2.5 Deposits

The Company reserves the right to examine the credit record of the Customer, using any lawful sources for determining credit standing. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be equal to two months' estimated usage but may vary with the Customer's credit history and projected usage. In the case of new applicants for service, the average monthly bill for new subscribers within a customer class will be used to calculate the two months' estimated usage.

The Customer shall be apprized that after one year of service the Account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this tariff, the deposit shall be refunded with interest as required by 4 CSR 240-33.050(4)(B).

Upon discontinuance or termination, the deposit shall be credited, with accrued interest as required by 4 CSR 240-33.050(4)(B), to the charge stated on the final bill and the balance, if any, shall be returned to the customer within twenty-one (21) days of the rendition of the final bill.

If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.

The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

2.7.3 Public Pay Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all interstate, intrastate and international calls that originate from any domestic pay telephone used to access the Company's services. The Public Pay Telephone Surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with the Company's service, applies for the use of the instrument used to access the Company service and is unrelated to the Company's service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

3.4 Calculation of Distance

For services which are distance sensitive, usage charges are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

- Step 1: Obtain the "V" and "H" coordinates for the serving wire center of the Customer's switch and the destination point.
- Step 2: Obtain the difference between the "V" coordinates of each of the serving wire centers. Obtain the difference between the "H" coordinates.
- Step 3: Square the differences obtained in Step 2.
- Step 4: Add the squares of the "V" difference and "H" difference obtained in Step 3.
- Step 5: Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.
- Step 6: Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICES AND RATES, (CONT'D.)

3.8 Pre-Paid Calling Card

Dancris' Pre-Paid Card plans allow customers to pay a fixed dollar amount in advance for long distance calling. Customers must dial an access code from a touch tone phone to use the service. Cards are rated in dollars per minute. Fractional call minutes are rounded up to the nearest full minute. As calls are placed, charges for the call are deducted on a real-time basis until the full amount of the card is exhausted. Calls are limited to direct dial calls. Air to ground services, as well as calls to 500, 700, or 900 numbers are blocked. (See Section 2.7.3 regarding the Public Telephone Surcharge.)

Cards are available in replenishable and non-replenishable varieties. Replenishable cards expire 180 days from last use. Non-replenishable cards expire one (1) year from the date of purchase, or 180 days from last use. The fee for replenishment is \$1.00 per occasion per account.

The Dancris Pre-Paid Calling Card plans are available for use twenty-four hours a day, seven days a week. Long distance taxes are included in the purchase price of the card.

A Pre-Paid Calling Card account is established upon receipt of payment by the Company. The Company reserves the right to determine acceptable types of payment.

The Pre-Paid Calling Card service rate does not include federal excise tax or state and local taxes, which are required to be paid at the point of sale. The tariffed rate does include state and local taxes, which are required to be paid on usage of the underlying telecommunications service when that service originates and terminates within a particular tax jurisdiction.

Enhanced calling features, such as Voice Mail, Fax Store and Forward, Fax Broadcast, Conference Calling and Voice Recognition may be available with Dancris' Pre-Paid calling card services. These services may involve additional charges.

Three card types are available: Standard, Sponsor, and Collectible.
