MOTION FOR LEAVE TO AMEND APPLICATION

Comes now Advanced Telemanagement Group, Inc. (Applicant or "Advanced"), pursuant to 4
CSR 240-2.080(20) and for its motion for leave to amend application states as follows:

1. Applicant proposes to offer certain private line services and therefore needs certificate of service authority to offer and provide non-switched local service. The current application makes no official request for non-switched local service authority.
2. The first amended application (attached) differs from the initial application only in the respect that a request for non-switched local service authority has been added.
3. In its notice of applications and opportunity to intervene issued September 30, 2003, the Commission classified Advanced's request as one for interexchange and non-switched local exchange service authority. As a consequence, no revised notice is necessary.
4. This case is not contested. Staff is expected to recommend approval of the application and proposed tariffs shortly. Granting leave to amend would not delay the cause, or prejudice the parties; to the contrary, it would serve the interests of fairness and justice.

WHEREFORE, Applicant respectfully requests that the Missouri Public Service Commission grant its motion for leave to amend the application, and permit the filing of the attached First Amended Application.

Respectfully submitted,

Mark W. Comley #28847
