

The Commission issued a Notice of Applications for Intrastate Certificates of Service Authority and Opportunity to Intervene on June 27, 2006, directing parties wishing to intervene to file their requests by July 12, 2006. No requests for intervention were filed.

Integrated Services filed a proposed tariff in conjunction with its application and filed substitute sheets on June 22, 2006. The tariff's effective date is August 6, 2006. Integrated Services' tariff describes the rates, rules, and regulations it intends to use, identifies Integrated Services as a competitive company, and lists the waivers requested. Integrated Services intends to provide interexchange telecommunications services including interexchange telecommunications services services.

In its Memorandum filed on July 17, 2006, the Staff of the Commission recommended that the Commission grant Integrated Services a certificate of service authority, competitive status, and waiver of the statutes and rules listed in the Notice. Staff recommended that the Commission approve the proposed tariff as amended to become effective on August 6, 2006.

The Commission finds that competition in the intrastate interexchange telecommunications market is in the public interest and Integrated Services shall be granted a certificate of service authority. The Commission finds that the services Integrated Services proposes to offer are competitive, and Integrated Services shall be classified as a competitive company. The Commission finds that waiving the statutes and Commission rules set out in the ordered paragraph below is reasonable and not detrimental to the public interest.

The Commission finds that Integrated Services' proposed tariff details the services, equipment, and pricing it proposes to offer. The Commission finds that the

proposed tariff filed on June 22, 2006, shall be approved as amended to become effective on August 6, 2006.

The Commission reminds the company that failure to comply with its regulatory obligations may result in the assessment of penalties against it. These regulatory obligations include, but are not limited to, the following:

A) The obligation to file an annual report, as established by Section 392.210, RSMo 2000. Failure to comply with this obligation will make the utility liable to a penalty of \$100 per day for each day that the violation continues. 4 CSR 240-3.540 requires telecommunications utilities to file their annual report on or before April 15 of each year.

B) The obligation to pay an annual assessment fee established by the Commission, as required by Section 386.370, RSMo 2000.

C) The obligation to comply with all relevant laws and regulations, as well as orders issued by the Commission. If the company fails to comply, it is subject to penalties for noncompliance ranging from \$100 to \$2,000 per day of noncompliance, pursuant to Section 386.570, RSMo 2000.

D) The obligation to keep the Commission informed of its current address and telephone number.

Furthermore, the company is reminded that, if it is a corporation, non-attorneys may not represent the company before the Commission. Instead, the corporation must be represented by an attorney licensed to practice law in Missouri.

In addition, the company is reminded that Section 392.410.5, RSMo Supp. 2005, renders the company's certificate of service authority null and void one year from the date of this order unless it has exercised its authority under that certificate.
