TARIFF FORMAT

REC'D JUN 09 2000

- A. Page Numbering - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a decimal is added. For example, a new page added between pages 4 and 5 would be 4.1.
- B. Page Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th revised Page 4 cancels the 3rd revised Page 4.
- C. Paragraph Numbering Sequence - There are five levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
 - 2.1
 - 2.1.1
 - 2.1.1.(A)
 - 2.1.1.(A).1.
- D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the pages contained in the tariff, with a cross-reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision.

- 2.7.2 The Customer is responsible for payment of any sales, use, gross receipts, excise or other local, state and federal taxes, charges or assessments, however designated (excluding taxes on the Carrier's net income) imposed on or based upon the provision, sale or use of the Carrier's services.
- 2.7.3 All state and local sales taxes are listed as separate line items on the Customer's bill. All charges and fees subject to MoPSC jurisdiction, except taxes and franchise fees, will be submitted to the MoPSC for prior approval.
- 2.7.4 Other taxes, charges and regulatory assessment shall be identified in the aggregate on the Customer's bill.

2.8 PAYMENT FOR SERVICE

- 2.8.1 All charges due by the Customer are payable to any agency duly authorized to receive such payments. The billing agency may be a LEC, credit card company, or other billing service. The terms and conditions for billing, payment and collection, including without limitation, any late payment charge, specified in the LEC's local exchange service tariff shall apply to charges of the Carrier when the LEC serves as the billing agent for the Carrier or buys the Carrier's accounts receivables. Terms of payment shall be according to the rules and regulations of the agency, but must comply with the Commission's rules and regulations.
- 2.8.2 Adjustments to the Customer's bills shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.

Service Commission

4.4.1 General Description

REC'D JUN 09 2000

Operator Services allow Subscribers to place specified types of subscriber-dialed and operator-assisted calls via local telephone access lines or via dedicated facilities.

The appropriate surcharge will be assessed on a per call basis. For calls made using a telephone company card or a commercial credit card, acceptance of the card will be dependent upon the Carrier's ability to verify the card as valid. Only those cards accepted by the Carrier may be used for Operator Services.

The Carrier will not bill for incomplete calls where answer supervision is available. The Carrier will not bill for incomplete calls and will remove any charges for incomplete calls upon (i) subscriber notification or (ii) Carrier's knowledge.

The caller and billed party, if different from the caller, will be advised that the Carrier provides its own operator service at the initial contact.

Rate quotes will be given upon request, at no charge, including all rate components and any additional charges.

Only tariffed rates approved by this Commission for the Carrier shall appear on any local exchange telephone company (LEC) billings.

The Carrier shall be listed on the LEC billing if the LEC has multi-Company billing ability.

The Carrier will employ reasonable calling card verification procedures, acceptable to the Telephone Company issuing the calling card.

The Carrier will route all 0 - or 00 - emergency calls in the quickest possible manner to the appropriate local emergency service provider, at no charge.

Upon request, Carrier will transfer calls to another authorized interexchange Carrier or the LEC, if billing can list the caller's actual origination point.

4.6.2 Dedicated MPLS-VPN Service

A. General

Dedicated MPLS-VPN Service is a packet-switched network that provides a point-to-point or multi-point service arrangement for customers requiring special high bandwidth data applications. This service is offered with various transport speeds ranging from 1.5 Mbps to 1 Gbps from one customer premise location to another customer premise location or multiple locations within the state.

B. Conditions and Limitations

1. The service is offered subject to the availability of central office equipment and appropriate outside plant facilities. The service may not be available to all customers and/or at all speeds due to loop length, line conditioning and/or facility availability.
2. Customers must subscribe to this service for a minimum of twelve months.
3. Rates are based on term agreements. The rates are in effect from the time the service is installed until the end of the term agreement period. Upon expiration of the term agreement period, the customer may keep the same term agreement period or select a new term agreement period. Whichever term agreement the customer chooses, the rates for that term agreement will be at the rates in effect at that time.
4. Rates will not be increased by the Company until the term agreement period expires.
5. If the service is canceled by the customer prior to the completion of the term agreement period, the customer will be obligated to pay a termination charge. The applicable termination charge will be equal to the number of months remaining in the term agreement period times the monthly rate provided under the term agreement. Termination charges will not apply, if the customer replaces the service with comparable service and a term length that is equal to or greater than the original term agreement period.
6. If the applicant requests a different type of construction, equipment or facilities other than what is normally provided, the applicant may be assessed the costs of such arrangement.
