## TARIFF FORMAT

NOV 09 1995

**A. Sheet Numbering** - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. When new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

**B. Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the PSCM. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the PSCM follows in its tariff approval process, the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

**C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

**SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS** 09 1995

**Automated Direct Inmate Account** - A billing arrangement where the call charges are deducted from a preexisting account established between the inmate and the correctional institution. The rates and charges for Automated Direct Inmate Account are the same as Automated Collect Station and Automated Collect Person.

**Authorized User** - A person, firm or other legal entity authorized by a Subscriber to utilize the services provided by the Company to the Subscriber.

**Collect Call** - A billing arrangement by which the charge for a call may be charged to the called party, provided the called party accepts the charge.

**Calling Card Call** - A billing arrangement by which the charge for a call may be billed to a valid telephone company - issued calling card. The terms and conditions of the card-issuing local telephone company will apply to payment arrangements.

**Carrier or Company** - Whenever used in this tariff, "Carrier" or "Company" refers to Global Tel\*Link Corporation unless otherwise specified or clearly indicated by the context.

**Commercial Credit Card Call** - A billing arrangement by which a call may be charged to an authorized credit card, such as MasterCard or VISA.

**Commission** - The Public Service Commission of Missouri.

**Customer** - The calling party using the services of Global or the party responsible for the payment of charges, such as in the case of collect calls.

**Customer Dialed Calling Card** - A service whereby the Authorized User dials all of the digits necessary to route and bill the call.

**Direct Dialed Call** - A call whereby the caller dials "1 + (area code) + destination telephone number" to place the call. The call is directly terminated to the destination telephone number and billed to the originating line.

- (h) Without notice in the event of unauthorized use of service. Whenever service is discontinued for fraudulent use of service, Global Tel\*Link may, before restoring service, require the Customer to make, at his or her own expense, all changes in facilities or equipment necessary to eliminate the illegal use.
- (i) Without notice when necessary for the Company to comply with any order or request of any governmental authority having jurisdiction.
- (j) For periods of inactivity over sixty (60) days.
- (k) When any governmental or regulatory condition imposed upon Global Tel\*Link materially and negatively impacts the financial viability of the service, as determined by Global Tel\*Link in its best business judgment.

2.11 Interruption of Service

Credit allowances for interruptions of service which are not due to the Carrier's testing or adjusting, to the negligence of the Customer, or to the failure of channels, equipment or communications systems provided by the Customer, are subject to the general liability provisions set forth in Section 2.4 herein. It shall be the obligation of the Customer to notify Carrier immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, Customer shall ascertain that the trouble is not within his or her control.

The Company will provide a credit equal to one minute of applicable service for calls that are interrupted or subject to inadequate transmission. Credits will not be issued when an interruption or service deficiency is not reported to the Company or is caused by the failure of power, equipment or systems not provided by the Company.

## SECTION 3 - DESCRIPTION OF SERVICE

DEC 09 1995

## 3.1 General

Service is offered to Customers and is available throughout the state. Presubscribed service is available from equal access areas only.

## 3.2 Timing of Calls

3.2.1 Long distance usage charges are based on the actual usage of Global's network. Timing of each call begins as specified below, and ends when either the called or calling party disconnects.

Collect Calls - Timing begins when the called party accepts the responsibility for payment.

Person-to-Person Calls (other than collect) - Timing begins when the designated party comes on the line, or when the caller agrees to speak with a substitute party.

All Other Calls - Timing begins when a connection is established between the called and calling parties.

3.2.2 Unless otherwise specified in this tariff, the minimum call duration for billing purposes is one (1) minute.

3.2.3 Unless otherwise specified in this tariff, usage beyond the initial period is measured and rounded to the higher full minute for billing purposes.

3.2.4 Global will not bill for incomplete calls and will remove any charges for incomplete calls upon Customer notification or Global's knowledge.

3.2.5 Positive acceptance of the call is required for automated collect-only services. If positive acceptance is not received, the call will be disconnected and no charges will apply.

## 3.3 Calculation of Distance

MO. PUBLIC SERVICE COMM.

Usage charges for all mileage sensitive products are based on the airline distance between the serving wire center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the serving wire centers as defined by BellCore (Bell Communications Research), in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the serving wire center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the wire centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating serving wire centers of the call.

Formula:

$$\sqrt{\frac{(V_1 - V_2)^2 + (H_1 - H_2)^2}{10}}$$

## 3.5 Global Tel\*Link Operator Services

MO. PUBLIC SERVICE COMM.

Global endeavors to provide high quality resold long distance service. Service is available 24 hours a day, 7 days a week. As a reseller, Global relies on the quality service provided by its underlying carriers. To that end, Global selects its carriers based on quality, reliability, and price.

In addition, Global offers automated operator assisted long distance calling subject to the following.

- 1) Global will not bill for incomplete calls and will credit any charges for incomplete calls upon Customer notification.
- 2) Global will brand each call with its name to each caller and each billed party (if different) upon initial contact.
- 3) Global will provide rate quotes upon request at no charges. Rate quotes will consist of all charges associated with the service requested.
- 4) Only tariffed rates approved by this Commission for Global shall appear on local exchange carrier company bills.
- 5) If the LEC has multicarrier billing capability, Global name will be listed on the bill.
- 6) Except for services provided for the exclusive use of inmates of confinement institutions, Global will route all 0- calls to the Local Exchange Company operator in the quickest possible manner and at no charge.
- 7) Global will utilize calling card verification procedures as accepted by calling card issuing companies.
- 8) Except for service provided exclusively for the use of inmates of confinement institutions, neither Global or its Subscribers will block access to other carriers.

**SECTION 3 - DESCRIPTION OF SERVICE, CONT'D****3.7 Pre-paid Debit Card Service****MISSOURI  
Public Service Commission**

Customers establish service with Global Tel\*Link through the purchase of a Customer Card Account. Each Customer Card Account has a unique authorization code which the company uses to verify the authorized user's available balance. Each customer card account is established with a specified available balance. The available balance is depleted on a real per call basis at the rates specified in this tariff.

The available balance and usage rates specified in this tariff are stated inclusive of taxes. Customers are notified of their available balance upon each entry into the Company's network.

When the available balance has been fully depleted, the customer may use another customer card account, provided there is an adequate balance remaining.

Prepaid Card Service is available to customers for originating calls from any business, residential, or pay telephone access line. Customers dial a 1-800 number followed by their customer card account authorization code. Customers are informed of their available balance and can place calls to any intraState location until the customer card account available balance is fully depleted. Depletion of the available balance is based on minutes of use rounded up to the full minute.

(Per Minute Rate (all times/all miles): \$.45

**Sponsor Programs**

From time to time, the company may enter into sponsor programs with third parties for the joint marketing and production of cards and services. The Sponsor may offer the Company's services to end users at reduced rates or at no charge as a promotional offering, either alone or as part of a combined package with other goods and services.

For further details, please refer to the Global Tel\*Link Corporation FCC Tariff #2.

**RECEIVED****SECTION 4 - RATES**

MDV 09 1995

**4.1 General**

Each Customer is charged individually for each call placed through the Company. Charges are computed on an airline mileage basis as described in Section 3.3 of this tariff.

Rates vary by mileage band, time of day, day of week and call duration.

Customers are billed based on their use of Global Tel\*Link's long distance service. No fixed monthly recurring charges apply.

**4.2 Time of Day Rate Periods**

The following time of day rate periods apply to all calls based upon the time at the originating location unless otherwise specified in this tariff.

**RATE PERIOD:**

Daytime - 8:00 AM up to, but not including, 5:00 PM  
Monday through Friday.

Evening - 5:00 PM up to, but not including, 11:00 PM  
Sunday through Friday.

Night & Weekend - 11:00 PM up to, but not including, 8:00 AM all days, all day Saturday and Sunday to but not including 5:00 PM.

Holidays - On Company-recognized holidays, the rate applicable for all classes of intrastate calls is the rate applicable to the Evening rate period unless a lower rate would normally apply. Those holidays are:

New Years Day  
Independence Day  
Labor Day  
Thanksgiving Day  
Christmas Day
