CONVENTION CENTER SERVICE

14.1 GENERAL REGULATIONS

14.1.1 The Telephone Company will provide, subject to the of facilities, Convention Center Service to the St. Louis Gateway Convention and Exhibition Center. The service is an arrangement of facilities for exchange access, switching equipment and other facilities in accordance with the provisions of this Tariff.

The St. Louis Gateway Convention and Exhibition Center, located St. Louis, is bounded on the west by 9th Street, on the east by 7th Street, on the south by Delmar, and on the north by Cole.

14.1.2 The Telephone Company will determine and provide the facilities for exchange access, switching equipment and other facilities as required for exchange and other services furnished by the Telephone Company.

14.1.3 The following terms, as used in this section, shall mean:

Administration station line - main station line of the system provided for the use of the administration of the St. Louis Gateway Convention and Exhibition Center which may have full in-out dialing privileges and access to or from the attendant. This is intended to be a permanent service to users employed by the management of the Convention Center.

Exhibitor station line - a main station line of the system provided within the confines of the Center for the use of exhibitors or conventioners. This is intended to be a temporary service arrangement for use on the convention floor and conference rooms.

Fully restricted station line - main station line, either Administrative or Exhibitor, having intrasystem dialing privileges only and having no access to or from the attendant. Fully restricted station lines may call any other station of the system.

CONVENTION CENTER SERVICE

14.1 GENERAL REGULATIONS-(Continued)

14.1.4 All operating at customer's premises is performed at the expense of the customer and must conform with the rules and regulations the Telephone Company may consider necessary to maintain a proper standard of service.

14.1.5 Other facilities and miscellaneous service offerings requested by customers and not detrimental to this service or other services of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable section of this Tariff.

14.1.6 One (1) primary directory listing will be furnished for the Convention Center Administrative Service without charge in accordance with the regulations set forth in Section 6 of this Tariff.

One (1) primary directory listing per exhibitor main station will be furnished without charge in accordance with the regulations set forth in Section 6 of this Tariff.

Business Extra Listings may be obtained from Section 6 of this Tariff.

14.1.7 The assignment of telephone numbers shall be in accordance with Section 17 of this Tariff.

14.1.8 When the customer requests special service offerings or modification of standard service offerings, it will be furnished, whenever possible, if not detrimental to any of the services or offerings of the Telephone Company. Such special offerings or modification of standard offerings will be furnished at additional charges based on cost via a Special Service Arrangement in accordance with Section 17 of this Tariff.

CONVENTION CENTER SERVICE

14.1 GENERAL REGULATIONS-(Continued)

14.1.9 Universal Tie Line Terminal rates and regulations shall apply for each tie line terminating in the Convention Center System.

14.1.10 The Intercommunication and Exchange Access portions of the Convention Center Service are not offered separately. The rates and charges specified herein for Convention Center Service main stations provide for a main station line component. The main station line consists of all facilities, including intercommunication and outside plant facilities from the Convention Center Service system dial switching equipment to the network interface located on the customer's premises at the point where the network cable terminates.

The rates and charges specified herein for Convention Center Service restricted stations provide for a restricted station line component. The restricted station line consists of all facilities, including the intercommunication and outside plant facilities from the Convention Center Service system dial switching equipment to the network interface located on the customer's premises at the point where the network cable terminates.

CONVENTION CENTER SERVICE

14.1 GENERAL REGULATIONS-(Continued)

- 14.1.11 Service charges for connections, moves and changes apply as set forth in Section 19 of this Tariff.
- 14.1.12 Charges and call allowances for Directory Assistance Charging are covered in Section 6 of this Tariff.
- 14.1.13 For Exhibitor Stations, if the period of use exceeds one month, the charges for the fractional part of a month following and consecutive with a full month will be a proportionate part of the monthly rate based on the actual number of days the service is furnished. For the purpose of administering this regulation, every month is considered to have thirty (30) days.
- 14.1.14 Temporary suspension of service as provided for in Section 22 of this Tariff is not applicable to Convention Center Service.
- 14.1.15 Message rate service (including semi-public telephone service) will not be furnished.

14.2 FEATURES

- 14.2.1 The following standard features are provided with Convention Center Service: Direct Outward Calling; Direct Inward Calling; Station-to-Station Calling; Station Hunting; Station Restriction; Identified Outward Calling; Call Intercepting; Call Transfer - All Calls; Consultation Hold - All Calls; Add-on - All Calls and Trunk Answer from Any Station.

PUBLIC TELEPHONES

- 15.1 A public telephone is an exchange station installed at the Company's initiative, or at its option, at a location chosen or accepted by the Company as suitable and necessary for furnishing service to the general public. Public telephone service is furnished on an individual-line basis.
- 15.2 Public telephones include coin, coinless, card reader, or a combination of a coin/card reader telephone.
- 15.3 Public telephones are installed primarily for the use of the general public in making outgoing calls. It is contemplated that the occupants of the premises on which the public telephones are located have subscribed or shall subscribe for such service as is necessary, in the judgment of the Telephone Company, in the conduct of their business.
- 15.4 Public telephones are installed without a guarantee. Local messages are charged at twenty-five cents (\$.25) each. Long distance messages are charged for at the Telephone Company's established Long Distance Message Telecommunications Service rates.

(RT)

(RT)

Local messages from public telephones to public emergency services numbers, such as 911, will be provided at no charge. Local messages from public telephones to a private emergency service provider, such as the security firm responsible for the premises where the public telephone is located, may be provided at no charge to the caller.

Local messages billed to a Telephone Company calling card, to a third number or placed collect will be charged the appropriate Operator Service Charge as specified in the Local Exchange Tariff. This charge is in addition to the above-mentioned local message charge.

Messages may also be billed to an approved commercial credit card where specially equipped card reading telephones have been installed at the rate of forty-five cents (\$.45) a message. This charge is in addition to the local and toll message charges mentioned above.

Requests to verify the status of an access line or to interrupt a busy access line will be charged the applicable Operator Service Charge as specified in the Local Exchange Tariff.

- 15.5 In all cases, the Company furnishes and displays such of its standard charges as are necessary to properly direct customers to the telephone.

Local messages billed to a Telephone Company calling card, to a third number or placed collect will be charged the appropriate Operator Service Charge as specified in the Local Exchange Tariff. This charge is in addition to the above-mentioned local message charge.

Messages may also be billed to an approved commercial credit card where specially equipped card reading telephones have been installed at the rate of forty-five cents (\$.45) a message. This charge is in addition to the local and toll message charges mentioned above.

Requests to verify the status of an access line or to interrupt a busy access line will be charged the applicable Operator Service Charge as specified in the Local Exchange Tariff.

15.5 In all cases, the Company furnishes and displays such of its standard signs as are necessary to properly direct customers to the telephones

PUBLIC TELEPHONES

RECEIVED

15.1 A public telephone is an exchange station installed at the Company's initiative, or at its option, at a location chosen or accepted by the Company as suitable and necessary for furnishing service to the general public. Ordinarily, public telephone service is furnished on an individual-line basis. However, in some cases outside the initial rate area, party lines may be employed.

15.2 Public telephones include coin, coinless, card reader, or a combination of a coin/card reader telephone.

15.3 Public telephones are installed primarily for the use of the general public in making outgoing calls. It is contemplated that the occupants of the premises on which the public telephones are located have subscribed or shall subscribe for such service as is necessary, in the judgment of the Telephone Company, in the conduct of their business. The public telephones are supplemental to such subscribers' telephones, and public telephone numbers will not be listed in the directory nor shall the agent on whose premises they are located be permitted to advertise the public telephone numbers.

15.4 Public telephones are installed without a guarantee. Local messages are charged at twenty-five cents (\$.25) each. Long distance messages are charged for at the Telephone Company's established Long Distance Message Telecommunications Service rates.

Local messages from public telephones to public emergency services numbers such as 911, will be provided at no charge. Local messages from public telephones to a private emergency service provider, such as the security firm responsible for the premises where the public telephone is located, may be provided at no charge to the caller.

(RT) Local messages billed to a Telephone Company calling card, to a third number or placed collect will be charged the appropriate Operator Service Charge as specified in the Local Exchange Tariff. This charge is in addition to the above-mentioned local message charge.

Messages may also be billed to an approved commercial credit card where specially equipped card reading telephones have been installed at the rate of forty-five cents (\$.45) a message. This charge is in addition to the local and toll message charges mentioned above.

PUBLIC TELEPHONES

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

- (RT) 15.6 Extension stations on public telephone service may be permitted at the option of the Telephone Company.
- 15.7 The Telephone Company reserves the right to deny or terminate public telephone service if unsatisfactory revenues or collection experiences are indicated.
- 15.8 The Telephone Company may furnish public telephones without coin collecting equipment in selected locations for the purpose of satisfying demand for optional billing services on an originating basis only. In the normal mode, coinless Public Telephone Service affords customers the option of selecting a preferred billing arrangement for outgoing messages; charging to a third number or to a Telephone Company calling card account or placing calls collect. In certain locations, however, calls will be billed on a collect basis only.
- 15.9 Coinless Public Telephone users may normally place calls without charge to Telephone Company numbers such as repair service, In-WATS numbers and public emergency service numbers such as 911. However, at the option of the Telephone Company, all such calls may be blocked from phones located in areas not accessible to the general public such as correctional facilities.
- 15.10 As in the case of Coin Public telephones, the Telephone Company is solely responsible for determining locations appropriate for installation of Coinless Public Telephones. The criteria for establishment of Coinless Service are potential usage and revenues, as well as public need and convenience.
- 15.11 Coinless Public Telephones may be provided on the premises of correctional facilities where potential usage by inmates participating in institutionally authorized telephone programs warrants establishing the service. Such telephones will be provided for the purpose of originating collect messages. All other traffic--including calls to Telephone Company numbers such as repair service, In-WATS numbers and public emergency service numbers such as 911--may be blocked. Where correctional facility authorities so stipulate, inmate service may be restricted to toll calling only. Collection of charges resulting from inmate calls remains the responsibility of the carrier providing the service. At the request of correctional facility authorities, monitoring equipment may be provided on Coinless Public Telephones on the premises of correctional facilities subject to the following conditions:

15.4 BUSINESS CATEGORY SEARCH

15.4.1 Service Description

- (AT) A. Business Category Search (BCS) provides customers with the ability to request business listings, by city, address, intersection, or business location, for a specified category of business, when they do not know the name of the business they are seeking. This service is available to business and residential customers.
- (AT)
(CT)
(CT) B. Method of Provisioning – The Company searches and retrieves listings, randomly on a geographic basis for city, and / or by using information such as an address, street intersection or a specific business location. The Company will suggest three business names to the customer, unless fewer listings are available, in which case only those listings retrieved will be suggested. If the suggested listings do not satisfy the customer, additional searches can be requested. The Company’s operators will provide the business address(es), along with the telephone number, if requested by the customer.
- (CT) C. The Company will make good faith efforts to eliminate a business customer’s listing from this service upon written notice. However, it is not possible to ensure that a business listing will be permanently removed from this service unless the business customer subscribes to non-published service. Permanent removal of a listing is available with non-published service.
- D. Callers access BCS by dialing 1 + 411 or 0 + 411

15.4 BUSINESS CATEGORY SEARCH (cont'd)

15.4.2 Regulations

- A. The regulations and rates set forth below apply to each customer's request for assistance in determining the telephone number information of a Business as defined in 15.4.1, above, when a caller does not know, or does not provide, the name of the business. BCS can be performed for local and non-local businesses nationwide.
- B. The customer can obtain up to ten business telephone numbers on a call. The customer will be charged for each business telephone number provided. If none of the suggested listings satisfy the customer's request, the customer will be charged a single charge for each requested search, at the applicable rate specified in Paragraph 15.4.3 below. The BCS rate applies whether or not a number is available, including requests for numbers, which are non-published, non-listed, or not found.
- C. There are no handicapped billing exemptions or call allowances for BCS service requests.
- D. Business Category Search is not currently available from Hotel/Motel and Pay Telephones.

With respect to any claim or suit, by a customer or others, the Company shall not be liable for providing the name and number of a business to a customer using BCS, for any errors or omissions, for the method of providing listings, or for any other aspect of this service. The Company's liability, if any, for its gross negligence or willful misconduct shall not be limited by this tariff.

Service and Equipment Charge	\$15.13(CR)	\$15.62(CR)

In addition to the Service and Equipment Charge, the customer will be required to pay all charges due, including the charges for the period of denial.

16.1.2 This Service and Equipment Charge applies only after the suspension of service and not after its discontinuance; that is, it does not apply after the completion of a disconnection order. After service is discontinued by the completion of a disconnection order, service can be restored only upon the execution of a new contract, in which case the Service and Equipment Charges as specified in the Local Exchange Tariff for a new installation, will apply.

RESTORATION OF SERVICE

16.2 MAINTENANCE AND REPAIRS

REC'D NOV 01 2002

16.2.1 The Telephone Company undertakes to maintain and repair the facilities which it owns for its customers, under tariff. The customer shall be responsible for damages to facilities of the Telephone Company caused by the negligence or willful act of the customer. The customer may not rearrange, disconnect, remove or attempt to repair, or permit others to rearrange, disconnect, remove or attempt to repair any equipment installed and maintained under tariff by the Telephone Company except upon the written consent of the Telephone Company.

Service Commission

(AT) 16.2.2 A nonrecurring Customer Owned Equipment Trouble Isolation Charge(1) of \$37.00 for
(AT)(CR) Residence and \$39.95 for Business will apply for each repair visit to a customer's premises or the premises of any other customer where the service difficulty or trouble results from the use of Equipment or Facilities on the customer's side of the demarcation point. This charge will only apply when a Network Interface Device has been installed. For those circumstances where a Network Interface Device has not been installed, a Customer Owned Equipment Trouble Isolation Charge of \$5.00 will apply.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.1 RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

The regulations specified herein are in addition to the regulations contained in other sections of this General Exchange Tariff and other tariffs. Failure on the part of customers to observe these rules and regulations of the Company automatically gives the Company the right to cancel the contract and discontinue the furnishing of service.

The Telephone Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

The regulations covering the connection of equipment, accessories or facilities provided and maintained by the customer are contained in other sections of this Tariff.

17.2 APPLICATION FOR SERVICE

Applications for service, or requests from customers for additional service, and changes in the grade or class of service become contracts when received by the Company and are subject to the minimum contract term. The Telephone Company reserves the right to require application for service to be made in writing on forms supplied by it.

The terms and conditions of all contracts are subject to the rules and regulations in this General Exchange Tariff and other Tariffs for the particular exchange for which service is to be furnished. Any general change in rates, rules or regulations shall act as a modification of the contract to that extent without further notice except that in case rates are increased, the customer may cancel his contract upon reasonable written notice and upon payment for all service, equipment and any contractual liability.

Unless otherwise specified, the minimum term for which service will be furnished is one month.

The Telephone Company reserves the right to refuse service to any applicant or former customer who is found to be indebted to the Telephone Company for prior service. The Telephone Company will not establish any new service until satisfactory arrangements have been made for the payment of all such indebtedness.

(AT) Pursuant to paragraph 394 of the FCC's Final Report and Order in Case No. CC 96-45, a
(AT) qualifying customer's request for LifeLine Service may not be denied for previous non-payment of toll charges.

Public Service Commission

The regulations specified herein are in addition to the regulations contained in other sections of this General Exchange Tariff and other tariffs. Failure on the part of customers to observe these rules and regulations of the Company automatically gives the Company the right to cancel the contract and discontinue the furnishing of service.

The Telephone Company's obligation to furnish service or to continue to furnish service is dependent on its ability to obtain, retain and maintain suitable rights and facilities, and to provide for the installation of those facilities required incident to the furnishing and maintenance of that service.

The regulations covering the connection of equipment, accessories or facilities provided and maintained by the customer are contained in other sections of this Tariff.

17.2 APPLICATION FOR SERVICE

Applications for service, or requests from customers for additional service, and changes in the grade or class of service become contracts when received by the Company and are subject to the minimum contract term. The Telephone Company reserves the right to require application for service to be made in writing on forms supplied by it.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.3 APPLICATION OF BUSINESS AND RESIDENCE RATES

17.3.1 Business Rates Apply at the Following Locations⁽¹⁾:

(AT) In offices, stores, factories and all other places of a strictly business nature.⁽²⁾

In offices of hotels, halls and offices of apartment buildings, quarters occupied by clubs or lodges, public, private or parochial schools or colleges, hospitals, libraries, churches and other similar institutions, except in churches and boarding houses as specified below.

At residence locations when use of the service either by the customer, members of his household, his guests or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising either by business cards, newspapers, handbills, billboards, circulars, motion picture screens or other advertising matter such as on vehicles, etc., or when such business use is not such as commonly arises and passes over residence telephones during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.

(1) An electronic Bulletin Board System (BBS) is a data calculating and storage device(s) utilized as a vehicle to facilitate the exchange of information through the use of Southwestern Bell Telephone Company services.

BBSs located at a residence location that do not solicit or require any remuneration, directly or indirectly, in exchange for access, and that use four or fewer local exchange access lines shall be permitted to subscribe to a flat rate residential offering. Residential measured or message rate service may not be used as the local exchange access service for the operation of BBSs. BBSs eligible for residential rates may not use paid-for advertising to promote or advertise their BBS. Those BBSs that do not meet these conditions will be considered businesses, and shall subscribe to the appropriate business rate service for all exchange lines used to operate the BBS.

(AT) (2) Service to members of Amateur Radio Clubs including those located at business locations may be provided residential service pursuant to Federal Communications Commission Rule 47 C.F.R.§§97.113(2) and (3).

17.4 ADVANCE PAYMENTS AND DEPOSITS

(AT) The Telephone Company, may require a deposit or guarantee as a condition of new service. The deposit may be required prior to or no more than 30 calendar days after the Company actually provides service. An advance payment may be request as stated below in 17.4.1. The Telephone company reserves the right to make the determination as to the type of security requested of the applicant and applied as specified in this tariff.

17.4.1 Advance Payments

When making application for service, an applicant for service may be required to pay at the time the application is accepted, service connection charges, if applicable, and the first month's charges for exchange service, excluding charges for local messages in excess of the monthly guarantee. In all cases, the regular monthly charges for service are payable as specified in the Local Exchange Tariff. In most cases, the provisions of this paragraph affect the initial payment and not the subsequent billing and collection practices as elsewhere provided in this Tariff.

The amount of the advance payment is credited to the customer's account and may be applied against any indebtedness under contract with the Telephone Company. In such cases, an additional payment may be required to satisfy the security obligation for the new application for service.

A. Residence Service

(RT)(CT) The Telephone Company may require an applicant for service to make an advance payment if:

1. Applicants With Previous Telephone Service of Twelve Months or More

The applicant is unable to establish that he had a previous account with a telephone utility for a period of at least twelve (12) months for which all undisputed charges were satisfactorily paid.

2. Applicants With No Previous Telephone Service or With Previous Telephone Service of Less Than Twelve Months

(CT) The applicant's credit record will be accessed and evaluated by means of a mechanized retrieval system between the Telephone Company and nationally recognized credit bureaus. This process is known as Application Scoring and involves the use of empirical data and a statistical credit model in determining the applicant's credit worthiness. No security payment will be required of those applicants who meet the Telephone Company's established credit criteria, as evaluated by the scoring model. The criteria used in assessing a score is as follows:

- Collection judgments
- Written-off accounts
- Outstanding collection accounts
- various degrees of delinquency history from 30-180 days, and not paid in full or current at the time of scoring
- Bankruptcies
- Liens
- Other public records

17.4 ADVANCE PAYMENTS AND DEPOSITS-(Continued)

17.4.2 Deposits

A. Residence Service-(Continued)

A deposit will be required of an applicant when the applicant has an outstanding prior debt with the Telephone Company.¹ The amount of deposit for a new applicant will be twice the average monthly bill for subscribers within a customer class.

(RT)(CT)

(RT)

A present customer may be required to post a deposit as a condition of continued service if undisputed charges in two (2) out of the last twelve (12) billing periods have become delinquent or the customer has had service discontinued at any time during the preceding twelve (12) billing periods.

The amount of deposit for a present customer will be twice that customer's average monthly billing for exchange and long distance charges. The average monthly billing will be based on the actual billing for the immediate months preceding the request for the deposit, not to exceed twelve (12) months.

(CP)

(CP)

Deposits held thirty (30) days or more, shall bear interest at a rate which is equal to one percent (1%) above the prime lending rate as published in the Wall Street Journal. This rate shall be adjusted annually on December 1 using the prime lending rate, as published in the Wall Street Journal on the last business day of September of each year, plus 1%. The interest shall be credited annually to the account of the customer or paid upon the return of the deposit, which ever occurs first.

The Telephone Company shall permit an applicant for service to pay the deposit in two equal monthly installments.

An applicant for service or a present customer may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not to exceed the requested deposit from a present customer with the Telephone Company with at least two years of established service whose service has not been suspended for nonpayment within the last twelve (12) months. The guaranty contract shall be on a form provided by the Telephone Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend the guarantor's service pursuant to Paragraph 17.6.1,A. of this Tariff. A guarantor shall be released upon satisfactory payment by the customer of all undisputed charges during the last twelve (12) billing periods.

- (1) The deposit may be waived for qualifying Lifeline customers voluntarily electing to receive toll blocking at no charge, pursuant to paragraph 398 of the FCC's Final Report and Order in Case No. CC 96-45.

A deposit will be required of an applicant when the applicant has an outstanding prior debt with the Telephone Company.¹ The amount of deposit for a new applicant will be twice the average monthly bill for all residence subscribers. If, within the first six(6) months of establishing service, the customer incurs toll or other charges in any one (1) billing period which are greater than 400 percent of the amount of the deposit previously required, an additional deposit may be required.

A present customer may be required to post a deposit as a condition of continued service if undisputed charges in two (2) out of the last twelve (12) billing periods have become delinquent or the customer has had service discontinued at any time during the preceding twelve (12) billing periods.

The amount of deposit for a present customer will be twice that customer's average monthly billing for exchange and long distance charges. The average monthly billing will be based on the actual billing for the immediate months preceding the request for the deposit, not to exceed twelve (12) months.

On deposits held thirty (30) days or more, simple interest at the rate of nine (9) percent per annum shall be credited annually to the account of the customer or paid upon the return of the deposit, which ever occurs first.

The Telephone Company shall permit an applicant for service to pay the deposit in two equal monthly installments.

An applicant for service or a present customer may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not to exceed the requested deposit from a present customer with the Telephone Company with at least two years of established service whose service has not been suspended for nonpayment within the last twelve (12) months. The guaranty contract shall be on a form provided by the Telephone Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend the guarantor's service pursuant to Paragraph 17.6.1.A. of this Tariff. A guarantor shall be released upon satisfactory payment by the customer of all undisputed charges during the last twelve (12) billing periods.

- (AT) (1) The deposit may be waived for qualifying Lifeline customers voluntarily electing to receive toll blocking at no charge, pursuant to paragraph 398 of the FCC's Final Report and Order in Case No. CC 96-45.

Public Service Commission
MISSOURI

Local Exchange Service, as distinguished from Public and Semi-Public Telephone Service, is furnished only for use by the customer, his family, employees or business associates, persons residing in the customer's household or authorized users, except as the use of the customer service may be extended for switched data (non-voice) communications relating directly to the business of Composite Data Service Vendor's patrons, or as defined in Section 37, Shared Tenant Service Arrangements, of this Tariff. The Telephone Company has the right to refuse to install customer service or to permit such service to remain on the premises of a public or semi-public character, except for Private Coin Service, when the service is so located that the public in general or patrons of the customer may make use of the service. At such locations, however, customer service may be installed, provided the service is so located that it is not accessible for public use.

(CP)

The customer is responsible for payment of all charges incurred, regardless of whether such charges are associated with his usage or that of any of his authorized users. The telephone Company will render billing to the customer of record, and that customer shall be responsible for all charges. The Telephone Company will not prorate nor divide billing between the customer and any of his authorized users.

Local Residence Exchange Service may be used for providing access to resold or shared customer premises key equipment. Local Business Exchange Service may be used for providing access to resold or shared customer premises key or switching equipment, IntraLATA Long Distance Message Telecommunications Service and IntraLATA Wide Area Telecommunications Service. Where Local Exchange Service is used for this purpose, no payment either direct or by means of a coin-collective device, or consideration for the Local Exchange Service is to be paid any party other than the Telephone Company, except as provided in this Tariff. This prohibition shall not apply to a Composite Data Service Vendor in the provision of composite data service to its patrons or to international record carriers in the provision of data message service.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.5 USE OF SERVICE AND FACILITIES (cont'd)

17.5.1 Use of Customer Service (cont'd)

Business Local Exchange Service may be used in the provision of interstate enhanced service consistent with the FCC-mandated enhanced services exemption. Such interstate enhanced services use is limited to the period for which the FCC enhanced services exemption is in force.

(CT) Except as specifically provided for in this or other Company tariffs, Local Exchange Service may not be used to extend the local calling scope of the subscribing customer.

(CT) In the event, a customer's service is discovered to be in violation of the aforementioned provisions, the Company shall backbill to recover the undercharge. To determine the amount of undercharge, the Company shall first review its service records to determine the period of undercharge. Should the customer dispute the period determined by the Company, the customer has the burden of demonstrating a shorter period of undercharge. In cases where the customer has the burden of demonstrating a shorter period of undercharge, the customer has the burden of demonstrating a shorter period of undercharge. In cases where the Company service records do not indicate a probable period of undercharge, a period of 12 months shall be used and the burden of demonstrating a shorter period shall be upon the customer. The undercharge shall be assessed based upon Switched Access Service charges.

(CT) The Company, upon failure of the customer to pay the amount backbilled, shall suspend service to the customer until such time as the backbilled amount plus late payment penalty, if any, are paid in full.

17.5.2 Paralleling Service

(RT) When flat, measured or message rates are quoted in an exchange for business main station or commercial Private Branch Exchange Service, an applicant may, at his option, select service under one method of rate treatment, but the entire service furnished at the same premises including additional and auxiliary service must be uniformly on the same rate basis and not on a combination of the two.

17.5.3 Party Line Service

Customers with party line service will so use the service as not to interfere with an equitable proportionate use of the service by the other customers on the same line. When the duration or number of local messages sent or received by a party line customer is so great as to prevent an equitable proportionate use of the line by other customers on the line, the Telephone Company shall have the right to require the customer to contract for a higher grade of service or to discontinue the service of the customer in question. The Telephone Company reserves the right to limit the continuous use of a party line for local messages.

17.5.4 Transmitting Messages

The Telephone Company does not transmit messages but offers the use of its facilities for communications between its customers.

(MT)

17.5.7 Except as otherwise provided in this Tariff, nothing herein shall be construed to permit the use of a device to interconnect any line or channel of the Telephone Company with any other communication line or channel of the Company or of any other person.

17.5.8 Temporary Dual Service

Any application of Dual Local Exchange Service is limited to instances involving the relocation of nonparty line service within a serving office area (and within the same switching entity) where the telephone number assignment and grade of service remain unchanged. It is intended, where the capability exists, to facilitate an occasional customer short-term need for continuing service at the old location beyond its re-establishment date at the new location. Temporary Dual Service is a simple, nondesigned, "bridged" arrangement that can result in certain functional, operational and/or transmission reductions. Provided these limitations are understood by the customer and found acceptable by both customer and Company, dual service provisioning will not extend beyond a 30 consecutive calendar day period. Under such arrangements, full rates and charges for each service location is applicable.

Service needs beyond the scope of Temporary Dual Service must be provided under standard tariff provisions.

SEP 27 1984

A. Residence Service

BY 1st RS 12
PUBLIC SERVICE COMMISSION
OF MISSOURI

The customer is responsible for payment of all charges for services furnished the customer, including charges for services originated or charges accepted at the customer's station and including any charges transferred to the customer's account pursuant to Paragraph 17.4.2, A, where the customer has executed a Contract of Guaranty for an applicant or present customer. A customer shall have at least twenty-one (21) days from the rendition of a bill to pay the charges stated except when the customer has had service discontinued by the Company within the last twelve (12) months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least four hundred percent (400%) of the amount of the deposit or guarantee previously required from the customer, in which case payment may be demanded for the toll charges by a telephone call to the customer followed by written notification of such demand.

Upon nonpayment of any undisputed, delinquent charge due the Telephone Company, the Telephone Company may, after a written notice has been furnished to the customer, without incurring any liability, forthwith discontinue the furnishing of said service. This written notice shall be sent or delivered to the customer at least five (5) days prior to the date of the proposed discontinuance. Service shall not be discontinued on a day when the offices of the Telephone Company are not available to facilitate reconnection of service or on a day immediately preceding such day.

At least 24 hours preceding a discontinuance, the Telephone Company shall make reasonable efforts to contact the customer to advise him of the proposed discontinuance and what steps must be taken to avoid it.

FILED
JAN - 1 1984

17.6 PAYMENTS FOR SERVICE

17.6.1 Payment for Service

MO. PUBLIC SERVICE COMM.

A. Residence Service

The customer is responsible for payment of all charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and any charges pursuant to Paragraph 17.4., preceding, where the customer has executed a Contract of Guaranty. A customer shall have at least 21 days from the rendition of a bill to pay the charges stated, except when the customer has had service discontinued by the Company within the last 12 months or the customer incurs toll or other charges at any time during the billing period which are equal to at least 400 percent of the amount of the deposit or guarantee previously required from the customer, in which case payment may be demanded for the toll charges by a telephone call to the customer followed by written notification of such demand.

A Late Payment Charge of \$1.60 will be applied to accounts which have charges carried over to the next monthly bill. When the balance carried over is in dispute, the Late Payment Charge will be applied and adjusted later, if appropriate, based on the resolution of the claim.

Upon nonpayment of any undisputed, delinquent charge due the Telephone Company, the Telephone Company may, after a written notice has been furnished to the customer, without incurring any liability, forthwith discontinue the furnishing of said service. This written notice shall be sent or delivered to the customer at least five (5) days prior to the date of the proposed discontinuance. Service shall not be discontinued on a day when the offices of the Telephone Company are not available to facilitate reconnection of service on a day immediately preceding such day.

C. Resold Residence or Business Service

Customers of a Local Service Provider (LSP) will be transferred to the Telephone Company's local service if the LSP resells the Telephone Company's services and is delinquent by failing to render payment to SWBT within 75 days of the bill date or as defined in the LSP Resale Agreement. Within 5 days of the transfer the Telephone Company shall inform in writing all affected customers that because of their LSP's failure to pay, their service is now being provided by the Telephone Company. The customer shall also be informed that they have 30 days to select a new LSP.

The Telephone Company may discontinue service to the LSP upon failure to pay undisputed charges as provided for in their Resale Agreement, and shall have no liability to the LSP or the LSP customers in the event of such disconnection.

If any customer fails to select a LSP within 30 days of the change of providers, the Telephone Company shall terminate the customer's service. The Telephone Company shall notify the Commission and the customer's IXC of record of the names of all customers whose service has been terminated. The customer shall be responsible for any and all charges incurred during the selection period.

17.6.2 Rates for Fractional Periods

If the period of use exceeds one month, the charges for the fractional part of a month following and consecutive with a full month will be a proportionate part of the monthly charges based on the actual number of days the facilities are furnished. For the purpose of administering this regulation with respect to the determination of charges for a fractional part of a month, every month is considered to have 30 days.

When rates are on a "per-day" basis, the minimum charge for each day or fraction thereof will be the charge for one day.

The customer is required to pay his pro-rata share of special license and other taxes as specified under Paragraph 17.11 of this Section of the Tariff.

17.7 OBLIGATIONS OF CUSTOMERS AND RIGHTS OF THE TELEPHONE COMPANY

17.7.1 Obligations of Customers

- A. Alterations--The customer agrees to notify the Company promptly, in writing, whenever alterations or new construction on premises owned or leased by him will necessitate changes in the Company's network wiring or equipment, and the customer agrees to pay the Company's current charges for such changes.
- B. Maintenance and Repairs--All ordinary expense of maintenance and repair associated with network facilities and equipment, unless otherwise specified in this Tariff, is borne by the Telephone Company. The customer agrees to take good care of the network equipment and facilities provided. In case of damage to or destruction of any of the Company's network equipment or facilities not due to ordinary wear and tear, the customer is held responsible for the cost of replacing the Company's network equipment destroyed or for the cost of restoring the Company's network equipment to its original condition, except where such damage is not occasioned by the negligence of the customer.
- C. Rearrangements and Installation of Equipment and Facilities--Customers may not install, rearrange, disconnect or remove or permit others to install, rearrange, disconnect or remove any network wiring or equipment associated with the Telephone Company facilities, except upon the written consent of the Telephone Company or as provided for by this Tariff.

17.7.1 Obligations of Customers--(Continued)

D. Use of Commercial Power for Operation of Equipment or Facilities--Unless specifically provided otherwise in this Tariff, when commercial power is used for the operation of Telephone Company equipment or facilities, the customer will provide the necessary power wiring, power outlets and commercial power. The customer assumes all responsibility for the safe condition of the power wiring, power outlets and commercial power.

(AT) E. Electrical Grounding/Bonding - The customer is responsible for grounding and/or bonding the premises, any structure in which service is to be provided or used, as well as any equipment and associated wiring. The Telephone Company shall in no way be liable for any harm or any damages arising in connection with any failure to properly ground or bond the service, the premises, any structure in which the service is to be provided or used, any equipment or any associated wiring.
(AT)

17.7.2 Rights of the Telephone Company

A. Work Performed on an Overtime Basis--The charges specified in this Tariff do not contemplate work being performed by the Telephone Company employees involved at a time when overtime wages apply, due to the request of the customer. If the customer requests that overtime labor be performed, an additional charge based on the additional costs involved applies.

B. Work Interruption--The charges specified in this Tariff do not contemplate work once begun being interrupted by the customer. If the customer interrupts work once begun, an additional charge based on the additional costs involved applies.

C. Ownership--Equipment and lines on customers' premises furnished by the Telephone Company shall be and remain the property of the Telephone Company, whose agents and employees have the right to enter said premises at any reasonable hour for the purpose of installing, inspecting, maintaining or repairing the equipment and lines for the purpose of making collections from coin boxes and, upon termination of the service, for the purpose of removing such equipment and lines.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.7 OBLIGATIONS OF CUSTOMERS AND RIGHTS OF THE TELEPHONE COMPANY-
(Continued)

17.7.2 Rights of the Telephone Company-(Continued)

- H. Telephone Directory Distribution-The Telephone Company distributes to its customers without charge such directory information as in its opinion is generally necessary for the efficient use of the service. Any additional directories or information requested by a customer will be furnished without additional charge where, in the opinion of the Company, such provisions will lend to a more efficient use of the service by that particular customer. Other directories will be furnished at the discretion of the Company at a reasonable rate.
- I. Telephone Directory Ownership-Directories regularly furnished to customers are the property of the Telephone Company, are loaned to customers only as an aid to the use of the telephone service and are to be returned to the Telephone Company upon request. Customers must not deface or mutilate such directories or attach or permit attachment of covers of any sort or description without the written consent of the Telephone Company. The Telephone Company shall have the right to make a charge for directories issued in replacement of directories destroyed, defaced or mutilated while in possession of customers.
- J. Telephone Numbers-The Telephone Company reserves the right to change the telephone number or numbers assigned to a customer or the central office designation associated with such telephone number or numbers, or both, as reasonably appropriate in the conduct of its business. The customer has no property right in any number or central office designation assigned by the Telephone Company in the furnishing of telephone service.

K. Unauthorized Attachments or Connections-Where the customer uses unauthorized equipment, accessories, apparatus, circuit or device, he will be held responsible for the cost of correcting any impairment of service caused by the use of such attachment or connection and will be billed the amount specified in Section 16 of this Tariff for each service call made to his premises or the premises of any other customer by reason of the use of such attachment or connection with facilities of the Telephone Company.

L. Protective Equipment

1. When a hazardous electrical environment is present at a customer's premises, protective equipment is required sufficient to protect all facilities affected when the estimated rise in ground potential is sufficient to cause damage to Telephone Company facilities or to endanger the safety of its employees or customers or impair other customer's service. The customer may elect to provide his own protective equipment, subject to Telephone Company specifications, or such protective equipment can be provided by the Telephone Company and special charges will apply.
2. Neutralizing transformers, isolating transformers, drainage coils and other special protective equipment for use in providing service to customer's premises where there are high ground potentials, even though not required by the preceding paragraph, may be provided by the customer, subject to Telephone Company specifications, or such protective equipment can be provided by the Telephone Company and special charges will apply.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.8 LIABILITY OF THE TELEPHONE COMPANY

- 17.8.1 Defacement of Premises-No liability shall attach to the Telephone Company by reason of any defacement or damage to the customer's premises resulting from the existence of the Telephone Company's equipment, facilities and associated wiring on such premises, or by the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Telephone Company or its employees.
- 17.8.2 Errors-The Telephone Company's liability for damages arising from errors or omissions in the making up or printing of its directories or in accepting listings as presented by customers or prospective customers shall be limited to the amount of actual impairment of the customer's service, and in no event shall it exceed the amount paid for the service during the period covered by the directory in which the error or omission occurs.
- 17.8.3 Interruptions of Service-The customer assumes all risk for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, failures or defects in equipment and facilities furnished by the Telephone Company occurring in the course of furnishing service, in the telephone service or other communication services furnished him by the Telephone Company, or of the Telephone Company failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision, except as follows: If service is interrupted other than by negligence or willful act of the customer, an allowance at the rate for that portion of the customer's service affected by the interruption shall be made for the time such interruption continues after the fact is reported by the customer or after detected by the Telephone Company and the interruption is for more than 24 hours. No other liability shall in any case attach to the Company in consideration of such interruptions. The Telephone Company will not be responsible for any loss or damage nor for any impairment or failure of the service arising from or in connection with the use of customer-owned facilities or equipment and not caused solely by the negligence of the Telephone Company.

A. If a customer requests installation or repair of facilities used to provide service and the installation or repair is not performed in accordance with the Company's commitment to the customer, the customer is eligible to receive a \$25.00 credit on their bill. One credit per order or trouble report may be applied for the affected Service Categories.

1. Service Categories

In addition to the General Exchange Tariff (1)(2), the following Telephone Company service tariffs are included in the Service Guarantee:

- Integrated Services Tariff
- Local Exchange Tariff
- Long Distance Message Telecommunications Service Tariff
- Wide Area Telecommunications Service Tariff
- Digital Link Services Tariff
- Private Line Services Tariff
- Customer Specific Plan Tariff

2. Conditions

Each credit shall be limited to the amount described above for all of the lines associated with the service to be installed or repaired and for all services associated with such lines in any given service order.

Credit will be provided in accordance with the above conditions at the request of the customer.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.9 TRANSFER OF CONTRACTS

- (RT) 17.9.1 A customer may transfer his contract(s) to another party at the same location when there is no reason to question the responsibility of the other party and when the new party willingly assumes all the obligations of the former customer and pays any additional charges that are
- (CT) applicable. A Transfer of Service Agreement signed by the new customer may be required and bills are rendered the new party without any adjustments. Such contract is terminable under the same conditions as was the original contract.
- (CT) 17.9.2 The telephone number of a telephone service affected by a transferred contract covering a change of party may be changed unless it is clearly shown that the new party is, in fact, the successor of and is entitled to receive and will properly care for the incoming messages for the listed number. In order to retain the listed telephone number, the new customer must assume any outstanding indebtedness under the transferred contract.

17.10 TERMINATION OF CONTRACTS

17.10.1 Cancellation of Application for Services

- A. Where the applicant cancels an application for service prior to the start of installation or special construction of facilities, no charge applies.
- B. Where installation of facilities, other than those provided by special construction, has been started prior to the cancellation, the charge specified below, whichever is lower, applies.

A charge equal to the estimated costs incurred in such installation, less estimated net salvage.

The charge for the minimum period of the service ordered by the customer as provided in this Tariff plus the full amount of any termination charges applicable.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.10 TERMINATION OF CONTRACTS-(Continued)

17.10.1 Cancellation of Application for Services-(Continued)

- C. Where special construction of facilities has been started prior to the cancellation and there is another requirement for the specially constructed facilities in place, no charge applies.
- D. Where special construction of facilities has been started prior to the cancellation and there is no other requirement for the specially constructed facilities, a charge equal to the costs incurred in the special construction, less net salvage, applies except that where one or more, but not all, of the services involved in the special construction are canceled, a charge equal to the cost, less net salvage, incurred for the discontinued services applies instead. Net salvage is determined based on the value of reusable material, less cost of removal. In determining the charge, each canceled service is treated as discontinued as of the date on which it was to have been placed in service.
- E. Installation or special construction of facilities for a customer is considered to have started when the Telephone Company incurs any expense in connection therewith or in preparation therefore which would not otherwise have been incurred, provided the customer had advised the Telephone Company to proceed with the installation or special construction.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.10 TERMINATION OF CONTRACTS-(Continued)

17.10.2 Termination of Contracts During Minimum Terms

- A. Service and Equipment Contracts may be terminated before expiration of the minimum term, under the following conditions:(l)
1. On payment of all charges for service rendered-In case of abandonment of the premises because of condemnation or, if in the opinion of the Telephone Company, the premises has been substantially destroyed from causes beyond the control of the customer, the customer has up to two months from date of destruction to decide to:
 - Terminate contract. The customer will not be required to pay the charges applicable for the unexpired portion of the termination agreement.
 - Continue same service subject to the availability of equipment. The same service is installed without Complex Installation/Move Charges or Service Charges. Upon completion of installation of the same type of service, the period of time the customer was out-of-service is added to the expiration date of the existing contract term.
 - Change service. If the service is changed, the customer's existing contract is terminated and the customer will not be required to pay the charges applicable for the unexpired portion of the termination agreement and a new contract is issued. The Service Charges will be based on the difference between the Service Charges applicable to re-establish the existing service and the Service Charges to establish the new service. If the Service Charges to establish the new service are less than the Service Charges to re-establish the existing service, no charges are applicable. The customer is required to pay all other nonrecurring charges for the new equipment.
 2. On payment of all charges for services for the minimum contractual period.

(l) Includes Directory Listings contracts where the minimum term is one month.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.10 TERMINATION OF CONTRACTS-(Continued)

17.10.2 Termination of Contracts During Minimum Terms-(Continued)

B. Directory Listings-Contracts may be terminated before expiration of the minimum term, under the following conditions:(l)

1. On payment of all charges for service rendered-
 - In case the contract for main service is terminated, or
 - In case the listed party becomes a customer to some other class of exchange service similar in classification, i.e., business or residence, to that under which the listed party is listed, or
 - In case the listed party moves to a new location or quits business, or
 - In case of death of the listed party.
2. On payment of all charges for service for the minimum contractual period.

17.10.3 Termination of Contracts After Expiration of Minimum Term

Contracts, unless otherwise specified, may be terminated by either the customer or the Company, after the expiration of the minimum term, upon reasonable written notice from either party to the other.

17.10.4 Contractual Agreements

The basic termination charge and the minimum contract period referred to in this Tariff are to be applied to the same customer at the same location. An assumption of an existing contract by a new customer as provided for in this section of the Tariff is to be considered as a continuation of the same contract.

17.10.5 General Provisions

- (AT)
- A. A failure to make payments in accordance with the rules and regulations prescribed by the Telephone Company is regarded by the Company as a voluntary termination of the contract by the customer.
 - B. After termination and upon nonpayment of any undisputed, delinquent charges due the Telephone Company, the Telephone Company may transfer such charges to any in-service account billed to the same customer.

(l) Includes Directory Listings contracts where the minimum term is the directory period.

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.10 TERMINATION OF CONTRACTS-(Continued)

17.10.5 General Provisions-(Continued)

- (FC) C. The service is furnished subject to the condition that it will not be used for an unlawful purpose. Service will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such service is being used or will be used in violation of law or if the Telephone Company receives other evidence convincing to it that such service is being or will be so used.
- (FC) D. Abandonment of equipment or service by a customer is regarded by the Telephone Company as a voluntary termination of the contract.
- (FC) E. If it is deemed necessary by the Telephone Company, in compliance with Paragraphs 17.4.2, A. and/or B., customers may be required to provide security satisfactory to the Telephone Company in the amount sufficient to guarantee payment of the termination charge. If a cash deposit is made, simple interest at the rate of 9 percent per annum will be paid on deposits held 30 days or more.

17.11 SPECIAL TAXES, FEES AND CHARGES

There shall be added to the customer's bill or charge, as a part of the rate for service, a surcharge equal to the pro rata share of any franchise, occupation, business, license, excise, privilege or other similar tax, fee or charge (hereafter called "tax") now or hereafter imposed upon the Telephone Company by any taxing body or authority, whether by statute, ordinance, law or otherwise and whether presently due or to hereafter become due.

On and after the effective date thereof, any subsequent increase, decrease, imposition or determination of liability for such taxes, fees or charges as described above shall be applied, in the manner provided below, to the customer's bill or charge on each individual billing date.

When such tax or taxes are imposed in terms of a flat sum payment of money, the surcharge applicable to each customer's bill or charge, as the pro rata share of such taxes described above, shall be determined by relating the flat sum payment to the total local exchange revenues within the jurisdiction of the taxing body; the fraction so described

RULES AND REGULATIONS APPLYING TO ALL CUSTOMERS' CONTRACTS

17.12 SPECIAL SERVICE ARRANGEMENTS

17.12.1 General

Special Service Arrangements consist of modifications of standard equipment or services offered under this Tariff. They will be furnished, when practicable, by the Telephone Company at charges equivalent to the cost of providing such arrangements if in connection with and not detrimental to any of the services furnished under the Company's tariffs.

17.12.2 Rates

A. Computation

1. Rates for special service arrangements are equivalent to the costs of furnishing the special arrangement or service.
2. The costs consist of an estimate of the total cost to the Telephone Company in providing the special modification including:
 - a. Cost of maintenance
 - b. Cost of operation
 - c. Depreciation on the estimated cost installed of any facilities used to provide the special modification based on the anticipated useful service life of the facilities with an appropriate allowance for the estimated net salvage.
 - d. Administrative expenses, including taxes on the basis of average charges for these items.
 - e. Any other item of expense associated with the particular arrangement or service.
 - f. An amount, computed on the estimated cost installed of the facilities used to provide the special modification, for return on investment.
3. Estimated cost installed mentioned above includes cost of equipment and materials provided or used plus the estimated cost of installing, including engineering, labor, supervision, transportation, rights-of-way and other items which are chargeable to the capital accounts.

A. Computation-(Continued)

- 4. In computing the rates for special service arrangements, the Telephone Company will, at its option, use one of the following three rate treatments: (1) a recurring monthly rate and termination contract with or without an installation charge; (2) a recurring monthly rate with an installation charge; (3) an installation charge only.

17.12.3 Termination Contract

A Termination Contract may apply in those cases where non-recoverable costs are substantial. Non-recoverable cost is equivalent to the estimated installed cost, plus removal cost less immediate salvage value.

(AT) 17.13 PROMOTIONAL RATES

17.13.1 Purpose

The Telephone Company may, upon Commission approval, offer promotional rates for a particular service during certain specified periods with the goal of encouraging customer interest and evaluation as well as enhancing the Company's financial performance.

17.13.2 Definition

A promotional rate is defined to be a temporary reduction or waiver of the monthly recurring rate and/or nonrecurring charge of a tariffed service.

17.13.3 Notification

The Telephone Company will notify the Commission, in advance, by letter specifying the service(s) involved, the terms and location of the promotion, and the dates of the promotional period.

17.13.4 Application

Promotional rates shall be applied only to new or additional units of service ordered during the promotional rate period

17.13.5 Operational Readiness Testing

The Telephone Company reserves the right to periodically provide certain services without charge for the limited purpose of operational readiness testing of the billing system and associated systems (such as service ordering, customer records, etc). The Telephone Company may at times request Business or Residential customers to subscribe to certain products or services prior to the product introduction for the purpose of determining billing systems readiness. During this testing period, the product or service will be provided to the customer at no charge.

Each billing system tests will be limited to no more than five customers. Customer involvement in these tests will not exceed eight weeks. At or before the end of the eight week testing period, the Telephone Company will either make a tariff filing to add the product or service to its tariff or discontinue the test.

SEMI-PUBLIC TELEPHONE SERVICE

JUN 9 1995

18.1 Semi-Public Telephone Service will be furnished at the rates shown in the Local Exchange Tariff at locations accessible to transients and collective groups of the general public. Semi-Public Telephone Service is furnished at the following types of locations where the customer desires a directory listing and inward service: clubs, fraternal organizations, educational institutions, hospitals, boarding houses, cigar stores, candy stores and other small places of business. Coin Telephone Service is excluded from the provisions of Docket 20828. Therefore the Telephone Company will continue to own and provide terminal equipment associated with Coin and non-Coin Public and Semi-Public Service.

As of January 26, 1992, all public pay phones will be equipped with Touch-Tone Service, where capabilities exist, as mandated in the American Disabilities Act (ADA) 1990.

In addition, volume control is required on 25 percent of all, but not less than one, semi-public telephones per customer location. Rates and charges for the volume control feature are found in Paragraph 18.13 of this Tariff.

- 18.2 Not more than one semi-public telephone will be installed on the same premises except, when in the judgment of the Telephone Company, additional semi-public telephones are warranted.
- 18.3 Semi-Public Telephone Service is furnished on an individual-line basis.
- 18.4 Semi-Public Telephone Service may be furnished as paralleling service to any other business service, at locations chosen by the customer and agreed to by the Telephone Company, where there is sufficient public and customer need to warrant furnishing combinations of these services.
- 18.5 In a location where there is frequent or material use of slugs, or foreign or mutilated coins, and after the customer has been notified that such practice must be discontinued, the customer shall be required to redeem, at the value for which it was tendered, each slug or foreign or mutilated coin found in the coin receptacle.
- 18.6 Semi-Public Telephone Service is not primarily intended for the use of data service. However, some Semi-Public Telephones allow for the connection of a data terminal and for data transmission. The Telephone Company does not guarantee that all data services will be compatible with this service.

SEMI-PUBLIC TELEPHONE SERVICE

18.1 Semi-Public Telephone Service will be furnished at the rates shown in the Local Exchange Tariff at locations accessible to transients and collective groups of the general public. Semi-Public Telephone Service is only furnished at the following types of locations where the customer is listed in the directory listing and inward service: clubs, fraternal organizations, educational institutions, hospitals, boarding houses, cigar stores, candy stores and other small places of business. Coin Telephone Service is excluded from the provisions of Docket 20828. Therefore the Telephone Company will continue to own and provide terminal equipment associated with Coin and non-Coin Public and Semi-Public Service.

AUG 30 1993
MISSOURI
Public Service Commission

As of January 26, 1992, all public pay phones will be equipped with Touch-Tone Service, where capabilities exist, as mandated in the American Disabilities Act (ADA) 1990. Charges for Touch-Tone Service can be found in Section 24 of the General Exchange Tariff.

In addition, volume control is required on 25 percent of all, but not less than one, semi-public telephones per customer location. Rates and charges for the volume control feature are found in Paragraph 18.13 of this tariff.

CANCELLED

18.2 Not more than one semi-public telephone will be installed on the same premises except, when in the judgment of the Telephone Company, additional semi-public telephones are warranted.

MAR 1 1995
and R.S. # 1

18.3 Semi-Public Telephone Service is furnished on an individual-line basis to any other business service, at locations chosen by the customer and agreed to by the Telephone Company, where there is sufficient public and customer need to warrant furnishing combinations of these services.

Public Service Commission
MISSOURI

18.4 Semi-Public Telephone Service may be furnished as paralleling service to any other business service, at locations chosen by the customer and agreed to by the Telephone Company, where there is sufficient public and customer need to warrant furnishing combinations of these services.

Regulations

A Custom Telephone Unit is a combination of electrical and mechanical telephone parts within a customer-provided telephone enclosure assembled to function as a regular telephone instrument.

The Telephone Company assumes no responsibility for maintenance, repairs or replacement of the customer-provided enclosure used with the Telephone Company Custom Telephone Unit.

Ownership of the Custom Telephone Unit will remain with the Telephone Company. The Telephone Company will continue to provide maintenance subject to availability of replacement parts. No new equipment can be purchased by the Telephone Company to provide this maintenance. Customers may not remove or permit others than the Telephone Company to remove Telephone Company Custom Telephone Units from the customer-provided enclosure.

SERVICE CONNECTION CHARGES

19.1 SERVICE CHARGES

19.1.1 General

The charges specified in this Section for the connection, move or change of service, contemplate work being performed by the Telephone Company employees involved at a time when overtime wages do not apply.

If the customer requests that overtime labor be performed at hours of the day or days of the week other than normal work hours or days, or on holidays, or interrupts work once begun, an additional charge based on the additional costs involved applies.

All changes in location of customers' service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with Service Charges applying. For a definition of the term "Premises," refer to Section 8 of this Tariff.

Service Charges are in addition to other rates and charges normally applying under the Tariffs. They apply in addition to construction charges made because of unusual costs in establishing service and are not in lieu of mileage charges.

For regulations covering the payment of Service Charges, refer to Section 17 of this Tariff.

19.1.2 Installment Billing

(CP) (RT)

Residence service charges may be billed in equal amounts over periods not exceeding eight months

Installment Billing allows business customers to negotiate payment of nonrecurring charges for up to four (4) months. Only two such arrangements at any one time will be provided to non-incorporated accounts. This service will only be applicable to those products and services not specified for deferred payment in other sections of this Tariff.

An amount of five dollars (\$5.00) will be applied to the first monthly payment for business customers only for each installment billing arrangement. This charge will only be applied once when multiple orders are issued for one customer, at one location, with one due date.

19.1.3 Service and Equipment Charge

A. Description

The Service and Equipment Charge is a nonrecurring charge associated a given service or item of equipment which applies on a per-item basis each time the service or item of equipment is provided.

B. Regulations

Where two or more of the Service and Equipment Charges listed below would occur on the same exchange access line on the same order, only one Service and Equipment Charge is applied. The Service and Equipment Charge applicable is the highest of the charges that would otherwise apply.

Service and Equipment Charge associated with:

- exchange access line
- temporary suspension of service at the customer's request
- restoral of service after a temporary denial for nonpayment
- changes to or from Outstate Calling Area (OCA) Service
- changes to or from Community Optional Service (COS)

(RT)

C. Charges

The Service and Equipment Charges, where applicable, are specified in this Tariff and the Local Exchange Tariff for a given service or item of equipment.

19.1 SERVICE CHARGES-(Continued)

19.1.3 Premises Work Charges-(Continued)

B. Rules

1. Premises wire may be provided and maintenance performed by either the Telephone Company or the customer and must be in accordance with the technical standards established by the Telephone Company.
2. In the event that the customer provides, maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property or death to or injury of the customer or the customer's agent. The customer will save the Telephone Company harmless from any and all liability, claims or damage suits arising out of the customer's wire provision or maintenance activity.
3. The Telephone Company will make the technical standards and installation guidelines for customer provision of inside wire available to customers at designated locations.
4. The Network Interface for the connection of customer premises inside wire consists of a standard jack or its equivalent and is provided as part of the Exchange or Wide Area Telecommunications Service (WATS) Access Line. This Network Interface will be installed at the customer's premises at a location determined by the Telephone Company which is accessible to the customer. The normal location of the Network Interface would be in close proximity to the protector or equivalent where the Telephone Company facilities enter the customer's premises, wherever practicable.
5. Premises Work Charges are based on the cost of recovering the labor and materials used to complete the premises wiring work orders. They apply to all customer-requested installations, moves, changes, removals, rearrangements and replacements of customer premises inside wire performed by the Company on the customer's premises. These charges apply separately for each service call when billable premises work is performed on premises wire.
6. Title to any wire, cable or materials used shall remain with the Company.

19.1 SERVICE CHARGES--(Continued)

19.1.3 Premises Work Charges--(Continued)

D. Definitions (Applicable to this Tariff section only)

1. Billable Premises Work - work performed on a customer's premises by a Company employee or representative at the customer's request and not covered by other charges. This includes work preparation, actual work and cleanup. Any work required to establish or reestablish network access to the Company-provided network interface is excluded.
2. Estimate - a broad statement of expected price which is not necessarily the price the customer will be billed.
3. Intrabuilding Network Cable - cable in a building that extends the outside plant distribution facilities from the building entrance to equipment rooms, cross connection points, or other distribution points.
4. Move - a customer-requested move of premises wiring from one location to another on the same premises.
5. Premises - (See Section 8 for definition).
6. Customer Premises Inside Wire - all wire within a customer's premises including connectors, jacks and miscellaneous materials associated with its installation. Premises wiring is located on the customer's side of the Telephone Company-provided Network Interface. Premises wiring may be installed by the Telephone Company or by others.(1)
7. Rearrangement - work required to unfasten and refasten premises wiring to accommodate a customer's need for temporary relocation of the wire.
8. Service Call - a premises visit or series of visits by an installer for purposes of performing billable premises work requested at one time by the customer or customer's representative.

SERVICE CONNECTION CHARGES

19.1 SERVICE CHARGES-(Continued)

(FC) 19.1.3 Travel Charge

A. Regulations

Travel Charge - applies when a trip to the customer's premises is required to install a network interface or provide service on the ~~Public Service Company's~~ side of the network interface as a result of a customer's request and no other service activity is performed. This includes but is not limited to the installation of a network interface at an existing location or the moving of a protector or aerial drop. The Travel Charge applies for the inside move of a single network interface associated with a single-line service. The inside move of a network interface associated with multiple lines or the move of multiple interfaces for the same customer on the same order will be charged as specified in Paragraph 19.2.1.

(CT) B. Charges

Time Sensitive Charge Plan

Nonrecurring Charge

- Initial Travel Charge
 - First 15 minute or fraction thereof of billable work \$39.50
- Additional Travel Charge
 - Each additional 15 minutes or fraction thereof of billable work 14.25

(FC) 19.1.4 No distinction is made between a "New Installation or Connection" and an "Outside Move". All changes in location of customer's equipment or service from one premises to another, except as otherwise provided in this Section, are treated as new service connections with Service Charges applying.

SERVICE CONNECTION CHARGES

19.1 SERVICE CHARGES (cont'd)

19.1.6 Non-application of Service Charges

A. Service Charges do not apply to:

- 1. Exchange access lines for which no basic exchange rates apply, including public telephones.
- 2. Service re-established, once, after the destruction or partial destruction of the customer's premises by means beyond the control of the customer, i.e., fire, flood or other acts of God, whether at the same or another location. (1)(2)
- 3. Changes of telephone numbers and associated listing changes for service reasons or Company-initiated reasons, e.g., continuing annoying and anonymous calls, etc.
- 4. Any activity required for the proper maintenance of equipment or service.
- 5. Partial or full disconnection of service.
- 6. Changing grade of service when customers are upgraded after having to take a lower grade of service initially due to facilities not being available.
- 7. Restoral of Services suspended at the customer's request. (The appropriate Service and Equipment Charge applies when the service is suspended.)
- 8. Reassociation of party-line service when the change is made due to Company reasons, e.g., regrouping to maintain party-line fill or clearing cable pair for other service or facility requirement.
- 9. Orders issued for record purposes.
- 10. On the "from" portion of work involved in a transfer of service and equipment from one premises to another.

19.2 MOVE CHARGES

19.2.1 When, at the request of the Customer, the network facilities are required to be moved for a Customer-Provided Communications System, PBX, or Key System, this move will be based on the cost of making the change.

19.3 JACKS

19.3.1 General

A. All registered terminal equipment and systems, whether customer-provided or Telephone Company-provided, will be directly connected to the tele-communications network through a Network Interface/Demarcation Point. This Network Interface/Demarcation Point will generally consist of a Company-provided standard jack as specified in, or authorized by, the Federal Communications Commission's Registration Program. See Connections of Registered Equipment in Section 4 and Demarcation Point in Section 8.

(RT)

(FC)

B. Network Interface Jacks are provided as part of an Exchange Access Line for Standard and Complex Services.

19.3.1 General

Public Service Commission
MISSOURI

A. All registered terminal equipment and systems, whether customer-provided or Telephone Company-provided, must be directly connected to the telecommunications network through Telephone Company-provided standard jacks as specified in, or authorized by, the Federal Communications Commission's Registration Program.

(CT)

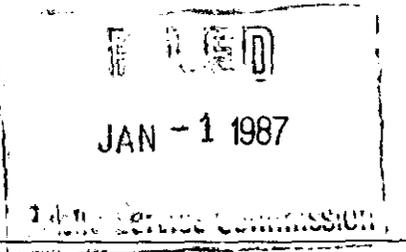

B. The Network Interface is the point of connection where the Telephone Company's installation and maintenance responsibility, on a tariffed basis, ends and the customer's installation and maintenance responsibility begins. It is a Telephone Company-provided jack or its equivalent. See demarcation point in Section 8.

For Standard (non-Key) Services, it is located at the customer's premises as close as possible to the protector and utility entrance at a location which is accessible to the customer. For Complex Services, it is located at a point immediately inside the customer's premises or, where the customer-provided equipment involves "common equipment," at an alternate premises in the same building, if requested by the customer and agreed to by the Telephone Company, and at the end of the network distribution facility, generally within 25 feet (or, with one extension, within 50 feet) of the multiline terminating equipment.

19.3.2 Charges

A. Network Interface Jacks are provided as part of an Exchange Access Line for Standard and Complex Services.

SERVICE LINE SERVICE(1)

20.1 STANDARD ARRANGEMENT

20.1.1 Service lines may be connected with the Telephone Company's facilities in a central office through circuits provided by the Telephone Company at a rate of \$1.10 per month, per line.

20.2 GENERAL REGULATIONS

20.2.1 The primary service area for service lines connected to a central office is the same as that for customers within the exchange in which the service lines are located. Service lines may be connected with only one central office and may not be extended across exchange area boundaries.

20.2.2 Contracts are executed with an agent representing all service line customers on the line, and the agent is responsible for the payment in full of all charges to the account. Contracts are executed with the agent for a period of one year, terminable thereafter upon 30-days written notice. All charges are payable in advance, except toll charges which are payable monthly in arrears.

20.2.3 Under the service line rates shown in Paragraph 20.1.1, the Telephone Company provides pole leads and circuits from the central office to a junction point at or near the initial rate area boundary. Beyond this junction point, customers are required to furnish and maintain the pole lead or both, as the case may be.

EXTENSION SERVICE

RECEIVED
MISSOURI
Public Service Commission

- 21.1 Extension Service provides the user with the capability for originating calls from or receiving calls at locations in addition to the location of the main station where such services are connected to the same exchange access line as the main station.
- 21.2 Extension Service consists of an extension station line. An extension station line consists of wiring on a customer's premises to the jack or outlet of the extension station location other than the inside wiring associated with the telephone jack or outlet of a main station location.
- 21.3 An extension station line component is associated with each Extension Service location to which a customer-provided instrument is connected.
- (CT) 21.4 For charges applicable to circuits between different buildings or different premises, see Section 2 of the Private Line Service Tariff.
- 21.5 Extension Service is furnished in accordance with such standard wiring plans as may be adopted by the Company.
- 21.6 Extension Service is not furnished in connection with Service Line Service as covered in Section 20 of this Tariff.
- 21.7 Extension Service may be furnished in connection with Suburban Line Service provided it is located on the same premises as the main station. Extension Service on suburban lines is provided subject to the right of the Telephone Company to remove such service whenever it interferes with the satisfactory operation of the line.
- 21.8 Separate telephone numbers or other distinctive designations are not assigned to extension stations nor is code ringing permitted. Extension stations are not listed, except as provided in Section 6 of this Tariff, and no additional free listings are allowed in connection with the main station on account of the extension stations.

SUSPENSION OF SERVICE

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED

22.1.1 By the Telephone Company(l)

A. Residence Service

A customer's service may be suspended for nonpayment of all undisputed, delinquent charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and charges pursuant to Section 17, Paragraph 17.4., of this Tariff, where the customer has executed a Contract of Guaranty, after a written notice has been furnished to the customer. Basic local telecommunications service may not be disconnected for customer non-payment of a delinquent charge for other than basic local telecommunications service. The customer's written notice shall be sent or delivered to the customer at least ten days prior to the date of the proposed discontinuance. Basic telecommunications service shall not be suspended on a day when the offices of the Telephone Company are not available to facilitate reconnection of service or on a day immediately preceding such day. A customer shall have at least 21 days from the rendition of a bill to pay the charges stated.

SUSPENSION OF SERVICE

RECEIVED

DEC 9 1991

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED

22.1.1 By the Telephone Company(1)

A. Residence Service

MO. PUBLIC SERVICE COMM.

A customer's service may be suspended for nonpayment of all undisputed, delinquent charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and charges pursuant to Section 17, Paragraph 17.4., of this Tariff, where the customer has executed a Contract of Guaranty, after a written notice has been furnished to the customer. Notwithstanding the foregoing, the Telephone Company shall not suspend a customer's service for charges not originating with the Telephone Company, interexchange carriers, or other local exchange companies unless otherwise authorized by the Missouri Public Service Commission. The customer's written notice shall be sent or delivered to the customer at least five days prior to the date of the proposed discontinuance. Service shall not be suspended on a day when the offices of the Telephone Company are not available to facilitate reconnection of service or on a day immediately preceding such day. A customer shall have at least 21 days from the rendition of a bill to pay the charges stated except when the customer has had service discontinued by the Company within the last 12 months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least 400 percent of the amount of the deposit or guaranty previously required from the customer, in which case payment may be demanded for the toll charges by a telephone call to the customer followed by written notification of such demand.

At least 24 hours preceding a suspension, the Telephone Company shall make reasonable efforts to contact the customer to advise him of the proposed discontinuance and what steps must be taken to avoid it.

When a customer incurs charges not covered by a deposit or guaranty and evidences an intent not to pay such charges when due, service may be suspended at any time after written notice has been sent, certified mail, to such customer at his last known address and at the address where the service to be suspended is provided. The written notice shall state how a customer has evidenced an intent not to pay charges when due.

(1) For provisions and charges associated with restoring service after suspension, see Section 16 of this Tariff.

SUSPENSION OF SERVICE

22.1 CUSTOMER'S SERVICE MAY BE SUSPENDED-(Continued)

22.1.1 By the Telephone Company(1)-(Continued)

A. Residence Service-(Continued)

(MT) The Telephone Company shall postpone a suspension for a time not in excess of 21 days if the telephone is necessary to obtain emergency medical assistance for a person who is a member of the household where the service is provided and where such person is under the care of a physician. Any person who alleges such emergency shall, if requested, provide the Telephone Company with reasonable evidence of such necessity.

B. Business Service

(AT) A customer's service may be suspended for nonpayment of all undisputed, delinquent charges for services furnished the customer, authorized users, and any other charges for which the customer has agreed to be responsible, including but not limited to charges for services originated or charges accepted at the customer's telephone for exchange service; intrastate or interstate long distance service charges billed by the Telephone Company; any FCC-approved end user charge; any charges transferred to the customer's account from terminated accounts billed to the same customer; and any charges pursuant to Section 17, Paragraph 17.4., of this Tariff, where the customer has executed a Contract of Guaranty, after a written notice has been furnished to the customer. Notwithstanding the foregoing, the Telephone Company shall not suspend a customer's service for charges not originating with the Telephone Company, interexchange carriers, or other local exchange companies unless otherwise authorized by the Missouri Public Service Commission. The customer's written notice shall be sent or delivered to the customer at least five days prior to the date of the proposed discontinuance. If, in the judgment of the Telephone Company, unusual risk of financial loss exists, service may be suspended after 48 hours' written notice has been furnished to the customer.

C. Residence or Business Service

A customer's service may be suspended for abuse or fraudulent use of service. Abuse or fraudulent use of service includes the use of service or facilities of the Telephone Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of a long distance charge.

A customer's service may be suspended for failure on the part of the customer to remove or disconnect unauthorized attachments or connections to Telephone Company facilities after being furnished written notice.

22.1.2 At Their Own Request-(cont'd)

C. Temporary Suspension of Centrex Service

1. Temporary suspension of a part of the customer's service is available when the customer has Centrex Service.
2. A reduction in rate is applicable to Centrex stations billed separately. The period of suspension will be for a minimum of at least two months. In any event, a reduction in rate shall not be applicable to the minimum number of stations required with Centrex Systems. Regular charges are applicable to all other services and facilities continued in service.
3. The reduction in rate for the period of suspension is equal to 50 percent of the regular charges for the services and facilities temporarily suspended.

(AT)

D. Temporary Suspension of Plexar Service

1. Temporary suspension of a part of the customer's service is available when the customer has Plexar Service.
2. The customer needs to provide to the Telephone Company the number of exchange access lines to be put on suspension. The customer will not be charged for these exchange access lines during the period of suspension.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS

23.1.1 Telephone Answering and Secretarial Service consists of intraLATA facilities and services furnished to business customers enabling them to use their patron's service in the provision of answering and secretarial service to the patron. Such service, as described in Paragraphs 23.1.4 and 23.1.7, may be provided under the following arrangements:

A. One-Way Inward Service

Provides for answering of patron's incoming calls. The Telephone Answering and Secretarial Service cannot place outgoing calls over the patron's line.

B. Two-Way Service

Provides for answering of patron's incoming calls and the placing of outgoing calls over the patron's line. Patron's residence lines may not be used as two-way service.

C. Outward WATS Service

Provides for an extension of the patron's outward WATS line. The patron must submit a letter to the Telephone Company authorizing the Telephone Answering and Secretarial Service to place calls on this line.

23.1.2 Unless otherwise stated herein, the minimum contract period is one month.

23.1.3 The necessary floor space, power, wiring, power outlets and commercial power for the operation of these services are furnished by the customer who assumes all responsibility for the safe condition of such floor space, wiring, outlets and power.

23.1.4 Telephone Answering and Secretarial Service may be furnished to both flat and message rate business and residence customers by the following arrangement:

A. Extension Station Line

Connects the patron's serving office line, Foreign Exchange line, Inward WATS line, Outward WATS line, PBX station lines, Centrex station lines or similar services with facilities located at a telephone answering or secretarial service location. Two-way service will be provided except in the case of Outward WATS lines where only one-way service is provided.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS-(Continued)

23.1.4 Telephone Answering and Secretarial Service may be furnished to both flat and message rate business and residence customers by the following arrangements:-(Continued)

B. Secretarial Answering Line

An arrangement whereby patron's main service, Foreign Exchange service or Inward WATS service is terminated at a Telephone Answering and Secretarial Service location. Two-way service will be provided except in the case of Inward WATS where only one-way service is provided.

C. Secondary Line Termination on Concentrator Unit

An arrangement whereby patron's serving office line, Foreign Exchange line or Inward WATS line is bridged to the concentrator unit, located in the same or a different serving office, in addition to the main point of termination. Only one-way inward service is provided.

D. Primary Line Termination on Concentrator Unit

An arrangement whereby patron's main service, Foreign Exchange service and Inward WATS service may be terminated directly on the concentrator unit in the same or a different serving office. Only one-way inward service is provided.

E. Occasional Telephone Answering Service

An arrangement whereby patron's serving office line is bridged to occasional answering service equipment in the same serving office. Concentrator-Identifier equipment cannot be used in conjunction with occasional service equipment.

F. Alternate Call Number Listings and Secretarial Listings - See the Directory Listings Section of this Tariff.

G. Temporary Suspension of Service at the request of the customer, either partial or complete, is not applicable to equipment provided under this Tariff.

23.1.5 Communication Between the Telephone Answering and Secretarial Service and Patrons

A. Telephone communication between the Telephone Answering and Secretarial Service and its patron may be accomplished in one of the following ways:

1. Through the Local Exchange network.
2. PBX or Centrex station lines from the premises of the patron.
3. Private Lines contracted for by either the answering and secretarial_service or the patron.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.1 REGULATIONS-(Continued)

23.1.6 The patron's service may be used only for communication in which the patron has a direct interest.

23.1.7 The Local or Foreign Exchange Telephone Service of a patron extended to a Telephone Answering and Secretarial Service will always be arranged for two-way service except when provided in connection with a Telephone Company-provided concentrator-identifier or electronic concentrator. When the patron's telephone service is extended to a Telephone Answering and Secretarial Service as two-way service, the patron is responsible for all local and long distance charges. A Telephone Answering and Secretarial Service may not originate calls, either local or long distance, over extensions of a patron's residence service even when service has been arranged for two-way operation.

23.1.8 Where it is necessary to provide facilities over and above those normally provided to a Telephone Answering and Secretarial Service location or other specified location that requires unusual expenditures, such costs will be assessed against the Telephone Answering and Secretarial Service.

(RT) 23.1.9 Touch-Tone Calling Service is available with Telephone Answering and Secretarial Service.
(RT)

23.1.10 Outward WATS service of a patron can, after written authorization to the Telephone Company, only be terminated at a Telephone Answering and Secretarial Service as an extension line.

23.2 RATES

23.2.1 Patron Line Termination Charges

A. Extension Station Line

Refer to Section 2 of the Private Line Service Tariff for private line charges applicable to extension station line service.

B. Secretarial Answering Line(1)(2)

The patron will be billed the applicable business or residence rate as provided for in the Local Exchange Tariff or WATS Tariff. In addition, Private Line Charges as specified in Section 2 of the Private Line Tariff may apply.

- (1) Refer to the Service Connection Charges Section of this Tariff for applicable Service Charges.
- (2) Primary Line Terminations are not applicable to customer-provided concentrators.

C. Line Terminations on Concentrator-Identifier

In cases involving connection to Telephone Company-provided concentrator equipment, the patron will be billed the following charges in addition to tariffed charges for the facilities terminated:

Patron located in same serving office as that of the concentrator

- Primary or Secondary Line Termination as specified in this Tariff.

Patron located in different serving office than that of the concentrator

- Primary or Secondary Line Termination as specified in this Tariff, interoffice channel and interoffice channel terminals as specified in Section 2 of the Private Line Service Tariff.

In cases involving connection to customer-owned and maintained concentrator equipment, the patron will be billed the following charges in addition to tariffed charges for the facilities terminated(1):

Patron located in same serving office as that of the concentrator

- Secondary Line Termination as specified in this Tariff, Type 416 local channel as specified in Section 2 of the Private Line Service Tariff. The private line is measured from the patron's serving office or theoretical serving office to the concentrator.

Patron located in different serving office than that of the concentrator.

- Secondary Line Termination as specified in this Tariff, Type 416 local channel measured from the serving office or theoretical serving office to the concentrator, interoffice channel and interoffice channel terminals as specified in Section 2 of the Private Line Service Tariff.

(1) Primary Line Terminations are not applicable to customer-provided concentrators.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.2 RATES-(Continued)

23.2.3 Telephone Answering and Secretarial Equipment(1)-(Continued)

A. Concentrator-Identifier Equipment

1. Concentrator-Identifier equipment is available for use in conjunction with compatible switchboard equipment to enable the identification and answering of calls to patrons. The concentrator equipment is normally installed in the same Telephone Company serving office in which the Telephone Answering and Secretarial Service is located. However, at the request of the customer, it may also be installed in Telephone Company serving offices remote from the Telephone Company serving office in which the Telephone Answering and Secretarial Service is located.
2. Where a concentrator is located in a Telephone Company building which has two or more central office codes serving different serving office areas, the Telephone Answering and Secretarial Service will specify which serving office area is to be served by the concentrator. An additional concentrator(s) may be contracted for by the Telephone Answering and Secretarial Service to serve the other serving office area being served by the different switching equipment.(2)

B. Occasional Telephone Answering Service

Occasional Telephone Answering Service equipment as described in this Tariff may be used to facilitate the part-time answering of telephone answering and secretarial patron facilities. Concentrator-Identifier service cannot be used in conjunction with occasional service equipment.

- (1) Refer to the Service Connection Charges Section of this Tariff for applicable Service Charges.
- (2) Patrons connected to the concentrator unit must be located in the same serving office area that the concentrator serves or Private Line charges as described previously in this Tariff and in Section 2 of the Private Line Service Tariff, shall be applicable.

Section 23
Original Sheet 9

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.3 MOVE AND CHANGE CHARGES

23.3.1 Changes

When changes of patron's lines terminating in Telephone Answering and Secretarial Service equipment are made at the request of the Telephone Answering and Secretarial Service customer, charges for changes will be billed to the Telephone Answering and Secretarial Service customer. When such changes will effect the monthly charges applicable to the patron(s), the Telephone Company will notify each patron before the change is made, so that the patron may elect either to assume the new charges or discontinue the service.

23.3.2 Outside Moves of Telephone Answering and Secretarial Service - A Move to a New Premises

A. In-Service Move

When a Telephone Answering and Secretarial Service requests a move of its system to a new address, and the move is made by the installation of new switchboards, attendants' position, key equipment or identifiers and the removal of switchboards, attendants' positions, key equipment or identifiers at the old location, the Telephone Answering and Secretarial Service will be billed based on cost for patrons' lines terminating in the new system. Existing termination agreements shall be paid, if they have not expired at the old location. Appropriate Service Charges will apply for reterminating all individual central office lines, trunk lines and other circuits(1).

B. Out-of-Service Move

When the Telephone Answering and Secretarial Service requests an out-of-service move of all or part of its attendants' positions and identifiers, it will be given an option of moving the out-of-service portion on a cost basis. This option can be exercised in lieu of paying the outstanding termination charges and Service Charges, as explained in Paragraph 23.3.2, A. The Telephone Answering and Secretarial Service will be billed based on cost for patrons' lines terminating in the new system. The cost of this move will include the cost of making the change in location, including the cost of removing all of the Telephone Company-provided facilities from the old location and the cost of installing the same facilities at the new location. In this case, the existing termination agreement will be made applicable to the new service address.

- (1) The Telephone Answering and Secretarial Service is not given the option to pay for the change in location on a cost basis for an in-service move. Charges will be applied as provided in the Service Connection Charges Section of this Tariff.

23.3 MOVE AND CHANGE CHARGES-(Continued)

23.3.2 Outside Moves of Telephone Answering and Secretarial Service - A Move to a New Premises-(Continued)

B. Out-of-Service Move-(Continued)

Concentrator equipment can only be moved on an out-of-service basis during the period covered by the existing termination agreement. The identifier equipment can be moved within the exchange on an out-of-service basis whether or not the termination agreement has expired.

23.3.3 Inside Moves of Telephone Answering and Secretarial Service Equipment - A Move on the Same Premises

A. In-Service Move

In-service moves on the same premises of Telephone Answering and Secretarial Service equipment will be provided on a cost basis only. The cost of the move includes the cost of installing Telephone Company-provided facilities at a new location, including the cost of material, the cost of removal of Telephone Company-provided facilities at the old location, less the salvage value.

B. Out-of-Service Move

Charges for out-of-service moves of Telephone Answering and Secretarial Service equipment on the same premises will be applied in the manner as provided in Paragraph 23.3.2, B.

23.3.4 Retermination Charges

When the Telephone Answering and Secretarial Service requests all of its patron lines be reterminated from a Bell-provided or customer provided concentrator for use in a Bell-provided or customer-provided concentrator, the patron lines will be reterminated, based on cost, and billed to the Telephone Answering and Secretarial Service.

General Exchange Tariff
Section 23

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.4 AUTOTAS* CONCENTRATOR SERVICE

23.4.1 General

AUTOTAS Concentrator Service is available to any subscriber who has AUTOTAS premises equipment and a need to concentrate incoming calls to patron's Central Office exchange line(s). The service is provided by the Telephone Company through the use of concentrator(s) located in the Company's Central Office. The concentrator(s) concentrates incoming calls to some number of patron lines to some smaller number of channels connected to the Telephone Answering and Secretarial Service customer's AUTOTAS premises equipment.

AUTOTAS Concentrator Service, upon detecting a ringing signal to the patron's line, will process the call, with unique identification, to the subscriber's AUTOTAS premises equipment.

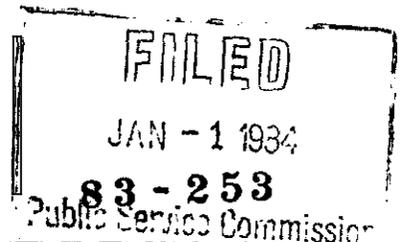

23.4.2 Rules and Regulations

- A. The following rules and regulations are in addition to other rules and regulations as stated in this Tariff.
- B. Provision of this service, or a portion thereof, is subject to the availability and operational limitations of the equipment.
- C. The rates and charges for AUTOTAS Concentrator Service are in addition to the established monthly and nonrecurring charges applicable to services terminated in or used in conjunction with AUTOTAS Concentrator Service.
- D. Channels connecting the concentrator with the customer's premises shall be provided at rates specified in the Private Line Service Tariff.

23.4 AUTOTAS CONCENTRATOR SERVICE-(Continued)

23.4.2 Rules and Regulations-(Continued)

- E. Central office lines terminating in AUTOTAS Concentrator Service common equipment shall be provided at rates and charges equivalent to PBX trunks.
- F. Central office lines terminating directly on key telephone instruments and not in the AUTOTAS Concentrator Service common equipment shall be provided at the appropriate multiline local exchange rate.
- G. Temporary suspension of service at the request of the customer, either partial or complete, is not applicable to equipment provided under this offering.
- H. Additional Directory Listings will be obtained at rates for Business Extra Listings as provided for in the Directory Listings Section of this Tariff.
- I. Nonrecurring Charges

AUTOTAS Concentrator Service Nonrecurring and Installation/Move Charges are in addition to Service Charges provided for in the Service Connection Charges Section of this Tariff. For those items designated as being available under Plan I, Installation/Move Charges may, at the customer's option, be paid as additional monthly charges over selected fixed payment periods to coterminate with the Plan I payment period selected for the item of service. If the customer elects to pay Installation/Move Charges as an additive to the Fixed Monthly Rate, the following annuity factors must be applied to convert the Installation/Move Charges to the amount to be billed:

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.4 AUTOTAS CONCENTRATOR SERVICE-(Continued)

23.4.2 Rules and Regulations--(Continued)

K. Plan I and Plan II Service

1. As a condition to providing service under Plan I and Plan II, a written Service Application will be required from the customer for the equipment provided.
2. The monthly rates under Plan I will consist of the sum of the Fixed and Variable Rates and will apply from the date the equipment is placed in service. The Fixed Rate will apply only for the selected payment period and will not be subject to changes by the Telephone Company during that period, but remain subject to the regulation of the Public Service Commission. The Variable Rate will apply for the time the equipment to which it applies is in service. Variable Rates are subject to change.
3. In the event that a part or all of the equipment provided under Plan I is disconnected prior to the expiration of the Fixed Rate Term, the customer will be billed the sum of the present worth amount of the Fixed Monthly Rates for the unexpired portion of the Fixed Rate Term.
4. Monthly charges for Plan II apply from the date the equipment is placed in service and are subject to change.
5. Subject to prior written consent of the Telephone Company, service provided under Plan I may be transferred to others upon payment of a transfer charge of \$250.00, provided that the assignment does not require the Telephone Company to remove the equipment provided under Plan I from the premises where located. In addition, the assignee shall establish financial responsibility to the Telephone Company's satisfaction.
6. Additional equipment provided under ~~Plan I~~ ^{Plan I and Plan II} and Plan II may be added, subsequent to the initial installation of the service, upon payment of applicable Installation/Move Charges and subject to conditions and rates then in effect in the Telephone Company's Tariffs. The customer may select any Plan I or Plan II payment option for the equipment added. If a Plan I payment option is selected, the customer will be given a choice of a separate or coterminous Fixed Rate Term. A coterminous Fixed Rate Term will expire within the same billing period as that of the Fixed Rate Term of the initial Service Application. For the equipment added under a coterminous agreement, Fixed Rates will be adjusted on a present-worth basis.

K. Plan I and Plan II Service-(Continued)

- 7. All equipment provided on a single customer order and offered under this section of the Tariff under Plan I must be provided under the terms of the same Plan I Fixed Rate Term.
- 8. Plan I customers may elect to prepay all of the unexpired portion of the Fixed Rates during the Fixed Rate Term. The amount billed to the customer will be the present-worth amount of the sum of the remaining monthly payments.
- 9. Plan II customers may elect to change to any Plan I payment period. In this event, initial Plan I Installation/Move Charges will not apply, and the Fixed Rate Term will commence as of the date the customer elects to make the change.
- 10. Where present-worth amount or basis is referred to in regulations stated for this offering, the percentage to be used will be 9 percent per annum.

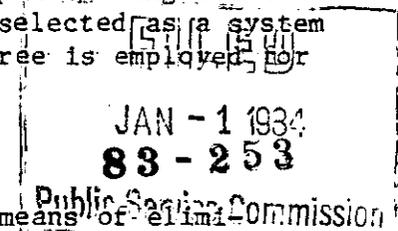

23.4.3 Service Features

Standard

Ring Counting - This feature allows the patron's line to be answered immediately or after three or five rings; an option is also provided for no answer. This allows patrons flexibility in having their calls answered as described. Ring counts may be varied for a patron by time-of-day using the system administrative management console. The no-answer option would be employed for non-24 hour customers and would effectively deactivate their service as desired. ~~CALLS ARE DISPLAYED~~ to the operator position by the traffic distributor only when the appropriate ring count is reached. If the management console is not selected ^{as a system} option, a nonoptional default ring count of three is employed for all patron lines.

Optional

BY LR S. 14
PUBLIC SERVICE COMMISSION
OF MISSOURI

Patron Line Control - This feature provides a means of eliminating possible interference between the TAS bureau operator and the patron when they both attempt to answer an incoming call that is processed through a concentrator.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.5 CENTRAL OFFICE CONCENTRATOR SERVICE

23.5.1 General

- A. Central Office Concentrator Service is available to any subscriber who has a need for concentration of incoming calls to patron's central office exchange lines. The service is provided by the Telephone Company through the use of concentrator(s) located in the Company's central office. The concentrator(s) concentrate incoming calls to patron lines to some smaller number of channels connected to the subscriber's premises equipment.
- B. Central Office Concentrator Service, upon detecting a ringing signal to the patron's line, will immediately process the call, with unique identification, to the subscriber's premises equipment. A variable ring count feature whereby the patron's ring count can be changed from the customer premises is also provided. The signaling arrangement employed in processing the call from the concentrator to the subscriber's premises equipment is Standard Bell System Direct Inward Dialing (DID)-type signaling.
- C. Central Office Concentrator Service is available for use in conjunction with compatible equipment located on the subscriber's premises.

23.5.2 Regulations

- A. Channels connecting the concentrator with the subscriber's premises equipment shall be provided at rates set forth in the Private Line Service Tariff.
- B. Patron line terminations on the concentrator shall be billed to the patron by the Company at the monthly rate equivalent to the sum of 1/200th of the rate for the 200 pair Dedicated Cable for Customer Operating Center Service within 1/4 mile (USOC: ILZ2A) plus the monthly rate for a Type 416 Intraexchange Local Channel activated within 1/4 mile (USOC: ILLHZ) as found in the Private Line Service Tariff.

The charge to connect the patron line termination will be billed at the rates set forth in Paragraph 23.4.4, D., of this Tariff.

- C. Central Office Concentrator Service is designed to work with all premises equipment which is capable of receiving Standard Bell System DID-type signaling. However, the Telephone Company does not guarantee the compatibility of Central Office Concentrator Service with any particular manufacturer's premises equipment.

- G. All equipment provided on a single customer order and offered under this section of the Tariff under Plan I must be provided under the terms of the same Plan I Fixed Rate Term.
- H. Plan I customers may elect to prepay all of the unexpired portion of the Fixed Rates during the Fixed Rate Term. The amount billed to the customer will be the present-worth amount of the sum of the remaining monthly payments.
- I. Plan II customers may elect to change to any Plan I payment period. In this event, initial Plan I Installation/Move Charges will not apply, and the Fixed Rate Term will commence as of the date the customer elects to make the change.
- J. Where present-worth amount or basis is referred to in regulations stated for this offering, the percentage to be used will be 15.71 percent per annum.

TELEPHONE ANSWERING AND SECRETARIAL SERVICE

23.5 CENTRAL OFFICE CONCENTRATOR SERVICE-(Continued)

23.5.4 Type A

A. Description of Service Elements

- 1. Master Concentrator - The Master Concentrator provides for up to 256 patron line terminations and 16 outgoing channels to the subscriber's premises.

Variable Ring Count is also provided as a feature which allows the patron's line to be answered immediately or after three or five rings; selection is also provided for no-answer. The no-answer alternative would be employed for non-24-hour customers and would effectively deactivate service as desired. Also required for operation with each Master Concentrator, when using the Variable Ring Count feature, are 108-type data sets and a 313B-type channel. If the Variable Ring Count is not desired, the Master Concentrator can be set to answer all patron lines immediately or after three rings, as determined by the customer. All patron lines terminated in the concentrator will have the same ring count, unless the Variable Ring Count is employed.

- 2. Slave Concentrator - Slave Concentrators must be located in the same Central Office as the host Master Concentrator. Up to two Slave Concentrators can be connected to a Master Concentrator.

Each Slave Concentrator provides for up to 256 additional patron line terminations. When a Master Concentrator and two Slave Concentrators are employed, there is capacity for 768 patron line terminations and 16 outgoing channel terminations.

- 3. Concentrator Line Card - The Concentrator Line Card provides for connection of up to 32 patron lines to the concentrator/matrix switch. Eight of these cards may be connected for a single 256-line concentrator assembly. This card is used in both the Master and Slave Concentrators.

- 4. Patron Line Control - Patron Line Control provides capability for the concentrator to transfer control of a completed call from the answering service attendant back to the patron (originally called party) if the patron goes off-hook, thus eliminating any possible interference between the answering service attendant and the patron.

TOUCH-TONE CALLING SERVICE

24.1. GENERAL REGULATIONS

**MISSOURI
Public Service Commission**

24.1.1 Touch-Tone Calling Service provides for the origination of calls by means of instrumentalities equipped for tone-type address signaling. The service is provided utilizing special central office facilities and is furnished subject to the availability of the central office facilities.

24.1.2 The service is furnished in connection with individual and party-line service and semi-public service where facilities are available. The service may be furnished to one or more customers on the same party line.

24.1.3 Where Touch-Tone Calling Service is furnished in connection with party-line service, the monthly rate applies to each Touch-Tone Calling Service customer on the same party line.

24.1.4 Unless otherwise specified herein, the minimum contract period is one month.

24.1.5 All dial-type lines that terminate in an instrumentality equipped for tone-type address signaling shall be equipped for Touch-Tone Calling Service, except for such of those dial-type lines as are served from a central office where the special facilities for Touch-Tone Calling Service are not available. To provide outward-dial capability on such non-Touch-Tone dial-type lines from said instrumentality, a TOUCH-TONE to Dial Pulse Converter is required as provided for in Section 13 of this Tariff.

24.1.6 Other facilities and miscellaneous service offerings requested by customers and not detrimental to this service or other services of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable sections of this Tariff.

(AT) 24.1.7 Touch-Tone Calling Service is not applicable with SmartTrunk Service.

PLEXAR®-I

25.1 GENERAL REGULATIONS

(AT)
|
(AT)

25.1.1 This tariff section contains the general regulations and definitions governing Plexar-I Services furnished by the Telephone Company except as otherwise specified, or unless the terms and conditions of an individual customer agreement provided pursuant to the Customer Specific Pricing Plan Tariff, P.S.C. Mo. No. 37 apply.

Plexar-I is an optional communications system arrangement for business customers which combines 2 or more individual exchange access lines into a Plexar-I group. Plexar-I is provided subject to the capability of the central offices.

Plexar-I Service is obsolete to existing customers subscribing to Standard Package 2 and selected optional features. Moves, changes and additions shall be in accordance with the definition of "obsolete-existing customer" as defined in Section 8 of this Tariff.

Plexar-I lines can be equipped with DigiLine Service in accordance with Section 3 of the Integrated Services Tariff. These lines can be combined into a Plexar-I group and used to fulfill the minimum line requirement. For purposes of determining the minimum line requirement, each DigiLine Basic Rate Interface (BRI) is counted as one exchange access line.

25.1.2 In addition to the Plexar-I System Charges and Feature Capability Charge specified in the following, the Tariff rate for an Individual Flat Rate Line, Multiline or Measured Business Exchange Access Line shall apply, as appropriate as found in the Local Exchange Tariff. Plexar-I lines can also be arranged for hunting.

For Plexar-I lines equipped with DigiLine Service, the appropriate rate from Section 1 of the Integrated Services Tariff will apply in lieu of the exchange access line charge.

25.1.3 Directory listings will be furnished in accordance with the regulations set forth in Section 6 of this Tariff.

25.1.4 The assignment of telephone numbers for Plexar-I shall be in accordance with Section 17 of this Tariff.

REC'D FEB 18 2000

25.1 GENERAL REGULATIONS

25.1.1 Plexar-I is an optional communications system arrangement for business customers which combines 2 or more individual exchange access lines into a Plexar-I group. Plexar-I is provided subject to the capability of the central offices.

Plexar-I Service is obsolete to existing customers subscribing to Standard Package 2 and selected optional features. Moves, changes and additions shall be in accordance with the definition of "obsolete-existing customer" as defined in Section 8 of this Tariff.

Plexar-I lines can be equipped with DigiLine Service in accordance with Section 3 of the Integrated Services Tariff. These lines can be combined into a Plexar-I group and used to fulfill the minimum line requirement. For purposes of determining the minimum line requirement, each DigiLine Basic Rate Interface (BRI) is counted as one exchange access line.

25.1.2 In addition to the Plexar-I System Charges and Feature Capability Charge specified in the following, the Tariff rate for an Individual Flat Rate Line, Multiline or Measured Business Exchange Access Line shall apply, as appropriate as found in the Local Exchange Tariff. Plexar-I lines can also be arranged for hunting.

PLEXAR®-I

25.1 GENERAL REGULATIONS-(Continued)

25.1.11 Call Management features are functional only when the calling party's telephone number can be forwarded from the central office originating the call to the terminating central office serving the called party, or when both the calling party and the called party are served from the same central office.

In addition to the provisions of the General Exchange Tariff, Section 17, Sheet 20, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failures or malfunctions of call management features or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

(AT) 25.1.12 Any Southwestern Bell Telephone Company calling party may prevent the delivery of calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code activates per call blocking, which is available at no charge.

(AT) If the calling party activates blocking, the calling party name and/or number will not be transmitted across the station line, including calls within and outside the Plexar group.
Calling

(AT) name and/or number subscribers will receive an anonymous indicator. This anonymous
(AT) indicator notifies the calling name and/or number subscriber that the calling party has elected
(CT) to block the delivery of this information.

(AT) Line blocking for the delivery of calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted, including those at the residence of employees/volunteers, where an executive officer of the agency registers with the Telephone Company a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies, and (b) federal, state and local law enforcement agencies. Calling name and/or
(AT) number will not be transmitted from a line equipped with this capability.

General Exchange Tariff Section 25 3rd Revised Sheet 1.03 Replacing 2nd Revised Sheet 1.03

PLEXAR®-I

25.1 GENERAL REGULATIONS-(Continued)

25.1.12-(Continued)

(AT) The blocking of the calling party's name and/or number will not be provided on calls originated from Payphone Exchange Access Service.

(CT) In addition to the provisions of the General Exchange Tariff, the Telephone Company shall not be liable for any claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a calling name and/or number customer of a name and/or telephone number which the calling party has requested to be omitted from the telephone directory or by the disclosing of such name and/or telephone number to any person. The Telephone Company shall not be liable for any claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a calling name and/or number customer of a name and/or telephone number which the calling party or the calling name and/or number customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated. The Telephone Company shall not be liable for any claims for damages caused by a telecommunications utility's failure to transmit the privacy to the called party when such indicator has been passed to the telecommunications utility by the Telephone Company.

(AT) 25.1.13 Calling Name and/or Number Service Interactions:

- (AT) 1. Calling Name and/or Number will not be displayed if the called party is off-hook.
- (AT) 2. Calling Name and/or Number will not be displayed if the called party answers during the first ring interval.
- (AT) 3. Calling Name and/or Number is not available with distinctive ringing services having a silent interval length insufficient for number transmission.
- (AT) 4. Identification of specific stations or extensions served by some CPE is not possible. The main directory number will be displayed.
- (AT) 5. Calling Name and/or Number will be displayed for calls made from another central office only if it is linked by appropriate facilities.
- (AT) 6. Calling Name and/or Number will not be displayed if the calling party has activated blocking.

(AT) 25.1.14 Calling Name and/or Number information may not be sold or given to another party without the caller's consent. Calling Name and/or Number information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer from the name and/or number delivery services subscriber. This applies if the name and/or number delivery services subscriber has an existing relationship with the customer. Calling Name and/or Number customers failing to comply with any of these conditions will have their service terminated.

25.2 PAYMENT PLANS

25.2.1 The customer shall select a service term of either Month-to-Month, 36, 48 or 60 consecutive months.

If the customer selects a 36, 48 or 60 month service term, the rates are not subject to Telephone Company initiated rate increases.

If the customer elects to pay month-to-month, the rates are subject to Telephone Company initiated rate changes.

25.2.2 Additions to service under the two options specified in paragraph 25.2.1, preceding, can be added to the existing agreement.

Additions to the 36, 48 and 60 month service term can be coterminous with the original contract or for a shorter term. If the customer chooses a shorter term for the additions, rates applicable to the chosen term will apply. Coterminous additions will be treated as follows: If 90 days or more remain on the contract, rates equivalent to those for the existing contract term will apply. If less than 90 days remain, rates applicable to the Month-to-Month plan will apply.

Additions to service under the Month-to-Month plan can be made at any time.

25.2.3 All charges specified in this tariff, excluding those that are rate referenced to other tariffs, are covered under the Plexar-1 payment plans. All other rates and charges not specifically covered in this section are not included. Plexar-1 access lines are not included in these payment plans, but are offered under terms and conditions specified in the appropriate access line tariff.

25.2 PAYMENT PLANS

25.2.1 The customer shall select a service term of either Month-to-Month, 36, 48 or 60 consecutive months.

If the customer selects a 36, 48 or 60 month service term, the rates are not subject to Telephone Company initiated rate increases.

If the customer elects to pay month-to-month, the rates are subject to Telephone Company initiated rate changes.

25.2.2 Additions to service under the two options specified in paragraph 25.2.1, preceding, can be added to the existing agreement.

Additions to the 36, 48 and 60 month service term can be coterminous with the original contract or for a shorter term. If the customer chooses a shorter term for the additions, rates applicable to the chosen term will apply. Coterminous additions will be treated as follows: If 90 days or more remain on the contract, rates equivalent to those for the existing contract term will apply. If less than 90 days remain, rates applicable to the Month-to-Month plan will apply.

Additions to service under the Month-to-Month plan can be made at any time.

25.2.3 All charges specified in this tariff, excluding those that are rate referenced to other tariffs, are covered under the Plexar-1 payment plans. All other rates and charges not specifically covered in this section are not included. Plexar-1 access lines are not included in these payment plans, but are offered under terms and conditions specified in the appropriate access line tariff.

25.2.4 If the customer disconnects the Plexar-1 and/or optional features prior to the expiration of the 36, 48 or 60 month service term, the customer shall pay a termination charge for the applicable rate elements disconnected. This charge will be waived if the customer converts the arrangement to another Plexar service for a service term that equals or exceeds the number of months remaining on the customer's Plexar-1 agreement. This charge will also be waived for Plexar-1 customers who move their service to another Southwestern Bell Telephone (SWBT) served location within Missouri if the service terms are continued at the new location. Payment of the termination charge does not release the customer from other previous amounts owed to SWBT. The termination charge shall be the lesser of:

A. The difference between the total rates and charges for the completed months of the original service term at the time of termination and the total rates and charges for the next lower service term(1) actually completed plus interest charges based on approved costs of money in effect at the time of termination; or

(1) If the service is terminated within the first 12 months the calculation is based on month-to-month rates and charges.

(MT) 25.2 PAYMENT PLANS-(Continued)

25.2.4 If the customer disconnects the Plexar-1 and/or optional features prior to the expiration of the 36, 48 or 60 month service term, the customer shall pay a termination charge for the applicable rate elements disconnected. This charge will be waived if the customer converts the arrangement to another Plexar service for a service term that equals or exceeds the number of months remaining on the customer's Plexar-1 agreement. This charge will also be waived for Plexar-1 customers who move their service to another Southwestern Bell Telephone (SWBT) served location within Missouri if the service terms are continued at the new location. Payment of the termination charge does not release the customer from other previous amounts owed to the Company.

(MT)

(AT)

For Service Term Agreements which become effective on or after April 27, 2005:

- The termination charge shall be:
 - a) The number of applicable stations discontinued, multiplied by
 - b) The monthly Plexar-I charges, multiplied by
 - c) The number of months of the contract not being fulfilled, multiplied by
 - d) Fifty percent (50%)
- In addition, the remainder of any installation and nonrecurring charges that have been deferred must be paid in full. Payment of the termination charge does not release the customer from other previous amounts owed to the Company.

(AT)

For Service Term Agreements in effect prior to April 27, 2005:

(MT)

- The termination charge shall be the lesser of:

- A. The difference between the total rates and charges for the completed months of the original service term at the time of termination and the total rates and charges for the next lower service term (1) actually completed plus interest charges based on approved costs of money in effect at the time of termination; or

Original Sheet 1.06

PLEXAR®-I

Missouri Public Service Commission

25.2 PAYMENT PLANS-(Continued)

REC'D SEP 15 1999

25.2.4 -(Continued)

- B. The present worth of the monthly payments remaining on the service term for each disconnected Plexar-1 rate element.

Example: If the customer completes 38 months of a 48 month service term, the first calculation of a termination charge will equal the difference between 38 months of rates and charges at the 48 month service term and 38 months of rates and charges at the 36 month service term (which is the next lower service term actually completed), plus interest at the approved cost of money rate in effect at the time of termination. The second calculation will be the present worth of the sum of the 10 remaining monthly payments on the 48 month service term. The termination charge is the lesser of the two calculations.

25.2.5 Upon expiration of the 36, 48 or 60 month service term, the customer may:

- A. Continue service without establishing a new service term. Service will be provided on a month-to-month basis at the then current rate. This monthly rate will be subject to any rate changes approved by the Commission.
- B. Continue service by selecting a new service term of 36, 48 or 60 months at the then current rates. The new service term will commence on the day following the expiration of the previous service term.
- C. Discontinue the service.

25.2.6 If the service term agreement expires and the customer has not notified the Company regarding which option they elect, service will continue at the monthly rate in effect at that time for the month-to-month option.

(FC) 25.4 FEATURE DESCRIPTION

Add On/Consultation Hold:

This feature allows a Plexar-I station user to add on another Plexar-I user or outside line to an established call. In addition, the station user can place any call on hold, thereby freeing the line for the purpose of originating another call or answering a waiting call.

(RT)

(RT)

(CT)

Call Forwarding:(1)

This feature, when activated by the customer, allows all calls to a Plexar-I line to be automatically forwarded to a selected Plexar-I within the system or outside the system.

Call Forwarding - Inside System:

This feature allows for forwarding of an incoming call to a preselected Plexar-I line within the system when the called line does not answer after a predetermined number of rings and/or when a busy condition is encountered.

Call Forwarding - Outside System:

This feature allows for forwarding of an incoming call to a preselected telephone number outside of the system when the called line does not answer after a predetermined number of rings and/or a busy condition is encountered.

Call Hold:

This feature allows a Plexar-I station user to hold any call in progress by depressing the switchhook and then dialing a code, thereby freeing the line for the purpose of originating another call or answering a waiting call. The held call cannot be added to another call.

(RT)

Call Forwarding - This feature, when activated by the customer, allows all calls to a Plexar-I line to be automatically forwarded to a selected Plexar-I line within the system or outside the system.

MISSOURI

Call Hold - This feature allows a Plexar-I station user to hold any call in progress by depressing the switchhook and then dialing a code, thereby freeing the line for the purpose of originating another call or answering a waiting call. The held call cannot be added to another call.

Call Pickup - This feature allows a Plexar-I station user to answer any call within an associated preset pickup group. If more than one line within the pickup group has an unanswered call, the call that is answered is the one that has been ringing the longest.

Call Transfer Disconnect - This feature will allow a Plexar-I station user to transfer a call to another telephone number within or outside the Plexar-I system and hang up, leaving the two remaining parties intact. The Plexar-I station user would then be free to accept another call. The transferred call may originate from within or outside the Plexar-I system. The Plexar-I user is prohibited from using this feature to avoid toll charges.

Call Waiting - This feature allows a Plexar-I user engaged in a conversation to be alerted via an audible tone that another caller is attempting to reach him. The called line can retrieve the waiting call by depressing the switchhook, placing the existing call on hold and answer the waiting call.

(FC) 25.4 FEATURE DESCRIPTION-(Continued)

Call Management Features

Auto Redial:(1)(2)

Enables the customer to automatically redial the last outgoing telephone number by dialing an activation code. When the recalled telephone number is busy, the Telephone Company's equipment will make repeated attempts to establish the call for a thirty (30) minute period beginning with the customer's activation. The customer will be signaled with a distinctive ring when the call can be completed.

Call Blocker:(1)

Enables a customer to block the last incoming call or calls from a designated list of telephone numbers. To block specified telephone numbers, the customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment will screen incoming calls against the customer's list and block those on the list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. To block unknown telephone numbers, a customer can activate a code after receiving an unwanted call and block the number. Callers whose numbers are blocked are directed to a Telephone Company recorded announcement.

Call Return:(1)(2)

Enables the customer to automatically redial the telephone number of the most recent incoming call. The Telephone Company's equipment will make repeated attempts to establish the call for a thirty (30) minute period beginning with the customer's activation of Call Return if the most recent incoming call telephone number is busy. The customer will be signaled with a distinctive ring when the call can be completed. This feature cannot return a call to a line that is not associated with a telephone number (e.g., multiline hunt group) or to a line with Call Forwarding activated.

- (1) Not available to Plexar-I lines equipped with DigiLine Service.
- (2) Some customer provided equipment may not recognize the distinctive ringing patterns associated with these features.

PLEXAR®-I

(FC) 25.4 FEATURE DESCRIPTION-(Continued)

Call Management Features-(Continued)

Call Trace:(1)

Enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. If the trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The result of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company during normal work hours and work days.

Calling Name Delivery:(1)

Enables the terminating customer to identify the calling party by a displayed name before the call is answered. The displayed name is associated with the Calling Party Number. Calling Name Delivery subscribers must provide, and connect, their own compatible customer premise equipment to process the Calling Name Delivery.

Calling Number Delivery:(1)

Provides for the transmission of Calling Party Number (CPN) associated with an incoming call to the called party's access line. The CPN of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Calling Number Delivery subscribers must provide, and connect, their own compatible premises equipment in order to process the CPN transmission.

Priority Call:(1)(2)

Provides the customer with a distinctive alerting signal, ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment will screen incoming calls against the customer's list and provide a distinctive ring for the telephone numbers on the customer's list.

- (1) Not available to Plexar-I lines equipped with DigiLine Service.
- (2) Some customer-provided equipment may not recognize the distinctive ringing patterns associated with these features.

Call Management Features-(Continued)

Call Trace:(1)

Enables the customer to initiate a trace of the last incoming call completed by dialing an activation code immediately after terminating the call. If the trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The result of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company during normal work hours and work days.

Calling Number Delivery:(1)

Provides for the transmission of Calling Party Number (CPN) associated with an incoming call to the called party's access line. The CPN of the incoming call is transmitted during the silent interval between the first and second ring of the called party's line. Calling Number Delivery subscribers must provide, and connect, their own compatible premises equipment in order to process the CPN transmission.

Priority Call:(1)(2)

Provides the customer with a distinctive alerting signal, ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment will screen incoming calls against the customer's list and provide a distinctive ring for the telephone numbers on the customer's list.

Selective Call Forwarding:(1)

Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. The call forwarding customer is responsible for the payment of charges for each call between the Selective Call Forwarding line and the line to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

- (1) Not available to Plexar-I lines equipped with DigiLine Service.
- (2) Some customer-provided equipment may not recognize the distinctive ringing patterns associated with these features.

(MT)

Call Pickup:

This feature allows a Plexar-I station user to answer any call within an associated preset pickup group. If more than one line within the pickup group has an unanswered call, the call that is answered is the one that has been ringing the longest.

Call Transfer Disconnect:

This feature will allow a Plexar-I station user to transfer a call to another telephone number within or outside the Plexar-I system and hang up, leaving the two remaining parties intact. The Plexar-I station user would then be free to accept another call. The transferred call may originate from within or outside the Plexar-I system. The Plexar-I user is prohibited from using this feature to avoid toll charges.

Call Waiting:(1)

This feature allows a Plexar-I user engaged in a conversation to be alerted via an audible tone that another caller is attempting to reach him. The called line can retrieve the waiting call by depressing

(C) the switchhook, placing the existing call on hold and answer the waiting call. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a three or four character access code. Call Waiting is automatically reactivated for the next originating or terminating call.

(1) Not available to Plexar-I lines equipped with DigiLine Service.

CANCELLED - Missouri Public Service Commission - 12/29/2005 - IN-2006-0232

25.4 FEATURE DESCRIPTION-(Continued)

Code Access Calling:(3)

This feature permits dial access to special facilities such as outward WATS.

Convenience Dialing I:(1)

This feature allows Plexar-I station users to have abbreviated codes assigned up to six frequently called numbers. The list of frequently called numbers may be common to the entire Plexar-I system or unique to each Plexar-I station line. A common list is controlled by one designated Plexar-I station line in the Plexar-I system. Unique lists are controlled by the individual Plexar-I station line.

Convenience Dialing II:(1)(2)

This feature is the same as Convenience Dialing I, except that up to 30 numbers can be programmed.

Conference Calling:(1)(2)

This feature allows a Plexar-I user to establish conference connections involving up to six conferees (including the conference controller).

Customer Alerting Enablement (Message Waiting Indication):(1)

(AT) Provides an audible alerting tone (intermittent dial tone) from the customer's serving central office and/or a signal which provides visual indication on the customer's CPE indicating waiting messages.

Directed Call Pickup:(2)

This feature provides the ability for a call directed to a Plexar-I station line that is in any Call Pickup group to be answered by another station user within the Plexar-I system by dialing a unique answer code and the extension number of the line to be answered.

- (1) Not available to Plexar-I lines equipped with DigiLine Service.
- (2) Obsolete - See Paragraph 25.3.C, for availability to existing customers who subscribed to this feature.
- (3) Obsolete - See Paragraph 25.3.D, for availability to existing customers who subscribed to this feature.

Remote Access To Call Forwarding:(1)

Permits a customer that also subscribes to the Call Forwarding feature to activate, deactivate or change Call Forwarding from a remote location. Remote Access to Call Forwarding can only be accessed from a touch-tone telephone. All charges incurred to access the remote number will be billed appropriately.

(MT)
(AT)

Simultaneous Ring One Number:

Extends the reach of a customer's Plexar-I station number, by causing one additional telephone device to ring simultaneously whenever the Plexar-I station number is dialed. Once the call is answered on either of the telephone devices, ringing on the other device will be terminated, and the originating caller will be connected directly to the device which answered the call. The other device will be freed up to initiate or receive new calls, without interfering with the original call.

If the Simultaneous Ring One Number customer answers an incoming call on a device other than the Plexar-I station corresponding with the telephone number that was actually dialed, the customer's Plexar-I telephone bill will be charged usage charges, as if a call was placed from the Plexar-I station to the device on which the call was answered. This usage will be billed by the customer's existing carrier for the type of call in question and will be billed according to the billing arrangement the customer has with that carrier. The simultaneously rung number can be any valid, non zero-plus telephone number (for example, another Plexar-I station, residential telephone line, or cellular phone line).

If the Simultaneous Ring One Number customer does not answer a call on either of the simultaneously rung devices, and either of the simultaneously rung telephone numbers has an associated answering device or voicemail, the first entity to answer the call will receive the message.

Transfer:

This feature allows a Plexar-I station user to transfer any established call to another station within or outside the Plexar-I system. This is accomplished by depressing the switchhook while on a two-party call, dialing the desired party, utilizing the Consultation Hold and/or Add-On features and hanging up. Only one party on the final connection can be outside the Plexar-I system.

Uniform Call Distribution (UCD):(2)

UCD is a type of hunting which provides for an even distribution of incoming calls among the available members of a hunt group.

(MT)(CP)

Distinctive Ringing:(2)

This feature is provided on a per-system basis and allows a Plexar-I user to distinguish between incoming exchange calls and incoming intercom calls. This is done by associating a Distinctive Ringing pattern with the incoming call based upon its source.

MO. PUBLIC SERVICE COMM.

(MT)

(AT)

Remote Access To Call Forwarding:(1)

Permits a customer that also subscribes to the Call Forwarding feature to activate, deactivate or change Call Forwarding from a remote location. Remote Access to Call Forwarding can only be accessed from a touch-tone telephone. All charges incurred to access the remote number will be billed appropriately.

(AT)

(MT)(CT)

Station-To-Station Dialing (Intercom):

This feature provides intra-system communications for a maximum of 30 stations. This is accomplished by dialing a preassigned station code.

(MT)

Toll-Restriction:

This feature restricts long distance calling to allow only WATS and Southwestern Bell Telephone Company Business Offices and Repair Services to be completed. All other long distance calls are denied, including operator services. Denied calls are directed to a central office announcement.

ESSX-30

25.3 FEATURE DESCRIPTION-(Continued)

Transfer - This feature allows an ESSX-30 station user to transfer an established call to another station within or outside the ESSX-30 system. This is accomplished by depressing the switchhook while on a two-party call, dialing the desired party, utilizing the Consultation Hold and/or Add-On features and hanging up. Only one party on the final connection can be outside the ESSX-30 system.

Uniform Call Distribution (UCD) - UCD is a type of hunting which provides for an even distribution of incoming calls among the available members of a hunt group.

CUSTOM CALLING SERVICES

AUG 03 1993

26.1 GENERAL REGULATIONS

26.1.1 Custom Calling Services are optional telecommunication service arrangements which provide one or more of the following features:

MISSOURI
Public Service Commission

A. Call Waiting

Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a three or four character access code. Call Waiting is automatically reactivated for the next originating or terminating call.

B. Call Forwarding

Permits a customer to transfer incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer is responsible for the payment of charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

C. Selective Call Forwarding

(CP) Enables the customer to forward incoming calls from previously specified
(CP) telephone numbers to another telephone number. The customer can
construct or modify a telephone number screening list by dialing an
activation code. The Telephone Company equipment will screen incoming
(RT) calls against the customer's list and forward only those telephone
numbers on the list. The transmission may vary depending on the
distance and routing necessary; therefore, transmission may not meet
normal standards.

D. Simultaneous Call Forwarding

Used in conjunction with Call Forwarding, permits a customer to transfer incoming calls simultaneously between switching entities. The number of calls transferred simultaneously is limited to the number of hunting lines/trunks subscribed to by the customer at the originating end. Simultaneous Call Forwarding is limited to customers served by No. 1 or 1A Electronic Switching Systems and may be established only on another line which is not part of the hunting group.

B. Call Forwarding

Permits a customer to transfer incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer for the payment of charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

OCT 01 1993

Public Service Commission MISSOURI

(AT) C. Selective Call Forwarding

Enables the customer to forward incoming calls from specified telephone numbers (maximum of 6) to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. Customers subscribing to Call Forwarding and Selective Call Forwarding features can have only one Call Forwarding feature activated at a time. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

(AT)

(FC) D. Simultaneous Call Forwarding

Used in conjunction with Call Forwarding, permits a customer to transfer incoming calls simultaneously between switching entities. The number of calls transferred simultaneously is limited to the number of hunting lines/trunks subscribed to by the customer at the originating end. Simultaneous Call Forwarding is limited to customers served by No. 1 or 1A Electronic Switching Systems and may be established only on another line which is not part of the hunting group.

CUSTOM CALLING SERVICES

26.1 GENERAL REGULATIONS

26.1.1 Custom Calling Services are optional telephone service arrangements which provide one or more of the following features:

A. Call Waiting

(AT)

Alerts a customer who is using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a three or four character access code. Call Waiting is automatically reactivated for the next originating or terminating call.

B. Call Forwarding

Permits a customer to transfer incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network where facilities permit. The Call Forwarding customer is responsible for the payment of charges for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

C. Simultaneous Call Forwarding

Used in conjunction with Call Forwarding, permits a customer to transfer incoming calls simultaneously between switching entities. The number of calls transferred simultaneously is limited to the number of hunting lines/trunks subscribed to by the customer at the originating end. Simultaneous Call Forwarding is limited to customers served by No. 1 or 1A Electronic Switching System and may be established only on another line which is not part of the hunting group.

D. Three-Way Calling

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing three-way conversation. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

E. Speed Calling

Enables a customer to place calls to other telephone numbers by dialing a one- or two-digit code rather than the complete telephone number. The eight-code capacity and/or the 30-code capacity may be provided on the same line; however, duplicate code capacities may not be provided. The combination of code capacities is not available on multiline hunting lines.

PUBLIC RESPONSE CALLING SERVICE

27.1 GENERAL-(Continued)

27.1.1 (Continued)

- C. Public Response Calling Service shall not be used for the transmission of prerecorded announcements; such service will be provided as specified in the Announcement Systems Section of this Tariff.
- D. Public Response Calling Service is provided only for receiving calls. Outward calling is not provided as a feature of this service.
- E. In order to provide satisfactory service to the general public, customers with service other than Public Response Calling Service, who publicly advertise call-in programs which, in any given hour, have more than 15 percent of the calls to the call-in program reach a busy signal, and who intend to continue to publicly advertise call-in programs, must subscribe to Public Response Calling Service, and may not have any other form of telephone service where the telephone number is publicly advertised in connection with a call-in program.
- F. This service is offered to customers where facilities permit. The issuance of this tariff does not create an obligation for SWBT to build facilities to offer this service.
- G. For customers located within a Metropolitan Exchange equipped for Public Response Calling Service, the service shall only be provided from the Principal Zone and will be charged the appropriate Principal Zone local exchange rate.
- H. Customers located outside of a Public Response Service equipped exchange will be charged the appropriate local exchange rate associated with the serving Public Response Calling Service serving office plus applicable foreign exchange charges as found in Section 2 of the Private Line Service Tariff.
- I. The calling scope associated with Public Response Calling Service will conform with the calling scope of the Public Response Calling Service serving office.

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.1 GENERAL

28.1.1 Universal Emergency Number Service, also referred to as 9-1-1 Service, is a telephone exchange communication service whereby a Public Safety Answering Point (PSAP) designated by the customer may receive and answer telephone calls placed by dialing the telephone number 9-1-1. It includes the service provided by the lines and equipment associated with the service arrangement for the answering, transferring and dispatching of public emergency telephone calls dialed to 9-1-1.

28.1.2 9-1-1 Services are offered subject to availability of facilities.

(AT)
(AT)

28.1.3 The customer for Universal Emergency Number Service may be a municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, which is legally authorized to subscribe to the service and which has public safety responsibility by law to respond to telephone calls from the public for emergency police, fire fighting service and emergency medical services within the telephone central office areas arranged for 9-1-1 calling. An Independent Exchange Company (IEC) may also be a customer for Universal Emergency Number Service in order to provide that service or elements of that service to legally authorized agencies within the IEC's serving area.

28.1.4 Two types of 9-1-1 Service are offered: B9-1-1 and E9-1-1. C9-1-1 and D9-1-1 are obsolete service offerings.

28.1.5 The service may be provided by Southwestern Bell Telephone or jointly by Southwestern Bell Telephone and an IEC.

28.2 RULES AND REGULATIONS

28.2.1 This service is limited to the use of central office telephone number 9-1-1 as the universal emergency telephone number. B9-1-1 Service will be provided to only one primary PSAP for calling from any telephone number within any central office serving area. E9-1-1 Service may be provided to more than one primary PSAP within a central office serving area by using the Selective Routing feature. When E9-1-1 Service is furnished to a customer for a part of a central office serving area, if a request is received from a governmental unit with police and fire public safety responsibility for other parts of the central office serving area, service will be offered under the terms and at the rates specified in this Tariff.

28.2.2 Only one 9-1-1 service will be provided within any government agency's locality.

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.2 RULES AND REGULATIONS-(Continued)

28.2.3 The 9-1-1 emergency telephone number is not intended to be a total replacement of the telephone service of the various public safety agencies which may participate in the use of this number and the public safety agencies will subscribe to other telephone service as provided in Paragraph 28.2.7.E.

28.2.4 The service is furnished to the customer only for the purpose of receiving reports of emergencies by the public.

28.2.5 The customer can only use 9-1-1 facilities for outgoing calls on a call transfer basis. Central Office transfer is a standard feature of E9-1-1 systems.

28.2.6 Application for 9-1-1 Service must be completed in writing by each customer. If an agent submits the application for service, the Telephone Company must be provided with satisfactory written proof of appointment of the agent by the customer.

28.2.7 In addition to all other terms and conditions, the following applies:

- A. 9-1-1 calls will be answered on a 24-hour, seven-day-per-week basis.
- B. The customer has responsibility for dispatching public safety police, fire and emergency medical services within the 9-1-1 service area, or will undertake to transfer all 9-1-1 calls received to the governmental agency with responsibility for dispatching such public safety emergency services, to the extent that such services are reasonably available.
- C. The customer will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the 9-1-1 PSAP by calling parties.
- D. At least two 9-1-1 facilities or lines are required from each end office in the 9-1-1 network and at least two ALI circuits are required from each PSAP with ALI capability.

The above rule has two exceptions:

- a. 9-1-1 exchange lines to a secondary answering location used for central office transfer purposes only;

Public Service Commission
MISSOURI

28.2.9 Temporary suspension of service at the request of the customer, either partial or complete, is not applicable to any part of 911 Service.

28.2.10 The Telephone Company's entire liability to any person for interruption or failure of any Universal Emergency Number Services shall be limited to the terms set forth in this section and other sections of this Tariff.

28.2.11 Because the Telephone Company serving boundaries and political subdivision boundaries may not coincide, the customer must make arrangements to handle all calls received on its 911 service lines that originate from all telephones served by central offices to be answered by the customer, whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.

(FC)

28.2.12 911 Services are furnished subject to all operating failures and interruptions including, but not limited to, equipment breakdowns, errors, defects, malfunctions and interruptions of service experienced in the regular telephone exchange system. 911 Services are furnished subject to any additional forms of service failures and service degradations resulting from the complexity of the service arrangement, program errors and failures, delays and errors in the input and processing of data used by the Data Management System associated with the E911 Service arrangement. The rates provided for this service are subject to the limitations which appear in this section and in other applicable sections of this and other Tariffs. The Telephone Company does not undertake to provide a higher level of service reliability and quality than the telephone exchange service being provided in the exchange that 911 is offered.

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.2 RULES AND REGULATIONS-(Continued)

28.2.11 - (Continued)

9-1-1 Services are furnished subject to any additional forms of service failures and service degradations resulting from the complexity of the service arrangement, program errors and failures, delays and errors in the input and processing of data used by the E9-1-1 Database associated with the E9-1-1 Service arrangement. The Telephone Company does not undertake to provide a higher level of service reliability and quality than the telephone exchange service being provided in the exchange where 9-1-1 is offered.

- A. 9-1-1 Service is provided solely for the benefit of the 9-1-1 customer; and the provision of such service shall not be interpreted, construed or regarded as being for the benefit of, or creating any Telephone Company obligation toward or any right of action on behalf of, any third person or other legal entity.
- B. The Telephone Company does not undertake to answer and forward 9-1-1 calls, but furnishes the use of its facilities to enable the customer to respond to such calls with the customer's personnel.
- C. The rates charged for 9-1-1 Service do not contemplate, and the Telephone Company does not undertake inspection or constant monitoring to discover errors, defects and malfunctions in the service. The customer shall have the responsibility of discovering all errors, defects and malfunctions, and assumes the duty of, and will make such tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Telephone Company in the event the system is not functioning properly.
- D. The Telephone Company shall not be liable for any losses or damages arising out of errors, interruptions, defects, failures or malfunctions of 9-1-1 Service provided by the Telephone Company, including any and all equipment and data processing systems associated therewith, until such time as the Telephone Company has received notice of such errors, interruptions, defects, failures or malfunctions and has had a reasonable time for correction thereof. Damages arising out of such errors, interruptions, defects, failures or malfunctions after the Telephone Company has been so notified and has had a reasonable time for correction thereof, shall in no event exceed an amount equivalent to the charges paid for the 9-1-1 service affected for the period following notice from the customer until service is restored.

(CT) UNIVERSAL EMERGENCY NUMBER SERVICES (911)

28.2 RULES AND REGULATIONS-(Continued)

- (MT) 28.2.14 E911 Service is offered for use in exchange areas greater than EAA's. (exchange Area Arrangements)
- (CT) 28.2.15 E911 data information respecting the name, address and telephone number of nonpublished telephone customers is confidential and the customer to use such information only for the purpose of responding to emergency 911 calls.
- (AT) 28.2.16 The calling party dialing 911 forfeits the privacy afforded by nonpublished service to the extent that the calling party's number, address and name are furnished to the public safety answering point.
- (CT) 28.2.17 Central offices that are not currently equipped to transmit ANI will not be modified to provide ANI just for 911 Services. When the Selective Routing feature is provided, in such circumstances, Default Routing and central office identification will be provided in lieu of Selective Routing and/or ANI Display.
- (AT) 28.2.18 ANI will not be displayed on calls placed from four party lines. Central office identification is provided in lieu of ANI.
- (AT) 28.2.19 A minimum of two E911 Interoffice Facilities between the end office and the E911 Control Office and two E911 Exchange Lines to each primary PSAP must be provided. On B911, C911 and D911, a minimum of two 911 exchange lines to each PSAP is required.
- (AT) 28.2.20 When the Selective Routing feature is provided (E911), the customer is responsible for identifying the unique combinations of police, fire and ambulance or any other appropriate agencies jurisdiction in the E911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Telephone Company. The customer will associate these ESN's with street address ranges in the E911 serving area. These ESN's will be carried in the Data Management System (DMS) to route E911 calls to the primary and secondary PSAP with responsibility to handle the emergency telephone calls originating for each telephone in the E911 serving area.

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.3 EXPLANATION OF TERMS

Additional E9-1-1 Service Exchange Line: An additional line terminating at a PSAP that may be ordered by the customer as an option.

(AT)

Administrative Site: A location responsible for administration of private switch end user records associated with one or more private switches. This location has the computer hardware and software necessary to create and transmit private switch end user (PSEU) information to the Telephone Company database.

(AT)

Alternate Routing (AR): This feature is provided to allow 9-1-1 calls to be routed to a designated alternate location if the dedicated trunks to the primary PSAP are busy, or if the primary PSAP closes down for a period (night service). This is a standard feature of a routed E9-1-1 system.

Automatic Location Identification (ALI): An optional E9-1-1 feature by which the address and name associated with the calling party's telephone number are forwarded to the PSAP for display.

Automatic Number Identification (ANI): This feature forwards the calling party's telephone number to the E9-1-1 Control Office and on to the PSAP for display. This is a standard feature of D9-1-1 and E9-1-1 Services.

B9-1-1: A service that provides for routing all 9-1-1 calls originated from telephones with given central office prefix codes to a single PSAP.

Called Party Hold (CPH): A feature of C9-1-1 Service that enables a PSAP attendant to retain control of an incoming 9-1-1 call connection, even if the calling party hangs up.

Central Office: A Local Exchange Company (LEC) switching system where telephone exchange service customer station loops are terminated for purposes of interconnection to each other and to trunks.

Central Office Transfer: A feature that permits the primary PSAP attendant to transfer an established E9-1-1 call to either a secondary PSAP or some other location. The three types of transfer features are Fixed, Manual, and Selective.

C9-1-1: A service that provides the B9-1-1 feature as well as Called Party Hold, Switchhook Status, Forced Disconnect, Idle Tone Application and Emergency Ringback.(1)

Control Office: See E9-1-1 Control Office.

(1) Obsolete to existing systems in service prior to the effective date of this tariff.

(MT) Exchange Access Arrangement (EAA): A telephone facility between a subscriber's premises and the telephone exchange network. The number of exchange access arrangements served by an end office is equal to the total number of residence main access lines, business main access lines (excluding toll terminals, WATS access lines and dispatching terminals), Centrex main station lines, selected Direct Inward Dialing station lines, coin station lines, and other applicable main access lines as are included in official Telephone Company reports for the service area of such end office.

(RT)(FC)
(CT) Fixed Transfer: This standard E9-1-1 feature enables a PSAP attendant to transfer incoming 9-1-1 calls by use of a single button on the customer-provided equipment. The PSAP equipment automatically flashes and sends out the Speed-Calling code associated with the desired location. ANI/ALI will also be transferred to locations equipped to receive and display ANI/ALI data. Fixed Transfer uses the Speed-Calling feature of the 9-1-1 Control Office.

(CT) Forced Disconnect: This feature enables the PSAP attendant to release a 9-1-1 connection even though the 9-1-1 calling party has not hung up. This feature prevents the jamming of the E9-1-1 network. It is a standard feature of C9-1-1(1) and E9-1-1 service.

(AT) Host Central Office: An electronic switching system which provides call processing capabilities for one or more Remote Switching Modules or Remote Switching Systems.

(AT) Independent Exchange Company (IEC): A local exchange telephone company other than Southwestern Bell Telephone Company.

(CT)(AT) Idle Tone Application: A standard C9-1-1 and E9-1-1 feature which allows a PSAP attendant to differentiate between a calling party who abandons the 9-1-1 Service call before it is answered and a calling party who retains the connection, but is unable to speak.

(RT) Manual Transfer: This feature enables the PSAP attendant to transfer an incoming call by depressing a flash button and dialing either a 7-digit or 10-digit telephone number or a 2-digit Speed-Calling Code. This is a standard feature of E9-1-1.

(AT) (1) Direct-Trunking is obsolete to existing systems in service or with service applications completed prior to the effective date of this tariff.

EXPANDED UNIVERSAL EMERGENCY NUMBER SERVICE (E911)

28.3 EXPLANATION OF TERMS-(Continued)

Expanded 911 (E911) Control Office: The Control Office provides tandem switching capability for E911 calls. It controls switching of ANI and SR information to the PSAP and also provides standard ESS Speed Calling features, call transfer capability and certain maintenance functions for each PSAP.

Fixed Transfer: This feature enables a PSAP attendant to transfer incoming 911 calls to secondary PSAP's by use of a single button on the Display and Transfer Unit. The PSAP equipment automatically flashes and sends out the Speed Calling code associated with the desired agency. ANI will also be transferred with the call to a secondary PSAP that is equipped to receive and display ANI data. This is done by using the Central Office Call Transfer feature of the E911 Control Office. This feature is associated with the E911 trunk unit. This is an optional feature of E911 Service.

Forced Disconnect: This feature, a function of the E911 Central Office trunk circuit, enables the PSAP attendant to release a 911 connection even though the 911 calling party has not hung up. This feature prevents the jamming of the E911 exchange lines. This is a standard feature of E911 Service.

Idle Tone Application: This feature allows the PSAP attendant to distinguish between calls that have been abandoned before they are answered and calls where the calling party is unable to speak for some reason. If the caller abandoned the line before the PSAP attendant answered, a distinct tone is heard by the attendant. If the caller is still on the line but unable to speak, no tone will be heard. This is a standard feature of E911 Service.

Manual Transfer: This feature enables the PSAP attendant to transfer an incoming call by depressing a flash button on the Display and Transfer Unit and dialing either a 7-digit or 10-digit telephone number or a 2-digit Speed Calling Code. Manual Transfer is associated with the E911 trunk unit. This is a standard feature of E911 Service.

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.3 EXPLANATION OF TERMS - (Continued)

(AT) Private Switch (PS): A switch, such as a Private Branch Exchange (PBX), that provides wireline basic telephone service, but is not owned and operated by a Telephone Company.

Private Switch End User (PSEU): An individual or organization authorized to use the telephone services provided by the private switch.

(AT) Private Switch Provider (PSP): A private entity that provides telephone service to a group of residential or business end users served by the provider's private switch (e.g., Private Branch Exchange).

(RT)(AT) Public Safety Answering Point (PSAP): A PSAP is an answering location for 9-1-1 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAPs respond first, Secondary PSAPs receive calls on a transfer basis only. PSAPs are public service agencies such as police, fire, emergency medical services, etc., or a common bureau serving a group of such entities.

(AT) Record: A telephone number and the E9-1-1 Database information associated with that number.

Remote Central Office: A remotely-controlled electronic end office switching system which obtains call-processing capabilities from a host central office switching system.

Routed System: An E9-1-1 system in which trunking facilities are routed through a control office.

Selective Routing (SR): This feature routes a 9-1-1 call from a central office to the designated primary PSAP. SR is provided by the E9-1-1 Control Office which routes the ANI information of the calling party and the call to the designated PSAP. This is a standard feature of E9-1-1 Service.

Selective Transfer: This feature enables the PSAP attendant to transfer an incoming call to another agency by depressing a single button associated with that particular type of agency. An E9-1-1 System with Selective Routing will use ANI information to automatically route the call to the appropriate agency. This is a standard feature of E9-1-1 Service.

General Exchange Tariff
Section 28
3rd Revised Sheet 11
Replacing 2nd Revised Sheet 11

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.4 METHOD OF APPLYING RATES

The method of applying rates for interexchange and intraexchange interoffice services is determined as follows:

A. E9-1-1 Facilities

E9-1-1 Systems require adequate facilities from each end office in the serving area to the control office, and from the control office to each PSAP. In addition, each PSAP equipped to provide ALI service requires a minimum of two ALI circuits from the PSAP to E9-1-1 Database. Facility requirements are defined in Paragraph 28.2.7D of this tariff. See that paragraph for information regarding the requirements for systems involving remote central offices.

Rates for facilities found in Paragraph 28.6 of this tariff are all inclusive. No additional mileage, channel termination, or trunk unit charges apply for these circuits.

B. Facilities--Interconnection Between Telephone Companies

For routed or direct-trunked systems, facilities between Southwestern Bell Telephone Company (SWBT) offices and a point of interconnection with another telephone company shall be billed the appropriate flat rate found in Paragraph 28.6 of this tariff.

These rates are all inclusive for the SWBT portion of each circuit. No additional channel termination, mileage or trunk unit charges apply for the SWBT portion of these circuits.

C. Exceptions

The rates in A and B preceding assume that E9-1-1 service is configured so that all 9-1-1 calls originate from Missouri end users and terminate in the same LATA at a primary PSAP in Missouri.

If a 9-1-1 agency requires a service configuration where 9-1-1 calls originate and terminate within the same exchange, but the call originator and the primary PSAP are in different states, facilities between the two states will be provided based on the state tariff of the end office where the calls originate and the serving office of the PSAP where the calls terminate.

If a 9-1-1 agency requires a service configuration where the 9-1-1 call originator and the primary PSAP are in different LATAs within Missouri, the facilities between the two LATAs will be provided on a Special Service Arrangement Request basis (SSAR) (per Section 17.12 of this tariff.

OF MISSOURI

E. Foreign Serving Office

- 1. This service is furnished to one serving office (in addition to the serving office in which the exchange service is furnished) within the exchange or metropolitan exchange in which the exchange service is furnished.
- 2. Service is furnished on the condition that additional costs to the Telephone Company may be necessary to provide a type of signaling suitable for operation with the serving office from which service is furnished or to provide, at the customer's request, a type of signaling other than the type the Telephone Company would elect to furnish. In such cases, additional charges will apply.
- 3. Customers for the exchange portion of the service are subject to exchange charges, rules and regulations and for the channel facility portion of the service, are subject to the E911 charges, rules and regulations in this Tariff.

FILES
JAN - 1 1984
83-253
Public Service Commission

F. Exceptions

In those cases where an intraexchange E911 service has control and/or end offices in Missouri and another state, the method of applying rates in A., B. and C., preceding, are modified to apply the charges for that portion of the E911 service located in the other state and shall be pursuant to that state's tariff.

G. Nonrecurring Charges

Nonrecurring charges apply as stated in 28.5, following.

Issued: DEC 29 1983

Effective: JAN 0 1 1984

By R. D. BARRON, Vice President-Missouri
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

28.4 METHOD OF APPLYING RATES (Continued)

(FC) C. Exceptions (Continued)

(CT) If a 9-1-1 agency requires a service configuration where 9-1-1 calls originate from an end user in one state and terminate at a primary PSAP in a different exchange area in a different state, the facilities between the two states will be provided on an Individual Case Basis (ICB) procedure using FCC No. 73 Rules and Regulations.
(CT)

(MT) 28.5 9-1-1 SERVICE FEATURES

28.5.1 B9-1-1 Service

A. B9-1-1 Service includes the Company provision of the 9-1-1 code or the opening of this code to the exchange network in those central offices that fall within the boundaries of the municipalities or other governmental bodies (township, county, etc.) that subscribe for 9-1-1 Service.

(RT) (CT) B. B9-1-1 Service provides for routing all 9-1-1 calls originated by telephone lines with given central office prefix codes to a single PSAP. No other features are provided with this offering. (RT) The customer must subscribe to a minimum of two exchange lines at the PSAP to receive 9-1-1 calls originating from the PSAP serving office. End offices other than the PSAP serving office, (CT) require at least two dedicated B9-1-1 facilities from the end office to the PSAP. (AT)

(AT) 28.5.2 C9-1-1 Service (Obsolete to systems in service prior to the effective date of this tariff)

C9-1-1 Service provides B9-1-1 Service plus Forced Disconnect, Idle Tone Application, Called Party Hold, Emergency Ringback and Switchhook Status features. Activation of the Switchhook Status and Emergency Ringback features requires use of the appropriate COAM Key telephone equipment at the PSAP.

(AT) 28.5.3 D9-1-1 Service (Obsolete to systems in service prior to the effective date of this tariff)

Provides B9-1-1 Service plus display of the calling party's ANI telephone number at the PSAP. Requires the use of Telephone Company-provided ANI PSAP equipment for display of ANI information. Appropriate Key telephone or Automatic Call Distributor (ACD) equipment is required to terminate 9-1-1 calls. The ANI PSAP equipment contains interfaces for teleprinter and voice recording devices. Central office transfer of 9-1-1 calls is not provided with D9-1-1 Service. (MT)

and/or end offices in Missouri and another state, the method of applying rates for the interoffice portion will be determined via ICB (individual case basis) procedures using FCC No. 68 Rules and Regulations.

(RT)

G. Nonrecurring Charges

(MT) Nonrecurring charges apply as stated in 28.6, following.

(MT) H. Determination of V-H Mileages

1. Obtain the "V" and "H" coordinates for each primary serving office or serving office.
 2. Obtain the difference between the "V" coordinates of the two primary serving offices or serving offices. Obtain the difference between the "H" coordinates.
- NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.
3. Square each difference obtained in 2., above.
 4. Add the square of the "V" difference and the "H" difference obtained in 3., above.
 5. Divide the sum of the squares obtained in 4., above, by 10.
 6. Obtain the square root of the result obtained in 5., above. This is the rate distance in miles. (Fractional miles being considered as full miles.)

(CT) UNIVERSAL EMERGENCY NUMBER SERVICES (911)

28.5 911 SERVICE FEATURES

(AT) 28.5.1 B911 Service

- A. B911 Service includes the Company provision of the 911 code opening of this code to the exchange network in those central offices that fall within the boundaries of the municipalities or other governmental bodies (township, county, etc.) that subscribe for 911 Service.
- B. B911 Service provides for routing all 911 calls originated by telephone with given central office prefix codes to a single PSAP via business exchange lines. B911 presents a call to the PSAP via a business access line in a manner similar to a normal exchange telephone call. No other features are provided with this offering. The customer must subscribe to a minimum of two lines at the PSAP to receive 911 calls.

(AT) 28.5.2 C911 Service

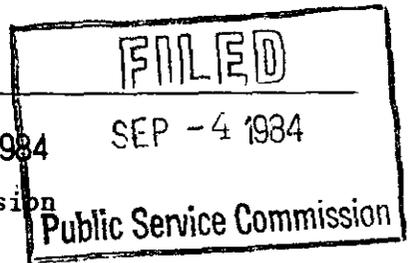

C911 Service provides B911 Service plus Forced Disconnect, Idle Tone Application, Called Party Hold, Emergency Ringback and Switchhook Status features. Activation of the Switchhook Status and Emergency Ringback features requires use of the appropriate COAM Key telephone equipment at the PSAP.

(AT) 28.5.3 D911 Service

Provides B911 Service plus display of the calling party's ANI telephone number at the PSAP. Requires the use of Telephone Company-provided ANI PSAP equipment for display of ANI information. Appropriate Key telephone or Automatic Call Distributor (ACD) equipment is required to terminate 911 calls. The ANI PSAP equipment contains interfaces for teleprinter and voice recording devices. Central office transfer of 911 calls is not provided with D911 Service.

Replacing 2nd Revised Sheet 13

UNIVERSAL EMERGENCY NUMBER SERVICES (9-1-1)

28.6 9-1-1 Service Rates and Charges

28.6.1 Messages

- A. No charge applies to the calling party for calls placed to the 9-1-1 number.
- B. Message transfers are billed according to the rates applicable from the serving area of the E9-1-1 system. Calls transferred from a PSAP to another location within the 9-1-1 service area will not be charged intraLATA toll.

28.6.2 B9-1-1 Service

A. B9-1-1 Facility Rates (per facility)

- 1. 9-1-1 Exchange Lines are provided between the PSAP serving office and the PSAP in order to provide 9-1-1 service for end users served by the PSAP serving office. In a single wire center B9-1-1 application exchange lines represent the only B9-1-1 facility rates and charges. Established rates found elsewhere in the tariff for PBX trunks, flat or measured rate business lines apply for 9-1-1 Exchange Lines that terminate at PSAPs. The monthly rate for the Exchange Line is the rate applicable for the exchange or zone in which the PSAP is located (per Mo. PSC Local Exchange Tariff 24). A minimum of two lines from (CT) the PSAP serving office is required.

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
--	-------------	---------------------	----------------------------

2. End office to PSAP trunk. Applies for end offices other than the PSAP serving office.. 9BV1X	\$35.00		\$360.00
3. Point of interconnection with another telephone company, facility from SWBT PSAP to IEC 9BV2X	34.00	340.00	
4. Point of interconnection with another telephone company, facility from SWBT end office to IEC EPY3X	18.00	170.00	

B. Tie Lines, Private Lines and Extension Lines

Tie lines, private lines, extension lines and other such channels (RT)(AT) connecting a PSAP to various agencies such as police, fire or emergency (AT) medical services, are provided at established tariff rates for such channels and facilities specified in this and other appropriate tariffs.

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

28.6 9-1-1 SERVICE RATES AND CHARGES (Continued)

28.6.7 E9-1-1 Nonrecurring Charges Payment Options

Nonrecurring charges associated with the initial E9-1-1 installation can be installment billed on a monthly basis for any annual term up to 60 months. Only one installment term can be selected.

The balance shall become due and payable if the customer disconnects the service element prior to the final payment of the deferred charges.

To calculate the monthly installment, multiply total nonrecurring charges by the appropriate factor. Annuity factors utilized for this option are listed in Paragraph 17.6.5 (Rules and Regulations Applying to All Customer's Contracts, Payments for Service) of the General Exchange Tariff.

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

28.7 PRIVATE SWITCH 9-1-1 SERVICE

28.7.1 Description of Service

- A. Private Switch 9-1-1 Service (PS 9-1-1) is a service offering which allows a Public Safety Answering Point (PSAP) to receive either (1) Automatic Number Identification (ANI) or (2) a combination of ANI and Automatic Location Identification (ALI) information on 9-1-1 calls originating from Direct Inward Dialing (DID) stations served by a private switch.
- B. The ANI-only option is available if the 9-1-1 customer's system is equipped with the ANI feature and if the private switch is equipped to send properly formatted ANI information to the Local Exchange Carrier (LEC) on 9-1-1 calls.
- C. The option which provides ANI and ALI is available if (1) the Private Switch Provider (PSP) arranges to provide and update number, name, and location information for each DID station served by the private switch in the format required for the Telephone Company's database; (2) the private switch sends ANI to the Telephone Company on 9-1-1 calls; and (3) the PSAP is equipped to provide 9-1-1 service with the ALI feature.
- D. Service availability is dependent upon the type and configuration of the 9-1-1 system in place for the service area. If the 9-1-1 system design uses a Control Office, then facilities are required between the private switch and the Control Office. If the 9-1-1 system design does not include a Control Office, then facilities are required between the private switch and the PSAP. In either case, at least two dedicated PS 9-1-1 facilities are required from each private switch. Rates and charges for facilities are provided in Paragraph 28.7.5 of this tariff. In instances where Inform 9-1-1 (as defined in the Integrated Services Tariff, Section 2) is utilized, the private switch facilities will connect to the local serving end office. Existing 9-1-1 end office facilities will route the 9-1-1 traffic to the 9-1-1 Control Office which will then forward the call to the PSAP.
- E. The PS 9-1-1 customer must be either:
 - 1. An E9-1-1 customer as described in Section 28.1.3 of this tariff.
 - 2. A Private Switch Provider authorized by the E9-1-1 customer to subscribe to PS 9-1-1 Service within the E9-1-1 customer's serving area.
- F. The Private Switch Providers referred to in this tariff might include such organizations as: businesses, schools, nursing homes, hospitals, planned communities, and Shared Tenant Service (STS) providers.

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

(AT) 28.7 PRIVATE SWITCH 9-1-1 SERVICE (cont'd)

28.7.2 Rules and Regulations (Also see Paragraph 28.2 since all rules applicable to E9-1-1 Service also apply to the PS 9-1-1 option.)

A. Application for Service

Requests for this service: (1) can only be initiated by a 9-1-1 customer or a PSP; (2) must be provided to the Telephone Company in writing; and (3) must identify service locations and arrangements.

Applications received from PSPs must include written authorization from the 9-1-1 provider responsible for the service area where the private switch is located.

B. Customer Obligations(1)

- (AT) 1. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the private switch provides full seven or ten digit Automatic Number Identification (ANI) according to the technical specifications established by the Telephone Company. The private switch number information must be approved by the Telephone Company prior to implementation to ensure that the service will function properly. PS 9-1-1 Service will not function properly if ANI is not in the proper format, if duplicate telephone numbers exist at the private switch, or if any telephone numbers assigned by the PSP are inconsistent with the Telephone Company's numbering plan.
 - 2. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP creates, maintains, and forwards to the Telephone Company current telephone number and address data according to the format and procedures specified by the Telephone Company.
 - 3. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP develops and implements procedures to prevent the unauthorized or illegal use of PS 9-1-1 Service facilities. These dedicated facilities may not be used for any purpose other than for 9-1-1 service.
 - 4. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP uses computer hardware and software for ongoing Private Switch End User (PSEU) record update programs and processes that conform to the specifications outlined in the PS 9-1-1 Technical Interface Standards.
- (1) Customer obligations described for situations where the E9-1-1 customer is also the PS 9-1-1 customer. In situations where a Private Switch Provider is the PS 9-1-1 customer, the PS 9-1-1 customer obligations described in this section are the direct responsibility of the Private Switch Provider.

MO. PUBLIC SERVICE COMM.

A. Application for Service

Requests for this service: (1) can only be initiated by a 9-1-1 customer or a PSP; (2) must be provided to the Telephone Company in writing; and (3) must identify service locations and arrangements.

Applications received from PSPs must include written authorization from the 9-1-1 provider responsible for the service area where the private switch is located.

B. Customer Obligations(1)

1. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the private switch provides full seven-digit Automatic Number Identification (ANI) according to the technical specifications established by the Telephone Company. The private switch number information must be approved by the Telephone Company prior to implementation to ensure that the service will function properly. PS 9-1-1 Service will not function properly if ANI is not in the proper format, if duplicate telephone numbers exist at the private switch, or if any telephone numbers assigned by the PSP are inconsistent with the Telephone Company's numbering plan.

The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP creates, maintains, and forwards to the Telephone Company current telephone number and address data according to the format and procedures specified by the Telephone Company.

3. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP develops and implements procedures to prevent the unauthorized or illegal use of PS 9-1-1 Service facilities. These dedicated facilities may not be used for any purpose other than for 9-1-1 service.

4. The PS 9-1-1 customer is responsible for coordinating with the PSP so that the PSP uses computer hardware and software for ongoing Private Switch End User (PSEU) record update programs and processes that conform to the specifications outlined in the PS 9-1-1 Technical Interface Standards.

(1) Customer obligations described for situations where the E9-1-1 customer is also the PS 9-1-1 customer. In situations where a Private Switch Provider is the PS 9-1-1 customer, the PS 9-1-1 customer obligations described in this section are the direct responsibility of the Private Switch Provider.

Original Sheet 23

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

28.7 PRIVATE SWITCH 9-1-1 SERVICE-(Continued)

28.7.2 Rules and Regulations-(Continued)

B. Customer Obligations-(Continued)

5. PS 9-1-1 Service information consisting of the name, address and telephone number of nonpublished customers is confidential. The 9-1-1 customer agrees to use such information only for the purpose of responding to emergency calls.
6. The PSEU forfeits the privacy afforded by nonlisted and nonpublished service to the extent that the telephone number, the address and name associated with the originating station location are furnished to the PSAP and to the Telephone Company. The PSEU (published and nonpublished) consents to the storage and retention of PSEU name, telephone number, and address in the database and also consents to access to this information by the PSAP for the sole purpose of responding to an emergency call.
7. The rates charged for PS 9-1-1 Service do not include, and the Telephone Company does not undertake, inspection or constant monitoring to discover errors, defects and malfunctions in the service. The PS 9-1-1 customer has the responsibility for reporting all errors, defects and malfunctions to the Telephone Company.
8. Cancellation of the service in whole or in part by the PS 9-1-1 customer prior to establishment thereof, will require payment to the Telephone Company of an amount equal to the cost of engineering, manufacturers' billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred by the Telephone Company up to the time of cancellation resulting from the PS 9-1-1 customer's order for service, but not to exceed the total nonrecurring charges.

C. Liabilities

1. The Telephone Company's entire liability to any person for interruption or failure of PS 9-1-1 Service shall be the same as the company's liability for E9-1-1 Service.
2. PS 9-1-1 Service is provided solely for the benefit of the PS 9-1-1 customer; the provision of such service shall not be interpreted, construed or regarded as being for the benefit of, or creating any Telephone Company obligation toward, or any right of action on behalf of, any third person or other legal entity.

UNIVERSAL EMERGENCY NUMBER SERVICE (9-1-1)

28.7 PRIVATE SWITCH 9-1-1 SERVICE (cont'd)

28.7.4 Private Switch 9-1-1 Service Rates and Charges

A. Rates and Charges for Facilities

If the Private Switch is served by a 9-1-1 system which uses a Control Office, Private Switch to Control Office facilities should be ordered. The rates listed below assume a 2-wire arrangement. Additional charges may be applicable if a 4-wire arrangement is required.

If the Private Switch is served by a direct-trunked 9-1-1 system, Private Switch to PSAP facilities should be ordered. This option is only available for 2-wire arrangements.

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
1. From Private Switch to Control Office (per facility) (9PS)	\$70.00	\$300.00
2. From Private Switch to PSAP (per facility) (9PT)	78.00	520.00
(AT) 3. ISDN/Inform 9-1-1	See Integrated Services Tariff Section 2	

B. Database Management System

The rates and charges in this section relate to the administration and storage of PS 9-1-1 Service data records. The nonrecurring charge per 10 records per PSP applies at the time the records are initially created in the Telephone Company's database. The recurring rate is applied on a monthly basis for each month until the records are deleted. There is no charge to update the information associated with an individual record.

The nonrecurring charge listed as item 2 (below) applies at the time an administrative site is first established. This charge applies when procedures are established enabling the administrative site to create and update records.

	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
1. Charge per 10 records per PSP per 9-1-1 customer (ED2PG)	\$0.77	\$ 4.10

(CT) SBC 211

(AT) 29.1 DESCRIPTION

SBC 211 (211) allows end users to reach the 211 provider (Customer) by dialing an abbreviated telephone number, two-one-one (2-1-1).

211 is an intelligent routing service that determines the central office serving the calling party, converts the 211 dialed digits to a Customer-designated Routing Telephone Number (RTN) and routes the call over the public switched network to the RTN.

211 is an optional service that may be purchased only by information and referral providers authorized by the Missouri PSC in accordance with 4 CSR 240-32.200 of the Code of State Regulations.

211 is offered subject to the availability of facilities.

29.2 TERMS AND CONDITIONS

- A. The Customer must provide a copy of the order granting its authority as a Missouri I&R Provider prior to beginning service. A minimum service period of one month applies to this service.
- B. Typically there can be only one 211 Customer for each stand-alone, host, or remote central office serving area (the "211 service area"). This assures that 211 calls from an end user located within a 211 service area can be routed to a unique 211 call center. Normally the Company will route calls based on the serving central office. If a central office serves one or more remote central offices or multiple states, the Company will route the 211 calls based on the originating NPA-NXX. The Company will default route calls to one of the customer's RTNs if the Company is unable to route based on the serving central office or originating NPA-NXX.

29.1 GENERAL REGULATIONS

MO. PUBLIC SERVICE COMM.

- 29.1.1 The regulations set forth herein are in addition to the General Regulations as found in Section 2 of this Tariff.
- 29.1.2 The Rate Stability Plan is a payment option that allows the customer to pay a fixed monthly rate for Centrex II and Centrex III Service over a period of 36 months. This plan covers the Exchange Access Line and Intercommunication Access for Centrex II Service. For Centrex III, the plan covers the intercommunication equipment and the station line. Consoles, optional features and facility terminating arrangements are also covered by this plan. Customers subscribing to this plan will sign a Letter of Election to contract for this service.
- 29.1.3 Local Exchange Access for Centrex II, Centrex III Access Lines and Miscellaneous Service offerings are excluded from this plan and are subject to Company-initiated rate changes.
- 29.1.4 During the course of the Rate Stability Plan contract, the fixed rates are not subject to rate increases initiated by the Company. Items of equipment or service not covered by this plan may be subject to Company-initiated rate changes. Centrex C.O. customers who elect not to subscribe to this plan will pay the current Centrex II rates and are subject to Company-initiated changes.
- 29.1.5 Installation and nonrecurring charges contained in the Centrex Tariff can be deferred over the length of the Rate Stability Plan contract. Annuity factors utilized in deferring these charges will be based on .0369.
- 29.1.6 A termination charge based on the present worth of the amount of remaining monthly payments will be applicable under the following conditions if the subscriber a) moves to a different serving central office; b) disconnects the entire service; c) disconnects more than 20 percent of the stations listed in the Letter of Election. In addition, the present worth of any installation and nonrecurring charges remaining that have been deferred must be paid in full.
- 29.1.7 Additions to service available under the plan can be added to the existing agreement, providing at least 90 days remain on the customer's contract. These additions will be coterminous with the original contract. Also, additions may be made under the month-to-month payment option.

General Exchange Tariff
Section 29
1st Revised Sheet 1.01
Replacing Original Sheet 1.01

(CT) SBC 211

(AT) 29.2 TERMS AND CONDITIONS (cont'd)

- C. Only calls originating within an operational 211 service area will be routed to a call center. End users dialing 211 outside operational 211 service areas will receive a recorded message that the call cannot be completed as dialed. 211 is compatible with Caller ID Service network functionality (as described in Section 47) when used in conjunction with basic exchange services.
- D. By subscribing to 211 under this tariff, Customer agrees to comply with all applicable laws and regulations.
- E. The Customer may designate only one Routing Telephone Number (RTN) per 211 service area but may designate different RTNs for different 211 service areas as described below. The RTN must be a toll-free 800 telephone number for central offices outside of the 211 call center's local service area.
 - If the Customer utilizes more than one 211 RTN, it must designate the specific stand-alone, host or remote central office(s) to be served by each RTN.
 - Normally only one RTN can serve a stand-alone, host or remote central office serving area.
 - 211 calls are not permitted where local calling is restricted (e.g., prisons).

The Company will route 211 calls originating from end users on its local exchange network whether the end users purchase service directly from the Company or from another Local Exchange Carrier (LEC) reselling the Company's service.

- F. 211 Service is provided solely for the benefit of the Customer; the provision of such service shall not be interpreted, construed or regarded as being for the benefit of or creating any obligation toward, or any right of action on behalf of, any third person or other legal entity.
- G. The Company will make every effort to route 211 calls to the appropriate calling center; however, it will not be held responsible for routing mistakes and errors. The Company's obligation under 211 ends upon call completion to the agency-designated RTN.
- H. In addition to the terms and conditions stated in this tariff, all Rules and Regulations stated in Section 17 of this tariff also apply.

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

SBC 211

29.3 APPLICATION OF RATES AND CHARGES

Monthly rates and nonrecurring charges apply for 211. These rates and charges are specified in paragraph 29.4, following.

When the customer chooses an RTN that is a toll free 800 telephone number as described in 29.2 E above, the rates and charges for toll-free 800 service (provided by the Company or another service provider) apply as provided in the tariff of the applicable service provider.

29.4 RATES AND CHARGES

	<u>USOC</u>	<u>Monthly Rate</u>	<u>Nonrecurring Charge</u>
SBC 211 Per System(1)	2D2	\$35.00	---
Per Host, Stand-alone or Remote Central Office Equipped	2CHCO	---	\$800.00
211 Table Changes Per Customer Requested Change(s) Per System	REAL5	---	238.00

(1) A system is a grouping of multiple stand-alone, host and/or remote central offices serving a Missouri geographic area as designated by the Company.

29.3 CENTREX C.O. ATTENDANT POSITIONS-(Continued)

29.3.1 Rates-(Continued)

MO. PUBLIC SERVICE COMM.

Footnotes:

- (1) Customer supplied 110 volt AC power supply required.
- (2) Maximum capacity for the first primary common equipment is dependent upon the type of console. With the 27A-Type console, the primary common equipment accommodates a maximum of four consoles when a single primary common equipment is required for the system. With the 47A-Type console, the primary common equipment accommodates three consoles. Additional primary common equipment accommodates four consoles regardless of type.
- (3) Also apply rates and charges for a Type 323 private line per primary common equipment as specified in the Private Line Service Tariff.
- (4) Required for the second and third 47A-Type consoles associated with the first primary common equipment and for the third and fourth 47A-Type console associated with subsequent primary common equipment. Also required for the third and fourth 27A-Type console associated with single or subsequent primary common equipment (see Footnote 9).
- (5) Includes lamp field of six Incoming Call Identification and 12 Trunk Group Busy keys.
- (6) Includes lamp field of 24 Incoming Call Identification and 60 Trunk Group keys.
- (7) Maximum of six attendant access lines can be terminated on each console.
- (8) Applicable when more than one primary common equipment is required.
- (9) When lamp multiple unit is provided, the first primary common equipment capacity is reduced to three consoles, and the additional common equipment is applicable for the second and third console.
- (10) Also apply rates and charges for a Type 311 private line, as specified in the Private Line Service Tariff, per console.
- (11) Position Busy is not applicable to single console systems.
- (12) One unit per system required for 47A-Type consoles. Not applicable with 27A-Type console.
- (13) Applicable to systems equipped with 27A-Type or 47A-Type consoles.
- (14) Available only to existing customers.

Footnotes:

- (1) The first number group is provided as part of Centrex Service. A second listed number group is included in the rate for a third listed number group, etc.
- (2) No distinctive identification is provided for additional listed number groups with the Trunk Answer Any Station feature.
- (3) This is an attendant-controlled conference arrangement. This conferencing equipment provides for the simultaneous connection of several Centrex station lines on the same premises. Connection of lines other than as stated above is subject to the limitations of the equipment, and where such equipment can be connected to Telephone Company Exchange Service, Private Line Service or Long Distance Message Telecommunications Service, the responsibility of the Telephone Company shall be limited to the furnishing of facilities suitable for Exchange Service, Private Line Service or Long Distance Message Telecommunications Service and to the maintenance and operation of such facilities in a manner proper for such services.
- (4) The number of controlled access codes is determined by the customer.
- (5) In addition, apply standard Tariff rates for the following:
 - Control channel extending from the serving Central Office to the customer's premises for each key required, specified in the Private Line Service Tariff.
- (6) A Complex Installation/Move Charge of \$45.00 is applicable for changes or rearrangements in controlled access codes.
- (7) A Complex Installation/Move Charge applies only when the feature is installed subsequent to the initial Centrex Service.
- (8) A Complex Installation/Move Charge of \$45.00 applies if installed subsequent to initial installation of Attendant-Control Facilities.
- (9) See Sheet 38 for additional regulations applicable to Automatic Route Selection.
- (10) Applies per facility regardless of the number of patterns having access to that facility.

Footnotes:-(Continued)

- (11) The number and type of patterns is determined by the customer.
- (12) If Toll Restricted or Toll Diverted stations access patterns described in Paragraph 29.5, A.1.a or A.2.a, they should be charged for as stated in either Paragraph 29.5, A.1.b or A.2.b, respectively.
- (13) If these changes result in a change in screening, it should be considered as a new pattern, and normal installation charges apply.
- (14) Service Establishment Charge of \$436.00 applies.
- (15) This charge applies to each NPA translated where Central Office Code translation is required for more than one NPA per single facility group or route.
- (16) The Service and Equipment Charges for optional features apply only to changes or additions to existing systems.

Automatic Route Selection-(Continued)

MO. PUBLIC SERVICE COMM.

Definitions for terms used in this Tariff are as follows:

CODE - is either the Numbering Plan Area (NPA) code or Central Office (NXX) code of the dialed telephone number. In 312-555-1212, 312 is the Numbering Plan Area code and 555 is the Central Office Code.

FACILITY - denotes a specific FX, CCSA - Off-Net, WATS circuit, Tie Line or OCC access line compatible with Automatic Route Selection and has senderized operation and uniform numbering that is consistent with the Message Telecommunications Network.

ROUTE - refers to an access path group of like facilities which are used to complete 7- or 10-digit calls between the same points. Examples of facility groups would be 7 FX trunks to Chicago or 1 Band 5 WATS. A route may be used in one or more patterns.

ROUTE SELECTION PATTERN - is a group of up to four routes arranged in a sequence determined by the customer.

SCREENING - is a process of scanning over Numbering Plan Area codes (NPA screening) or over Numbering Plan Area and Central Office codes (NPA/NXX screening). NPA screening also provides scanning over those NXX codes which are in the home NPA.

Regulations

All route and pattern assignments will be designated by the customer. The customer is responsible for notifying the Telephone Company of any changes required in his Automatic Route Selection feature.

All rates and charges for Automatic Route Selection are in addition to the rates and charges for the associated facilities. OCC services may be terminated in an Automatic Route Selection by the use of the universal tie line terminal at applicable Tariff rates in addition to the Automatic Route Selection rates and charges.

29.5 CENTREX C.O. OPTIONAL FEATURES--(Continued)

MO. PUBLIC SERVICE COMM.

Automatic Route Selection--(Continued)

Regulations--(Continued)

Patterns without final route to the Telecommunications Network may be offered only if a customer subscribes to a sufficient number of facilities which, in the judgment of the Telephone Company, provide an adequate level of service so as to avoid interfering with the service of others or to prevent others from making or receiving calls.

The Telephone Company is not responsible for notifying the customer of new codes or changes in any local calling rates.

A pattern may have overflow to tone or overflow to the Telecommunication Network but not to both.

Where Central Office Code translation is required for more than one NPA per single facility group or route, rates and charges as specified in Paragraph 29.5, A.1.a. and b. apply.

Automatic Route Selection is a call routing capability in which all codes must be routed. Code blocking is not provided.

ARS Design Recommendation

At the request of the customer, the Telephone Company will provide an ARS Design Recommendation based upon the traffic data available and configured utilizing Telephone Company traffic engineering principles. The charges shown below for this service apply per occasion and include provision of the data to the customer in Telephone Company printed copy format. The accuracy of the recommendation provided to the customer is dependent upon the data available and the assumptions used and should not be construed as a guarantee of future performance. The customer is responsible to advise the Telephone Company of the ARS design to be used.

29.5 CENTREX C.O. OPTIONAL FEATURES-(Continued)

MAY 12 1993

Footnotes:

MO. PUBLIC SERVICE COMM.

- (1) When Call Forwarding-Busy Line and Don't Answer are provided on the same station, both must forward to the same address (either station line or attendant).
- (2) The customer must specify whether he wants Centrex intercom calls to be forwarded in addition to incoming calls.
- (3) A maximum of \$4.00 applies per station line when installing any three or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions of these features to an existing station line.
- (4) A maximum of \$4.00 applies per station line when installing any three or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions of these features to an existing station line.
- (5) These features are provided as a group per station line equipped; however, a station line must be equipped for Call Hold before it can be equipped for Call Pickup. When one station line in a Dial Pickup Group is equipped for Call Pickup, all station lines in that same group are automatically equipped with the same feature; therefore, the above rate and Complex Installation/Move Charge will apply to each station line in the Dial Pickup Group.
- (6) This feature is available to all station lines in a system and is provided only on a system basis. One Complex Installation/Move Charge is applicable per system.
- (7) This feature and rate includes Call Waiting-Terminating.
- (8) This Complex Installation/Move Charge applies only when the station line has not been previously equipped with Call Waiting-Terminating.
- (9) Complex Installation/Move Charge applies only to each Circle Hunt group established, not to each terminal within that group.
- (10) Regulations covering the provisions of this service are applicable as provided in Section 4 of this Tariff.
- (11) This is a station line-controlled conferencing arrangement. This conferencing equipment provides for the simultaneous connection of several Centrex station lines on the same premises. Connection of lines other than as stated above is subject to the limitations of the equipment, and where such equipment can be connected to Telephone Company Exchange Service, Private Line Service or Long Distance Message Telecommunications Service, the responsibility of the Telephone Company shall be limited to the furnishing of facilities suitable for Exchange Service, Private Line Service or Long Distance Message Telecommunications Service and to the maintenance and operation of such facilities in a manner proper for such service.

MO. PUBLIC SERVICE COMM.

- (12) No guarantee of transmission is provided when using this feature from a secondary location. Improved transmission may be provided on a Special Service Arrangement if necessary.
- (13) Includes 75 feet of multiconductor wiring between the dial dictation recording terminal equipment and the recording equipment.
- (14) Private Facility applies to CCSA, WATS and tie lines arranged for senderized operation and the local and toll message network. Call forwarding to EPSCS and ETS is not presently available.
- (15) Incoming local and toll message network and In-WATS calls to main station lines arranged for Call Forwarding Over Private Facilities routing are subject to the appropriate charges for such calls, and a common recorded announcement is furnished to inform the caller that the call is being forwarded.
- (16) A Service Establishment Charge of \$399.00 applies
- (17) No Complex Installation/Move Charge applies when furnished with the initial installation of Call Forwarding Over Private Facilities ties feature.
- (18) Service Establishment Charge of \$120.00 applies.
- (19) Dial Call Waiting and Call Waiting-Originating cannot be used on the same line.
- (20) This feature is offered independent of Call Pickup
- (21) The Split Service Offering optional feature is also required in systems equipped with the fully restricted station lines.
- (22) Not applicable to those customers served by No. 2 Electronic Switching System.
- (23) Applies per system on initial feature installation and on any subsequent additions, deletions or rearrangements.
- (24) Obsolete-applicable to existing installations at existing locations for existing customers.
- (25) The Service and Equipment Charges for optional features apply only to changes or additions to existing systems.
- (26) Refer to Paragraph 29.1.22, preceding, for application of rates.
- (27) Cancel Call Waiting capability is also provided with this feature where available in 1A ESS central offices. A Complex Installation/Move Charge of \$104.50 applies per system for one non-standard Centrex Cancel Call Waiting Access Code.
- (28) Available only to existing customer.

29.5 CENTREX C.O. OPTIONAL FEATURES--(Continued)

Electronic Tandem Switching--(Continued)

B. Regulations--(Continued)

1. Explanation of Terms--(Continued)

b. Automatic Route Selection-Deluxe (ARS-D)

ARS-D provides for the origination of only ten-digit, off-network calls to a public network telephone number after the Centrex ARS-D access code (e.g., "8") automatically scans the digits and selects a first choice completing route when available or subsequent route if the first choice route is not available. Routes may include Foreign Exchange Trunk lines, Wide Area Telecommunications Service lines, exchange trunk lines to the toll network and access lines to Common Control Switching Arrangements or other arrangements where compatible with sendedized operation and uniform numbering.

The final completing route may be the toll network or, at the option of the customer, the call attempt is routed to overflow tone if a Facilities Restriction Level (FRL) is insufficient to complete the call.

When ARS-D is provided in conjunction with Uniform Numbering/ Automatic Alternate Routing (UN/AAR), incoming tie lines from other Centrex or PBX systems connected directly to the Centrex system may be arranged to have automatic access to the ARS-D and UN/AAR features. When such arrangements are provided, the tie lines to the ARS-D become "dedicated" tie lines and separate tie lines are required from the distant Centrex or PBX system if access is to be provided to other Centrex functions at the ARS-D equipped Centrex system. In addition, when ARS-D is provided in conjunction with UN/AAR, routes may include tie lines to a distant Centrex or PBX system equipped with an ARS-D-like capability for subsequent access to the toll network.

29.5 CENTREX C.O. OPTIONAL FEATURES-(Continued)

Electronic Tandem Switching-(Continued)

B. Regulations-(Continued)

1. Explanation of Terms-(Continued)

b. Automatic Route Selection-Deluxe (ARS-D)-(Continued)

The ARS-D feature provides all number translation and supervision necessary to route the call, "More Expensive Route" (MER) Tone is supplied, at the option of the customer, as a function of the route selected for a particular call.

Time-of-Day (TOD) Routing is an ARS-D option which permits pre-programmed selection of alternate routing pattern groups for off-network calls (up to three sets of ARS-D routing pattern groups) on a time-of-day and day-of-week basis. Manual override is available with the Facility Administration and Control Feature. The maximum number of programmed changes per week is 16.

c. Facilities Restriction Levels (FRL)

FRL is required in connection with ARS-D and is provided on each station or incoming or two-way tie line to determine both the types of calls and types of facilities within the privileges of the associated user. When the FRL is transmitted over a tie line to a distant PBX or Centrex system equipped with ARS-D (for call screening at the distant point), it is identified as a Traveling Class Mark (TCM).

Authorization Codes are an FRL option which provides for a station user to dial a code which overrides the FRL associated with that station line or incoming tie line. The Centrex requests dialing of the authorization code when the default FRL (i.e., the FRL associated with the station line or incoming tie line) has insufficient privileges to complete the call. The Authorization Code is recorded in the Station Message Detail Recording to Premises record of the call when the SMDR-P feature is provided.

DEC 29 1983

MISSOURI
Public Service Commission

The ARS-D feature provides all number translation and supervision necessary to route the call, "More Expensive Route" (MER) Tone is supplied, at the option of the customer, as a function of the route selected for a particular call.

Time-of-Day (TOD) Routing is an ARS-D option which permits pre-programmed selection of alternate routing pattern groups for off-network calls (up to three sets of ARS-D routing pattern groups) on a time-of-day and day-of-week basis. Manual override is available with the Facility Administration and Control Feature. The maximum number of programmed changes per week is 16.

c. Facilities Restriction Levels (FRL)

FRL is required in connection with ARS-D and is provided on each station or incoming or two-way tie line to determine both the types of calls and types of facilities within the privileges of the associated user. When the FRL is transmitted over a tie line to a distant PBX or Centrex system equipped with ARS-D (for call screening at the distant point), it is identified as a Traveling Class Mark (TCM).

Authorization Codes are an FRL option which provides for a station user to dial a code which overrides the FRL associated with that station line or incoming tie line. The Centrex requests dialing of the authorization code when the default FRL (i.e., the FRL associated with the station line or incoming tie line) has insufficient privileges to complete the call. The Authorization Code is recorded in the Station Message Detail Recording to Premises record of the call when the SMDR-P feature is provided.

d. Deluxe Queuing

Deluxe Queuing permits station user to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queuing arrangements are available:

- A Ring-back Queue (RBQ), in which case the calling station goes on-hook and is called back when a facility becomes available.
- An Off-hook Queue (OHQ), in which case the calling station remains off-hook and is held in queue until a facility becomes available.

Calls held in queue beyond a predetermined time limit will be removed from the queue and be routed, at the option of the customer, via either subsequent route choices or to overflow tone.

e. Station Message Detail Recording to Premises (SMDR-P)

SMDR-P provides a record, on magnetic tape equipment located at the customer's premises, of calls originating from Centrex station lines to locations outside the same Centrex system. Facility groups may also be designated as requiring originating and/or terminating records.

SMDR-P provides a record, on magnetic tape equipment located at the customer's premises, of calls originating from Centrex station lines to locations outside the same Centrex system. Facility groups may also be designated as requiring originating and/or terminating records.

Account Codes are an SMDR-P option which permit a station user to dial a series of digits (code) which will appear in the SMDR-P record for that particular call. The Account Code can be used by the customer for account or project identification. Adding an Account Code to a call, where arrangements have been made to provide this capability, is at the discretion of the station user. Each customer's Account Codes must contain the same number of digits, not to exceed eight, and must not conflict with on-network code assignments.

f. Facilities Administration and Control

Facilities Administration and Control permits customer control of parameters which determine user calling privileges, i.e., Authorization Codes and associated FRL. In addition, FRL associated with station, tie lines and Authorization Codes may be collectively upgraded or downgraded by invoking a predetermined set of FRL's identified as Controlled Alternate FRL's. Manual control (override) to TOD Pattern Groups and activation or deactivation of queuing is also provided.

g. Traffic Data to Customer (Pollable)

Traffic Data to Customer (Pollable) permits the customer to poll the switching equipment on a daily or hourly basis to obtain certain traffic measurements. Equipment must be provided at the customer's premises to record the traffic data.

Facility Assurance Reports (FAR) provides the customer the ability to obtain automatic circuit assurance data via the same equipment utilized to record traffic data. FAR includes, for example, the identity of facilities not accessed or facilities constantly off-hook during a specified period of time.

h. Uniform Numbering/Automatic Alternate Routing (UN/AAR)

UN permits station users to place calls via tie lines using a uniform dialing plan. The user dials an access code followed by a seven-digit number which uniquely identifies a specific on-network station line. The number consists of a three-digit location code and a four-digit station line code. (When the same access code is followed by a ten-digit public network number, the call is routed via the ARS-D feature.) The feature provides the number translation and supervision necessary to route the call.

AAR provides automatic routing of on-network calls to alternate tie line routes when primary tie line routes are busy.

Automatic Overflow to DDD provides completion of on-network calls via the toll network when all primary and alternate tie line routes are busy.

MISSOURI Public Service Commission

29.5 CENTREX C.O. OPTIONAL FEATURES-(Continued)

Electronic Tandem Switching-(Continued)

B. Regulations-(Continued)

5. Station Message Detail Recording to Premises (SMDR-P)

- a. SMDR-P is not represented to be a provision of billing detail.
- b. Station message detail records will be provided on terminal equipment located at the customer's premises at the rates and charges specified in C. Rates, following.
- c. The customer must provide suitable space, environmental conditions, 110 volt AC power and magnetic tape for the equipment located at his premises.
- d. Processing of message detail information (SMDR) by the Telephone Company accounting center is not provided with this arrangement.
- e. The customer must designate all station lines in a No. 1 ESS customer group and/or selected facility groups on which SMDR-P originating and terminating record are to be provided.
- f. Additions or deletions of SMDR-P recording are provided by Telephone Company service orders.
- g. Where SMDR-P is provided, a detailed record may be made for each completed call. At the option of the customer, arrangements can be made to provide records of calls attempted as well as calls completed. Under certain exceptional conditions, with SMDR-P, calls may be processed without recording the call detail.
- h. SMDR-P includes the recording of Account Codes and Authorization Codes where these optional features are provided.
- i. Account Codes are available with the initial installation of SMDR-P at no additional charge.

6. Customer Administration and Control

a. Customer Administration and Control features are comprised of either or both the Facilities Administration and Control ETS optional feature and the Traffic Data to Customer (Pollable)/ FAR ETS optional feature.

b. Traffic Data to Customer (Pollable)/FAR may be provided to No. 1 ESS-Served Centrex systems which are equipped with the ETS features of ARS-D and FRL.

c. A business exchange line termination in each No. 1 ESS accessed is required. Filed Tariff rates and charges for a business exchange line apply for each such termination provided.

d. Facilities Administration and Control provides:

(1) Select ARS-D pattern groups and determine status.

(2) Activate/deactivate queuing and determine status.

(3) Change Authorization Codes and associated FRL's.

Traffic Data to Customer (Pollable) provides:

- FAR reports listing trunks not accessed and all trunks constantly off-hook in the previous two hours.

- Traffic data reports on trunk groups and queues.

MO. PUBLIC SERVICE COMM.

- (1) Applicable where facilities permit.
- (2) This feature can only be provided to serve customer stations (excluding the attendant) that are co-located in the same ESS Centrex as the WATS-simulated facilities.
- (3) Service Establishment Charge of \$286.00 applies.
- (4) Priority Queuing available with initial Complex Installation/Move Charge at no additional charge.
- (5) Customer may specify the length of time a call is held in queue (threshold time limit) before overflowing to the MTS Network or to overflow tone.
- (6) The Inhibit Inflow/Outflow optional features require separate control channel(s) between the central office and the control key at the customer premises, one per queue.
- (7) The text and announcement provided with the Recorded Announcement optional feature will be provided by the Telephone Company.
- (8) Applicable only when adding or removing WATS bands in queue.
- (9) Regulations covering the provisions of this service are applicable as provided in Section 4 of this Tariff.
- (10) Includes attendant's paging key and answer arrangement when required.
- (11) A Preferential Hunt list may have a maximum of 18 terminals included.
- (12) These rates are additive to Circle Hunt rates if the customer requires both.
- (13) The Complex Installation/Move Charge applies when initially equipping a Multiline Hunt group with at least one Preferential Hunt List. This charge also applies each time a Multiline Hunt group has at least one Preferential Hunt list addition, deletion or change.
- (14) Apply the appropriate Complex Installation/Move Charge per arrangement when changing or rearranging the Speed Calling arrangement.
- (15) The maximum number of 30-code arrangements is 128 per customer in No. 1 Electronic Switching Systems and 64 in No. 2 Electronic Switching Systems per customer.

MO. PUBLIC SERVICE COMM.

- (16) Each station equipped may have access to only one 30-code arrangement and only one six-code arrangement.
- (17) A Service Establishment Charge of \$193.50 applies.
- (18) In addition, apply rates and charges for a signal grade channel between the serving central office and the customer's premises.
- (19) Not applicable to those customers served by a No. 2 Electronic Switching System.
- (20) Obsolete-applicable to existing installations at existing locations for existing customers.
- (21) The Service and Equipment Charges for optional features apply only to changes or additions to existing systems.
- (22) See Sheets 57.01 and 57.02 for rules and regulations applicable to Remote Access Capability.
- (23) Refer to Paragraph 29.1.22, preceding, for application of rates.
- (24) Where available in #1A ESS central offices only.
- (25) Message Desk stations must be in the same Centrex group as the stations accessing the Message Desk. This feature also allows a Message Desk attendant to activate/deactivate an audible message waiting indication (stutter dial tone) for the Message Desk's client stations. Message Desk client stations must have at least one of the following: call forwarding-variable, call forwarding-busy line, call forwarding-don't answer, or night service-make busy arrangement, in order to forward calls to the Message Desk center. The rates and charges for these features apply in addition to the Simplified Message Desk Interface rates and charges. A 420-type data channel is also required for this service. Apply the appropriate rates and charges as specified in Section 2 of the Private Line Service Tariff. Customer-provided, modem, answering equipment, and Message Desk controller conforming to the technical specifications of the Company are also required. A Service Establishment charge of \$680.00 applies (USOC: SESVM).
- (26) A Service Establishment charge of \$1300.00 applies (USOC: SESCL).
- (27) A maximum of \$4.00 applies per station when installing any 3 or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions to an existing station line.
- (28) Available only to existing customer.

- (25) Message Desk stations must be in the same Centrex group as the stations accessing the Message Desk. This feature also allows a Message Desk attendant to activate/deactivate an audible message waiting indication (stutter dial tone) for the Message Desk's client stations. Message Desk client stations must have at least one of the following: call forwarding-variable, call forwarding-busy line, call forwarding-don't answer, or night service-make busy arrangement, in order to forward calls to the Message Desk center. The rates and charges for these features apply in addition to the Simplified Message Desk Interface rates and charges. A 420-type data channel is also required for this service. Apply the appropriate rates and charges as specified in Section 2 of the Private Line Service Tariff. Customer-provided, modem, answering equipment, and Message Desk controller conforming to the technical specifications of the Company are also required. A Service Establishment charge of \$680.00 applies (USOC: SESVM).
- (26) A Service Establishment charge of \$1300.00 applies (USOC: SESCL).
- (27) A maximum of \$4.00 applies per station line when installing any 3 or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions to an existing station line.

MAY 12 1993

Remote Access Capability

MO. PUBLIC SERVICE COMM.

Definitions of terms used in this Tariff:

Incoming Facility - The means by which the remote caller gains access to Centrex Services. This incoming facility may be a Centrex station or other tariffed exchange access line (e.g., 800 Service).

Outgoing Facility - This will always be a Centrex station line. The line class of service assigned to this station will determine what Centrex features/services can be accessed by the remote caller.

Remote Access Path - The combination of one incoming facility and one outgoing facility constitutes a remote access path.

A. Description:

Remote Access is an arrangement that will permit a remote caller access to the features and/or service facilities of the C.O. Centrex. Access is gained by dialing the number associated with the incoming facility. Optionally, the remote caller may be required to input a customer-specified security code. This code must be transmitted in the form of a Touch-Tone Signal.

The quality of transmission is not assured when this service is provided. If the customer requests additional equipment to improve the quality of transmission, and it is feasible, additional charges are applicable based on costs.

Liability for charges incurred as a result of the use of this service is as provided for in this and other applicable tariffs of the Telephone Company.

Remote Access Capability

B. Features:

MO. PUBLIC SERVICE COMM.

Standard features of this service include:

Remote Flash - Permits the calling party to generate a switchhook flash thereby allowing the user to activate Centrex system features.

Remote Retrial - Permits the calling party to originate additional calls through the system without disconnecting the redialing the associated incoming facility and authorization code.

In addition to the standard features shown above, the following feature is provided on an optional basis:

Security Code - Permits the customer to require that the remote caller input a three-digit code before gaining access to the Centrex. This number is specified by the customer and administered by the Telephone Company.

C. Rules and Regulations:

All security code assignments will be specified by the customer. The customer is responsible for notifying the Telephone Company of any required security code change or rearrangement. Charges for such change or rearrangement are as specified in Section 29.5, preceding.

In addition to charges for Remote Access Capability, appropriate Tariff rates and charges for the incoming and outgoing facilities also apply.

A Termination Charge based on the present worth of the amount of the remaining monthly payments will be applicable should the subscriber elect to disconnect this feature. In addition, the present worth of any installation and nonrecurring charges remaining that have been deferred must be paid in full.

MO. PUBLIC SERVICE COMM.

- (1) Service provision and billing will be coincident with the billing period(s) of the private facilities involved.
- (2) See Sheet 64 for additional regulations applicable to Station Message Detail Recording.
- (3) One or several facilities which are of the same type (WATS Band I, CCSA), serve the same terminal points or areas and have an individual access from the Centrex stations.
- (4) Applies in addition to the monthly, per message charge of Station Message Detail Recording.
- (5) Applies per order for initial installation or changes of equipped stations or Tie Lines.
- (6) No other announcement than standard Centrex announcement provided with this rate.
- (7) Stations in a Uniform Call Distribution group can receive individual calls only when individual station numbers have been assigned. Calls directed to an individual station number have access to the terminating hunt group features, where compatible.
- (8) In addition, apply tariff rates and charges for 101-Type channels, as required.
- (9) Make Busy Arrangement option may also be provided with Queuing.
- (10) In addition, apply tariff rates and charges for 101-Type channels, as required.
- (11) Customer to supply lamp and power source for lighting the lamp.
- (12) Limited to four announcements.
- (13) Applicable to each Fully Restricted Station arranged for queuing.
- (14) Applicable to each Centrex Station, except Fully Restricted Stations, arranged for queuing.
- (15) Service Establishment Charge of \$260.00 is applicable only at the time the switching equipment is arranged to provide Station Message Detail Recording on either the initial Tie Line, Other Common Carrier access line or Foreign Exchange Line Facilities for each customer and is applicable to each switching equipment so arranged. This monthly rate is applicable to other Common Carrier Access Lines (USOC: CMZ).
- (16) Not applicable to Centrex III stations.
- (17) Refer to Paragraph 29.1.22, preceding, for application of rates.
- (18) Only applies when changing to or from Touch-Tone Calling Service on existing Centrex station lines.
- (19) The Service and Equipment Charges for optional features apply only to changes or additions to existing systems.
- (20) Available only to existing customer.

CENTREX SERVICE-RATE STABILITY PLAN

29.5 CENTREX C.O. OPTIONAL FEATURES-(Continued)

Footnotes:

- (1) Service provision and billing will be coincident with the billing period(s) of the private facilities involved.
- (2) See Sheet 64 for additional regulations applicable to Station Message Detail Recording/Customer Dialed Account Recording.
- (3) One or several facilities which are of the same type (WATS Band I, CCSA), serve the same terminal points or areas and have an individual access from the Centrex stations.
- (4) Applies in addition to the monthly, per message charge of Station Message Detail Recording.
- (5) Applies per order for initial installation or changes of equipped stations or Tie Lines.
- (6) No other announcement than standard Centrex announcement may be provided with this rate.
- (7) Stations in a Uniform Call Distribution group can receive individual calls only when individual station numbers have been assigned. Calls directed to an individual station number will have access to the terminating hunt group features, where compatible.
- (8) In addition, apply tariff rates and charges for 101-Type channels, as required.
- (9) Make Busy Arrangement option may also be provided with Queuing.

MO. PUBLIC SERVICE COMM.

Additional Regulations - pertaining to the Station Message Detail Recording feature are the following:

- A. Available where the Telephone Company has the message billing process arranged to provide these features. Where tie lines, Other Common Carrier access lines or Foreign Exchange facilities are involved, all such call attempts, whether completed or not, will appear in the SMDR.
- B. Station Message Detail Recording feature is not represented to be a provision of billing detail.
- C. Station message details will be provided on magnetic tape. The number of tapes, tape density and number of tracks will be that used by the program and data processing system used by the accounting center furnishing the tape.
- D. Station message details will be provided on all facilities subscribed for by the customer, including Long Distance Message Telecommunications Service, but will not include intercom calls originated from Centrex Service. The customer may choose the services on which he would like Station Message Detail Recording, but he must take all facilities of the service group. For instance, he must take Station Message Detail Recording on all WATS lines, no matter what type or what band, if he requires Station Detail Recording on one WATS line. Station Message Detail Recording applies for every call placed over a designated facility type and should not be provided for anything less, either by percent sample or particular lines.
- E. Service establishment and billing will not necessarily be associated with the Centrex billing period.

WIRELESS 911 SERVICE

REC'D FEB 01 2000

(AT) 1. Description of Service

- 1.1 Wireless 911 Service (W 911) is a service offering which routes wireless calls to specific Public Safety Answering Points (PSAPs) and provides a Mobile Directory Number (MDN) for callback information.
- 1.2 W 911 accesses Wireless Automatic Location Information (WALI) (the cell site receiving the 911 call).
- 1.3 The W 911 customer must be either:
 - A. A municipality or other state or local government unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility to respond to telephone calls from the public for emergency police and fire service within the telephone central office areas arranged for 911 Service calling, or
 - B. A licensed wireless carrier with approval of the appropriate 911 agency.

2. Explanation of Terms

Wireless Administrative Site: A location responsible for administration of wireless end user records associated with one or more wireless switches. This location has the computer hardware and software necessary to create and transmit wireless end user information to the W 911 database.

Wireless Automatic Location Identification (WALI): A system that identifies cell site location and associated information for cellular 911 calls.

Wireless Automatic Number Identification (WANI): A system that (1) identifies the billing account for a call in other applications, but for 911 systems, identifies the calling party; and (2) can also be used as a call back number.

Wireless 911 Control Office: The LEC central office providing tandem switching capabilities for 911 service calls from all end offices. It controls the switching of MDN and pseudo-Automatic Number Identification (pANI) information to a PSAP and also provides the Selective Routing service feature, Speed Calling features, Call Transfer services and certain maintenance functions for each PSAP.

Wireless 911 DataBase: A system of manual procedures and computer programs used to create, store, and update the data required to provide the Selective Routing (SR) and location text information.

Section 31
1st Revised Sheet 1
Replacing Original Sheet 1

OBSOLETE SWITCHING SYSTEMS

31.1 GENERAL REGULATIONS

(RT)

31.1.1 This Tariff is applicable to obsolete Centrex C.U. by No. 101 ESS Switching Vehicles that continue to the Telephone Company.

RECEIVED
NOV 30 1984
MISSOURI
Public Service Commission

31.1.2 Centrex C.U. - The Telephone Company will determine and provide the necessary switching equipment and attendant positions required for exchange and other services furnished by the Telephone Company. The Telephone Company reserves the right to remove switching equipment furnished by the Telephone Company when, in its judgment, such equipment or facilities are no longer required or necessary to provide exchange or other services furnished by the Telephone Company. Provision of optional features is limited to the capabilities of the serving vehicle. See Paragraph 31.1.25 for additional charges applicable to Centrex C.U. Service.

31.1.3 Additional equipment or facilities required as a result of seasonal business requirements or for customer-owned facilities will be charged for on an individual-case basis.

31.1.4 The following terms as used in this Section apply to Centrex C.U. Service and shall mean:

Primary Centrex location - The customer's premises where the attendant equipment is located.

Secondary Centrex location - Customer's premises other than the location where the attendant equipment is located.

Centrex station line - a main station line of the Centrex System which has full in-out dialing privileges and access to or from the attendant.

Fully restricted station line - a main station line having intra-system dialing privileges only and having no access to or from the attendant. Fully restricted station lines may call any other station line of the system.

OBSOLETE SWITCHING SYSTEMS

31.1 GENERAL REGULATIONS

31.1.1 This Tariff is applicable to obsolete Centrex C.U. Service served by No. 101 ESS Switching Vehicles that continue to be maintained by the Telephone Company and Communications Service Package Premises Systems Custom Calling Services.

31.1.2 Centrex C.U. - The Telephone Company will determine and provide the necessary switching equipment and attendant positions required for exchange and other services furnished by the Telephone Company. The Telephone Company reserves the right to remove switching equipment furnished by the Telephone Company when, in its judgment, such equipment or facilities are no longer required or necessary to provide exchange or other services furnished by the Telephone Company. Provision of optional features is limited to the capabilities of the serving vehicle. See Paragraph 31.1.25 for additional charges applicable to Centrex C.U. Service.

31.1.3 Additional equipment or facilities required as a result of seasonal business requirements or for customer-owned facilities will be charged for on an individual-case basis.

31.1.4 The following terms as used in this Section apply to Centrex C.U. Service and shall mean:

Primary Centrex location - The customer's premises where the attendant equipment is located.

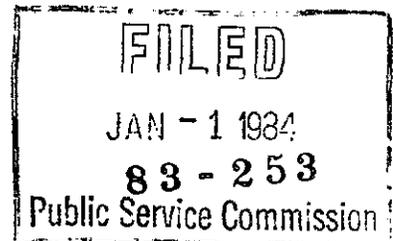

Secondary Centrex location - Customer's premises other than the location where the attendant equipment is located.

Centrex station line - a main station line of the Centrex System which has full in-out dialing privileges and access to or from the attendant.

Fully restricted station line - a main station line having intra-system dialing privileges only and having no access to or from the attendant. Fully restricted station lines may call any other station line of the system.

General Exchange Tariff

Section 31

Original Sheet 2

Missouri Public Service Commission

WIRELESS 911 SERVICE

REC'D FEB 01 2000

2. Explanation of Terms - (Continued)

Mobile Directory Number (MDN): A 10-digit telephone number that identifies the calling party and can be used as a call back number.

Pseudo-Automatic Number Identification (pANI): A number, consisting of the same number of digits as ANI, but is used in place of an ANI to convey a special meaning. The specific meaning assigned to the pANI is determined by agreements, as necessary, between the telephone system originating the call, intermediate telephone systems handling and routing the call, and the destination telephone system. The pANI identifies the location of the base station or cell site through which a mobile call originates.

Wireless Carrier: A private entity that provides telephone service to residential or business end users served by the provider's wireless switch.

Wireless Carrier Switch: A switch that provides wireless telephone service.

Wireless End User: An individual or organization authorized to use the telephone services provided by the wireless switch.

3. Rules and Regulations - In addition to the following rules and regulation, the Rules and Regulations in the 911 Emergency Number Services Section of the Company's General Exchange Service shall also apply.

3.1 Application for Service

Request for this service: (1) can only be initiated by a 911 customer or a wireless carrier with approval of the 911 customer; (2) must be provided to Southwestern Bell Telephone Company (SWBT) in writing; and (3) must identify service locations and arrangements.

PSAP CPE must be capable of accepting 10+ digits when the W 911 tandem office is digital and 20+ digits when the W 911 tandem is analog. If a PSAP's CPE doesn't meet these requirements, Southwestern Bell Telephone Company will still deliver calls and routing for wireless calls on an 8-digit basis.

31.1 GENERAL REGULATIONS-(Continued)

31.1.4 The following terms as used in this Section apply to Centrex, C.U. Service and shall mean:-(Continued)

Dormitory station line - a Centrex station line which terminates in a student's room in a dormitory of an accredited public or private educational institution that has Centrex Service for its administrative use.

Workable Station Lines - Centrex station lines available for customer use.

31.1.5 All operation at customer's premises is performed at the expense of the customer and must conform with the rules and regulations the Telephone Company may consider necessary to maintain a proper standard of service.

31.1.6 Other facilities, miscellaneous and supplemental equipment, requested by customers and not detrimental to this service or other services of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable section of this Tariff.

31.1.7 Sufficient floor space and the necessary power wiring, power outlets and commercial power for the operation of Centrex Service are furnished by the customer who assumes all responsibility for the safe condition of such floor space, wiring, outlets and power.

WIRELESS 911 SERVICE

REC'D FEB 01 2000

3. Rules and Regulations – In addition to the following rules and regulation, the Rules and Regulations in the 911 Emergency Number Services Section of the Company’s General Exchange Service shall also apply - (Continued)

3.2 Customer Obligations (1)(2)

- A. The 911 customer is responsible for coordinating with SWBT and the wireless carrier so that the wireless switch provides the MDN in the CPN field of the SS7 signaling and pANI in the CDN (called number) field according to the technical specifications established by SWBT. The wireless switch number information must be approved by SWBT prior to implementation to ensure that the service will function properly. W 911 Service will not function properly if MDN and pANI are not in the proper fields, if duplicate telephone numbers exist at the wireless switch, or if any telephone numbers assigned by the wireless carrier are inconsistent with the SWBT’s numbering plan.
- B. The 911 customer and the wireless carrier are responsible for coordinating with SWBT so that the wireless carrier creates, maintains, and forwards to SWBT current MDN and pANI data according to the format and procedures specified by SWBT provided SWBT is the database provider.
- C. The 911 customer and the wireless carrier are responsible for coordinating with SWBT so that the wireless carrier uses computer hardware and software for ongoing Wireless End User (WEU) record update programs and processes, that conform to the specifications outlined in the W 911 Technical Interface Standards.
- D. W 911 Service WEU’s information is confidential. The 911 customer agrees to use such information only for the purpose of responding to emergency calls.
- E. The WEU forfeits the privacy afforded by nonlisted and nonpublished service to the extent that the telephone number, the address and name associated with the originating station location are furnished to the PSAP and to the LEC. The WEU (published and nonpublished) consents to the storage and retention of WEU name, location, telephone number, and address in the data base and also consents to access to this information by the PSAP for the sole purpose of responding to an emergency call.
- F. The W 911 customer has the responsibility for reporting all errors, defects and malfunctions that they are aware of to SWBT in a timely manner provided SWBT is the service provider.

(1) Customer obligations described are for situations where the E 911 customer is also the W 911 customer. In situations where a wireless carrier is the W 911 customer, the W 911 customer obligations described in this section are the direct responsibility of the wireless carrier.

(2) SWBT will participate in all coordination efforts as appropriate.

31.1 GENERAL REGULATIONS-(Continued)

- 31.1.8 One primary directory listing will be furnished without charge with each Centrex Service in accordance with the regulations set forth in Section 6 of this Tariff.
- 31.1.9 The primary location of a Centrex customer served by switching equipment located on customer premises must be in the same serving office area from which service is furnished.
- 31.1.10 A Centrex secondary location is furnished the same calling scope as the primary location. In addition, the switching equipment must be located in the same serving office area as the customer's secondary location.
- 31.1.11 Service at a secondary location may be provided with use of either switching equipment located on Telephone Company or customer's premises, irrespective of the method of service provided at the primary or other secondary locations within the Centrex System. [NOTE: Private Line Service Tariff charges are applicable to private lines (tie lines) between a Centrex C.U. premises vehicle and any other switching vehicle, including other Centrex C.U. or Centrex C.O. switching vehicles of the same Centrex System. In addition, Universal Tie Line Terminal charges are applicable.]
- 31.1.12 Service furnished at secondary locations must be of the same grade and class of service as that furnished at the primary location.
- 31.1.13 Where a Centrex C.O. secondary location is associated with a Centrex C.U. primary of the same Centrex System, rates applicable to the Centrex C.O. secondary location shall be equivalent to those for secondary location--located in same serving office area as primary location.
- 31.1.14 A secondary location of a Centrex System will be furnished only if located in the same exchange as the primary location or zones of a metropolitan area, except as provided for by Optional and Extended Area Service arrangements as offered in this Tariff.
- 31.1.15 Centrex C.U. secondary locations are subject to Private Line Service Tariff charges and exchange trunking charges as specified in Paragraph 31.1.25 of this Tariff.

3. Rules and Regulations – In addition to the following rules and regulation, the Rules and Regulations in the 911 Emergency Number Services Section of the Company’s General Exchange Service shall also apply - (Continued)

3.2 Customer Obligations - (Continued) (1)(2)

G. Cancellation of the service in whole or in part by the W 911 customer prior to establishment thereof, will require payment to SWBT of an amount equal to the cost of engineering, manufacturers’ billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred by SWBT up to the time of cancellation resulting from the W 911 customer’s order for service.

3.3 Liabilities

- A. SWBT’s entire liability to any person for interruption or failure of W 911 Service shall be limited by the terms set forth in this section and other sections of this tariff. SWBT or its officers or employees, may not be held liable for any claim, damage, or loss arising from the provision of W 911 Service unless it is proven that the act or omission proximately causing the claim, damage, or loss constitutes gross negligence, recklessness, or intentional misconduct on the part of SWBT.
- B. W 911 Service is provided solely for the benefit of the W 911 customer; the provision of such service shall not be interpreted, construed or regarded as being for the benefit of, or creating any LEC obligation toward, or any right of action on behalf of, any third person or other legal entity.
- C. To the extent allowed by law, the W 911 customer agrees to release, indemnify, defend and hold harmless SWBT from any and all loss, claims, demands, suits or other action, or any liability whatsoever, to any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the W 911 customer or others.

(1) Customer obligations described are for situations where the E 911 customer is also the W 911 customer. In situations where a wireless carrier is the W 911 customer, the W 911 customer obligations described in this section are the direct responsibility of the wireless carrier.

OBSOLETE SWITCHING SYSTEMS

31.1 GENERAL REGULATIONS-(Continued)

- 31.1.16 The standard or optional features of a Centrex I C.U. and Centrex II C.U. System shall not be combined so as to provide any features of the higher grade system at the rate of the lower grade system.
- 31.1.17 The assignment of telephone numbers for Centrex Systems shall be in accordance with Section 17 of this Tariff.
- 31.1.18 When a customer requests special equipment or modification of standard equipment, it will be furnished whenever possible if not detrimental to any of the services or equipment of the Telephone Company. Such special equipment or modification of standard equipment will be furnished at additional charges.
- 31.1.19 Private line charges as specified in Section 2 of the Private Line Service Tariff apply to station lines extending outside the same building or beyond the same premises at both primary and secondary locations. Such station lines must be provided from the location from which they are measured.

JUN 21 1983 #1
and R.S.

Customer locations meeting the minimum station line requirements for secondary location rate treatment, but served by switching equipment serving another primary or secondary location, may be rated as secondary locations in lieu of mileage charges as specified above. Such locations must be in the same serving office area as the related primary or secondary and must be served by switching equipment located on Telephone Company premises.

Urban mileage charges for circuits extending beyond the base rate area apply at a primary location as specified in Section 12 of this Tariff. Such charges do not apply to secondary locations.

- 31.1.20 Mileage charges do not apply to Centrex dormitory station lines that are located in the same serving office area that serves the educational institution.

No minimum number of dormitory station lines is required to establish Centrex dormitory service, except that all occupied dormitory rooms in a dormitory served by Centrex dormitory service must be equipped with a Centrex dormitory station line. Charges for Centrex dormitory station lines do not apply to the minimum charge, per system.

- 31.1.21 When switching equipment is located on the customer's premises, mileage charges applicable to secondary locations are measured from the primary location.

WIRELESS 911 SERVICE

Missouri Public Service Commission

REC'D FEB 01 2000

4. Wireless 911 Service Rates and Charges

4.1 W 911 Service

	Monthly Rate	Nonrecurring Service Charge	USOC
A. W 911 Service with Selective Routing Charge per pANI(1)(2)(3)	\$ 24.00	\$30.00	W9A1X
B. Selective Routing Charge per pANI(1)(2)	\$ 12.00	\$10.00	W9S1X
C. Automatic Location Identification Charge per pANI (3)	\$ 12.00	\$20.00	W9L1X

4.2 Database Management System

The rates and charges in this section will equal the Database Management System monthly rate and nonrecurring charge in Paragraph 28.7.4.B (Database Management System) in Section 28 (Universal Emergency Number Services (911))of the General Exchange Tariff. These rates and charges relate to the administration and storage of W 911 Service pANI records used for routing and associated location text. The monthly rate will be per 10 records per W 911 customer.

A nonrecurring charge equal to the nonrecurring charge to establish an administrative site in Paragraph 28.7.4.B (Database Management System) in Section 28 (Universal Emergency Number Service (911))of the General Exchange Tariff applies at the time an administrative site is first established. This charge applies when procedures are established enabling the administrative site to create and update records.

- (1) There will be a trunk needed between the Mobile Switching Center (MSC) and the 911 tandem. The wireless carrier, in cooperation with the appropriate 911 agency, will purchase that element out of the Wireless Carrier Interconnection Service tariff or its existing interconnection agreement.
- (2) When the 911 agency involved also uses SWBT as its 911 database and network provider, the calls and data will be sent over the existing tandem to PSAP trunks and ALI circuits. If the 911 agency uses a different network provider or database provider, the tandem to PSAP trunks and/or ALI circuits must be provisioned separately.
- (3) When SWBT is the Wireless 911 Service provider, both W 911 Service with Selective Routing and Automatic Location Identification rates and charges, paragraphs 4.1.A and 4.1.C will be required. The Selective Routing rates and charges in paragraph 4.1.B only apply if an alternative Wireless 911 Service provider is utilized.

OBSOLETE SWITCHING SYSTEMS

31.1 GENERAL REGULATIONS-(Continued)

31.1.26 Centrex C.U. - The Exchange Access and Intercommunication portion of main station line charges are not offered separately. The rates and charges specified herein for main station lines provide for a main station line component. The main station line consists of all facilities, including intercommunication, from the Centrex system dial switching equipment to the demarcation point for connection to the premises wire.

The rates and charges specified herein for fully restricted main station lines provide for a fully restricted main station line component. The fully restricted main station line consists of all facilities, including intercommunication, from the Centrex system dial switching equipment to the demarcation point for connection to the premises wire.

31.1.27 Centrex I and Centrex II Service served by switching equipment located on the customer's premises is obsolete to existing installations at existing locations.

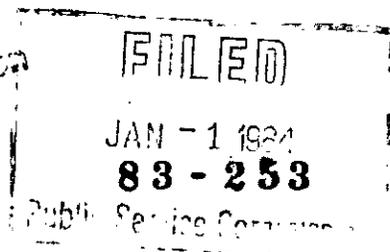

- Except that, growth is permitted only to the capacity of the existing vehicle.
- Except that, with a transfer of contract, growth will be permitted only to the capacity of the existing vehicle.

Where the primary location is served by switching equipment located on customer premises, system growth in the form of additional secondary locations (C.O. or C.U.) is not permitted.

This obsolescence is applicable to each primary and each secondary location.

Missouri Public Service Commission

REC'D FEB 01 2000

5. TERM PRICING PLAN

5.1 General

- A. Wireless 911 Service Term Pricing Plan (W911-TPP) provides the customer with rate stabilization and discounted tariff rates. The W911-TPP provides for either a one or three year service period (Initial Service Period) for rate stabilization.
- B. W911-TPP monthly rates will be exempt from Telephone Company initiated rate increases throughout the selected service period. Should the Telephone Company increase its rates during the W911-TPP period, the customer would continue to pay the rates in effect at the time the customer elected to establish service under W911-TPP.
- C. Decreases in W911-TPP monthly recurring tariff rates will be passed on to customers who participate in a W911-TPP.

5.2 The monthly charge per pANI is available under W911-TPP.

5.3 Terms and Conditions

- A. The customer must specify the length of the Initial Service Period at the time the service is ordered.

Changes to Pricing Plans

- B. At any time, the customer may request existing W 911 provided on a monthly rate basis to be converted to a W911-TPP.
- C. Prior to the expiration of the Initial Service Period or Extended Service Period described in 5.5 (Renewal), the customer may convert existing W911-TPP services to a new W911-TPP initial Service Period without incurring termination charges provided the new Initial Service Period is equal to or greater than the original Initial Service Period.

Example: A customer with an existing one year W911-TPP could convert to a new one or three year W911-TPP at any time without incurring termination charges.

Example: A customer with an existing three year W911-TPP requests to convert to a one year W911-TPP. This request would be treated as a discontinuance of the existing three year W911-TPP and termination charges would apply.

- D. If a customer requests existing W911-TPP service to be converted to a monthly rate basis at any time prior to the expiration of the Initial Service Period or Extended Service Period, the request will be treated as a discontinuance of service and termination charges will apply.

OBSOLETE SWITCHING SYSTEMS

31.3 CENTREX C.U. SERVICE - STANDARD FEATURES

31.3.1 Centrex Service served by switching equipment located on customer premises (C.U.).

Centrex I includes the following standard features(1)(2)(3)(7): attendant positions, direct outward calling, direct inward calling, station-to-station calling, station hunting, call transfer-attendant, restriction from outgoing calls, station restriction(4), reserve power, busy verification, night service, identified outward calling and call interception.

Centrex II(5)(6)(7) - In addition to all standard features provided with Centrex I C.U. Service, the following additional standard features are provided: call transfer-individual, consultation hold, add-on, trunk answer from any station and Touch-Tone Calling Service.

CANCELLED

JUN 8 1983

BY 2 ml R.S. #1

Public Service Commission

- (1) Station hunting is limited to not more than ten station lines with each hunting arrangement. Requests for service above ten consecutive station lines may be provided on a Special Service Arrangement Request basis.
- (2) The reserve power feature provides an alternate independent source of power to maintain telephone service (excluding certain attendant supervisory functions and key telephone arrangements) during a commercial power failure. The Telephone Company agrees to make every reasonable effort to assure continued operation until such time as commercial power is restored.
- (3) Busy verification will be provided subject to the operating limitations of the equipment or facilities selected by the Telephone Company and provided no unusual expense is involved.
- (4) Does not include toll restriction.
- (5) Call transfer-individual, consultation hold and add-on will function only on an incoming call from the telecommunications network.
- (6) Add-on provided for a maximum of one additional station line being added at one time to an existing incoming call from the telecommunications network.
- (7) See Paragraph 31.1.25 for additional charges applicable to Centrex C.U. Service.

Missouri Public Service Commission

REC'D FEB 01 2000

5. TERM PRICING PLAN - (Continued)

5.5 Renewal

- A. The customer may elect to renew the W911-TPP Initial Service Period for one additional 12 month service period (Extended Service Period) at the rates under the original W911-TPP Initial Service Period.
- B. The customer must provide the Telephone Company with a written notice of intent to renew an existing W911-TPP Initial Period no later than 90 days prior to the expiration of the Initial Service Period.
- C. If the customer elects not to renew the W911-TPP or does not notify the Telephone Company of its intent to renew, the customer's service will automatically be billed under the tariffed monthly rates in effect at the time the W911-TPP Initial Service Period expires.

5.6 Moves to New Location

- A. A customer with an existing W911-TPP service may move the existing service to a new location without incurring termination charges provided all of the following conditions are met:
 - the new service is provided solely by the Telephone Company;
 - the new location is within the same LATA;
 - the customer's request for disconnection of the existing and the request for new service are received at the same time;
 - the due date of the new connect order must be within 30 days of the due date of the disconnect order;

Missouri Public Service Commission

REC'D FEB 01 2000

5. TERM PRICING PLAN - (Continued)

5.6 Moves to New Location - (Continued)

- B. In the event an order to move service provided under W911-TPP does not meet one or more of the conditions above, it will be treated as a discontinuance of the existing service and the establishment of a new service. All termination charges will apply.
- C. Except as noted above, the monthly rates for the new service will be those in effect at the time the service is changed. All nonrecurring charges associated with the establishment of the new service will apply.

6. TERM PRICING PLAN - RATE APPLICATIONS

6.1 Nonrecurring Charges

- A. The nonrecurring service charges as described in 7.1 will apply for new services ordered under W911-TPP.
- B. If the customer chooses to convert an existing service provided on a W911-TPP to a monthly rate basis no nonrecurring charges will apply. However, W911-TPP termination charges may apply.

6.2 Termination Charges

- A. Customers requesting to discontinue services provided under a W911-TPP, prior to the expiration of the Initial Service Period or Extended Service Period will incur termination charges. Payment of the termination charge does not release the customer from other previous amounts owed to SWBT.

Original Sheet 10

WIRELESS 911 SERVICE

Missouri Public Service Commission

REC'D FEB 01 2000

6. TERM PRICING PLAN - RATE APPLICATIONS - (Continued)

6.2 Termination Charges - (Continued)

B. The termination charge for the Initial Service Period shall be the lesser of:

- The difference between the Initial Service Period rates and charges for the completed months of the initial service term at the time of termination and the rates and charges for the next lower service term(1) actually completed plus interest charges based on approved costs of money in effect at the time of termination; or
- The present value of monthly payments remaining on the service term.

Example: If the customer completes 26 months of a 36 month (3 year) service term, the first calculation of a termination charge will equal the difference between 36 months of rates and charges at the 3 year service term and 26 months of rates and charges at the 1 year service term (which is the next lower service term actually completed), plus interest at the approved cost of money rate in effect at the time of termination. The second calculation will be the sum of the 10 remaining monthly payments of the 3 year service term. The termination charge is the lesser of the two calculations.

C. The termination charges for the Extended Service Period shall be the lesser of:

- The difference between the extended service period rates and the month-to-month rates for the months actually completed plus interest charges based on approved cost of money in effect at the time of termination; or
- The present value of monthly payments remaining on the extended service term.

D. If special construction was applied to the service being terminated, any termination charges associated with the special construction will also apply.

(1) If the service is terminated within the first 12 months the calculation is based on month-to-month rates and charges.

7. TERM PRICING PLAN – Rates and Charges

7.1 W 911 Service

	<u>Monthly Rate</u>	<u>Nonrecurring Service Charge</u>	<u>USOC</u>
A. W 911 Service with Selective Routing Charge per pANI (1)(2)(3)			
One Year Contract	\$ 21.00	\$10.00	W9A1X
Three Year Contract	\$ 19.00	N/A	W9A1X
B. Selective Routing Charge per pANI (1)(2)			
One Year Contract	\$ 8.50	\$ 5.00	W9S1X
Three Year Contract	\$ 5.00	N/A	W9S1X
C. Wireless Automatic Location Identification Charge per pANI (3)			
One Year Contract	\$ 10.00	\$10.00	W9L1X
Three Year Contract	\$ 6.00	N/A	W9L1X

- (1) There will be a trunk needed between the MSC and the 911 tandem. The wireless carrier, in cooperation with the appropriate 911 agency, will purchase that element out of the Wireless Carrier Interconnection Service tariff or its existing interconnection agreement.
- (2) When the 911 agency involved also uses SWBT as its 911 database and network provider, the calls and data will be sent over the existing tandem to PSAP trunks and ALI circuits. If the 911 agency uses a different network provider or database provider, the tandem to PSAP trunks and/or ALI circuits must be provisioned separately.
- (3) When SWBT is the Wireless 911 Service provider, both W 911 Service with Selective Routing and Automatic Location Identification rates and charges, paragraphs 7.1.A and 7.1.C will be required. The Selective Routing rates and charges in paragraph 7.1.B only apply if an alternate Wireless 911 Service provider is utilized.

31.5 CENTREX C.U. SERVICE - OFF-PREMISES STATIONS LINES - REGULATIONS MISSOURI
Public Service Commission

- 31.5.1 Off-premises station lines are furnished subject to the availability of facilities and provided no unusual expense is involved.
- 31.5.2 An off-premises Centrex station line will be furnished the same service as a primary Centrex station line where equipment and facilities permit. When additional equipment or facilities are required, they may be provided under applicable sections of this and other Tariffs or on a Special Service Arrangement Request basis.
- 31.5.3 Off-premises station lines may be located on other premises of the customer or on the premises of someone other than the customer. The private line service charge treatment given in Section 2 of the Private Line Service Tariff applies in connection with such station lines.
- 31.5.4 With respect to the use of off-premises station lines, the following regulations apply:

Off-premises stations located on other premises (except different premises in the same building where standard operation and transmission can be obtained on all connections) are furnished for communication with other stations directly connected to the Centrex System, trunks, tie lines or other off-premises station lines, only subject to the condition that in some cases standard operation and transmission may not be obtained when such connections are established.

Off-premises stations located on a premises other than that of the customer are furnished with the understanding that such stations are provided only if some separate class of exchange service is also furnished at the off-premises location.

31.7 CENTREX C.U. SERVICE - TERMINATION CHARGES AND CONTRACT TERM (Continued)

31.7.1 (Continued)

D. Contract Conditions

1. Termination charges will apply for Centrex Service if discontinued or transferred to another address before the expiration of the initial contract period. Termination charges as set forth above shall be reduced by 1/36 for each month the service is retained in service at the same location.
2. Initial termination contract amounts are based on the one-year forecast of the workable station line capacity. Separate termination contracts are required as additional working station lines are connected and when the workable station line capacity exceeds the range of the present contract schedule. These termination contracts will be executed for the difference between the existing termination contract amount and the amount specified by the new contract schedule. Contracts will run concurrently until expired or terminated.
3. Termination charges will apply when a Centrex System is reduced to the extent that the workable station line capacity falls into the next lower range of the contract schedule and equipment is removed.
4. When facilities directly associated with the provision of Centrex Service are disconnected, which are covered by a Contract Term, applicable charges are determined on a last-in first-out basis.

Where the applicant cancels an application for service prior to start of engineering, manufacturing or installation work, no charge applies.

When engineering, manufacturing or installation of facilities has been started prior to the cancellation, the charge specified below, whichever is lower, applies.

A charge equal to the estimated costs incurred in connection with such engineering, manufacturing or installation work, less estimated net salvage.

The charge for the minimum period of the service ordered by the customer as provided in this Tariff plus the full amount of any termination charges applicable.

- 6. The move of attendant consoles from the current primary location to a secondary location, thus making that secondary a new primary location by definition, does not constitute a termination of service. Charges for this type of move will be based upon cost.

31.8 CENTREX C.U. SERVICE-(Continued)

31.8.1 Centrex C.U. Optional Features-(Continued)

Footnotes:

- (1) A three-year termination contract is applicable in the amount of \$5,000.00 per position.
- (2) A complex Installation/Move Charge of \$50.00 per system will apply regardless of the number of station lines involved when installed subsequent to the initial installation of the system.
- (3) This is an attendant-controlled conference arrangement. This conferencing equipment provides for the simultaneous connection of several Centrex station lines on the same premises. Connection of lines, other than as stated above, is subject to the limitations of equipment; and where such equipment can be connected to Telephone Company Exchange Service, Private Line Service or Long Distance Message Telecommunications Service, the responsibility of the Telephone Company shall be limited to the furnishing of facilities suitable for Exchange Service, Private Line Service or Long Distance Message Telecommunications Service and to the maintenance and operation of such facilities in a manner proper for such services.
- (4) A Complex Installation/Move Charge of \$200.00 per installation will apply regardless of the number of lamps provided when installed subsequent to the initial installation and when no other switchboard or dial equipment additions are being made at the same time.
- (5) This feature is available to all station lines in a system and is provided only on a system basis. One Complex Installation/Move Charge is applicable per system.
- (6) This feature will function only on incoming calls from the Telecommunications Network.
- (7) When Call Hold, Call Pickup and Call Forwarding-Variable are installed simultaneously, a Complex Installation/Move Charge of \$1.00 per main station line equipped will apply in lieu of the Complex Installation/Move Charge above.

OBSOLETE SWITCHING SYSTEMS

(CP) 31.9 COMMUNICATIONS SERVICE PACKAGE PREMISES SYSTEMS

31.9.1 General Regulations

- A. This Tariff is applicable to Obsolete Communications Service Package Premises Systems served by #101ESS switching vehicles that continue to be maintained by the Telephone Company.
- B. Series 100, 200 and 300 Communications Service Package Premises Systems- the Telephone Company will determine and provide.

The attendant positions, as required for exchange and other services, will be determined by the Telephone Company. When customers request additional attendant positions beyond those required or determined by the Telephone Company, charges for such positions will be applied as set forth in accordance with the provisions of the General Exchange Tariff. The Telephone Company reserves the right to remove switching equipment, attendant positions and other facilities furnished by the Telephone Company when, in its judgment, such equipment or facilities are no longer required or necessary to provide exchange or other services furnished by the Telephone Company. Provision of optional features is limited to the capabilities of the serving vehicle. See Paragraph 31.9.6 for additional charges applicable to Communications Service Package Premises Systems.

- C. Additional equipment or facilities required as a result of seasonal business requirements or for customer-owned facilities will be charged for on an individual-case basis.
- D. The following terms, as used in this Section shall mean:

Primary Location - The customer's premises where the attendant equipment is located and where calls to the main listing are completed.

Secondary Location - The customer's premises other than the location where the attendant equipment is located.

Workable Stations - Those station lines available for customer use.

- E. All operating at customers' premises is performed at the expense of the customer and must conform to whatever rules and regulations the Company may consider necessary to maintain a proper standard of service.
- F. Other facilities, miscellaneous and supplemental equipment requested by customers and not detrimental to this service or other services of the Telephone Company, will be furnished in accordance with regulations and at the rates specified in the applicable section of this tariff.

OBSOLETE SWITCHING SYSTEMS

(CP) 31.9 COMMUNICATIONS SERVICE PACKAGE PREMISES SYSTEMS-(Continued)

31.9.1 General Regulations-(Continued)

- G. The necessary floor space, power wiring, power outlets and power for the operation of Private Branch Exchange Service are furnished by the customer, who assumes all responsibility for the safe condition of such floor space, wiring, outlets and power.
- H. The primary location of a customer served by switching equipment located on his premises must be in the central office area from which his listed telephone number is furnished.
- I. Service furnished at secondary locations must be of the same grade and class of service as that furnished at the primary location.
- J. A secondary Communications Service Package Premises System location is furnished the same calling scope as that furnished at the primary location.
- K. Service furnished at a secondary location will be provided under the same provisions of service as that furnished at the primary location.
- L. Secondary locations of a Communications Service Package Premises System will be furnished only if located in the same exchange as the primary location or within exchanges or zones of the Metropolitan Area.
- M. When a customer requests special equipment or modifications of standard equipment, it will be furnished whenever possible if not detrimental to any of the services or equipment of the Telephone Company. Such special equipment or modification of standard equipment will be furnished at additional charges.
- N. Mileage charges as specified in the Private Line Service Tariff apply to station lines extending outside the same building or beyond the same premises at both primary and secondary locations. Urban mileage charges for facilities extending beyond the base rate area apply at a primary location as specified in the Private Line Service Tariff. Such charges do not apply to secondary locations.
- O. Universal Tie Line Terminal rates shall apply for each tie line terminating in a Communications Service Package Premises System (primary or secondary).
- P. Switched Service Network Terminal rates shall apply for each SCAN- and CCSA-type access line terminating in a Communications Service Package Premises System.
- Q. Directory listings are furnished under the provision of the applicable sections of this Tariff.

- (1) Establishes the initial repertory.
- (2) A Service Charge of \$10.00 applies for each group of ten Speed Calling Numbers or fraction thereof that are simultaneously added, removed or changed subsequent to the initial installation of the Speed Calling feature.
- (3) These features are provided as a group per station line equipped; however, a station line must be equipped for Call Hold before it can be equipped for Call Pickup. All station lines in that same group are automatically equipped with the same features; therefore, the above rate and Installation Charge will apply to each station line in the "Dial Pickup Group."
- (4) When Call Hold, Call Pickup and Call Forwarding-Variable are installed simultaneously, a Complex Installation/Move Charge of \$1.00 per main station line equipped will apply in lieu of the above Complex Installation/Move Charges.

RADIO COMMON CARRIERS

32.1 REGULATIONS

32.1.1 Definitions

CANCELLED

DEC 1 1990

BY LRB/STH MISSOURI
Public Service Commission

Actual Cost - Denotes all costs charged against a specific case of special construction, including any appropriate taxes.

Annual Underutilization Liability - Denotes a per-unit amount which may be billed annually if fewer services are in use utilizing specially constructed facilities at filed tariff rates than were originally specially constructed.

Authorized Services - Those domestic public land mobile radio communications services which the carrier may now or hereafter lawfully provide on an interconnected basis.

Carrier's System - The communications system of the carrier used to furnish public land mobile radio services.

Class 5 Central Office - The central office trunking entity where telephone loops are terminated for purposes of interconnection to each other and to the network.

Company's System - The communications network of the Company and its connecting companies.

Connecting Circuit - The facility and associated service arrangement used to connect the carrier's system with the Company's system for the purpose of interchange local and intraLATA traffic.

Dial Access Line - This is equivalent to a regular business exchange service line between the Company's serving (Class 5) central office in the exchange of interconnection and the carrier's control point. The exchange of interconnection is normally that exchange within which the control point of the carrier's land radio station is located.

Direct Inward Dial (DID) - An operational feature that provides direct dial access to mobile radio and paging terminals by transmitting address signaling from the serving C.O. to the terminal. This is generally referred to as "outpulsing."

Estimated Cost - Denotes all estimated costs that will be incurred in providing a specific case of special construction, including any appropriate taxes.

JAN - 1 1984
83-253
Public Service Commission

Facilities - Denotes any cable, poles, conduit, microwave or carrier equipment, wire center distribution frames, central office switching equipment, etc., utilized to provide services offered under the tariffs referenced by this Tariff.

32.1 REGULATIONS--(Continued)

32.1.1 Definitions--(Continued)

Installed Cost - Denotes the total investment (estimated or actual) required by the Telephone Company to provide specially constructed facilities.

Maximum Termination Liability - Denotes the maximum amount which may be billed if all services using specially constructed facilities are terminated prior to the expiration of the Maximum Termination Liability Period.

Maximum Termination Liability Period - Denotes the length of time for which a Termination Charge may apply if all services using specially constructed facilities are terminated.

Net Salvage - Denotes the estimated scrap, sale or trade-in value, less the estimated cost of removal. Cost of removal includes the costs of demolishing, tearing down or otherwise disposing of the material and any other applicable costs. Since the cost of removal may exceed salvage value, net salvage may be negative.

Nonrecoverable Cost - Denotes the cost of specially constructed facilities for which the Telephone Company has no foreseeable use should the service be terminated.

Normal Cost - Denotes the estimated cost to provide services using normal construction.

Normal Construction - Denotes all facilities the Telephone Company would normally use to provide service in the absence of a request for special construction.

Permanent Facilities - Denotes facilities providing service for one month or more.

Point of Connection - The point of connection between the connecting circuits provided by the Company and the facilities of the carrier.

Recoverable Cost - Denotes the cost of the specially constructed facilities for which the Telephone Company has a foreseeable reuse, either in-place or elsewhere, should the service be terminated.

Public Service Commission
MISSOURI

32.1.1 Definitions-(Continued)

Reliable Service Area - The reliable service area of the carrier's base station as described in Section 22.504 of the Federal Communications Commission's Rules.

Termination Charge - Denotes the portion of the Maximum Termination Liability that is applied as a nonrecurring charge when all services are discontinued prior to the expiration of the specified liability period.

32.1.2 Interchange of Traffic

At the carrier's request, the Company and carrier will physically connect their facilities and interchange traffic originating or terminating on carrier's system in connection with carrier's authorized services. Such interconnection shall be in accordance with the service, operating and facility arrangements set forth hereinafter.

Interchanged local and intraLATA traffic shall be handled only over connecting circuits provided, except in the case of occasional emergency traffic of carrier's subscribers.

Where the state franchised area or state authorization of carrier differs or is modified after the effective date of this Tariff so as to differ from its reliable service area, the terms and conditions of interconnection may be modified to recognize the extent of such franchise or authorization.

32.1.3 Facilities and Arrangements

- A. Subject to the availability of facilities and the reasonable requirements of the Company for its telecommunications services, Company will provide to carrier, upon request, those facilities and arrangements described herein which are necessary to establish the physical connection and interchange of local and intraLATA traffic provided for herein and other intraLATA facilities carrier may require for operation of its system such as remote transmitter and receiver links. The facilities and arrangement, the location(s) of such connection(s), including maintenance and operating points of demarcation and the additional facilities provided for use in carrier's system are set forth in Paragraphs 32.1.20, A. and B.

RADIO COMMON CARRIERS

32.1 REGULATIONS-(Continued)

32.1.3 Facilities and Arrangements-(Continued)

- B. In interchanging two-way mobile traffic, Company will extend and connect its facilities with those of carrier between:
 - 1. A Class 5 central office of any telephone exchange within a LATA whose rate center is located in carrier's reliable service area, and
 - 2. The message center(s) or control point(s) in or serving carrier's reliable service area in the same LATA.

- C. In interchanging one-way signaling traffic, Company will extend and connect its facilities with those of carrier between:
 - 1. A Class 5 central office of any telephone exchange within a LATA which a paging device is serviced by carrier's integrated single or multi-transmitter extended area paging system, and
 - 2. The control point(s) in or serving carrier's extended area system in the same LATA.

- D. Any facility or arrangement provided hereunder shall be of the type normally utilized in the furnishing of the Company's intraLATA telecommunications services including, but not limited to: effective two-wire and four-wire voice grade and voice grade data facilities, wire pair facilities to the extent offered under tariff to other carrier, central office outpulsing facilities and exchange access lines or trunks from the central office serving carrier to carrier's premises.

- E. Central office facilities and blocks of telephone numbers provided by Company for carrier's use shall be assigned by Company and may be changed to meet the reasonable operating and service requirements of Company. Carrier shall not acquire any proprietary interest in numbers assigned for its use. Where such changes are to be made, Company shall advise carrier in writing not less than 60 days in advance and will coordinate the changes with carrier.

- F. Central office codes used with telephone numbers furnished to carrier may be used by Company in providing its subscriber services and for other purposes.

RADIO COMMON CARRIERS

32.1 REGULATIONS-(Continued)

32.1.18 Trouble Reporting, Installation and Testing Procedures

- A. In order to facilitate trouble reporting and to coordinate the repair of private line circuits (e.g., remote transmitter links) provided to the carrier by the Company, the Company will designate a Plant Control Office (PCO) for such private line circuits.
- B. Where new private line circuits are installed, the PCO will ensure that continuity has been established and that appropriate transmission measurements have been made before advising the carrier that the new circuit is ready for service.
- C. In locations where requested by the carrier, the Company will furnish a direct seven-digit trouble reporting number for the designated PCO. This number will give the carrier access to the location where its facility records are normally located and where current status reports on any trouble reports are readily available. Alternative out-of-hours procedures will be established as required to ensure access by the carrier to a location which is covered and has the authority to initiate corrective action.
- D. To minimize outages on Company-provided exchange access and private lines, it is important that effective trouble reporting and clearing procedures be established. To that end:
 - 1. When the carrier reports a trouble condition, it will first have used its best efforts to isolate the trouble to the Company's facilities. It will also advise the Company of the usage sensitivity of the circuit and the need for expedited clearance.
 - 2. In cases where the carrier indicates essential or important subscriber usage on lines provided by Company, the Company will attempt to expedite the clearance in a manner similar to its local procedures used to restore similar Company essential services.
 - 3. Company and carrier will make cooperative tests, as appropriate, to eliminate the necessity for either party to dispatch repair forces needlessly to distant unattended locations merely to isolate the trouble.

(CT) 32.1.19 Customer Owned Equipment Trouble Isolation Charges

MISSOURI
Public Service Commission

A. Carrier obtains from the Company intraLATA access lines terminating in RCC equipment and intraLATA private line circuits connecting its control terminals to its transmitter/receiver isolation of each carrier's equipment and facilities for testing purposes. Both Company and carrier believe that because each carrier is a responsible, regulated communications common carrier, each should be responsible for isolating and clearing troubles on its own system.

(CT) B. Carrier and Company recognize that isolation charges need not be applied if each carrier carries out its proper function and have, therefore, agreed to implement on a trial basis a procedure which will eliminate these charges.

C. Under this procedure, either Company or carrier upon discovering trouble in its service will respond to the trouble reported by isolating the problem to its own or the other carrier's system. Each carrier will clear the trouble in its own system prior to handing off the trouble to the other. However, if either carrier feels that the other is abusing the trouble reporting system and causing the other unreasonable or inordinate time and expense to find troubles which are ultimately determined to be in the reporting carrier's system, the aggrieved carrier may institute an isolation charge in accordance with the following procedure:

(CT)

1. Should a carrier believe that another carrier is not carrying out its responsibilities to isolate troubles to and clear troubles on its own system prior to reporting troubles to another carrier, the aggrieved carrier should notify the other carrier in writing that the accepted trouble reporting practices and procedures are being abused, with specific illustration of the abuse, and that he intends to assess isolation charges for any further abuses that occur.

(CT)

2. Upon receipt of the written notice by the other carrier, both carriers will meet as soon as possible to review the problem and take corrective action.

(CT)

3. If the carriers are unable to resolve the dispute, the aggrieved carrier will give written notice that he intends to implement isolation charges by a specific date, but not less than ten days from the date of such notice.

32.2 SPECIAL CONSTRUCTION

32.2.1 This Section contains the regulations, liabilities, rates and charges applicable for special construction of Telephone Company facilities which are used to provide services offered in this and other Southwestern Bell Telephone Company Tariffs.

When special construction of facilities is required, the provisions of this Section apply in addition to all regulations, rates and charges set forth in other Southwestern Bell Telephone Company Tariffs.

32.2.2 Ownership of Facilities

The Telephone Company retains ownership of all specially constructed facilities.

32.2.3 Interval to Provide Facilities

Based on available information and the type of service ordered, the Telephone Company will establish a completion date for the specially constructed facilities. The Telephone Company will make every reasonable effort to assure that the date is met. However, shortage of material, personnel or other factors may lengthen the installation interval. The Telephone Company does not guarantee that the facilities will be available on the scheduled date and assumes no liability if that date is missed. If the scheduled completion date cannot be met, the carrier will be notified, and a new completion date will be established.

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.4 Payments for Special Construction

DEC 1 1990

MISSOURI

BY *ehs* # *16* Public Service Commission

Public Service Commission
MISSOURI

A. Payment of Charges

All bills associated with special construction charges are due in accordance with the appropriate regulations in the service tariff under which service is being provided.

B. Start/End of Billing

Billing of recurring charges for specially constructed facilities starts on the day after the facilities are made available for use. Billing accrues through and includes the day that the specially constructed facilities are discontinued.

C. Partial Payments

To safeguard its interests during construction, the Telephone Company may require partial payment(s) for the portion of the estimated cost of the special construction for which a nonrecurring charge will apply. Partial payments may be requested as costs are incurred and will be credited against the total bill. Partial payments may not exceed the total non-recurring charge for the special construction. If any partial payment is not received by the Telephone Company by the end of the first working day of the next month, the Telephone Company will cease all work on the special construction case, and cancellation charges will apply as set forth in Paragraph 32.2.5, D.7., following.

32.2.5 Liabilities and Charges for Special Construction

A. General

This Section describes the various charges and liabilities that may apply when the Telephone Company provides special construction of facilities in accordance with an order for service. Written approval of all liabilities and charges must be provided to the Telephone Company prior to the start of construction.

Public Service Commission

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.5 Liabilities and Charges for Special Construction-(Continued)

B. Conditions Requiring Special Construction

Special construction is required when (1) suitable facilities are not available to meet an order for service, and (2) the Telephone Company constructs facilities and (3) one or more of the following conditions exist:

- The Telephone Company has no other requirement for the facilities constructed.
- It is requested that service be furnished using a type of facility, or via a route, other than that which the Telephone Company would normally utilize in furnishing the requested service.
- More facilities are requested than would normally be required to satisfy an order.
- It is requested that construction be expedited, resulting in added cost to the Telephone Company.

C. Development of Liabilities and Charges

Special construction charges and liabilities will be developed based on estimated costs, except when actual costs are requested in writing prior to start of special construction. In order to meet a scheduled service date when actual costs are requested, an initial special construction case will be made based on estimated costs. Such case will be revised when actual costs are available.

D. Types of Liabilities and Charges

Depending on the specifics associated with each individual case, one or more of the following special construction charges and/or liabilities may be applicable:

1. Quotation Charge

A nonrecurring charge for the preparation of a quotation applies whenever an estimate for special construction charges and liabilities is requested. The charge includes the costs associated with the development and preparation of the quotation.

RADIO COMMON CARRIERS

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.5 Liabilities and Charges for Special Construction-(Continued)

D. Types of Liabilities and Charges-(Continued)

1. Quotation Charge-(Continued)

The quotation is valid for 90 days and identifies all rates, charges and liabilities associated with the provision of the facilities required to satisfy a service request. Within this 90-day period, if the service is ordered as quoted and service is subsequently provided, the Quotation Charge will be credited to the appropriate account.

If a request for a quotation is cancelled prior to its completion, a bill will be rendered for the costs incurred for quotation preparation through the cancellation date.

The payment of a Quotation Charge does not assign, confer, or transfer title or ownership rights of proposals or facilities designed or furnished by the Telephone Company. Title and ownership rights for any item remains with the Telephone Company, except as specifically provided by a written agreement between all parties.

2. Nonrecurring Charge

A nonrecurring charge always applies and includes one or more of the following components:

a. Case Preparation Charge

A nonrecurring charge always includes a case preparation charge component to cover the administrative expenses associated with preparing a special construction case.

b. Expediting Charge

A nonrecurring charge may include an expediting charge when it is requested that special construction be completed on an expedited basis. The charge equals the difference in estimated cost between expedited and non-expedited construction.

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.5 Liabilities and Charges for Special Construction-(Continued)

D. Types of Liabilities and Charges-(Continued)

2. Nonrecurring Charge-(Continued)

c. Optional Payment

An optional payment charge may be included in the non-recurring charge in association with a type of facility or route other than that which the Telephone Company would normally use in furnishing the requested service if lower recurring monthly charges are desired for the specially constructed facilities. This charge is equal to the excess installed cost or the total nonrecoverable cost, whichever is less. This election must be made in writing before special construction starts. If this election is coupled with the actual cost option, the optional payment charge will reflect the actual cost of the specially constructed facilities.

d. Replacement Charge

If any portion of specially constructed facilities for which an optional payment charge has been paid requires replacement involving capital investment, a replacement charge will apply. This charge will be in the same ratio to the total replacement cost as the initial optional payment charge was to the installed cost of the original specially constructed facilities. If any portion of the facilities subject to the replacement charge fails, service will not be restored until modification is provided in writing that replacement is required and such replacement is ordered.

e. Rearrangement Charge

If the Telephone Company is requested to rearrange existing specially constructed facilities, a nonrecurring charge component equal to the cost of rearrangement will apply.

RADIO COMMON CARRIERS

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.5 Liabilities and Charges for Special Construction-(Continued)

D. Types of Liabilities and Charges-(Continued)

2. Nonrecurring Charge-(Continued)

f. Special Construction of Facilities For Use For Less Than One Month

When the Telephone Company is requested to construct facilities to provide service for less than one month, a nonrecurring charge only applies. In addition to the case preparation charge component, this nonrecurring charge recovers all elements of cost, including engineering, shipping of equipment, equipment installation, line-up, equipment leasing, space rental, equipment removal, and any other costs associated with the construction of the facilities.

3. Maximum Termination Liability and Termination Charge

A Maximum Termination Liability is equal to the nonrecoverable costs associated with specially constructed facilities and is the maximum amount which could be applied as a Termination Charge if all specially constructed facilities were discontinued before the Maximum Termination Liability expires.

The liability period is equal to the average life of the account associated with the specially constructed facilities. The liability period is generally expressed in terms of an effective date and expiration date.

A Termination Charge may apply when all services using specially constructed facilities which have a tariffed Maximum Termination Liability are discontinued prior to the expiration of the liability period. The charge reflects the unamortized portion of the nonrecoverable costs at the time of termination, adjusted for net salvage and possible reuse. Administrative costs associated with the specific case of special construction and any cost for restoring a location to its original condition are also included.

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.5 Liabilities and Charges for Special Construction-(Continued)

D. Types of Liabilities and Charges-(Continued)

4. Annual Underutilization Liability and Underutilization Charge

Annual Underutilization Liability is a per-unit amount which is based on the per-unit cost of specially constructed facilities. The liability remains in effect until the expiration of the Maximum Termination Liability or until the special construction case is discontinued and all termination liabilities associated with the case are discharged. An underutilization charge may be applicable after the expiration of the minimum period, as set forth in the appropriate service tariff under which service is being provided, depending on the quantity of specially constructed facilities in service.

No underutilization charges are computed or billed until one year after the minimum period expires. At that time, an underutilization charge applies to the difference, if any, between the original number of specially constructed facilities and the number of specially constructed facilities in service at filed tariff rates. The underutilization charge applies from the date the minimum period expires and annually thereafter. For purposes of determining an underutilization charge, any facilities subject to minimum service period monthly charges are considered to be in service at filed tariff rates.

CANCELLED

5. Recurring Monthly Charges

a. Excess Capacity Charge

A recurring monthly excess capacity charge applies when more facilities are requested and subsequently specially constructed than are required to satisfy an order for service. The charge is based on the estimated cost difference between the facilities constructed and the facilities which would normally be required to meet the order for service. Charges apply until there are sufficient services to warrant the facilities which were originally constructed.

5. Recurring Monthly Charges--(Continued)

b. Charge for Route or Type Other Than Normal

CANCELLED
DEC 1 1990
BY J.R.S.#1
Public Service Commission
MISSOURI

When special construction is requested using a route or type of facility other than that which the Telephone Company would normally use, a recurring monthly charge, in addition to the monthly rates for service, is applicable. The charge is equal to the difference between the recurring costs of the specially constructed facilities and the recurring costs of the facilities the Telephone Company would have normally used.

(1) When an Optional Payment Charge as set forth in Paragraph 32.2.5, D.2.c., preceding, has been elected, the recurring monthly charge will be reduced to include specially constructed facility operating expenses only.

(2) If the actual cost option as set forth in Paragraph 32.2.5, C., preceding, has been elected, the recurring charge will be adjusted to reflect the actual cost of the new construction when the costs have been determined. This adjusted recurring charge is applicable from the start of service.

6. Lease Charge

This charge applies when the Telephone Company leases equipment in order to meet service requirements. The amount of the charge is equal to the net added cost to the Telephone Company caused by the lease.

7. Cancellation Charge

If a service order with which special construction is associated is cancelled prior to the start of service, a Cancellation Charge will apply. The charge will include all nonrecoverable costs incurred by the Telephone Company in association with the special construction up to and including the time of cancellation.

RADIO COMMON CARRIERS

32.2 SPECIAL CONSTRUCTION-(Continued)

32.2.6 Deferral of Start of Service

The Telephone Company may be requested to defer the start of service which will use specially constructed facilities subject to the provisions set forth in the service tariff under which service is being provided. Requests for special construction deferral must be in writing and are subject to the following regulations:

A. Construction Has Not Begun

If the Telephone Company has not incurred any installation costs before receiving a request for deferral, the Quotation Charge applies. The original quotation is subject to Telephone Company review at the time of reinstatement to determine if the original charge estimates are still valid.

An additional quotation charge will, therefore, apply. Any change in liabilities and charges requires concurrence in writing.

B. Construction Has Begun

If the construction of facilities has begun before the Telephone Company receives a request for deferral, charges will vary as follows:

1. All Services Are Deferred

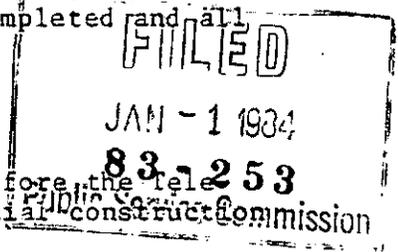

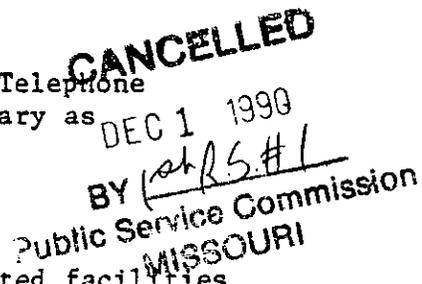

When all services which will use specially constructed facilities are deferred, a charge based on the costs incurred by the Telephone Company during each month of the deferral will apply. Those costs include the recurring costs for that portion of the facilities already completed and any other costs associated with the deferral. The Quotation Charge and cost of any components of the nonrecurring charge which have been completed at the time of deferral will also apply.

2. Some Services Are Deferred

When some services which will use the specially constructed facilities are deferred, the construction case will be completed and all special construction charges will apply.

C. Construction Complete

If the construction of facilities has been completed before the Telephone Company receives a request for deferral, all special construction charges will apply.

32.3 RATES--(Continued)

32.3.3 Outpulsing Connecting Circuit(1)--(Continued)

Footnote:

- (1) The method of applying rates for interexchange and intraexchange service involving Radio Common Carriers (RCC's) are determined as follows:

Local Channel

A local channel charge shall apply for each channel terminated on the RCC's premises.

Interoffice Channel

Intraexchange - When station locations of an RCC service are located in different serving office areas, interoffice mileage charges apply. Charges are based on the V&H distance between the serving offices.

Interexchange - When a station location of an RCC service is located in an area served by a serving office that is not also the primary serving office, interoffice mileage charges apply. Charges are based on the V&H distance between the primary serving office and the serving office.

Channel Terminal

Channel Terminal Charges apply (1) at each termination of an interexchange channel and (2) each termination of an interoffice channel.

Interexchange Channel

When station locations of an RCC service are located in different exchanges or Metropolitan Exchanges, interexchange mileage charges apply.

Each exchange and each zone of a Metropolitan Exchange has one primary serving office. Charges are based on the V&H distance between primary serving offices.

RADIO COMMON CARRIERS

32.3 RATES--(Continued)

Footnotes:

- (1) This charge is controlled by each individual request from the carrier rather than the number of trunks per request.
- (2) Available in 1/1A and 2/2B ESS central offices only. The Bell Point of Contact must check with their switching engineering coordinate to determine if the trunk units are available, and if they are not available, whether the units are "hardwired" or plug-in. An SSAR should only be issued if a vendor must be scheduled into the central office to provide the proper trunk units. The trunk units will be added at no cost to the carrier if the carrier can wait until the vendor is scheduled into that office for our purposes (next-job basis). If the carrier does not wish to wait on a next-job basis, an SSAR should be established and processed. The carrier will incur charges only when the vendor must "hardwire" the trunk units to the frame. If the trunk unit is of the "plug-in" type, which can be installed in the central office without involvement of a vendor, no charge to the RCC will apply.

33.1 GENERAL

33.1.1 ESSX-400 Service is a switched voice communications system provided by an arrangement of exchange access lines, station lines, equipment, customer facility groups, and other facilities located on Telephone Company premises. ESSX-400 inward and outward grade of service is a function of the number of ESSX-400 access lines to which a customer subscribes. The level of network access or the number of ESSX-400 access lines is provided by utilizing central office software called Customer Facility Groups. This service is designed to provide capacity for customers desiring 31 - 400 stations.

33.1.2 ESSX-400 rates and charges provide for basic stations including standard features, station line facilities which include the outside plant facilities and optional features. Exchange access applies as found in the Local Exchange Tariff.

33.1.3 Feature Array

The following is a list of standard and optional features available with ESSX-400:

33.1.5 Feature Descriptions

Add-On - This feature allows an ESSX-400 user to add on another ESSX-400 station or an outside line to an existing call by depressing the switch-hook.

Automatic Callback - This feature allows an ESSX-400 user who encounters a busy condition when calling another ESSX-400 line to dial an activation code and be automatically called back when the called line becomes idle.

Automatic Identified Outward Dialing (AIOD) - This feature provides automatic identification of stations on out-dialed calls for purposes of individual station billing.

Automatic Route Selection - Basic - This feature allows alternate routing of off-network calls when the first choice route is busy.

Busy Verification - This feature allows an attendant to establish connections to apparently busy station lines or trunks to determine if they are in working order.

(NR)ESSX-400 SERVICE

33.1 GENERAL-(Continued)

33.1.5 Feature Descriptions-(Continued)

Call Forwarding - Busy Line - This feature provides for forwarding of incoming calls to a preselected ESSX-400 station when the called station is busy.

Call Forwarding - Don't Answer - This feature provides for forwarding of incoming calls to a preselected ESSX-400 station when the called station does not answer after a predetermined number of ringing cycles.

Call Forwarding - Variable - This feature allows incoming calls to be forwarded to a preselected station line, within as well as outside the ESSX-400 system.

Call Hold and Call Pickup - This feature allows an ESSX-400 station user to hold any call in progress by depressing the switchhook and then dialing a code, thereby freeing the line for the purpose of originating another call or answering a waiting call. The held call cannot be added to another call. This feature also allows an ESSX-400 station user to answer any call within an associated preset pickup group. If more than one line within the pickup group has an unanswered call, the call that is answered is the one that has been ringing the longest.

Call Transfer - Individual - All Calls, Consultation Hold - All Calls, and Three-Way Calling - This feature allows an ESSX-400 station user to transfer any established call to another station line within or outside the ESSX-400 system, hold any existing call and originate a call to another station line within or outside the ESSX-400 system, and add a third party to any established call for a three-party conference, without the assistance of the attendant.

Call Waiting - Intragroup - This feature allows those ESSX-400 stations with the Call Waiting - Terminating feature to be call waiting on intragroup calls.

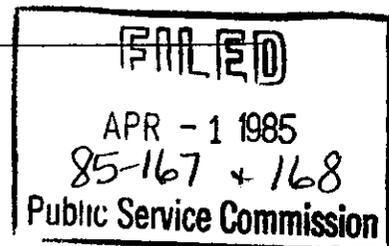

Call Waiting - Originating - This feature allows an ESSX-400 station user to direct a call waiting tone toward a busy called ESSX-400 station. The busy called station can retrieve the calling party by hanging up and being rung back or by depressing the switchhook to place the existing call on hold and answering the waiting call.

Call Waiting - Terminating - This feature allows an ESSX-400 station user who is engaged in a telephone conversation to be alerted by a tone that an incoming call is attempting to reach that station user. The busy called station can retrieve the waiting call by hanging up and being rung back or by depressing the switchhook to place the existing call on hold and answering the waiting call.

Circle Hunting - This feature provides line hunting in which the hunt for an idle line starts with the called line and proceeds in a prearranged order to all lines in the group.

Conference Calling - Attendant Arrangement - This feature allows an ESSX-400 attendant to connect a maximum of five parties, not including the attendant to a conference facility.

Conference Calling - Station Line Arrangement - This feature allows an ESSX-400 station user to establish conference connections involving up to six conferees, including the conference controller.

Consultation Hold - This feature allows an ESSX-400 station user to hold any call in progress by depressing the switchhook and then dialing a code, thereby freeing the line for the purpose of originating another call or answering a waiting call.

Dial Call Waiting - This feature provides the ability for originating ESSX-400 stations to invoke call waiting service on selected intra-group calls by dialing the dial call waiting access code followed by the extension number of the station to be call waited.

Direct Inward Dialing (DID) - Allows an incoming call to reach an ESSX-400 station without attendant assistance.

Direct Outward Dialing (DOD) - Allows an ESSX-400 station user to gain access to the exchange network without attendant assistance.

Directed Call Pickup - This feature allows for a call directed to an ESSX-400 station line to be answered by another ESSX-400 station user within the same group or system by dialing the pickup answer code and the extension number of the line to be answered.

(NR)ESSX-400 SERVICE

33.1 GENERAL-(Continued)

33.1.5 Feature Descriptions-(Continued)

Distinctive Ringing & Call Waiting Tone - This feature allows a station user to determine the source of a call incoming to the station. The station user is also able to determine the source of the call on call waiting calls.

Hunting - Basic - This feature provides hunting for an idle line starting with the called station and ending with the last station in the pre-arranged group, completing the call to the first idle line encountered.

Intercommunication - This feature allows an ESSX-400 station user to directly dial other stations within the same ESSX-400 system without attendant assistance.

Night Service - This feature allows incoming calls normally directed to the attendant to be routed to preselected station lines within the customer group and is activated by the depression of a designated key at the attendant position.

Outgoing Trunk Queuing - WATS - This feature provides efficient usage of business customer private facilities by queuing individual station calls and providing a maximum time limit for a call to remain on queue before possible overflow to the Direct Distance Dialing (DDD) network.

Preferential Hunting - This feature provides a type of line hunting which permits a prehunt over a subset or preferential group of terminals before hunting through the multiline hunt group (MLHG). The hunt through the MLHG can be a regular or circuit hunt.

Remote Access Capability - This feature allows a remote caller access to the features of an ESSX-400 system by dialing the number associated with the incoming facility and an optional security code.

Speed Calling - 6 Codes - This feature allows station users to have abbreviated codes assigned for up to six frequently called numbers. The list of frequently called numbers may be common to the entire ESSX-400 system or unique to each ESSX-400 station line. A common list is controlled by one designated ESSX-400 station line in the ESSX-400 system. Unique lists are controlled by the individual ESSX-400 station lines.

33.1.5 Feature Descriptions-(Continued)

MISSOURI

Speed Calling - 30 Codes - This feature is the same as Speed Calling 6 Codes, except that up to 30 numbers can be programmed.

Split Service Offering - This feature provides for segregation of a customer's ESSX-400 station lines into separate groups thereby enabling each group to have a different set of common features.

(RT)

Station Message Detail Recording (SMDR) - This feature provides a magnetic tape record of call details for outgoing calls placed over DDD, CCSA, WATS, FX, tie line facilities, and OCC access lines.

(RT)

(RT)

Station Restriction - This feature denies a station the capability to make any outgoing calls or receive any incoming calls.

Station Toll Diversion - With this feature, a toll call placed from an equipped ESSX-400 station is intercepted and routed to the attendant.

Station Toll Restriction - With this feature, any equipped ESSX-400 station or tie line originating a toll call is given a fast busy signal or routed to a common ESSX-400 announcement based on customer choice.

Touch-Tone - All station lines are equipped for Touch-Tone Dialing.

Transfer - This feature allows an ESSX-400 station user to transfer any established call to another station within the ESSX-400 system. This is accomplished by depressing the switchhook while on a two-party call, dialing the desired ESSX-400 station line and hanging up.

Trunk Answer From Any Station - Incoming calls, normally directed to the attendant, activate a common alerting signal on the customer's premises when the attendant positions are in night service and night stations are not assigned or are all busy. These calls may then be answered by any station user in the system who dials a special code from any nonrestricted station.

that can be installed with the initial installation of the customer's ESSX-400 system are 400 station lines. Subsequent additions of station lines which would bring the total number of station beyond 400 are allowed.

33.2.4 An ESSX-400 basic station and station line facility consist of all facilities, including intercommunication and outside plant facilities from the ESSX-400 dial switching equipment to the network interface at the customer's premises.(1)

33.2.5 ESSX-400 station line facilities are charged in 1/4 mile increments as measured in air miles from the station location to the serving office. The station line facility rates are applicable to ESSX-400 primary and remote locations' station lines which meet the minimum station requirement and any other station lines at alternate locations within the same serving offices associated with the primary and remote locations. The rates apply to station lines in excess of the number of ESSX-400 access lines.

33.2.6 The customer may move ESSX-400 Service within the same serving central office where facilities permit based on cost and subject to the appropriate service connection charges associated with the move. The old contract will not be affected.

33.2.7 The primary location of an ESSX-400 customer served by switching equipment located on Telephone Company premises must be in the same serving office area from which service is furnished.

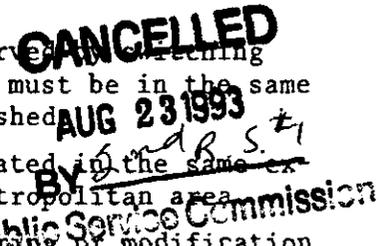

33.2.8 A remote location will be furnished only if located in the same exchange as the primary location or zones of a metropolitan area.

33.2.9 When a customer requests a special service offering or modification of a standard service offering, it will be furnished whenever possible if not detrimental to any of the services or equipment of the Telephone Company. Such special service offerings or modification of standard service offerings will be furnished at additional charges.

33.2.10 Directory listings will be furnished in accordance with the regulations set forth in Section 6 of this Tariff.

33.2.11 The assignment of telephone numbers for ESSX-400 shall be in accordance with Section 17 of this Tariff.

33.2.12 Temporary suspension of service in accordance with Section 22 of this Tariff will be provided.

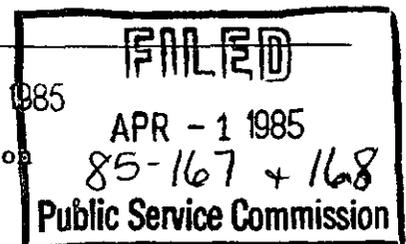

(1) ESSX-400 station line facility rates do not apply to outside plant facilities for off-premises stations.

RECEIVED SEP 23 1985 MISSOURI PUBLIC SERVICE COMMISSION

33.3 PAYMENT PLAN

33.3.1 The ESSX-400 Payment Plan allows the customer to pay a fixed rate for either a 1-month, 12-, 24-, 36- or 48-month period. Under 1-month option, the customer pays a fixed rate for 60 months of service. In addition, an additive charge applies for the first month of service. During the course of any fixed term including 60 months for the 1-month option, the payment is not subject to a Telephone Company-initiated rate change. The customer may also choose a month-to-month payment option. Month-to-month rates are subject to a Telephone Company-initiated rate change.

33.3.2 Installation and nonrecurring charges can be deferred over the length of any fixed term over one month. Annuity factors utilized in deferring these charges are as follow:

12 months -	.0958
24 months -	.0513
36 months -	.0365
48 months -	.0292
60 months -	.0249

CANCELLED

33.3.3 Basic station rates, station line facility rates, facility terminating arrangements and optional features are covered under this payment plan. All other rates and charges not specifically covered in this section are not included. ESSX-400 access lines are not included in this plan.

33.3.4 Additions to service available under this plan can be added to the existing agreement, providing at least 90 days remain on the customer's contract. These additions can be coterminous with the original contract, or under another contractual option, and at rates at the time of addition for the term chosen. Also, additions may be made under the month-to-month payment option. If less than 90 days remain, additions must be made under the month-to-month option.

33.3.5 Existing Centrex customers may convert to ESSX-400 Service subject to the payment of the conversion charges specified in Section 33.05 of this Tariff. If the customer selects an ESSX 400 contract term that is at least 12 months longer than the remaining months on his existing Centrex contract, any termination liability applicable to the existing service will be waived. Termination liability will apply to the existing service if the ESSX-400 contract term selected is less than 12 months longer than the remaining months on the existing Centrex contract.

33.3.6 With Company agreement, service under this plan may be transferred from one customer to another at the same location for a fee of \$150.

33.3 PAYMENT PLAN-(Continued)

33.3.6-(Continued)

The new customer assumes the service in place under the existing agreement until the expiration of the fixed payment period. Changes and additions to the assumed service can be made after the first day the service has been assumed.

33.3.7 At the conclusion of 60 months for the 1-month option or the fixed term for any other contract term, the customer must elect one of the following options:

- Convert to the month-to-month rate.
- Renew the service at terms, conditions and rates that may exist at the time of renewal.
- Discontinue the service.

If the customer does not notify the Company which option he elects by the contract expiration date, service will continue at the monthly rate currently in effect for the month-to-month option.

33.3.8 Termination charges are not applicable to ESSX-400 station line facilities when the customer adds ESSX-400 access lines with an associated reduction in the number of station line facility rate elements.

33.3.9 A termination charge based on the present worth of the remaining monthly payments will be applicable under the following conditions: if the subscriber a) moves to a different serving central office; b) disconnects the entire service; c) disconnects more than 20 percent of the stations listed in the Letter of Election.

The termination charge is calculated as follows:

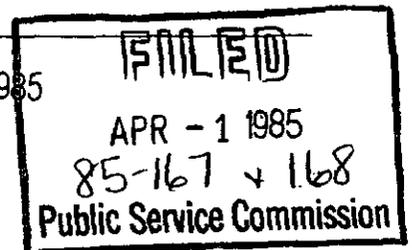

- A. Under any conditions above subtract the allowable 20 percent station fluctuation from the station quantity under contract.
- B. Calculate 70 percent of the monthly rate for stations subject to termination liability.
- C. Determine the appropriate present worth of an annuity factor for the remaining months left in the contract. This factor is based on a 15 percent discount rate.

CANCELLED
AUG 23 1993
BY J and R.S.

Issued: MAR 28 1985

Effective: APR 1 1985

By R. D. BARRON, President-Missouri Division
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

General Exchange Tariff
Section 33
Original Sheet 12

(NR)ESSX-400 SERVICE

33.3 PAYMENT PLAN-(Continued)

33.3.9-(Continued)

D. Multiply the results of steps 2 and 3 to determine the termination liability amount.

Termination liability also applies if the customer discontinues selected optional features. Such features subject to liability are specified in Paragraph 33.4.8, following. This termination liability is calculated using the monthly rate of features subject to liability and steps B., C. and D. above.

In addition, the present worth of any installation and nonrecurring charges that have been deferred must be paid in full.

33.3.10 The customer may, at his option prior to the expiration of the existing contract term, renew the contract for any available term at the time of renewal. This will include a new Letter of Election. The customer is subject to the prevailing rates for the term chosen. Deferred installation and nonrecurring charges continue for the balance of time remaining in the original term.

33.4 RATES-(Continued)

33.4.7 Footnotes

- (1) These rates are not subject to Company ~~and~~ ^{Rate} rate changes, for the fixed term option.
- (2) These rates are subject to Company ~~and~~ ^{Rate} rate changes.
- (3) A Service and Equipment/I.C./NRC of \$5.50 applies when providing or arranging hunting, changing to or from restricted stations, nonrestricted or semi-restricted stations or changing station numbers.
- (4) The minimum charge for ESSX-400 station lines, excluding fully restricted station lines and any other chargeable items of equipment or service, per ESSX-400 system, shall be the rates applicable to 30 ESSX-400 station lines at the customer's primary location and 30 ESSX-400 station lines per each customer remote location served by a different (contiguous or noncontiguous) serving office.
- (5) Once the minimum station line requirements have been met at the customer's primary or remote location, the customer may have any number of station lines at alternate remote locations within the same serving office associated with the primary or remote location meeting the minimum station line requirements. The rates applicable to the station lines at the primary and remote locations are applicable to the station lines at the alternate locations within the same serving offices.
- (6) If the customer does not meet the minimum charge for at least one location within a different serving office apply ESSX-400 off-premises basic station rates. In addition, apply private line channel charges as specified in the Private Line Service Tariff. Mileage is measured from the off-premises location to the primary central office.
- (7) These rates are applicable to ESSX-400 primary and remote locations' station lines which meet the minimum station requirement and any other station lines at alternate locations within the same serving offices associated with the primary and remote locations. The rates apply to station lines in excess of the number of ESSX-400 access lines.
- (8) This service provides the facilities necessary within the system for a tie line termination and for connection to the Telecommunications Network.
- (9) Charges equivalent to the charges for these Universal Tie Line Terminals will apply for the termination of station lines of an ESSX-400 system in attendants' positions and/or switching equipment of another ESSX-400, Centrex or a PBX System. The Telephone Company shall not be responsible for the through transmission of signals or of supervision when facilities are arranged in this manner.

(NR)ESSX-400 SERVICE

33.4 RATES-(Continued)

33.4.7 Footnotes-(Continued)

- (10) Also intended for use in terminating interstate Switched Communications Service (EPSCS) channels, Type A.
- (11) A Complex Installation/Move Charge of \$50.00 is applicable if installed subsequent to the initial installation of the ESSX-400 System.
- (12) This service provides the facilities necessary within the ESSX-400 System for CCSA-type network termination.
- (13) Refer to Section 2 of the Private Line Service Tariff for applicable private line charges.
- (14) Tie lines connecting ESSX-400 Systems, or an ESSX-400 System with a Centrex, PBX, or similar system, of different customers are provided only if each of the systems involved is connected to the serving central office by trunks.
- (15) Network access terminals are furnished with ESSX-400 Systems to provide station users access to the customer's SCAN and CCSA-type networks.
- (16) Distance is measured from the noncontiguous serving office to either the primary serving office or another remote serving office (contiguous or noncontiguous), whichever is closer, however, service must be provided from the location from which it is measured. The minimum additive applies to all stations at the noncontiguous remote location, including stations at alternate locations within the same serving office, in addition to the applicable tariff rates for the basic service.
- (17) The Service and Equipment Charges for Optional Features apply only to changes or additions to existing systems.
- (18) This feature is subject to termination liability as specified in Paragraph 33.3.9.

33.4 Rates -(Continued)

33.4.8 ESSX-400 Optional Feature Rates

Footnotes:

- (1) The rates for the fixed term options are not subject to Company-initiated rate changes.
- (2) This optional feature is subject to termination liability as specified in Paragraph 33.3.9.
- (3) OCC Services may be terminated in Automatic Route Selection by the use of the universal tie line terminal at applicable tariff rates in addition to the Automatic Route Selection rates and charges.
- (4) A pattern may have overflow to tone or overflow to the Telecommunication Network, but not to both.
- (5) Applies per facility regardless of the number of patterns having access to that facility.
- (6) This charge applies to each NPA translated where Central Office code translation is required for more than one NPA per single facility, group or route.
- (7) If these changes result in a change in screening, it should be considered as a new pattern, and normal installation charges apply.
- (8) The monthly rate applies in addition to the standard rate for the associated facilities.
- (9) If Toll Restricted or Toll Diverted stations access patterns described in a.(1), or b.(1), they should be charged for as either a.(2) or b.(2), respectively.
- (10) When Call Forwarding - Busy Line and Don't Answer are provided on the same station, both must forward to the same telephone number (either station line or attendant).
The customer must specify whether he wants ESSX-400 intercom calls to be forwarded in addition to incoming calls.
- (11) Applies on initial installation and subsequent operational changes. Examples are: change of the forwarding telephone number, change from incoming only to incoming and station-to-station forwarding.
- (12) This feature requires Call Pickup. The rates for Directed Call Pickup are in addition to the rates for Call Hold and Call Pickup.
- (13) When one station line in a Dial Pickup Group is equipped for Call Pickup, all station lines in that same group are automatically equipped with the same feature; therefore, the rates and charges will apply to each station line in the Call Pickup Group.

- (14) Each Station with Call Waiting-Intragroup must also have Call Waiting-Terminating. The recurring rates for Call Waiting-Intragroup apply in addition to those for Call Waiting-Terminating. Cancel Call Waiting Capability is also provided with this feature where available in 1A ESS central offices. A Complex Installation/Move Charge of \$104.50 applies per system for one non-standard ESSX-400 Cancel Call Waiting Access Code.
- (15) A maximum of \$4.00 applies per station line when installing any three or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions of these features to an existing station line.
- (16) Dial Call Waiting and Call Waiting-Originating cannot be provided on the same line.
- (17) Complex Installation/Move Charge applies only to each ^{Hunt} group established, not to each terminal within that group.
- (18) These rates are additive to Circle Hunt rates ^{BY the customer} requires both.
- (19) The Complex Installation/Move Charge applies when initially equipping a Multiline Hunt group with at least one Preferential Hunt List. This charge also applies each time a Multiline Hunt group has at least one Preferential Hunt list addition, deletion or change.
- (20) A Preferential Hunt list may have a maximum of 18 terminals included.
- (21) Priority Queuing available with initial Complex Installation/Move Charge at no additional charge.
- (22) Applicable only when adding or removing WATS bands in queue.
- (23) In addition to charges for Remote Access Capability, appropriate tariff rates and charges for the incoming and outgoing facilities also apply.
- (24) Each station line equipped may have access to only one 30-code arrangement and only one 6-code arrangement.
- (25) The maximum number of 30-code arrangements is 128 per customer.
- (26) Service provision and billing will be coincident with the billing period(s) of the private facilities involved.
- (27) Applies per order for initial installation or changes of equipped stations or Tie Lines.
- (28) No other announcement than standard ESSX-400 announcement may be provided with this rate.

(29) Message Desk stations must be in the same ESSX-400 group as the stations accessing the Message Desk. This feature also allows a Message Desk attendant to activate/deactivate an audible message waiting indication (stutter dial tone) for the Message Desk's client stations. Message Desk client stations must have at least one of the following: call forwarding-variable, call forwarding-busy line, call forwarding-don't answer, or night service-make busy arrangement, in order to forward calls to the Message Desk center. The rates and charges for these features apply in addition to the Simplified Message Desk Interface rates and charges. A 420-type data channel is also required for this service. Apply the appropriate rates and charges as specified in Section 2 of the Private Line Service Tariff. Customer-provided modem, answering equipment and Message Desk controller conforming to the technical specifications of the Company are also required.

(30) When an ESSX-400 station line accesses 6- and 30-Code Speed Calling arrangements, apply only the Speed Calling-30 per station line monthly rate.

(RT)

(31) Applies per system to establish the SMDR, per message feature.

(32) Applies per trunk group.

(33) The Service and Equipment Charges for Optional Features apply only to changes or additions to existing systems.

ESSX-400 SERVICE

33.4 Rates - (Continued)

33.4.8 ESSX-400 Optional Feature Rates-(Continued)

Footnotes:-(Continued)

RECEIVED
SEP 23 1985
MISSOURI
Public Service Commission

(FC)

(30) When an ESSX-400 station line accesses 6 and 30-Code Speed Calling arrangements, apply only the Speed Calling-30 per station line monthly rate.

(31) Applies per system to establish the SMDR/CDAR, per message feature.

(32) Applies per trunk group.

(33) The Service and Equipment Charges for Optional Features apply only to changes or additions to existing systems.

(34) Where available in #1A ESS central offices only.

(FC)

(35) Message Desk stations must be in the same ESSX-400 group as the stations accessing the Message Desk. This feature also allows a Message Desk attendant to activate/deactivate an audible message waiting indication (stutter dial tone) for the Message Desk's client stations. Message Desk client stations must have at least one of the following: call forwarding-variable, call forwarding-busy line, call forwarding-don't answer, or night service-make busy arrangement, in order to forward calls to the Message Desk center. The rates and charges for these features apply in addition to the Simplified Message Desk Interface rates and charges. A 420-type data channel is also required for this service. Apply the appropriate rates and charges as specified in Section 2 of the Private Line Service Tariff. Customer-provided, modem, answering equipment and Message Desk controller conforming to the technical specifications of the Company are also required.

PLEXAR[®]-CUSTOM SERVICE

33.5 Scope of the Plan

33.5.1 Plexar-Custom Service is a central office-based service. Two serving arrangements are available. They are:

A. ESS Arrangements

This Plexar-Custom arrangement utilizes ESS technology and is based on the use of simulated access facilities in which the customer specifies the desired level of exchange access.

B. Specialized Arrangement

This Plexar-Custom arrangement is provided when the customer's requirements are not met with current ESS technology. This arrangement also uses simulated access facilities for exchange access.

Both Plexar-Custom serving arrangements may be provided by utilizing existing Telephone Company facilities and equipment, construction of new facilities and the purchase of new central office equipment or any combination thereof. These arrangements will be provided only when in the judgment of the Telephone Company it is practicable and will not be detrimental to any other services furnished by the Telephone Company. Plexar-Custom arrangements are intended for use by business customers with a minimum requirement of 75 stations within a single serving office.

33.5.2 The Basic Plexar Station Rate includes central office equipment, facilities between the serving central office and customer premises and standard Plexar features outlined in the Features-General Information section.

33.5.3 The Basic Plexar OPX station rate is applied under the following circumstances:

1. When a Plexar station is served from a different central office than that which provides the Plexar switching. In addition to the Basic OPX station rate, refer to the Private Line Tariff for channel charges required for OPX station.
2. When a Plexar station is associated with Access Advantage Plus Service. In addition to the Basic OPX station rate, apply the facility charges identified in Section 18 of the Digital Link Services Tariff.

The Basic Plexar OPX Station rate and charge is good for the length of contract and includes all elements inherent to a Basic Plexar Station, with the exception of facilities between the serving central office and customer premises.

PLEXAR®-CUSTOM SERVICE

33.6 General Regulations

33.6.1 Each Plexar-Custom arrangement is intended for use by the specific customer at the designated locations only. Major changes to the service arrangement made by the customer will require review by the Telephone Company which may result in a change of rates and charges.

(CT) 33.6.2 Prior to the conclusion of the contract, the Company will notify the customer that their contract is about to expire and the customer will be advised of their options. The customer must elect one of the following options:

(C) A. Renew the contract at the terms, conditions and rates that are offered at that time.

B. Discontinue the service.

(AT) If the customer does not select either option A or B, above, they will be advised that their service will continue to be provided at the original contract rates in effect as of the expiration date of the original contract term plus an additional rate of \$10.00 per station applicable each billing period until the contract is renewed or service discontinued. If within 90 days of original contract expiration the customer chooses to renew the contract for any contract term, an adjustment equivalent to the total additional amount billed under this provision will be credited on the customer's bill.

(AT) After 90 days, at its sole discretion, the Telephone Company may terminate this arrangement by providing the customer 30 days prior written notice of termination. Upon termination of the arrangement, the Telephone Company will disconnect the customer's service.

33.6.3 Plexar-Custom allows the customer to pay a fixed rate based on a 12-month, 24-month, 36-month, 48-month, 60-month, 72-month, 84-month, 96-month, 108-month or 120-month contract. The customer may elect to make an upfront payment covering all or a portion of the contract. Customers may also prepay their fixed rate based on the appropriate present worth factor anytime during the fixed rate period. During the course of the fixed rate period, these rates are not subject to Telephone Company-initiated increases.

33.6.4 Plexar-Custom Service will be provided subject to the availability of the necessary switching equipment and outside plant facilities. The provisioning of standard and optional features is limited to the capabilities of the serving central office.

33.6.5 Additions to service may be coterminous with the original contract or for a shorter contract term.

33.6 General Regulations

(MT) 33.6.2 At the conclusion of the contract, the customer must elect one of the following options:

A. Renew the contract of the terms, conditions and rates that are offered at that time.

(MT) B. Discontinue the service.

(AT) 33.6.3 Plexar-Custom allows the customer to pay a fixed rate for either a 1-month, 12-month, 24-month, 36-month, 48-month, 60-month, 72-month, 84-month, 96-month and 120-month. During the course of the fixed rate period, these rates are not subject to Telephone Company-initiated increases. Customer may prepay their fixed rate based on the appropriate present worth factor anytime during the fixed rate period.

33.6.4 Plexar-Custom Service will be provided subject to the availability of the necessary switching equipment and outside plant facilities. Provisioning of standard and optional features is limited to the capabilities of the serving central office.

33.6.5 Additions to service may be coterminous with the original contract for a shorter contract term.

33.6.6 Termination charges based on the present worth of the remaining service payments will be applicable to the fixed monthly rate plan under the following conditions: a) if the customer disconnects the entire service or b) disconnects more than 35% of their total cutover stations. The termination charge is calculated as follows:

- A. Subtract the allowable 35% station fluctuation from the total station quantity at cutover including all other cutover station quantities resulting from subsequent system additions required over the duration of the contract.
- B. Calculate the total monthly rate for the station quantity subject to termination charges identified in paragraph A.
- C. Determine the annuity factor for the remaining months left in the contract. This factor is based on the discount rate specific to the customer's contract.
- D. Multiply the result of paragraph B by the result of paragraph C to determine the present worth termination amount.

In addition, the present worth of any installation and nonrecurring charges that have been deferred must be paid in full.

33.6 General Regulations-(Continued)

33.6.20 A Plexar customer may be served by the same serving central office (referred to as normal serving office) or a different serving office than the one in which they are located. Rates and charges for both serving arrangements will be specified in the Plexar-Custom service arrangement.

When the Plexar customer subscribes to Plexar BRI service, which is provided from a central office other than their normal serving office, and the customer's normal serving office subsequently becomes Plexar BRI equipped, the customer's Plexar BRI service will continue to be provided from their original Plexar BRI serving office. Should the customer subsequently request that their Plexar BRI service be provisioned from their normal serving office, the rates and charges associated with the conversion will be specified in the subsequent Plexar-Custom Service arrangement.

33.6.21 Plexar-Custom Service with a Basic Rate Interface (BRI) Integrated Services Digital Network (ISDN) requires compatible registered CPE under FCC Part 68.

33.6.22 Upon subscribing to Plexar BRI Service, the customer will be required to change his existing telephone number(s) if SWBT determines that it is not reasonably feasible for technical or number administration reasons to continue to provide the customer's existing telephone number(s).

(CT) 33.6.23 Plexar BRI Service is not available with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.

33.6.24 Plexar-Custom stations shall have available the calling scope associated with the Plexar serving office as defined in the Local Exchange Tariff.

33.7 Features

33.7.1 Standard and optional features available with this arrangement are offered at rates and charges specified with each customer's service arrangement. Features will be provided as requested by the customer, when available.

33.8 Public Service Commission Notification

(CT) 33.8.1 Upon request, the Telephone Company will provide the Public Service Commission Staff the following information:

- Customer name and location(s)
- Type of service to be provided
- A copy of the economic cost study
- Contribution level
- Selected payment option
- The applicable rates

When provided, this information will be considered proprietary by the Telephone Company and should not be made a part of the public record.

33.8.2 Upon receipt, the Staff will have up to 21 calendar days to review this information. If, after completing their review, the Staff determines that there is a discrepancy, but the rates still meet the minimum five percent contribution level after the discrepancy is corrected, no change in rates will be required. However, after the discrepancy is corrected, if the rates do not meet

(CT) the minimum five percent contribution level, they may have to be adjusted. In the latter case, the Company has the option to either revise the rates to meet at least the minimum contribution level of five percent, or be subject to potential disallowances to the extent of the discrepancy in future rate examinations.

(CT)(MT) Following their review, the Staff will notify the Company in writing as soon as possible, of
(CT)(MT) their position as a result of their review of the economic cost study.

(CT) PAYPHONE EXCHANGE ACCESS SERVICE

34.1 GENERAL

(CT) 34.1.1 Payphone Exchange Access Service is offered for use with pay telephones and public facsimile devices. This service includes coin, coinless, cordless, card reader or a combination of a coin/card reader instrument.

Payphone Exchange Access Service is furnished to payphone service providers opting to provide a means for the general public, transients and/or collective groups to place local and/or toll calls.

(CT) (RT) Normally, locations for Payphone Exchange Access Service include, but are not limited to, restaurants, convenience stores, hospitals, educational institutions, truck stops, etc.

(CT) (FC) All attachments of pay telephones to the network must be made pursuant to the rules and regulations set forth in this tariff.(1)

(CT) 34.1.2 Payphone Exchange Access Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises and the network interface. These facilities are Telephone Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling. 1+ 900 call restriction is provided at no additional charge.(2)

(RT) 34.1.3 Selective Class of Call Screening will be provided where such facilities are available at the payphone service provider's option. Selective Class of Call Screening treatment restricts outgoing operator-handled calls, placed over the Telephone Company's network, as described in paragraph 34.4.2.A. The Telephone Company will not be responsible for screening those calls placed over the network of any carrier other than the Telephone Company or placed through non-local exchange telephone company operators.(1)(3)

(CT) The specific Selective Class of Call Screening type is chosen by the payphone service provider from those shown in paragraph 34.4.2.A. No variation, alteration or refashion of the screening codes, billing restrictions, applicable access or other general provision of this Selective Class of Call Screening treatment will be permitted.

(CT) (RT) 34.1.4 Billed Number Screening will be provided at the payphone service provider's option at no additional charge. Billed Number Screening restricts collect calls and bill to third number calls placed over the Telephone Company's network from being billed to the pay telephone account.

- (RT) (1) Not applicable to the public facsimile device.
- (FC) (2) 1+ 900 call restriction restricts calls to these pay-per-call information services to only those calls which are alternately billed.
- (FC) (3) Selective Class of Call Screening is not available in conjunction with SmartCoin access lines.

CUSTOMER-OWNED PAY TELEPHONE SERVICE

NOV 18 1996

34.1 GENERAL

34.1.1 Customer-Owned Pay Telephone Service is offered for use with customer provided pay telephones and public facsimile devices. Customer-Owned Pay Telephone Service includes coin, coinless, cordless, card reader or a combination of a coin/card reader instrument.

MISSOURI
Public Service Commission

Customer-Owned Pay Telephone Service is furnished to customers opting to provide a means for the general public, transients and/or collective groups to place local and/or toll calls. Normally, locations for Customer-Owned Pay Telephone Service include, but are not limited to, restaurants, convenience stores, hospitals, educational institutions, truck stops, etc.(1)

At the request of the customer, one extension, without the characteristics as set forth in paragraph 34.1.1, preceding, may be connected to the Customer-Owned Pay Telephone Access Line. All attachments of Customer-Owned Pay Telephones to the network must be made pursuant to the rules and regulations set forth in this tariff.(2)

(RT) 34.1.2 Customer-Owned Pay Telephone Service is a two-way or, optionally, one-way originating only business exchange access line composed of the serving central office line equipment, all outside plant facilities needed to connect the serving central office with the customer's premises and the network interface. These facilities are Telephone Company-provided and maintained and provide access to and from the telecommunications network for long distance service and local calling.

(AT) 34.1.3 Selective Class of Call Screening will be provided where such facilities are available at the customer's option. Selective Class of Call Screening treatment enables the customer to restrict outgoing operator-handled calls, placed over the Telephone Company's network, from the service point to only those calls which are charged to a called telephone, a third number or a calling card account. The Telephone Company will not be responsible for screening those calls placed over the network of any carrier other than the Telephone Company or placed through non-local exchange telephone company operators.(2)

No variation, alteration or refashion of the screening codes, billing restrictions, applicable access or other general provision of this Selective Class of Call Screening treatment will be permitted.

(AT) 34.1.4 Billed Number Screening will be provided at the customer's option at no additional charge. Billed Number Screening restricts certain calls placed over the Telephone Company's network, such as collect calls or bill to third number calls, from being billed to the customer owned pay telephone account.

(CT) PAYPHONE EXCHANGE ACCESS SERVICE

34.1 GENERAL - (Continued)

34.1.5 Answer Supervision-Line Side provides "off-hook" supervisory signals to customer premises equipment. These signals originate from the called party's serving central office (terminating office) to a line interface at the calling party's serving central office (originating office). This provides the signaling necessary to allow billing to begin. This feature is not compatible with the Call Waiting, Speed Calling, and Three-Way Calling features when provided with Selective Class of Call Screening. Answer Supervision is an optional service.(1) This feature is available where appropriate Telephone Company facilities exist.

(CT) 34.1.6 SmartCoinsm service is offered, at the payphone service provider's option, where the necessary facilities are available. SmartCoin access lines may be provided as either two-way or one-way originating only access lines. With the exception of Dial Tone First and Answer Supervision-Line Side, the services included on SmartCoin access lines apply only on local and intraLATA toll calls that are handled by the Telephone Company.

(RT)(AT)
|
(AT)

(CT) As an option, the payphone service provider may request Customer Billing Reports which will provide additional information regarding sent paid calls originating from the SmartCoin access line. This report will include details of all Telephone Company handled sent paid calls with the exception of local calls which do not require the assistance of an operator. This Customer Billing Report is provided subject to the rules specified in Section 13 of this tariff at rates applicable to toll reports as specified in paragraph 13.23.3.

(CT) A telephone number change may be required when an existing Payphone Exchange Access Service access line is converted to a SmartCoin access line.

(CT) When subscribing to SmartCoin, the payphone service provider is responsible for arranging for proper handling of coin calls by their chosen carrier or their carrier's agent.

(CT) The Telephone Company will not be liable for shortages of coins collected and deposited at the payphone equipment.

(CT) Calls placed from Payphone Exchange Access Service access lines equipped with the SmartCoin feature will be rated as follows:

(RT) A. Sent paid local calls which do not require the assistance of an operator will be rated by the pay telephone set. The Telephone Company network will receive a signal from the pay telephone set indicating that the local rate has been satisfied.

(CT) B. Operator handled sent paid local calls will be rated to the end user at the price established by the payphone service provider.

(1) Answer Supervision equivalent functionality is included at no additional charge with SmartCoin service.

DEC 19 1986

MISSOURI
Public Service Commission

34.1 GENERAL

34.1.7 Section 17 of this Tariff, "Rules and Regulations Applying to All Customers' Contracts," is applicable to the provision of Private Coin Service.

34.1.8 Directory listings may be provided under the regulations governing the furnishing of listings for business subscribers.

34.1.9 For Private Coin Service, a network interface will be installed at a location determined by the Telephone Company which is accessible to the customer. The normal location would be in close proximity to the protector or equivalent(1).

The network interface is the point of connection with the telecommunications network and is the termination of the Private Coin Exchange Access Line. It is a Telephone Company-provided jack or its equivalent.

Public Service Commission

34.2 RESPONSIBILITY OF THE CUSTOMER

34.2.1 The customer shall be responsible for the operation and maintenance of the customer-provided instrument-implemented coin telephone used in connection with this service.

34.2.2 The customer shall be responsible for the payment of a Maintenance of Service Charge as provided in Section 16 of this Tariff for visits by a Telephone Company employee to the customer's premises when a service difficulty or trouble report results from the use of customer-provided instrument-implemented coin telephones, even if the service difficulty is reported by persons other than the customer.

(AT) 34.2.3 Enclosures, found in Section 18 of this Tariff, will be offered under the same conditions as those for Semi-Public customers to those with customer-provided instrument-implemented coin telephones. This offering is part of the Private Coin Service offering.

Where portions of an existing Public or Semi-Public installation such as shelves, enclosures, etc., are left in place and desired for purchase by the customer to Private Coin Service, charges will be quoted upon such request.

(1) Additional charges (if applicable) will apply as stated in Section 1936f 1987 this Tariff.

(CT) PAYPHONE EXCHANGE ACCESS SERVICE

34.1 GENERAL - (Continued)

(AT) 34.1.6 - (Continued)

(AT) H. - (Continued)

(FC) 3. Coin Supervision (Coin Collect and Coin Return) - is used to control the disposition of the
(CT) coins held in the payphone equipment. Coin collect is used when a call has been completed and coin return is used if no answer or busy condition is encountered.

(FC) 4. Coin Administration - Telephone Company operators will attempt to release stuck coins at
(CT) the request of an end user. When coins cannot be released, the end user will be referred to the payphone service provider as indicated on the telephone instrument instruction card.

(FC) 5. Answer Supervision-Line Side - Equivalent timing functionality as provided by Answer
(CT) Supervision is provided through the serving central office.

(FC) 6. Operator Service - The Telephone Company's operator system will handle all local and
(RT) intraLATA calls dialed 0-, 0+ and 1+.

(FC) 7. Sent Paid Quotation - Telephone Company operator or the Automated Coin Telephone
Service quotes a charge to the end user for the deposit of coins when the end user is originating a 1+, 0+, or 0- call which is not alternately billed.

(FC) 8. Automatic Rate Table - Updated Rates for local and intraLATA sent paid calls will be
established by the SmartCoin feature. SmartCoin will automatically reflect rate changes and the network will determine if the rate has been satisfied.

(FC) 9. Automatic NPA-NXX Update - New area codes and central office prefixes will automatically
be added to SmartCoin via Bellcore updates. This list will properly identify local versus long distance terminating line designation.

(CT) 34.1.7 In the case of one-way Payphone Exchange Access Service, intercept treatment will be provided.

(CT) 34.1.8 Payphones and public facsimile devices must be connected to a Payphone Exchange Access Service
(CT) Access Line, at rates specified in Paragraph 34.4.1. A maximum of one payphone or public facsimile device may be connected to a Payphone Exchange Access Service Access Line.

(CT) 34.1.9 Section 17 of this tariff, "Rules and Regulations Applying to all Customer Contracts," is applicable to
the provision of Payphone Exchange Access Service.

(CT) 34.1.10 Directory listings may be provided under the regulations governing the furnishing of listings for
business subscribers. Upon request from the payphone service provider, the telephone number will be omitted from the directory and directory assistance records at no additional charge.

34.2 RESPONSIBILITY OF THE CUSTOMER - (Continued)

SEP 25 1989

34.2.2 The customer shall be responsible for the payment of a Customer Owned Equipment Trouble Isolation Charge as provided in Section 16 of this Tariff for visits by a Telephone Company employee to the customer's premises when a service difficulty or trouble report results from the use of customer-provided pay telephone, even if the service difficulty is reported by persons other than the customer.

34.2.3 Enclosures, found in Section 18 of this Tariff, will be offered under the same conditions as those for Semi-Public customers to those with customer-provided pay telephone. This offering is part of the Customer-Owned Pay Telephone Service offering.

Where portions of an existing Public or Semi-Public installation such as shelves, enclosure, etc., are left in place and desired for purchase by the customer to Customer-Owned Pay Telephone Service, charges will be quoted upon such request.

34.2.4 The customer shall be responsible for the payment of charges for all local and toll messages originating from or accepted at this type of service, excluding any Directory Assistance calls. Local usage charges as stated in this Tariff, will apply on all local, 7-digit, calls excluding those local Feature Group B calls required to access an interexchange carrier.

(CT)

34.2.5 The customer-provided pay telephones must be registered in compliance with Part 68 of the FCC's Registration Program or connected behind an FCC-registered coupler and have the following operational characteristics:

- A. Must be able to access the Telephone Company-provided operator at no charge and without using a coin.
- B. Must be able to access 911 Emergency Service, where available, at no charge and without using a coin.
- C. Must be able to access Directory Assistance.
- D. Must be able to complete local and toll calls.
- E. Must provide, attached to the set, instructions for use including specific instructions for the above requirements, refunds and complaints, one-way calling if so equipped, long distance access instructions, that the customer-provided pay set is not a Southwestern Bell Telephone Company Public Telephone. Said instructions shall also show the set's working telephone number and include a local or toll free number to allow the public to directly contact the private pay phone owner.

(CT) PAYPHONE EXCHANGE ACCESS SERVICE

34.3 VIOLATIONS OF REGULATIONS - (Continued)

(CT) 34.3.2 The payphone service provider shall discontinue use of the pay telephone or public facsimile device, or correct the violation and notify the Telephone Company in writing within five (5) days after receipt of such notice that the violation has been corrected.

(CT) 34.3.3 Failure of the payphone service provider to discontinue such use or to correct the violation will result in the suspension of the payphone service provider's service until the payphone service provider complies with the provisions of this tariff.

(CT) 34.3.4 Should a payphone service provider's pay telephone be found to be in violation of the Missouri Code of State Regulations, the Telephone Company will suspend or disconnect service upon order of the Missouri Public Service Commission.

(MT)(FC) 34.4.3 Service Charges

MISSOURI
Public Service Commission

Service and Equipment Charges as specified in the Local Exchange Tariff, apply in addition to other charges for Customer-Owned Pay Telephone Service. Service charges, as specified in Section 19 of this Tariff, apply in addition to other charges specified for Customer-Owned Pay Telephone Service.

(FC) 34.4.4 Charges are specified in the appropriate section of this Tariff for the services listed below, when
(CT) desired, are applicable to Customer-Owned Pay Telephone.(1)

- Three-Way Calling
- Call Forwarding
- Simultaneous Call Forwarding
- Call Forwarding - Busy Line
- Call Forwarding - Don't Answer
- Call Forwarding - Busy Line/Don't Answer

(FC) 34.4.5 Rates and Charges applicable to Customer-Owned Pay Telephone Service installation will be as
(AT) specified in the Local Exchange Tariff. This charge will also apply when, upon customer
(AT) request, an existing Customer-Owned Pay Telephone Service access line incurs subsequent activity to change to or from a SmartCoin access line.

(FC)(MT)(CT) 34.4.6 Directory Assistance Service is provided as specified in Section 6 of this Tariff.

OBSOLETE PLEXAR^R-II SERVICE

MISSOURI
Public Service Commission

(CP) 35.0 OBSOLESCENCE TERMS

Plexar-II service contained in this section is an obsolete service available only to existing customer. Moves, changes and additions shall be in accordance with the definition of "Obsolete to Existing Customer" as defined in Section 8 of this Tariff.

Customers Under A Fixed Monthly Payment Plan:

- May, prior to the expiration of the existing contract, subscribe to Plexar-II service as contained in Section 45 provided that the new contract term be at least 12 months longer than the time remaining on the existing contract. Termination liability charges will not apply when the customer continues with an equivalent service arrangement (i.e., same serving office, current system size).

CANCELLED

DEC 27 2000

By *W.R. 1*
Public Service Commission
MISSOURI

Upon expiration of the contract must: (a) subscribe to Plexar-II service as contained in Section 45; (b) subscribe to the Plexar Custom offering contained in Section 33; (c) discontinue the service. The selection of option (a) or (b) will be determined based on the terms and conditions specified in the appropriate tariff sections.

Customers Under The Month-To-Month Payment Plan:

- May continue with service until 12 months after the original effective date of Section 45. At that time they must: (a) subscribe to the Plexar-II offering contained in Section 45; (b) subscribe to the Plexar Custom offering contained in Section 33; (c) discontinue the service. The selection of option (a) or (b) will be determined based on the terms and conditions specified in the appropriate tariff sections.

Customers currently subscribing to optional features through the Special Service Arrangements process contained in Section 45 of this Tariff will be converted to the applicable rate.

(CP)

Customers may subscribe to optional features not offered in this section but contained in Section 45 at the applicable rate.

35.1.4 Feature Descriptions

Automatic Callback - This feature allows a Plexar-II user who encounters a busy condition when calling another Plexar-II line to dial an activation code and be automatically called back when the called line becomes idle.

Automatic Identified Outward Dialing (AIOD) - This feature provides automatic identification of stations on out-dialed calls for purposes of individual station billing.

Automatic Route Selection - Basic - This feature allows alternate routing of off-network calls when the first choice route is busy.

Busy Verification - This feature allows an attendant to establish connections to apparently busy station lines or trunks to determine if they are in working order.

(AT) (1) Available only to existing customer.

35.1.4 Feature Descriptions--(Continued)

Call Forwarding - Busy Line - This feature provides for forwarding of incoming calls to a preselected Plexar-II station when the called station is busy.

Call Forwarding - Don't Answer - This feature provides for forwarding of incoming calls to a preselected Plexar-II station when the called station does not answer after a predetermined number of ringing cycles.

Call Forwarding - Variable - This feature allows incoming calls to be forwarded to a preselected station line, within as well as outside the Plexar-II system.

Call Pickup - The held call cannot be added to another call. This feature also allows a Plexar-II station user to answer any call within an associated preset pickup group. If more than one line within the pickup group has an unanswered call, the call that is answered is the one that has been ringing the longest.

Call Transfer - Individual - All Calls, Consultation Hold - All Calls, and Three-Way Calling - This feature allows a Plexar-II station user to transfer any established call to another station line within or outside the Plexar-II system, hold any existing call and originate a call to another station line within or outside the Plexar-II system, and add a third party to any established call for a three-party conference, without the assistance of the attendant.

Call Waiting - Intragroup - This feature allows those Plexar-II stations with the Call Waiting - Terminating feature to be call waiting on intragroup calls.

Call Waiting - Originating - This feature allows a Plexar-II station user to direct a call waiting tone toward a busy called Plexar-II station. The busy called station can retrieve the calling station by hanging up and being rung back or by depressing the switchhook to place the existing call on hold and answering the waiting call.

35.1.4 Feature Descriptions--(Continued)

Call Waiting - Terminating - This feature allows a Plexar-II station user who is engaged in a telephone conversation to be alerted via an audible tone that an incoming call is attempting to reach that station user. The busy called station can retrieve the waiting call by hanging up and being rung back or by depressing the switchhook to place the existing call on hold and answering the waiting call.

Circle Hunting - This feature provides line hunting in which the hunt for an idle line starts with the called line and proceeds in a prearranged order to all lines in the group.

Conference Calling - Attendant Arrangement - This feature allows a Plexar-II attendant to connect a maximum of five parties, not including the attendant to a conference facility.

Conference Calling - Station Line Arrangement - This feature allows a Plexar-II station user to establish conference connections involving up to six conferees, including the conference controller.

Dial Call Waiting - This feature provides the ability for originating Plexar-II stations to invoke call waiting service on selected intragroup calls by dialing the dial call waiting access code followed by the extension number of the station to be call waited.

Direct Inward Dialing (DID) - Allows an incoming call to reach a Plexar-II station without attendant assistance.

Direct Outward Dialing (DOD) - Allows a Plexar-II station user to gain access to the exchange network without attendant assistance.

Directed Call Pickup - This feature allows for a call directed to a Plexar-II station line to be answered by another Plexar-II station user within the same group or system by dialing a unique answer code and the extension number of the line to be answered.

35.1 GENERAL--(Continued)

35.1.4 Feature Descriptions--(Continued)

MISSOURI
Public Service Commission

Distinctive Ringing & Call Waiting Tone - This feature enables a Plexar-II station user to determine the source of a call incoming to the station. The station user is also able to determine the source of the call on call waiting calls.

Hunting - Basic - This feature provides hunting for an idle line starting with the called station and ending with the last station in the prearranged group, completing the call to the first idle line encountered.

Intercommunication - This feature allows a Plexar-II station user to directly dial other stations within the same Plexar-II system without attendant assistance.

Night Service - This feature allows incoming calls normally directed to the attendant to be routed to preselected station lines within the customer group and is activated by the depression of a designated key at the attendant position. As an option, Call Forwarding may be used to direct incoming calls to preselected station lines and may be answered in a designated group of stations or by entire system using Call Pickup and/or Directed Call Pickup.

Outgoing Trunk Queuing - WATS - This feature provides efficient usage of business customer private facilities by queuing individual station calls and providing a maximum time limit for a call to remain on queue before possible overflow to the Direct Distance Dialing (DDD) network.

Preferential Hunting - This feature provides a type of line hunting which permits a prehunt over a subset or preferential group of terminals before hunting through the multiline hunt group (MLHG). The hunt through the MLHG can be a regular or circle hunt.

Remote Access Capability - This feature allows a remote caller access to the features of a Plexar-II system by dialing the number associated with the incoming facility and an optional security code.

35.1.4 Feature Descriptions-(Continued)

Remote Test Verification System (RTVS) - This feature provides the capability to have a specified Plexar-II station perform verification and/or call through maintenance tests remotely to verify the operations of a specific facility within a Plexar-II group. RTVS may test the following types of facilities: Tandem Tie Trunks; Tie Trunks; Network Access Trunks; Two-Way or outgoing Foreign Exchange Trunks; and Intermachine Groups (including Carrier Access Groups).

Simplified Message Desk Interface - This feature provides the capabilities for a customer to establish a message desk facility and provide message desk services. A message desk attendant can receive forwarded calls and call-related data via a data link between the central office and the customer's message desk facility. The message desk attendant can identify the number called, the type of forwarding used, and the calling number (for intercom calls), permitting the attendant to efficiently handle calls on a personalized basis.

Speed Calling - 6 Codes - This feature allows station users to have abbreviated codes assigned for up to six frequently called numbers. The list of frequently called numbers may be common to the entire Plexar-II system or unique to each Plexar-II station line. A common list is controlled by one designated Plexar-II station line in the Plexar-II system. Unique lists are controlled by the individual Plexar-II station lines.

Speed Calling - 30 Codes - This feature is the same as Speed Calling - 6 Codes, except that up to 30 numbers can be programmed.

Split Service Offering - This feature provides for segregation of a customer's Plexar-II station lines into separate groups thereby enabling each group to have a different set of common features.

Station Message Detail Recording(SMDR) - This feature provides a magnetic tape record of call details for outgoing calls placed over DDD, CCSA, WATS, FX, tie line facilities and OCC access lines.

35.2 RULES AND REGULATIONS-(Continued)

MISSOURI
Public Service Commission

- 35.2.3 The minimum charge for Plexar-II station lines, excluding fully restricted station lines and any other chargeable items or equipment or service, shall be the rates applicable to 30 Plexar-II station lines at the customer's primary location. Additionally, the maximum number of station lines that can be installed with the initial installation of the customer's Plexar-II system is 74 station lines. Subsequent installations of station lines which would bring the total number of stations beyond 74 are allowed.
- 35.2.4 A Plexar-II basic station and station line facility consist of all facilities, including intercommunication and outside plant facilities from the Plexar-II dial switching equipment to the network interface at the customer's premises.(1)
- 35.2.5 Plexar-II station line facilities are charged in 1/4 mile increments as measured in air miles from the station location to the serving office. The station line facility rates are applicable to Plexar-II primary and remote locations' station lines which meet the minimum station requirement and any other station lines at alternate locations within the same serving offices associated with the primary and remote locations. The rates apply to station lines in excess of the number of Plexar-II access lines.
- 35.2.6 The customer may move Plexar-II Service within the same serving central office where facilities permit based on cost and subject to the appropriate service connection charges associated with the move. The old contract will not be affected. However, the station line facility rates may change due to distance changes. The rate for this portion will be subject to prevailing rates at the time of move.
- 35.2.7 The primary location of a Plexar-II customer served by switching equipment located on Telephone Company premises must be in the same serving office area from which service is furnished.
- 35.2.8 A remote location will be furnished only if located in the same exchange as the primary location or zones of a metropolitan area.
- 35.2.9 When a customer requests a special service offering or modification of a standard service offering, it will be furnished whenever possible if not detrimental to any of the services or equipment of the Telephone Company. Such special service offerings or modification of standard service offerings will be furnished at additional charges.

- (1) Plexar-II station line facility rates do not apply to outside plant facilities for off-premises stations.
- (2) Available only to existing customer.

35.3 PAYMENT PLAN

MAR 30 1994

35.3.1 The Plexar-II Payment Plan allows the customer to pay a fixed rate for either a 1-month, 12-, 24-, 36- or 48-month period. Under the 1-month option, the customer pays a fixed rate for 60 months of service. In addition, an additive charge applies for the first month of service. During the course of any fixed term, including 60 months for the 1-month option, the payment is not subject to a Telephone Company-initiated rate change. The customer may also choose a month-to-month payment option. Month-to-month rates are subject to a Telephone Company-initiated rate change.

MISSOURI
Public Service Commission

35.3.2 Installation and nonrecurring charges can be deferred over the length of any fixed term over one month. Annuity factors utilized in deferring these charges are listed in Section 17.6.5 (Rules and Regulations Applying to All Customer's Contracts, Payments for Service) of the General Exchange Tariff.

(CT)(AT)

(AT)

(RT)

(RT)

35.3.3 Basic station rates, station line facility rates, facility terminating arrangements and optional features are covered under this payment plan. All other rates and charges not specifically covered in this section are not included. Plexar-II access lines are not included in this plan.

35.3.4 Additions to service available under this plan can be added to the existing agreement, providing at least 90 days remain on the customer's contract. These additions can be coterminous with the original contract, or under another contractual option, and at rates at the time of addition for the term chosen. Also, additions may be made under the month-to-month payment option. If less than 90 days remain, additions must be made under the month-to-month option.

(FC) 35.3.5 Termination charges are not applicable to Plexar-II station line facilities when the customer adds Plexar-II access lines with an associated reduction in the number of station line facility rate elements.

(FC) 35.3.6 A termination charge based on the present worth of the remaining monthly payments will be applicable under the following conditions if the subscriber: a) moves to a different serving central office; b) disconnects the entire service; c) disconnects more than 20 percent of the stations listed in the Letter of Election.

The termination charge is calculated as follows:

A. Under any conditions above subtract the allowable 20 percent station fluctuation from the station quantity under contract.

B. Calculate 70 percent of the monthly rate for stations subject to termination liability.

C. Determine the appropriate present worth of an annuity factor for the remaining months left in the contract. This factor is based on a 12.44 percent discount rate.

(MT) D. Multiply the results of steps 2 and 3 to determine the termination liability amount.

35.3 PAYMENT PLAN-(Continued)

FEB 10 1988

35.3.6-(Continued)

The new customer assumes the service in place under the existing agreement until the expiration of the fixed payment period. Changes and additions to the assumed service can be made after the first day the service has been assumed.

35.3.7 At the conclusion of 60 months for the 1-month option or the fixed term for any other contract term, the customer must elect one of the following options:

CANCELLED

- Convert to the month-to-month rate.
- Renew the service at terms, conditions and rates that may exist at the time of renewal.
- Discontinue the service.

AUG 23 1993 #12
BY Jan G.S.

Public Service Commission

If the customer does not notify the Company which option he elects by the contract expiration date, service will continue at the monthly rate currently in effect for the month-to-month option.

35.3.8 Termination charges are not applicable to Plexar-II station line facilities when the customer adds Plexar-II access lines with an associated reduction in the number of station line facility rate elements.

35.3.9 A termination charge based on the present worth of the remaining monthly payments will be applicable under the following conditions if the subscriber: a) moves to a different serving central office; b) disconnects the entire service; c) disconnects more than 20 percent of the stations listed in the Letter of Election.

The termination charge is calculated as follows:

- A. Under any conditions above subtract the allowable 20 percent station fluctuation from the station quantity under contract.
- B. Calculate 70 percent of the monthly rate for stations subject to termination liability.
- C. Determine the appropriate present worth of an annuity factor for the remaining months left in the contract. This factor is based on a 12.44 percent discount rate.

PLEXARSM-II SERVICE

RECEIVED

JUN 8 1988

35.4 RATES-(Continued)

35.4.3 Plexar-II Access Line Rates

MISSOURI
Public Service Commission

- A. Apply the equivalent PBX Trunk Rate per Plexar-II access line (2). In addition, apply the Touch-Tone line rate, specified in Section 24, to access lines arranged for outgoing or two-way traffic.
- B. End User Common Line (EUCL) charges will be billed to Plexar-II Service as set forth in the Access Charges Tariff.
- C. For Plexar-II Service, with payment options of 1-month, 12-, 24-, 36- or 48-month periods an equivalent to the business EUCL charge will apply per Plexar-II access line. The difference between the calculation from Paragraph 35.4.3, B. and this paragraph will be credited to the customer's account. This paragraph does not apply to Plexar-II Service with a month-to-month payment option.

- (1) These rates are not subject to Company-initiated rate changes for the fixed term option.
- (2) These rates are subject to Company-initiated rate changes.
- (3) A Service and Equipment/I.C./NRC of \$5.50 applies when providing or arranging hunting, changing to or from restricted stations, nonrestricted or semi-restricted stations, or changing station numbers.
- (4) The minimum charge for Plexar-II station lines, excluding fully restricted station lines and any other chargeable items of equipment or service, per Plexar-II system, shall be the rates applicable to 30 Plexar-II station lines at the customer's primary location and 30 Plexar-II station lines per each customer remote location served by a different serving office.
- (5) Once the minimum station line requirements have been met at the customer's primary or remote location, the customer may have any number of station lines at alternate remote locations within the same serving office associated with the primary or remote location meeting the minimum station line requirements. The rates applicable to the station lines at the primary and remote locations are applicable to the station lines at the alternate locations within the same serving offices.
- (6) If the customer does not meet the minimum charge for at least one location within a different serving office, apply Plexar-II basic station rates. In addition, apply private line channel charges as specified in the Private Line Service Tariff.
- (7) These rates are applicable to Plexar-II primary and remote locations' station lines which meet the minimum station requirement and any other station lines at alternate locations within the same serving offices associated with the primary and remote locations. The rates apply to station lines in excess of the number of Plexar-II access lines.
- (8) This service provides the facilities necessary within the system for a tie line termination and for connection to the Telecommunications Network.
- (9) Universal tie line terminal charges apply tie lines directly connecting two PBX, Centrex, Plexar, or similar systems without using the telecommunications network.

35.4 RATES--(Continued)

**MISSOURI
Public Service Commission**

35.4.8 Footnotes--(Continued)

- (10) Also intended for use in terminating interstate Enhanced Private Switched Communications Service (EPSCS) channels, Type A.
- (11) This service provides the facilities necessary within the Plexar-II System for CCSA-type network termination.
- (12) Refer to Section 2 of the Private Line Service Tariff for applicable private line charges.
- (13) Tie lines connecting Plexar-II Systems, or a Plexar-II System with a Centrex, PBX, or similar system, of different customers are provided only if each of the systems involved is connected to the serving central office by trunks.
- (14) Network access terminals are furnished with Plexar-II Systems to provide station users access to the customer's SCAN and CCSA-type networks.
- (15) The Service and Equipment Charges for Optional Features apply only to changes or additions to existing systems.
- (16) This feature is subject to termination liability as specified in Paragraph 35.3.6.
- (17) These rates apply to off-premises stations served by the primary serving office.
- (18) For remote and off-premise locations that meet minimum station requirements, apply intraexchange interoffice mileage charges and Foreign Serving Office Channel Termination charges from the Private Line Tariff to the tie lines connecting the remote serving central office to the primary serving central office.
- (19) These rates are subject to Commission-ordered change based on the results of the Company's digital cost study agreed to in Case No. TR-88-8. The customer may choose to cancel service without termination liability if a rate increase is ten percent or more than the contracted for rate.
- (20) The monthly additive does not apply to rate group B customers if they subscribe to Local Metropolitan or Special Optional Local Metropolitan service.
- (21) This rate applies whenever a facility group is initially established or when terminations are added to an existing facility group. This rate is not sensitive to the number of terminations added.
- (22) When Plexar-II Service is being used in conjunction with a pooled data arrangement, apply Information Terminal Service rates, as found in the Local Exchange Tariff, in lieu of Plexar-II access line rates.
- (23) Plexar-II Service is obsolete to systems exceeding 74 stations as identified in Paragraph 35.2.1, preceding.
- (24) Available only to existing customer.

JUL 16 1993

35.4 RATES-(Continued)

35.4.9 Plexar-II Optional Feature Rates-(Continued)

**MISSOURI
Public Service Commission**

Footnotes:

- (1) The rates for the fixed term options are not subject to Company-initiated rate changes.
- (2) This optional feature is subject to termination liability as specified in Paragraph 35.3.6.
- (3) OCC Services may be terminated in Automatic Route Selection by the use of the universal tie line terminal at applicable tariff rates in addition to the Automatic Route Selection rates and charges.
- (4) A pattern may have overflow to tone or overflow to the Telecommunication Network, but not to both.
- (5) Applies per facility regardless of the number of patterns having access to that facility.
- (6) This charge applies to each NPA translated where Central Office code translation is required for more than one NPA per single facility, group or route.
- (7) If these changes result in a change in screening, it should be considered as a new pattern, and normal installation charges apply.
- (8) The monthly rate applies in addition to the standard rate for the associated facilities.
- (9) If Toll Restricted or Toll Diverted stations access patterns described in a.(1), or b.(1), they should be charged for as either a.(2) or b.(2), respectively.
- (10) When Call Forwarding - Busy Line and Don't Answer are provided on the same station, both must forward to the same telephone number (either station line or attendant). The customer must specify whether he wants Plexar-II intercom calls to be forwarded in addition to incoming calls.
- (11) Applies on initial installation and subsequent operational changes. Examples are: change of the forwarding telephone number, change from incoming only to incoming and station-to-station forwarding.
- (12) This feature requires Call Pickup. The rates for Directed Call Pickup are in addition to the rates for Call Pickup.
- (13) When one station line in a Dial Pickup Group is equipped for Call Pickup, all station lines in that same group are automatically equipped with the same feature; therefore, the rates and charges will apply to each station line in the Call Pickup Group.

- (14) Each Station with Call Waiting-Intragroup must also have Call Waiting-Terminating. The recurring rates for Call Waiting-Intragroup apply in addition to those for Call Waiting-Terminating. Cancel Call Waiting Capability is also provided with this feature. A Complex Installation/Move Charge of \$104.50 applies per system for one non-standard Plexar-II Cancel Call Waiting Access Code.
- (15) A maximum of \$4.75 applies per station line when installing any three or fraction thereof noted optional features with the initial installation of the station line or on subsequent additions of these features to an existing station line.
- (16) Dial Call Waiting and Call Waiting-Originating cannot be provided on the same line.
- (17) Complex Installation/Move Charge applies only to each Circle Hunt group established, not to each terminal within that group.
- (18) These rates are additive to Circle Hunt rates if the customer requires both.
- (19) The Complex Installation/Move Charge applies when initially equipping a Multiline Hunt group with at least one Preferential Hunt List. This charge also applies each time a Multiline Hunt group has at least one Preferential Hunt list addition, deletion or change.
- (20) A Preferential Hunt list may have a maximum of 18 terminals included.
- (21) Priority Queuing available with initial Complex Installation/Move Charge at no additional charge.
- (22) Applicable only when adding or removing WATS bands in queue.
- (23) In addition to charges for Remote Access Capability, appropriate tariff rates and charges for the incoming and outgoing facilities also apply.
- (24) Each station line equipped may have access to only one 30-code arrangement and only one 6-code arrangement.
- (25) The maximum number of 30-code arrangements is 128 per customer.
- (26) Service provision and billing will be coincident with the billing period(s) of the private facilities involved.
- (27) Applies per order for initial installation or changes of equipped stations or tie lines.
- (28) No other announcement than standard Plexar-II announcement may be provided with this rate.

Revised Sheet 1
Replacing Original Sheet 1

(CT)PUBLIC TELEPHONE CARD READER SERVICE

36.1 GENERAL

RECEIVED
MAR 20 1986
Public Service Commission

(CT) 36.1.1 Public Telephone Card Reader Service is an exchange station installed at the Company's initiative, or at its option, at a location chosen or accepted by the Company as suitable and necessary for furnishing this service to the general public. Public Telephone Card Reader Service consists of a Telephone Company-provided coin/coinless or coinless instrument with a slot for insertion of credit cards, a line to the serving end office, end office features, a call processor and facilities to connect the processor to the end office switch and, in the case of coin instruments, a coin slot to allow for coin operation.

(CT) 36.1.2 Public Telephone Card Readers provide single button access to participating long distance providers and Telephone Company approved commercial credit card billing. Public telephone users of these instruments will have the ability to originate local and long distance calls. All intrastate, intraLATA calls attempted by utilizing a Telephone Company approved commercial credit via an unauthorized carrier will not be allowed.

(CT) 36.1.3 Public Telephone Card Readers are installed primarily for the use of the general public in making outgoing calls. It is contemplated that the occupants of the premises on which the Public Telephone Card Readers are located have subscribed or shall subscribe to such service as is necessary, in the judgment of the Telephone Company, in the conduct of their business. The Public Telephone Card Reader sets are supplemental to such subscribers' telephones, and Public Telephone Card Reader telephone numbers will not be listed in the directory nor shall the agent on whose premises they are located be permitted to advertise these telephone numbers.

(CT) 36.1.4 As an enhanced Public telephone service, the following features are provided with this service:

- (AT) - Public, magnetic stripe card reader, coin/coinless or coinless station
- (AT) - Single button, auto-dialing carrier selection (IC logos on buttons)
- (AT) - Ability to reach participating long distance providers via Feature Groups A, B, C, D
- (AT) - Touch-Tone keypad
- (AT) - Voice prompts to instruct users
- (AT) - A sign with dialing instructions for all types of calls
- (AT) - Selective Class of Call Screening
- (AT) - Incoming call denial (optional)
- (AT) - Denial of 1+ calling without Telephone Company approved credit card or carrier selection
- (AT) - Fraud reduction through limited credit card verification
- (AT) - Clearing house for rating and billing services
- (AT) - Coin Telephone Service functions with coin capable sets

(NR)CREDIT CARD CALLER* SERVICE

36.1 GENERAL

36.1.1 CREDIT CARD CALLER (CCC) Service is an exchange station installed at the Company's initiative, or at its option, at a Public Service Commission accepted by the Company as suitable and necessary for furnishing service to the general public. CCC Service consists of a Telephone Company-provided coinless instrument with a slot for insertion of credit cards, a line to the serving end office, end office features, a call processor and facilities to connect the processor to the end office switch.

36.1.2 CCC's provide single button access to participating long distance providers and commercial credit card billing. Public telephone users of these instruments will have the ability to originate local and long distance calls. All intrastate, intralata calls attempted by utilizing a Commercial Credit Card via an unauthorized carrier will not be allowed.

36.1.3 CCC's are installed primarily for the use of the general public in making outgoing calls. It is contemplated that the occupants of the premises on which the CCC's are located have subscribed or shall subscribe for such service as is necessary, in the judgment of the Telephone Company, in the conduct of their business. The CCC's are supplemental to such subscribers' telephones, and CCC numbers will not be listed in the directory nor shall the agent on whose premises they are located be permitted to advertise the CCC numbers.

36.1.4 As an enhanced coinless telephone service, the following features are provided with CCC:

- Public, magnetic stripe card reader, coinless station
- Single button, auto-dialing carrier selection (utilized on buttons)
- Ability to reach participating long distance providers via Feature Groups A, B, C, D
- Touch-Tone keypad
- Voice prompts to instruct users
- A sign with dialing instructions for all types of calls
- Selective Class of Call Screening
- Incoming call denial
- Denial of 1+ calling without commercial credit card or carrier selection

(CT)PUBLIC TELEPHONE CARD READER SERVICE

36.1 GENERAL-(Continued)

36.1.5 Long distance calls may be originated by the end user in several different ways:

- (CT) A. Pick up the receiver, insert a Telephone Company approved commercial credit card, depress a single button designated as the interexchange carrier of choice and dial the appropriate digits (e.g., NPA+NXX-XXXX).
- B. Pick up the receiver, depress a single button designated as the carrier of choice and dial the appropriate digits (e.g., PIN number plus NPA+NXX-XXXX).
- (AT) C. Pick up receiver, insert credit card, dial 0+ and the appropriate digits (e.g., NPA+NXX-XXXX) or advise the operator of the authorized carrier's credit card number or enter the credit card number by using the dialing pad after hearing the recognition code.
- D. Pick up the receiver, dial 0, advise the operator of the type of call to be placed (third number billing, collect or credit card) and the telephone number to be called.
- (AT) E. For coin capable sets, pick up receiver, wait for dial tone if appropriate, insert coins, and dial appropriate digits.

(CT) 36.1.6 Long distance calls placed by using a Telephone Company approved commercial credit card are routed to the call processor for credit card billing and verification and then connected to the user's designated carrier-of-choice over switched access facilities. All other long distance calls are handled in the normal manner (e.g., routed to interexchange carriers).

(CT) 36.1.7 Section 17 of this Tariff, "Rules and Regulations Applying to All Customers' Contracts," is applicable to the provision of Public Telephone Card Caller Service.

36.1.8 SOUTHWESTERN BELL TELEPHONE COMPANY SHALL BE HELD HARMLESS FROM ANY AND ALL LOSS, DAMAGE AND EXPENSE OCCASIONED BY OR ARISING OUT OF CLAIMS FOR INJURY TO PERSONS OR DAMAGE TO PROPERTY CAUSED BY OR CONTRIBUTED TO BY THE PROVISION OF BILLING BY VENDOR AND/OR INTEREXCHANGE CARRIER.

(CT) PUBLIC TELEPHONE CARD READER SERVICE

36.2- LIMITATIONS

- (CT) 36.2.1 Only Telephone Company approved commercial credit cards that conform with the American Banking Institute's standards and are authorized by the long distance authorized provider will be accepted by the call processor. Commercial credit cards will not be accepted by the operator assisted calls.
- 36.2.2 Use of an unauthorized commercial credit card will result in rejection by the call processor and a voice prompt to the user.
- (RT)
- (FC) 36.2.3 Single button auto-dialing will only be made available for long distance authorized providers or carriers.
- (FC) 36.2.4 Extension stations on Public Telephone Card Reader Service will not be permitted.

36.3 RESPONSIBILITY OF THE TELEPHONE COMPANY

- (CT) 36.3.1 The Telephone Company agrees to install and maintain the public telephone facilities including the Public Telephone Card Reader sets and enclosures. Booths and shelves are furnished at the discretion of the Telephone Company.
- (CT) 36.3.2 The Telephone Company is solely responsible for determining locations appropriate for installation of the Public Telephone Card Reader. The criteria for establishment of Public Telephone Card Readers are potential usage and revenues, as well as public need and convenience.
- 36.3.3 The Telephone Company must provide all Southwestern Bell's information for rating and billing, in compliance with current tariffs, to the billing services vendor.
- (CP) 36.3.4 Button assignment for participating long distance authorized providers or carriers will be the responsibility of Southwestern Bell Telephone Company.
- 36.3.5 The Telephone Company shall be responsible for compliance with all other terms and conditions of its contract with the agent.

(NR)CREDIT CARD CALLER SERVICE

36.2 LIMITATIONS

- 36.2.1 Only commercial credit cards that conform with the American Banking Institute's standards and are authorized by the long distance carrier will be accepted by the call processor. Commercial credit cards will not be accepted on operator assisted calls.
- 36.2.2 Use of an unauthorized credit card will result in rejection by the call processor and a voice prompt to the user.
- 36.2.3 CCC sets may only be placed in locations within the local calling area of the dial office/call processor location.
- 36.2.4 Single button auto-dialing will only be made available for long distance providers.
- 36.2.5 Extension stations on CCC Service will not be premitted.

36.3 RESPONSIBILITY OF THE TELEPHONE COMPANY

- 36.3.1 The Telephone Company agrees to install and maintain the public telephone facilities including the CCC sets and enclosures. Booths and shelves are furnished at the discretion of the Telephone Company.
- 36.3.2 The Telephone Company is solely responsible for determining locations appropriate for installation of the CCC. The criteria for establishment of CCC are potential usage and revenues, as well as public need and convenience.
- 36.3.3 The Telephone Company must provide all Southwestern Bell's information for rating and billing, in compliance with current tariffs, to the billing services vendor.
- 36.3.4 Button assignment for participating long distance providers will be determined by a lottery. These assignments will remain in effect for a six-month contract period.
- 36.3.5 The Telephone Company shall be responsible for compliance with all other terms and conditions of its contract with the agent.

(CT)PUBLIC TELEPHONE CARD READER SERVICE

36.4 RESPONSIBILITY OF THE AGENT

- 36.4.1 Agents are required to own, maintain and assume responsibility for the safe condition of the enclosure in respect to power, wiring and outlets.
- 36.4.2 The agents shall provide suitable space for the telephone facilities and proper heat and light so as to permit the public proper use of the facilities. The agent shall display any sign or signs provided by the Telephone Company and agreed upon by the agent.
- 36.4.3 The agents shall be responsible for compliance with all other terms and conditions of their contract with Southwestern Bell Telephone Company.

(AT) 36.5 RESPONSIBILITY OF THE LONG DISTANCE AUTHORIZED PROVIDER OR CARRIER

- 36.5.1 The long distance authorized provider or carrier must have Switched Access Service within the local calling area of the dial tone office/call processor location.
- 36.5.2 The long distance authorized provider or carrier must negotiate with the Telephone Company in order to participate in this offering and arrange for logos and button assignment. They must participate on all Public Telephone Card Readers at the location specified in the contract for a minimum 12 month period.
- 36.5.3 The long distance authorized provider or carrier must make billing arrangements with the Telephone Company approved commercial credit card companies who will provide billing services for their customers. They must then advise the Telephone Company of the credit cards which will be accepted for users of their long distance service.
- 36.5.4 The long distance authorized provider or carrier must supply all information for rating and billing to the billing services vendor.
- (CP) 36.5.5 The long distance authorized provider must participate in a full 12-month minimum contract period or pay termination charges as specified in Paragraph 36.7.4.

36.7 RATE REGULATIONS

MISSOURI

Public Service Commission

36.7.1 In addition to the rates and charges for Public Telephone Card Reader Service, rates for Switched Access Service and Carrier Common Line Access Service will be applied as specified in Section 3 and 6 of the Access Service Tariff.

36.7.2 Local calls to Company numbers such as repair service and public emergency service numbers such as 911 may be placed without charge.

(CP)

Local messages billed to a Telephone Company credit card, to a third telephone number or placed collect will be charged the appropriate Dial Calling Card Station-to-Station, the Operator Station-to-Station or the Person-to-Person Service charge as specified in the Local Exchange Tariff.

Requests to verify the status of an access line or to interrupt a busy access line will be charged the applicable operator service charge as specified in the Local Exchange Tariff.

36.7.3 IntraLATA long distance messages are charged at rates specified in the Southwestern Bell Telephone Company Long Distance Message Telecommunications Service Tariff. Also, the tariffs or rate schedules of interexchange carriers apply for use of their services.

36.7.4 Any long distance provider not participating for the full negotiated contract period will be subject to termination charges equal to the monthly rate for Public Telephone Card Reader Service times the number of months remaining in the contract period.
