GTE MIDWEST INCORPORATEDDIGITAL DATA TRANSMISSION SERVICEMISSOURI
Public Service Commission

GTE MIDWEST INCORPORATED, a Delaware Corporation, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by Contel of Missouri, Inc. d/b/a GTE Missouri prior to April 1, 1993, the beginning of its possession.

By this notice it also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which Contel of Missouri, Inc. d/b/a GTE Missouri has heretofore filed with said Commission.

This Tariff is applicable to the following GTE MIDWEST INCORPORATED exchanges for Digital Data Transmission Service:

DIGITAL DATA TRANSMISSION SERVICE

RECEIVED

MAY 2 1988

MISSOURI
Public Service Commission1. General Regulations1.1 Undertaking of the Company1.1.1 Scope

- (A) This Tariff section contains the general regulations and definitions governing Digital Data Transmission Service furnished by the Company.
- (B) Digital Data Transmission Service is the furnishing of Company service components for communication between specified locations all within Local Transport and Access Areas (LATA's) of the State of Missouri 24 hours daily, seven days per week. Service components may be those of the Company only or those of the Company and other companies.
- (C) The Company does not undertake to transmit messages, but offers the use of its service components, where available, to customers for such purposes.

1.1.2 Limitations

- (A) The use and restoration of service shall be in accordance with the Federal Communications Commission's Rules and Regulations which specifies the priority system for such activities.
- (B) The furnishing of service under this Tariff will require certain physical arrangements of the service components of the Company and is, therefore, subject to the availability of such service components.
- (C) Digital Data Transmission Service may be limited in order to comply with orders issued under wartime authority of the President of the United States.

1.1 Undertaking of the Company (Cont'd)MISSOURI
Public Service Commission1.1.3 Liability

- (A) The Company shall not be liable for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service hereunder where the same is caused by the negligence of the customer or user. Any liability of the Company for damages arising out of any of the foregoing or for failing to maintain proper standards of maintenance and operation or for failing to exercise reasonable supervision shall, in no event, exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay or error or defect in transmission occurs.
- (B) The Company shall be indemnified and saved harmless by the customer or user against:
- (1) Claims for libel, slander and infringement of copyright arising from the material transmitted over the service components;
 - (2) Claims for infringement of patents arising from combining with, or using in connection with, service components furnished by the Company, apparatus and systems of the customer or user; and
 - (3) All other claims arising out of any act of omission of the customer or user in connection with the service components provided by the Company.

MISSOURI
Public Service Commission

1. General Regulations (Cont'd)
1.1 Undertaking of the Company (Cont'd)
1.1.3 Liability (Cont'd)

(C) The Company does not guarantee nor make any warranty with respect to service components provided by it for use in an explosive atmosphere. The customer or user indemnifies and holds the Company harmless from any and all loss, claims, demands, suits or other action or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or user or by any other party or persons for any personal injury to or death of any person or persons and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location or use of said service components so provided.

The Company will require each customer to sign an agreement for the furnishing of such service components as a condition precedent to the furnishing of such service components.

(D) The Company is not liable for any defacement of or damage to the premises of a customer (or user) resulting from the furnishing of channel service components or the attachment of the associated wiring furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.

1.1.4 Provision of Service Components

(A) The Company will provide all service components necessary for Digital Data Transmission Service up to the demarcation point (interface) of the channel. The customer will be responsible for providing his own terminal equipment, customer-provided derivation equipment or communications system for use with such service as specified in this Tariff.

1. General Regulations (Cont'd)1.1 Undertaking of the Company (Cont'd)1.1.4 Provision of Service Components (Cont'd)MISSOURI
Public Service Commission

(B) Digital Data Transmission Service furnished by the Company will be provided at the rates contained in this Tariff where service components and operating conditions permit. Where service components are not available and unusual expenditures are involved in making them available, the customer may be required to pay additional charges to cover the unusual expenditure in accordance with Paragraph 1.4.4 of this Tariff, or contract beyond the initial period, or both.

(C) The charges specified in this Tariff do not contemplate installation, maintenance or repair work being performed by the Company employees involved at a time when overtime wages apply as a result of customer requests, nor do they contemplate work once begun being interrupted by the customer.

If the customer requests that labor be performed at hours of the day or days of the week other than normal work hours or days, or on holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies. Such charges do not apply if sufficient advance notice is given so that employees' work schedules can be changed. The additional charge does not apply to overtime or premium time worked at the Company's convenience.

In situations where the customer requests that "standby" Company personnel be provided for installation or maintenance irrespective of when such "standby" workmen are provided, the additional estimated cost of providing such "standby" personnel will be billed to the customer.

(D) When the customer requires the modification of standard service components not otherwise provided in this Tariff, the modification can be furnished by the Company at additional rates and charges, provided the modification is in connection with and not detrimental to any of the services furnished in this Tariff.

1.1.5 Service Guarantee

Public Service Commission

This service is guaranteed to provide an average performance of at least 99.5 percent error-free seconds up to the demarcation point (interface) of the channel for operation at all transmission speeds offered in this Tariff. When Digital Data Transmission Service is operating at an error performance level that is unsatisfactory to the customer, and the Company determines that the error performance level is below that specified above, the period of substandard performance will be considered as an interruption, and a credit allowance will be made in accordance with provisions in Paragraph 1.4.8 (C) of this Tariff. All such credit allowances shall begin from the time of notice by the customer or user to the Company that an unsatisfactory performance level has occurred, provided that the customer promptly releases the service as requested by the Company to perform testing and maintenance.

1.2 Use

Digital Data Transmission Service may be used for the purposes specified in Paragraph 1.2.1, following.

1.2.1 Authorized Use

- (A) Digital Data Transmission Service may be used for transmission of communications to or from the customer's service points and relating to the customer's business.
- (B) Digital Data Transmission Service may be used for transmission of communications relating directly to the business of the subsidiary corporations over which the customer exercises control through the ownership of more than 50 percent of the voting stock.

Public Service Commission

- 1. General Regulations (Cont'd)
- 1.2 Use (Cont'd)
- 1.2.2 Unlawful Purposes

The service is furnished subject to the condition that it will not be used for any unlawful purpose. Service will be discontinued forthwith if any law enforcement agency, acting within its apparent jurisdiction, advises in writing that such service or channels are being used in violation of law. The Company will refuse to furnish service when it has reasonable grounds to believe that such service will be used in violation of the law.

- 1.2.3 Resale of Use to Others

Digital Data Transmission Service shall not be used for any purpose for which payment or other consideration, direct or indirect, shall be received by the customer. The foregoing does not apply to a Composite Data Service Vendor's premises where one type of service may be provided for the exclusive use of the Composite Data Service Vendor's management or employees and other type of service may be provided for the use of the Composite Data Service Vendor as defined in the Federal Communications Commission's Rules and Regulations.

- 1.2.4 Shared Use

- (A) A user must have a service point on the service, and the service point must be located on the premises of the user and connected to the service by means of a separate access channel, except that these requirements do not apply to a user of a service with respect to his use of digital bit streams created by customer- (or user-) provided derivation equipment, provided the customer or user has a service point on the line connected to such equipment in accordance with Paragraph 1.6.2, following.

(B) The Company shall not be responsible for the manner in which the use of service will be allocated. Orders which involve the start, rearrangement, release or discontinuance of service will be accepted by the Company only from the customer.

(C) The charges for Digital Data Transmission Service shall be determined as provided in this Tariff, and all charges for the service will be billed to the customer. The charges allocated by the customer for Digital Data Transmission Service shall not exceed the total charge billed to the customer by the Company.

1.3 Obligations of the Customer1.3.1 Customer Responsibilities

The customer shall be responsible for:

(A) Damages to service components of the Company caused by the negligence or willful act of the customer and not due to ordinary wear and tear or other causes beyond the control of the customer.

(B) Reimbursing the Company for any loss through theft of the service components on the customer's premises.

(C) The provision, installation and maintenance of sealed conduit with explosive-proof fittings between service components furnished by the Company in explosive atmospheres and points outside the hazardous area where connection may be made with regular service components of the Company and may be required to install and maintain Company service components within the hazardous area if, in the opinion of the Company, injury or damage to Company employees or property might result from installation or maintenance by the Company.

MISSOURI
Public Service Commission

1. General Regulations (Cont'd)
- 1.4 Payment Arrangements and Credit Allowances
- 1.4.1 Payment of Charges and Deposits
- (A) Advance Payments

Applicants for service who have no account with the Company or whose financial responsibility is not a matter of general knowledge, may be required to make an advance payment at the time an application for service is placed with the Company, equal to the nonrecurring charges, if applicable, and at least one month's charges for the service provided. The amount of the advance payment is credited to the customer's account as applying to any indebtedness of the customer for the service furnished.

- (B) Payment for Service

The customer is responsible for payment of all charges as specified in this Tariff for services furnished the customer. Nonrecurring charges are payable upon request.

- (C) Deposits

The Company may require an applicant or a present customer to post a deposit in accordance with the provisions of the General Regulations Applying to Establishment and Furnishing of Service in Section 2 of the Local Exchange Tariff.

- 1.4.2 Cancellation for Cause

The Company shall be authorized to discontinue service upon notice from any official charged with the enforcement of the law stating that such service is being used as an instrumentality to violate the law.

1.4.3. Minimum and Fractional Rates and Charges

Public Service Commission

(A) The minimum service period is one month, except when the cost of special construction is such as to necessitate a longer contract period.

(B) If the period of use exceeds one month, the charges for the fractional part of a month following and consecutive with a full month will be a proportionate part of the monthly charges based on the actual number of days the service components are furnished. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.

The applicable charges for a Digital Data Transmission Service, or any component thereof, including additions to an existing service, shall commence on the day after service is furnished and will continue to accrue through and include the day on which such service is discontinued.

When an existing Digital Data Transmission Service, or any component thereof, is changed or rearranged at the request of the customer without the addition of service components, access lines or channels, any revision in charges necessitated thereby shall commence on the same day that the change or rearrangement is completed.

(C) In applying a rate involving a fraction of a cent, the fraction is carried through the entire computation of the charge for the service. When the charge so computed includes a fraction of a cent, a fraction of less than one-half cent is disregarded and a fraction of one-half cent or more is treated as one cent.

1.4.4 Special Construction (Cont'd)

Public Service Commission

- (C) Where special construction of service components has been started prior to the cancellation, and there is no other requirement for the specially constructed service components, a charge equal to the costs incurred in the special construction, less net salvage, applies, except that where one or more, but not all, of the services involved in the special construction are canceled, a charge equal to the cost, less net salvage, incurred for the discontinued services applies instead. Net salvage is determined based on the value of reusable material, less cost of removal. In determining the charge, each canceled service is treated as discontinued as of the date on which it was to have been placed in service.

CANCELLED

- (D) Installation or special construction of service components for a customer is considered to have started when the Company incurs any expense in connection therewith, or in preparation therefore, which would not otherwise have been incurred; provided the customer has advised the Company to proceed with the installation or special construction.

SEP 15 1994

93-1

Public Service Commission

- (E) No charge applies where special construction has been started prior to cancellation, and it is determined by the Company that there is another requirement for the service components.
- (F) No charge applies where the applicant cancels an application for service prior to the start of special construction of service components.

1.4.5 Change in Service Arrangement

The nonrecurring charge for the applicable operating speed applies when the customer requests a change in service arrangement that results in a change in operation of the service components provided by the Company.

MISSOURI

Company - Contel of Missouri, Inc.

Public Service Commission

Accessories - Devices which are mechanically attached to, or used with, the service components furnished by the Company and which are independent of, and not electrically, acoustically or inductively connected to the conductors in the communications path of the Company service components.

Bit - The smallest unit of information in the binary system of notation.

Channel - A path (or paths) for intraLATA digital transmission between a customer's premises and a Digital Hub, or between Digital Hubs. A channel is comprised of local distribution and interoffice sections as required. A channel may be furnished in such manner as the Company may elect, whether by wire, radio or a combination thereof and whether or not by means of a single physical facility or route.

CANCELLED

SEP 15 1994

93-1

Channel Service Unit - Denotes service components provided by the customer to terminate Digital Data Transmission Service at a customer's premises.

Composite Data Service - The combined use of terminal and data switching equipment provided by a Composite Data Service Vendor with the use of telecommunications services of the Company to perform data switching for others.

Composite Data Service Vendor - A customer that has been certified by the proper state or municipal regulatory body, and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate service components to perform data switching for others. A customer shall be classified as a Composite Data Service Vendor only with respect to use of those exchange services which are utilized for the provision of Composite Data Service.

Connecting Company - A corporation, association, firm or individual owning and operating one or more exchanges and with whom traffic is interchanged.

Customer - The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with Company regulations. A customer for Digital Data Transmission Service must have a communication requirement of his own for its use, except where:

- The customer is a Composite Data Service Vendor; or
- The service is provided for the transmission of communications relating directly to the business of a subsidiary corporation over which the customer exercises control through ownership of more than 50 percent of the voting stock; or
- The customer for Digital Data Transmission Service orders the addition of service points to meet the communications requirements of a user of such service and such additional service points are required.

SEP 15 1994

Customer-Provided Communications System - Denotes facilities provided by a customer or user which are capable, when not connected to Digital Data Transmission Service, of communications between customer-provided terminal equipment.

Customer Premises Equipment - Communications devices, apparatus and their associated wiring provided by a customer or user which do not constitute a communications system.

Data Service Unit - A service component which performs the processing functions, such as coding and decoding of signals, timing recovery, synchronous sampling, formatting and the generation and recognition of control signals. The Data Service Unit is not a component of Digital Data Transmission Service and is considered Customer Premises Equipment.

2.3.3 Wideband Digital Service/1.544 Mbps

SEP 15 1994

(A) GeneralBY 93-1
Public Service Commission

Wideband Digital Service/1.544 Mbps is a two-point, intraLATA dedicated High Capacity Channel used for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital signals at a transmission speed of 1.544 Mbps. The channel design objective is to provide an average performance of at least 95 percent error-free seconds of transmission measured over a continuous 24-hour period through the Channel Service Unit or its functional equivalent as set forth in Technical Reference - PUB 62411 for High Capacity Digital Service Channel Interface Specification.

(B) Regulations

- (1) The regulations and rates specified herein are in addition to the applicable regulations found in other sections of this Tariff.

(2) Availability of Service

Wideband Digital Service/1.544 Mbps can only be provided where digital facilities exist within the same LATA. Services between serving offices must have digital service components between all intermediate offices to have the ability to provide the service.

CANCELLED

(3) Provision of Service

- (a) Wideband Digital Service/1.544 Mbps is available only on a two-point intraLATA basis.

SEP 15 1994

BY 93-1

- (b) Wideband Digital Service/1.544 Mbps is furnished on a full-time basis (24 hours a day, seven days per week).

Public Service Commission

- (c) Customer requests for Wideband Digital Service/1.544 Mbps where suitable service components are not available and the Company constructs the requested service components, when certain conditions exist, is considered special construction. The regulations, rates and charges applicable to special construction are found in the Special Construction section of the Local Exchange Tariff. Service availability will be negotiated locally.

- (d) The Company has the service responsibility up to the point of minimum penetration(1) on the customer's premises at which the network interface appears for the customer-provided equipment. The network interface will be provided by the Company as set forth in Technical Reference - PUB 62411.

CANCELLED

- (e) Connection of Terminal Equipment or a Communications System to a Wideband Digital Service/1.544 Mbps

SEP 15 1994

- [1] Connections to a Wideband Digital Service/1.544 Mbps Terminal equipment, or a communications system which does not have the capability to transmit signals with encoded analog content via a Wideband Digital Service/1.544 Mbps to the telecommunications network or to a Category I or Category III private line circuit as identified in the Federal Communications Commission's Rules and Regulations may be directly connected to the demarcation point of the circuit. All other connections to a Wideband Digital Service/1.544 Mbps are also made at a demarcation point and must be made in accordance with the following regulations.

- [2] Connection of Terminal Equipment - Terminal equipment may be connected to a Wideband Digital Service/1.544 Mbps through, or in combination with, channel derivation equipment. If the connection provides the capability to transmit signals with encoded analog content via the Wideband Digital Service/1.544 Mbps to the telecommunications network or to a Category I or Category III private line circuit, as identified in the Federal Communications Commission's Rules and Regulations, it must be connected in accordance with a type listed on the Program Summary provided by the Federal Communications Commission.

In addition, when voice-band data terminal equipment is used with the channel derivation equipment, the voice-band data terminal equipment must comply with the Federal Communications Commission's Rules and Regulations to ensure continued billing integrity.

DIGITAL DATA TRANSMISSION SERVICE

2. Services and Rates (Cont'd)2.3 Rates (Cont'd)2.3.3 Wideband Digital Service/1.544 Mbps (Cont'd)(B) Regulations (Cont'd)(4) Customer Signal Constraint

All signals generated by the customer's terminal equipment must meet certain signal and format constraints. Some of these constraints are as listed below. Additional details are set forth in Technical Reference - PUB 62411.

(a) Data Rate: 1.544 Mbps +/- 75 bps.

(b) Consecutive zeros: No more than 15 consecutive zeros may be generated.

(c) Pulse density: At least 3 pulses in any 24 bit interval.

(5) Allowance for Interruptions

Credit allowances are determined in accordance with regulations set forth in Paragraph 1 of this Tariff.

Wideband Digital Service/1.544 Mbps is considered interrupted when the customer reports that service continuity has been lost or that the service is operating at a performance level of 300 or more seconds of transmission containing errors in a consecutive 15-minute period.

(C) Rates

There are six basic rate elements which apply to Wideband Digital Service/1.544 Mbps:

Local Distribution Channels
Intraexchange Interoffice Channel and Channel Terminals
Interexchange Interoffice Channel and Channel Terminals
Channel Service Unit
Optional Service Functions
Service Charge

(1) Local Distribution Channel

A Local Distribution Channel is a channel between a customer's premises and the Company serving office serving that customer. Mileage used to rate the Local Distribution Channel is the direct airline distance measured in quarter mile increments between the customer's premises and the serving office.

CANCELLED
SEP 15 1994(2) Interexchange Interoffice ChannelBY 93-1
Public Service Commission

Interexchange Interoffice Channel is defined as the component of the service between two serving offices where the serving offices are in different exchanges within the LATA. Charges include a fixed channel terminal charge and channel mileage which is based on V-H distance between the serving offices, measured in whole miles. Fractional miles are rounded to the next whole mile. Two Channel Terminal charges are required per Interexchange Interoffice Channel.

(4) Optional Service Functions

SEP 15 1994

(a) Automatic Protection Capability

BY 93-1

Public Service Commission

The Automatic Protection Capability (APC) service function, when used in conjunction with compatible customer-provided APC at the customer's premises, provides protection for the Local Distribution Channel by automatically switching the Local Distribution Channel(s) to a spare Local Distribution Channel. The customer is responsible for circuit compatibility with existing Central Office equipment.

Spare Local Distribution Channel(s) are not included with the Automatic Protection Capability. They must be ordered separately at the rates and charges specified in Paragraph 2.3.3 (D), following.

2. Services and Rates (Cont'd)2.3 Rates (Cont'd)2.3.3 Wideband Digital Service/1.544 Mbps (Cont'd)(C) Rates (Cont'd)(4) Optional Service Functions (Cont'd)(b) Transfer Arrangement

The Transfer Arrangement service function permits a customer to transfer an Interoffice Channel between two Local Distribution Channels terminating in the same serving office. The two Local Distribution Channels must use the same signal format. The spare Local Distribution Channel is not included in the Transfer Arrangement. It must be ordered separately as specified in Paragraph 2.3.3 (D), following.

A key activated control circuit is required to operate the transfer arrangement. A Special Signaling Channel between the customer-designated control station and the serving office may be obtained from this Tariff for this purpose. The control key must be provided by the customer.

(5) Service Charge

A service charge applies per point of termination installed or moved as provided below:
