General Exchange Tariff
Section 37
1st Revised Sheet 1
Replacing Original Sheet 1

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.1 Definition of Service

- (CT) 37.1.1 Shared Tenant Service (STS) Arrangements are the provision of local exchange access services by Southwestern Bell Telephone Company, to the STS Customer at an STS Building for the purpose of the STS Customer reselling or sharing the service with the STS Subscribers. It is anticipated that the STS Customer will not be the end user of the entire service furnished by the Company and that the STS Customer intends to resell or permit sharing of the service by STS Subscribers.

37.2 Definitions

The following definitions apply to the provision of STS arrangements, in addition to those in Section 8 of the General Exchange Tariff.

- (CP) STS CUSTOMER - any person, corporation or other entity that provides STS within a user group and that is certificated to do so by the Missouri Public Service Commission (PSC).
- (CT) STS SUBSCRIBER - any person, corporation or other entity who occupies an STS Building and is furnished telephone service by the STS Customer.
- (AT) STS BUILDING - a structure under one roof on one premise, (premise as defined in Section 8 of the General Exchange Tariff), which is wholly located in a single Telephone Company exchange and/or wire center in which telephone service to STS Subscribers is provided by an STS Customer. In no case can two or more structures on one premise which are connected by an enclosed or covered passageway be considered a single STS Building. STS may be provided in less than a building but it must be confined to a contiguous premise, (premise as defined in Section 8 of the General Exchange Tariff). Exceptions to this provision must be approved by the Missouri PSC.
- (CP) NEW STS BUILDING - For the purpose of this paragraph, a newly constructed building is defined as a building in which the Telephone Company has not previously provided permanent distribution facilities adequate to serve the occupants of the building. The provision of service to contractors during the building's construction is not considered permanent distribution facilities. A building will be considered new for a period of 180 days from the time the distribution facilities are placed in the building.

(AT) SHARED TENANT SERVICE (STS) ARRANGEMENTS (1)

37.1 Definition of Service

37.1.1 Shared Tenant Service (STS) Arrangements are the provision of local exchange access services by Southwestern Bell Telephone Company to the STS Customer at an STS Building for the purpose of the STS Customer reselling or sharing the service with the STS Users. It is anticipated that the STS Customer will not be the end user of the entire service furnished by the Company and that the STS Customer intends to resell or permit sharing of the service by STS Users. (STS Customer, STS Building, and STS User are as defined in Paragraph 37.2 of this section of the General Exchange Tariff.)

37.2 Definitions

The following definitions apply to the provision of STS arrangements, in addition to those in Section 8 of the General Exchange Tariff.

STS CUSTOMER - the owner or owner's agent of an entire building who possesses complete responsibility for the administration, management, control and utilization of said building and of the resale and/or sharing of telephone service to all occupants of the building. A lessor of an entire building may be an owner's agent when authorized by the building owner. Such owner or agent must provide property interest and other services in addition to telecommunications services on a contractual basis to an STS User in order to qualify as an STS Customer.

STS USER - any person, corporation or other entity who occupies an STS Building and is furnished telephone service by the STS Customer. To qualify as an STS User, there must exist a contractual relationship with the STS Customer such that the STS Customer provides a property interest and other services in addition to telecommunication services.

STS BUILDING - a structure under one roof on one premise, (premise as defined in Section 8 of the General Exchange Tariff), which is wholly located in a single Telephone Company exchange and/or wire center in which telephone service to STS Users is provided by an STS Customer. In no case can two or more structures on one premise which are connected by an enclosed or covered passageway be considered a single STS Building. This structure's location must be listed in Paragraph 37.9.

(1) This service arrangement is interim, until otherwise ordered by the Commission.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.2 Definitions-(Continued)

- (RT) EXISTING BUILDING CONVERTED TO STS - a building in which Southwestern Bell Telephone currently provides service directly to any or all occupant(s).

37.3 General Regulations

- (CT) 37.3.1 STS service is provided to the STS Customer for the exclusive use of the STS Customer, its employees and its STS Subscribers.
- (CT) 37.3.2 The STS Customer must confine the use and availability of STS service exclusively to the occupants of the STS Building.
- 37.3.3 The STS Customer has total responsibility for the administration, control and utilization of the resale and sharing of the service.
- (RT) 37.3.4 The STS Customer will limit the provision of shared or resold services to a single STS Building, unless it obtains a waiver from the Missouri PSC.
- (CP) 37.3.5 If the STS Customer files an application for certification and/or a waiver of the geographic limitations with the Missouri PSC, a copy of the application and/or waiver request(s) shall be sent concurrently to the Missouri Division's Legal Department of Southwestern Bell Telephone Company by the STS Customer. The address is 100 N. Tucker, Room 630, St. Louis, MO 63101.
- (RT) 37.3.6 The Company has the right to refuse to install STS or to permit STS to remain on any premises when the public in general may make use of the STS service.
- 37.3.7 The service furnished to the STS Customer shall always be classified as a business service for the purpose of the application of tariff rates.
- (CT) 37.3.8 The STS Customer must utilize a Private Branch Exchange (PBX) which is registered with the Federal Communications Commission (FCC) and riser cable which conforms to all electrical codes and Southwestern Bell Telephone Company's technical standards for riser cable or transmission facilities.

37.2 Definitions-(Continued)

New STS Building - a building in which Southwestern Bell Telephone does not currently provide service directly to any occupant, other than the STS Customer, and such building is declared an STS Location by the building owner. This location must be listed in Paragraph 37.9.1 and will prospectively be considered a location in which telephone service to persons, other than the STS Customers, will be provided on a deregulated, competitive basis at the discretion of the telephone company.

Existing Building Converted to STS - a building in which Southwestern Bell Telephone currently provides service directly to any or all occupant(s) and such building is declared an STS Location by the building owner. This location must be listed in Paragraph 37.9.2 and Southwestern Bell will continue to provide service directly only to existing customers at existing locations (premises), who continue to subscribe to Southwestern Bell Telephone facility based services at the time of conversion of the building to STS. Southwestern Bell Telephone Company has no obligation to directly serve any new occupants of this building nor any obligation to directly serve any existing occupants who request Southwestern Bell to discontinue service at the time the building is declared an STS Location, or discontinue Southwestern Bell service any time after the building is declared an STS Location; however, Southwestern Bell Telephone may provide service to these customers on a deregulated, competitive basis.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.3 General Regulations-(Continued)

- (CP) 37.3.9 The STS Customer may furnish its resold and shared services through one or more PBXs but is restricted to the authorized geographic limitations of the STS Building as defined by this tariff or under a PSC approved waiver. If there is one or more than one PBX, Southwestern Bell is required to provide only one point of termination. Except for the private use of the STS Customer, as specified above, interconnection of multiple resold or shared PBXs within the local exchange area and LATA is prohibited.
- (CP) 37.3.10 Southwestern Bell Telephone Company has a tariff obligation to provide continuing service to any customer who wants service from Southwestern Bell Telephone Company at all STS Buildings so long as the STS Customer or building owner will:
- A. Provide the Telephone Company immediate and continuing free right-to-use of the riser cable and other facilities within the STS Building, not owned by the Telephone Company, necessary to serve its customers.
 - B. Provide the Telephone Company with immediate continuing access and use of any existing Southwestern Bell Telephone Company facilities within the STS Building, at no charge to the Telephone Company. Should the STS Customer or building owner request Southwestern Bell to move, remove or rearrange any of its existing facilities within the STS Building, the STS Customer or building owner will give the Telephone Company right-of-way to make such moves or rearrangements and they will be charged a rate based on the cost.
 - C. Provide to the Telephone Company additional access and right-of-way, to enable Southwestern Bell Telephone Company to place additional facilities within the STS Building to serve Southwestern Bell Telephone Company customers, at no charge to the Telephone Company.
- (CP) 37.3.11 Riser cable that is installed or acquired by an STS Customer or building owner must be the wholly owned property of the STS Customer or building owner. It may not be leased or mortgaged by a third party. In addition, an easement in the riser cable shall be given to the Telephone Company at its request.
- (CP) 37.3.12 In existing buildings where the Telephone Company has installed the riser cable, the STS Customer can either contract for a fee for the use of the Telephone Company's riser cable or install its own.

37.3 General Regulations-(Continued)

37.3.13 Service arrangements furnished to accredited public and private educational institutions which provide telecommunication services to students, faculty members or employees who reside in dormitories or other residential quarters owned, leased or under control of the educational institution are not considered to be Shared Tenant Service arrangements. These service arrangements will continue to be provided as specified in Section 13 of the General Exchange Tariff.

37.4 Facilities

- (CT) 37.4.1 The service is composed of the serving central office line equipment, all outside plant facilities needed to connect the Company's serving central office with the STS Building and the network interface. These facilities are provided and maintained by the Company and provide access to and from the telecommunications network for both long distance service and local calling.
- (AT) 37.4.2 Charges for Service Connections, moves, removals and changes apply in addition to other applicable charges specified in this and other Company tariffs.
- 37.4.3 Charges and rates for directory assistance calls, as provided by the Company, are those described in Section 6 of the General Exchange Tariff.
- (CT) 37.4.4 The STS Customer assumes the total and exclusive responsibility for compliance with all rules and regulations governing the use of the service including the use of the service by the STS Customer's Subscribers.
- (AT) 37.4.5 Private Coin Service instruments shall access the local exchange telephone network through a separate access line provided directly by the Telephone Company. Private Coin Service may not be provided as a station behind a PBX. All other regulations pertaining to Private Coin are included in Section 34.
- (RT) 37.4.6 Southwestern Bell Telephone Company's responsibility for the provision of exchange service, private line service, data service or other facility type services ends at the point of connection (network interface) to the STS Customer's PBX and does not extend to the STS Subscribers.

37.3 General Regulations-(Continued)

37.3.11 Southwestern Bell Telephone Company is not obligated to directly serve any occupant of a New STS Building and is only obligated to service existing customers in an Existing Building Converted to STS. The provision of service to occupants of an STS Building, other than existing Southwestern Bell Telephone Company customers, will be made solely at the discretion of Southwestern Bell Telephone and at rates and charges contractually agreed upon between Southwestern Bell and the occupant.

37.3.12 To the extent Southwestern Bell Telephone has a continuing tariff obligation to provide service to existing customers at Existing Buildings Converted to STS, the STS Customer or building owner will:

- A. Continue to provide to the Telephone Company, access, right of way, and use of any existing Southwestern Bell Telephone Company facilities within the STS Building listed in Paragraph 37.9.2, at no charge to the Telephone Company. -Should the STS Customer or building owner request Southwestern Bell to move or rearrange any of its existing facilities within the STS Building, the STS Customer or building owner will be charged a rate based on the cost to make such moves or rearrangements.
- B. Provide to the Telephone Company additional access and right of way, to enable Southwestern Bell Telephone Company to place additional facilities to Southwestern Bell Telephone Company customers, at no charge to the Telephone Company.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

(MT) 37.5 Responsibility of the STS Customer

In addition to the obligations set forth in Section 17 of the General Exchange Tariff, STS Customers shall have the following obligations:

- (MT) 37.5.1 The STS Customer must comply with all applicable federal, state and local laws and regulations concerning the use of telephone service to disabled and/or hearing impaired persons.
- (RT) 37.5.2 Applications for STS service as well as requests for additions, changes, rearrangements or discontinuances of service, will only be accepted from the STS Customer.
- (CT) 37.5.3 The STS Customer will indemnify and hold the Company harmless for any damage to STS Subscribers, the building owner, subsequent tenants and subsequent purchasers of the building resulting from compliance with the STS Customer's requests or the terms of this tariff.
- (CT) 37.5.4 Whenever "notice" is required, the Company will be responsible to give notice only to the STS Customer or its authorized agent. The STS Customer will notify its STS Subscribers as necessary.
- (CT) 37.5.5 All charges associated with the service will be billed to the STS Customer only. This includes any Customer-Owned Equipment Trouble Isolation Charge where the service difficulty or trouble was reported by persons other than the STS Customer, including the STS Customer's Subscribers.
- (CT) 37.5.6 The STS Customer will be solely responsible for referral of calls for a reasonable period of time in the event an STS Subscriber relocates outside the STS Building or obtains other telephone service from the Telephone Company or others.
- (AT) 37.5.7 The STS Customer must use only riser cable that meets the Telephone Company's technical standards for riser cable or transmission facilities. Southwestern Bell has the right to inspect the riser cable before the interconnection of STS is provided to the STS Customer, to verify that the riser cable meets the Telephone Company's technical standards. In disputed cases concerning whether the STS Customer's riser cable does or does not meet the Telephone Company's technical standards, the PSC Staff shall make an independent evaluation to determine whether these standards are met by the STS Customer.

37.5 Responsibility of the STS Customer-(Continued)

- (CT) 37.5.8 The STS Customer is responsible for the direct payment of all charges billed, including long distance and private line charges, associated with the service. The applicable Company Rules and Regulations, regarding bill payments and suspensions are included in Section 17 of the General Exchange Tariff. In the event the STS Customer receives notice from the Company of pending service suspension, the STS Customer will have sole responsibility to notify its STS Subscribers at least two (2) days prior to the date of the pending suspension.
- (MT) 37.5.9 The Company is not responsible for any allocation, proration or distribution of any charges billed to the STS Customer.
- (MT) 37.5.10 Toll message investigation requests for Southwestern Bell Long Distance will only be accepted from the STS Customer. Without charge, these investigations will be performed but limited to no more than four (4) for each 1,000 messages billed per billing period. For investigations of messages in excess of this limit, a charge based upon cost will apply.
- (RT) 37.5.11 In an Existing building Converted to STS, the STS Customer must notify, in writing, any existing Southwestern Bell Telephone Company customers that they may continue to receive service from Southwestern Bell Telephone Company. A copy of the notice should be provided to the Telephone Company, at the address listed in Paragraph 37.3.5 of this tariff.
- (CT) 37.5.12 The STS Customer will train its STS Subscribers of appropriate trouble reporting procedures so that all trouble calls will be directed through the STS Customer's representative. In the event an STS Subscriber reports trouble directly to the Company, the STS Customer may be liable for a Customer-Owned Equipment Trouble Isolation Charge as specified in Section 16 of the General Exchange Tariff.
- (MT) 37.5.13 In the event an STS Customer intends to discontinue the provision of resold and/or shared local exchange service to its STS Building, the STS Customer must provide both Southwestern Bell and all STS Subscribers written notice of its intended discontinuance at latest 180 days prior to the proposed discontinuance.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.5 Responsibility of the STS Customer-(Continued)

- (CT) 37.5.14 The STS Customer must insure that all STS Subscribers of the STS arrangement are aware of any limitations associated with their ability to either access the Emergency Telephone Number "911" or to receive the service benefits which reasonably would be expected by such users.
- (AT) 37.5.15 The STS Customer shall provide the Telephone company the size (number of access lines, types of service provided, etc.) and location of the STS Subscribers they serve.

37.6 Provision of Distributing Plant Facilities

- (CT) 37.6.1 The STS Customer must provide Southwestern Bell Telephone a written estimate of the type and number of facilities which will be required to service the STS Customer's building. In newly constructed buildings, as defined in Paragraph 37.2, (New STS Building), this facility estimate must be furnished to the Telephone Company at least 180 days prior to the establishment of the STS arrangement.
- (AT) 37.6.2 In the event an STS Customer requests service in a newly constructed building, as defined in Paragraph 37.2, in less than the 180 days specified in Paragraph 37.6.1, the STS Customer will be responsible for the incremental cost of any facilities, in excess of the facilities requested by the STS Customer, which the Telephone company constructed in anticipation of providing service directly to the occupants of the building. Payment of these charges must be received before STS will be provided to the STS Customer.

(MT) 37.7 Rights of the Company

In addition to the rights of the Telephone Company set forth in Section 17 of the General Exchange Tariff, the Company shall have the following rights:

- (CT) 37.7.1 Where a resale or sharing arrangement is suspected at a location that is not authorized to be STS, the Company will notify the Missouri PSC. If the customer fails to seek certification from the PSC to provide STS, the Telephone Company shall have the right to terminate such service.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.7 Rights of the Company-(Continued)

- (CT) 37.7.2 The Company retains all property rights in the telephone numbers used and the right to change the telephone numbers or serving office designation whenever it considers it desirable in the conduct of its business. The STS Customer shall notify its STS Subscribers in writing, that the STS Subscribers have no right to retain any telephone number associated with the service, and that if any STS Subscribers ceases utilization of the STS Customer's resale or sharing of service, that STS Subscriber will not be permitted to retain the same telephone number.
- (CT) 37.7.3 The Company will not accept directory listing and call referral requests from STS Subscribers subscribing to the STS Customer's service arrangement. These requests will only be accepted by the Company from the STS Customer. The Company may refuse a referral of calls or directory listing for an STS Customer who is in default of any charges due the Company.
- (MT) 37.7.4 Directory listing will be billed at business rates and charges, even if the actual listing is residential in nature. The involvement or participation of residential tenants does not alter the business classification of the service.
- (MT) 37.7.5 The Company will not be responsible for service quality beyond the point of interconnection (network interface) with the STS Customers equipment. The quality of service beyond the point of interconnection is the responsibility of the STS Customer.
- (MT) 37.7.6 The Company will terminate its facilities and locate the network interface at an STS Building in accordance with existing tariffs and FCC rules and regulations. In any event, such services shall be terminated and located in a manner and at charges as if the customer were a single user system.
- (MT) 37.7.7 The provision of service to an STS Customer for the purpose of resale or sharing shall in no way reduce the rights of the Company nor impose additional responsibility or liability upon the Company with respect to suspension or discontinuance of service for reasons of, but not limited to, impairment of service, abandonment, abuse or nonpayment of charges.

- 37.5.5 The STS Customer will be solely responsible for referral of calls for a reasonable period of time in the event an STS User relocates outside the STS Building designated in Paragraph 37.9 of this Tariff or obtains other telephone service from the Company or others.
- 37.5.6 The STS Customer is responsible for the direct payment of all charges billed, including long distance and private line charges, associated with the service. All bills are due upon receipt and are considered past due if payment is not received by the Company on or before the date stated on the bill which date shall be at least the tenth (10th) day after the date of the mailing of the bill to the STS Customer. If the entire amount billed, exclusive of any amount disputed by the STS Customer, is not received by the Company on the due date, then the Company may suspend service pursuant to applicable Company Tariffs. In the event the STS Customer receives notice from Company of pending service suspension, the STS Customer shall immediately notify its STS Users of the pending suspension.

SHARED TENANT SERVICE (STS) ARRANGEMENTS

37.7 Rights of the Company-(Continued)

- (MT) 37.7.8 The Company will distribute to the STS Customer such local directories as in its opinion are generally necessary for the efficient use of Local Exchange Service. The Company, upon the STS Customer request for a foreign or additional directory may, at the Company's discretion, charge for any such directory at a reasonable rate.
- (MT) 37.7.9 The Company shall have the right to require a deposit from an STS Customer in accordance with the regulations specified in Section 17 of the General Exchange Tariff.
- (MT) 37.7.10 When any STS Customer is in violation of any of the provisions in this section, the Telephone Company will promptly notify the STS Customer of the violation. The STS Customer shall correct the violation and shall confirm in writing to the Company within ten (10) days, following the receipt of written notice from the Company, that the violation has been corrected. Failure of the STS Customer to correct the violation and to give the required written confirmation to the Telephone Company within the time stated above shall result in suspension of the STS Customer's service until such time as the STS Customer complies with the provisions of this Tariff.

37.8 Rates

- (MT) 37.8.1 Rates for Local Exchange Service will be those specified for STS in the Local Exchange Tariff.
- (MT) 37.8.2 Rates for services other than Local Exchange Service will be as specified in the appropriate tariff.

37.5 Responsibility of the STS Customer-(Continued)

37.5.7 The Company is not responsible for any allocation, proration or distribution of any charges billed to the STS Customer.

37.5.8 Toll message investigation requests for Southwestern Bell Long Distance will only be accepted from the STS Customer. Without charge, these investigations will be performed but limited to no more than four (4) for each 1,000 messages billed per billing period. For investigations of messages in excess of this limit, a charge based upon cost will apply.

37.5.9 The STS Customer will notify its STS Users, prospective occupants of its STS Building, and existing Southwestern Bell Telephone Company customers at that location, in writing, that Southwestern Bell Telephone Company is not obligated to provide telephone service to any new occupant or STS User in the STS Building. The notice also should state that if Southwestern Bell Telephone is requested to provide service to any new occupants or STS User in an STS Building, it will do so solely at its discretion and only in accordance with the regulations stated in Paragraphs 37.3.11 and 37.3.12, preceding. In an Existing Building Converted to STS, the STS Customer must notify, in writing, any existing Southwestern Bell Telephone Company customer that they may continue to receive service from Southwestern Bell Telephone provided they subscribe to such service on an exclusive and uninterrupted basis. All notices provided by the STS Customer, pursuant to this paragraph, should at the same time be provided to the Company.

37.5.10 The STS Customer will train its STS Users of appropriate trouble reporting procedures so that all trouble calls concerning the service will be directed through the STS Customer's representative. In the event an STS User reports trouble directly to the Company, the regulations, specified in Section 16 of this tariff, for the Customer Owned Equipment Trouble Isolation Charge will apply, which may result in the billing of the Customer Owned Equipment Trouble Isolation Charge to the STS Customer

37.7 Rights of the Company

In addition to the rights of the Telephone Company set forth in Section 17 of the General Exchange Tariff, the Company shall have the following rights:

37.7.1 Where a resale or sharing arrangement provided by an STS Customer at a location other than that identified in Paragraph 37.9 of this tariff is discovered to be connected with the Company's Local Exchange Service, the Company shall have the right to terminate such service.

37.7.2 The Company retains all property rights in the telephone numbers used and the right to change the telephone numbers or serving office designation whenever it considers it desirable in the conduct of its business. The STS Customer will notify its STS Users, in writing, that the STS Users have no right to retain any telephone number associated with the service, and that if any STS User ceases utilization of the STS Customer's resale or sharing of service, that STS User will not be permitted to retain the same telephone number.

37.7.3 The Company will not accept directory listing and call referral requests from STS Users subscribing to the STS Customer's service arrangement. These requests will only be accepted by the Company from the STS Customer. The Company may refuse a referral of calls or directory listing for an STS User who is in default of any charges due the Company.

37.7.4 Directory listings will be billed at business rates and charges, even if the actual listing is residential in nature. The involvement or participation of residential tenants does not alter the business classification of the service.

37.7.5 The Company will not be responsible for service quality beyond the point of interconnection (network interface) with the STS Customers equipment. The quality of service beyond the point of interconnection is the responsibility of the STS Customer.

DIGITAL LOOP SERVICE

38.1 General

All rates, charges, terms and conditions set forth herein provide for the furnishing of service where suitable facilities are available and do not create an obligation of the Company to construct facilities especially for this service.

Other service offerings requested by the customer and not detrimental to this service or other services of the Company may be furnished in accordance with the regulations and at the rates and charges specified in the applicable sections of this tariff or other tariffs of the Company.

(AT)
|
(AT)

This service is competitively classified in the following exchanges:
Business:
St. Louis
Kansas City

38.1.1 Description

Provides the customer digital access to and from the Public Switched Telephone Network (PSTN) for circuit-switched voice (CSV) and circuit-switched data (CSD). This service employs a 1.544 Mbps facility capable of delivering up to twenty-four Line Terminations. The service is offered only for use with compatibly equipped FCC Part 68 equipment.

38.1.2 Service Components

A. Telephone Service Line - Line Termination

Composed of the serving central office exchange access line equipment necessary for entry and exit of the public switched network for both long distance service and for local exchange calling appropriate to the calling option selected by the customer.

B. Telephone Service Line - Digital Transmission Loop Arrangement

Composed of a digital, multichannel transmission path, its related transmission equipment and the associated network interface device. Each arrangement provides two-way transmission for a capacity of up to 24 Line Terminations.

The Digital Transmission Loop Arrangement function, for Digital Loop Service, may be provided as a channel of a DS3 or higher digital transport service. When a DS3 or higher digital transport service is used the Digital Transmission Loop Arrangement charge is not applied.

C. Local Exchange Usage

Utilization made of the public switched network for the usage associated with local exchange service.

Public Service Commission

All rates, charges, terms and conditions set forth herein provide for the furnishing of service where suitable facilities are available and do not create an obligation of the Company to construct facilities especially for this service.

Other service offerings requested by the customer and not detrimental to this service or other services of the Company may be furnished in accordance with the regulations and at the rates and charges specified in the applicable sections of this tariff or other tariffs of the Company.

38.1.1 Description

Provides the customer digital access to and from the Public Switched Telephone Network (PSTN) for circuit-switched voice (CSV) and circuit-switched data (CSD). This service employs a 1.544 Mbps facility capable of delivering up to twenty-four Line Terminations. The service is offered only for use with compatibly equipped FCC Part 68 equipment.

38.1.2 Service Components

A. Telephone Service Line - Line Termination

Composed of the serving central office exchange access line equipment necessary for entry and exit of the public switched network for both long distance service and for local exchange calling appropriate to the calling option selected by the customer.

B. Telephone Service Line - Digital Transmission Loop Arrangement

Composed of a digital, multichannel transmission path, its related transmission equipment and the associated network interface device. Each arrangement provides two-way transmission for a capacity of up to 24 Line Terminations.

(AT)
|
(AT)

The Digital Transmission Loop Arrangement function, for Digital Loop Service, may be provided as a channel of a DS3 or higher digital transport service. When a DS3 or higher digital transport service is used the Digital Transmission Loop Arrangement charge is not applied.

C. Local Exchange Usage

Utilization made of the public switched network for the usage associated with local exchange service.

DIGITAL LOOP SERVICE

38.1 GENERAL (cont'd)

38.1.3 Regulations

- A. The following regulations are in addition to other regulations as stated in this and other tariffs of the Company. For the purposes of this service, when such other regulations apply on a "per line" basis, they shall be interpreted in this instance as applying on a "per Line Termination" basis.
- B. Digital Loop Service is furnished subject to the availability of facilities and only within a LATA.
- C. It is offered with identical local exchange usage options and calling scopes as defined in the Local Exchange Tariff.
- D. Monthly recurring access line rates and charges as specified in the Local Exchange Service Tariff are not applicable to this service. However, Service and Equipment charges to move or change service do apply on a per Line Termination basis. Other rates and charges for associated services (i.e., End User Line Charges, etc.), which normally would apply on a per line basis, will apply on a per Line Termination basis.
- E. Each Digital Transmission Loop Arrangement can contain both DID and non-DID Line Terminations. The customer must initially indicate the specific location of each Line Termination within the multichannel transmission path. Subsequent change in this configuration will result in the application of appropriate charges expressed in Paragraph 38.2.1, following.
- F. Service provided under this tariff contemplates the customer's requested service location(s) are within the Base Rate Area (BRA) of the normal serving central office. Requests for Digital Transmission Loop Arrangements extending beyond the normal serving office BRA, when feasible, may be provided as stated in Section 5 of the General Exchange Tariff in addition to the rates stated in this tariff.
- G. If a customer requests that Digital Loop Service be provisioned from an office other than the Digital Loop serving office designated by the Company, and if agreed to by the Company, Digital Loop Service may be extended to Company central offices within the same Local Access Transport Area (LATA) through the application of MegaLink 1.5 (DS1) Service, DS3 Service, or other suitable Company services.

DIGITAL LOOP SERVICE-(CONTINUED)

38.1 General-(Continued)

38.1.3 Regulations-(Continued)

- H. Customer requests for a change in central office designation or a relocation of service to another premises will be considered a disconnection and connection of new service.
- I. Except as otherwise noted, the minimum service period is 30 days.
- J. Except for the Local Exchange usage portion of this service, the temporary suspension of service provisions are not applicable.
- K. No performance guarantee is made or implied beyond those associated with the normal provisioning of Local Exchange Service.
- L. Note that special steps are required for PBX customers to have 9-1-1 service features consistent with those provided to other end users in the same 9-1-1 service area. Automatic Number Identification, Automatic Location Identification and/or Selective Routing are only available through coordination with the governmental agency responsible for 9-1-1 service within the area served by the PBX in accordance with the provisions of Section 28 of the General Exchange Tariff.

38.1.4 Optional Features

- A. Loop Protection: Provides automatic restoration of the Digital Transmission Loop Arrangement facility and physical route redundancy from the customer's serving wire center to be the point nearest the customer's premises that redundancy can be achieved in the event of a transmission failure caused by a single facility break or a single loop electronics failure.

(AT) Loop protection is available when Digital Transmission Loop Arrangement is used. If DS3 or
(AT) higher digital transport is used, loop protection native to that service applies.

The automatic restoration capabilities are provided through use of intelligent components which are capable of sensing transmission failures in the fiber facilities. The primary and secondary transmission paths are separately routed in geographically and physically separate fiber optic cables up to the nearest point to the customer's premises that route redundancy can be achieved. In the event of a transmission failure, the intelligent components will automatically switch the Digital Loop Service from the primary to the secondary transmission path within 2.0 seconds. This service is provided subject to the limitations set forth in Section 17, Paragraph 17.8.3 of the General Exchange Tariff.

The primary and secondary transmission paths are separately routed in geographically and physically separate fiber optic cables up to the nearest point to the customer's premises that route redundancy can be achieved. In the event of a transmission failure, the intelligent components will automatically switch the Digital Loop Service from the primary to the secondary transmission path within 2.0 seconds. This service is provided subject to the limitations set forth in Section 17, Paragraph 17.8.3 of the General Exchange Tariff.

(1) Loop Protection Feature will be provided where fiber optic facilities are available. Special Construction Charges may apply when fiber optic facilities are not available or unusual expenditures are involved in making them available to provide this feature. When requested by the customer prior to installation, the Special Construction charges may be deferred over a period of 12, 24, 36, 48 or 60 months. The deferred monthly value shall be determined by multiplying the special construction charge by the appropriate annuity factor, as found in Section 17.6.5 of this Tariff. A charge equal to the remaining payments will be due immediately should the customer terminate the service prior to completing payment of the deferred charge.

(2) These rates are in addition to the applicable rates specified in the preceding Paragraphs 38.2.1; C.1, C.2 and C.3 of this tariff.

38.2.2 Application of Rates and Charges

- A. Service components in Paragraph 38.2.1, preceding are not offered separately nor independent of one another.
- B. The Digital Transmission Loop Arrangement is available under payment option 1. Payment option 2 is obsolete and limited to existing installations at existing locations for existing customers.
- C. Each Digital Transmission Loop Arrangement must be entirely of the same payment option.
 - 1. Once selected, the payment option will remain for the duration of the particular arrangement.
 - 2. The payment option may vary between arrangement.
 - 3. Application of the "Channel Location Changed or Rearranged" charge applies only to those changes or rearrangements made within a Digital Transmission Loop Arrangement or between those having a like payment option.
- D. Local Exchange Usage in Paragraph 38.2.1, (C), preceding, shall conform to the principles of Paralleling Service as described in Section 17 of the General Exchange Tariff.
- E. Under Payment Option 1, the customer shall select a service term for each Digital Transmission Loop Arrangement of either Month-to-Month, 12, 24, 36, 48, or 60 consecutive months.
 - 1. If the customer selects a service term (other than month-to-month), the customer will be required to sign an agreement. The Service Term cannot be changed for the duration of this agreement. The monthly rate will not be subject to rate increases for the duration of the Service Term. If tariff changes are approved lowering the Service Term Rates, the Company will apply the new lowered rates prospectively to all unexpired service term agreements.

(RT) DIGITAL LOOP SERVICE

(CT) 38.2 Rates and Charges (cont'd)

(CT) 38.2.2 Application of Rates and Charges (cont'd)

(CT) E. (cont'd)

- 2. If the customer disconnects the Digital Transmission Loop Arrangement prior to the expiration of the 12, 24, 36, 48, or 60 month service term, the customer shall pay a termination charge. Payment of the termination charge does not release the customer from other amounts previously owed to the Company.

(AT) For Service Term Agreements which become effective on or after September 15, 2004:

- In addition to any unpaid Special Construction or Nonrecurring Charges (excluding waived charges), customer termination liability for cancellation of Digital Loop Service shall be equal to fifty percent (50%) of all recurring charges for the remaining months of the customer's Service Term.

(AT) For Service Term Agreements in effect prior to September 15, 2004, the termination charge shall be the lesser of:

- The difference between the total rates and charges of the original service term at the time of termination and the total rates and charges for the next lower service term actually completed times the total number of completed months of the original service term plus interest charges based on approved costs of money in effect at the time of termination, or
- The monthly payments remaining on the service term for each Digital Transmission Loop Arrangement. (1)

(CT) This charge will be waived if the customer converts the arrangement to another Company
 (CT) provided digital service for a service term that equals or exceeds the number of months
 (CT) remaining on the customer's Digital Loop Service agreement. This charge will also be
 (CT) waived for Digital Loop Service customers who move their service to another Company
 (CT) served location within Missouri if the service terms are continued at the new location. In
 (CT) such cases, Installation Charges and Service and Equipment Charges are applicable.

(MT) (1) If the Digital Transmission Loop Arrangements are terminated anytime within the first twelve (12) months of service for any service term, the monthly and installation charges for the next lower service term will be those that are applicable to the Month-to-Month rate.

38.2 Rates and Charges-(Continued)

38.2.2 Application of Rates and Charges-(Continued)

E. -(Continued)

2. If the customer disconnects the Digital Transmission Loop Arrangement before the expiration of the 12, 24, 36, 48, or 60 month service term, the customer shall pay a termination charge. Payment of the termination charge does not release the customer from other amounts previously owed to Southwestern Bell. The termination charge shall be the lesser of:

- The difference between the total rates and charges of the original service term at the time of termination and the total rates and charges for the next lower service term actually completed times the total number of completed months of the original service term plus interest charges based on approved costs of money in effect at the time of termination, or
- The monthly payments remaining on the service term for each Digital Transmission Loop Arrangement. (1)

This charge will be waived if the customer converts the arrangement to another Southwestern Bell digital service for a service term that equals or exceeds the number of months remaining on the customer's Digital Loop Service agreement. This charge will also be waived for Digital Loop Service customers who move their service to another Southwestern Bell served location within Missouri if the service terms are continued at the new location. In such cases, Installation Charges and Service and Equipment Charges are applicable.

- 3. If additional Digital Transmission Loop Arrangements are ordered at a location where the customer has an existing Digital Loop Service term pricing agreement, the additional service(s) may be added to that agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the service additions. Note that additions to an agreement are subject to the provisions described in Paragraph 38.2.2.E.2.
4. Upon the expiration of the service term, the customer may:
a. Continue service without establishing a new service term. Service will be provided on a month-to-month basis at the then current rate. This monthly rate will be subject to any rate changes approved by the Commission.
b. Continue service by selecting a new service term of 12, 24, 36, 48, or 60 months. The new service term will commence on the day following the expiration of the previous service term at the then current rate.
c. Discontinue the service.
5. If a service term agreement expires and the customer has not notified the Company regarding which option he elects, service will continue at the monthly rate in effect at that time for the month-to-month option.

(CT)

(CT)

(AT) (1) If the Digital Transmission Loop Arrangements are terminated anytime within the first twelve (12) months of service for any service term, the monthly and installation charges for the next lower service term will be those that are applicable to the Month-to-Month rate.

38.2.3 Promotions

A. Digital Plus Promotion

1. Customers purchasing Digital Loop Service with Local Plus between September 15, 2000 and December 31, 2000, and commit to a three or five year contract for this service combination, will receive discounted Local Plus rates (see Section 48, Sheet 6 for a detailed explanation). This arrangement will be referred to as a Digital Plus arrangement.
2. A customer who connects a new Digital Transmission Loop Arrangement, as part of this arrangement, is also eligible for a waiver of installation charges associated with the Digital Transmission Loop Arrangement and a credit payable in the third month of their contract. The credit will be equal to the number of new Digital Transmission Loop Arrangements (associated with a Digital Plus arrangement) times \$225.00 for three-year contracts or times \$500.00 for five-year contracts. Existing Digital Transmission Loop Arrangements are not eligible for credits. Existing Digital Transmission Loop Arrangements must have been disconnected for a period of nine months before they may be re-connected and qualified for this promotion.
3. If a customer discontinues a Digital Plus arrangement prior to the contract expiration, they are liable for a termination payment. The payment associated with Digital Loop Service is equal to the lesser of:
 - a. All credits issued and charges waived in association with a new connection plus the number of months the customer had Digital Loop Service times the difference between the tariff rate for the highest completed Term and the Digital Plus rate, or
 - b. The remaining contract obligation.

(CT)

1. Customers purchasing Digital Loop Service with Local Plus between September 15, 2000 and December 31, 2000, and commit to a three or five year contract for this service combination, will receive discounted Local Plus rates (see Section 48, Sheet 6 for a detailed explanation). This arrangement will be referred to as a Digital Plus arrangement.
2. A customer who connects a new Digital Transmission Loop Arrangement, as part of this arrangement is also eligible for a waiver of installation charges associated with the Digital Transmission Loop Arrangement and a credit payable in the third month of their contract. The credit will be equal to the number of new Digital Transmission Loop Arrangements (associated with a Digital Plus arrangement) times \$225 for three-year contracts or times \$500 for five-year contracts. Existing Digital Transmission Loop Arrangements are not eligible for credits. Existing Digital Transmission Loop Arrangements must have been disconnected for a period of nine months before they may be re-connected and qualified for this promotion.

MISSOURI

38.3.1. Description

SuperTrunk offers a direct T1 connection from the Company's digital switch to the customer's premises as an option of Digital Loop Service. Each SuperTrunk provides 24 exchange channels and will allow all channels to receive and generate calls. It will be available in digital offices where facilities permit and requires Touch-tone on all stations. Line side features are not available with SuperTrunk; therefore, if a customer wants vertical features (e.g., EasyOptions® Services) on their PBX outdials and combo trunks, they cannot subscribe to SuperTrunk. Direct Inward Dial (DID) numbers may or may not be assigned to these trunk groups. See the General Exchange Tariff, Miscellaneous Service Offerings, Section 13 for applicable DID rates. This service consists of three service components described herein. Service components are not offered separately or independent of one another.

38.3.2 Standard Service Components

- A. SuperTrunk Port - A direct T1 termination on the digital switch that provides 24 exchange channels. The port will provide incoming and outgoing digital connectivity to the switch network.
- B. Transport Element - A Digital Transmission Loop will connect the SuperTrunk termination to the customer's premise. Each arrangement provides two-way transmission with a maximum capacity of twenty-four Line Termination. Refer to the Application of Rates and Charges section of this tariff for regulations that apply to the Digital Transmission Loop.
- C. Switch Use - Includes the use of the public switched telephone network.

(AT) B. Digital Loop Service/SuperTrunk III

1. A promotional period will begin on September 9, 2003 and end on December 8, 2003 for eligible business customers who order Digital Loop service and who commit to a 36-, 48-, or 60-month service term. This promotion is available to customers who are ordering new Digital Loop circuits, and/or who are renewing existing Digital Loop service term agreements which expire during the promotional period. Business customers will receive a waiver of all associated installation charges on the Digital Transmission Loop Arrangement (DTLA), Direct Inward Dialing (DID) 100 number calling block, and DID Trunk Termination. Monthly recurring charges will be discounted as follow:

Product Name	Service Term		
	<u>36 Months</u>	<u>48 Months</u>	<u>60 Months</u>
Digital Transmission Loop Arrangement (DTLA)	\$171.00	\$162.00	\$153.00
DID 100 Number Calling Block	10.00	10.00	10.00
DID Trunk Termination	10.00	10.00	10.00

2. To be eligible for this promotion, the business customer must not currently have any past due bills for regulated service owed to the Company, except in those cases where the customer and the Company have established mutually acceptable payment arrangements for collection of past due amounts. Termination liability charges as specified in this Tariff Section will apply in the event of early termination of contract.

(AT) 3. Service must be installed on or before February 15, 2004.

DIGITAL LOOP SERVICE

(MT)(CT) 38.3 SUPERTRUNK

38.3.1. Description

SuperTrunk offers a direct T1 connection from the Company's digital switch to the customer's premises as an option of Digital Loop Service. Each SuperTrunk provides 24 exchange channels and will allow all channels to receive and generate calls. It will be available in digital offices where facilities permit and requires Touch-tone on all stations. Line side features are not available with SuperTrunk; therefore, if a customer wants vertical features (e.g., EasyOptions® Services) on their PBX out dials and combo trunks, they cannot subscribe to SuperTrunk. Direct Inward Dial (DID) numbers may or may not be assigned to these trunk groups. See the General Exchange Tariff, Miscellaneous Service Offerings, Section 13 for applicable DID rates. This service consists of three service components described herein. Service components are not offered separately or independent of one another.

38.3.2. Standard Service Components

- A. SuperTrunk Port - A direct T1 termination on the digital switch that provides 24 exchange channels. The port will provide incoming and outgoing digital connectivity to the switch network.
- B. Transport Element - A Digital Transmission Loop will connect the SuperTrunk termination to the customer's premise. Each arrangement provides two-way transmission with a maximum capacity of twenty-four Line Termination. Refer to the Application of Rates and Charges section of this tariff for regulations that apply to the Digital Transmission Loop. The Digital Transmission Loop Arrangement for SuperTrunk may be provided as a channel of a Company-provided DS3 service. When a DS3 service is used, the Digital Transmission Loop Arrangement charge is not applied.
- C. Switch Use - Includes the use of the public switched telephone network.

38.3.3 Application of Rates

- A. The customer shall select either a Month-to-Month or a service term (12, 24, 36, 48 or 60 consecutive months) for each SuperTrunk Port.
- B. If the customer selects a service term (other than month-to-month), the customer will be required to sign an agreement. The Service Term cannot be changed for the duration of this agreement. The monthly rate will not be subject to rate increases for the duration of the Service Term. If tariff changes are approved lowering the Service Term Rates, the Company will apply the new lowered rates prospectively to all unexpired service term agreements.

38.3.3 Application of Rates

- A. The customer shall select either a Month-to-Month or a service term (12, 24, 36, 48 or 60 consecutive months) for each SuperTrunk Port.
- B. If the customer selects a service term (other than month-to-month), the customer will be required to sign an agreement. The Service Term cannot be changed for the duration of this agreement. The monthly rate will not be subject to rate increases for the duration of the Service Term. If tariff changes are approved lowering the Service Term Rates, the Company will apply the new lowered rates prospectively to all unexpired service term agreements.
- C. If the customer terminates the SuperTrunk Service agreement prior to the expiration of the 12, 24, 36, 48 or 60 month service term, the customer shall pay a termination charge for each SuperTrunk Port and Switch Use Element disconnected. Payment of the termination charge does not release the customer from other previous amounts owed to Southwestern Bell. The termination charge shall be the lesser of:

- The difference between the total rates and charges of the original service term at the time of termination and the total rates and charges for the next lower service term (1) actually completed times the total number of completed months of the original service term, or interest charges based on approved costs of money in effect at the time of termination, or
- The monthly payments remaining on the service term for each Digital Transmission Loop Arrangement.

This charge will be waived if the customer converts the arrangement to another Southwestern Bell digital service for a service term that equals or exceeds the number of months remaining on the customer's SuperTrunk service agreement. This charge will also be waived for SuperTrunk customers who move their service to another Southwestern Bell served location within Missouri if the service terms are continued at the new location. In such cases, Installation Charges and Service and Equipment Charges are applicable. See paragraph 38.2.2.E2.

- D. If additional SuperTrunk Ports are ordered at a location where the customer has an existing SuperTrunk Port term pricing agreement, the additional service(s) may be added to that agreement, so that the monthly rate and expiration date specified in the original agreement apply. As an alternative, the customer may choose the month-to-month payment option or a different term option for the service additions. Note that additions to an agreement are subject to the provisions described in paragraph 38.3.2.2.

Note that additions to an agreement are subject to the provisions described in Paragraph 38.3.2.2.

(MT) E. Upon expiration of the 12, 24, 36, 48 or 60 month service term, the customer may:

1. Continue service without establishing a new service term. Service will be provided on a month-to-month basis at the then current rate. This monthly rate will be subject to any rate changes approved by the Commission.
2. Continue service by selecting a new service term of 12, 24, 36, 48 or 60 months. The new service term will commence on the day following the expiration of the previous service term.
3. Discontinue the service.

F. If a service term agreement expires and the customer has not notified the Company regarding which option they elect, service will continue at the monthly rate in effect at that time for the month-to-month option.

38.3.5 Promotions

A. Digital Plus

(CT)
(CT)

1. Customers who purchase SuperTrunk with Local Plus between September 15, 2000 and December 31, 2000, and commit to a three or five year contract for the service combination will receive discounted SuperTrunk Port rates. The month-to-month price for the SuperTrunk Port rates will be discounted as follows:

- a. Three year contract: 28% off the month-to-month rate
- b. Five year contract: 32% off the month-to-month rate

This arrangement will be referred to as a Digital Plus arrangement.

2. A customer who connects a new SuperTrunk port, as a part of this arrangement is also eligible for a waiver of installation charges associated with the port and a credit payable in the third month of their contract. The credit will be equal to the number of new ports (associated with a Digital Plus arrangement) times \$225 for three-year contracts or time \$500 for five-year contracts. Existing ports are not eligible for credits. Existing ports must have been disconnected for a period of nine months before they may be re-connected and qualified as new ports for this promotion.
3. Subscribers under the Digital Plus promotion are also eligible for promotional pricing of their Local Plus Service (see Section 48, Sheet 6 for a detailed explanation).
4. If a customer discontinues a Digital Plus arrangement prior to the contract expiration, the customer is liable for a termination payment. The payment associated with SuperTrunk Service is equal to the lessor of:
 - a. All credits issued and charges waived in association with a new connection plus the number of months the customer had SuperTrunk Service times the difference between the tariff rate for the highest completed Term and the Digital Plus rate, or
 - b. The remaining contract obligation.

1. A promotional period will begin on September 9, 2003 and end on December 8, 2003 for eligible business customers who order SuperTrunk service and who commit to a 36-, 48-, or 60-month service term. This promotion is available to customers who are ordering new SuperTrunk circuits, and/or who are renewing existing SuperTrunk service term agreements which expire during the promotional period. Business customers will receive a waiver of all associated installation charges on the Digital Transmission Loop Arrangement (DTLA) and Direct Inward Dialing (DID) 100 number calling block. Monthly recurring charges will be discounted as follow:

Product Name	Service Term		
	<u>36 Months</u>	<u>48 Months</u>	<u>60 Months</u>
Transport Element (DTLA)	\$171.00	\$162.00	\$153.00
SuperTrunk Port	198.00	189.00	180.00
Switch Use With DID, per channel	12.00	12.00	12.00
Switch Use Without DID, per channel	12.00	12.00	12.00
DID 100 number calling block	10.00	10.00	10.00

2. To be eligible for this promotion, the business customer must not currently have any past due bills for regulated service owed to the Company, except in those cases where the customer and the Company have established mutually acceptable payment arrangements for collection of past due amounts. Termination liability charges as specified in this Tariff Section will apply in the event of early termination of contract.

(AT) 3. Service must be installed on or before February 15, 2004.

39.1 GENERAL REGULATIONS

MISSOURI
Public Service Commission

- A. Call Control Options are a group of features individually described under Section 39, Paragraph 39.2, which allow customers to manage the calls on their Exchange Access Line(s). Call Control Option features are functional only when the calling party's telephone number can be forwarded from the central office originating the call to the terminating central office serving the called party, or when both the calling party and the called party are served from the same central office.
- B. Call Control Options are available to single line, residence and business customers, excluding some multiline hunting arrangements, where technology and facilities (such as central office capacity) are available.

Call Control Options are not available to customers having party line, Public, Semi-Public, Customer-Owned Pay Telephone Service, Mobile, Remote Switching System, WATS, Centrex, PLEXAR^R telephone services and trunk facilities associated with Direct Inward Dialing.

(RT)

- C. A monthly rate applies to all Call Control Option features except for CALL TRACE. CALL TRACE is billed on a "per successful activation" basis and may be purchased by itself or in conjunction with other Call Control Option features.
- D. Service charges as found in Paragraph 39.3.2 and 39.3.3 following, are applicable.
- E. In addition to the provisions of the General Exchange Tariff, Section 17, Sheet 20, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Call Control Options or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

39.2 FEATURES

AUG 03 1993

39.2.1 The Call Control Options feature are:

**MISSOURI
Public Service Commission**

A. CALL TRACE

Enables the customer to initiate a trace of the origin of the last incoming call completed by dialing an activation code immediately after terminating the call. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company Service Center during normal business hours.

(RT) B. CALL BLOCKER

(CP)

Enables a customer to avoid receiving, i.e., block, incoming calls from previously selected telephone numbers. To block telephone numbers, the customer can construct or modify a telephone number screening list by dialing a unique code. The Telephone Company equipment screens incoming calls against the customer's list and blocks those on the list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. To block future calls from unknown telephone numbers, a customer can activate a code after receiving an unwanted call. The unknown number will then be added to the customer's telephone number screening list. Telephone numbers that are blocked are directed to a Telephone Company recorded announcement.

(RT) C. CALL RETURN

**MISSOURI
Public Service Commission**

Enables the customer to automatically redial the telephone number of the last incoming call. If the last incoming call's telephone number is busy, the Telephone Company's equipment will monitor the status of the line being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of CALL RETURN, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed. This feature cannot be activated for calls originating from a line that is forwarded or from a line or trunk not associated with a telephone number, e.g., multiline hunting groups.

(CT) D. AUTO REDIAL

Enables the customer to automatically redial the last outgoing telephone number by dialing an activation code. When the recalled telephone number is busy, the Telephone Company's equipment will monitor the status of the line being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of AUTO REDIAL, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

(RT) E. PRIORITY CALL

Provides the customer with a distinctive alerting signal, ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code.

(CT) SIMPLELINK ENHANCEDSM

(CT) 40.1 GENERAL

SimpleLink Enhanced is an optional access and usage volume discount plan for SBC Missouri business customers which is available in all rate groups except Rate Group A. Customers subscribing to SimpleLink Enhanced receive monthly discounts on selected services based on the customer's Minimum Monthly Revenue Commitment (MMRC). SimpleLink Enhanced also provides an optional access line with Caller ID bundle at a flat rate.

(CT) 40.2 DEFINITIONS

40.2.1 **Minimum Monthly Revenue Commitment (MMRC)**

(AT) The minimum monthly revenue commitment that the customer must commit to, per month, based on their selected term in order to receive the volume discount.

40.2.2 **Contributory Services**

Those services whose revenue is counted towards achievement of the customer's selected MMRC.

40.2.3 **Eligible Services**

Those services that are eligible for discounts based on achievement of a specified MMRC.

40.2.4 **Maximum Monthly Allowable Discount**

The maximum monthly allowable discount that the customer can receive in a given month based on their selected MMRC.

40.3 TERMS AND CONDITIONS

40.3.1 Minimum Monthly Revenue Commitment

MMRC revenue is the sum total of the customer's monthly billed charges, for services specified in the Company's SimpleLink Enhanced tariff, for all eligible business accounts located in the state, before discounts are applied.

Services contributing towards the MMRC include all SBC Missouri regulated services except stand alone Business Flat Rate 1-Party access lines and Business Multiline) service (See Section 40.3.2 for bundle options).

OCT 11 1990

PERSONALIZED RINGSM

40.1 GENERAL REGULATIONS

MISSOURI

Public Service Commission

- A. Personalized Ring allows a customer to establish up to three telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ringing pattern. The billing number is called the Primary Number and additional associated telephone numbers are called Personalized Ring Numbers. A customer may subscribe to a maximum of two Personalized Ring Numbers. The standard ringing pattern is provided for the Primary Number. Distinctive ringing is provided for each Personalized Ring Number.
- B. Personalized Ring is available in conjunction with compatible residence and business service where technology, facilities and telephone numbers are available.
- C. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
- D. In addition to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of Personalized Ring or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time to repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.
- E. The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Services section of this Tariff. Additional call allowances are provided with Personalized Ring.
- F. A directory listing is provided for each telephone number associated with Personalized Ring Service. NonListed Service and NonPublished Service is available for all telephone numbers associated with Personalized Ring. NonListed Service rates and NonPublished Service rates shown in the Directory Services section of this Tariff apply to the Primary number only. There is no charge for NonListed Service or NonPublished Service furnished for Personalized Ring numbers.
- G. Additional listing rates and Residence Signature Listing rates shown in the Directory Services section of this Tariff apply to Primary and Personalized Ring numbers.

Replacing Original Sheet 2

(CT)

SIMPLELINK ENHANCEDSM

(AT)

40.3 TERMS AND CONDITIONS (cont'd)

40.3.1 Minimum Monthly Revenue Commitment (cont'd)

SimpleLink Enhanced service is available with one-year, two-year or three-year term plans. The one-year term also has a one-year renewable option. If the customer selects the one-year renewable option, the plan will automatically renew for a subsequent one-year term unless the customer advises SBC Missouri prior to the expiration of the term that it does not wish to renew. A maximum of two one-year renewal terms are available after the first one-year term. The customer will be sent written notification of the term selected and subsequent notifications regarding renewal options prior to the expiration of each one-year term. Additionally, three MMRC levels will be available for customers to choose from: \$45.00, \$85.00, and \$200.00. Customers subscribing to a two- or three-year SimpleLink Enhanced term plan will be required to sign a written order confirmation form, in order to qualify for the applicable plan discounts.

SimpleLink Enhanced customers who fail to meet their selected MMRC will be billed the difference between the selected MMRC and the monthly revenue billed.

The following eligible services will receive a discount using the Price schedule listed below in 40.4A:

- | | |

OCT 11 1990

40.1 GENERAL REGULATIONS (Continued)

- H. If a customer requests a change in the listings for telephone numbers associated with Personalized Ring Service, the Directory Listings Service Connection Charge specified in the Directory Services section of this tariff is applicable.
- I. Personalized Ring customers who subscribe to Call Forwarding can choose one of two forwarding arrangements. The first arrangement forwards the Personalized Ring number(s) along with the Primary number when it is forwarded. The second arrangement provides no forwarding of the Personalized Ring number(s). A forwarding arrangement must be selected at the time Personalized Ring is ordered. If a customer later requests a change in forwarding, the Personalized Ring Service Connection Charge will apply.
- J. If a customer requests a number change for a Personalized Ring number, the Personalized Ring Service Connection Charge applies. If a customer requests a number change for the Primary number, the Service and Equipment Charge specified in the Local Exchange Tariff is applicable.

(AT)

40.3 TERMS AND CONDITIONS (cont'd)

40.3.1 Minimum Monthly Revenue Commitment (cont'd)

Nonrecurring charges for the above services are not eligible for discounts or waivers unless specifically stated in the SimpleLink Enhanced tariff.

* An additional 30% discount will be applied to the Company calling features as indicated above and will apply in addition to Total Volume Discount percentage listed in 40.4.A.

Caller ID Name and Number will not receive the additional 30% discount when part of the Simple Link Enhanced Access Line Bundle package.

Local and state additional charges, taxes, the End User Common Line Charge and nonrecurring charges are not discount eligible.

An eligible SimpleLink Enhanced customer may include up to, but not exceed, ten of its accounts under one SimpleLink Enhanced agreement. A customer may have only one SimpleLink Enhanced agreement in SBC Missouri's service area.

A SimpleLink Enhanced plan is not transferable to, or may not be assumed by, a customer or customers other than the customer of record without prior written consent of the Company.

The customer's term commences the day after the service is activated by the Company. The date activated shall be the date the order installing the plan is completed in the Company's billing system.

Any account with an existing product agreement for a service which is included as a SimpleLink Enhanced eligible service, or on an optional calling plan (including but not limited to, The WORKS, BizSaver, Business Access Line Term Pricing, Custom BizSaver, Feature Select or CompleteLink) may not be included in a new SimpleLink Enhanced agreement.

40.3 TERMS AND CONDITIONS (cont'd)

40.3.2 SimpleLink Enhanced Access Line Bundles

SimpleLink Enhanced customers are eligible to subscribe to an Access Line Bundle that consists of a business access line and Caller ID Name and Number at a flat rate as described in this tariff. Customers must subscribe to a minimum of two bundles to receive the SimpleLink Enhanced Access Line Bundle flat rate.

The SimpleLink Enhanced Access Line Bundle is eligible for the SimpleLink Enhanced discounts outlined in this tariff.

The SimpleLink Enhanced Access Line Bundle flat rate is available for the duration of the SimpleLink Enhanced term plan selected by the customer. At the end of the SimpleLink Enhanced term plan, the customer will be billed for the components that make up the bundle at their individual month to month tariff rates unless the customer renews their SimpleLink Enhanced term agreement.

Standard service and equipment and/or installation charges apply to install Simple Link Enhanced Access Line bundles.

SimpleLink Enhanced Access Line Bundled Options consist of the following:

SimpleLink Enhanced Access Line Bundle 1

Business Flat Rate 1-Party Access Line
Calling Number
Calling Name

SimpleLink Enhanced Access Line Bundle 2

Business Multiline

MISSOURI
Public Service Commission

41.1 GENERAL REGULATIONS

- A. ComCall allows single line customers to set up internal (intercom) communications between multiple telephone extensions. The customer establishes intercom calls by dialing a code and hanging up the telephone handset. The code activates distinctive ringing to alert intercom users of an intercom call.
- B. ComCall is available in conjunction with compatible residence and business service where proper technology and facilities are available.
- C. Three-Way Calling is necessary for the operation of ComCall. Three-Way Calling rates are shown in the Custom Calling Services section of this Tariff.
- D. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.
- E. If ComCall and Call Waiting are on the same line, the Call Waiting feature is deactivated for the duration of the intercom connection. During this time, an incoming call will receive a busy signal.
- F. In addition to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of ComCall or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of this service after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service for the period following notice from the customer until service is restored.

SIMPLELINK ENHANCEDSM

40.4 PRICES (cont'd)

D. Other Applicable Charges and Payments

Unique Service Connection Charges are not applicable when establishing or changing to SimpleLink Enhanced, but service connection charges shall apply to new or additional services.

E. Early Termination Charges

Customers terminating a SimpleLink Enhanced plan prior to the expiration of the term period are subject to early termination charges.

Early termination charges are equal to 50% of the Minimum Monthly Revenue Commitment (MMRC) multiplied by the number of months remaining in the customer's term period. If a customer's partial monthly revenue is less than the MMRC, the customer is liable for 50% of the difference between the MMRC and the actual billed revenue. The early termination charge will be billed in a lump sum to customer's designated main billing telephone number.

Early termination liability charges are not applicable if during the SimpleLink Enhanced term period the customer converts to another Company access or usage plan with a term equal to or greater than the existing SimpleLink Enhanced plan, and a revenue commitment equal to or greater than the SimpleLink Enhanced MMRC.

F. Service Guarantee

Within 90 days of subscribing to a SimpleLink Enhanced two-year or three-year term plan, customers may cancel this service without incurring the termination liability charges specified in this tariff. This guarantee does not apply to customers who terminate or convert to another Company toll, access and/or usage commitment product for the purpose of subscribing to SimpleLink Enhanced.

General Exchange Tariff
Section 42
Exchange Interconnection Service
Original Sheet 1

EXCHANGE INTERCONNECTION SERVICE

42.1 GENERAL

42.1.1 This Section provides for the availability and use of specific Telephone Company provided facilities in the provisioning of discretionary services by an Enhanced Service Provider (ESP) hereafter referred to as customer.

42.1.2 These regulations and rates are in addition to the regulations and rates specified in other Telephone Company tariffs where referenced. Failure to observe these rules and regulations gives the Telephone Company the right to discontinue the service.

42.2 SERVICE DESCRIPTION

42.2.1 This service is provided to customers in the form of a Local Serving Arrangement (LSA) and Optional Service Features.

42.2.2 The LSA forms the local access arrangement that provides the customer access to the exchange network. It is a prerequisite to ordering any Optional Service Feature (OSF) which is provided in this Tariff. Each LSA consists of three (3) components: Access Link, Features/Functions and Transport.

42.2.3 An OSF offers the customer basic options that facilitate the customer's opportunity to offer enhanced services to its patrons in a flexible manner.

42.3 EXPLANATION OF TERMS

42.3.1 Access Link - The local loop facilities from the customer's premises to the first point of termination at the customer's serving central office.

42.3.2 Channel Interconnections - Central office equipment that connects an individual multiplexed channel to a switch termination.

42.3.3 Switch Termination - Central office equipment and wiring that connects an access link or channel interconnection to the central office switch.

42.3.4 Dial-Tone Office - The central office providing the LSA.

42.3.5 Multiplexed Arrangement - Central office equipment that combines individual channels together for transport over a single communications facility.

42.3 EXPLANATION OF TERMS-(Continued)

42.3.6 Enhanced Service - Services offered over Telephone Company transmission facilities which employ computer processing applications that act on the format, content, code, protocol or similar aspects of the patron's transmitted information; provide the patron additional, different or restructured information or involve patron interaction with stored information; i.e., use of computer processing applications for:

- A. Change in format of patron information and delivery of information in the changed format,
- B. Provision of additional information, or
- C. Patron interaction with stored information.

(AT) 42.3.7 Optional Expanded Calling Scope - An optional service which extends the local calling scope of the LSA. This optional service is available only in specified exchanges, where Local-Metropolitan and Special Optional Local-Metropolitan Services are offered in the Local Exchange Tariff.

(FC) 42.3.8 Features/Functions - The interface/interconnect between the Access Link and the Telephone Company exchange network.

42.3.9 Local Serving Arrangement (LSA) - This is the basic arrangement which provides the customer access to the Telephone Company Exchange network.

42.3.10 Optional Service Feature (OSF) - Basic options associated with a LSA.

42.3.11 Originating - Calls incoming to the customer from the Telephone Company exchange network.

42.3.12 Patron - A user of the enhanced services being offered by the customer.

42.3.13 Terminating - Calls outgoing from the customer to the Telephone Company exchange network.

(FC) 42.3.14 Transport - Switched call processing and delivery.

42.5 LIMITATIONS-(Continued)

42.5.4 An OSF offered in this Tariff is available only when provided in conjunction with an LSA as offered in this Tariff.

42.6 OBLIGATIONS OF THE CUSTOMER

42.6.1 Customers will provide the terminal equipment, derivation equipment or communications systems, as required for use with the services offered in this Tariff.

42.6.2 Synchronization of the digital network will be provided in accordance with TA-NPL-000436 DIGITAL SYNCHRONIZATION NETWORK PLAN, ANSI T1.101 - 1987 SYNCHRONIZATION INTERFACE STANDARDS FOR DIGITAL NETWORKS and TR-NPL-000275 SYNCHRONIZATION OF THE INTRA-LATA DIGITAL NETWORK.

42.7 APPLICATION OF CHARGES

42.7.1 Local Serving Arrangement

Rates and Charges for the provision of the LSA are encompassed in three service component charges:

- A. The Access Link Charge relates to local loop facilities between the customer and the first point of termination in the customer's serving central office. Foreign Serving Office Service rates and charges do not apply to the LSA.
- B. Features/Function Charges relate to the interface/interconnect between the Access Link and the Transport facility.
- C. The Transport Charge relates to the provision of switching and transmission facilities that are necessary to facilitate end-to-end connectivity between the customer and his patrons.
 1. Originating Transport applies to the inward delivery of calls to the customer's premises.
 2. Terminating Transport applies to the outward delivery of calls from the customer's premises to locations within the local calling scope of the dial-tone office.

42.7 APPLICATION OF CHARGES-(Continued)

42.7.2 Installation Charges

The application of Installation Charges as found in Section 42, Paragraphs 42.8.1 and 42.8.2, of this Tariff are as follows:

A. Installation Charges

1. First - Applies to the first unit per customer request, per due date, per account, at each central office from which service is provided.
2. Additional - Applies to each additional unit(s) on the same request as the initial unit, same due date, same account and same location.

B. Subsequent Installation Charges apply only to Local Serving Arrangements as follows:

1. First - Applies to the first unit per customer request, per due date, per account, at each central office served, when a Channel Interconnection is added to an existing Multiplexed Arrangement.
2. Additional - Applies to each additional unit(s) on the same request as the initial unit, same due date, same account and same location.

42.8 RATES AND CHARGES

42.8.1 Local Serving Arrangement (1)(2)

A. Circuit Switched-Voice Grade Connection

A voice grade serving arrangement that provides a customer network access, one and two-way communications capability and access to available Optional Service Features via a connection to the circuit switched network. All calls are set up and taken down on a call-by-call basis.

- (1) When a customer requests an LSA from a serving office in an exchange outside the exchange area in which the customer's premises is located Foreign Exchange Service Charges apply.
- (2) Refer to the Local Exchange Tariff for Hunting Arrangement Rates and Charges.

42.8.3 Optional Service Features

2. Network Subscriber Information Interface (NSII)

- A. Where available, NSII provides originating call information and the capability to activate and deactivate an intermittent dial tone or a visible light signal (Message Waiting Indication) on patrons' lines in multiple offices (3) throughout the LATA, subject to capacity limitations of the voice messaging platform, the NSII link, and the Local Serving Arrangement. It allows the customer (Voice Messaging Service Provider) to perform these functions in multiple offices through a connection to a single Message Node office. The customer may request a specific central office to service as the Message Node office, but SWBT retains final authority in choosing the Message Node office for each NSII arrangement. The delivery of Originating Call Information is included in the monthly rate for this feature.
- B. A Local Serving Arrangement is required in conjunction with NSII. A Local Serving Arrangement can not be used in conjunction with both NSII and Subscriber Information Interface. If both of these Optional Service Features are used by a customer in the same location, separate Local Serving Arrangements are required and will be distinguished from one another by the use of different USOC codes.

- (3) Originating Call Information and Message Waiting Indication activation/deactivation capabilities are limited to Voice Messaging Service Providers' patrons whose local exchange telephone service is served by equipped switching systems within the Message Node Service Area.

Section 43
1st Revised Sheet 1
Replacing Original Sheet 1

CALLER ID SERVICE

RECEIVED

43.1 GENERAL

MAY 13 1994

43.1.1 Caller ID Service provides for the transmission of Calling Number (CPN) to the customer's access line(s). When line is on-hook, the CPN is transmitted to the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.

43.1.2 The Southwestern Bell Telephone calling party may prevent the delivery of CPN to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

If the calling party activates blocking, the CPN will not be transmitted across the line. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator identifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number.

Line blocking for the delivery of the calling number upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive office of the agency registers with Southwestern Bell Telephone a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the CPN will not be provided on calls originating from Public, Semi-Public and Customer-Owned Pay Telephone Services.

43.1.4 Caller ID Service will be provided in connection with individual and multiline residence and business lines, where facilities permit. Party line, PBX trunk, Centrex, Plexar, Public and Semi-Public Telephone Services are excluded from subscribing to this tariff offering.(1)

(AT)

43.1.4 Caller ID Service is offered on a subscription basis which requires the customer to order the service. Where Caller ID Service is available, any calling party, whether they subscribe to Caller ID Service or not, has per call blocking capability.

(AT) (1) Refer to the appropriate tariff section for rates and provisioning of Caller ID Service for Plexar Service.

EASYOPTIONS® PACKAGES

44.1 GENERAL REGULATIONS

- 44.1.1 EasyOptions Packages provide discounts to customers subscribing to groups of services as described in the specific package. These discounts apply to the customer's monthly billing as a package discount and may be applied as a credit to the customer's account.
- 44.1.2 The rates and charges for the individual services included in each EasyOptions Package apply as specified elsewhere in this Tariff.
- 44.1.3 Any of the services can still be ordered on an individual basis as provided in the appropriate tariff section.
- 44.1.4 EasyOptions Packages exclude some multiline hunting arrangements and trunk facilities (e.g., Plexar and Centrex), and are subject to the availability and limitations specified in the individual tariff sections for the individual services.
- 44.1.5 Customers subscribing to The WORKS®, BizSaver, or the BASICSSM are eligible to receive the 1+ SAVER 10% optional toll calling plan free of charge as provided in the Long Distance Message Telecommunications Service Tariff (sheets 49 and 50).
- 44.1.6 These services are competitively classified in the following exchanges:

<u>Business</u>	<u>Residence</u>
St. Louis	Harvester
Kansas City	St. Charles

(AT) 44.2 BIZSAVERSM(1)

(CT) 44.2.1 BizSaver is available to business customers that subscribe to services included in one of the
(CT) arrangements in paragraphs 44.2.2, 44.2.3, 44.2.4, 44.2.5 or 44.2.6.

(MT)

(MT)

(AT)

(1) All available BizSaver arrangements are obsolete as of December 16, 2002 except for existing business customers at existing locations who subscribed to one or more arrangements prior to December 16, 2002.

44.1 GENERAL REGULATIONS

44.1.1 BizSaver provides a discount to business customers that subscribe to a select group of services as specified below and applies to the customer's monthly billing. The services included with BizSaver are provided at rates specified elsewhere in this Tariff.

44.1.2 BizSaver "A" includes the following:

- Any combination of 2 Custom Calling Services (excluding Speed Calling) and/or Call Control Option features
- Personalized Ring

BizSaver "B" includes the following:

- Any combination of 2 Custom Calling Services (excluding Speed Calling) and/or Call Control Option features
- An Additional Listing

Any of these services can still be provided on an individual basis as provided in the appropriate tariff sections.

44.1.3 BizSaver is available only to business customers, excluding some multiline hunting arrangements and trunk facilities (e.g., Plexar and Centrex), and is subject to the availability and limitations specified in the individual tariff sections for the individual services.(1)

44.2 RATES

44.2.1 The following discount is applicable to the customer's monthly bill.

44.2.2	USOC	Monthly Discount	Service and Equipment Charge(2)
BizSaver "A"	NLRBA	(NR) \$ 5.00	(NR) \$14.50
BizSaver "B"	NLRBB	(NR) \$ 2.00	(NR) \$14.50

- (1) The Service and Equipment Charge applicable to upgrading from residence to business service is waived when the customer upgrades and orders BizSaver.
- (2) The Service and Equipment Charge applies only to subsequent order activity. It is not applicable to initial installations.

MO. PUBLIC SERVICE COMM

44.11.1 Any Promotion

For a period of one year following the effective date of this tariff, Southwestern Bell Telephone Company may offer promotions for thirty days or longer in Southwestern Bell Telephone Company's exchanges for any EasyOptions packages. Southwestern Bell Telephone Company may offer promotions consisting of (1) a total waiver of service and equipment charges; (2) a partial waiver of service and equipment charges; (3) a total waiver of the monthly rate; (4) a partial waiver of the monthly rate; (5) a credit or coupon up to and including \$25; or (6) any combination of (1) through (5). In certain instances, the customer may be required to retain service for a specific period. Southwestern Bell Telephone Company will provide written notice to the Commission 10 days prior to the beginning of each promotion period identifying the exchanges or LATAs within which the promotions will be offered, the beginning and expiration date of each promotion, applicability to residential or business customers, and the specific waiver, credit or coupon offered. The written notice will be filed in an appendix in Section 47 of Southwestern Bell Telephone Company's General Exchange tariff. Southwestern Bell Telephone Company will not offer a promotion that does not generate sufficient projected revenues to cover long run incremental costs.

This promotion methodology will be offered on a one year trial basis. If facilities permit, all Missouri residential or business customers will be offered the same opportunity to take advantage of the same promotions during this trial period.

44.13 PROMOTIONS (cont'd)

44.13.1 Business customers who order BizSaver B or BizSaver E between January 22, 2001 and March 30, 2001 will receive a credit equal to \$15.00 on their first month's bill.

Customers who already subscribe to BizSaver B or BizSaver E are not eligible for this promotion.

44.13.2 This promotion offers new and existing residence customers ordering the SBC Advantage Plan one month free of the recurring rate. This promotion is not available to customers who already subscribe to The WORKS or WORKS customers transferring their service to a different location. This promotional offer is available from January 2, 2002 through March 30, 2002.

44.13.3 This promotion offers a \$20.00 Check to residential customers that subscribe to the SBC Advantage Plan. Customers who connect new service, transfer or upgrade their existing service and agree to purchase the SBC Advantage Plan will be eligible to receive a coupon redeemable for the \$20.00 check. Current subscribers to the SBC Advantage Plan and The WORKS are not eligible for this offer. This promotional offer is available from April 6, 2002 through June 29, 2002.

44.13.4 This promotion offers a \$10.00 check to residential customers that subscribe to the Essentials Plan. Customers who connect new service, transfer or upgrade their existing service and agree to purchase the Essentials Plan will be eligible to receive a coupon redeemable for the \$10.00 check. This promotion is available to residential customers who do not currently subscribe to these services or who will be upgrading from stand alone vertical services to the Essentials Plan. Customers currently subscribing to The WORKS, SBC Advantage Plan or the Essentials Plan will not be eligible for this promotion. This promotional offer is available from April 6, 2002 through June 29, 2002.

(AT) 44.13.5 This promotion offers one month free recurring charge to all residential customers who subscribe to the SBC Advantage Plan. This promotion will not be available to customers currently subscribing to the SBC Advantage Plan or The WORKS. This promotional offer is available from December 3, 2002 through February 28, 2003.

EASYOPTIONS® PACKAGES

44.17 BUSINESS PREFERRED

44.17.1 Business Preferred is a package available to business customers only.

44.17.2 Description

A. Business Preferred is a predefined group of EasyOptions Services purchased as a monthly subscription only:

- Call Forwarding,
- Remote Access to Call Forwarding,
- 3-Way Calling,
- Call Waiting,
- Call Return,
- Auto Redial,
- Priority Call,
- Caller ID Service

Any of these services can be purchased on an individual basis under the terms specified in the appropriate tariff.

(AT)
|
(AT)

B. Call Waiting may be removed or eliminated from Business Preferred, at the customer's option. No adjustment is made to the package price when Call Waiting is de-selected. Remote Access to Call Forwarding (RACF) may also be removed or eliminated from Business Preferred at the customer's option. No adjustment is made to the package price when RACF is de-selected.

C. Eligible customers who subscribe to this package will receive a discount on other eligible EasyOptions services on the same line, ordered in conjunction with or ordered subsequent to purchasing this package. Such eligible EasyOptions services, purchased as monthly subscriptions only, include:

- Anonymous Call Rejection,
- Call Waiting ID,
- Call Waiting ID Options,
- Personalized Ring,
- Privacy Manager, and
- Internet Caller ID.

EASYOPTIONS[®] PACKAGES44.18 uSelect^{SM3}

uSelect^{SM3} is a package of EasyOptions[®] Services that is available to residence customers only. It is offered in association with residence local exchange services unless specified otherwise.

44.18.1 Description

- A. uSelect^{SM3} is a group of three EasyOptions[®] Services that consist of Caller ID Service as a required component and two more component services that the customer may choose from the following Selection List:
- Three-Way Calling
 - Call Forwarding
 - Call Return
 - Call Blocker
 - Call Waiting
 - Call Waiting ID
 - Privacy Manager
 - Auto Redial
 - Speed Calling 8
 - Distinctive Ring
- B. uSelect^{SM3} is available to any residence customer where Caller ID and at least two component services are available.
- C. The component services may be purchased individually at their standard tariff rates.
- D. Residence customers currently subscribing to all uSelect^{SM3} component services may request billing at the uSelect^{SM3} price. Customers who do so must also pay the package Installation charge.
- E. uSelect^{SM3} may be included in other packages and bundles that are marketed under other names.
- F. uSelect^{SM3} may be ordered on the customer's main/primary line or any additional line.
- G. The uSelect^{SM3} component services may only be purchased as a monthly subscription. Pay-per-activation services and charges are not included in the uSelect^{SM3} package price.

Issued: July 16, 2004

EASYOPTIONS[®] PACKAGES

44.18 uSelect^{SM3} (cont'd)

44.18.1 Description (cont'd)

- H. The component services of uSelect^{SM3} are provided on a per line basis. All services must be ordered on the same line in order for the customer to be eligible for the uSelect^{SM3} price.
- I. uSelect^{SM3} subscribers will benefit from the uSelect^{SM3} price until they disconnect one or more of the uSelect^{SM3} component services.
- J. uSelect^{SM3} subscribers will continue to benefit from the uSelect^{SM3} price if, on the same order, they disconnect one or both selectable component services and replace those disconnected services with other services from the Selection List.
- K. If the customer subscribes to more than two EasyOptions[®] Services on the uSelect^{SM3} Selection List, the two most expensive services will be included in uSelect^{SM3}.
- L. Services purchased in excess of those ordered as components of uSelect^{SM3} will be charged at their standard tariff rates and may include any applicable discounts. Customers who purchase Caller ID and more than four EasyOptions[®] Services from the Selection List are eligible to purchase uSelect^{SM6} according to the terms of the uSelect^{SM6} tariff.
- M. Discounted monthly rates for any other combinations of the services provided in uSelect^{SM3} on the same access line, as specified elsewhere in this tariff, do not apply to the component services selected by the customer within uSelect^{SM3}.
- N. In order to receive the 2-Line uSelect^{SM3} price, a customer must have two or more lines and have the uSelect^{SM3} package ordered on the main line. Only one 2-Line uSelect^{SM3} package can be ordered on a customer's account. Customers who disconnect their additional access lines will be charged the uSelect^{SM3} price.
- O. A Nonrecurring charge will apply to the installation of a uSelectSM package the first time a new or existing customer subscribes to the package. Payment of the uSelectSM Installation charge ensures that no subsequent nonrecurring charges will apply if the customer changes or adds features within the Selection List as long as the customer maintains the uSelectSM package on that line. If a customer disconnects their uSelectSM package from a line, the uSelectSM Installation charge would apply again to re-establish a uSelectSM package on that line. The uSelectSM Installation charge will not apply again if the customer upgrades from uSelect^{SM3} to uSelect^{SM6} or downgrades from uSelect^{SM6} to uSelect^{SM3}. The uSelectSM Installation charge is a line-level charge and if the customer subscribes to uSelect^{SM3} on any additional access line, the nonrecurring charge will be charged on each such line.

EASYOPTIONS® PACKAGES

44.20 Feature Select

Feature Select is a package of EasyOptions® Services that is available to Business customers only.

44.20.1 Description

- A. Feature Select is a group of five EasyOptions® Services that the customer may choose from the following Selection List:
- Call Waiting
 - Call Forwarding
 - Remote Access to Call Forwarding
 - Three-Way Calling
 - Caller ID
 - Call Waiting ID
 - Auto Redial
 - Call Return
 - Speed Calling 30
 - Call Blocker
- B. Feature Select is available to Business customers only. Feature Select is available to any business customer where at least five component services are available.
- C. The package is provided subject to the availability of Central Office capacity and facilities and the availability of each EasyOptions® Services in the customer's serving Central Office.
- D. Business customers currently subscribing to all Feature Select component services may request billing at the Feature Select price.
- E. Feature Select may be ordered on the customer's main/primary line or any additional line. To be eligible for the Feature Select price, all component services must be purchased on the same line.
- F. The Feature Select component services may only be purchased as a monthly subscription. Pay-per-activation services and charges are not included in the Feature Select package price.

Issued: December 30, 2004

EASYOPTIONS® PACKAGES

44.20 Feature Select (cont'd)

44.20.1 Description (cont'd)

- G. Feature Select subscribers will benefit from the Feature Select price until they disconnect one or more of the Feature Select components.
- H. Feature Select subscribers will continue to benefit from the Feature Select price if, on the same order, they disconnect one or both selectable components and replace those disconnected services with other services from the Selection List.
- I. If the customer subscribes to more than five EasyOptions® Services on the Feature Select Selection List, the five features to be included in the Feature Select package will be the five highest priced features based on current, stand alone feature rates.
- J. Services purchased in excess of those ordered as components of Feature Select will be charged at their standard tariff rates and may include any applicable discounts.
- K. The service interactions of the individual EasyOptions® Services in the packages apply.
- L. This package is not available with ISDN, PBX, Coin, PRI, Centrex, PLEXAR and other non-POTS classes of services (e.g. Inmate or hotel-motel lines), 800/900, Cellular, Semi-Public Service, WATS, Foreign Exchange Service, DID, Payphone Exchange Access Service, Hot Line and Warm Line, Telebranch, Preferred Number Service and Location Routing Service.
- M. Discounted monthly rates for any other combinations of the services provided in Feature Select on the same access line, as specified elsewhere in this tariff, do not apply to the component services selected by the customer within Feature Select.
- N. EasyOptions® Services nonrecurring charges will not apply when the customer subscribes to additional EasyOptions® Services to meet the requirement of the Feature Select package.

EASYOPTIONS® PACKAGES

44.21 USELECTSM STANDARD

uSelectSM Standard is a package of EasyOptions® Services that is available to residence customers only. It is offered in association with residence local exchange services unless specified otherwise.

44.21.1 Description

- A. uSelectSM Standard is a group of four EasyOptions® Services consisting of Call Waiting and three additional EasyOptions® Services that the customer may choose as component services off the following Selection List:
- Three-Way Calling
 - Call Forwarding
 - Call Return
 - Call Blocker
 - Auto Redial
 - Speed Calling 8
 - Distinctive Ring
- B. uSelectSM Standard is only available to residence customers where Caller ID is not available and where Call Waiting and at least three additional component services are available.
- C. The component services may be purchased individually at their standard tariff rates.
- D. uSelectSM Standard may be included in other packages and bundles that are marketed under other names.
- E. uSelectSM Standard may be ordered on the customer's main/primary line or any additional line.
- F. The uSelectSM Standard component services may only be purchased as a monthly subscription. Pay-per-activation services and charges are not included in the uSelectSM Standard package price.

EASYOPTIONS® PACKAGES

44.21 USELECTSM STANDARD (cont'd)

44.21.1 Description (cont'd)

- G. The component services of uSelectSM Standard are provided on a per line basis. All services must be ordered on the same line in order for the customer to be eligible for the uSelectSM Standard price.
- H. uSelectSM Standard subscribers will benefit from the uSelectSM Standard price until they disconnect one or more of the uSelectSM Standard component services.
- I. uSelectSM Standard subscribers will continue to benefit from the uSelectSM Standard price if, on the same order, they disconnect one or more selectable component services and replace those disconnected services with other services from the Selection List.
- J. If the customer subscribes to more than three EasyOptions® Services on the uSelectSM Standard Selection List, the three most expensive services will be included in uSelectSM Standard.
- K. Services purchased in excess of those ordered as components of uSelectSM Standard will be charged at their standard tariff rates and may include any applicable discounts.
- L. Discounted monthly rates for any other combinations of the services provided in uSelectSM Standard on the same access line, as specified elsewhere in this tariff, do not apply to the component services selected by the customer within uSelectSM Standard.
- M. A Nonrecurring charge will apply to the installation of a uSelectSM package the first time a new or existing customer subscribes to the package. Payment of the uSelectSM Installation charge ensures that no subsequent nonrecurring charges will apply if the customer changes or adds features within the Selection List as long as the customer maintains the uSelectSM package on that line. If a customer disconnects their uSelectSM package from a line, the uSelectSM Installation charge would apply again to re-establish a uSelectSM package on that line. If Caller ID becomes available to the customer, the uSelectSM Installation charge will not apply again if: 1) the customer upgrades from uSelectSM Standard to uSelectSM6, or 2) if the customer subscribes to the uSelectSM3 package instead. The uSelectSM Installation charge is a line-level charge and if the customer subscribes to uSelectSM Standard on any additional access line, the nonrecurring charge will be charged on each such line.

EASYOPTIONS® PACKAGES

PROMOTIONS (CONT'D)

44. This promotion offers residential customers who subscribe to an access line and the uSelect^{SM3} package, a waiver of the monthly recurring charges for the access line and the uSelect^{SM3} package for two consecutive bill cycles. In addition, the customer will receive a waiver of the nonrecurring feature installation charges to add features in order to subscribe to the uSelect^{SM3}.

Eligible customers are as follows:

- The customer must currently have their network access service with another carrier and now wish to establish network access service with the Company.
- The customer must respond to Company-issued marketing material, a Company-initiated marketing contact or an offer made during a customer-initiated call to the Company.
- This offer is not available to customers who purchase Call Forwarding-Busy Line/Don't Answer on the same access line.
- The customer must retain the access line and required package for two consecutive billing cycles in order to receive the full benefit of this offer.
- Customers who discontinue their access line or the uSelect^{SM3} package before the second bill period will not be charged back the discount already received.
- Customers subscribing to 2-Line uSelect^{SM3} are not eligible for this offer.
- This offer is not combinable with any other Win/Winback uSelectSM promotion or the win/winback residence access line \$40.00 credit or \$3.00 credit for 12 months promotions.
- The customer is required to pay the Installation Charge for the uSelect^{SM3} package.

EASYOPTIONS® PACKAGES

PROMOTIONS (cont'd)

- 45. This promotion offers eligible residential customers who subscribe to at least two access lines and the 2-Line uSelect^{SM3} package, a \$10.00 credit for each of the three consecutive bill cycles following service connection.

In addition, the customer will receive a waiver of any applicable nonrecurring EasyOptions® feature installation charges (General Exchange Tariff, Section 47) to add the EasyOptions® features of the 2-Line uSelect^{SM3} package. The promotion also waives the standard residential service and Equipment charge (Local Exchange Tariff).

All other applicable service connection charges for the line installation apply.

Eligible customers are those residential customers who currently have their service with another carrier and now wish to establish service with the Company.

The terms and conditions for this promotion follow:

- This offer is not available to customers who purchase Call Forwarding-Busy Line/Don't Answer on either access line.
- Customer must retain the package for three consecutive billing cycles in order to receive the full benefit of this offer.
- Customers who discontinue either one or both of their access lines or the uSelect^{SM3} package before the third bill period will not be charged back the discount already received.
- Customers are not eligible for any uSelect^{SM3} Win/Winback promotions, the Win/Winback Caller ID Name and Number \$40.00 credit promotion and/or the Privacy Manager 6 months free offer if Privacy Manager is selected by the customer in the 2-Line uSelect^{SM3} package.
- The customer is required to pay the \$1.95 Installation Charge for the uSelect^{SM3} package.

PROMOTIONS (CONT'D)

- 46. This promotion offers eligible residential customers who subscribe to the uSelect^{SM3} package a \$5.00 monthly bill credit for twelve (12) consecutive months after subscribing to the package.

Eligible customers are those residence customers who 1) have their current service with another carrier and now wish to establish their service with the Company, and 2) during the promotional period, respond to Company-issued marketing material, a Company-initiated marketing contact or an offer made during a customer-initiated call to the Company. Customers who purchase Call Forwarding-Busy Line/Don't Answer on the same access line are not eligible for this offer.

Eligible customers must retain the package on each bill period date for the twelve consecutive bill periods in order to receive the full benefit of this offer. If the customer disconnects the package before the twelfth consecutive bill period date, all remaining bill credits will be canceled.

Customers receiving bill credits from this uSelect^{SM3} offer will be eligible to continue to receive any remaining bill credits for this offer if they upgrade to the 2-Line uSelect^{SM3}, uSelect^{SM6}, or 2-Line uSelect^{SM6} package.

This promotional offer may be combined with one of the following offers, but not both:

- Win/Winback \$3.00 bill credit for 12 months (Local Exchange Tariff, Appendix, Sheet 4),
- Win/Winback \$20.00 bill credit for 2 months (Local Exchange Tariff, Appendix, Sheet 3).

(AT) This promotional offer may not be combined with the Win/Winback two months free offer
(AT) (General Exchange Tariff, Section 44, Appendix Sheet 10).

PLEXAR®-II SERVICE

45.1 General

(CT) This tariff section contains the general regulations and definitions governing Plexar-II Services furnished by the Company except as otherwise specified, or unless the terms and conditions of an individual customer agreement provided pursuant to the Customer Specific Pricing Plan Tariff, P.S.C. Mo. No. 37 apply.

(CT) Plexar-II Service is a central office based business communications system, which may consist of any combination of Basic stations, Integrated Services Digital Network Basic Rate Interface (ISDN BRI) stations, and Off-Premises stations, with no minimum or maximum station requirement. Plexar-II Service is provided through an arrangement of exchange access lines, Plexar stations and station line facilities, switching equipment, customer facility group, and other facilities located on Company premises. A Plexar-II customer can control the number of simultaneous incoming and outgoing telephone calls through the quantity of Plexar-II exchange access lines to which they subscribe.

(CT) ISDN is a set of standards for end-to-end digital voice and/or data transmission over the public switched network. These standards, defined by the International Telegraph and Telephone Consultative Committee (CCITT), are modified for North America in accordance with recommendations of Telcordia.

(AT) Plexar-II Service offers National ISDN capability via the Basic Rate Interface (BRI)(1). Each Plexar-II BRI consists of two "B" channels and one "D" channel. Each "B" channel transmits information, including digitized voice, at 64 kilobits per second (Kbps), and can be configured for either Circuit Switching or Packet Switching(2). Each "D" channel transmits signaling and other non-voice data at 16 Kbps, and can be configured for Packet Switching(2).

45.1.1 Plexar-II rates and charges provide for Plexar-II stations including standard features, station line facilities (which include the outside plant facilities) and optional features. Exchange access line rates and charges apply as found in the Local Exchange Tariff.

- (1) Not available on stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.
- (AT) (2) ISDN BRI Packet Switching is obsolete and only available to existing installations at existing locations for existing customers. This service will be withdrawn on June 1, 2006.

45.1 GENERAL

Plexar-II Service is a central office based business communications system which serves customers with 10-74 stations within each serving central office. Plexar-II Service is provided through an arrangement of exchange access lines, Plexar stations and station line facilities, switching equipment, customer facility group, and other facilities located on Telephone Company premises. A Plexar-II customer can control the number of simultaneous incoming and outgoing telephone calls through the quantity of Plexar-II exchange access lines to which they subscribe. The maximum station size for an initial installation or contract renewal of a Plexar-II arrangement is 74 stations within each serving central office.

45.1.1 Plexar-II rates and charges provide for basic stations including standard features, station line facilities (which include the outside plant facilities) and optional features. Exchange access line rates and charges apply as found in the Local Exchange Tariff.

45.1.2 Feature Array

A. Standard Features

The following Standard Features are available with each Plexar-II basic station subject to the serving central office capability.

- Automatic Callback Calling

Allows a station user who encounters a busy condition when calling another Plexar-II station line to be automatically called back when the called station becomes idle.

CANCELLED

- Automatic Identified Outward Dialing (AIOD)

Provides for the identification of outgoing Long Distance Telecommunications Service (LDMTS) messages and the billing messages by station number where the LDMTS is provided by the telephone Company.

PLEXAR®-II SERVICE

45.1 General - (Continued)

45.1.2 Feature Array

A. Standard Features

The following Standard Features are available with each Plexar-II basic station subject to the serving central office capability.

- (CT) Additional Call Offering (1) Notifies the ISDN user of a waiting Circuit Switched Voice call that would normally be cleared because the user's B-channel is busy. The method of notification to the end-user is customer premises equipment dependent.
- Automatic Callback Calling (2) Allows a station user who encounters a busy condition when calling another Plexar-II station line to be automatically called back when the called station becomes idle.
- (CT) Automatic Identified Outward Dialing (AIOD) Provides for the identification of outgoing Long Distance Message Telecommunications Service (LDMTS) messages and the billing of these messages by station number where the LDMTS is provided by the Company.
- (AT) B-Channel Packet Switched Data (1)(3) Supports transmission bandwidths of 56 Kbps or 64 Kbps. The 64 Kbps access provides Packet-Switched services (that is, access to a host computer, other B-channel users, or a packet D-channel) and includes:
- (CT) X.25 Fast Select: Allows a user to send a maximum of 128 bytes of data in call setup and clearing packets. There are two modes (Fast Select and Fast Selection With Restriction). The user must request the Fast Select facility in the call request packet when more than 16 bytes of the user data is desired in call setup and clearing packet.
- (CT) X.25 Fast Select Acceptance: Allows a user to receive a call request packet with up to 128 bytes of user data. The user may also respond with a call connect or clear request packet with up to 128 bytes of user data, depending on the type of Fast Select requested in the call request packet.
- (1) Available only to BRI Stations.
- (2) Not available to BRI Stations.
- (AT) (3) ISDN BRI Packet Switching is obsolete and only available to existing installations at existing locations for existing customers. This service will be withdrawn on June 1, 2006.

(AT) - B-Channel Packet Switched Data (1)

Supports transmission bandwidths of 56 Kbps or 64 Kbps. The 64 Kbps access provides packet-switched services (that is, access to a host computer, other B-channel users, or a packet D-channel) and includes:

X.25 Fast Select: Allows a user to send a maximum of 128 bytes of data in call setup and clearing packets. There are two modes (fast select and fast selection with restriction). The user must request the fast select facility in the call request packet when more than 16 bytes of the user data is desired in call setup and clearing packet.

X.25 Fast Select Acceptance: Allows a user to receive a call request packet with up to 128 bytes of user data. The user may also respond with a call connect or clear request packet with up to 128 bytes of user data, depending on the type of fast select requested in the call request packet.

(AT) (1) Available only to BRI Stations.

(AT) (2) Not available to BRI Stations.

PLEXAR®-II SERVICE

45.1 General (Continued)

45.1.2 Feature Array (Continued)

A. Standard Features (Continued)

(AT) B-Channel Packet Switched Data (1)(2) (Continued)

X.25 Flow Control Parameter Negotiation: Allows the user to negotiate window and packet size on a per-call basis.

X.25 Intercom Addressing: Allows users to access other users to the same switch without using 4- or 7-digit dialing instead of 11-digit address.

(CT) X.25 Interexchange Carrier Preselect: Allows the user to preselect (by service order) an interexchange carrier for Packet Switched Data calls.

(CT) X.25 Recognized Private Operating Agency: Allows an ISDN user to specify an interLATA carrier for Packet Switching on a per-call basis.

X.25 Reverse Charge: Allows a user to assign billing (on a per call basis) charges to the called party, rather than the calling party.

X.25 Reverse Charge Acceptance: Allows the data communications equipment to accept incoming calls which have requested the reverse charging facility. The charges for this call will be billed to the terminating party. The X.25 Reverse Charge Acceptance feature is established by service provisioning.

(CT) X.25 Throughput Class Negotiation: Allows throughput class negotiation on a per-call basis, of the throughput class for each direction of transmission of a Packet Switched call.

(MT) X.25 Transit Delay Selection & Indication: Allows the data terminal to specify an acceptance transit delay on a per-call basis for virtual calls.

(1) Available only to BRI Stations.

(AT) (2) ISDN BRI Packet Switching is obsolete and only available to existing installations at existing

(AT) locations for existing customers. This service will be withdrawn on June 1, 2006.

Call Forwarding

(MT)

Busy Line: Automatically forwards incoming and/or station-to-station calls to a preselected Plexar-II station line when the called station is busy.

(MT)

Don't Answer: Automatically forwards incoming and/or station-to-station calls to a preselected Plexar-II station line when the called station line does not answer after a predetermined number of ringing cycles.

Variable: Automatically forwards incoming calls to a station line within as well as outside the Plexar-II system.

Call Hold: Allows a Plexar-II station user to hold one call, for any length of time provided that neither party goes on-hook, through the use of a feature activation code that is dialed after a switchhook flash.

Call Pickup: Allows a Plexar-II station user to answer any call within an associated preset pickup group.

Call Transfer - All Calls: Allows a Plexar-II station user to transfer any established call to another telephone number within or outside the Plexar-II system. While the access line(s) may still be in use, the Plexar-II station user is then free to accept another call. The station user is prohibited from using this feature to avoid toll charges.

Call Waiting (1)

Intragroup: Allows those Plexar-II stations with the Call Waiting-Terminating feature to have Call Waiting on intragroup calls.

(CT)

Originating: Allows a Plexar-II station user to direct a Call Waiting tone toward a busy called Plexar-II station line. The busy called station line can retrieve the calling station by placing the existing call on hold and answering the waiting call.

(1) Not available to BRI Stations.

PLEXAR® -II SERVICE

45.1 General (Continued)

45.1.2 Feature Array (Continued)

A. Standard Features (Continued)

- Speed Calling Personal (Short List)

Allows a station user to place calls to a list of frequently dialed numbers by dialing fewer digits. The list consists of a maximum of ten stored numbers.

- Station-to-Station Dialing (Intercom)

Allows a Plexar-II station user to directly dial other station lines within the same Plexar-II system without attendant assistance.

- Three-Way Calling

Allows a Plexar-II station user to add a third party to any established call for a three-party conference, without the assistance of an attendant.

- Touch-Tone Dialing

All station lines are equipped for Touch-Tone dialing.

- (AT) - Voice/Data Protection (1)

Prevents data calls from being interrupted by call waiting tones, testing or busy verification attempts.

B. Optional Features

The following Optional Features are available with Plexar-II at the rates and charges provided herein subject to the serving central office capability.

- (AT) - Assume Dial Nine

Provides for systemwide configuration that allows access to the Public Switched Telephone Network without the need to dial nine.

- (MT)
- (MT)
- (AT) (1) Not available to BRI Stations.

45.1 GENERAL-(Continued)

45.1.2 Feature Array-(Continued)

A. Standard Features-(Continued)

- Speed Calling Personal (Short List)

Allows a station user to place calls to a list of frequently dialed numbers by dialing fewer digits. The list consists of a maximum of ten stored numbers.

- Station-to-Station Dialing (Intercom)

Allows a Plexar-II station user to directly dial other station lines within the same Plexar-II system without attendant assistance.

- Three-Way Calling

Allows a Plexar-II station user to add a third party to any established call for a three-party conference, without the assistance attendant. **CANCELLED**

- Touch-Tone Dialing

All station lines are equipped for Touch-Tone dialing.

FEB 26 1998
By SE/RS#5
Public Service Commission
MISSOURI

- Voice/Data Protection

Prevents data calls from being interrupted by call waiting tones, testing or busy verification attempts.

B. Optional Features

The following Optional Features are available with Plexar-II at the rates and charges provided herein subject to the serving central office capability.

- Automatic Route Selection (ARS) - Basic

Directs outgoing calls to the customer's most preferred available route. If the primary route is busy, the ARS feature automatically tries alternate routes. The customer will preselect a sequence of routes which may include Foreign Exchange (FX), Common Control Switching Arrangement (CCSA), and Wide Area Telephone Service (WATS). A warning tone is provided to indicate the selection of the least preferred route.

45.1 General (Continued)

45.1.2 Feature Array (Continued)

B. Optional Features (Continued)

(AT)

- Busy Verification (2)

Allows an attendant to establish connections to query busy station lines or trunks to determine if they are in working order.

- Call Forwarding Busy Line/Don't Answer Outside System

Allows for forwarding of an incoming call to a preselected line outside the system when the called line does not answer after a predetermined number of rings and/or when a busy condition is encountered. This feature does not include the option to split the call forwarding destination based on originating party status (intrasystem vs. external to system).

- Call Management Features: A group of features allowing the customer to manage the calls on their station line. These include:

(CT)

Auto Redial (1): Enables the customer to automatically redial the last outgoing telephone number. When the recalled telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes beginning with the customer's activation of Auto Redial, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

Call Blocker: Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Telephone Company recorded announcement.

(CT)

(1) Some customer-provided equipment may not recognize the distinctive ringing patterns associated with these services.

(AT) (2) Not available to BRI Stations.

45.1 General (Continued)

45.1.2 Feature Array (Continued)

B. Optional Features (Continued)

- Call Management Features (Continued)

(CT) Call Return (1): Enables the customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes beginning with the customer's activation of Call Return in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

(CT) Call Trace: Enables the customer to initiate a trace of the origin of the last incoming call by dialing an activation code. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer should follow the instructions received after a successful trace activation.

(CT) Priority Call (1): Provides the customer with a distinctive ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code. The Telephone Company's equipment will screen incoming calls against the screening list and provide a distinctive ring for telephone numbers on the list.

(CT) Selective Call Forwarding: Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. Selective Call Forwarding customers are responsible for the payment of charges (e.g. toll charges) for each call between their lines and the telephone numbers to which the call is being forwarded.

(1) Some customer-provided equipment may not recognize the distinctive ringing patterns associated with these services.

(AT) - Call Management Features-(Continued)

Call Return: Enables the customer to automatically redial the telephone number of the most recent incoming call. The Telephone Company's equipment will make repeated attempts to establish the call for a thirty (30) minute period beginning with the customer's activation of Call Return if the most recent incoming call telephone number is busy. The customer will be signaled with a distinctive ring when the call can be completed. This feature cannot return a call to a line that is not associated with a telephone number (e.g. multi-line hunt group) or to a line with call forwarding activated.(1)

Call Trace: Enables the customer to initiate a trace of the origin of the last incoming call completed by dialing an activation code immediately after terminating the call. If the trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer is required to contact the Telephone Company during normal work hours and work days.

Priority Call: Provides the customer with a distinctive alerting signal, ring or call waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify a telephone number screening list by dialing a unique code.(1)

Selective Call Forwarding: Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. The transmission may vary depending on the distance and routing necessary; therefore, transmission may not meet normal standards.

45.1 GENERAL (cont'd)

45.1.2 Feature Array (cont'd)

B. Optional Features (cont'd)

Dial Plan for Advanced Solutions (DPAS) (cont'd)

(MT)

All stations in a Plexar System Dialing Plan must be equipped with the DPAS feature but not all Dialing Plans must be equipped with the DPAS feature. All in-network and out-of-network numbers must be assigned to the Customer of Record or a subsidiary of the Customer of Record.

(MT)

Two dialing plan formats are available: Extension Dialing and Location Dialing.

The Extension Dialing Plan uses sequential digits from the seven digit telephone number (the "extension number") to identify an in-network or out-of-network number. Typically, the extension number is the last four digits of the telephone number. Each extension number in the dialing plan must be unique.

The Location Code Dialing Plan uses a leading digit (the "location code") plus an extension number to identify an in-network or out-of-network number. Location code(s) permit duplication of extension numbers.

The customer can choose between two DPAS billing alternatives; the Basic Dial Plan option or the Deluxe Dial Plan option. Customers who choose the Basic Dial Plan option will be assessed normal usage charges for both in-network (inter-Plexar) and out-of-network messages. Customers who choose the Deluxe Dial Plan option will be charged a flat rate for both in-network (inter-Plexar) messages and out-of-network messages completed to telephone numbers in the same Rate Center as the originating Plexar telephone number. If a Deluxe DPAS customer calls an out-of-network telephone number in a Rate Center that is different from that of the originating Plexar telephone number, the Company will assess normal usage charges.

The Company will charge a DPAS Change Charge for modifications to the customer's DPAS feature. A DPAS Change Charge will not apply for changing an in-network number to an out-of-network number.

DPAS is only available where equipment, features, and facilities are available. DPAS may conflict with the following Plexar features: Automatic Callback, Automatic Recall, Repeat Dialing, Account Codes, Attendant Consoles, and ISDN Data Calls. Other restrictions and limitations may apply. No charges will apply for removing incompatible Plexar features.

(AT)

- Dial Plan for Advanced Solutions (DPAS) (cont'd)

Two dialing plan formats are available: Extension Dialing and Location Dialing.

The Extension Dialing Plan uses sequential digits from the seven digit telephone number (the "extension number") to identify an in-network or out-of-network number. Typically, the extension number is the last four digits of the telephone number. Each extension number in the dialing plan must be unique.

The Location Code Dialing Plan uses a leading digit (the "location code") plus an extension number to identify an in-network or out-of-network number. Location code(s) permit duplication of extension numbers.

The customer can choose between two DPAS billing alternatives; the Basic Dial Plan option or the Deluxe Dial Plan option. Customers who choose the Basic Dial Plan option will be assessed normal usage charges for both in-network (inter-Plexar) and out-of-network messages. Customers who choose the Deluxe Dial Plan option will be charged a flat rate for both in-network (inter-Plexar) messages and out-of-network messages completed to telephone numbers in the same Rate Center as the originating Plexar telephone number. If a Deluxe DPAS customer calls an out-of-network telephone number in a Rate Center that is different from that of the originating Plexar telephone number, the Company will assess normal usage charges.

The Company will charge a DPAS Change Charge for modifications to the customer's DPAS feature. A DPAS Change Charge will not apply for changing an in-network number to an out-of-network number.

DPAS is only available where equipment, features, and facilities are available. DPAS may conflict with the following Plexar features: Automatic Callback, Automatic Recall, Repeat Dialing, Account Codes, Attendant Consoles, and ISDN Data Calls. Other restrictions and limitations may apply. No charges will apply for removing incompatible Plexar features.

- Electronic Key Telephone Service (EKTS) Package (1) (Continued)

ISDN Retrieval of Held Conference Call: Allows a user to set up a conference call at one station, put on hold, and retrieve at another station that shares the same directory number (DN).

Key System Coverage of Analog Lines: Allows an analog station set to share calls with the ISDN station set only. The ISDN EKTS station sets can have many call appearances (CAs) shared with analog station sets, but only one CA per directory number (DN). If a DN is shared with an analog set, only one analog set in the shared DN group is assigned to that DN and the DN is primary on the analog station set.

Multiple Call Appearances (MCA): Allows a telephone to have more than one call appearance button assigned to a single directory number (DN). Multiple incoming calls to this DN are terminated to the telephone if idle call appearances are available to accept the calls. Outgoing calls are made using this DN as long as there is an idle call available.

Multiple Directory Numbers (DNs): Provides access to more than one DN on the station set. To have multiple DN's, an EKTS terminal must support the ability to originate and terminate calls for more than one DN.

Outgoing Called Line Identification (OCLID): Provides the calling party information on the called party and the facility or designation. The facility and destination information are provided by the ISDN call identification call types. The OCLID information provides call appearance identification, called directory number, and ISDN call identification.

Shared Call Appearances (CA) for a Directory Number (DN): Allows several station sets to share one or more call appearances of a particular DN. The originating and terminating events on one station set affects all stations that share call appearance for a particular DN. The shared DN can have multiple call appearances. Multiple calls can exist on one DN and more than one station sharing the DN can have a call active on that shared DN.

(MT)

(MT)

Additional Call Offering for Circuit Switched Voice (CSV): Notifies the ISDN user of a waiting CSV call that would normally be cleared because the user's B-channel is busy. The method of notification to the end-user is customer premises equipment dependent.

Bridged Call Exclusion: Allows a station user to restrict other users that share the directory number (DN) from bridging onto a call or from retrieving a held call. This feature cannot provide any restriction of bridging of a DN that is shared at the other end of the call. This feature cannot be activated on a bridge call. Call Exclusion can be activated on a manual or automatic basis.

Delayed & Abbreviated Ringing: Provides the capability to alert an EKTS terminal for a predetermined interval (abbreviated ringing) before ringing another designated EKTS terminal (delayed) ringing.

Held Call Retrieval from Shared Directory Number: Allows a call to be set up at one station, put on hold, and retrieved at another station that shares the same directory number using the same shared call appearance.

ISDN Retrieval of Held Conference Call: Allows a user to set up a conference call at one station, put on hold, and retrieve at another station that shares the same directory number (DN).

Key System Coverage of Analog Lines: Allows an analog station set to share calls with the ISDN station set only. The ISDN EKTS station sets can have many call appearances (CAs) shared with analog station sets, but only one CA per directory number (DN). - Night Service

Routes calls normally directly to the attendant to preselected station lines within the customer group when the attendant is absent.

- Number Retention Service(1)

- Outgoing Trunk Queuing(2)

Allows efficient usage of customer's private facilities by queuing individual station line calls. If all facilities are busy, the station user is provided a distinctive ring when a facility is available.

- Preferential Hunting

Provides a type of line hunting which permits a prehunt over a preset preferential group of terminals before hunting through the entire multiline hunt group (MLHG). The hunt through the MLHG can be a basic or circular hunt.

- Remote Access Capability

Allows a remote caller access to the features of a Plexar-II system by dialing the number associated with the incoming facility and an optional security code.

- Remote Access to Call Forwarding

Provides a customer that also subscribes to Call Forwarding service the ability to activate, deactivate or change the Call Forwarding feature from a remote location by dialing a Telephone Company-provided remote access number. This feature can only be activated by using a Dual Tone Multi-Frequency (DTMF) telephone which has a full set of characters, including "*" and "#". Any charges incurred in accessing the remote number will be billed as appropriate.

(1) Number Retention Service has been eliminated. See Paragraph 45.2.11 for Rules and Regulations associated with transfer of telephone numbers.

Provides for segregation of a customer's Plexar-II station lines into separate groups thereby enabling each group to have a different set of common features and/or access lines.

- Station Message Detail Recording (SMDR)

Provides a magnetic tape record of call details (date, time, etc.) on outgoing calls placed over a customer's private facilities, i.e., Common Control Switching Arrangement (CCSA) and Foreign Exchange (FX), tie line facilities, Long Distance Message Telecommunications Service (LDMTS) network, and Other Common Carriers (OCC) for whom the Telephone Company has a prearranged billing agreement.

- Trunk Answer Any Station

Incoming calls, normally directed to the attendant, activate a common alerting signal on the customer's premises when the attendant positions are in night service and night station lines are not assigned or are all busy. These calls may then be answered by any station user in the system who dials a special code from any unrestricted station line.

45.1 General (Continued)

45.1.2 Feature Array (Continued)

B. Optional Features (Continued)

- Uniform Call Distribution(UCD)

A type of hunting which provides for an even distribution of incoming calls among the available members of a hunt group. UCD is available with queuing (equal to 30% of all UCD stations in the group) or without queuing. Additional capabilities available with UCD are:

Additional Queue Slots: Provides one additional holding position for incoming calls when all stations are busy.

Make Busy Key: Allows designated lines to be made to look busy by means of a key operation.

Music on Queue: With this feature, callers waiting in an incoming-call queue will hear customer-provided music.

Recorded Delay Announcement: A prerecorded announcement provided to the caller in queue advising of the delay in answering.

Stop Hunt Key: Allows the size of a multiline hunt group to be decreased by means of a key operation.

UCD Queue Status Lamp: Indicates that calls have been waiting in queue longer than a customer-specified time limit.

UCD on Business Set: Allows an Electronic Business Set to be configured as part of a UCD group.

- Visual Message Waiting Indication (1)

Provides a visual indication on a station set to alert the subscriber that a message is waiting.

C. Digital Multiplex System (DMS) Optional Features

The following Optional Features are available with Plexar-II only in DMS offices, where applicable software exists, at the rates and charges provided herein:

- (AT) (1) Available only to BRI Stations. For Basic Stations, this functionality is provided through the
(AT) Message Waiting Indication optional feature.

PLEXAR[®]-II SERVICE

45.1 General (Continued)

45.1.2 Feature Array (Continued)

C. Digital Multiplex System (DMS) Optional Features - (Continued)

- Automatic Call Distribution (ACD) (1)(2)

Provides an even distribution of incoming calls by distributing them equally among a designated group of answering positions (agents). Also provides, as an option, a data stream of call events to a customer-provided down stream processor (Management Information System or MIS) which can format management information reports. ACD can be used with electronic or non-electronic telephone sets. The electronic business set's functionality is preprogrammed by the Telephone Company. A non-electronic telephone set requires a customer's agent to dial a code to activate features.

Electronic Business Sets

Basic Feature Package

Abandoned Call Clearing: Eliminates unnecessarily held connections. Calls are removed and recorded announcements or music stopped if a caller abandons while in an incoming-call queue.

ACD Directory Number: One unique seven-digit number used to receive incoming calls that are not associated with lines. Each ACD group can receive calls on an ACD directory number and distribute to the ACD agents assigned to the group.

ACD Directory Number Priority: Allows a customer to prioritize calls depending on the ACD directory number dialed. Calls of a higher priority get answered before calls of a lower priority.

Agent Queue: Ensures an even distribution of the workload among agents in the group. When there are no incoming calls waiting, the available agents are placed in a designated agent queue. The agent who has been waiting the longest receives the first incoming call.

Automatic Overflow: Permits a customer to specify both a maximum number of calls that can be queued and a maximum waiting time for queued calls. When either limit is reached, calls can be directed to a customer-specified route instead of being placed in queue.

- (1) Not available to BRI Stations.
(CT) (2) Not available on stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.

Basic Feature Package (Continued)

Supervisor Control of Night Service: Provides the supervisor with control of the initiation of the night service treatment for one or more agent groups within the same customer group.

Three-Way Calling/Call Transfer/Call Chaining to ACD: Allows the agent to transfer calls to other ACD directory numbers in the same customer group and be included as a member of a three-way call chain.

Advanced Feature Package

Agent Login Enhancement: Provides an agent identification and password option to ensure that only assigned agents are able to login to an ACD group.

Call Forcing: Increases the speed of processing ACD calls by automatically presenting incoming calls to the ACD agent. This eliminates the need for the agent to operate the In-Calls key to receive the next call. This feature operates more effectively with the use of agent headsets.

Call Supervisor/Answer Agent Key: Allows the agent quick access to the supervisor for help or consultation. Agents' calls to the supervisor are terminated on the supervisor's Answer Agent Key.

Display Queue Status Key: Allows an ACD supervisor to display the load status information associated with an ACD group.

Overflow Enhancement: To increase the number of avenues for answering ACD calls during periods of heavy traffic, this feature adds the capability to program up to four ACD groups within the customer group as potential overflow routes before a call is rerouted to the customer-specified overflow destination.

Electronic Business Set-(Continued)

Basic Feature Package-(Continued)

Supervisor Control of Night Service: Provides the supervisor with control of the initiation of the night service treatment for one or more agent groups within the same customer group.

Three-Way Calling/Call Transfer/Call Chaining to ACD: Allows the agent to transfer calls to other ACD directory numbers in the same customer group and be included as a member of a three-way call chain.

Advanced Feature Package

Agent Login Enhancement: Provides an agent identification and password option to ensure that only assigned agents are able to login to an ACD group.

Call Forcing: Increases the speed of processing ACD calls by automatically presenting incoming calls to the ACD agent. This eliminates the need for the agent to operate the In-Calls key to receive the next call. This feature operates more effectively with the use of agent headsets.

CANCELLED

Call Supervisor/Answer Agent Key: Allows the agent quick access to the supervisor for help or consultation. Agents calls to the supervisor are terminated on the supervisor's Answer Agent Key.

FEB 26 1998

Display Queue Status Key: Allows an ACD supervisor to display the load information associated with an ACD group.

Overflow Enhancement: To increase the number of avenues for answering ACD calls during periods of heavy traffic, this feature adds the capability to program up to four ACD groups within the customer group as potential overflow routes before a call is rerouted to the customer-specified overflow destination.

Queue Status Lamp: Provides a visual indication whenever the incoming call queue to an ACD group overflows.

Display Feature Package

Call Source Identification Display: Provides for the display of the incoming call facilities to help the agent distinguish the type of incoming call.

Called Name/Number Display: Provides display of the ACD directory number the caller dialed and the associated ACD group name allowing agents to respond appropriately when answering calls to multiple ACD directory numbers or when providing a variety of services.

Multistage Queue Status Display: Allows ACD supervisors with display sets to quickly and easily determine the length of time calls are held in the incoming call queue before being answered or the number of calls enqueued.

Group Status Display: Allows the user to review statistics on ACD group status (number of manned positions, idle agents, etc.) at customer-specified intervals.

Optional Features

Additional ACD Directory Number: Unique seven digit number used to receive incoming ACD calls that is not associated with a line.

Additional ACD Directory Number Priority: Allows a customer to prioritize calls depending on the ACD directory number dialed. Calls of a higher priority get answered before calls of a lower priority.

Additional Incoming Call Queue (10%): Reserves additional queue slots equal to 10% of all agent positions for incoming calls when all agents are busy.

Additional Secondary Directory Number: Standard (non-ACD) numbers used by agents to place or receive non-ACD calls or to receive transferred calls directed specifically to them.

Agent Key: Allows the supervisor to use any of the agent keys in conjunction with the Call Agent feature.

Attendant Console to ACD: Allows an attendant console to originate or extend calls to ACD directory numbers.

Call Agent Key: Permits a supervisor to communicate directly with an agent.

Call Transfer with Time: Allows a call that has been answered by an agent and then transferred to another ACD group to be in the new group's highest priority queue based on the total time the call has previously been enqueued and talking in the original group.

Controlled Interflow: This feature provides for a Controlled Interflow Key on the supervisor set which, when activated, temporarily directs any new incoming ACD calls to a route defined by the customer, typically another ACD group.

Display Agents Summary Key: Permits the supervisor with a display set to quickly check the overall status of all agent positions assigned to the group.

Optional Features (Continued)

Emergency Key: Allows the agent to confer immediately with the supervisor or automatically connect a tape recorder in the event of a threatening or abusive call. The agent is assigned the emergency key and the supervisor the emergency answer key. Also allows an agent to add a supervisor and a recording device to a call simultaneously.

Enhanced Group Status Display: Allows displays to be provided for multiple ACD end users from a single switch. Data can be reported for defined sets of ACD groups instead of one or all groups.

Forced Agent Availability: Allows the supervisor to change the status of an agent's line from "Not Ready" to "Idle and Available."

Increased MIS Links: Increases the number of Network Operations Protocol (NOP) links available on a DMS ACD node thus increasing the number of simultaneous ACD MIS sessions that can be conducted at any one time.

Line-of-Business Code Key: Enables ACD agent to enter a Line-of-Business code for each call. Entering the code pegs a register for that line of business and allows the MIS administrator to track peg count and holding time for calls attributed to various activities.

Load Management: Enables senior supervisor to promptly reconfigure the structure and operational parameters of an ACD group to maximize the number of calls served or to alleviate workloads. Requires downstream processor on the customer premises.

MIS Interface: Enables a down-stream processor on the customer premises to use a data stream to collect ACD information from the switch. The down-stream processor can then use this information to produce real-time statistics and historical reports.

Optional Features (Continued)

Multistage Queue Status Refresh: This enhancement feature updates the Multistage Queue Status display approximately every 30 seconds.

Music on Delay (Queue): With this feature, callers placed in an incoming-call queue will hear customer-provided music instead of silence after the call-delay announcement.

Night Service Recorded Announcement and Forward: Enhances the currently available Night Service capability. Out-of-hour callers can be presented with a specialized recorded announcement before being directed to the specified Night Service treatment.

Observe Agent: Allows an ACD supervisor to: observe agents on both primary and secondary directory numbers, follow agents from one line to the other as they move from the ACD directory number to the secondary directory number, monitor three-way calls in which an agent is participating, and observe an established ACD call answered at any agent or supervisor position that has an Incalls Key in any ACD group within the same customer group.

Overflow of Enqueued Calls: Enhances the existing call overflow capability by providing for overflow of calls that have been enqueued for excessive amounts of time.

Remote Load Management: Provides for the existing ACD Load Management capability on the terminal connected to the management reports down-stream processor on the customer premises.

Second and Third Recorded Announcements: This feature enhances the basic announcement capability by allowing customer groups to specify delay periods between announcements and the type of treatment that callers are given during those delays and after the last announcement is given.

- (1) Not available to BRI Stations.

(T) Electronic Business Sets (Continued)

Optional Features (Continued)

Multistage Queue Status Refresh: This enhancement feature updates the Multistage Queue Status display approximately every 30 seconds.

Music on Delay (Queue): With this feature, callers placed in an incoming-call queue will hear customer-provided music instead of silence after the call-delay announcement.

Night Service Recorded Announcement and Forward: Enhances the currently available Night Service capability. Out-of-hour callers can be presented with a specialized recorded announcement before being directed to the specified Night Service treatment.

Observe Agent: Allows an ACD supervisor to: observe agents on both primary and secondary directory numbers, follow agents from one line to the other as they move from the ACD directory number to the secondary directory number, monitor three-way calls in which an agent is participating, and observe an established ACD call answered at any agent or supervisor position that has an Incalls Key in any ACD group within the same customer group.

Overflow of Enqueued Calls: Enhances the existing call overflow capability by providing for overflow of calls that have been enqueued for excessive amounts of time.

Remote Load Management: Provides for the existing ACD Load Management capability on the terminal connected to the management reports down-stream processor on the customer premises.

Second and Third Recorded Announcements: This feature enhances the basic announcement capability by allowing customer groups to specify delay periods between announcements and the type of treatment that callers are given during those delays and after the last announcement is given.

Status Lamp Enhanced: When assigned to a supervisor's set, each agent status lamp lights when the agent is active on either an ACD call or a call on a secondary directory number. By pressing the key associated with the agent's status lamp, the supervisor is able to display the exact status of the agent. The display reports that the agent is active on an incoming call, an incoming call to a secondary directory number, or an outgoing call on a secondary directory number. When used with the Observe Agent feature, enables the supervisor to continuously monitor (visually) or observe (audio-monitor), individual agent activities on both agent's primary directory number (ACD calls) and one designated secondary directory number. A supervisor's set with display is needed for full functionality.

Transfer to Incalls Key: Allows an agent to transfer an ACD call to another agent's Incalls Key within the same customer group.

User Interface to ACD MIS: Provides security for multiple users served by a single switch by allowing the DMS-100 to control the ACD groups that can be accessed by each downstream processor.

Variable Wrap-Up Time: Allows the ACD end user the flexibility to vary the time interval between call completion and the presentation of a new incoming call on an individual agent basis.

Virtual Facility Group (VFG) Data in ACD/MIS: When an ACD directory number is accessed through a VFG, this feature includes the existing VFG operational measurements related to facility blockage in the ACD Management Reports, providing the end user with a complete view of the ACD group's call-handling capability.

Optional Features (Continued)

Walkaway/Closed Key: After activating the Not Ready Key, ACD agents must enter a code that specifies the reason for being unavailable. Tracking of these codes in the MIS down-stream processor allows comprehensive management of agent activities by project.

Non-Electronic Sets

Basic Features

Abandoned Call Clearing: Eliminates unnecessarily held connections. Calls are removed and recorded announcements or music stopped if a caller abandons while in an incoming-call queue.

ACD on 2500 sets: Provides both ACD and non-ACD feature interactions for calls terminating on 2500 set ACD positions.

ACD Directory Number: One unique seven-digit number used to receive incoming ACD calls that are not associated with lines. Each ACD group can receive calls from up to three ACD directory numbers and distribute to the ACD agents assigned to the group.

ACD Directory Number Priority: Allows a customer to prioritize calls depending on the ACD directory number dialed. Calls of a higher priority get answered before calls of a lower priority.

Agent Login Enhancement: Provides an agent identification and password option to ensure that only assigned agents are able to login to an ACD group.

Automatic Overflow: Permits a customer to specify both a maximum number of calls that can be queued and a maximum waiting time for queued calls. When either limit is reached, calls can be directed to a customer-specified route instead of being placed in queue.

Basic Features (Continued)

Call Delay Announcement: One prerecorded announcement provided to the caller in queue advising of the delay in answering.

Feature Assignment: Allows 2500-type sets to be assigned and deleted from ACD groups and moved from one ACD group to another.

Incoming Call Queue (30%): Reserves queue slots equal to 30% of all agent positions for incoming calls when all agents are busy.

Login/Logout: Allows an ACD agent to use a 2500-type set to login to an ACD group by dialing an activation code, identification code and, if required, a password. The agent can also logout of an ACD group by dialing a deactivation code.

Make Set Busy: Prevent an agent position from receiving only non-ACD calls to the set. ACD calls continue to be presented.

Night Treatment: Provides a night service mode when all agents in an ACD group activate make set busy keys on their sets.

Ring Threshold: Provides for the rerouting of a call when an agent does not answer the call within a preprogrammed time. The call is rerouted either to the longest idle agent or the front of the queue if there is no agent available. The agent position that did not answer is logged out of service and must login to put the position back into service.

Set Distinctive Ringing: Enables an ACD agent to distinguish an ACD call from other incoming calls. The main function is to provide a method by which ACD agents using 2500 sets will be able to distinguish ACD from non-ACD calls.

Basic Features (Continued)

Set Not Ready: Allows a 500/2500 set logged into an ACD agent position to use access codes to activate and deactivate ACD Set Not Ready. This feature is typically used when post-call work time is required to complete a transaction.

Supervisor Control of Night Service: Provides the supervisor with control of the initiation of the night service treatment for one or more agent groups within the same customer group.

Three-Way Calling/Call Transfer/Call Chaining to ACD: Allows the agent to transfer to other ACD directory numbers in the same customer group and be included as a member of a three-way call chain.

Optional Features

Additional ACD Directory Number: Unique seven-digit number used to receive incoming ACD calls that are not associated with a line.

Additional ACD Directory Number Priority: Allows a customer to prioritize calls depending on the ACD directory number dialed. Calls of a higher priority get answered before calls of a lower priority.

Additional Incoming Call Queue (10%): Reserves additional queue slots equal to 10% of all agent positions for incoming calls when all agents are busy.

Music on Delay (Queue): With this feature, callers placed in an incoming-call queue will hear customer-provided music instead of silence after the call-delay announcement.

Night Service Recorded Announcement and Forward: Enhances the currently available Night Service capability. Out-of-hour callers can be presented with a specialized recorded announcement before being directed to the specified Night Service treatment.

- (1) Not available to BRI Stations.
- (CT) (2) Not available on stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.

Optional Features (Continued)

Overflow of Enqueued Calls: Enhances the existing call overflow capability by providing for overflow of calls that have been enqueued for excessive amounts of time.

Second and Third Recorded Announcements: This feature enhances the basic announcement capability by allowing customer groups to specify delay periods between announcements and the type of treatment that callers are given during those delays and after the last announcement is given.

2500 Set MIS/Load Management: Allows ACD Load Management and ACD Show commands to be used for ACD groups consisting of 2500 set ACD agents. Load Management commands allow sets to be reassigned from one ACD group to another, and ACDSHOW commands display information about the group's agent position.

- Business Set Interface (1)(2)

Allows customers the capability to activate Business Set functions in a Plexar-II system. Functions have been packaged as follows:

Basic Business Set Interface Package

Add-On Module Software: Allows the business set to be expanded when the customer provides adjunct Customer Premises Equipment (CPE).

Auto Answer Back: Allows any incoming call to the primary directory number of the set to be automatically answered after four seconds of ringing.

Automatic Dial: Allows a business set station user to call a frequently dialed number by depressing the assigned feature key.

- (1) Not available to BRI Stations.
- (CT) (2) Not available on stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.

- Business Set Interface (1)(2) (Continued)

Basic Business Set Interface Package (Continued)

Automatic Line: Automatic Line is a directory number feature that may be assigned to individual directory number appearances on a business set station.

Automatic Line and Multiple Appearance Directory Number (MADN): This feature allows a MADN-Single Call Arrangement (SCA)/-Multi-Call Arrangement (MCA) member to be assigned as an Automatic Line. In addition, it makes automatic lines compatible with many features and options that do not require initial dial tone.

Busy Override: Allows a business set user to gain access to a busy station by depressing an appropriate key.

Call Forward: Allows a business set user to have incoming calls to a station automatically forwarded in one of the four variations to a predetermined telephone number.

Call Park: Provides the business set user the capability of parking (holding) a call against its own directory number. The parked call can be retrieved from any station by dialing the feature access code and directory number. Once the call has been parked against a directory number in the system, the user is free to originate and receive calls.

Call Pickup: Allows a station to answer calls incoming to another station within a predetermined call pickup group. A call pickup group is a group of stations with call pickup assigned and linked together using one of the stations as a linking member.

Call Waiting: With this feature, an incoming call encountering a busy business set station received audible ringing, while the called station user receives call waiting notification. The called station user can choose to acknowledge the new caller and place the existing party on hold, to alternate between the callers, or to abandon one of the calls and be recalled by the other.

C. Digital Multiplex System (DMS) Optional Features-(Continued)

- Business Set Interface-(Continued)

Basic Business Set Interface Package-(Continued)

Call Waiting-Originating for Business Sets: Enhances the original Call Waiting Originate (CWO) feature by extending the availability of CWO to business sets in the following manner: (1) allowing CWO to be assigned to a directory number on a business set or (2) allowing an originator with CWO to terminate to a business set with a Call Waiting Terminating (CWT) key.

Dial Call Waiting: Allows Dial Call Waiting to be assigned to a business set on a per directory number basis.

Feature Code Access: Provides an alternate method of accessing business set features, other than through the use of feature keys.

Group Intercom: Allows a customer to call a member of a predesignated group by using abbreviated dialing.

Basic Business Set Interface Package (Continued)

Held Calls: Allows a business set user to hold an established call on any directory number on the business set. The user may then originate or receive another call on any other idle directory number.

Intercom: Allows a customer to directly terminate on a predesignated set by depressing the intercom key.

Key Short Hunt: Provides the capability for incoming calls to hunt over a set of directory number appearances on a business set in search of an idle directory number to terminate on. The directory numbers hunted over can be either standard directory numbers or Multiple Appearance Directory Numbers (MADNs).

Listen on Hold: Allows a business set user to place a called party on hold and listen through the speaker.

Make Set Busy: Allows directory number appearances on a business set to be made busy to incoming calls.

Multiple Appearance Directory Number (MADN): A directory number that is assigned to more than one business set is called a Multiple Appearance Directory Number (MADN). The business sets that are assigned this directory number are known as a MADN group.

Multiple Appearance Directory Number (MADN) and Conference Interaction: Allows the following types of conference calls to interact with MADN Hold: Three-way Calling, Station Controlled Conference, Preset Conference, and Meet-Me Conference. This feature also allows a conference call to be either answered or established by one party, placed on hold, and picked up by another party.

Privacy Release: Allows a MADN with Single Call Arrangement (MADN SCA) to establish a conference call among a number of MADN lines and an external party.

Ring Again: With Ring Again, the user can have the business set monitor a busy directory number and be notified when the called station becomes free.

Speed Calling (Personal): Allows a business set user to have their own one-digit and/or two-digit speed call list. The user assigns and changes numbers against these lists and they cannot be allowed access by other stations.

Business Set Display Feature Package

Call Forward/Automatic Dial Display: Displays the previously stored number when programming Call Forwarding or Automatic Dialing on a business set with a display.

Display Called Number: Provides the user of a business set equipped with visual feedback concerning the called number during the origination, termination and programming, and feature activation operations.

Display Calling Number-Closed User Group Only: Provides the business set user receiving an incoming call with visual feedback concerning the calling number.

Enhanced Business Set Reason Display: For business set users with Display, this feature enhances Call Forward Reason Display to provide information on redirected calls. This allows the user to appropriately answer calls that are being redirected by features such as Call Forwarding.

Query Time Key: Provides the current time and date on a business set LCD display when the Query Time and Date Key is depressed.

Business Set Interface Optional Feature

Individual Business Line: Allows the business set user the appearance of a Basic Local Access line as one of the directory numbers on the set.

- Call Park

Allows a station user to park (hold) a call against its own directory number. The parked call can be retrieved from any station by dialing the feature access code and directory number.

- Meet-Me Conference

Allows conferees to hold a conference on a six-port conference bridge by dialing a directory number at a specific time.

Missouri Public

45.1 GENERAL (Continued)

REC'D OCT 24 2003

45.1.2 Feature Array (Continued)

C. Digital Multiplex System (DMS) Optional Features - (Continued) Service Commission

(AT)

- Simultaneous Ring One Number (1)

Extends the reach of a customer's Plexar-II station number, by causing additional telephone device to ring simultaneously whenever the Plexar-II station number is dialed. Once the call is answered on either of the telephone devices, ringing on the other device will be terminated, and the originating caller will be connected directly to the device which answered the call. The other device will be freed up to initiate or receive new calls, without interfering with the original call.

If the Simultaneous Ring One Number customer answers an incoming call on a device other than the Plexar-II station corresponding with the telephone number that was actually dialed, the customer's Plexar-II telephone bill will be charged usage charges, as if a call was placed from the Plexar-II station to the device on which the call was answered. This usage will be billed by the customer's existing carrier for the type of call in question and will be billed according to the billing arrangement the customer has with that carrier. The simultaneously rung number can be any valid, non zero-plus telephone number (for example, another Plexar-II station, residential telephone line, or cellular phone number).

If the Simultaneous Ring One Number customer does not answer a call on either of the simultaneously rung devices, and either of the simultaneously rung telephone numbers has an associated answering device or voicemail, the first entity to answer the call will receive the message.

To change the telephone number of the device being simultaneously rung or to turn off Simultaneous Ring One Number, the customer must place a service order.

(AT)

Simultaneous Ring One Number is only available where equipment, features and facilities are available. Other restrictions and limitations may apply.

PLEXAR®-II SERVICE

45.2 RULES AND REGULATIONS

45.2.1 Plexar-II Service will be provided subject to the availability of the necessary switching equipment and outside plant facilities. The provisioning of standard and optional features is limited to the capabilities of the serving central office.

45.2.2 The following terms used in this section shall mean:

(CT) Plexar-II Basic Station: Consists of two rate elements, the appropriate basic station rate and basic station line facility rate(1). The combined rate elements comprise all facilities, including intercommunication, outside plant facilities and standard features from the Plexar-II dial switching equipment located on the Company premises.

Off-Premises Station: Consists of two rate elements, the appropriate station rate and applicable private line charges.

(CT) Plexar-II BRI Station(2): Consists of the appropriate station rate elements and station line facility rate. This can be a combination of B and D channels with a maximum of 2-B channels and 1 D-channel per BRI station. B-channels can be used for either Circuit Switched Voice (CSV), Circuit Switched Data (CSD), or Packet Switched Data(3). D-channels can be used for Packet Switched Data only(3).

(CT) ISDN Serving Area: A Company Exchange with one or more ISDN-equipped central offices, plus all other Company exchanges and/or zones included in that ISDN-equipped central office's non-optional local calling area as defined in the Local Exchange Tariff.

Link Extension: Provides the additional interoffice facility and central office hardware required to provide Plexar BRI Service for customers that are not located within the ISDN Serving Area but are within the same LATA.

- (1) Station line facility rates specified in this tariff are not applicable to stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.
- (2) Not available on stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.
- (AT) (3) ISDN BRI Packet Switching is obsolete and only available to existing installations at existing locations for existing customers. This service will be withdrawn on June 1, 2006.

PLEXAR^R-II SERVICE

**MISSOURI
Public Service Commission**

45.2 RULES AND REGULATIONS

45.2.1 Plexar-II Service will be provided subject to the availability of the necessary switching equipment and outside plant facilities. The provisioning of standard and optional features is limited to the capabilities of the serving central office.

45.2.2 The following terms used in this section shall mean:

Plexar-II Basic Station: Consists of two rate elements, the appropriate station rate and station line facility rate. The combined rate elements comprise all facilities, including intercommunication, outside plant facilities and standard features from the Plexar-II dial switching equipment located on the Telephone Company premises.

Plexar-II Non-Working Station: Consists of two rate elements, the appropriate station rate and station line facility rate, and is used to meet the minimum station line requirement.

Off-Premises Station: Consists of two rate elements, the appropriate station rate and applicable private line charges. An Off-Premises station is used: a) when a Plexar-II station is located in a serving central office that does not meet the minimum 10 station line requirement and b) to provide service to customers in multiple central offices when the minimum station line requirement would ordinarily have been met.

45.2.3 A minimum charge for a Plexar-II service arrangement is applicable.

The minimum charge shall be the rates applicable to 10 Plexar-II stations (Basic, Non-Working, or Off-Premises) in each serving central office and their associated station line facility as set forth in Paragraph 45.4.3 and 45.4.4, following.

Additionally, the maximum number of station lines that can be installed with the initial installation of the customer's Plexar-II arrangement is 74 stations within each serving central office. However, during the fixed rate period, subsequent installations of station lines that would bring the total number of station lines beyond 74 within each serving central office are allowed for the remainder of the fixed rate period. The customer may then request a Plexar-Custom serving arrangement as set forth in Paragraph 45.3.7, following or continue with their Plexar-II Service for the duration of the contract.

Out-WATS Termination: Allows a station user access to Out-WATS services dedicated to a customer group by dialing an access code.

Tie Trunk Terminations: The following connections are available as outlined below:

- Analog Facility: An analog termination used to connect tie trunks or dedicated channels to other telecommunications switching systems.
- Digital Facility: A digital 1.544 MBPS termination used to connect dedicated tie trunks to another telecommunications switching system. The termination can accommodate twenty-four (24) DS0 channels, each dedicated to a specific service.
- Digital Direct Termination: A digital 1.544 MBPS termination used to connect dedicated tie trunks to another telecommunications switching system. The termination can accommodate twenty-three (23) 64 kbps "B" channels for circuit switching and one 64 kbps "D" channel (23B+D) or, in cases of multiple Digital Direct terminations, twenty-four (24) 64 kbps "B" channels where "D" channels can be shared.

Optional Feature –

Backup D-Channel: Provides backup for primary "D" channel under those circumstances where three or more Digital Direct Terminations share a single "D" channel. A predetermined channel on another Digital Direct Termination would automatically take over call control and signaling functions.

(AT)

(MT) 45.2.3 A Plexar-II service arrangement does not have a minimum or maximum station requirement. PLEXAR[®]-II SERVICE

45.2 RULES AND REGULATIONS (Continued)

45.2.4 Plexar-II station line facilities are charged in mileage bands as measured in air miles from the station location to the serving central office. The station line facility rates are applicable to all Plexar-II Basic(2) or BRI stations, except Off-Premises stations. The station line facility rate applies to all BRI stations and to the Plexar-II Basic stations in excess of the number of Plexar-II access lines. In no case shall the credit applied for station line facility rates exceed the number of station line facility rates billed.

45.2.5 Basic Customer Rearrangement Service (CRS) allows customers to request changes as batch (overnight) or priority (same day). Each customer is permitted 20 batch and 3 priority changes per day (per central office served). All normal and emergency central office functions have priority over customer-requested changes. The Telephone Company is not responsible for customer change requests delayed by such central office functions. (1)

Basic CRS includes initial training at the time of CRS installation, one CRS Customer Administrator Guide (per central office served), and access for one simultaneous user per customer.

The customer must obtain and maintain compatible Customer Premises Equipment (CPE) necessary for use with CRS.

The customer assumes full responsibility for station information managed by CRS since the Telephone Company does not maintain station specific records once CRS changes have been made. The Telephone Company does maintain a total count of the number of optional features purchased. This count represents the maximum number which can be activated at any one time through CRS and will be used for billing purposes. Activation or deactivation of optional features through CRS does not affect billing. When the customer activates optional station features through CRS, the station feature nonrecurring charges are waived. If the customer requests the Telephone Company to activate optional station features instead of utilizing CRS capability, applicable tariff charges for the activated feature will be applied.

The Telephone Company reserves all rights to take the CRS computer down for maintenance of software updates as required. Whenever possible, this will be done during weekend and off-peak hours, and customers will be notified in advance.

- (1) Not available to BRI stations.
(2) Station line facility rates specified in this tariff are not applicable to stations associated with Access Advantage Plus Service as found in Section 18 of the Digital Link Services Tariff.

PLEXAR^R-II SERVICE

**MISSOURI
Public Service Commission**

45.2 RULES AND REGULATIONS-(Continued)

45.2.4 Plexar-II station line facilities are charged in mileage bands as measured in air miles from the station location to the serving central office. The station line facility rates are applicable to all Plexar-II Basic stations, except Off-Premises stations. The station line facility rate applies to Plexar-II stations in excess of the number of Plexar-II access lines.

45.2.5 Basic Customer Rearrangement Service (CRS) allows customers to request changes as batch (overnight) or priority (same day). Each customer is permitted 20 batch and 3 priority changes per day (per central office served). All normal and emergency central office functions have priority over customer-requested changes. The Telephone Company is not responsible for customer change requests delayed by such central office functions.

Basic CRS includes initial training at the time of CRS installation, one CRS Customer Administrator Guide (per central office served), and access for one simultaneous user per customer.

The customer must obtain and maintain compatible Customer Premises Equipment (CPE) necessary for use with CRS.

The customer assumes full responsibility for those features activated through CRS since the Telephone Company does not maintain a record of which features are on each station. The Telephone Company does maintain a total count of the number of optional features purchased. This count represents the maximum number which can be activated at any one time through CRS and will be used for billing purposes. Activation or deactivation of optional features through CRS does not affect billing. When the customer activates optional station features through CRS, the station feature nonrecurring charges are waived. If the customer requests the Telephone Company to activate optional station features instead of utilizing CRS capability, applicable tariff charges for the activated feature will be applied.

The Telephone Company reserves all rights to take the CRS computer down for maintenance of software updates as required. Whenever possible, this will be done during weekend and off-peak hours, and customers will be notified in advance.

45.2.6 A Plexar-II Off-Premises station will be furnished the same service as a Plexar-II Basic station where equipment and facilities are available.

Private line rates and charges, as specified in Section 2 of the Private Line Service tariff, apply to Off-Premises stations.

PLEXAR® -II SERVICE

45.2 RULES AND REGULATIONS (Continued)

45.2.6 A Plexar-II Off-Premises station will be furnished the same service as a Plexar-II Basic station where equipment and facilities are available.

Private line rates and charges, as specified in Section 2 of the Private Line Service tariff, apply to Basic and Off-Premises stations.

45.2.7 The customer may move Plexar-II service within the state, where facilities permit, subject to the appropriate nonrecurring charges and any other charges specified in this tariff resulting from the customer's requirement (i.e., overtime hours, special construction). The contract will not be affected unless the move causes the 35% maximum station fluctuation to be reached as specified in paragraph 45.3.9. If this occurs, termination liability is applicable. Additionally, station line facility rates may change due to the distance charges. Refer to paragraph 45.2.18 for moves associated with Plexar BRI Service.

45.2.8 If Plexar-II service is provided from a serving central office other than their normal serving central office, the rates and charges specified in this tariff are applicable in addition to the rates, charges, terms and conditions, as appropriate, for Foreign Serving Office Service and Foreign Exchange Service, specified in Section 9 of this tariff and Section 2 of the Private Line Service Tariff. Refer to paragraph 45.2.18 for rules and regulations when the customer subscribes to Plexar BRI Service.

45.2.9 When a customer requests a special offering or modification of standard service offering, it will be furnished whenever possible if not detrimental to any of the services or equipment of the Telephone Company. Such special service offerings or modifications of standard service offerings will be furnished at additional charges.

45.2.10 Directory listings will be furnished in accordance with the regulations set forth in Section 6 of this tariff.

45.2.11 The assignment of telephone numbers for Plexar-II shall be in accordance with Section 17 of this tariff. Where facilities allow, transfer of telephone numbers between Plexar-II and other services will be permitted as follows:

- (a) Customers converting between Plexar/Centrex services will be permitted to retain their existing telephone numbers at no charge.
- (b) Business customers changing to Plexar-II service may retain up to ten of their existing telephone numbers, per serving central office, at no charge. For charges applicable to telephone numbers exceeding ten, see Paragraph 45.4.1.
- (c) Plexar-II customers may transfer one or more of their existing telephone numbers for use with other business services. Charges will apply for each number transferred. For applicable charges see Paragraph 45.4.1. Charges do not apply when the customer disconnects the entire system.

45.2 RULES AND REGULATIONS (Continued)

45.2.17 The Southwestern Bell Telephone calling party, whether they subscribe to Caller ID Services or not, may prevent the delivery of calling party name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

If a calling party activates blocking, the calling party name and/or number will not be transmitted across the station line, including calls within and outside the Plexar group. Instead, Caller ID customers will receive an anonymous indicator. The anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number or calling party name.

Per line blocking for the delivery of calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers: (a) private, non-profit, tax-exempt, domestic violence intervention agencies, and (b) federal, state and local law enforcement agencies. Blocking is provided on lines over which the official business of the agency is conducted, including those at the residence of employees/volunteers, where an executive officer of the agency registers with Southwestern Bell Telephone Company a need for blocking. The calling name and/or number will not be transmitted from a line equipped with this capability.

(CT) The blocking of the CPN will not be provided on calls originated from Payphone Exchange Access Service.

In addition, to the provisions of the General Exchange Tariff, Section 17, Paragraph 17.8, the calling party and customer indemnifies and saves Southwestern Bell Telephone harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a Caller ID customer of a telephone number which the calling party has requested to be omitted from the telephone company directory or has requested not to be disclosed to any person.

PLEXAR® -II SERVICE

45.2 RULES AND REGULATIONS (Continued)

45.2.18 Plexar-II Service with a Basic Rate Interface (BRI) Integrated Services Digital Network (ISDN) requires compatible registered CPE under FCC Part 68.

Upon subscribing to Plexar-II BRI Service, the customer may be required to change existing telephone number(s) if SWBT determines that it is not reasonably feasible for technical or number administration reasons to continue to provide the customer's existing telephone number(s).

The serving central office from which a customer's Plexar BRI Service is provided shall be designated as the customer's Plexar BRI equipped serving office. BRI service will be provided at the rates and charges specified in paragraph 45.4.3 and 45.4.4. The following regulations are associated with the serving arrangement:

- A. If the customer's normal serving office is BRI equipped and is located in an ISDN Service Area, BRI service will be provided from that serving office.
- B. If the customer's normal serving office is not BRI equipped or lacks BRI capacity and is located in an ISDN Service Area, the BRI service may be provided from a BRI equipped office (located in the ISDN Service Area) designated by the Telephone Company. At the customer's request, their basic stations and BRI stations may be served from the BRI serving central office, if capacity is available. When this occurs, Foreign Serving Office charges apply to Basic Stations (non-BRI) as specified in Section 9 of this tariff. If the customer requests BRI service to be provisioned from a BRI equipped serving office (in the exchange) other than the one designated by the Telephone Company and the Telephone Company agrees, the arrangement can be provided. In this case, Foreign Serving Office charges apply per B and D channel in addition to any other charges.

(CT)(AT)

If a new central office becomes the designated BRI equipped serving office, their Plexar BRI service will continue to be provided from their original Plexar BRI serving office. Should the customer subsequently request that their Plexar BRI service be provisioned from the new designated serving office, all nonrecurring charges associated with the move will be applicable. The Telephone Company may request that the customer, at the customer's option, have the customer's BRI service provided from the new designated serving office and, in conjunction therewith, will waive move charges. Such a move may require the customer to change telephone numbers.

45.2 RULES AND REGULATIONS (Continued)

45.2.18 - (Continued)

- C. If the customer's normal serving office has a BRI equipped central office switch and is located in an ISDN Service Area, BRI service will be provided from that switch if there is capacity. If capacity is not available, BRI service may be provided from another Telephone Company designated BRI equipped serving office (located in the ISDN Service Area). At the customer's request, basic Plexar and BRI stations may be served from the designated BRI equipped serving office, if capacity is available. In this case, Foreign Serving Office charges specified in Section 9 of this tariff apply to Basic Stations in addition to other applicable charges.
- D. If the customer's normal serving office is located outside of an ISDN Service Area, the customer may request Plexar BRI service. In this case, BRI service may be provided from a BRI equipped serving office located in an ISDN serving area (within the LATA), if the Telephone Company agrees. In such cases, the charges for Link Extension specified in Paragraph 45.4.4, will apply. Intercom calling between the BRI stations and basic stations in this situation will not be provided unless they are connected together via a tie trunk arrangement at charges specified in paragraph 45.4.5, following. If the customer requests Plexar BRI service from a serving office other than the Plexar BRI equipped serving office designated by the Telephone Company and the Telephone Company agrees, Link Extension charges will apply. In addition, charges for Foreign Exchange Service, under Section 9 of this tariff will apply per B and D channel.

If the customer's normal serving office becomes BRI equipped, their Plexar BRI service may be moved from their original Plexar BRI serving central office to the customer's normal serving office. Such a move may require the customer to change telephone number(s); in such a case, the Telephone Company may waive the move charges specified in paragraph 45.2.7 of this tariff. Link Extension charges will no longer apply once the customer has been moved back to the normal serving central office. However, subject to Telephone Company agreement, the customer may request that their service not be moved. In such a case, the Link Extension charges will continue to apply.

45.3 PAYMENT PLANS

45.3.1 The Plexar-II Payment Plan offers the customer two options for payment. They are as follows:

A. Fixed Monthly Rate Plan

Under this plan, the customer pays a fixed monthly rate for a specified contract term. The customer may choose a 12, 24, 36, 48 or 60 month contract. During the course of the contract, fixed rates (recurring and nonrecurring) are not subject to Telephone Company initiated rate increases.

B. Month-to-Month Plan

Under this plan, the customer elects to pay month to month. Month-to-month rates (recurring and nonrecurring) are subject to Telephone Company initiated rate changes.

45.3.2 All one-time (nonrecurring) charges specified within this tariff can be deferred over the length of any fixed term on initial and subsequent installations of service. Annuity factors utilized in deferring these charges are listed in Section 17.6.5 (Rules and Regulations Applying to All Customer's Contracts, Payments for Service) of the General Exchange Tariff.

The customer's contract specifies the discount rate that will be used if a customer terminates service under the conditions specified in Paragraph 45.3.9, following. The discount rate used in initiating a contract listed in Section 17.6.5 remains fixed over the life of the contract term.

45.3 PAYMENT PLANS (Continued)

45.3.3 Additions to service under the two plans specified in Paragraph 45.3.1, preceding, can be added to the existing agreement.

Fixed monthly rate plan additions can be coterminous with the original contract or for a shorter term. If more than 90 days remain on the contract, apply rates equivalent to those of the original contract term. If less than 90 days remain, additions must be made only under a month-to-month option.

Additions to service under the Month-to-Month plan can be made at any time.

Additions to the fixed monthly rate plan that exceed the number of stations initially covered under the agreement are subject to the same termination liability charges as the initial stations.

45.3.4 Station rates, station line facility rates, facility terminating arrangements and optional features are covered under the Plexar-II payment plans. All other rates and charges not specifically covered in this section are not included. Plexar-II access lines are not included in these payment plans.

45.3.5 Existing Plexar-I and Centrex Service customers may convert to Plexar-II subject to the payment of the conversion charges specified in Paragraph 45.4.1, following.

45.3.6 With prior Telephone Company agreement, service under these plans may be transferred from one customer to another at the same location for a Supersedure Fee as identified in paragraph 45.4.1, following. The new customer assumes all obligations under the existing contract. Changes and additions to the assumed service can be made after the first day of service has been assumed.

45.3.7 Customers exceeding 74 stations within each serving central office may request a Plexar-Custom serving arrangement prior to the expiration of the existing contract term provided that the requested contract term be at least 12 months longer than the time remaining on the existing contract. Termination liability charges will not apply when the customer continues with an equivalent Plexar service arrangement (i.e., current system size).

(CT)

If there remains deferred non-recurring and installation charges, the present worth of that amount must be paid in full or applied to the new Plexar-Custom contract.

1st Revised Sheet 32
Replacing Original Sheet 32

RECEIVED

PLEXAR®-II SERVICE

DEC 23 1997

45.3 PAYMENT PLANS (Continued)

(CP) 45.3.8 At the conclusion of the fixed term for any contract the customer may renew the service at terms, conditions and rates that exist at the time of renewal, or change to month-to-month rates for all rate elements (standard and optional). If one of these options is not chosen by the contract expiration date, as noted on the Telephone Company billing records, service will continue with billing being converted to the monthly rate currently in effect for the month-to-month plan.

MISSOURI
Public Service Commission

(CT) Customers with arrangements exceeding 74 stations in each serving central office may convert the service at terms, conditions and rates set forth in Section 33 of this tariff.

45.3.9 Termination charges based on the present worth of the remaining monthly payments will be applicable to the fixed monthly rate plan under the following conditions: if the subscriber a) disconnects the entire service; b) disconnects more than 35% of the maximum contracted station quantity installed during the duration of the contract.

The termination charge is calculated as follows:

1. Under the conditions described above, subtract the allowable 35% station fluctuation from the maximum contracted station quantity installed during the duration of the contract.
2. Calculate the total monthly rate for the station quantity subject to termination charges identified in step 1.
3. Determine the annuity factor for the remaining months left in the contract. This factor is based on the discount rate specified in the customer's contract.
4. Multiply the result of steps 2 and 3 to determine the present worth termination liability amount.

(AT) In addition, the present worth of any installation and nonrecurring charges that have been deferred must be paid in full, applied to another Plexar contract payment plan, or deferred over the length of another Plexar contract term.

45.3 PAYMENT PLANS-(Continued)

45.3.8 At the conclusion of the fixed term for any contract, renewal procedures will be determined based on the number of stations currently in service within any serving central office.

Arrangements with 74 or less stations in each serving central office can renew the service at terms, conditions and rates that exist at the time of renewal, or change to month-to-month rates for all rate elements (standard and optional). If one of these options is not chosen by the contract expiration date, as noted on the Telephone Company billing records, service will continue with billing being converted to the monthly rate currently in effect for the month-to-month plan.

Arrangements exceeding 74 stations in each serving central office can convert the service at terms, conditions and rates set forth in Section 33 of this tariff.

45.3.9 Termination charges based on the present worth of the remaining monthly payments will be applicable to the fixed monthly rate plan under the following conditions: if the subscriber a) disconnects the entire service; b) disconnects more than 35% of the maximum contracted station quantity installed during the duration of the contract.

The termination charge is calculated as follows:

1. Under the conditions described above, subtract the allowable 35% station fluctuation from the maximum contracted station quantity installed during the duration of the contract.
2. Calculate the total monthly rate for the station quantity subject to termination charges identified in step 1.
3. Determine the annuity factor for the remaining months left in the contract. This factor is based on the discount rate specified in the customer's contract.
4. Multiply the result of steps 2 and 3 to determine the present worth termination liability amount.

In addition, the present worth of any installation and nonrecurring charges that have been ~~incurred~~ must be paid in full.

- A. Apply the equivalent PBX Trunk rate, as specified in the Local Exchange Tariff, per Plexar-II access line. These facilities may be used for either interoffice station-to-station and/or network access requirements. If dedicated interoffice facilities are utilized in lieu of Plexar-II access lines for station-to-station calling, apply appropriate rates and charges as specified in Section 2 of the Private Line Service tariff.

When Plexar-II Service is being used in conjunction with a pooled data arrangement, apply information Terminal Service rates, as found in the Local Exchange Tariff, per Plexar-II access line in lieu of the PBX Trunk rate.

In addition, apply the monthly Touch-Tone line rate, specified in Section 24 of this tariff, to access lines arranged for outgoing or two-way traffic.

- B. End User Common Line (EUCL) charges will be billed to Plexar-II as set forth in the Access Charges Tariff.
- C. For Plexar-II, an equivalent to the Business EUCL charge will apply per Plexar-II access line. The difference between the calculation from Paragraph B, preceding and this paragraph will be credited to the customer's account.

(1) Applies when charges are made that affect the entire system.

PLEXAR® -II SERVICE

45.4 RATES

45.4.1 Nonrecurring Charges

Footnotes:

- (1) If a customer chooses a contract term of 12 months or longer and then disconnects the system prior to the expiration of that contract, a termination charge is applicable, except as specified in paragraph 45.3.10. The termination charge is equal to the difference between the BRI only Month-to-Month Service Establishment Charge in effect at the time of the disconnect and the actual Service Establishment Charge paid at the time the system was installed.
- (2) If a Plexar-II customer disconnects service within 60 days after installation, a refund equivalent to the Service Establishment Charge paid at the time service was installed will be refunded on their monthly bill. If a customer has a multi-location system involving more than one BRI only central office, the refund per customer will be equivalent to one Service Establishment Charge. This refund does not apply to Plexar-II service configured only with D-channel packet switching. This refund is not available when Plexar-II systems are provided to transient locations or use, such as trade shows, convention centers and exhibit halls.
- (3) Applies when changes are made that affect the entire system.
- (4) When converting a system in a serving central office that provides only Basic Plexar (non-BRI) to BRI only or when converting a system in a serving central office from Basic Plexar to a combination of Basic and BRI service, there is no conversion charge applicable, but a system subsequent change charge is applicable as specified in paragraph 45.4.1D.
- (5) When converting a system in a serving central office that provides a BRI/Basic Plexar mix to BRI only or Basic Plexar only, there is no conversion charge applicable, but a system subsequent change charge is applicable as specified in paragraph 45.4.1D.
- (CT) (6) Standard capability of the Plexar-II arrangement includes the customer retaining a maximum of ten existing telephone numbers, at the time of initial installation, per serving central office. This charge applies to those numbers exceeding ten. When the customer requests the addition of telephone numbers subsequent to initial installation, this charge applies to each number.
- (AT) (7) Applicable when transferring telephone numbers subsequent to initial system installation.
- (AT) (8) Not applicable when the customer disconnects the entire Plexar-II system.

Service Commission

MONTHLY RATES

USOC	MON	12	24	36	48	60
	TO MON	MON	MON	MON	MON	MON
Plexar-II Station With SMDI(1)(2)	MWZ(6)	\$.15	\$.10	\$.10	\$.10	\$.10
Without SMDI(3)	MWC3X(7)	-	-	-	-	-

Nonrecurring Charges

USOC	Installation Charge	Service Connection Charge
	Per Plexar-II Station With SMDI(1)(2)	MWZ(6) \$2.05
Without SMDI(3)	MWC3X(7) 2.05	6.75(4)

- (1) Requires Simplified Message Desk Interface (SMDI). These rates are in addition to the rate and charges for SMDI.
- (2) This charge is applicable to SMDI arrangements when calls are forwarded to the message desk hunt group within the Plexar-II system, whether utilizing an external message desk provider or customer-provided message desk equipment.
- (3) This charge is applicable to Plexar-II arrangements subscribing to voice mail services provided by an external message desk where calls are forwarded outside the Plexar-II system. This one time charge allows the activation of an audible message waiting indication (intermittent dial tone) (audible and/or visual) per Plexar-II station. Additionally, rates and charges for "Call Forwarding/Busy Line Don't Answer Outside System" apply per Plexar-II station.
- (4) Not applicable if the feature is installed at the same time as the Plexar-system or station.
- (5) Not available to BRI Stations. For the message waiting indication feature available to BRI Stations see Visual Message Waiting Indication in Section 45.1.2,B. of this tariff.
- (CT) (6) USOCs-MWZ (audible and visual alerting), M9Z (audible signal only), M5Z (visual signal only), (AT) MW4PK (Business Sets (DMS100) only).
- (CT) (7) USOCs-MWC3X (audible and visual alerting), MW72X (audible signal only), MWS (visual signal (AT) only), or MW9PK (Business Sets (DMS100) only).

- (1) Message Desk stations must be in the same Plexar II group as the stations accessing the Message Desk. A data channel is required for this service and can be subscribed to by the Plexar II customer or the external voice mail provider. Apply the appropriate rates and charges as specified in Section 2 of the Private Line Service Tariff. Customer-provided modem, answering equipment, and Message Desk controller conforming to the technical specifications of the Telephone Company may be required.
- (2) Not applicable if the feature is installed at the same time as the Plexar-II system or station.
- (3) Applicable for customers wishing to subscribe to voice mail services provided by Enhanced Services Providers (ESPs) to activate an audible message waiting indication (intermittent dial tone) only. Rates and charges for features that provide the forwarding capability of calls to the ESPs also apply.

PLEXAR® -II SERVICE

45.4 RATES (Continued)

45.4.6 Optional Features (Continued)

Simplified Message Desk Interface (SMDI) (Continued)

Footnotes

- (1) Plexar-II stations in the SMDI message desk hunt group must be in the same Plexar-II system as the stations accessing the message desk.
- (2) SMDI arrangements utilizing an external message desk/voice mail provider require access links and a voice grade channel, subscribed to by the external message desk/voice mail provider from Section 2 of the Private Line Service Tariff. The external message desk provider must also provide a modem conforming to the technical standards of the Telephone Company. Access links carry the voice traffic between the Plexar-II system and the message desk/mail box. The data channel carries called party number information and the message waiting indicator. The Plexar-II message desk hunt group is connected to the access links in the central office.
- (3) SMDI arrangements utilizing customer-owned message desk/voice mail equipment, require the Plexar-II customer to additionally subscribe to a voice grade data channel from Section 2 of the Private Line Service Tariff. Customer-provided modem, answering equipment, and Message Desk controller conforming to the technical specifications of the Telephone Company are also required. The message desk Plexar-II hunt group provides the access links to the customer premises.
- (4) This rate provides for called party number delivery.
- (5) Not applicable if the feature is installed at the same time as the Plexar-II system.

The Plexar-II message desk hunt group is connected to the access links in the central office.
- (3) SMDI arrangements utilizing customer-owned message desk/voice mail equipment, require the Plexar-II customer to additionally subscribe to a voice grade data channel from Section 2 of the Private Line Service Tariff. Customer-provided modem, answering equipment, and Message Desk controller conforming to the technical specifications of the Telephone Company are also required. The message desk Plexar-II hunt group provides the access links to the customer premises.

(MT)(CT)

(AT)

- (4) This rate provides for called party number delivery.
- (5) This charge is applicable to SMDI arrangements when calls are forwarded to the message desk hunt group within the Plexar-II system, whether utilizing an external message desk provider or customer-provided message desk equipment. This provides for activation of an audible message waiting indication (intermittent dial tone). This charge is applicable to Plexar-II arrangements subscribing to voice mail services provided by an external message desk where calls are forwarded outside the Plexar-II system. This one time charge allows the activation of an audible message waiting indication (intermittent dial tone) per Plexar-II station. Additionally, rates and charges for "Call Forwarding/Busy Line Don't Answer Outside System" apply per Plexar-II station.
- (7) Not applicable if the feature is installed at the same time as the Plexar-II system.

EMERGENCY SERVICES NETWORK

46.1 SERVICE DESCRIPTION

- 46.1.1 Emergency Services Network (ESN) is designed to provide an alternative communications path for the exclusive use of hospitals, law enforcement organizations, fire departments (including Emergency Medical Service) and other officially designated disaster recovery organizations whose communications are considered to be critical in a state of emergency or disaster. ESN consists of a private switched network which permits calling among subscribers to this service. It does not allow access to the public switched telephone network.
- 46.1.2 Standard features include: direct dialing among subscribers of ESN, three-way calling, call hold, call forwarding (busy line/don't answer and variable), call waiting and call cancel call waiting, call hunting and essential line designation.

46.2 RULES AND REGULATIONS

- 46.2.1 The Telephone Company will provide, subject to the availability of facilities, the necessary facilities and switching equipment for the provision of the service.
- 46.2.2 ESN is offered pursuant to the rules, regulations, terms and conditions specified in Section 17 of this tariff.
- 46.2.3 ESN is furnished subject to all operating failures and interruptions including, but not limited to, equipment breakdowns, errors, defects, malfunctions and interruptions of service experienced in the telephone exchange system. The Telephone Company does not undertake to provide a higher level of service reliability and quality than the telephone exchange service being provided in the exchange where ESN is offered.
- 46.2.4 The rates charged for ESN do not contemplate, and the Telephone Company does not undertake inspection or constant monitoring to discover errors, defects and malfunctions in the service. The subscriber shall promptly notify the Telephone Company in the event the system is not functioning properly.
- 46.2.5 ESN is provided solely for the benefit of the ESN subscriber; and the provision of such service shall not be interpreted, construed or regarded as being for the benefit of, or creating any Telephone Company obligation toward or any right of action on behalf of, any third person or other legal entity.

EMERGENCY SERVICES NETWORK

46.2 RULES AND REGULATIONS-(Continued)

- 46.2.6 Each subscriber agrees to release, indemnify, defend and hold harmless the Telephone Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the subscriber or any other party or person, for any personal injury to or death of any person or persons, or for any infringement or invasion of the right of privacy, caused or claimed to have been caused directly or indirectly, by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of ESN, or by any services furnished by the Telephone Company in connection therewith, and which arise out of the negligence or other wrongful act of the Telephone Company, the subscriber, its user, agencies or municipalities, or the employees or agents of any of them.
- 46.2.7 Other service offerings requested by the subscriber and not detrimental to this service or other services of the Telephone Company, will be furnished in accordance with the applicable rates and regulations specified in the appropriate sections of this and other tariffs of the Company. These offerings will be in addition to the rate and charge specified in Paragraph 46.3, following.
- 46.2.8 Temporary suspension of service, as provided for in Section 22 of this tariff, is not applicable to ESN.
- 46.2.9 ESN is provided only within the St. Louis Metropolitan Calling Areas (MCA) 3 and 4 and the St. Louis metropolitan exchange. Subscriber requests for ESN from outside these areas may be provided, if agreed to by the Telephone Company, at additional charges for Foreign Exchange Service, as specified in Section 2 of the Private Line Service Tariff.
- 46.2.10 ESN does not provide emergency back-up facilities for local exchange service, redundant facilities, facilities routed other than normal or automatic restoration capabilities. Features such as these are beyond the scope of this service.
- 46.2.11 ESN shall not be shared or jointly used and resale is prohibited.
- 46.2.12 No directory listing will be provided with the telephone number(s) associated with ESN.

(CT) EASYOPTIONS® SERVICES

47.1 GENERAL REGULATIONS-(Continued)

47.1.8 When the Three-Way Calling, Call Forwarding, Call Forwarding - Busy Line, Call Forwarding - Don't Answer and Call Forwarding - Busy Line/Don't Answer, Selective Call Forwarding or Simultaneous Call Forwarding Services are activated, the transmission may vary depending on the distance and routing necessary; therefore, transmissions may not meet normal standards.

47.1.9 Other facilities and miscellaneous service offerings requested by customers and not detrimental to any service of the Telephone Company will be furnished in accordance with regulations and at the rates specified in the applicable sections of this Tariff.

(RT) 47.1.10 A monthly rate applies to all EasyOptions Services except for Call Trace. Call Trace is billed on a "per successful activation" basis. Auto Redial and Call Return are available on either a monthly rate basis or on a usage sensitive "charge per activation" basis.

47.1.11 In addition to the provisions of the General Exchange Tariff, Section 17, the Telephone Company shall not be liable for any loss or damages arising out of error, interruptions, defects, failure or malfunctions of EasyOptions Services or equipment. Damages arising out of such interruptions, defects, failures, or malfunctions of the services after the Telephone Company has been notified, and has had a reasonable time for repair, shall in no event exceed an amount equivalent to the charges made for the service affected for the period following notice from the customer until service is restored.

(AT) 47.1.12 Due to the uniqueness of Call Trace (e.g., the information gathered is provided directly to law enforcement, rather than the customer), when the unauthorized use of Call Trace results in disputed charges, charges will be adjusted as follows:

- A. During the first twelve months, following the effective date of this tariff, the company will provide a one-time (30 day period) adjustment to the customer for disputed charges.
- B. After the first year of service, the company will review each dispute on an individual case basis and may offer credit to satisfy the customer.

47.2 SERVICE DESCRIPTIONS

47.2.1 Call Waiting

Alerts a customer using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a code. Call Waiting is automatically reactivated for the next originating or terminating call.

(AT) 47.2.2 Call Waiting ID

When a person is already talking on the telephone and receives another phone call, Call Waiting ID service will allow for the display of the name and/or number of the new caller on the customer's CPE. This service allows the customer to decide if he wants to answer the new incoming call. Call Waiting ID is offered subject to the following limitations:

- A. Customers must also subscribe to Call Waiting and Caller ID Name and Number.
- B. Customers are responsible for furnishing their own compatible CPE, which should include the functionality necessary to execute the Call Waiting ID capability.
- C. Available only where central office facilities permit.

47.2.3 Call Waiting ID Options

- A. Allows Call Waiting ID customers to identify the name and/or number of an incoming caller when they are already talking on the telephone and receive another phone call. Where facilities permit, Call Waiting ID Options service will display the name and/or number of the person calling on the customer's Customer Premise Equipment (CPE). Using this information, the customer may then decide how they want to handle the second caller from a menu choice known as Disposition Codes. The Disposition Codes appear on the customer's CPE as menu options. The available options for the disposition of the second caller include:

1. Talk to the second caller
2. Provide the caller with a busy announcement
3. Forward the call to a "wait a minute" or "call me back" message
4. Route the new call to a voice mailbox
5. Allow the caller to join the conversation in progress

Missouri
Public Service Commission

Alerts a customer using his telephone that another caller is trying to reach him. Where facilities permit, Call Waiting subscribers may deactivate Call Waiting for the duration of one call by dialing a code. Call Waiting is automatically reactivated for the next originating or terminating call.

47.2.2 Call Forwarding

Enables the customer to transfer all incoming calls to another telephone number within the exchange or on the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between his Call Forwarding-equipped telephone and the telephone to which the call is being forwarded.

CANCELLED

47.2.3 Three-Way Calling

Enables a customer to add a third party to an existing call without operator assistance, thereby establishing a three-way conversation.

FEB 01 1999

By ISRS #3
Missouri Public Service Commission
MISSOURI

47.2.4 Speed Calling

Enables a customer to place calls to other telephone numbers by dialing a code rather than the complete telephone number. The 8-code capacity and/or the 30-code capacity may be provided on the same line; however, duplicate code capacities may not be provided. The combination of code capacities is not available on multiline hunting lines.(1)

This service was classified as competitive effective May 14, 1993.

47.2.5 Call Return

Enables the customer to automatically redial the telephone number of the last incoming call. If that telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of Call Return, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

(1) Speed Calling 8 (business) and Speed Calling 30 (residence) are available only to existing customers at existing locations.

EASYOPTIONSsm SERVICES

47.2 SERVICE DESCRIPTIONS-(Continued)

47.2.6 Auto Redial

Enables the customer to automatically redial the last outgoing telephone number. When the recalled telephone number is busy, the Telephone Company's equipment will keep trying to call the number being redialed for a maximum of thirty (30) minutes, beginning with the customer's activation of Auto Redial, in an attempt to establish the call. The customer will be signaled with a distinctive ring when the call can be completed.

47.2.7 Priority Call

Provides the customer with a distinctive ring or Call Waiting tone (if the customer has subscribed to Call Waiting), when the customer is called from preselected telephone numbers. The customer can construct or modify the telephone number screening list by dialing a unique code. The Telephone Company's equipment will screen incoming calls against the screening list and provide a distinctive ring for telephone numbers on the list.

47.2.8 Call Blocker

Enables the customer to block calls from preselected telephone numbers and/or the last incoming call (without knowing the number). To block specified telephone numbers, the customer builds a screening list. To block an unknown number after receiving a call, the customer enters a code to add the number to their screening list. If facilities are unavailable to provide incoming call screening via the customer's list, standard call completion will occur. Customers whose telephone numbers are blocked are directed to a Telephone Company recorded announcement.

47.2.9 Call Trace

Enables the customer to initiate a trace of the origin of the last incoming call by dialing an activation code. If a trace is successful, the Telephone Company's equipment will record the incoming call detail (not the conversation). The results of the trace will not be provided to the customer directly. For further action to be taken, the customer should follow the instructions received after a successful trace activation.

47.2.10 Selective Call Forwarding

Enables the customer to forward incoming calls from preselected telephone numbers to another telephone number. The customer can construct or modify a telephone number screening list by dialing an activation code. The Telephone Company equipment will screen incoming calls against the customer's list and forward only those telephone numbers on the list. Selective Call Forwarding customers are responsible for the payment of charges (e.g. toll charges) for each call between their line and the telephone numbers to which the call is being forwarded.

47.2.11 Simultaneous Call Forwarding

(CT)
|
(CT)

Provides the customer that also subscribes to an appropriate call forwarding service with the ability to forward multiple incoming calls simultaneously to another telephone number designated by the customer. The line/trunks at the Simultaneous Call Forwarding customer's terminating location must equal or exceed the aggregated number of potential originating calls from all customer locations. The Simultaneous Call Forwarding customer is responsible for the payment of charges (e.g., toll charges) for each call between the Simultaneous Call Forwarding equipped telephone and the line to which the call is being forwarded. This service cannot be used to avoid toll.

47.2.12 Call Forwarding - Busy Line

Allows incoming calls that encounter a busy condition to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

47.2.13 Call Forwarding - Don't Answer

Allows incoming calls which are not answered after a predetermined number of rings to be automatically forwarded to a predesignated telephone number within the exchange or the Long Distance Telecommunications Network. The Call Forwarding customer is responsible for the payment of charges (e.g. toll charges) for each call between the Call Forwarding equipped telephone line and the line to which the call is being forwarded.

47.2 SERVICE DESCRIPTIONS-(Continued)

47.2.16 Personalized Ringsm

- A. Allows a customer to establish up to three telephone numbers on the same local exchange access line and distinguish calls to each number by a distinctive ring. The billing telephone number is called the Primary Number and additional associated telephone numbers are called Personalized Ring Numbers. A customer may subscribe to a maximum of two Personalized Ring Numbers. The standard ringing pattern is provided for the Primary Number. Distinctive ringing is provided for each Personalized Ring Number.
- B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:
1. The Primary number is the telephone number associated with the access line and therefore is allowed direct-dialed Directory Assistance calls in accordance with the Directory Services section of this Tariff. No additional call allowances are provided with Personalized Ring.
 2. A directory listing is provided for each telephone number associated with Personalized Ring Service. NonListed Service and NonPublished Service is available for all telephone numbers associated with Personalized Ring. NonListed Service rates and NonPublished Service rates shown in the Directory Services section of this tariff apply to the Primary number only. There is no charge for NonListed Service or NonPublished Service furnished for Personalized Ring numbers.
 3. Additional listing rates and Residence Signature Listing rates shown in the Directory Services section of this Tariff apply to Primary and Personalized Ring numbers.
 4. If a customer requests a change in the listings for telephone numbers associated with Personalized Ring Service, the Directory Listings Service Connection Charge specified in the Directory Services section of this tariff is applicable.
 5. Some customer provided terminal equipment may not recognize the distinctive ringing patterns associated with this service.

47.2 SERVICE DESCRIPTIONS (cont'd)

47.2.18 Caller ID Service

A. Caller ID Service is the general category of the following services which assist customers in the management of incoming calls:

- 1. Calling Number Delivery - Provides for the transmission of Calling Party Number (CPN) to the customer's access line(s). When the equipped line is on-hook, the CPN is transmitted across the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.
- 2. Calling Name Delivery - Enables the terminating customer to identify the calling party by a displayed name before the call is answered. The displayed name is the name associated with the CPN. Calling Name Delivery subscribers must provide and connect their own compatible CPE to process the Calling Name Delivery transmission. Calling Name may not be delivered when the calling party's name information is stored in a third-party database.

(AT)
(AT)

B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:

- 1. Any Southwestern Bell Telephone calling party may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.
- 2. If the calling party activates blocking, the name and/or number will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of their name and telephone number.
- 3. Line blocking for the delivery of the calling name and/or number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with Southwestern Bell Telephone a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling name and/or number will not be transmitted from a line equipped with this capability

Service Commission

- A. Caller ID Service is the general category of the following services which assist customers in the management of incoming calls:
 - 1. Calling Number Delivery - Provides for the transmission of Calling Party Number (CPN) to the customer's access line(s). When the equipped line is on-hook, the CPN is transmitted across the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.
 - 2. Calling Name Delivery - Enables the terminating customer to identify the calling party by a displayed name before the call is answered. The displayed name is the name associated with the CPN. Calling Name Delivery subscribers must provide and connect their own compatible CPE to process the Calling Name Delivery transmission.
- B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:
 - 1. Any Southwestern Bell Telephone calling party may prevent the delivery of their calling name and/or number to the called party by dialing an access code (*67 on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

MISSOURI
Public Service Commission

A. Provides for the transmission of CPN to the customer's access line(s). When the equipped line is on-hook, the CPN is transmitted across the line during the silent interval between the first and second ring. Caller ID customers must provide and connect their own compatible customer premises equipment (CPE) to process the CPN transmission.

CANCELLED

B. In addition to the regulations provided in Paragraph 47.1, the following additional regulations apply:

DEC 1 1994

1. Any Southwestern Bell Telephone calling party may prevent the delivery of CPN to the called party by dialing an access code (on their Touch-Tone pad or 1167 from a rotary telephone) immediately prior to placing a call. The access code will activate per call blocking, which is available at no charge.

EX-107 R.S.#9
Public Service Commission
Missouri

If the calling party activates blocking, the CPN will not be transmitted across the line to the called party. Instead, Caller ID customers will receive an anonymous indicator. This anonymous indicator notifies the Caller ID customer that the calling party has elected to block the delivery of the telephone number.

Line blocking for the delivery of the calling number is available upon request, at no charge, to the following entities and their employees/volunteers, for lines over which the official business of the agency is conducted including those at the residences of employees/volunteers, where an executive officer of the agency registers with Southwestern Bell Telephone a need for blocking: (a) private, nonprofit, tax-exempt, domestic violence intervention agencies and (b) federal, state and local law enforcement agencies. The calling number will not be transmitted from a line equipped with this capability.

The blocking of the CPN will not be provided on calls originating from Public, Semi-Public and Customer-Owned Pay Telephone Services.

2. Caller ID Service will be provided in connection with individual and multiline residence and business lines, where facilities permit. Party line, PBX trunk, Centrex, Plexar, Public and Semi-Public Telephone Services are excluded from subscribing to this tariff offering.(1)

47.2.18 Caller ID Service-(Continued)

By 44RS11
Public Service Commission
MISSOURI

B. -(Continued)

- 10. Caller ID Service will be transmitted and displayed for calls made from another central office only if it is linked by appropriate facilities.
- 11. Caller ID Service information may not be sold or given to another party without the caller's consent. Calling name and number information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer from the name and number delivery services subscriber. This applies if the name and number delivery service subscriber has an existing relationship with the customer. Caller ID customers failing to comply with any of these conditions will have their service terminated.
- 12. In addition to the other provisions specified in this section and Section 17, the Telephone Company shall not be liable for any claims for damages caused or claimed to have been caused, directly or indirectly, by the transmission to a Caller ID customer of a name or telephone number which the calling party or the Caller ID customer finds erroneous, offensive, embarrassing, or misleading for any reason, including but not limited to the way in which the calling party's name has been abbreviated.
- 13. Caller ID Service is required for the provision of Call Waiting ID and Call Waiting ID Options as described in sections 47.2.2 and 47.2.3.

(AT)

47.2.19 Anonymous Call Rejection (ACR)

Anonymous Call Rejection allows customers to automatically reject calls that have been blocked or marked anonymous by the calling party. With this service, the customer's telephone (called party) will not ring and they will receive nothing to alert them that a call has been rejected. The call will be routed to a denial announcement and subsequently terminated.

47.3 APPLICATION OF RATES AND CHARGES

MISSOURI
Public Service Commission

47.3.1 The Telephone Company may, during certain promotional periods, waive or discount the Service & Equipment Charge and/or monthly rates as provided for in Section 17 of the General Exchange Tariff.

47.3.2 The rates are in addition to the established rates for the associated services.

47.3.3 Moves and Changes

- A. The Service and Equipment Charge will apply per line when changing Speed Calling from the 8-code capacity to the 30-code capacity, or vice versa.
- B. A Service and Equipment Charge will apply per line when the Speed Calling codes are changed by the Telephone Company at the customer's request.
- C. Relative to Call Forwarding - Busy Line and Call Forwarding - Don't Answer, the Service and Equipment Charge will apply per line when the forwarded number and/or the customer designated number of rings is changed at the customer's request.
- D. A Service and Equipment Charge will apply per line when the customer's telephone number is changed for the customer's convenience.
- E. The Service and Equipment Charge does not apply for outside moves of service if there is no telephone number change.

47.3.4 When a single service is ordered, the "first" monthly service rate applies. When multiple services are ordered, one "first" monthly service rate applies and the "additional" monthly services rate applies to the remaining services. The services are listed in priority order, (i.e., if multiple services are ordered, they will be priced in the sequence order as listed in Paragraph 47.4.)

47.2.20 Call Transfer Disconnect

- A. Call Transfer Disconnect service enables business customers to add another line to an established call creating a three-way call. The Call Transfer Disconnect subscriber may disconnect from the three-way call and allow the other two parties to continue talking, thereby freeing their line for the purpose of originating another call.
- B. In addition to the regulations provided in paragraph 47.1, the following additional regulations apply:
 - 1. Call Transfer Disconnect is not be available to residence customers, Foreign Exchange Service or Foreign Serving Office.
 - 2. The Call Transfer Disconnect feature cannot be used to expand a calling scope and is therefore not available to customers subscribing to an optional flat rate local, toll, or expanded calling plan.
 - 3. Call Transfer Disconnect customers will be restricted from making international calls due to toll fraud concerns. Customers who contact the business office with a request to make international calls will be allowed to unblock their line (for international) calls provided they meet the following criteria:
 - Established service on that line for at least three months, and
 - Have good payment habits
 - 4. Call Transfer Disconnect customers are responsible for any toll or other charges associated with calls they originate. They may not resell this service.

47.2 SERVICE DESCRIPTIONS – (Continued))

(CT) 47.3.21 Privacy Manager

A. Privacy Manager enables a customer to appropriately handle incoming calls that have been identified as either “anonymous”, “out-of-area”, “unavailable”, or “private” before their telephone rings. Incoming calls are intercepted and a recording is played informing the caller that the number they have dialed does not accept calls from unidentified telephone numbers. At the tone, the caller will be asked to record their name or the company they represent. If the caller complies, the call will be completed. If the caller chooses not to comply, the call will be disconnected.

B. After the caller identifies who they are, the customer’s telephone will ring and their Caller ID

(CT) equipment will register a “Privacy Manager” message to indicate they are receiving a screened call. The customer will then hear a recording of the caller’s name (or the name of the company they represent). After the caller is identified, the customer may elect one of the following options:

1. Accept the call
2. Decline the call by playing a pre-recorded announcement
3. Decline a sales/telemarketing call by playing a pre-recorded announcement which requests that the solicitors remove the customer’s name from their lists and not call again.
4. Send the caller to CallNotes[®], Voice Mail, or an answering machine

If no action is taken, the call will be directly forwarded to the customer’s voice mail or answering service. If the customer does not have an answering service Call Forwarding-Busy Line/Don’t

(CT) Answer, then Privacy Manager will intercept the call after the sixth ring and advise the caller that the customer is unavailable.

C. This service is offered subject to the following conditions:

1. The customer must subscribe to Calling Name Delivery and Calling Number Delivery service.
 2. The customer’s line must be equipped with Touch-Tone
 3. In addition to the limitations listed in paragraph 47.1, this service is not available with Prepaid Home Service, Private Branch Exchange, Hotel-Motel, ISDN PRI, Multiline Hunting, Series Completion, Reserve Line, and certain Advanced Intelligent Network Services (e.g., Intellinumber, Positive ID and Wide Area Networking Service Option II.

(CT) 4. Privacy Manager service and Anonymous Call Rejection are mutually exclusive services and cannot be provisioned together on the same line.

47.2.23 Distinctive Ring

A. Description

Distinctive Ring permits a residence customer to designate a distinctive ring on up to 5 telephone numbers from which calls have been forwarded. The customer will designate the distinctive ring telephone numbers on the initial service order. The customer may designate distinctive ring for calls forwarded from a cellular service. Forwarded calls will activate the distinctive ring pattern, while retaining any characteristics present with the original incoming call, such as Caller Name and Number.

B. Service Interactions

1. Privacy Manager and Anonymous Call Rejection will take priority over Distinctive Ring on lines equipped with these features.
2. If the forwarded call is "unknown" and the customer has Privacy Manager, then Privacy Manager will take priority and intercept the call, the call will be completed without the distinctive ring tone.
3. If the customer subscribes to Call Waiting, a distinctive ring tone is heard on the forwarded call.
4. The customer must call the Business office to change the designated Distinctive Ring number.

47.3.2 The rates are in addition to the established rates for the associated services.

47.3.3 Moves and Changes

- A. The Service and Equipment Charge will apply per line when changing Speed Calling from the 8-code capacity to the 30-code capacity, or vice versa.
- B. A Service and Equipment Charge will apply per line when the Speed Calling codes are changed by the Telephone Company at the customer's request.
- C. Relative to Call Forwarding - Busy Line and Call Forwarding - Don't Answer, the Service and Equipment Charge will apply per line when the forwarded number and/or the customer designated number of rings is changed at the customer's request.
- D. A Service and Equipment Charge will apply per line when the customer's telephone number is changed for the customer's convenience.
- E. The Service and Equipment Charge does not apply for outside moves of service if there is no telephone number change.

47.3.4 When a single service is ordered, the "first" monthly service rate applies. When multiple services are ordered, one "first" monthly service rate applies and the "additional" monthly services rate applies to the remaining services. The services are listed in priority order, (i.e , if multiple services are ordered, they will be priced in the sequence order as listed in Paragraph 47.4.)

47.3 APPLICATIONS OF RATES AND CHARGES

47.3.5 The Telephone Company reserves the right to periodically provide certain EasyOptions services without charge to customers in return for their participation on a consumer panel. The consumer panel will be established for the purpose of gathering market research. The Service and Equipment Charges and recurring monthly rates will be waived only for the EasyOptions services designated by the Telephone Company as pertinent to the research and only for the duration of the consumer panel and the customer's participation on that panel. As a condition to participation on the consumer panel, customers will be obligated to provide specific feedback (e.g., respond to surveys, participate in focus groups, etc.) concerning the services to the Telephone Company. Panel participants will be selected by the Company to represent a cross section of Missouri customers.

(CT)

47.3.6 Business customers who order Call Forwarding-Busy Line, Call Forwarding-Don't Answer, Call Forwarding-Busy Line/Don't Answer and/or Customer Alerting Enablement between September 1, 1999, and October 31, 1999, will receive a waiver of the Service and Equipment Charge. Customers already subscribing to these services are not eligible for this promotion.

47.3 APPLICATION OF RATES AND CHARGES - (Continued)

REC'D MAY 26 1999

47.3.10 Any Promotion

- (RT) Southwestern Bell Telephone Company may offer promotions for thirty days or longer in Southwestern Bell Telephone Company's exchanges for any EasyOptions service. Southwestern Bell Telephone Company may offer promotions consisting of (1) a total waiver of service and equipment charges; (2) a partial waiver of service and equipment charges; (3) a total waiver of the monthly rate; (4) a partial waiver of the monthly rate; (5) a credit or coupon up to and including \$25; or (6) any combination of (1) through (5). In certain instances, the customer may be required to retain service for a specific period in order to qualify for the promotion. Southwestern Bell Telephone Company will provide written notice to the Commission 10 days prior to the beginning of each promotion period identifying the exchanges or LATAs within which the promotions will be offered, the beginning and expiration date of each promotion, applicability to residential or business customers, and the specific waiver, credit or coupon offered. The written notice will be filed in an appendix in Section 47 of Southwestern Bell Telephone Company's General Exchange tariff.
- (AT) Southwestern Bell Telephone Company will not offer a promotion where the projected revenues are not expected to cover long run incremental costs. Subject to the availability of facilities, all similarly situated Missouri residential or business customers will be offered the same opportunity to take advantage of the same promotions.

47.3.10 Any Promotion

MO. PUBLIC SERVICE COMM

For a period of one year following the effective date of this tariff, Southwestern Bell Telephone Company may offer promotions for thirty days or longer in Southwestern Bell Telephone Company's exchanges for any EasyOptions service. Southwestern Bell Telephone Company may offer promotions consisting of (1) a total waiver of service and equipment charges; (2) a partial waiver of service and equipment charges; (3) a total waiver of the monthly rate; (4) a partial waiver of the monthly rate; (5) a credit or coupon up to and including \$25; or (6) any combination of (1) through (5). In certain instances, the customer may be required to retain service for a specific period. Southwestern Bell Telephone Company will provide written notice to the Commission 10 days prior to the beginning of each promotion period identifying the exchanges or LATAs within which the promotions will be offered, the beginning and expiration date of each promotion, applicability to residential or business customers, and the specific waiver, credit or coupon offered. The written notice will be filed in an appendix in Section 47 of Southwestern Bell Telephone Company's General Exchange tariff. Southwestern Bell Telephone Company will not offer a promotion that does not generate sufficient projected revenues to cover long run incremental costs.

This promotion methodology will be offered on a one year trial basis. If facilities permit, all Missouri residential or business customers will be offered the same opportunity to take advantage of the same promotions during this trial period.

47.3 APPLICATIONS OF RATES AND CHARGES-(Continued)

47.3.12 This promotion offers business customers an incentive to continue their Caller ID subscription by providing them with a one-time Caller ID credit of \$10.00 when they agree to retain their Caller ID service for an additional three months. Only current Caller ID subscribers calling in to disconnect their service will be eligible for this promotion. If the customer accepts the promotion, the customer must retain the service for three months before the credit will apply. This promotional offer is available from November 8, 1999 through December 31, 1999. The credit will apply to the customer's bill three months after they accept this offer.

47.3.13 Residential customers who order Anonymous Call Rejection between January 3, 2000, and February 29, 2000, will receive a credit equal to the first month's billing of the recurring rate. In addition, they will receive a waiver of the Service and Equipment charge. Customers already subscribing to Anonymous Call Rejection are not eligible for the promotion.

47.3.14 Residential customers who order Call Waiting ID with or without Call Waiting ID Options between January 3, 2000, and February 29, 2000, will receive a credit equal to the first month's billing of the recurring rate. In addition, they will also receive a waiver of the Service and Equipment charge. Customers already subscribing to these services are not eligible for this promotion.

47.3.15 Business customers who order Call Forwarding-Busy Line; Call Forwarding-Don't Answer or Call Forwarding-Busy Line/Don't Answer between January 1, 2000, and March 31, 2000, will receive a credit equal to the first month's billing of the recurring rate. Customers already subscribing to any of these services are not eligible for these promotions.

(AT) 47.3.16 Residence customers who order Call Forwarding-Busy Line, Call Forwarding-Don't Answer, or Call Forwarding Busy Line/Don't Answer during this promotional period and are returning to SWBT after receiving service from another service provider or have received a competitive offer from another provider and are contacting SWBT to disconnect their service will receive a credit equal to three month's billing of the recurring rate and a waiver of the service and equipment charges.

There are no retention requirements associated with this offer.

(AT) This promotion is available from December 20, 2000 through June 30, 2001.

MISSOURI

Public Service Commission

47.4 RATES AND CHARGES--(Continued)

- (1) The Maximum Service and Equipment Charge per line is \$7.75 and \$14.50 for residential and business, respectively, except when the Simultaneous Call Forwarding service is established.
- (2) This rate is inclusive of the Cancel Call Waiting option where available.
- (3) Speed Calling 8 (business) and Speed Calling 30 (residence) are available only to existing customers at existing locations.
- (4) If Personalized Ring is ordered at the same time as another EasyOptions service(s), the higher Service and Equipment Charge is applied.
- (5) Only one Service and Equipment Charge applies when more than one dependent DN is ordered or changed simultaneously.
- (6) Applies in addition to the Service and Equipment Charge for other EasyOptions services.
- (7) In addition, a Complex Installation/Move Charge of \$12.00 applies.
- (8) In addition, a Service Establishment Charge of \$2.00 applies.
- (9) For customers displaced by the major river flooding of 1994, the Call Forwarding feature may be utilized as an alternative means for providing the customer telephone service on a temporary basis at an interim location. Under this arrangement, the recurring and nonrecurring charges are not applicable. This provision expires on December 31, 1994.

47.4 RATES AND CHARGES (cont'd)

- (1) The Maximum Service and Equipment Charge per line is \$7.75 and \$15.65 for residential and business, respectively, except when the Simultaneous Call Forwarding service is established.
- (2) This rate is inclusive of the Cancel Call Waiting option where available.
- (3) Speed Calling 8 (business) and Speed Calling 30 (residence) are available only to existing customers at existing locations.
- (4) If Personalized Ring is ordered at the same time as another EasyOptions® service(s), the higher Service and Equipment Charge is applied.
- (5) Only one Service and Equipment Charge applies when more than one dependent DN is ordered or changed simultaneously.
- (6) Applies in addition to the Service and Equipment Charge for other EasyOptions® services.
- (7) In addition, a Complex Installation/Move Charge of \$12.00 applies.
- (8) Upon request, this service can be removed from a customer's telephone line.
- (9) Obsolete to existing customers at existing locations.
- (10) Blocking of this service is available free of charge upon request.
- (11) In addition to the limitations described in paragraph 47.1.4, customers subscribing to ISDN lines, multi-party lines, PBX trunks (including hotel/motel service), lines equipped with three-way calling on a monthly subscription basis, will be restricted from activating Usage Sensitive Three-Way Calling. Three-Way calls for less than eighteen seconds will not be billed.
- (12) The maximum Service and Equipment Charge per line is \$7.75 for residence and \$15.65 for business, respectively, except when the service is ordered in conjunction with The WORKS®, The BASICS® or BizSaver®. If the service is ordered in conjunction with The WORKS®, The BASICS® or BizSaver®, the Service and Equipment Charges are waived.
- (13) This rate applies only when the subscriber also has The WORKS®.
- (14) This rate applies only when the subscriber also has The BASICS®.
- (15) This rate applies only when the subscriber also has The WORKS® or The BASICS®.
- (16) This service will not be available for installation before December 7, 1999.
- (17) Applies to the Call Transfer Disconnect rate when ordered with The WORKS®.
- (18) The Service and Equipment Charge is waived for Call Transfer Disconnect when the customer subscribes to The WORKS® or The BASICS®.
- (19) Customers ordering Call Forwarding/Busy Line, Call Forwarding/Don't Answer, or Call Forwarding/Busy Line/Don't Answer will not be billed the Service and Equipment Charge if their line is also equipped with a package of services.

FEB 24 1999

47.4 RATES AND CHARGES - (Continued)

MO. PUBLIC SERVICE COMMISSION

- (1) The Maximum Service and Equipment Charge per line is \$7.75 and \$14.50 for residential and business, respectively, except when the Simultaneous Call Forwarding service is established.
- (2) This rate is inclusive of the Cancel Call Waiting option where available.
- (3) Speed Calling 8 (business) and Speed Calling 30 (residence) are available only to existing customers at existing locations.
- (4) If Personalized Ring is ordered at the same time as another EasyOptions service(s), the higher Service and Equipment Charge is applied.
- (5) Only one Service and Equipment Charge applies when more than one dependent DN is ordered or changed simultaneously.
- (6) Applies in addition to the Service and Equipment Charge for other EasyOptions services.
- (7) In addition, a Complex Installation/Move Charge of \$12.00 applies.
- (8) Upon request, this service can be removed from a customer's telephone line.
- (9) Obsolete to existing customers at existing locations.
- (10) Blocking of this service is available free of charge upon request.
- (11) In addition to the limitations described in paragraph 47.1.4, customers subscribing to ISDN lines, multi-party lines, PBX trunks (including hotel/motel service), lines equipped with three-way calling on a monthly subscription basis, will be restricted from activating Usage Sensitive Three-Way Calling. Three-Way calls for less than eighteen seconds will not be billed.
- (12) The maximum Service and Equipment Charge per line is \$7.75 for residence and \$14.50 for business, respectively, except when the service is ordered in conjunction with The WORKS®, The BASICSsm or BizSaver. If the service is ordered in conjunction with The WORKS, The BASICS or BizSaver, the Service and Equipment Charges are waived.
- (13) This discounted rate applies only when purchased in addition to The WORKS or The BASICS.
