TARIFF FORMAT (Continued)

MISSOURI  
Public Service Commission

- B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the State of Missouri. For example, the 4th. revised Sheet 14 cancels the 3rd revised Sheet 14. The most current sheet number on file with the Commission is always the tariff page in effect. Consult the Check Sheet for the Sheet currently in effect.
- C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.  
2.1.  
2.1.1.  
2.1.1.A.  
2.1.1.A.1.

- D. Check Sheets -- When a tariff filing is made in the State, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the State of Missouri.

MISSOURI  
Public Service Commission

2.1 Undertaking of the Company

TNCLP's services and facilities are furnished for communications originating at specified points within the State of Missouri, under terms contained in this tariff. TNCLP will provide intraLATA as well as interLATA, to Customers within the Missouri State area.

TNCLP's may act as the customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, to allow connection of a customer's location to a service provided by TNCLP. The customer shall be responsible for all charges due for such service arrangement.

The Company's services and facilities are provided on a monthly basis unless ordered on a longer term basis, and are available twenty-four hours per day, seven days per week.

2.2 Limitations

2.2.1 Service is offered subject to the availability of facilities and the provisions of this tariff.

2.2.2 TNCLP reserves the right to discontinue furnishing service, or limit the use of service, necessitated by conditions beyond its control, or when the customer is using service in violation of the law or the provisions of this tariff.

2.2.3 The customer may not transfer or assign the use of service or facilities obtained under this tariff, without the express written consent of the Company. All regulations and conditions contained in this tariff shall apply to all such assignees or transferees that the Company has authorized.

2.8 Payment and Billing

Paragraphs a through g, below, apply only to services for which Carrier bills directly. For operator-assisted calls billed to local exchange telephone accounts, calling cards or credit cards, see paragraph h, below.

- a. Service is provided and billed on a monthly basis, beginning on the date that service becomes effective. Payment is due thirty (30) days after the US Postal Service postmarked date of the bill.
- b. On commercial accounts, a late charge equal to 1 1/2% of customer's delinquent balance shall be imposed by Carrier. Accounts shall be delinquent when payment is not received by thirty (30) days after the postmarked date of the customer's invoice. Discounts for prompt payment are not offered by Carrier. TNCLP will not impose a late charge on delinquent residential accounts.
- c. The Customer is responsible for payment of all charges for services furnished to the Customer or the Customer's authorized users. Non-recurring charges will appear on the first monthly bill rendered after service is initiated. Recurring charges are billed monthly in advance. Charges based on actual usage during a month and any accrued interest will be billed monthly in arrears.
- d. Carrier will provide a toll-free telephone number (800) 288-3365 for inquiries regarding bills or service. Carrier may change the toll-free number by a notice appearing on Customer's bill.

SECTION 3 - DESCRIPTION OF SERVICE

3.1 Timing of Calls

3.1.1 The customer's long distance usage charge is based on the actual usage of Telenational Communications Limited Partnership's service.

3.1.2 Usage measurement begins when the called party picks up the receiver. Determining when the called party picks up the receiver, is accomplished by one of the following methods:

A. Hardware Answer Supervision

When hardware answer supervision is provided by the local telephone company serving the called party, no measurement occurs, unless the local telephone company sends a signal to the switch of the company that the called party has answered.

3.1.3 A call is terminated when the calling party hangs up.

3.2 Minimum Call Completion Rate

A customer can expect a call completion rate (number of calls completed/number of calls attempted) of not less than 99%, during peak use periods, for all FG D services (i.e., "1+" dialing).

3.3 Calculation of Distance

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communications Research in their NPA-NXX V & H Coordinates Tape and contained in AT&T Tariff No. 10.

Message Telecommunications Service (MTS) is that of furnishing facilities for communication between local service areas.

The Company does not undertake to transmit messages but furnishes the use of its facilities to its Customers for communications.

The Company reserves the right to limit the length of conversation when necessary in times of emergency, resulting in a shortage of facilities.

Dial Station Service is that service where the person originating the call from other than a public or semi-public telephone dials the number desired and the call is completed without the assistance of a Company operator, and the call is not billed to a number other than the originating number.

T-1 Digital Access is a high capacity digital local access arrangement which relies on T-1 transmission technology provided by the local exchange carrier and which will be used to connect Customers' premises to TNCLP carrier terminals to provide Customer access to TNCLP-provided services.

Local Access Channel - Monthly and installation charges for each Local Access channel will be calculated on an individual case basis, in accordance with the charges set forth in the relevant Local Exchange Carrier's Interstate tariff or in accordance with the rates of other access providers.

At the Customer's request and where feasible, TNCLP may permit the Customer to obtain other forms of access to the Customer's Digital Access T-1 service; or TNCLP may procure other forms of access to such service. All applicable recurring and non-recurring charges for such service will be calculated on an individual case basis, in accordance with the charges assessed by the Local Exchange Carrier or other access provider. The installation and monthly charges for any interface equipment associated with such access that is provided by TNCLP shall be calculated on an individual case basis. If TNCLP procures access for the Customer from the Local Exchange Carrier, the Customer's use of such access shall be in conformity with the regulations and other terms and conditions under which the Local Exchange Carrier provides such access.

In addition to such individual case basis charges, TNCLP shall assess charges for the following:
