- MISSOURI
Public Service Commission
- A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 8 and 9 would be 8.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Missouri Public Service Commission. For example, the 3rd revised Sheet 8 cancels the 2nd revised Sheet 8. Consult the Check Sheet for the sheet currently in effect.
- C. Paragraph Numbering Sequences - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.A.
 - 2.1.1.A.1.
 - 2.1.1.A.1.(a).
 - 2.1.1.A.1.(a).I.
 - 2.1.1.A.1.(a).I.(i).
 - 2.1.1.A.1.(a).I.(i).(1).
- D. Check Sheets - When a tariff filing is made with the Missouri Public Service Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Missouri Public Service Commission.

MISSOURI

3.1 Service Offerings

Operator Services - Operator Services is a generic term used to describe both automated and live operator assisted calling. The Types of Charges are listed in Section 2.6 above. The company provides its subscriber with a method of allowing users to make long distance calls from the subscriber's location. Several billing options are made available to the user, along with a quote of the associated charges upon request.

QUEST installs a Call Processing System to allow users to place most calls without live operator intervention. Through a series of voice prompts, the user is asked for calling card, credit card, or collect calling information. The Call Processing System allows the property to charge lower rates than traditional AOS providers and still allow the caller with 10-XXX access to other carriers.

3.2 Timing of Calls

The Billed Party's long distance usage charge is based on the actual usage of the QUEST network. Usage begins when the called party picks up the receiver. Usage ends when either party hangs up. Uncompleted calls and unaccepted calls are not billed. All calls with fractional durations are rounded to the next higher minute.

3.3 Calculation of Distance

Usage charges for mileage sensitive services are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by industry standard, vertical and horizontal coordinate calculations. The distance is calculated by taking the squared differences in the vertical coordinates and the

Message toll telephone calls, to governmental emergency service agencies as set forth in (A) following, having primary or principal responsibility with respect to the provision of emergency services to persons or property from which the call is made, meeting the definition and criteria of an emergency call as set forth in (B) following, are offered at no charge to the customer.

(A) Governmental fire fighting, State Highway Patrol, Police, and emergency squad services (as designated by the appropriate governmental agency) qualify as governmental emergency service agencies provided they answer emergency service calls on a personally attended (live) twenty-four (24) hour basis, three hundred sixty-five (365) days a year, including holidays.

(B) An emergency is an occurrence or set of circumstances in which conditions pose immediate threat to human life, property, or both and necessitate that prompt action be taken. In the matter of the change of corporate name from)
Quest Communications Corporation to QCC, Inc.) **Case No. TQ-95-365**
)

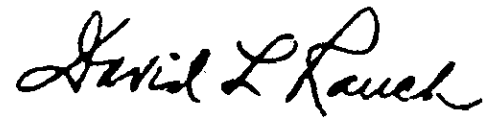

By adoption notice submitted to the Commission, Quest Communications Corporation (Quest) indicates that it has changed its corporate name to QCC, Inc. Quest attached a certificate from the Missouri Secretary of State's office authorizing QCC, Inc., to conduct business in the state of Missouri. The adoption notice states that QCC, Inc., will operate under the same tariff previously utilized by Quest. This case was established to memorialize that change.

The Commission has reviewed the adoption notice and supporting documentation of Quest and finds that the adoption notice is proper. The Commission finds, in addition, that by changing its name to QCC, Inc., interexchange service will no longer be provided in Missouri under the name Quest Communications Corporation. QCC, Inc., has previously been granted a certificate to provide shared tenant services (STS) in Case No. TA-95-68. By the adoption of Quest's tariff, QCC, Inc., will now operate as an interexchange carrier and STS provider.

1. That the corporate name change from Quest Communications Corporation to QCC, Inc., is hereby recognized.

2. That this order shall become effective on the date hereof.
