1.2.7 Hunting Line Services

These services are available to one-party customers where facilities exist.

- A. Rotary Hunt: The hunt for an idle line starts with the called line in a prearranged group and ends with the last line in the group, completing the call to the first idle line encountered. Unless the first line is called, only a portion of the group is hunted.
- B. Circle Hunt: This feature permits a complete hunt sequence over all the lines in a prearranged group. If no idle line is encountered, the hunt will continue until it reaches the line that was originally called.
