GENERAL EXCHANGE SERVICE TARIFF

JAN 15 1997

Payphone Service

MISSOURI  
Public Service Commission

A. General Regulations

1. Payphone Service includes lines to which coin, coinless, card reader or a combination of coin/card reader telephones may be attached.
2. Payphone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises, and the Network Interface Device at the demarcation point. These facilities are Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.
3. In the case of one-way service, intercept treatment will be provided.
4. A maximum of one customer-provided instrument may be connected to any one Instrument or CO implemented coin line.
5. General Rules and Regulations found in other sections of this tariff are applicable to the provision of Payphone Service.
6. Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.
7. A Network Interface Device will be installed at a location mutually agreed upon by the Payphone Service Provider and the Company. The Network Interface Device is a company-provided jack or its equivalent. It is the point of connection between the telephone company owned wiring and wiring owned by the Customer.
8. One directory will be distributed to the Payphone Service Provider without charge for each payphone business exchange line.
9. Installation Charges and the appropriate Network Interface Device (NID) material charge are applicable for the installation, move or rearrangement of the NID on the customer's premises to establish or reestablish network access.

REC'D MAR 16 1999

A. General Regulations (Cont'd)

10. Installation Charges and the appropriate NID material charge apply when a premises visit is made for the sole purpose of installing a customer requested NID.
11. The Company shall not be liable for shortages of coins collected and deposited at the subscriber's equipment. The limit of the Company's liability for end user fraud of whatever nature occurring at or in association with the subscriber's equipment shall be governed by provisions of this Tariff and rule or regulations of the Missouri Public Service Commission. In case of conflict between the tariff provisions and Commission rules and regulations, the rule or regulations shall prevail.
12. Off-Premise Extensions are not permitted.
13. Held for Future Use +
14. The Multiline Business Subscriber Line Charge, found in the interstate access tariff, is applicable to all payphone Instrument and CO Implemented coin lines.

B. Responsibility of the Customer

1. The Customer for the purposes of this tariff is defined as the Payphone Service Provider.
2. The customer shall be responsible for the installation, operation and maintenance of the customer-provided instrument, plus all ancillary equipment, such as booths, shelves, lighting, directories, etc., used in connection with this service. The customer is responsible for complying with the requirements set forth in the American With Disabilities Act of 1990.

The customer-provided instrument must be registered in compliance with Part 68 of the FCC's Registration Program. In addition, the customer must comply with the Missouri Public Service Commission's Rules and Regulations regarding the use of customer-provided pay telephones.

COIN TELEPHONE SERVICE (Continued)

SEMI-PUBLIC TELEPHONE

A. GENERAL

Semi-Public Telephone service may be furnished where there is a shared use of the service by the customer and the general public.

B. RATES

1. The monthly rates for semi-public telephone service are filed in the Local Exchange Tariff.
2. Extension station without dials (1), at the customer's discretion may be provided at the appropriate instrument rate in the exchange where such stations are provided.
3. Each local message \$ .10

C. CONDITIONS

1. Semi-Public Telephone service may be provided at the option of the Company where the use is shared by the customer and the general public and where the customer permits signs to be placed as the Company deems necessary.
2. One directory listing per semi-public telephone may be provided without additional charge.
3. Any additional signals required in the provision of this service may be provided at the rates and charges set forth in this part.
4. Flat rate telephone service may be provided on the same premises as a semi-public telephone providing it is not made available for public use.

(1) Limited Availability. See Section 2, 1st Revised Sheet No. 20.

Payphone Service (Cont'd)

MISSOURI  
Public Service Commission

B. Responsibility of the Customer (Cont'd)

3. The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, including any Directory Assistance Calls.
4. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Payphone Service and for providing proof of said authority prior to installation of service.
5. Customers who elect not to subscribe to Selective Class of Call Screening will be fully responsible for all calls billed to customer's exchange access line. The Telephone Company shall have no responsibility to adjust any such charges and/or release customer from paying any such charges. Customer will hold the Telephone Company harmless from and against any liability or loss resulting from all calls billed to customer's exchange access line.
6. Any federal, state, or local taxes on the Customer Owned Pay Telephone or calls made from that phone are the responsibility of the customer.
7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.

C. Violation of Regulations

1. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in the disconnection of service until such change is completed to the satisfaction of the Company.

C. Violation of Regulations (Cont'd)

- 2. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited, customer activity charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply.

D. Instrument Implemented Payphone Service

Instrument Implemented Payphone Service is offered for use with a customer provided pay telephone. All attachments of a customer provided instrument to the network must be made pursuant to the rules and regulations set forth in this Tariff and as required by State and Federal commissions.

E. Central Office (CO) Implemented Coin Line

- 1. Central Office Implemented Coin Line provides coin signaling. It is a line side connection from the local exchange switch to the point of demarcation at the customer premise.
- 2. Features are additives to the operation of a flat rate access line that provide for CO Implemented coin line service. The Company offers those features that are provided by the functionality of the Company's switches. These include coin supervision, coin control (collect and return of coins, if applicable), and answer supervision. CO implemented coin line features that are implemented by the functionality of an operator service provider, such as coin rating, coin refund, repair referral, and operator call screening, are the responsibility of the Payphone service provider (Customer).
- 3. CO Implemented Coin Line features, including coin line signaling, coin collect and return (where applicable) and answer supervision, are provided by the Telephone Company per the technology available from the Company's facilities. It shall be the responsibility of the CO Implemented Coin Line payphone owner to assure technical and operational compatibility with the coin line features offered by the Telephone Company.

GENERAL EXCHANGE SERVICE TARIFF

JAN 15 1997

Payphone Service (Cont'd)

MISSOURI  
Public Service Commission

F. Features and Functions

1. Answer Supervision provides signaling on the line notifying the line that the called party has answered. This feature is an additive to the CO Implemented Coin Line.
2. Coin Collection and Return provides an electrical signal on a CO Implemented Line indicating to the payphone equipment to collect coin(s) from or return coin(s) to the calling party. This feature is an additive to the CO Implemented Coin Line.
3. Special Number Assignment is a specific number requested by the customer. This service is available where facilities are accessible and it is technical feasible to provide. This feature is an additive to the CO Implemented Coin Line or to the Instrument Implemented Payphone Service.
4. Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card.
5. Validation may be performed through Originating-Line Screening (OLS). OLS enables operator service providers to determine whether there are billing restrictions on the exchange access line from which a call originates. OLS service delivers codes on operator assisted calls to identify calls originating from privately owned payphones, inmate locations, and hotels/motels, etc. Rates for this service are found in the appropriate interstate access tariff, when facilities and service are available. The customer has the option to request either Selective Class of Call Screening or OLS.

DIRECTORY LISTINGS (Continued)

MISSOURI  
Public Service Commission

C. CONDITIONS (Continued)

3. An alternate call listing refers a calling party to certain other telephone numbers such as after business hours, on Sundays, holidays, or if there is no answer on the first listed number. Where the alternate call number is that of another customer, the listing will be furnished only with written approval of the other customer.
4. A foreign or non-subscriber listing is furnished to customers requesting that their listing be included in a directory of an exchange other than that from which service is rendered. The rate for a foreign company listing will be the rate of the company in whose directory the listing appears. The conditions of paragraph C.1. above shall apply.
5. Private service is the omission of the customer's listing from both the telephone directory and directory assistance records.
  - a. When private service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the private listing.
  - b. No charge will apply for private service for customers having other listed service.
6. The charge for additional, alternate or private listing is effective the day the directory assistance record is posted.
7. The contract period for directory listings is:
  - a. For those services that appear in the directory, the directory period; unless the listing is no longer applicable because of disconnections, removal etc., of the service with which it is associated. The directory period starts on the day the directory is distributed and concludes the day that the succeeding directory is distributed.
  - b. For those services that do not appear in the directory; 30 days.

EMPLOYEES' TELEPHONE SERVICE

MISSOURI  
Public Service Commission

A. GENERAL

Employees' Telephone Service is offered to all full time active employees at their residence when such telephone service is provided by this Company.

B. RATES

1. The discount for Employees' Telephone Service is 100 percent of the regular rate for all local service.
2. Directors pay full local service for main stations but are allowed 100% discount for all extension telephones.

C. CONDITIONS

1. Employees' Telephone Service at their residence is available to employees of the Company at no charge.
2. The discount is not allowed from the regular rates for toll messages.
3. All employees, except the manager, are required to purchase a membership in the Company
4. The primary listing provided with the service is permitted only in the name of the employee except that the listing of a married woman may be in her own or in her husband's name. Extra listings for other Telephone Company employees residing at the same address are permitted but no other listings are provided.

FOREIGN EXCHANGE SERVICE

MISSOURI  
Public Service Commission

A. GENERAL

Foreign Exchange Service is interexchange service provided at a location in an exchange other than that in which the central office is located and from which the customer would normally be served.

B. DEFINITIONS

1. Local Exchange - The exchange in which the station is located and in which service is provided.
2. Serving Exchange - The exchange in which the serving central office is located.
3. Contiguous Exchange - Adjoining exchanges which share a common boundary.
4. Non-contiguous Exchanges - Exchanges which do not share a common boundary.

C. RATES

1. Regular filed rates of the serving Company apply to the class and grade of service provided at the Serving Exchange.
2. Charges for private line service from the serving exchange to the customer location in the local exchange will be as follows:
  - a. For private line facilities provided by this Telephone Company, the rates outlined in this Telephone Company's concurrence in the Oregon Farmers Mutual Telephone Company private line tariff will apply.
  - b. Where all or a portion of the private line facilities are furnished by another telephone company, charge for those facilities shall apply as specified in the regulations of such participating company.

FOREIGN EXCHANGE SERVICE (Continued)

D. CONDITIONS

1. A customer to Foreign Exchange Service is considered to be a customer of the local exchange for all contracts, e.g., initiation of service orders, billing, collections customer payments and other related functions. The only exceptions to this definition will be those resulting through the use of the service, such as repair service, directory assistance and toll.
2. Foreign Exchange Service will be limited to business and residence individual line service, or PBX trunks, when facilities and equipment for its provision are available.
3. One directory listing will be provided, without added charge in the alphabetical directory covering the service exchange for each business or residence service, in addition each business customer will be entitled to a regular listing in the classified directory covering the serving exchange without additional charge. Additional listings in the alphabetical and/or classified directories covering the local or other exchanges may be provided at the rates effective in those exchanges.
4. Customers to Foreign Exchange Service are required to take service of the local exchange from which service would normally be rendered.
5. Except as set forth herein, the rates, charges, and conditions set forth elsewhere in this tariff and applicable in the local exchange apply to services and facilities provided in connection with Foreign Exchange Service.
6. Calls beyond the local calling area of the serving exchange will not be permitted.
7. Regular service connection charges apply to installation or moves.

GENERAL EXCHANGE SERVICES

LIFELINE SERVICE

A. General Regulations

Lifeline Service is a government benefit program established by the Federal Communications Commission (FCC) and Missouri Public Service Commission (Commission) and is available to qualifying low-income subscribers for certain residential telecommunications services. The terms and conditions of Lifeline service, including monthly discount amounts, are set forth in rules established by the FCC and Commission and available at the Company's office.

In addition, the terms and conditions of Lifeline service are available on the Company's website as follows: <http://www.iamotelephone.com/telephone.php>.

Disabled Service

Disabled Service is a government benefit program established by the Missouri Public Service Commission (Commission) as part of the Missouri Universal Service Fund (MoUSF). It is a residential retail service that offers a qualifying disabled customer reduced charges for certain telecommunications services. The terms and conditions of disabled service, including monthly discount amounts, are set forth in rules established by the Commission and available at the Company's office.

In addition, the terms and conditions of Disabled Service are available on the Company's website as follows: <http://www.iamotelephone.com/telephone.php>.

PART V

GENERAL EXCHANGE SERVICES

LIFELINE SERVICE

A. General Regulations

1. Lifeline service is available to qualifying low-income subscribers for single-party residence service.
2. The monthly discount will be the maximum amount allowed by the Missouri Public Service Commission and the Federal Communications Commission; however, this discount will not exceed the sum of the federal subscriber line charge and the recurring charges for voice telephony service. The monthly discount will be the same for Lifeline customers solely subscribing to voice telephony service and for Lifeline customers subscribing to a bundle of services.
3. Lifeline will not be furnished on a Foreign Exchange service.
4. Lifeline service shall not be disconnected for non-payment of toll charges.
5. Toll blocking provides a means of restricting access to the Long Distance Message Telecommunications Network. Toll blocking for the purposes of lifeline service will restrict 1+, 0+ and 0- (operator handled) calls.
  - a. If the customer chooses "toll blocking" the company will not charge a service deposit.
  - b. Toll blocking is offered to Lifeline subscribers at no charge.

LINE EXTENSIONS (Continued)

MISSOURI  
Public Service Commission

C. CONDITIONS

1. Route and type of facilities
  - a. The Company shall determine the route and type of construction which will be used in the extension of its facilities within an exchange. All such line or extensions shall be owned and maintained by the Company.
  - b. The Company will be responsible for the route of the proposed line extension facilities upon which costs will be developed. Such routes will include the last pole on public or on private property but will exclude the drop wire (maximum of 300') and inside wiring for the building in which the telephone service is to be located.
  - c. Any difference in costs of the type of construction proposed by the Company for use on a line extension and the type of construction requested by the customer will be charged at actual cost for the difference between the two. (See Part II., Special Type of Construction)
  - d. When two (2) or more applicants mutually agree they may be considered as a "group". Line extension charges will be established in order to determine the amount of construction which needs to be provided. Line extension charges computed for the total extension, less allowable costs, may be proportionately divided among the applicants making up the "group".
  
2. Obligation of the Company
  - a. The Company's obligation to provide service through line extensions is solely dependent upon its ability to secure, retain and maintain suitable rights-of-way without unreasonable expense.
  - b. The Company will survey all prospective customers who could receive service from each proposed line extension project prior to its construction.
  
3. Line extension charges are in addition to the rates

MISSOURI  
Public Service Commission

C. CONDITIONS (Continued)

- 3. (Continued) and charges applicable to the class and grade of service provided (including mileage when applicable.)
- 4. Payment of charges applicable to line extensions shall be paid in advance of construction.
- 5. Applicants requesting service which can be provided from a previously established line extension project:
  - a. Within 12 months from the time service will be recomputed by the Company and the applicant will pay a proportionate share of such charges as if he were one of the initial applicants and appropriate refunds will be made to the original customer(s).
  - b. After 12 months from the time service was initially provided such applicant(s) will be responsible for the charges and conditions applicable to the establishment of line extension facilities required to serve him (or them) alone.
- 6. Except as provided elsewhere in this tariff, refunds of line extension charges will not be paid by the Company.
- 7. Supersedure of service provided from a line extension and any adjustment in an amount paid by a customer discontinuing such service during the initial three (3) year term and an applicant superseding such service will be a matter of negotiation between the disconnecting customer, who has obligated himself for the line extension charge, and the superseding applicant.
- 8. The Company will install underground service when line extensions are requested for service into real estate subdivisions or mobile home parks. Any difference in costs of type of plant facilities used by the Company or requested by the subdivider will be a matter of negotiation between the two.

C. CONDITIONS (Continued)

- 9. When the line extension proposed contains growth potential to provide for anticipated future service demands, the proposed customer(s) will only be obligated for that portion of such line extension costs as would be necessary to serve him or them alone. It will be to that segregated amount that the Formula for average outside plant costs will be applied.
- 10. Line extensions of a temporary or speculative nature.
  - a. Extension of the Telephone Company's facilities may be made to provide service of a temporary or speculative nature. An applicant whose service is considered speculative or temporary in nature will be charged the total actual costs of construction and estimated costs of removal, less salvage value for the material used to establish the service.
    - 1) If after a 12 month period the temporary or speculative project is considered by the Company to be a permanent service, a refund may be made to the customer for the difference between costs paid and the charges which would have been computed for a regular line extension.
  - b. Mobile homes, not on a permanent foundation, will be considered as a temporary or speculative nature.

GENERAL RULES AND REGULATIONS

FEB 28 1977

1.1 INSTALLATION OF TELEPHONE LINES WITHIN SUBDIVISION (1) TELEPHONE LINES CONSTRUCTED, INSTALLED AND OWNED BY THE MISSOURI PUBLIC SERVICE COMMISSION IN SUBDIVISIONS SHALL BE INSTALLED UNDERGROUND.

1.1.1. The following definitions are used in this section of the tariff:

APPLICANT: The developer, builder, or other person, partnership, association, firm private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

BUILDING: A single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision (definition excludes mobile home).

SUBDIVISION: A lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plot thereof if such recordation is required by law.

1.1.2. The Telephone Company upon receipt of the applicant's proper application will install an underground telephone system with suitable materials to assure that the applicant will receive reasonably safe and adequate telephone service. The provision of the underground telephone system will be provided at no charge except where a charge is permitted under Paragraphs 1.1.4 and 1.1.6 of this section of the Tariff. Temporary service is provided under Paragraph 1.1.5 of this section of the Tariff.

(1) This section is filed pursuant to and as required by the Commission General Order #55, ordered in Case 17519, effective January 23, 1973.

1.1.3. RIGHTS-OF-WAY AND EASEMENTS

- A. Within the applicant's subdivision, the Telephone Company will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which the Telephone Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Telephone Company may be obtained without cost or need for condemnation by the Telephone Company.
- B. Rights-of-way and easements, within the subdivision, satisfactory to the Telephone Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Telephone Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps, and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Telephone Company. Such clearance and grading must be maintained by the applicant during construction by the Telephone Company.

1.1.4. ADVANCE PAYMENTS

FEB 28 1977

- A. Where, due to the manner in which a subdivision is developed the Telephone Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Telephone Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Telephone Company an advance is required under the above described conditions, the Telephone Company has the right to refuse installation of the underground system until the required advance is paid to the Telephone Company.
- B. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro rata basis as the permanent service connection is made to each building or multiple-occupancy buildings.
- C. Any portion of an advance remaining unrefunded ten years from the date the Telephone Company is first ready to render service with the extension will be retained by the Telephone Company and credited to the appropriate construction account.

1.1.5. TEMPORARY FACILITIES

MISSOURI  
Public Service Commission

- A. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
- B. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Telephone Company may require the applicant to pay the estimated nonrecoverable costs of the temporary facilities. If the required costs under the above described conditions apply, the Telephone Company has the right to refuse installation of the temporary facilities until the required costs are paid to the Telephone Company.

1.1.6. SPECIAL CONDITIONS

- A. In circumstances, where the application of these rules appear impracticable or unjust to applicant or the Telephone Company, or discriminatory to other customers, e.g. difficult rock conditions, the Telephone Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.

MILEAGE RATES

A. GENERAL

Mileage Rates apply for extending standard voice grade intra-exchange service between locations on the same premises or between separate premises for the same customer for each station. Any other intra-exchange improved grade of circuits may be provided as set forth in the General Rules and Regulations-Special Assemblies of Equipment.

B. RATES

Monthly Rate\*\*  
Per 100' or fraction thereof

- 1. Between separate premises, or over 100' same premises
- 2. Each additional 100'
- 3. Key or multi-line Service

\$.50\*\*  
.25\*\*  
#

C. CONDITIONS

- 1. Mileage measurement is the route distance between the terminals

\*" These rates apply for a maximum distance of 2,400 feet. Any extension beyond this distance, the applicable individual line rate as set out in Part IV will apply instead of the above rates.

\*\* In addition to applicable rates.

# For mileage up to 100 feet, see Key Telephone Service. For mileage over 100 feet, the rates shown on (2) above apply for each cable pair necessary to provide the service. Half pairs shall be considered as a whole pair.

Missouri School Discount Program \*

1. A discount from standard monthly rates for local exchange service may be allowed in connection with the service furnished through the Missouri School Discount Program, pursuant to the Video Instructional Development and Educational Opportunity Program, as enacted by the Missouri State Legislature.
2. Upon the customer's request, a discount of twenty percent (20%) from standard monthly access line rates may be allowed to educational institutions within the Company's certified area, as determined in Paragraph 3, following.
3. An educational institution shall be defined as an accredited public or private school in the State of Missouri. Private schools must be accredited by either the Missouri Chapter of the National Federation of non-Public Schools Accrediting Association, Independent Schools Association of The Central States, North Central Association of Colleges and Schools, and/or the University of Missouri - Columbia. Public schools must be accredited by the Department of Elementary and Secondary Education for the State of Missouri and/or the North Central Association of Colleges and Schools.
4. The qualifying discount will be permitted only on the local exchange access line. All other features, ancillary services or options, relative to the particular service, shall continue to be billed at the appropriate tariffed rates.
5. The qualifying discount will be permitted only where the predominant use is providing educational and instructional programs and for the educational institutions' administrative use. The discount is not allowed to residential complexes associated with the institution.
6. In addition to meeting the qualification specified in Paragraph 3 preceding, an eligible customer must sign an affidavit certifying that the qualification is met. The affidavit will be retained on file with the Company.
7. The customer should request to receive the discount on all subsequent additions of eligible services which are ordered. There will be no additional affidavits required.
8. The following local exchange services are eligible for a discount under this program.

Discounts for Schools and Libraries  
Participating in the Federal Universal Service Program

- A. Discounts on the intrastate services offered through this tariff will be available to eligible schools and libraries. A school or library will be eligible to participate in the discount program if it receives funds from the Federal Universal Service Fund.
- B. The level of discount available will mirror the discount percentage level available to the school or library through the Federal Universal Service Fund program. The discount will be applied against the intrastate service rate otherwise applicable under this tariff. The discount only applies to the extent funds are available to the eligible school or library, through the Federal Universal Service Fund.

Operator Services

RECD OCT 25 1999

A. General Information

(N)

1. Company will not bill for incomplete calls where answer supervision is available. Company will not bill for incomplete calls and will remove any charges for incomplete calls upon (i) subscriber notification or (ii) Company's knowledge.
2. The caller and billed party, if different from the caller, will be advised that the Company is the operator provider at the initial contact.
3. Rate quotes will be given upon request, at no charge; including all rate components and any additional charges.
4. Only tariffed rates approved by this Commission for Company shall appear on any local exchange telephone company (LEC) billings.
5. Company shall be listed on the LEC billing if the LEC has multi-company billing ability.
6. Company will employ reasonable calling card verification procedures, acceptable to the Telephone Company issuing the calling card.
7. Company will route all O- or OO-emergency calls in the quickest possible manner to the appropriate local emergency service provider, at no charge.
8. Upon request, Company will transfer calls to another authorized inter-exchange Company or to the LEC, if billing can list the caller's actual origination point.
9. Company will refuse operator services to traffic aggregators which block access to other Companies.
10. Company will assure that traffic aggregators will post and display information including: (1) that the Company is the operator service provider; (2) detailed complaint procedures; and (3) instructions informing the caller on procedures to reach LEC operator and other authorized inter-exchange Companies.

B. Intrastate IntraLATA Operator Service for O- Toll Calls

REC'D OCT 25 1999 (N)

1. The Company will provide Intrastate IntraLATA Operator Services for dialed O- toll calls.
2. Surcharges are applicable to the following Intrastate IntraLATA calls:
  - (a) Station Sent Paid – when a customer dials “O”, reaches an Operator, requests assistance with the completion of a call within the calling party’s LATA, and the call is billed to the calling number.
  - (b) Station Calling Card – when a customer dials “O”, reaches an Operator, requests assistance with the completion of a call within the calling party’s LATA, and the call is billed to a Calling Card.
  - (c) Station Collect – when a customer dials “O”, reaches an Operator, requests assistance with the completion of a call within the calling party’s LATA, and the call is billed to the person to whom the call is placed.
  - (d) Station Billed to a Third Party – when a customer dials “O”, reaches an Operator, requests assistance with the completion of a call within the calling party’s LATA, and the call is billed to a Third Party’s Number. The Operator may request verification from the Third Party before completing the call.
  - (e) Person to Person - When a customer dials “O”, reaches an Operator, requests assistance for the completion of a call within the calling party’s LATA on a person-to-person basis, and the call is billed to the calling party’s number.
3. Rates set forth below apply to calls placed by dialing “O”, for all classes and grades of service.

- d. Three Way Calling, Speed Calling (\_\_\_ Code) and any One additional feature.....

\$ N/A

C. DEFINITIONS

1. Call Waiting – By means of a tone signal on a customer who is using his telephone is alerted when another caller is trying to reach that station. This permits putting the first call on hold so that a second call can be answered.
2. Call Forwarding – Permits a customer to transfer all incoming calls to another dialable telephone number. The customer pre-selects a second telephone number to which he wants all incoming calls to be automatically transferred. Calls may be transferred to a long distance message telecommunications point subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Call Forwarding shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred. Customers utilizing Call Forwarding service are responsible for the payment of charges for each toll call between the telephone to which the call was transferred.
3. Three Way Calling – Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.
4. Speed Calling – Enables a customer to place calls to other telephone numbers by dialing a one or two digit code rather than the complete telephone number. Customer may subscribe to only one of either the 8 Code capacity or 30 Code capacity on the same line.

CUSTOM CALLING SERVICES (Continued)

**REC'D DEC 03 2001**

C. DEFINITIONS (Continued)

**Service Commission**

5. Automatic Callback - Allows a subscriber to automatically re-originate a call to the directory number that was last dialed. If the re-dialed number is busy, it will be automatically re-dialed for 30 minutes or until the line is idle.
6. Automatic Recall - Allows the subscriber to recall the directory number of the last incoming call without knowing where it came from.
7. Calling Name and Number - Allows the subscriber to identify the 10 digit number and name associated with it, after the first ringing cycle of an incoming call. This feature requires the use of additional equipment, which may not be provided by the telephone company.
8. Distinctive Ringing/Call Waiting - Incoming calls from a "subscriber selected" list of directory numbers can be identified by a distinctive ring. If the line is in use, a distinctive call waiting tone accompanies the incoming call.
9. Caller ID Call Waiting - Allows the subscriber to make an informed decision about whether the incoming call should be answered. (N)
10. Selective Call Acceptance - Allows a subscriber to create a list of up to 32 directory numbers from which they will accept calls. Calls from a directory number not on the list will be routed to an announcement stating that the subscriber does not wish to accept the call. (T)
11. Selective Call Forwarding - Calls from a list of up to 32 directory numbers can be forwarded to another location. Any other calls will be handled normally.
12. Selective Call Rejection - Calls from a list of up to 32 directory numbers will be routed to an announcement saying that the called party does not wish to receive the call. (T)

D. CONDITIONS

1. Custom Calling Services will be provided in connection with individual line residence and business service. Party line, PBX and Centrex customers are excluded.

**PART V**  
**GENERAL EXCHANGE SERVICES**

**PRIVATE LINE SERVICE**

**A. GENERAL**

Private Line Service is a circuit provided to furnish communications between two or more instrumentalities directly connected to it. Such instrumentalities do not have access to the general exchange and interexchange networks.

**B. RATES PER CIRCUIT**

	Monthly Rate	Installation or Move Charge Per Termination
1. First mile or fraction thereof	\$3.00	***
2. Each additional 1/4 mile or fraction thereof	\$1.00	None

**C. CONDITIONS**

- Connecting devices will be required to connect to any customer provided equipment as set out in Part VIII of this Tariff.
- A circuit will consist of the entire loop required to provide the service between all terminations within the local exchange. The circuit will consist of no more than one (1) cable pair (2 wires) which may terminate onto another cable pair in a central office of the local exchange to another cable pair in the same exchange, both cable pairs will be considered as one (1) circuit.
- Mileage charges will be computed for the total distance, route measurement between all terminations in the local exchange.
- Mileage charges between central offices will concur with the Southwestern Bell Tariff. See Part VII of this tariff.
- Special repeaters or other line treatment where required, will be provided at rates and charges, to be established when specific requirements are known.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

---

## 1. Universal Emergency Number Service (911)

1.1 General

- A. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Trunking Service involves the provision of interoffice trunks from the Telephone Company Central Office to connect with the PSAP location.
- B. The 911 emergency number is not intended to replace the telephone service of the various Public Safety Agencies which may participate in the use of this number. The 911 customer must subscribe to additional local exchange service at the PSAP for administrative purpose, for the placing of outgoing calls and for receiving other emergency calls, including any which might be related by Company operators.
- C. 911 Trunking Service is offered subject to availability of facilities.
- D. The 911 Trunking Service customer may be a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for police, fire or other emergency services within the telephone Central Office area arranged for 911 calling.
- E. The Company may enter into a contract or contracts with the 911 customer or with other telephone companies in order to effectuate the Company's provision of 911 Service in accordance with, pursuant to, and subject to the terms, conditions and limitations of the Tariff. Any such contract(s) shall incorporate by reference the terms, conditions and limitations of this Tariff.
- F. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

1.2 Conditions

- A. 911 Trunking Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Trunking Service by the Company shall not be interpreted, construed or regarded, either express or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.

1. Color Telephones
  - a. Telephones in standard colors may be furnished at the request of the customer with all grades and classes of service.
2. Compact Telephones
  - a. The compact telephone may be equipped with a lighted dial requiring commercial power in its operation.
  - b. A separate audible signal may be provided at no additional charge if one is not in the telephone provided by the Company.
  - c. The above rates do not apply to Ericofons.
3. Decorator Type Telephones
  - a. Modification of a customer's telephone enclosure or housing with a standard telephone apparatus assembly (which is a combination of mechanical and electrical telephone parts) may be provided at the customers request when the:
    - enclosure or housing is of a design and appearance which differs from telephone sets regularly furnished by the Company; and the enclosure or housing is of adequate size and shape to accommodate all parts which comprise a telephone apparatus assembly, which may include a dial, receiver, transmitter, electrical and mechanical parts.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

---

1. Universal Emergency Number Service (911) (Continued)
  - 1.2 Conditions (Continued)
    - B. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
    - C. Temporary or vacation suspensions of service are not provided for any part of the 911 Trunking Service.
    - D. 911 Service information consisting of the names, addresses and telephone numbers of Subscribers whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential.
    - E. End Users dialing 911 forfeit the privacy afforded by nonpublished and unlisted telephone number service to the extent that the telephone number, address and name associated with the originating station location may be furnished by a PSAP. Information will be provided only for the purpose of responding to emergency calls.
    - F. The Company's entire liability to any person for interruption or failures of 911 Trunking Service shall be limited to the terms set forth in this section and other sections of this tariff.
    - G. The customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.
    - H. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative.
    - I. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

---

## 1. Universal Emergency Number Service (911) (Continued)

1.2 Conditions (Continued)

- J. The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Trunking Service features, the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Trunking Service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents or any one of them.
- K. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by Telephone Company Wire Centers served by the PSAP whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- L. Application for 911 Trunking Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.
- M. The customer is required to furnish the Company its agreement to the following terms and conditions:
1. That all 911 calls will be answered in a 24-hour day, seven-day week basis.
  2. That that customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 Service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
  3. That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.

**UNIVERSAL EMERGENCY NUMBER SERVICE (911)**

---

1. Universal Emergency Number Service (911) (Cont'd)1.2 Conditions (Cont'd)

4. That the customer will provide CPE with a capacity adequate to handle the number of incoming 911 lines recommended to be installed by the Company. It is the customer's responsibility to ensure its CPE is compatible with the service(s) provided by the Company.
- N. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the 911 customer contracting for 911 Trunking Services. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the 911 customer for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the 911 customer.
- O. The rates charged for 911 Trunking Service do not contemplate the constant monitoring or inspection of facilities to discover errors, defects and malfunctions in the service, nor does the Company undertake such responsibility. The 911 customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall notify the Company in the event the system is not functioning properly.
- P. In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the Company may be requested, required, have undertaken or participated in the tracing of a 911 call.
- Q. The customer recognizes that the addresses provided to it by the Company are the same addresses that the Company maintains for its ordinary service, billing or directory records and the Company cannot unconditionally guarantee their existence or accuracy in emergency situations. Therefore, the customer recognizes that addresses should, where circumstances permit, be verified from a 911 calling party. The customer shall make the correction within a reasonable time under the circumstances.

Three-Digit Dialing Service (811)

## A. General Regulations

1. The 811 Service is a locally assigned three digit abbreviated dialing code provided to a state One Call System ("SOCS") for use in providing advance notice of excavation activities to underground facility operators by way of voice grade facilities. Federal Communications Commission ("FCC") Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tariffed, local calling area based service (the "811 Service").
2. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.
3. All 811 Service calls shall be local in nature and shall not result in any expanded area calling, intraLATA toll or interLATA long distance or pay-per-call charges to Company subscribers.
4. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXXX calling. The 811 Service is otherwise available wherever local service is available.
5. 811 Service is available from the Company within the Company's service area only. To provide access to 811 to end users in another company's service area or to a Competitive Local Exchange Carrier ("CLEC") end user within the local calling area, the SOCS must make appropriate arrangements with the other company or CLEC serving that territory. The SOCS should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.

## B. Obligations of the SOCS

1. The SOCS may, but is not required to, submit a written application for 811 service to the Company which will include:
  - a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 811 abbreviated code.
  - b. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 811 Service.
  - c. Complete contact information.

Three-Digit Dialing Service (811)

## B. Obligations of the SOCS (Cont'd)

2. If requested by the Company, the 811 provider shall assist the Company in responding to complaints made to the Company concerning 811 Service.
3. Local Calling for Company Subscribers
  - a. The SOCS, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate Extended Area Service ("EAS"), Metropolitan Calling Area ("MCA") service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
  - b. The SOCS must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by SOCS.
  - c. The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.

## C. Obligations of the Company

1. The Company shall provision the 811 Service in accordance with FCC directives and the terms of this tariff.
2. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with 811 Service.
3. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable SOCS to respond to such calls at SOCS established call centers.
4. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The SOCS is responsible for making such operational tests as, in the judgment of the SOCS, are required to determine whether the Company's facilities are functioning properly for its use. The SOCS is responsible for promptly notifying the Company in the event the Company's facilities are not functioning properly.

## D. Liability

1. The Company's entire liability to any person for interruption or failure of the 811 Service shall be limited to the terms set forth in this section and other sections of this Tariff.
2. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the SOCS for the 811 Service and local exchange service for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
3. The Company is not liable for any losses or damages caused by the negligence of the SOCS.
4. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
5. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
6. The 811 Service is provided solely for the benefit of the SOCS. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity.
