TARIFF FORMAT

- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, new sheets are added to the Tariff from time to time. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised sheet 14 cancels the 3rd revised sheet 14.
- C. Paragraph Numbering Sequence - There are seven levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.1
- 2.1.1
- 2.1.1 (A)
- 2.1.1 (A).1
- 2.1.1 (A).1.a
- 2.1.1 (A).1.a.i
- 2.1.1 (A).1.a.i (1)

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Service Commission

Access or Access Line: A transmission line used to transmit voice and/or data calls from the Customer's Premises to a telephone company serving Wire Center or a Company-designated POP or from a telephone company serving Wire Center or a Company-designated POP to the Customer's Premises. T

Airline Mileage: The distance in mileage between two Wire Centers whose position is specified by industry standards.

Alternate Routing PVC: Provides a logical connection to an alternate host site processor/server in the event of an outage at the primary location. Alternate Routing PVCs are utilized in the event of an outage at the primary location only, not typical day-to-day use. N

Ancillary Charges: Charges for supplementary Services as set forth in this Tariff which may consist of both nonrecurring and monthly recurring charges. N

ANSI: American National Standards Institute. A standards-setting, non-government organization, which develops and publishes standards for voluntary use in the United States.

Applicant: Any entity or individual who applies for Service under this Tariff.

ASR: Access Service Request. Used to request the provision of special access or Switched Access as specified by the Local Access Provider.

ATM: Asynchronous Transfer Mode/Cell Relay Service. A high speed digital data Service utilizing cell-switching technology. Access speeds range from DS1 (1.544 Mbps) to OC12 (622 Mbps).

Authorized User: A person, firm, corporation or other entity (including Customer) that 1) is authorized by the Customer to be connected to and utilize the Company's Services under the terms and regulations of this Tariff or 2) either is authorized by the Customer to act as the Customer in matters of ordering, changing or canceling Service or is placed in a position by the Customer, either through acts or omissions, to act as Customer in such matters. Such actions by an Authorized User will be binding on Customer and will subject Customer to any associated charges.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

B-Channel: The Bearer, or B, Channel. A Bearer Channel is a basic communication Channel with no enhanced or value-added services included other than the Bandwidth transmission capability. A 64 Kbps Full Duplex Channel which is a fundamental component of ISDN.

B3ZS: (Bipolar with 3-Zero Substitution): B3ZS is line coding technique used in the SONET STS-1 (Synchronous Transport Signal-Level 1) electrical signal which is then converted to an optical signal for transmissions over the SONET optical fiber.

B8ZS (Bipolar 8 Zero Substitution): B8ZS is a DS1 line coding technique that enables digitized voice and data transmission at the rate of 1.536 Mbps independent of the number of consecutive zeros and pulse density requirements that are normally imposed on the T1 transmission line.

Bandwidth: The total frequency band, in Hertz, allocated for a Channel.

Base Rate: The nondiscounted monthly recurring charge for Data Services.

BER: Bit error ratio. The percentage of received bits in error compared to the total number of bits received, expressed as a number the power of 10.

Bit: Binary Digit. Bit denotes the smallest unit of information in a binary system of notation and is the basic unit in data communications.

Blocking: A temporary condition that may be initiated so that the Customer cannot utilize Service.

Bonding: Bonding refers to the joining of two or more 64-Kbps B-Channels together to get one Channel of 128Kbps or (nx64)Kbps Bandwidth. Bonding is also known as Channel aggregation.

Burst Rate: The upper Bandwidth limit the PVC is allowed to send data through the FRS network. The Burst Rate is limited by the actual physical Port access speed.

Business Customer: A Customer whose use of the Services is primarily or substantially for a business, professional, institutional, or occupational purpose.

Cancellation Charge: Also referred to as Service Order Cancellation Charge.

CAP: Competitive Access Provider.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

B-Channel: The Bearer, or B, Channel. A Bearer Channel is a basic communication Channel with no enhanced or value-added services included other than the Bandwidth transmission capability. A 64 Kbps Full Duplex Channel which is a fundamental component of ISDN.

T
|
T

B3ZS: (Bipolar with 3-Zero Substitution): B3ZS is line coding technique used in the SONET STS-1 (Synchronous Transport Signal-Level 1) electrical signal which is then converted to an optical signal for transmissions over the SONET optical fiber.

N
|
N

B8ZS (Bipolar 8 Zero Substitution): B8ZS is a DS1 line coding technique that enables digitized voice and data transmission at the rate of 1.536 Mbps independent of the number of consecutive zeros and pulse density requirements that are normally imposed on the T1 transmission line.

Bandwidth: The total frequency band, in Hertz, allocated for a Channel.

Base Rate: The nondiscounted monthly recurring charge for Data Services.

BER: Bit error ratio. The percentage of received bits in error compared to the total number of bits received, expressed as a number the power of 10.

Bit: Binary Digit. Bit denotes the smallest unit of information in a binary system of notation and is the basic unit in data communications.

Blocking: A temporary condition that may be initiated so that the Customer cannot utilize Service.

Bonding: Bonding refers to the joining of two or more 64-Kbps B-Channels together to get one Channel of 128Kbps or (nx64)Kbps Bandwidth. Bonding is also known as Channel aggregation.

N
N

Burst Rate: The upper Bandwidth limit the PVC is allowed to send data through the FRS network. The Burst Rate is limited by the actual physical Port access speed.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Carrier Common Line Charges: The charges the long distance companies pay to the local telephone companies for carrier common line access service which provides for the use of end user's telephone company provided common lines by subscribers for access to such end users to furnish interstate communications.

CCITT: Consultative Committee on International Telegraphy and Telephone (now known as the ITU). Establishes standards for telecommunications equipment, systems, networks, and services.

Cell Loss Ratio: The ratio of the number of cells lost to the total number of incoming cells.

Channel or Circuit: A communications path between two or more points having a standard Bandwidth or Transmission Speed selected by the Customer.

CIR: Committed Information Rate. Refers to the minimum data transmission rate committed for transmission over the FRS network by the Customer. The Customer may transmit or "burst" up to the port speed but any amount of data over the CIR will be marked as DE. All data marked as DE will be discarded in the event of network congestion.

Circuit Switched Data: (CSD) Provides the ability to process calls whether they are voice or data over the public switched telephone network. The network must recognize how to appropriately handle each call, voice or data. ISDN coupled with CSD can provide videoconferencing and broadband data communications by Bonding B-Channels together. CSD data calls are measured in the same manner as voice calls, in units of minutes of use and B-Channel equivalents.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Modification of Final Judgment: The judicial opinion United States vs. American Telephone & Telegraph Company, 552 F. Supp. 131 (D.C. 1982). See United States v. Western Electric Co., 552 F. Supp. 131 (D.D.C. 1982), affd sub nom. Maryland v. United States, 460 U.S. 1001 (1983).

MRC: Monthly Recurring Charge.

MTM: Month-to-Month.

MTTR: Mean Time To Repair. The average time required to return a failed system to Service.

NATM: SBC PremierSERVSM ATM Service.

NFRS or NFR: SBC PremierSERVSM Frame Relay Service.

NNI: Network To Network Interface. The interface defines the point of interconnection between two service providers.

NNI - Port and Access: Connects the Customer's network to the Company FRS network, based upon the standards defined NNI signaling protocol. Each NNI Port and Access may accommodate multiple Permanent Virtual Circuits based upon the speeds selected.

NNI - Port Only: Connects the Customer's network to the Company FRS network, based upon the standards defined NNI signaling protocol. Each NNI Port may accommodate multiple Permanent Virtual Circuits based upon the speeds selected.

Non-Channelized: Non-Channelized is the capability to permit the unrestricted use of a digital communication channel independent of the number of consecutive zeros and pulse density requirements (i.e., 64 kbps usable Bandwidth for a DSO channel and 1.536 Mbps usable bandwidth for a DS1 channel).

NRC: Non-recurring charge.

NSEP: National Security Emergency Preparedness.

OC: Optical Carrier. Optical Carrier level-1 is the optical counterpart of STS-1 (the base rate, 51.840 Mbps, on which SONET is based). Direct electrical-to-optical mapping of the STS-1 signal with frame synchronous scrambling. All higher levels are direct multiples of OC-1 (i.e. OC-3 = 3 times OC-1, etc).

OC3: Optical Carrier Level 3.

OC12: Optical Carrier Level 12.

OPT: Office of Priority Telecommunications.

N

OTC: One Time Charge.

Out of Term: Rates and charges which apply to Customers with no term plan agreement, or which are applied when a term plan agreement has ended and no new term plan agreement has been signed.

N

N

Oversubscription: Oversubscription allows the sum of the CIRs for all PVCs connected to an access port to exceed the speed of the access port. No individual PVC may be provisioned at a speed greater than either of its associated port speeds.

Plexar: A central office based switching service that provides the user with the ability to intercommunicate among stations at the user's premises while also providing station access to local exchange service dial tone and long distance service and many optional features and functions associated with sophisticated Customer Premises equipment.

POP: Point-of-Presence. A physical place at which the local telephone company terminates subscriber Circuits for long distance dial-up or leased-line communications or a Company-designated location where a facility is maintained for the purpose of providing access to the Company's Service.

Port: The physical or electrical interface through which access to the communications network is obtained.

PRI: Primary Rate Interface. The ISDN equivalent of a DS1 Circuit. The Primary Rate Interface consists of twenty-four 64 Kbps Channels.

Priority FRATM: A VCC connection with VBRrt QoS that connect a FR Port to an ATM Port.

Priority PVCs: Priority Quality of Service offers reduced delay and packet loss between end-points when used with small, fixed-length frame traffic.

Private Line: Discrete communication Bandwidth dedicated for a Customer's exclusive use. A Private Line is provisioned on facilities that may be shared and accomplished through a variety of technologies and media.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Private Line Service: Full duplex transmission/transport service between two points. Private Line Service(s) are defined by Bandwidth, signaling, media, etc.

PVC: Permanent Virtual Connection provides the customer with the electronic equivalent of a private line between two points. At the time of subscription to this form of service, a virtual circuit is established between two specific customer network addresses on the FRS network. While no physical circuits are dedicated, the two network addresses are electronically connected together.

QoS: Quality of Service.

Reseller: A Customer that resells the Company's Service(s) with the Company's authorization.

SEF: Severely Errored Framing event. The SE (severely errored) indicator of performance report message.

SEF Event: The occurrence of a severely errored frame. A one-second interval with eight (8) or more framing errors/framing-Bit errors.

Service: Any or all services provided pursuant to this Tariff.

Service Order: The standard Company order form(s), in effect from time-to-time, or Customer's forms accepted in writing by an authorized representative of the Company for Service which shall enable the Company to provide Service.

Service Order Change Charge: Charge applied for changes in Service Orders.

SECTION 1 - DEFINITIONS AND ABBREVIATIONS

Service Commission

Private Line Service: Full duplex transmission/transport service between two points. Private Line Service(s) are defined by Bandwidth, signaling, media, etc.

PVC: Permanent Virtual Connection provides the customer with the electronic equivalent of a private line between two points. At the time of subscription to this form of service, a virtual circuit is established between two specific customer network addresses on the FRS network. While no physical circuits are dedicated, the two network addresses are electronically connected together.

QoS: Quality of Service.

N

Reseller: A Customer that resells the Company's Service(s) with the Company's authorization.

SEF: Severely Errored Framing event. The SE (severely errored) indicator of performance report message.

SEF Event: The occurrence of a severely errored frame. A one-second interval with eight (8) or more framing errors/framing-Bit errors.

Service: Any or all services provided pursuant to this Tariff.

Service Order: The standard Company order form(s), in effect from time-to-time, or Customer's forms accepted in writing by an authorized representative of the Company for Service which shall enable the Company to provide Service.

SECTION 2 - RULES AND REGULATIONS

REC'D AUG 01 2003

2.2 Limitations On Service

2.2.1 Service is offered subject to the availability of the necessary systems, facilities, and equipment, and where Company provides Service and the rules of the Commission applying to long distance communications as published in 4 CSR 240-33. Company may refuse to provide Service to or from a location where the necessary systems, facilities, or equipment are not available. As used herein, the terms "availability" and "available" refer to systems, facilities, and equipment owned by Company and Company's current capacity purchased from third party providers. In cases where Service is not currently available, Company shall not be obligated to provide Service by a particular time or in a particular manner. If the parties cannot agree concerning the provision of currently unavailable Service, either party may cancel Customer's order for such Service. Service is subject to the following limitations:

- (A) Company does not undertake to transmit messages, but offers its Service when available, and shall not be liable for errors in transmission or for failure to establish connections.
- (B) Company reserves the right to refuse to process Third Party Vendor calls when standard validation techniques cannot confirm acceptance.
- (C) Company reserves the right to discontinue or limit Service, or to impose requirements, as required, to meet changing regulatory or statutory rules and standards.

2.2.2 Company reserves the right to discontinue or limit Service when necessitated by conditions beyond its control or when Service is used in violation of these terms and conditions or the law.

2.2.3 Reserve for future use.

2.2.4 Without incurring liability, the Company reserves the right to discontinue Service or to limit the use of Service, when necessitated by conditions beyond the Company's control, or when the Customer or End User is using Service in violation of the law or in violation of the provisions of this Tariff.

SECTION 2 - RULES AND REGULATIONS

REC'D MAR 28 2002

2.2 Limitations On Service

Service Commission

- 2.2.1 Service is offered subject to the availability of facilities, equipment, or systems, the Company's ability to fulfill the request for Service and the provisions of this Tariff and the rules of the Commission applying to long distance communications as published in 4 CSR 240-33. Service is not offered where operating conditions do not permit. The Company reserves the right, without incurring liability, to refuse to provide Service, to or from any location where the necessary facilities, equipment, systems, billing agreements, and/or switch software are not available. In case a shortage of facilities exists at any time, either for temporary or protracted periods, the establishment of voice Services shall take precedence over the establishment of Data Services.
- 2.2.2 The Company reserves the right to refuse Service to any Applicant who is found to be indebted to the Company for Service previously furnished until satisfactory arrangements have been made for the payment of such indebtedness.
- 2.2.3 If Service is established and it is subsequently determined that the condition described in Section 2.2.2 of this Tariff exists, the Company may suspend or disconnect Service on five (5) days written notice until satisfactory arrangements have been made for the payment of prior indebtedness.
- 2.2.4 Without incurring liability, the Company reserves the right to discontinue Service or to limit the use of Service, when necessitated by conditions beyond the Company's control, or when the Customer or End User is using Service in violation of the law or in violation of the provisions of this Tariff. The Company may regularly review any Customer's toll usage in order to protect itself from fraudulent or excessive usage by high-risk Customers or Customers who are delinquent in their payments. When the Company determines that the usage volume increases the likelihood that a particular Customer will not pay or will be unable to pay for usage, the Company may implement its toll blocking process, including calling card cancellation. Customers will be provided notification of the limit placed upon their toll usage pursuant to the establishment of credit, indebtedness of Service, and toll restrictions provisions of this Tariff.

2.2.8 Service is furnished subject to the condition that there will be no abuse or fraudulent use of the Service. Abuse or fraudulent use of Service includes, but is not limited to:

- (A) Service that is used by the Customer or End User to frighten, abuse, torment, or harass another; or
- (B) Service that is used by the Customer or End User in a manner which interferes with the use of Service by one or more other Customers; or
- (C) Service that is used by the Customer or End User to place calls by means of illegal equipment, service, or device; or
- (D) Service that is used by the Customer or End User to transmit a message or to locate a person or otherwise to give or obtain information, without payment of the applicable charge.

2.2.9 The Company's failure to give notice of default, to enforce or insist upon compliance with any of the terms or conditions herein, to grant a waiver of any term or conditions herein, or to grant the Customer an extension of time for performance, will not constitute the permanent waiver of any such term or condition herein. Each of the provisions of this Tariff will remain, at all times, in full force and in effect until modified in writing, signed by the Company and Customer.

2.2 Limitations On Service (continued)

REC'D DEC 07 2001

- 2.2.10 The Company may rely on third parties to provide a portion of the Company's Service. The selection of the Third Party Vendors is made by the Company. The Company reserves the right to change Third Party Vendors at any time.
- 2.2.11 The Company reserves the right, without incurring liability, to refuse to provide Service to or from any location where the necessary facilities and/or equipment are not available.
- 2.2.12 Recording of telephone conversations provided pursuant to the Company's Service under this Tariff is prohibited except as authorized by applicable federal, state, and local laws.
- 2.2.13 The Company reserves the right to add, change, or delete Services at any time.
- 2.2.14 The Data Services offered in this Tariff begin and end at the network interface. The Customer is responsible for the provisioning, maintenance, and repair for all services on the Customer side of the network interface.
- 2.2.15 The Company, when acting at the Customer's request and as its authorized agent for ordering Dedicated Access, will make reasonable efforts to arrange for service.

REC'D AUG 01 2003

2.3 Limitation of Liability

Service Commission

The Company's liability will be limited to that expressly stated in Sections 2.3.1 through 2.3.17 of this Tariff in connection with the provision of Service to Customer.

2.3.1 Company will not be liable to Customer for damages or statutory penalties or be obligated to make any adjustment, refund, or cancellation of charges, unless Customer has notified Company in writing of facts sufficient to provide Company with the reasonable basis of any dispute or claim for damages, within sixty (60) days after an invoice is rendered by Company giving rise to such dispute or claim.
