Edward Lander

v.

Missouri American Water Co.

File No. WC-2018-0099

REPLY TO MAWC'S INITIAL POST HEARING BRIEF

In my 57 years of practicing law, I have never seen such a distortion of facts written by a member of the bar.

Although I have not been furnished a copy of the transcript, from my memory and notes I have several comments on the accuracy of Ms. Carter's "BRIEF".

First, respondent never extended me a second leak adjustment.

Second, when the man came out to test the meter, when every thing was turned off in the house, the meter did not register any water usage. The alleged facts in the second paragraph referring to 9/17/16, never happened.

I respectfully request that the commission compare Ms. Carter assertions to the transcript and rule accordingly.

Respectfully Submitted
