MAR 16 1993

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

MISSOURI

Public Service Commission

GTE MIDWEST INCORPORATED, a Delaware Corporation, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by Contel of Missouri, Inc. d/b/a GTE Missouri prior to April 1, 1993, the beginning of its possession.

By this notice it also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which Contel of Missouri, Inc. d/b/a GTE Missouri has heretofore filed with said Commission.

This Tariff is applicable only to the GTE MIDWEST INCORPORATED exchanges as shown on Title Sheets 3 and 4.

For administrative purposes, subsequent tariff filings made by the Company will be identified in the upper left hand corner of the tariff sheet as GTE MIDWEST INCORPORATED (former GTE Missouri).

Memorandum of Understanding

MAY 2 1988

MISSOURI

Public Service Commission

Contel of Missouri, Inc. is serving as a primary toll carrier solely pursuant to the terms of the Conceptual Framework, Missouri Intrastate, InterLATA Primary Toll Carrier By Toll Center Plan, filed in MO. P.S.C. Case No. 10-84-222 et al., on January 29, 1987, as modified by subsequent Commission orders in that case dated April 3, 1987, October 23, 1987 and December 11, 1987.

Contel of Missouri, Inc. hereby agrees to undertake the obligations as provider of last resort for intraLATA Toll Services in accordance with the Conceptual Framework for the term of that agreement and in accordance with said Commission orders. By filing this tariff document and operating under its terms, Contel of Missouri, Inc. does not concede that it has any obligation to so serve, absent the Conceptual Framework and said Commission orders.

Pursuant to the Commission orders referenced above, charges for service governed by the Conceptual Framework will be made at rates shown in this tariff. Contel of Missouri, Inc. specifically denies that by virtue of its execution of any contract with any secondary carrier or by the filing of this or any tariffs which are applicable to services governed by the Conceptual Framework and rendered in exchanges in which Contel of Missouri, Inc. is not the authorized local exchange provider, Contel of Missouri, Inc. is undertaking to provide governed services, professing to serve the following exchanges or offering to provide governed services to the following exchanges:

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE RECEIVED

MAY 2 1988

1.1 Application of Tariff

1.1.1 This Tariff applies to Long Distance Message Telecommunications Service furnished or made available by Contel of Missouri Public Service Commission over service components located wholly within or partly within the Local Access and Transport Areas (LATA's) of the State of Missouri between two or more points within LATA's of the State of Missouri and where the respective rate centers of such points are also located in said State.

1.1.2 Long distance rates ascertained as herein outlined are the effective rates applicable.

1.1.3 Any change in rates or regulations authorized by the legally constituted authorities acts as a modification of all contracts to that extent without further notice.

1.2 General Regulations1.2.1 Scope

(A) Long Distance Message Telecommunications Service (LDMTS) is the furnishing of those service components required for telecommunications between service points in different local service areas in accordance with the regulations and system of charges specified in this Tariff. The message charges specified in this Tariff are in payment for Long Distance Message Telecommunications Services furnished between the calling and called service points.

(B) The charges specified in this Tariff do not contemplate work being performed by the Company employees involved at a time when overtime wages apply due to the request of the customer, nor do they contemplate work once begun being interrupted by the customer. If the customer requests that overtime labor be performed or interrupts work once begun, an additional charge based on the additional costs involved applies.

(C) The Company does not undertake to transmit messages but furnishes the use of its services to its customers for telecommunications.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

1.2 General Regulations (Cont'd)

MAY 2 1988

1.2.1 Scope (Cont'd)

MISSOURI

(D) The design, maintenance and operation of Long Distance Message Telecommunications Service envisions that communications will originate or terminate at a service point of the associated exchange telephone service used for LDMTS. Connections of customer premises equipment or communications systems or interexchange customer-provided premises equipment or communications systems may be made to LDMTS. However, the Company will not be responsible for the through transmission of signals or for the quality of transmission on such connections.

(E) The rules and regulations as applied to billing and collection practices for services provided to residence customers are found in the Rules and Regulations Applying to All Customers' Contracts and the Suspension of Service Sections of the Missouri General Exchange Tariff.

1.2.2 Availability of Services

(A) In case a shortage of service components exists at any time, either for temporary or protracted periods, the establishment of Long Distance Message Telecommunications Service shall take precedence over all others.

(B) Service is furnished subject to the availability of the service components required. The Company will (1) determine which of those components shall be used and (2) make modifications to those components at its option.

(C) At the option of the Company and, where available, Call Screening will be furnished to control instances of fraud associated with billed to third party, station-to-station or person-to-person collect calls or in response to a customer request.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

1.2 General Regulations (Cont'd)

RECEIVED

1.2.3 Limitations on Duration of Connections

MAY 2 1988

The Company reserves the right to limit the duration of MISSOURI connection when necessary because of a shortage of ~~Public~~ ^{Public} Service Commission components caused by emergency conditions.

1.2.4 Liability

- (A) In view of the fact that the customer has exclusive control of his communications over the services furnished him by the Company, and of the other uses for which services may be furnished him by the Company, and because of unavailability of errors incident to the services and to the use of such services of the Company, the services furnished by the Company are subject to the terms, conditions and limitations specified in (B), (C) and (D) following.
- (B) The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or failures or defects in service components furnished by the Company occurring in the course of furnishing service and not caused by the negligence of the customer, or of the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or failure or defect in service components occurs.
- (C) The customer indemnifies and saves the Company harmless against claims for libel, slander or infringement of copyright from the material transmitted over its services; against claims for infringement of patents arising from, combining with or using in connection with, services of the Company, apparatus and systems of the customer and against all other claims arising out of any act or omission of the customer in connection with services provided by the Company.

1.2.4 Liability (Cont'd)

MAY 2 1988

- (D) When the services of other telephone companies are used in establishing connections to points not reached by the Company's services, the Company is not liable for any act or omission of the other company or companies.

1.2.5 Use of Service

- (A) The service is provided for use by the customer and may be used by others, when so authorized by the customer, providing that all such usage shall be subject to the provisions of this Tariff.
- (B) The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
- (1) The use of the service of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service.

MISSOURI
Public Service Commission

- (2) The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain Long Distance Message Telecommunications Service by rearranging, tampering with or making connection with any service components of the Company or by any trick, scheme, false representation or false credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- (3) The use of the service of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another.
- (4) The use of profane or obscene language.
- (5) The use of the service in such a manner as to interfere unreasonably with the use of the service by one or more other customers.

1.2.6 Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it will not be used for an unlawful purpose.

1.2.7 Obligation of the Customer

- (A) The calling party shall establish his identity in the course of any communication as often as may be necessary.
- (B) The calling party shall be solely responsible for establishing the identity of the person or persons with whom connection is made at the called service point or service points.

MAY 2 1988

1.2.8 Payment for Service

MISSOURI

The customer is responsible for payment of all charges for services furnished the customer, including charges for services originated or charges accepted at the customer's service point.

1.2.9 Termination of Service for Cause

Upon nonpayment of any sum due the Company, or upon a violation of any of the conditions governing the furnishing of service, or upon the use of any service for the purpose of performing any service in competition with the service which the Company or its connecting carriers may now or hereafter furnish, the Company may by notice in writing to the customer, without incurring any liability, forthwith discontinue the furnishing of said service.

1.2.10 Advance Payments

- (A) Applicants for Long Distance Message Telecommunications Service, who have no account with the Company, or whose financial responsibility is not a matter of general knowledge or who are not connected in a substantial way with a firm, corporation or other concern of established credit, may be required to make an advance payment at the time the application is signed, equal to any construction charges applicable and at least one month's estimated charges for the service provided.
- (B) The amount of the advance payment is credited to the customer's account as applying to any indebtedness under the contract.

Public Service Commission

Call Screening

The term "Call Screening" denotes an arrangement whereby at time of call origination, bill to third party, service point-to-service point or person-to-person collect calls are screened for customer-preauthorized or Company-directed nonacceptance.

Calling Card

The term "Calling Card" denotes a billing arrangement by which a call may be charged to an authorized Calling Card Number.

Collect Call

The term "Collect Call" denotes a billing arrangement by which the charge for a call may be reversed provided the charge is accepted at the called service point. A collect call may be billed to a calling card or third party number. In the case of a public or semi-public coin telephone, the charges must be billed to a calling card or third-party number, or the call may be reoriginated from the called service point.

Communications Systems

Channels and other service components which are capable when not connected to the Telecommunications Network, for two-way communications between customer premises equipment and/or Company service points.

Community Optional Service (COS) Calling Scope

The Community Optional Service (COS) Calling Scope consists of the Target Exchange to which Petitioning Exchange customers have qualified for COS calling, plus all other exchanges with which customers in the Target Exchange have Extended Area Service (EAS).

Composite Data Service

The combined use of terminal and data switching equipment provided by a Composite Data Service Vendor with the use of telecommunications services of the Company to perform data switching for others.

Public Service Commission

Composite Data Service Vendor

A customer that has been certificated by the proper state regulatory body, and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate service components to perform data switching for others. A customer shall be classified as a Composite Data Service Vendor only with respect to use of those exchange services which are utilized for the provision of Composite Data Service.

Conference Service

Long Distance Message Telecommunications Conference Service is that of furnishing connections between three to six (more where practicable by special arrangement) main service points or private branch exchanges or combinations thereof on one connection at the same time.

COS Petitioning Exchange

The COS Petitioning Exchange is that exchange whose customers petition the MPSC to have COS calling with the customers in the COS Target Exchange.

COS Target Exchange

The Target Exchange is the exchange to which customers of another exchange have petitioned for COS service.

Customer

The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the regulations of the Company.

Data Switching

When used in connection with composite data service, denotes the switching of data (nonvoice) messages by the interchange, controlling and routing of data messages via communications service components, wherein the information content of the message remains unaltered.

Composite Data Service Vendor

MISSOURI

A customer that has been certificated by the ~~Public Service Commission~~ regulatory body, and/or the Federal Communications Commission pursuant to Section 214 of the Communications Act of 1934, as amended, to acquire and operate service components to perform data switching for others. A customer shall be classified as a Composite Data Service Vendor only with respect to use of those exchange services which are utilized for the provision of Composite Data Service.

Conference Service

Long Distance Message Telecommunications Conference Service is that of furnishing connections between three to six (more if practicable by special arrangement) main service points of private branch exchanges or combinations thereof on one connection at the same time.

Customer

The person, firm or corporation which orders service and is responsible for the payment of charges and compliance with the regulations of the Company.

Data Switching

When used in connection with composite data service, denotes the switching of data (nonvoice) messages by the interchange, controlling and routing of data messages via communications service components, wherein the information content of the message remains unaltered.

Exchange Access Arrangement (EAA)

A telephone service component which permits access to and from the customer's premises and the telephone exchange network point. A telephone exchange network point is also known as a serving office.

1.2.13 Definitions (Cont'd)Service Terminating ArrangementMISSOURI
Public Service Commission

The term "Service Terminating Arrangement" denotes Company-provided equipment which terminates exchange telephone service, used for Long Distance Message Telecommunications Service (LDMTS), at a customer's premises. The "Service Terminating Arrangement" provides a clearly delineated interface which facilitates the design, isolation and testing of LDMTS. Where a protective connecting arrangement is required, the "Service Terminating Arrangement" is provided as a part of the protective connecting arrangement.

Station

The network control signaling unit, data set or other equipment at the customer's premises which enables the customer to establish the communications connection to effect communications through such connections; also denotes a termination of an individual exchange line or PBX trunk, provided in accordance with the provisions of this Tariff, in switching equipment located in an exchange foreign to the exchange in which the customer is located.

Station-to-Station (See Two-Point Service)Telecommunications Service

Long Distance Message Telecommunications Service is that of furnishing service for telecommunications between service points in different local service areas within the same LATA in accordance with the regulations and system of charges specified in this Tariff.

1.2 General Regulations (Cont'd)1.2.14 Special Taxes, Fees and Charges (Cont'd)

(E) The Tariff charge constituting the amount of the surcharge provided for herein shall be stated separately on each customer's bill.

(F) Where more than one tax, fee or charge is imposed by a taxing body or authority, the total of such surcharge applicable to a customer may be billed to the customer as a single amount.

1.2.15 Time and charges on long distance calls may be quoted upon request from the customer. Name association with time and charge details will be provided where service components permit. The Company reserves the right to determine the service component used where there are multiple service components.

1.3 Method of Applying Rates

1.3.1 Long Distance Message Telecommunications Service rates between points (cities, towns or localities) within the same LATA are based on the air line distance between rate centers. In general, each point is designated as a rate center; certain small towns or localities are assigned adjacent rate centers with which they are closely associated for communication purposes or by community of interest.

1.3.2 For the purpose of determining air line mileages vertical and horizontal grid lines have been established across the United States and Canada. The spacing between adjacent vertical grid lines and between horizontal grid lines represents a distance of one coordinate unit. This unit is the square root of 0.1, expressed in statute miles. A vertical (V) and a horizontal (H) coordinate is computed for each rate center from its latitude and longitude location by use of appropriate map projection for determining air line mileages, at a particular intersection of an established vertical grid line with an established horizontal grid line. The distance between any two rate centers if the air line mileage computed as explained in 1.3.3, following.

1.3 Method of Applying Rates (Cont'd)1.3.3 Determination of Air Line Mileages(A) Long Distance Message Telecommunications Service MISSOURI
Public Service Commission

To determine the rate distance between any two rate centers,
proceed as follows:

- (1) Obtain the "V" and "H" coordinates for each primary service office or serving office.
- (2) Obtain the difference between the "V" coordinates of the two primary serving offices or serving offices. Obtain the difference between the "H" coordinates.

NOTE: The difference is always obtained by subtracting the smaller coordinate from the larger coordinate.

- (3) Square each difference obtained in Paragraph 1.3.3 (A)(2), above.
- (4) Add the squares of the "V" differences and the "H" difference obtained in Paragraph 1.3.3 (A)(3), above.
- (5) Divide the sum of the squares obtained in Paragraph 1.3.3 (A)(4), above, by 10.
- (6) Obtain the square root of the result obtained in Paragraph 1.3.3 (A)(5), above. This is the rate distance in miles (fractional miles being considered as full miles).

1.4.4 Reversal of Charges (Collect Calls)

Charges (including messenger charges) for Operator Station-to-Station and Person-to-Person telephone calls may, upon request, be reversed, that is, charged against the called telephone, provided the charges are acceptable at the called telephone.

The regularly established Operator Station-to-Station and Person-to-Person rates (including messenger charges, if any) apply.

1.4.5 Time of Day

The time when connection is established, as provided in 1.4.6, following, determined in accordance with the time-standard or daylight saving - legally or commonly in use at the location of the rate center at the point of call origination - determined whether Day, Evening, Night, or Weekend rates apply. This rule applies whether the call is sent paid or collect.

1.4.6 Rates(A) Usage - All Classes of Service

- (1) Initial Period rates indicated in the Rate Table in 1.4.8, following, are for connections of one minute or any fraction thereof.
- (2) All additional minute rates indicated in the Rate Table in 1.4.8, following, are for each additional minute or any fraction thereof that the connection continues beyond the initial period.
- (3) When the connection is established in one rate period and ends in another, the rate for each rate period applies to the portion of the connection occurring within that rate period. In the event that a minute of use is split between two rate periods, the rate in effect at the start of that minute applies.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

MAY 2 1988

MISSOURI
Public Service Commission1.4 Two-Point Service (Cont'd)1.4.6 Rates (Cont'd)(A) Usage - All Classes of Service (Cont'd)

(4) Discounts for the evening, night and weekend reduced rate periods indicated in the Table in 1.4.1, preceding, are expressed as a percent reduction of the charge calculated at the rates indicated in the table in 1.4.8 and are applied to message connection established during the periods indicated in 1.4.1, preceding.

(5) Discounts apply to the charge for the initial minute occurring within the discount rate period and to all additional minutes occurring within each discount rate period. The discount is computed separately for charges in each rate period and the results are then totaled. When application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.

(B) Service Charges

(1) The rates in (2), (3) and (4), following, will apply on Dial Calling Card Station-to-Station, Operator Station-to-Station and Person-to-Person service in addition to the rates as specified in 1.4.6 (A), preceding. Discounts, as specified in 1.4.1 (A) do not apply to service charges. Only one service charge per call will apply.

(2) Dial Calling Card Station-to-Station - For calls charged to a Company calling card and involving no other operator services, a charge of \$.75 per call applies where automatic recording equipment is available and the person originating the call dials zero, then the telephone number desired, and the call is billed to a Company calling card. Where no automatic recording equipment exists, this rate will also apply for a Company calling card call.

(3) Operator Station-to-Station - For operator station-to-station calls or calls to a Special Billing number, a charge of \$1.25 per call applies.

- (4) Person-to-Person - For person-to-person calls, a charge of \$2.40 per call applies.
- (5) Busy Line Verify - For Busy Line Verify requests, a charge of \$.40 per request applies as described in the Local Exchange Tariff.
- (6) Busy Line Interrupt - For Busy Line Interrupt requests, a charge of \$.75 per request applies as described in the Local Exchange Tariff.

(C) Timing of Messages

- (1) On Dial Station-to-Station, Dial Calling Card Station-to-Station or Operator Station-to-Station calls, chargeable time begins when connection is established between the calling telephone and the called telephone, mobile telephone system or other customer premises equipment.
- (2) On Person-to-Person messages, chargeable time begins when connection is established between the calling person and the particular person or service point specified or an agreed-upon alternate.
- (3) Chargeable time ends when the calling service point "hangs up" thereby releasing the network connection. If the called service point "hangs up" but the calling service point does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.
- (4) Chargeable time does not include time lost because of faults or defects in service.

1.4.9 Rates Applicable on Messages Placed by Certified Speech and/or Hearing Handicapped

MISSOURI

Public Service Commission

On directly-dialed messages placed within the same LATA by certified speech and/or hearing handicapped residence customers who are incapable of verbal communication and use a telecommunications device (i.e., teletypewriter or similar keyboard communications terminal device) for communicating over the Long Distance Message Telecommunications network, a 35-percent reduction in charges for the messages will apply.

Certification of the speech and/or hearing handicap requires the completion of an application form certified by an agency designated by the Company, or physician, otolaryngologist or licensed speech-language pathologist or audiologist.

1.5 Conference Service1.5.1 Definition

Long Distance Message Telecommunications IntraLATA Conference Service is the furnishing of simultaneous connection between three or more Exchange Access Arrangements within the same LATA.

1.5.2 Conditions Under Which Service is Furnished

- (A) Service is furnished where and to the extent that service components permit.
- (B) The connections will be established on either a person-to-person or station-to-station basis.
- (C) The Company will, upon request, attempt to establish the conference connections at a specified time.
- (D) Charges for Conference Service may be reversed provided that the total charge is billed against one called Exchange Access Arrangement and that the charge is accepted by the designated Exchange Access Arrangement.

1.5 Conference Service (Cont'd)

1.5.3 Timing of Messages

- (A) The chargeable duration of the message is the elapsed time between the start of conversation, with all points on the conference connection and the time at which the disconnect signal is received from the originating Exchange Access Arrangement, except as provided in 1.5.3 (B), following.
- (B) When the originating customer requests that one or more Exchange Access Arrangements be added to or disconnected from a conference call on which conversation is in progress, that call is considered terminated and a new call is considered initiated to the revised group of Exchange Access Arrangements.
- (C) Chargeable time does not include time lost because of faults or defects in the service.

1.5.4 Rates and Charges

- (A) The total charge for the conference connection is the sum of the set-up charge and the charge for total conversation time.
- (B) The set-up charge is \$1.60 for each main service point (or PBX trunk) included in the conference call.
- (C) The charge for conversation time will consist of the total minutes of conversation multiplied by the appropriate charge per minute applying to the conference call.
- (D) The per-minute charge for each main service point (or PBX trunk) is as follows:

<u>Mileage Between the Two Most Distant Service Points</u>	<u>Charge Per Minute</u>
0 - 18	\$.05
19 - 60	.10
61 - 150	.15
Over 150	.20

1.5.5 Application of Special Charges

MAY 2 1988

A special charge may be applied based upon the cost of any special equipment used. Such special charges are separate from and in addition to the rates computed as outlined in this Missouri Public Service Commission Tariff.

1.6 Enterprise/Zenith Service1.6.1 General

- (A) This service provides an arrangement in connection with intraLATA Long Distance Message Telecommunications Service whereby a customer offers patrons the privilege of calling him without the payment of an intraLATA long distance message charge and without having to request specific reversal of this charge.
- (B) This service is not available for party line or coin service.
- (C) The exchanges or zones from which patrons may call without charge are selected by the customer, subject to the approval of the Company. The selected exchanges or zones selected must all be within the same LATA. For each selected exchange or zone within the same LATA, the Company assigns and lists in the directory a special call number.
- (D) Calls for the special number are accepted when originating at telephones located in the exchange with which the special call number is associated and from other exchanges in the numbering plan area so long as both the originating exchange and terminating exchange are located within the same LATA. Only those long distance calls placed by calling this special number are considered as coming within the scope of the service.
- (E) The customer agrees to pay the charges for all calls completed by means of the special number.

MISSOURI

Public Service Commission

- (F) The initial contract period for this service is one month.
- (G) A directory listing is provided, without additional charge, only in the exchange selected by the customer as the exchange from which patrons may call without charge.

1.6.2 Rates

- (A) The customer utilizing this service is charged the established Operator Station-to-Station service charge, as specified in 1.4.6 (B) in addition to usage charges, as specified in 1.4.8, for each completed call.
- (B) The monthly service charge associated with this offering is found in Section 5 of the Local Exchange Tariff.

1.7 Special Reduced Rates

On Christmas Day (December 25), New Year's Day (January 1), Independence Day (July 4), Thanksgiving Day and Labor Day, the holiday rate applicable on all classes of two-point intraLATA Long Distance Message Telecommunications Service between points within the State of Missouri is the Evening rate, unless a lower rate would normally apply. Discounts do not apply to Service Charges, as specified in 1.4.6 (B).

MAR 31 1993

1.11 Community Optional Service (COS)

MISSOURI
Public Service Commission

(A) General

- (1) Community Optional Service (COS) is an optional plan that allows customers in a qualifying COS Petitioning Exchange to purchase intraLATA interexchange calling with customers in designated exchanges, known collectively as their COS Calling Scope, under terms, conditions and rates as found in the Company Tariff(s). The COS Calling Scope consists of the COS Target Exchange to which COS Petitioning Exchange customers have qualified for COS calling and all other exchanges with which customers in the COS Target Exchange have Extended Area Service (EAS).

CANCELLED

SEP 15 1994

93-1

(B) Qualification Process

- (1) In order to qualify, customers in one exchange, known as the COS Petitioning Exchange, must demonstrate that a community of interexchange exists with customers in the exchange with which they desire COS calling, known as the COS Target Exchange. Consideration of eligibility for COS calling is initiated by a petition filed with the MPSC by any or all of the following parties:

- (a) By 25 or more customers in the COS Petitioning Exchange;
- (b) By the presiding official(s) of a city, town, village or county, within the COS Petitioning Exchange;
- (c) The Office of the Public Counsel on behalf of the customers in the COS Petitioning Exchange;
- (d) The company serving the customers in the COS Petitioning Exchange.
- (2) If the Petitioning COS Exchange has failed the calling study criteria, the exchange can reapply or repetition for the service after two (2) years.
- (3) COS will not be offered between Metropolitan Calling Area (MCA) exchanges as defined in the Missouri Public Service Commission (MPSC) Order, effective January 5, 1993, in Case #TO-92-306.
- (4) Petitions requesting COS must specify the COS Target Exchange with which COS calling is requested. The COS Target Exchange may be served by another local exchange company.

1.11 Community Optional Service (COS) (Cont'd)

MISSOURI
Public Service Commission

(B) Qualification Process (Cont'd)

(5) Upon issuance of a MPSC Order directing a calling study, the Company will conduct a study covering a one month billing period of Long Distance Message Telecommunications Service Dialed Station-to-Station traffic from the COS Petitioning Exchange to the COS Target Exchange.

(6) The MPSC has ruled that a community of interest is found to exist when the traffic studies show that both of the following criteria are met:

(a) Customers in the COS Petitioning Exchange make an average of at least six calls per access line per month to the COS Target Exchange;

(b) Two-thirds of the customers in the COS Petitioning Exchange make two or more calls per month to the COS Target Exchange.

(7) If the above criteria have been satisfied and/or the MPSC determines that a community of interest exists, the COS Petitioning Exchange will be certified as a COS qualifying exchange and the service will be implemented on a time schedule approved by the MPSC.

(C) Conditions

(1) COS will be offered as a two-way optional flat rate service. Two-way optional flat rate service allows customers to make unlimited calls to and receive unlimited calls from the COS Target Exchange Calling Scope for a recurring monthly flat rate.

(2) The Calling Scope of the two-way COS route shall be to the COS Targeted Exchange plus its EAS exchanges. Any EAS additives applicable in the COS Target Exchange would apply to the COS subscriber in addition to the COS monthly flat rate.

1.11 Community Optional Service (COS) (Cont'd)

(C) Conditions (Cont'd)

- (3) In addition, a Noncontiguous Exchange Additive Charge (NEAC) may be applicable for Metropolitan COS routes between noncontiguous exchanges, see Rates and Charges.
- (4) Qualifying exchanges and their corresponding COS Target Exchanges are specified in this Tariff. COS Target Exchanges are classified as Rural or Metropolitan by the MPSC.
 - (a) The St. Louis and Kansas City exchanges [MCA-Central, MCA-1 + MCA-2] and Springfield exchanges [MCA-Central + MCA-1] have been designated to be Metropolitan. All other COS Target Exchanges have been designated Rural.
- (5) Unless otherwise specified in these conditions, COS is offered to all classes and grades of residence and business customers located in a COS qualifying exchange on a per line basis.
- (6) COS is not offered in conjunction with Cellular, Public, Semi-Public, Coin Box, Customer-Owned Pay Telephone Services or comparable services offered by other local exchange companies in their exchanges listed in this Tariff.
- (7) When a customer's telecommunications service is arranged for his or her own administrative use, versus use by his or her patrons (such customers may include, but are not limited to hotel/motels, hospitals or universities), COS may be purchased for the administrative trunks only.
- (8) With the exception of Shared Tenant Service, COS is not to be shared or resold.
- (9) COS customers listed in the COS Petitioning Exchange Company directory will be listed in the COS Target Exchange white page directory at no extra cost.

Subscription to COS does not entitle that customer to a free copy of the white page directory of the COS Target Exchange.

MAR 31 1993

MISSOURI
Public Service Commission

1.12 Outstate Calling Area (OCA) Plan

(A) General

(1) Description

- (a) The Outstate Calling Area (OCA) Plan is an optional one-way Dial Station-to-Station Message Telecommunications Service (MTS) for customers in selected exchanges. See Service Availability for description.
- (b) The OCA Plan offers discounted block of time calling beyond a customer's local exchange to rate centers that fall within the Calling Scope. See Calling Scope for description.
- (c) The local exchange company providing basic local exchange service in each exchange has the option to determine whether this service will be dialed as either 1+ (NXX-XXXX) or on a seven-digit basis.

(2) Service Availability

- (a) The exchange listing in the front of this Tariff identifies exchanges where OCA service is available. Customers in exchanges that are not referenced by Footnote (1) or (2) are eligible to subscribe to the OCA Plan. Customers in exchanges within the Kansas City Metropolitan Calling Area (MCA), other than MCA-5 exchanges, are not eligible to subscribe to the OCA Plan.
- (b) OCA service is being implemented between May 1, 1993 and September 30, 1994. Service may not be available for all OCA exchanges during this time.

LONG DISTANCE MESSAGE TELECOMMUNICATIONS SERVICE

RECEIVED

MAR 31 1993

MISSOURI
Public Service Commission

1.12 Outstate Calling Area (OCA) Plan (Cont'd)

(A) General (Cont'd)

(3) Calling Scope

(a) The Calling Scope for an OCA exchange includes all intrastate intraLATA toll rating points within a 23-mile radius. The 23-mile radius, from each exchange, is based on air miles and is measured from rate center to rate center, as defined in this Tariff.

(b) Customers in Kansas City MCA-5 exchanges will be able to subscribe to the OCA Plan; however, the 23-mile radius will not include any toll rating points within the MCA. Refer to the Missouri Public Service Commission (MPSC) Order, effective January 5, 1993, in Case # TO-92-306.

(4) Calling Options

Residential and Business customers can choose from two OCA options. Rates are listed in this Tariff and are in addition to the established charges for the service with which the OCA Plan is associated. OCA subscribers are charged the full monthly rate for the block of time selected, even if the full block of time is not used.

(a) Two-hour block of time: This option allows subscribers two hours of calling per month at a flat rate. MTS rates are applicable for calls exceeding the two hours.

(b) Five-hour block of time: This option allows subscribers five hours of calling per month at a flat rate. An additional per minute rate, as identified in Rates, applies for all calls exceeding the five hour block. Time of day and holiday discounts are not applicable.

1.12 Outstate Calling Area (OCA) Plan (Cont'd)

(B) Regulations

- (1) Unless otherwise specified in these regulations, OCA is offered to all classes and grades of residence and business customers located within the eligible OCA exchanges.
- (2) OCA is not offered in conjunction with Cellular, Public, Semi-Public, or Customer-Owned Pay Telephone Services, or comparable service offered by other local exchange companies in their exchanges listed in this Tariff.
- (3) OCA is not to be shared or resold.
- (4) OCA is available to multiline customers on a per account basis only.
- (5) Time of day and holiday discounts are not applicable for calls within the block of time.
- (6) Rate Application
 - (a) The minimum service period for subscription to OCA is one-month.
 - (b) A customer may purchase only one block of time per month.
 - (c) The monthly charges for an OCA block of time will be charged on a per account basis and are billed in advance.
 - (d) OCA rates and charges are in addition to all other rates and charges paid by a subscriber for all other services of the local exchange company providing basic local exchange service to the OCA subscriber.
 - (e) If a customer subscribes to both OCA and Community Optional Service (COS), where the COS Target Exchange is within the subscriber's OCA Calling Scope, the OCA rates and charges do not apply to qualified COS calls to the Target Exchange. The COS rates and charges do apply to such calls.
