A. GENERAL

MISSOURI
Public Service Commission

1. The rates for Local Exchange Service are subject to the conditions as set forth herein and the General Rules and Regulations governing provision of such service covered in Section 3 of this Company's tariff.

B. CONDITIONS

1. Service Upgrades

At locations where facilities permit, two-party and four-party residence service is not offered to customers requesting new telephone service or to customers requesting a change in their existing telephone service.

Locations in which facilities permit the exclusive provision of one-party service for all customers within an exchange will be designated as such on the Local Exchange Service Offerings Sheets, I.

Those locations in which facilities permit the exclusive provision of one-party service for all customers within a designated area will be identified as approved by the Missouri Public Service Commission on the Local Exchange Service Offerings sheet for that exchange. Existing two-party and four-party customers will be allowed to continue their service until such time as they are upgraded by the Company as shown on the approved Local Exchange Service Offerings sheet for that exchange. At the time the customer's two-party or four-party service is upgraded to one-party service, the application of normal service charges will not apply.

The two-party or four-party conversion will consist of the following:

- a. The Company will remove the tip party identifier, change the customer to a new cable pair, or if required, change out the ringer and/or instrument. The customer will not be charged for a premise visit or for an instrument modification when required.
- b. As the Company completes upgrading, as shown on approved Local Exchange Service Offerings sheets, only one-party business and one-party residence service will be available. One-party rates will be effective for each customer on the date the customer's service is upgraded to one-party service.

BY 5th R.S. #H

At locations where facilities permit, Two-Party ~~Public Service Commission~~ Residence service is not offered to customers requesting ~~Missouri~~ telephone service or to customers requesting a change in their existing telephone service.

Locations in which facilities permit the exclusive provision of One-Party service for all customers within an exchange will be designated as such on the Local Exchange Service individual exchange tariff sheets.

Those locations in which facilities permit the exclusive provision of one-party service for all customers within a designated area will be identified as approved by the Missouri Public Service Commission on the Local Exchange Service tariff sheet for that exchange. Existing two-party and four-party customers will be allowed to continue their service until such time as they are upgraded by the Company as shown on the approved Local Exchange Service tariff sheet for that exchange. At the time the customer's two-party or four-party service is upgraded to one-party service, the application of normal service charges will not apply.

The two-party or four-party conversion will consist of the following:

- a. The Company will remove the tip party identifier, change the customer to a new cable pair, or if required, change out the ringer and/or instrument. The customer will not be charged for a premise visit or for an instrument modification when required.
