.8 Analog PBX Trunks

.1 Description

The Analog PBX Trunk product requires three elements: PBX Local Access trunks, DID numbers, and DID trunk termination.

Three types of trunk signaling are also available, DP (Dial Pulse) signaling, MF (Multi Frequency) signaling and DTMF (Dual Tone Multi Frequency) signaling, one of these types of signaling must be selected by the customer.

- .1 Local Access Trunk 2-Way – An analog PBX trunk allowing inward and outward calling.
- .2 Local Access Trunk Outward – An analog PBX trunk allowing outward calling only.
- .3 Local Access Trunk Inward – An analog PBX trunk allowing inward calling only to the PBX.
- .4 Local Access Trunk DID – An analog PBX trunk allowing inward calls to the station level.
- .5 Local Access Trunk DID 2-Way – An analog PBX trunk allowing inward calls to the station level and outward dialing.

.9 Digital Trunking Service (DTS).1 Digital Trunking Service Description

Provides for digital access from the customer's premises to the central office via a DS1 (1.544 Mbps) connection. This connection provides the equivalent of 24 access lines (DS0's) between a customer's premises and a central office that can be used for PBX trunks, which can be one-way, two-way or Direct Inward Dial (DID). Digital trunking service is provided in a base capacity of 24 DS0's.

.2 Required Service Components.1 DTS Local Channel:

A 1.544 Mbps digital multichannel transmission path between the serving central office and the customer's premises providing a maximum capacity of twenty-four DS0's.

(D)

.2 DTS Local Access:

(T)

Includes the central office exchange access line equipment for use of the public switched telephone network. The following options are available for DTS Local Access:

.1 DTS Local Access 2-Way - 1, 2, 3 - Digital PBX trunk allowing inward and outward calling.

(C)

.2 DTS Local Access Outward - 1, 2, 3 - Digital PBX trunk allowing outward calling only.

.3 DTS Local Access Inward - 1,2, 3 - Digital PBX trunk allowing inward calling only.

(C)

.4 DTS Local Access DID - Digital PBX trunk allowing inward calls directly to the station level. Additional DID number block charges will apply as per this tariff. DID service requires signaling. The customer must choose between DP, MF or DTMF and will be billed the appropriate NRC.

LOCAL EXCHANGE SERVICES**Missouri Public
Service Commission****5. PRODUCT DESCRIPTIONS AND RATES (Continued)****REC'D AUG 21 1998****.9 Digital Trunking Service (DTS) (Continued)****.4 Optional Features****.1 DTS Loop Protection****.1 Description**

Provides automatic restoration of the DTS Local Channel facility and physical route redundancy from the demarcation point at the customer's premises to the customer's serving wire center in the event of a transmission failure caused by a single facility break or single electronics failure. The automatic restoration capabilities are provided through the use of intelligent components that are capable of sensing transmission failures. The primary and secondary transmission paths are separately routed in geographically and physically separate fiber optic cables up to the nearest point to the customer's premises that route redundancy can be achieved.

.9 Digital Trunking Service (DTS) (Continued).7 Digital Trunking Service (DTS)-Advanced

(N)

.1 Digital Trunking Service – Advanced Description

Provides a direct T1 connection to the customer's premises. Digital Trunking Service – Advanced provides 24 exchange channels and allows all channels to receive and generate calls.

Touch Tone is required on all stations.

Custom Calling features (i.e. Call Waiting, Call Forwarding, etc.) are not available with Digital Trunking Service – Advanced.

.2 Digital Trunking Service –Advanced - Service Components

A direct T1 connection between the customer's premises and central office, providing 24 exchange channels. Incoming and outgoing digital connectivity to the switch network is provided.

A digital transmission loop providing two-way transmission with a maximum capacity of 24 local access components.

.1 DTS Local Access

Use of the public switched network arranged as:

- a) Two-Way – Allows inward and outward calling.
- b) Outward – Allows outward (DOD) calling
- c) Inward – Allows inward (Non-DID) calling
- d) DID – Allows inward (DID) calling

Service Commission****5. PRODUCT DESCRIPTIONS AND RATES (Continued)****REC'D SEP 29 2000****.10 Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI)****.1 ISDN – PRI Description**

ISDN – PRI is a high-speed end-to-end digital switched service that provides PBX and host computers access to switched services via an ISDN central office. The service can carry voice, data and video simultaneously. Traffic can be inward, outward or a combination of both. This is controlled by the Customer's CPE.

A standard service consists of up to twenty-three "B"earer channels and one "D"elta channel at a total speed of 1.544 Mbps. The D channel is used for signaling and can usually handle an additional 19 ISDN services each containing 24 B channels. The local channel may be a DS1 with clear channel capability.

.2 ISDN-PRI Service Components**.1 PRI Local Channel**

Provides a digital multichannel transmission path between the central office and the customer's premises. This DS1 can be configured as 23 B + 1D channels, 23B + 1 Back-up D channels or 24 B channels. Must be specified at time of ordering.

.2 PRI D Channel

Delta channel, a minimum of 1 per group. The D Channel can be provisioned as a Primary or Back-Up D Channel. Must be specified at time of ordering.

.10 Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI).1 ISDN - PRI Optional Service Components/Features

- .1 PRI Local Access Call-By-Call (T)
Allows a customer to designate the quantity of call types to be allocated
within previously provisioned criteria for either DID or DOD. (T)
- .2 PRI Redirect (T)
Allows, in certain central offices, the customer to automatically complete
calls made to busy stations of a different PRT connected PBX system
served by the same central office switch.
- .3 PRI Number Delivery (T)
Allows the number of the calling party to be delivered to the called party as
part of the called party set up message, i.e. before ringing begins. (D)
- .4 PRI Loop Protection (T)
Provides automatic restoration of the PRI Interface facility and physical
route redundancy from the customer's serving wire center to the point
nearest the customer's premises that route redundancy can be achieved in
the event of a transmission failure caused by a single facility break or a
single loop electronics failure. (D)
- .5 PRI Local Access 2-Way (N)
This PRI Local Access option configures the B channels to support
2-way (incoming and outgoing) traffic. Monthly recurring and non-
recurring DID number charges per this tariff, will apply additionally.
- .6 PRI Local Access Outward (N)
Provides the capability to originate outward WATS calls over Digital
Trunking Service interface.

.4 Line Hunting

The following Line hunting arrangements are available to Customers and allows the Customer to specify a hunting sequence or hunting arrangement for call distribution of incoming calls.

.1 Descriptions.1 Line Hunting Regular

The hunt for an idle line starts with the called line in a prearranged group and ends with the last line in the group, completing the call to the first idle line encountered. Unless the first line is called, only a portion of the group is hunted

.2 Line Hunting Circular

Permits a complete hunt sequence over all the lines in a prearranged group. If no idle line is encountered, the hunt will continue until it reaches the line that was originally called.

.3 Line Hunting Preferential

Some or all of the lines in a hunt group may have an associated preferential hunt list. This hunt list permits a pre-hunt over a subset or preferential group of lines before hunting through the multiline hunt group.

Referral Service is a central office optional intercept arrangement for diversion of calls to a number which is no longer in service. This service is available to business services where facilities and operating conditions of the Company permits.

The following Referral Service Options are available:

- .1 No Referral Service - An automated announcement which states that the called number has been disconnected. No further information is provided about the called number.
- .2 Basic Referral Service - Provides either an operator-handled or recorded announcement stating that the called number has been disconnected or changed. If the number is available, it is given to the caller. Basic Referral Service is provided on business single line and primary telephone number for Direct Inward Dial (DID), free of charge, for a minimum of thirty (30) days or the life of the directory, whichever is greater.
- .3 Location Referral - Provides caller with the Customer's new street address, city, and/or state.
- .4 Name Referral - Provides caller with the name of the Customer's business and new telephone number.
- .5 Multiple Referral - When calls are placed to a single disconnected or changed telephone number callers are provided several different numbers. Calls are routed to a recorded announcement for three or less referrals, or to an operator for more than three referrals. Either option is available to the customer. When calls are routed to an operator the caller is queried as to whom they wish to reach, and the appropriate number is provided.

Service Commission****6. 9-1-1 TELECOMMUNICATIONS SERVICE****REC'D APR 21 1999**

The Company is obligated to supply the E-911 service provider in the Company's service area with accurate information necessary to update the E-911 database at the time the Company submits Customer orders to the local exchange telecommunications company whose services are being resold pursuant to this tariff.

At such time that the Company provides basic local service to a Customer by means of the Company's own cable pair, or over any other exclusively owned facility, the Company will make the necessary equipment or facility additions in the E-911 service provider's equipment in order to accurately and properly update the database for E-911.

The Company will provide facilities to route calls from the end users to the proper Public Safety Answering Point. The Company recognizes the authority of the E-911 Customer to establish service specifications and grant final approval or denial of service configurations offered by the Company.

The Company will collect E-911 surcharges and remit all surcharge revenue to the appropriate governmental entity pursuant to RSMo 190.310.

7. PROMOTIONAL OFFERINGS

The Company may, from time to time, engage in special promotional service offerings designed to attract new Customers or to increase existing Customers awareness of a particular tariff offering. These offerings may be limited to certain dates, times and/or locations. For a period of one year following the effective date of this tariff, Sprint, may, upon Commission approval, offer specific incentives during specified promotional periods. The Company will provide written notice to the Commission 10 days prior to the commencement of a promotional period, specifying the terms of the promotion, the specific service offered, and the location and dates of the promotional period. The written notice will be filed in the Promotional Offering Section of Sprint's Missouri P.S.C. Local Exchange Tariff No. 1. This promotion methodology will be offered on a one-year trail basis.

.1 Basic Exchange Service**MISSOURI
Public Service Commission**.2 Sprint Local Service – Telephone Assistance (Lifeline)

The Lifeline Service program, sponsored by the FCC, is a means of maintaining and preserving universal service by providing a reduction in the price of basic local residential exchange access service to qualifying low-income subscribers.

.1 General

- .1 Lifeline is a Federally funded reduction of the subscriber line charge (SLC) and a reduction of local service. Eligible applicants will receive a reduction of \$5.25 on their local telephone bill.
- .2 Local service for Lifeline subscribers may not be disconnected for non-payment of toll charges.
 - .1 Toll Restriction Service will be provided to Lifeline subscribers at no charge.
 - .2 Lifeline subscribers are not required to accept Toll Restriction Service as a condition to avoid disconnection of local service for non-payment of toll. However, an advance payment may be required.
 - .3 Lifeline subscribers are not required to make an advanced payment in order to initiate service if the subscriber voluntarily elects to receive Toll Restriction Service.
- .3 Partial payments from Lifeline subscribers will be applied first to local service charges and then to toll charges.
- .4 Lifeline subscribers will not be denied re-establishment of service on the basis that the subscriber was previously disconnected for non-payment of toll charges.
- .5 Lifeline will not be furnished on Foreign Exchange Service.

.1 Basic Exchange Service.2 Sprint Local Service – Telephone Assistance (Lifeline) (Continued).2 Eligibility Requirements

1. Lifeline will be provided for one (1) telephone line per household, at the subscriber's principle place of residence, to those individuals who meet the following two requirements:

- .1 The applicant must have only one local exchange access line to his/her residential premises or dwelling place¹.
- .2 The applicant's total household gross income does not exceed 150% of the Federally established poverty levels set forth for the number of persons in applicant's household.

- .2 Verification of the first requirement (1) will be accomplished through self-certification.

- .3 Verification of the second requirement (2) will be accomplished by the Telephone Company. A service order to enact Lifeline Service will not be issued until proof of the applicant's income level has been obtained and verified. As proof of income eligibility, an applicant can:

(N)

¹ A residential premises or dwelling place is intended to be that location where an applicant resides, even if such residential premises or dwelling place is only a single room. Lifeline will not be provided if the applicant has access to other local exchange access telephone service within the residential premises or dwelling place, provided/owned by himself/herself or owned/provided by others. If however, it can be determined by the Telephone Company that access to such other existing local exchange telephone service owned/provided by others is virtually denied, or is inaccessible to the applicant, then Lifeline Service will be provided to the applicant.

3. Service Charges**MISSOURI
Public Service Commission**

These charges are non-recurring and apply to various customer requests for all connecting, moving or changing service. They are in addition to all other scheduled rates and charges that would normally apply.

1. Service Installation-- Receiving, recording and processing information necessary to execute a customer's request for service.
2. Service Restoration -- When a customer's service has been restored after the Company has discontinued service for nonpayment, a charge will apply.
3. Number Change Nonrecurring charge applies to change a telephone number of an access line or trunk at the customer's request.
4. PIC Change -- interLATA/intraLATA

This refers to an arrangement whereby a customer may select and designate an Interexchange Carrier to access, without an access code, for interLATA/intraLATA, calls. The charge applies to all customers requesting a change to their carrier. The charge, per line, is the same whether one or more access lines are involved.

.14 Residential Sprint IONSM (Integrated On-demand Network) Service.1 Description of Service

Residential Sprint ION Service utilizes a cell-based communications network which will provide the customer with integrated interstate, intrastate, local, and intraLATA toll non-distance sensitive voice calling services, facsimile and video conferencing services over a single existing line for a single monthly charge. Residential Sprint ION network enables residential customers to integrate their requirements for voice and non-voice services to meet their needs. (D)

This service is available residential customers, including those residential customers with a home-based business. Residential Sprint ION provides multiple available telephone line equivalents and associated calling features. Customers cannot make modifications to or remove Sprint installed equipment in an attempt to increase trunkage or capacity. If Sprint determines that the service is not being used for individual residential service, or in any other way violates the restrictions of this service, Sprint may elect to suspend or terminate the subscriber's service.

Residential Sprint ION Service is provided subject to availability of facilities throughout the 48 contiguous United States. For technical reasons, utilization of this service requires that the customer have Residential Sprint ION-compatible equipment and data services not provided as part of this tariffed service. (M)

.1 Monthly Recurring Charge

The Residential Sprint ION monthly recurring charge (MRC) is a flat rate charge and is billed in advance of service. For the MRC, the Customer will receive:

- .1 Unlimited Sprint ION to Sprint ION interstate, intrastate, local, and intraLATA toll calling.
- .2 Up to 750 minutes of interstate, intrastate, and intraLATA toll long distance dialing to non-Sprint ION Customers, including inbound toll free calling delivered to a personal toll free number associated with the Residential Sprint ION account.
- .3 Unlimited Sprint ION to non-Sprint ION local calling.
- .4 For state taxation purposes only, a portion of the tariffed Sprint ION Monthly Service charge will be allocated to the state jurisdiction. Effective April 30, 2000, 71% of the tariffed residential Sprint ION Monthly Service charge will represent the Missouri intrastate allocation for taxation purposes.

- .5 A set of calling Custom Calling Features, subject to availability: Call Forwarding, per line; Call Forwarding-Busy/No Answer, per line; Call Forwarding-No Answer per line; Call Waiting; Caller ID, per line; Call Waiting Blocking; Caller ID-Blocking Per Call; Caller ID-Unblocking; Toll Denial, per line; Selective Call Acceptance; and Selective Call Rejection

(T)

Except for these features listed below, definitions are set forth in Section 5.3 of this tariff.

(T)

.1 Call Waiting Blocking

Provides the capability of preventing the interruption of data session calls by the call waiting signal, by prefixing dialed data calls with *70.

CANCELLED

.2 Caller ID-Unblocking

Provides the unblocking of Caller ID-Blocking-Per Line by prefixing the call with *82 or *65.

DEC 31 2001
2nd RP 103.2
Missouri Public Service Commission
MISSOURI.3 Caller ID Blocking-Per Call

Caller ID blocking per call is automatically available to all customers served by the Company, free of charge and on an unlimited basis. This blocking option allows callers to block the passage of their telephone numbers and/or names on outgoing calls by dialing a special code, prior to making each call. When the caller activates this feature, the Caller ID subscriber's display unit indicates the incoming call has been blocked. Caller ID Blocking-Per Call will not prevent the delivery of the telephone numbers to 911 emergency service providers.

MISSOURI.4 Selective Call Acceptance

Provides the capability for customer administration of a screening list against which all incoming calls are compared, with unwanted calls routed to an intercept announcement. Only calls from numbers residing in the customer's list are permitted to terminate. The screen list is activated by dialing *64 and deactivated by dialing *84, and work for on-net as well as off-net calls.

.5 Toll Denial

Toll Denial Service is a central office service that restricts long distance calling. Restricted calls are directed to a central office announcement. Toll Denial is activated when a dialed number is preceded by a one or a zero.

All interstate, intrastate, and intraLATA toll minutes above the 750 monthly cap will incur the per-minute rate as set forth in Section 5.14.2.1.2. All other services, (T) including but not limited to, international service, are not included as part of the Residential Sprint ION MRC.

By Order of PSC 103.3.1

.1 Toll Free Service:Public Service Commission
MISSOURI

Customers may order toll free service at the rates set forth in Section 5.14.2.1.2.1.1 as a component of the customer's Residential Sprint ION service. Customers may order either Toll Free With PIN or Toll Free Without PIN Service. Customers inbound toll free calling delivered to a personal toll free number associated with the Residential Sprint ION xt⁴ account are contributory to the 750 minutes of interstate, intrastate, and intraLATA toll long distance dialing to non-Sprint ION Customers.

(T)

(T)

(T)

Customers subscribing to Toll Free With PIN will be given a four digit personal identification number (PIN) to be used in conjunction with their toll free number. After dialing the customer's toll free number a caller will be prompted to dial the PIN before the call can be completed.

(T)

The PIN functionality will apply unless: 1) a customer orders Toll Free Service in an area which presently does not have Toll Free With PIN billing or 2) Toll Free With PIN functionality is not available with the Toll Free service the customer is ordering. Customers are able to subscribe to Toll Free Service without the PIN dialing requirement if: 1) the customer requests their own personal number and Sprint can provide the number or 2) the customer does not want users of their toll free number to be required to dial a PIN.

LOCAL EXCHANGE SERVICES**5. PRODUCT DESCRIPTIONS AND RATES (Continued)****.14 Residential Sprint IONSM (Integrated On-demand Network) Service (Continued)**

(N)

.2 Rates

Calls are billed in one-minute increments. Fractional minutes are rounded up to the next minute.

.1 Residential Sprint ION Monthly Recurring Charge

Per Account \$119.99

.2 IntraLATA Toll, In-State, and Interstate Direct Dial and Toll Free**.1 Per Month**

0-750 Minutes	\$0.00
751+ Minutes	\$0.07

IntraLATA toll, intrastate and interstate calls placed to other Residential Sprint ION Customers will incur no charge and the minutes associated with such calls will not contribute to meeting the 750 monthly minutes cap.

Only toll free calls associated with a customer's Residential Sprint ION service will apply to the 750 per-month minute cap. No other toll free calls will contribute to the cap or receive the rates set forth above.
