional call, are the rates in effect at the time the card is purchased. Debit Card accounts may be replenished at the rates specified for replenished cards.

The following types of calls may not be completed using the ASC Debit Card:

- \* calls to 700, 800, and 900 numbers
- \* calls to directory assistance
- \* operator assisted calls
- \* conference calls
- \* calls requiring time and/or charges

The ASC Debit Card is available twenty-four hours a day, seven days a week. The cards will be offered to customers on a first serve basis and may be offered in conjunction with other ASC products.

<sup>1</sup> Effective June 21, 1998, ASC Telecom Debit Card will no longer be available to new customers.
