TARIFF FORMAT SHEET

- A. Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially. From time to time new pages may be added to the tariff. When a new page is added between existing pages a decimal is added to the preceding page number. For example, a new page added between Pages 3 and 4 would be numbered 3.1.
- B. Sheet Revision Numbers - Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4<sup>th</sup> revised Sheet 14 cancels the third revised Sheet 14. Because of deferrals, notice periods, etc., the most current page number on file with the Commission is not always the Tariff page in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level of coding.

## 2.0 RULES AND REGULATIONS

Missouri Public  
Service Commission

## 2.1 Application of Tariff

RECD OCT 02 2000

- 2.1.1 This tariff contains the regulations and rates applicable to intrastate long distance resale telecommunications services provided to business and residential customers by Zone for telecommunications between points within the State of Missouri.
- The Company may also, from time to time, offer switching and/or transmission to other telecommunications carriers, for resale to such companies' customers. The rates for any such services will be determined pursuant to contract, and Section 4 of this Tariff will not apply thereto.
- 2.1.2 The services of Zone are not part of a joint undertaking with any other entity providing telecommunications channels, facilities or services, but do involve the resale of the Message Toll Services (MTS) of underlying common carriers.
- 2.1.3 The rates and regulations contained in this tariff apply only to the services furnished by Zone and do not apply, unless otherwise specified, to the lines, facilities, or services provided by a local exchange telephone company or other common carrier for use in accessing the services of Zone.
- 2.1.4 Zone Telecom, Inc. operates as a Competitive Telecommunications Company as defined by Case No. TA-2001-229 within the State of Missouri.
- 2.1.5 All charges and fees subject to the PSC's jurisdiction, except taxes and franchise fees, will be submitted to the PSC for prior approval.

## 2.2 Use of Services

REC'D OCT 02 2000

- 2.2.1 Zone's services may be used for any lawful purpose consistent with the transmission and switching parameters of the telecommunications facilities utilized in the provision of services.
- 2.2.2 The use of Zone's services to make calls which might reasonably be expected to frighten, abuse, torment, or harass another or in such a way as to unreasonably interfere with use by others is prohibited.
- 2.2.3 The use of Zone's services without payment for service or attempting to avoid payment for service by fraudulent means or devices, schemes, false or invalid numbers, or false calling or credit cards is prohibited.
- 2.2.4 Zone's services are available for use twenty-four hours per day, seven days per week.
- 2.2.5 Zone does not transmit messages pursuant to this tariff, but its services may be used for that purpose.
- 2.2.6 Zone's services may be denied for nonpayment of charges or for other violations of this tariff. Service shall not be discontinued unless written notice by first-class mail is served on the customer at least ten (10) days prior to the date of the proposed discontinuance. At least twenty-four (24) hours preceding a discontinuance, Zone shall make reasonable efforts to advise the customer of the proposed discontinuance.

## 2.4 Responsibilities of the Customer or Subscriber

- 2.4.1 The Customer is responsible for placing any necessary orders; for complying with tariff regulations; and for assuring that users comply with tariff regulations. The Customer shall ensure compliance with any applicable laws, regulations, orders or other requirements (as they exist from time to time) of any governmental entity relating to services provided or made available by the Customer to Authorized Users. The Customer is also responsible for the payment of charges for calls originated at the Customer's numbers.
- 2.4.2 The Customer is responsible for charges incurred for special construction and/or special facilities which the Customer requests and which are ordered by Zone on the Customer's behalf.
- 2.4.3 If required for the provision of Zone services, the Customer must provide any equipment space, supporting structure, conduit and electrical power without charge to the Company.
- 2.4.4 The Customer is responsible for arranging access to its premises at times mutually agreeable to the Company and the Customer when required for the Company personnel to install, repair, maintain, program, inspect or remove equipment associated with the provision of Zone's services.

## 2.0 RULES AND REGULATIONS (continued)

REC'D OCT 02 2000

2.4.5

The Customer shall ensure that the equipment and/or system is properly interfaced with Zone facilities or services, that the signals emitted into the Zone network are of the proper mode, bandwidth, power, and signal level for the intended use of the Customer in compliance with the criteria set forth in this tariff, and that the signals do not damage equipment, injure personnel, or degrade service to other Customers. If the Federal Communications Commission or some other appropriate certifying body certifies terminal equipment as being technically acceptable for direct electrical connection with interstate communications service, Zone will permit such equipment to be connected with its channels without the use of protective interface devices.

If the customer fails to maintain the equipment and/or the system properly, with resulting imminent harm to Zone equipment, personnel, or the quality of service to other Customers, Zone may, upon written notice, require the use of protective equipment at the Customer's expense. If this fails to produce satisfactory quality and safety, Zone may, upon written notice, terminate the Customer's service.

Service shall not be discontinued unless written notice by first-class mail is served on the customer at least ten (10) days prior to the date of the proposed discontinuance. At least twenty-four (24) hours preceding a discontinuance, Zone shall make reasonable efforts to advise the customer of the proposed discontinuance.

2.4.6

The Customer must pay the Company for replacement or repair of damage to the equipment or facilities of the Company caused by negligence or willful act of the Customer, users, or others, by improper use of the services, or by use of equipment provided by the Customer, users, or others.

2.4.7

The Customer must pay for the loss through theft of any Zone equipment installed at Customer's premises.

### 3.0 DESCRIPTION OF SERVICE OFFERED

Missouri Public  
Service Commission

#### 3.1 General

REC'D OCT 02 2000

Service is offered to residential and business Customers and is available on a presubscription basis from equal access originating end offices only. When a Customer elects to use Calling Card service, calls may be initiated from any location from which the caller can dial the appropriate access codes.

#### 3.2 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call. The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. Zone uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and NECA Tariff FCC No. 4.

FORMULA:

$$2 \sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

Missouri Public  
Service Commission

REC'D OCT 02 2000

## 3.3 Timing of Calls

- 3.3.1 Long distance usage charges are based on the actual usage of Zone's network. The Company will determine that a call has been established through industry standard answer detection methods, including hardware answer detection.
- 3.3.2 Chargeable time for a call ends upon disconnection by either party.
- 3.3.3 For billing provided directly by the Company, the minimum call duration and initial period is 18 seconds for all intrastate direct dialed calls unless otherwise specified by this tariff. For billing provided directly by the Company, the additional period is measured and rounded to the next higher 6 second increment unless otherwise specified by this tariff.
- 3.3.4 For billing provided by the Local Exchange Carrier of the Customer, the minimum call duration and initial period is 60 seconds (1 minute) and the additional period is measured in 60 second (1 minute) increments.
- 3.3.5 No charges apply for incomplete calls. If a Customer believes he or she has been incorrectly billed for an incomplete call, the Company will, upon written, in-person or telephone notification to Zone, investigate the circumstances of the call and issue a credit when appropriate.

## 3.4 Service Offerings

Zone offers its services to Customers at equal access end offices. All services are available twenty-four hours per day, seven days a week.
