### TARIFF FORMAT

MISSOURI

Puelle Service Commission Page Numbering - Page numbers appear in the upper right hand corner of the page. Pages are numbered sequentially and from time to time new pages may be added to the tariff. When a new page is added between existing pages, a decimal is added to the preceding page number. For example, a new page added between Page Nos. 3 and 4 would be numbered 3.1.

**Explanation of Symbols** - When changes are made in any tariff page, a revised page will be issued canceling the tariff page affected. Changes will be identified on the revised page(s) through the use of the following symbols:

- (C) to signify changed regulation.
- (D) to signify discontinued rate, regulation, or text.
- (I) to signify increased rates.
- (M) to signify material relocated from one page to another without change.
- (N) to signify new rate, regulation, or text.
- (R) to signify reduced rate.
- (S) to signify reissued material.
- (T) to signify a change in text, but no change in rate or regulation.
- (Z) to signify a correction.

Service Commission LD-2011-0033

In addition to symbols for changes, each changed provision in the tariff shall contain a vertical line in the right hand margin of the page which clearly shows the exact number of lines being changed.

HAR 2 C 1995

Access Line - One of several types of circuits used to carry long distance calls all or part way between customer premises and long distance company switches. When calls are originated or received over customers' regular local lines or over customers' special WATS Access Lines, long distance companies buy Feature Group access lines to carry calls between their switch or POP and the local telephone company switch. Customers may originate or receive calls over special dedicated access lines directly from the customer premises to the long distance company's POP.

Accounting Code - A number, usually two, three or four-digits, entered when dialing a telephone call that tells a long distance company to allocate and subtotal the call to a particular subaccount. Calls are listed and summarized by account code on Customers' monthly bill.

Answer Supervision - An electrical signal fed back up the line by the local telephone company at the distant end of a long distance call to indicate positively that the call has been answered by the called telephone. Activates the billing equipment to start timing calls completed over FGB or FGD access trunks at the distant end.

Authorization Code - A number, usually ten or fourteen digits, entered using a tone telephone to identify the caller as a customer of the long distance service. Used primarily to verify the caller as a customer and to bill calls.

Authorized User - A person, firm, corporation or any other entity authorized by the Customer to communicate, utilizing the Carrier's service.

Subscriber - The person, firm, partnership, corporation, or other entity who designates the company as its primary Interexchange carrier (PIC) for long distance telecommunications service. Thus, the Subscriber has a pre-existing business arrangement with the Company and is also a customer.

V & H Coordinates - Geographic points which define the originating and terminating points of a call in mathematical terms so that the airline mileage of the call may be determined. Call mileage is used for the purpose of rating calls.

**10XXX** - Available only to Equal Access customers. To send calls over a carrier other (N) than the one that would automatically get the customer's "1+" calls, the customer dials "10XXX/101XXXX" then "1+" the long distance number. "XXX/XXXX" is the three/four digit Carrier Identification Code of the carrier the customer wants to use.

Wide Area Telecommunications Service (WATS) - AT&T's name for their original first generation long distance service. Either In-WATS (800 number) inward dialing from any phone in a specified geographical area, or Outward (OutWats) dialing to any phone in a specified area from one specific telephone.

- (D) All facilities provided under this tariff are directly controlled by CCC and the Customer may not transfer or assign the use of service or facilities without the express written consent of Carrier. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.
- (E) Prior written permission from Carrier is required before any assignment or transfer. All regulations and conditions contained in this tariff shall apply to all such permitted assignees or transferees, as well as all conditions of service.
- (F) For any telephone number which accesses VTI's service on a per call (N) basis via the Company's Carrier Access Code ("CAC") for 1+ calling and is subscribed to a service listed in this tariff for which the customer is required to be entered into the VTI billing database prior to use; VTI reserves the right to remove the telephone number from the billing database in the event that a period of ninety (90) consecutive days passes during which the telephone number does not access VTI's service via a CAC(s). In the event that a customer is removed from the VTI billing database, upon next use of VTI's service, the customer's VTI service will be the current default service (i.e., the service listed in this tariff that does not require the customer to be entered into the VTI billing database prior to use). The customer will be billed automatically for this use according to the terms of the current default service. (N)

## 2.13.1 Intentional Abuse of Service

MISSCURI Public Sarvice Commission

CCC has the right to refuse telephone service to any premises and at any time to discontinue telephone service, if it finds it necessary to do so to protect itself against intentional abuse. Intentional abuse of service includes, without limiting the generality of the foregoing, the use of service or facilities of Carrier to transmit a message or to locate a person or otherwise to give or obtain information, without payment of a message toll charge of an exchange service charge.

Another form of such abuse is an intentional uninterrupted connection of one exchange station to another station, excluding those connections charged on an elapsed time basis, which permits the use of the facilities in a manner similar to private line service. It also includes intentional receiver off-hook conditions.

#### **3.1.1** Introduction

MISSOURI Fublic Service Commission

The Carrier endeavors to provide high quality service by reselling facilities-based interexchange (IXC) carrier services including, but not limited to, access, switching, transport, termination and other services for the direct transmission and reception of voice, data and other types of communications. Service is available twenty-four (24) hours per day, seven (7) days a week, subject to routine maintenance and outages beyond the control of the Carrier. Carrier's switching equipment is designed and engineered to provide high quality transmission of voice and data with a minimum level of impairment such as noise and echo. However, overall quality may vary somewhat due to the variability in quality of the connections provided by the local telephone companies and other Interexchange carriers.

#### **3.1.2** Timing of Calls

(A) LDMTS charges are based on the actual conversation time transpiring on CCC's network. No charge will generally apply to uncompleted calls, which include "ring busy" and "ring no answer calls," and such uncompleted calls will not be knowingly charged to the Customer and, if charged in error, will be refundable to the Customer. In LEC service areas where Soft Answer Supervision must be utilized, rather than Hard Answer Supervision, and the Customer fails to hang up when receiving a busy signal or "ring no answer call" for an excessive period of time, the Customer may be charged as if the call were completed. CCC will determine that a call has been established by utilizing Hard Answer Supervision, where available, from the local telephone company or underlying carrier.

#### 3.2.6 Operator Services

CCC's Operator Services are intended for use by residential customers for calling within the State of Missouri from their home telephones. Customers may access Operator Services from their home telephones by dialing 00 to access a live or automated operator if they have selected CCC as the primary interLATA interexchange carrier for the calling station, or Customers may dial 10-1X-XXX + 00 to access a live or automated operator when CCC is not the presubscribed interexchange carrier for the calling station.

Calls are rated based on operator type (i.e., live or automated), call duration and time of day. Per call surcharges based on calling and billing options also apply.

Chargeable time begins when a network connection is established between the calling station and the called station. Chargeable time ends when either party disconnects the call thereby releasing the network connection.

Chargeable time for collect calls and Person-to-Person calls differs from the definition above and is applied as follows:

For collect calls, chargeable time begins when the called party accepts responsibility for payment of the charges associated with the call. For Person-to-Person calls, chargeable time begins when a network connection is established between the calling party and the requested party.

Rates and charges for CCC's Operator Services are set forth in Section 4.2.7 following.

Customers of any and all services described in Sections 3 and 4 will be assessed a Minimum Usage Fee, per account, in each billing cycle in which their qualifying Clear Choice Communications charges do not meet the minimum usage amount for their bill type. The Minimum Usage Fee is the difference between the minimum usage amount (i.e., \$5.00 or \$10.00 based on bill type) and the Customer's qualifying charges in a billing cycle. Customers billed directly by CCC will be assessed a Minimum Usage Fee if their qualifying charges total less than \$10.00 in a billing cycle. Customers billed through their local telephone company will be assessed a Minimum Usage Fee if their qualifying charges total less than \$5.00 in a billing cycle. The Minimum Usage Fee will not apply to customer accounts with no call usage in a given billing cycle when the account is assigned to a rate plan without a monthly fee or to one with only a monthly access fee, a fee which is billed only if the customer has used the service during the billing cycle.

Qualifying charges to be applied toward calculating the monthly usage minimum will be derived only from the following CCC charges: all long distance, calling card, toll free, operator assisted and directory assistance usage charges, Carrier Cost Recovery Fee as well as any monthly access fees or monthly recurring charges associated with the customer's rate plan.
