Access Services Tariff
Section 10
1st Revised Sheet 1
Replacing Original Sheet 1

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES

10.1 General

This Section covers Special Access Services that are provided to an IC(1) for use only by agencies or branches of the Federal Government and

(AT) | other users authorized by the Federal Government. In addition, this section covers the
| Telecommunications Service Priority (TSP) System procedures as set forth in this section and
| administered by the National

(AT) Communications System (NCS). Services provided to state emergency operations centers are included. These services provide for command and control communications, including communications for national security, emergency preparedness and presidential requirements. They are required to assure continuity of Government in emergency and crisis situations and to provide for national security.

Services for command and control communications and for national security and emergency preparedness sometimes require short-notice and short-duration service provisions. These provisions are especially needed to meet presidential requirements or in response to natural, man-made or declared emergencies. Requirements of this type cannot be forecasted and are usually needed for a relatively short period. The provision of service under these conditions may require the availability of facilities, such as portable microwave equipment, which are provided on a temporary basis by the Telephone Company, IC or End User.

10.2 Emergency Conditions

These services will be provided on the date requested or as soon as possible thereafter when the emergency falls into one of the following categories:

- State of crisis declared by the National Command Authorities (includes commitments made to the National Communications System in the "National Plan for Emergencies and Major Disasters").

(1) The Federal Government may be an IC for the provision of intrastate telecommunications services for itself or for others.

Issued: July 3, 1991

Effective: August 2, 1991

By R. D. BARRON, President-Missouri Division
Southwestern Bell Telephone Company
St. Louis, Missouri

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.4 Safeguarding of Service

10.4.1 Facility Availability

In order to insure communications during periods of emergency, the Telephone company will, within the limits of good management, make available the necessary facilities to restore service in the event of

(AT) damage or to provide temporary emergency service, as set forth in

(AT) Paragraphs 10.7.1, C. and 10.7.5, C., following.

In order to meet the requirements of agencies or branches of the Federal Government, the Telephone Company may utilize government-owned facilities, when necessary to provide service.

10.5 Federal Government Regulations

In accordance with Federal Government Regulations, all service provided to the Federal Government as an IC will be billed in arrears. However, this provision does not apply to other customers that obtain services under the provisions of this Tariff to provide their services to the Federal Government.

10.6 Quotation Charges

In order to comply with Federal regulations, quotation preparation charges will not apply when submitting unsolicited quotes or when submitting quotes in response to a general Request For Proposal or Invitation to Bid from agencies or branches of the Federal government as an IC. However, a charge for quotation, as set forth in Section 2, Paragraph 2.4.3, preceding, will apply in all other cases.

To accommodate the transmission of restored polar two-level facsimile signals with a minimum signal element width of twenty microseconds at a rate of 50,000 bits per second.

(MT)

(AT)

C. Telecommunications Service Priority (TSP) System

- 1. The TSP System is a service, developed to meet the requirements of the Federal Government, which provides the regulatory, administrative, and operational framework for the priority installation and/or restoration of National Security Emergency Preparedness (NSEP) telecommunications services. The TSP System is available for both Switched and Special Access Services. The TSP System applies only to NSEP telecommunications services, and requires and authorizes priority action by the Telephone Company providing such services.

The TSP System applicability is limited to Access Services that the Telephone Company can discretely identify for priority provisioning and restoring.

In addition, TSP System service shall be provided in accordance with the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service" and the "Telecommunications Service Priority (TSP) System for National Security Emergency Preparedness (NSEP) Service."

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.8 Service Offerings to the Federal Government-(Continued)

DEC 29 1983

10.8.1 Type and Description-(Continued)

Public Service Commission

B. Wideband Digital Special Access Service

Service arrangements for secured communications to accommodate the transmission of binary digital baseband signals in a random polar format.

1. Wideband Secure Communications Type I

For transmissions at the rate of 18,750 bits per second.

2. Wideband Secure Communications Type II

For transmission at the rate of 50,000 bits per second.

3. Wideband Secure Communications Type III

To accommodate the transmission of restored polar two-level facsimile signals with a minimum signal element width of twenty microseconds at a rate of 50,000 bits per second.

To accommodate the transmission of binary digital baseband signals in a random polar format at the rate of 50,000 bits per second.

10.8.2 Mileage Application

Mileage, when used for rate application between two serving wire centers, shall be determined by the V & H Coordinates Method as set forth in Section 2, Paragraph 2.7, preceding.

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.7 Service Offerings to the Federal Government-(Continued)

10.7.1 Type and Description-(Continued)

(AT) C. Telecommunications Service Priority (TSP) System-(Continued)

- 2. Some of the rate elements required for the TSP System are included in other sections of this tariff as general service offerings. This section makes reference to them for regulations, rates, and charges in order to reflect the complete TSP System.
- 3. The customer for TSP System Service also must be the same customer for the Access Service with which it is associated.
- 4. Under certain conditions it may be necessary to preempt one or more customer services with a lower or no restoration priority in order to install or restore NSEP telecommunications service(s) of a higher priority. If such preemption is necessary, and if circumstances permit, the Telephone Company will make reasonable effort to notify the preempted service customer of the action being taken. Credit allowance for such service preemption shall be made in accordance with the provisions set forth in Section 2, Paragraph 2.4.4, E., preceding, concerning Temporary Surrender of a Service.
- 5. The customer, in obtaining TSP System service, acknowledges and consents to the provision of certain customer service record information by the Telephone Company to the National Communications System (NCS) in order for the NCS to maintain and administer its overall TSP System. This customer service record information will include only TSP Authorization Code and Telephone Company Circuit/Service ID.
- 6. When TSP is revoked, or discontinued, and the associated Access Service is continued in service, no charge applies for such a discontinuance.
- 7. Credit allowance for service interruption for Telecommunications Service Priority shall be the same as for the Access Service with which it is associated as set forth in Section 2, Paragraph 2.4.4, preceding.

(AT)

Issued: July 3, 1991

Southwestern Bell Telephone Company
St. Louis, Missouri

No Supplement to this tariff will be issued except for the purpose of canceling this tariff.

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.7 Service Offerings to the Federal Government-(Continued)

10.7.1 Type and Description-(Continued)

(AT) C. Telecommunications Service Priority (TSP) System-(Continued)

- 8. Certain activities associated with the TSP System performed by the Telephone Company are included in the following rate elements:
 - a. Priority Installation (Provisioning) - The act of supplying telecommunications service to a customer, including all associated transmission, wiring, and equipment, if provided by the Telephone Company, at an earlier time than standard order intervals would allow.
 - b. Priority Restoration Level Implementation (Assignment) - The act of designating the priority level for the restoration of a particular NSEP telecommunications service.
 - c. Priority Restoration Level Change - The act of changing the priority level assignment for an NSEP telecommunications service. This includes any extension of an existing priority level assignment to an expanded NSEP service.
 - d. Priority Restoration Administration and Maintenance - The act of administering and maintaining the TSP system in such a manner that it corresponds to the National Communications System data base.
- 9. When performing Priority Restoration (Repair), and/or Priority Installation, of an Access Service, the Telephone Company will attempt to notify the customer regarding certain Access Services where additional labor charges apply, as set forth in Section 13, Paragraph 13.2.6, following, before the required additional labor is undertaken. The customer, in obtaining a Priority Restoration, recognizes that quoting charges and obtaining permission to proceed with the restoration of certain Access Services may cause unnecessary delays and, as a result, would be contrary to the aforementioned Rules and Regulations.

In subscribing to TSP Service, the customer recognizes this condition and grants the Telephone Company the right to quote charges after the restoration or installation has been completed.

ACCESS SERVICES

10. SPECIAL FEDERAL GOVERNMENT ACCESS SERVICES-(Continued)

10.7 Service Offerings to the Federal Government-(Continued)

10.7.5 Rates and Charges-(Continued)

(AT) C. Telecommunications Service Priority (TSP) System

The following rates and charges are in addition to all other rates and charges that may be applicable for other services furnished under the provisions of this tariff which operate in conjunction with the TSP System. This includes, but is not limited to, Testing Services as set forth in Section 13, Paragraph 13.3.5, following.

Access Ordering Charges as set forth in Section 5, preceding, apply to TSP.

The Priority Installation (PI) charge and the Priority Restoration (PR) charge are applied per circuit for Special Access Service; per line or trunk for Switched Access Service. PI and PR apply only one time per circuit or line except when there is subsequent order activity to add legs or lines to the service. One PI or PR will apply each time leg(s) or line(s) are added to an existing TSP service. No TSP charges apply to subsequent order activity that does not affect the TSP assignment.

The Priority Level Change charge (PR8) applies when the only TSP order activity is that of changing priority levels. It applies each time the level is changed to a higher or a lower level.

The Administration and Maintenance charge (PR9) applies per line or trunk for Switched Access Service and per circuit for Special Access Service. Each leg of a multipoint service will be treated as a

(AT) separate circuit and the PR9 will apply on a per leg basis.

11.1 Description of Special Facilities Routing of Access Services

The services provided under this Tariff are provided over such facilities as the Telephone Company may elect. Special facilities routing is involved when, in order to comply with requirements specified by the IC or End User, the Telephone Company provides Switched Access Service, Special Access Service or Special Federal Government Access Service in a manner which includes one or more of the following conditions:

11.1.1 Diversity

Two or more services must be provided over not more than two different physical routes.

11.1.2 Avoidance

A service must be provided on a route which avoids specified geographic locations.

11.1.3 Cable-Only Facilities

Certain Voice Grade services are provided on Cable-Only Facilities to meet the particular needs of an IC or End User.

Service is provided subject to the availability of Cable-Only Facilities. In the event of service failure, restoration will be made through the use of any available facilities as selected by the Telephone Company.

Access Services Tariff
Section 11
1st Revised Sheet 2
Replacing Original Sheet 2

ACCESS SERVICES

11. SPECIAL FACILITIES ROUTING OF ACCESS SERVICES-(Continued)

11.1 Description of Special Facilities Routing of Access Services-(Continued)

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering IC. If requested by the IC, this information will be provided when service is installed and prior to any subsequent changes in routing.

(AT) The offering of Special Facilities Routing of Access Services contemplates the use of existing facilities. Should facilities not be available, it may be necessary to construct such facilities, either as (1) normal or (2) Special Construction. If Special Construction is involved, the regulations, as set forth in Section 14, following apply.

(CT) The rates and charges for Special Facilities Routing of Access Services as set forth in Paragraph 11.2, following, are in addition to all other rates and charges that may be applicable for services provided under other sections of this Tariff.

(AT) 11.2 Rates and Charges for Special Facilities Routing of Access Service

The rates and charges for Special Facilities Routing of Access Services are as follows:

11.2.1 Diversity

11. SPECIAL FACILITIES ROUTING OF ACCESS SERVICES-(Continued)

DEC 29 1983

11.1 Description of Special Facilities Routing of Access Services-(Continued)

In order to avoid the compromise of special routing information, the Telephone Company will provide the required routing information for each specially routed service to only the ordering IC. If requested by the IC, this information will be provided when service is installed and prior to any subsequent changes in routing.

The rates and charges for Special Facilities Routing of Access Services will be determined on an individual-case basis and are in addition to all other rates and charges that may be applicable for services provided under other sections of this Tariff.

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

For the proposes of Section 13 of the Southwestern Bell Telephone Access Tariff P.S.C. Mo.-No. 36 the terms "Basic Time", "Overtime" and "Premium Time" are defined as follows:

Basic Time - Work related efforts of the Telephone Company performed during normally scheduled working hours.

Overtime - Work related efforts of the Telephone Company performed outside of a normally scheduled work day.

Premium Time - Work related efforts of the Telephone Company performed outside of a normally scheduled work week.

13.1 Additional Engineering

Additional Engineering will be provided by the Telephone Company at the request of the customer only when:

- A. A customer requests additional technical information after the Telephone Company has already provided the technical information normally included on the Design Layout Report (DLR) as set forth in 6.1.4 and 7.1.6, preceding.
- B. Additional engineering time is incurred by the Telephone Company to engineer a customer's request for a customized service as set forth in 7.2, preceding.

The Telephone Company will notify the customer that additional engineering charges, as set forth in 13.1.1 following, will apply before any additional engineering is undertaken.

(AT) If more than one engineer is involved in the same additional engineering project, the total amount of time for all engineers involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

(AT)

13.1.1 Charges for Additional Engineering

Access Services Tariff
Section 13
Original Sheet 1

ACCESS SERVICES

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

13.1 Additional Engineering

DEC 29 1983

Additional Engineering is that engineering or engineering consultation requested by the IC as set forth in Paragraphs 13.1.1 through Paragraph 13.1.3, following. The Telephone Company will notify the IC that additional engineering charges as set forth in Paragraph 13.1.4, following, will apply before any additional engineering is undertaken.

13.1.1 Engineering Consultation

Engineering Consultation involves technical advice from the Telephone Company to the IC not in connection with a specific order. Engineering Consultation also includes situations in which the IC requests the Telephone Company to provide information or to perform a function which will entail additional engineering by the Telephone Company. Inquiries of a short duration in which no significant engineering time is required and inquiries associated with IC service forecasts are not included.

13.1.2 Engineering of Connections with Other Telephone Companies

Engineering of connections with other telephone companies, if not Concurring Carriers, is the engineering activity of contacting, coordinating and designing with another telephone company, portions of facilities which connect to facilities provided by the other telephone company.

13.1.3 Charges for Additional Engineering

The charges for additional engineering are as follows:

Overtime, per engineer	AEH	79.33	74.24

13.2 Additional Labor

(CT) Additional Labor is that labor requested by the customer on a given service and agreed to by the Telephone Company.

The Telephone Company will notify the customer that Additional Labor Charges will apply before any additional labor is undertaken. Additional Labor Charges apply on a first and additional basis for each half hour or fraction thereof. If more than one technician is involved in the same Additional Labor Project, the total amount of time for all technicians involved will be aggregated prior to the distribution of time between the "First Half Hour or Fraction Thereof" and "Each Additional Half Hour or Fraction Thereof" rate categories.

A call-out of a Telephone Company employee for Additional Labor at a time not consecutive with the Telephone Company's Business Day is subject to a minimum charge of four hours, i.e., when Overtime and/or Premium Time charges apply.

(AT) For Testing and Maintenance Services, if the customer elects not to release a circuit during the Telephone Company's Business Day, the Telephone Company will work with the customer to reach a mutually agreed upon time.

13.3.3 Easy Access Dialing

A. GENERAL DESCRIPTION

Easy Access Dialing is an arrangement whereby an end user customer (herein referred to as customer) of the Telephone Company or a local service provider that resells services of the Telephone Company for Telephone Exchange Service (either lines or trunks), FGA and BSA-A lines, WATS Access Lines and Plexar lines may select and designate to the Telephone Company an Interexchange Carrier (IC) to access, without dialing an access code. These are referred to as the customer's Primary Interexchange Carrier (PIC) for interLATA toll calls and the intraLATA Primary Interexchange Carrier (LPIC) for intraLATA toll calls. The customer may designate an IC for PIC and a different IC for LPIC.

(AT) | The end user or customer is identified as the person on the account who is responsible for payment of the account or any person contractually or otherwise lawfully authorized to change

(AT) telecommunications services and/or represent the end user customer.

Each IC will have one or more access codes assigned to it for its various types of service. When a customer or agent selects an IC as its PIC and/or LPIC, only one access code of that IC may be incorporated into the switching system of the Telephone Company permitting access to that IC by the customer or agent without dialing an access code except "1+" or "0+".

Should a customer or agent wish to use other services of the same IC or services of a different IC it will be necessary for the customer or agent to dial the necessary access code(s) to reach that IC's other service(s).

At the time a customer or agent advises the Telephone Company of its PIC and/or LPIC, the Telephone Company will use the IC access code for that IC from the designated carrier list unless the customer at that time directs the Telephone Company to use a different IC access code assigned to the customer's chosen IC. The PIC and LPIC may either be the same IC or a different IC.

Interstate intraLATA toll calls, service between points in different states which are in the same

Local Access and Transport Area, will be routed to the LPIC selected by the customer.

(CP) 13.3.3 Easy Access Dialing

- A. Easy Access Dialing is an arrangement whereby an End User may select and designate to the Telephone Company an IC to access, without an access code, for interLATA intrastate calls. This IC is referred to as the End User's primary IC and must be the same for both interLATA interstate and interLATA intrastate calls.
- B. Prior to the introduction of Easy Access Dialing in a serving end office, the existing End Users have Access Service to AT&T as their primary IC. With the introduction of Easy Access Dialing in a serving end office, End Users will be asked to select one of the following options at no charge:
 - Designate an IC as their primary IC from a list of ICs offering service in the End Users serving end office and dial 10XXX or other access codes to reach other ICs.
 - Designate that they do not want to have a primary IC and choose to dial 10XXX or other access codes for all calls for all ICs.

If the End User does not choose one of the preceding options prior to the Easy Access conversion date, an IC will be randomly assigned to them using the allocation process mandated by the Federal Communications Commission in the Interstate Access Tariff, FCC No. 68. The End User will then have (6) months after the conversion date in which they can choose one of the preceding options at no charge. Thereafter, a nonrecurring charge as set forth in Paragraph 13.3.3, D., following, applies for any change in Easy Access Dialing.

(CT)

B. On the effective date of this Tariff, all existing End Users will have Access Service to AT&T as their predesignated IC. Within six (6) months after the introduction of Feature Group D in a serving end office, End Users may select one of the following options at no charge. Thereafter a nonrecurring charge as set forth in Paragraph 13.3.3, D., following, applies for any change in Presubscription.

- Designate an IC as predesignated IC and dial 10XX or other access codes to reach other IC's.

- Designate that they do not want to be presubscribed to any IC and choose to dial 10XX or other access codes for all calls for all IC's, including AT&T.

BY 1st RS 8
PUBLIC SERVICE COMMISSION

- A. Presubscription is an arrangement whereby an End User may select and designate to the Telephone Company an IC to access, without an access code, for interLATA intrastate calls. This IC is referred to as the End User's predesignated IC and must be the same for both interLATA interstate and interLATA intrastate calls.
- B. On the effective date of this Tariff, all existing End Users will have Access Service to AT&T as their predesignated IC. Within 90 days after the introduction of Feature Group D in a serving end office, End Users may select one of the following options at no charge. Thereafter a non-recurring charge as set forth in Paragraph 13.3.3, D., following, applies for any change in Presubscription.
 - Designate an IC as predesignated IC and dial 10XX or other access codes to reach other IC's.
 - Designate that they do not want to be presubscribed to any IC and choose to dial 10XX or other access codes for all calls for all IC's, including AT&T.

B. LPIC Assignments

The Telephone Company will make changes in the customer's LPIC assignment pursuant to (1) through (2) following:

1. New Service Requests

New customers will be asked to select a LPIC when they place an order with the Telephone Company for Telephone Exchange Service, FGA, BSA-A, WATS Access Line Service and Plexar Service. LPIC selection made when such orders are placed will incur no additional charges.

(AT)
(AT)

For Telephone Exchange service, FGA, BSA-A, and WATS Access Line Service, customers may select a separate LPIC for each line requested.

For Plexar service, customers may select their LPIC for a single Plexar line, multiple Plexar Lines or the Plexar Group. A Plexar Group defines a group of Plexar facilities (i.e., line, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Plexar Groups.

If a new customer fails to make a selection when placing an order for Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service or Plexar Service, the customer will be allowed a six month period from installation of their service to select a LPIC at no charge. Any changes made after the six month period has expired or any change subsequent to the initial LPIC selection during the six month period will incur Easy Access Dialing Change charges as set forth in Section 13.3.3.D following, specific to the line or lines being changed.(1)

B. PIC and LPIC Assignments

The Telephone Company will make changes in the customer's PIC and LPIC assignment pursuant to (1) through (2) following:

1. New Service Requests

New customers will be asked to select a PIC and LPIC when they place an order with the Telephone Company for Telephone Exchange Service, FGA, BSA-A, WATS Access Line Service and Plexar Service.

For Telephone Exchange service, FGA, BSA-A, and WATS Access Line Service, customers may select a separate PIC and LPIC for each line requested.

For Plexar service, customers may select their PIC and LPIC for a single Plexar line, multiple Plexar Lines or the Plexar Group. A Plexar Group defines a group of Plexar facilities (i.e., line, trunks, attendant features, etc.) with a common dialing pattern. A customer may have multiple Plexar Groups.

If a new customer fails to make a selection when placing an order for Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service or Plexar Service, the customer will be allowed a six month period from installation of their service to select a PIC and LPIC at no charge. Any changes made after the six month period has expired or any change subsequent to the initial PIC and LPIC selection during the six month period will incur Easy Access Dialing Change charges as set forth in Section 13.4.3, following, specific to the line or lines being changed.

New customers may also designate that they do not want a PIC and/or LPIC. This choice (No-PIC and No-LPIC) is considered a valid PIC and LPIC selection. Any subsequent changes will incur Easy Access Dialing Change charges as set forth in Section 13.4.3, following, specific to the line or lines being changed.

On all requests for new service, the Telephone Company will notify the customer of the PIC and LPIC assigned to the relevant line(s).

MISSOURI Public Service Commission

Easy Access Dialing for agents of public and semipublic pay telephones is furnished using guidelines as detailed in the Federal Communications Commission's Allocation Plan set forth above, except the six month notification provided to interexchange carriers of end offices converting to equal access prior to June 1, 1989.

(MT) | (MT)

C. Principal Provisions of the Allocation Plan:

- 1. The Telephone Company will notify customers and agents of the availability of equal access and Easy Access Dialing in their particular areas through the mailing of an Equal Access Ballot. The mailing of initial ballots will occur no later than 85 days prior to the conversion of the end office serving the customers and agents. Customers and agents will be asked to return their respective ballot within 30 days of its receipt.

Customers and agents may select one of the following options at no charge:

- indicate a primary IC for all of its lines
- indicate a different IC for each of its lines

Only one carrier may be selected for each particular line.

- 2. The Telephone Company will accept IC provided lists of customers and agents that have made individual arrangements with a specific IC to designate that IC as their primary long distance carrier. However, an IC must also submit a Limited Blanket Agency Agreement affirming that it does have authorization to act on behalf of the customer or agent to establish Easy Access Dialing Service. When customer or agent choice discrepancies occur, it may be necessary for the IC to furnish evidence of proper authorization upon request by the Telephone Company.

- 3. The Telephone Company will tabulate the initial ballots and the lists of customers and agents provided by ICs to determine the percentage of customers and agents that selected each IC. ICs that wish to receive allocated traffic must meet and maintain the ordered allocation eligibility criteria for the two year period following the equal access conversion date. If an IC wishes to change any of the agreed upon criteria within the two year period,

2. Existing Service Requests

a. Customers of existing Telephone Exchange Service, FGA or BSA-A lines, WATS Access Line Service and Plexar Service may request changes to their PIC and LPIC according to the selection options set forth in B., 1., preceding (e.g., separate PIC and LPIC, No-PIC and No-LPIC). For these services, the Telephone Company will make PIC and LPIC changes based upon the following:

1. For customer initiated requests, the Telephone Company will make PIC and LPIC changes upon notification by the customer of the change desired.
2. For IC initiated changes of customer PIC and/or LPIC assignments, the Telephone Company will make PIC and/or LPIC changes pursuant to an IC-provided list of customers accepted by the Telephone Company under a Limited Blanket Agency Agreement. When an IC relies on a Letter of Authorization (LOA) to make a change it must obtain from the customer a signed LOA authorizing the change. LOAs or other valid forms of authorization based on Missouri and/or Federal regulations, must not be more than 45 days old when such changes are submitted to the Telephone Company.

b. Unauthorized PIC and LPIC Charge

An unauthorized PIC and/or LPIC change occurs when a customer's PIC and LPIC is changed without proper authorization by the customer. When a customer notifies the Telephone Company within 12 months of the date that its PIC and/or LPIC has been changed without its consent, the Telephone Company will notify the disputed PIC and/or LPIC of the dispute and revert the customer to its previous PIC and/or LPIC at no charge to the customer except as set forth in this section. The Telephone Company will also credit the customer's account for the disputed PIC and/or LPIC change.

The Telephone Company will request evidence of proper customer authorization from the disputed IC or agent that requested the PIC and/or LPIC change. If the IC or agent does not provide a LOA or other valid forms of authorization based on Missouri and/or Federal regulations, with a customer authorization date less than or equal to 45 days old from the date the change was submitted to the Telephone Company, Easy Access Dialing Change charges as set forth in Section 13.4.3, following, will be assessed to the disputed IC or agent. If the IC or agent provides a LOA or other valid forms of authorization based on Missouri and/or Federal regulations, appropriately signed and dated as described above, the Telephone Company will assess applicable PIC and/or LPIC Easy Access Dialing Change charges to the customer.

MISSOURI PUBLIC SERVICE COMMISSION

In lieu of the above LOA investigation, the IC may choose to participate in PIC and/or LPIC Switchback.

C. Principal Provisions of the Allocation Plan:-(Continued)

3. (Continued)

Customers not responding to the initial ballot will be sent a second ballot for the selection of a primary IC no earlier than 40 days prior to end office conversion. This second ballot will indicate the primary IC that has been assigned to them if they fail to respond to the second ballot.

When an IC listed on the initial ballot elects not to participate in the allocation process, the nonresponding customers' lines will be allocated to the remaining ICs in relative proportion to their initial results.

Separate allocation processes will be used for residential and business customer lines.

4. When a discrepancy is determined regarding a customer's designation of a primary IC, the following conditions apply depending upon the situation encountered:

- When a customer indicates more than one IC choice per line on a ballot, or returns an illegible ballot, the Telephone Company will contact the customer for clarification.
- When both a ballot and an entry on an IC provided customer list are received for one customer and the designated primary IC does not match on both documents, the Telephone Company will process the ballot as the customer's choice.
- When two or more ICs provide customer lists to the Telephone Company indicating that a particular customer has designated them as its primary IC, the customer will be allocated along with nonrespondents to the initial ballot. In such instances, the Telephone Company will notify the customer and the involved ICs of the conflict.

5. Customers served by an end office that was converted to equal access prior to May 31, 1985, and who have not selected a primary IC, will be subject to the provisions of the Allocation Plan on a retroactive basis.

C. Rate Regulation

- (RT) 1. Unless otherwise specified, Easy Access Dialing Change charges apply to each LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and
- (RT) Plexar lines, including changes to or from a No-LPIC designation.

(RT)(CT) Easy Access Dialing LPIC Change charges are set forth in Section 13.3.3.D following.

(RT)

- (RT)(AT) 2. A non-recurring charge, as set forth in 13.3.3.D following, to process a change in LPIC applies as follows:
 - (a) A nonrecurring charge applies when the request to change LPIC is submitted through mechanized methods.
 - (b) A nonrecurring charge applies when the request to change LPIC is submitted through manual methods.

As used above, manual methods are (i) personal interaction between a customer, or a person acting on behalf of a customer, and a Telephone Company employee; and (ii) any written submission from a customer, or a person acting on behalf of a customer, to a Telephone Company service center. Mechanized methods shall include all other methods. If a request utilizing a mechanized method results in manual processing, the mechanized nonrecurring charge shall apply upon completion of the request.

C. Rate Regulation

1. Unless otherwise specified, Easy Access Dialing Change charges apply to each PIC and LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and Plexar lines, including changes to or from a No-PIC and No-LPIC designation.

Easy Access Dialing PIC and LPIC Change charges are set forth in Section 13.4.3 following. Since Easy Access Dialing PIC Change charges exist in the Telephone Company Intrastate Access Service Tariff and the Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge.

2. Initial and Subsequent Selection

Existing customers may select an LPIC within six months from the implementation of intraLATA Dialing Parity in Missouri July 22, 1999 – January 22, 2000 without charge (No-LPIC is also a valid selection). Selection of an LPIC after the six-month period or any change to the customer’s initial LPIC selection will result in LPIC Change Charges as set forth in 13.4.3, following.

Issued: November 30, 2000

Effective: December 30, 2000

c. PIC and LPIC Switchback

PIC and LPIC Switchback is an option whereby the Telephone Company does not investigate the validity of a PIC and/or LPIC change if a business or residence customer disputes a PIC and/or LPIC change as set forth in Section 13.3.3.C.7.

C. Rate Regulation

- 1. Unless otherwise specified, Easy Access Dialing Change charges apply to each PIC and LPIC selection on Telephone Exchange Service, FGA and BSA-A lines, WATS Access lines and Plexar lines, including changes to or from a No-PIC and No-LPIC designation.

Easy Access Dialing PIC and LPIC Change charges are set forth in Section 13.4.3 following. Since Easy Access Dialing PIC Change charges exist in the Telephone Company Intrastate Access Service Tariff and the Interstate Access Service Tariff, the total charge to the customer will be calculated based on one half of the intrastate charge and one half of the interstate charge.

2. Initial and Subsequent Selection
