4.5.1 Advance Payments

To safeguard its interests, the Company may require a Customer to make an Advance Payment before services and facilities are furnished. The Advance Payment will not exceed an amount up to two months of estimated monthly usage charges. In addition, where special construction is involved, the Advance Payment may also include an amount equal to the estimated non-recurring charges for the special construction and recurring charges (if any) for a period to be set between the Company and the Customer. - 2) the charges that would apply for the minimum payment period for a service or facility which has a minimum payment period of more than one month; except that the deposit may include an additional amount in the event that a termination charge is applicable.

5. SERVICE DESCRIPTIONS AND TECHNICAL STANDARDS (Cont'd) JUN 22 19995.2 Distance-Based Charges

MO. PUBLIC SERVICE COMM

Where a rate element is based upon distance, the rate computation is based upon the airline distance between the originating and terminating points of the service, as determined by the vertical and horizontal coordinates associated with the exchange (the area code and three digit central office code) associated with the originating and terminating telephone numbers. If the Customer obtains access to the Company's network by a dedicated access circuit, that circuit will be assigned an exchange for rating purposes based upon the Customer's main telephone number at the location where the dedicated access circuit terminates. The vertical and horizontal coordinates for each exchange and the airline distance between them will be determined according to the V&H Coordinate table as used on an industry wide basis and incorporated herein by reference.

MO. PUBLIC SERVICE COMM

- A. In lieu of the rates otherwise set forth in this tariff, rates and charges, including minimum usage, installation, special construction and recurring charges for Carrier's services may be established at negotiated rates on an ICB, taking into account the nature of the facilities and services, the costs of construction and operation, the volume of traffic, the length of service commitment by the Customer, and use of facilities by other customers. Such arrangements shall be considered Special Pricing Arrangements, and specialized rates or charges will be made available to similarly situated customers on a non-discriminatory basis. Terms of Special Pricing Arrangements will be made available to the Commission upon request on a proprietary basis. All such services will be subject to the terms and conditions of service identified in this Tariff.
  
- B. In addition to any rate or charge established by the Carrier, the Customer will also be responsible for any recurring or non-recurring charges imposed by local exchange telephone companies incurred by or on behalf of the Customer in establishing and maintaining service. Such charges may be billed by the Carrier or directly by the local exchange company, at the Carrier's option.
