## ORIGINAL ADOPTION NOTICE SHEET

ADOPTION NOTICE

RECEIVED

MAR 16 1993

GTE MIDWEST INCORPORATEDGENERAL and LOCAL EXCHANGE TARIFFMISSOURI  
Public Service Commission

GTE MIDWEST INCORPORATED, a Delaware Corporation, hereby adopts, ratifies, and makes its own, in every respect as if the same had been originally filed by it, all schedules, rules, notices, concurrences, schedule agreements, divisions, authorities or other instruments whatsoever, filed with the Public Service Commission, State of Missouri, by Contel of Missouri, Inc. d/b/a GTE Missouri prior to April 1, 1993, the beginning of its possession.

By this notice it also adopts and ratifies all supplements or amendments to any of the above schedules, etc., which Contel of Missouri, Inc. d/b/a GTE Missouri has heretofore filed with said Commission.

This Tariff applies to the General and Local Exchange Services of GTE MIDWEST INCORPORATED, hereinafter referred to as the Company for the following Missouri exchanges:

|                     |                  |                 |                |
|---------------------|------------------|-----------------|----------------|
| Alton               | Dora             | Jonesburg       | Revere         |
| Annapolis           | Drexel           | Kimberling City | Roby           |

GENERAL REGULATIONS

FEB 1 1989

A. APPLICATION

MISSOURI  
 Public Service Commission

1. General

- a. The regulations set forth herein apply to intrastate services and facilities furnished within the state of Missouri by Contel of Missouri, Inc., hereinafter referred to as the Company, subject to the jurisdiction of the Missouri Public Service Commission.
- b. The regulations or conditions contained in the Local Exchange Tariff shall govern in the event of a conflict between these General Regulations and any conditions applicable to the General Exchange Tariffs and the Local Exchange Tariffs.
- c. These tariffs cancel and supersede Contel of Missouri, Inc. PSC MO. NO. 3 and Webster County Telephone Company PSC MO. NO. 7 tariffs.
- d. When services and facilities are provided in part by the Company and in part by other companies, the regulations of the Company apply to that portion of the service or facilities furnished by it.

## B. OBLIGATION AND LIABILITY OF THE COMPANY

MISSOURI  
Public Service Commission

## 1. Furnishing of Service

- a. The Company's obligation to furnish service is dependent upon its ability to secure and retain, without unreasonable expense, suitable facilities and rights for the construction and maintenance of the necessary circuits and equipment.
- b. Where special requirements of the customer involve unusual construction or installation, the customer may be required to pay additional costs as provided elsewhere in this Tariff.

## 2. Transmitting Messages

The Company does not undertake to transmit messages but offers the use of its facilities, where available, for communication between parties subject to the terms and conditions specified in these Tariffs.

## 3. Maintenance and Repair

- a. All costs associated with the maintenance and repair of services furnished by the Company will be borne by the Company, except as specified elsewhere in this Tariff.
- b. The Company will be reimbursed for any loss or damage to its facilities on the customer's premises resulting from intentional destruction or any other cause, except from fire or unavoidable accidents.
- c. Access to customer's premises, at any reasonable hour, will be given to representatives of the Company for the purpose of inspecting, repairing, testing or removing any part of the Company's facilities.

B. OBLIGATION AND LIABILITY OF THE COMPANY (Continued)

MISSOURI  
 Public Service Commission

4. Liability

- a. The liability of the Company for damages arising out of mistakes, omissions, interruptions, delays or errors or defects in transmission occurring in the course of furnishing service and not caused by negligence of the customer shall in no event exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistakes, omissions, interruptions, delays or errors or defects in transmission occur in excess of 48 hours after notification has been made. (except as noted under 4., c. following). (N)
- b. The customer indemnifies and saves the Company harmless against the following:
  - 1) Acts or omissions of other companies when their facilities are used in connection with the Company's facilities to provide service.
  - 2) Any defacement or damage to the customer's premises, resulting from the existence of the Company's facilities (demarcation point and drop) on such premises, or from the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Company or its employees.
  - 3) Any accident, injury or death occasioned by its equipment or facilities when such is not due to negligence of the Company.
  - 4) Claims for libel, slander or infringement of copyright arising from the material transmitted or recorded over its facilities; claims for infringement of patents arising from combining with, or using in connection with, facilities of the Company, apparatus and systems of the customer; and all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.
  - 5) Liability for failure to provide service.
  - 6) Liability for telephone directories is covered elsewhere in this section under "Directories". (N)

## B. OBLIGATION AND LIABILITY OF THE COMPANY (Continued)

MISSOURI  
Public Service Commission

## 4. Liability (Continued)

## c. Service Guarantee Credit

- 1) The Company will provide credit for one month of local exchange service should the customer experience an "out of service" condition on the local access line over 24 hours from the time the "out of service" condition is reported to or discovered by the Company. The credit will be applicable to all single-line, business and residence service.
- 2) The credit will be applicable to one month's billing for all local exchange service charges.
- 3) For each repeat occurrence of a local access line "out of service" condition lasting over 24 hours from the time the outage is reported or discovered by the Company, the customer will receive an additional one month's credit.
- 4) The credit will not apply to "out of service" conditions resulting from the willful neglect, misuse or abuse by the customer. The credit will not apply to "out of service" conditions where the outage is in the customer's inside wire or customer's premises equipment. This credit will not apply to "out of service" conditions resulting from natural disasters, or circumstances beyond the control and knowledge of the Company. This credit also will not apply to "out of service" conditions where service has been temporarily or permanently discontinued for nonpayment of bills.
- 5) Service Guarantee Program Specifics

The following criteria will be used in the administration of Contels Service Guarantee Program:

- a) Any customer experiencing an out-of-service condition that is not restored within 24 hours will be credited with one month's exchange service.
- b) Out-of-service is defined as not being able to receive calls OR not being able to make calls.

GENERAL REGULATIONS

FEB 1 1989

## C. PROVISION OF EQUIPMENT

MISSOURI

1. All equipment necessary for the provision of a given service will be furnished and owned by the Company except as provided elsewhere in this Tariff. The customer may be required to provide suitable housing or other protective measures where equipment is to be installed in locations exposed to weather or other hazards. Commercial power will be furnished by the customer at a suitable outlet when and where required.
2. As mandated in F.C.C. Docket 79-105 and the Missouri Public Service Commission Case No. TO-85-267, the Company will not install or maintain Inside Wire on a regulated basis after January 1, 1987, except for Company Owned Public Access Coin Sets.
3. Equipment not owned by the Company may be attached to the facilities of the Company as provided in Section 7 of this Tariff. In case unauthorized attachment or connection is made, the Company shall have the right to discontinue the service.
4. The provisions of the preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company (such as a device to obtain quietness or privacy), provided any such device so used does not:
  - a. Endanger the safety of Company employees or the public.
  - b. Damage, require change in or alteration of, or involve direct electrical connection to the equipment or other facilities of the Company, unless as provided for elsewhere in this Tariff.
  - c. Interfere with the proper functioning of such equipment or facilities.
  - d. Impair the operation of the communication system.
  - e. Otherwise injure the public in its use of the Company's facilities.
5. Except as otherwise provided in this Tariff, nothing herein shall be construed to permit the use of a recording device or of a device to interconnect any line or channel of the Company with any other communication line or channel of the Company or of any other person.
6. Facilities of an electric power company or oil, oil products or natural gas pipe line company, or railroad company, provided primarily to communicate with points located along a right-of-way (including premises of such company anywhere in cities, towns or villages along the right-of-way) owned or controlled by such company and extending between or beyond exchange areas of the Company, may be connected with Private Branch Exchange, station or private-line facilities furnished by the Company subject to the conditions stated in Sections 5, 7, and 8.

GENERAL REGULATIONS

FEB 1 1989

## D. USE OF SERVICE AND FACILITIES

MISSOURI  
Public Service Commission

## 1. Use of Customer Service

Customer telephone service, as distinguished from public and coin box telephone service, is furnished only for use by the customer, his family, employees or business associates, or persons residing in the customer's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a customer's residential premises. The Company has the right to refuse to install customer service or to permit such service to remain on premises of a public or semi-public character when the telephone set is so located that the public in general, or patrons of the customer may make use of the service. At such locations, however, customer service may be installed provided the instrument is so located that it is not accessible for public use.

## 2. Use of Party-Line Service

Applications for party-line service are accepted by the Company with the understanding that each customer will so use the service as not to interfere with an equitable, proportionate use of the service by the other customers on the same line. When the duration or number of messages sent or received by a party-line customer is so great as to prevent an equitable, proportionate use of the line by other customers on the line, the Company shall have the right to require the customer to contract for a higher grade of service or to discontinue the service of the customer in question. The Company reserves the right to limit the continuous use of a party line for a local message to five minutes.

## 3. Telephone Numbers

The customer has no property right in the telephone number or any right to continuance of service from any specific central office, and the Company may assign or change the telephone number, the central office designation, or both, as is necessary in the conduct of its business.

## 4. Alterations

The customer agrees to notify the Company promptly whenever alterations or new construction on premises owned or leased by him necessitate changes in the Company's wiring or equipment; the customer agrees to pay the Company's current charges for such changes.

MISSOURI  
Public Service Commission

## 5. Abuse or Fraudulent Use of Service

The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

- a) The use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service.
- b) The obtaining, or attempting to obtain, or assisting another to obtain or to attempt to obtain service by rearranging, tampering with or making connection with any facilities of the Company, or by any trick, scheme, false representation or false credit device, or by or through any other fraudulent means or device whatsoever with intent to avoid the payment, in whole or in part, of the regular charge for such service.
- c) The use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another.
- d) The use of profane or obscene language.
- e) The use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers.
- f) The impersonation of another.

Public Service Commission

## 6. Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it shall not be used for the purpose of furnishing information in connection with any unlawful gambling scheme, business or device or for any similar unlawful purpose. Any customer whose service is to be discontinued or any applicant to whom service is to be denied under this regulation will be notified by the Company of his right to a hearing by the Missouri Public Service Commission to determine whether or not such service is being used, or will be used, in violation of this rule. Upon complaint to the Commission by any applicant or customer who is affected by the refusal or discontinuance of service in accordance with this rule, such service shall be provided, continued or restored if the Commission shall determine that the service has not been used or is not intended to be used in violation of this rule.

## 7. Resale of Service

The resale of any service provided by the Company is not permitted except as provided elsewhere in this Tariff or authorized by the Company in writing.

## E. APPLICATION OF BUSINESS AND RESIDENCE RATES

MISSOURI  
Public Service Commission

## 1. Business Rates Apply at the Following Locations:

- a. In offices, stores, factories and all other places of a strictly business nature.
- b. In boarding houses (except as noted under E.2.b.), offices of hotels, halls and apartment buildings, quarters occupied by clubs or lodges, schools, hospitals, libraries, churches, college fraternity houses and other similar institutions (but excluding dormitory rooms).
- c. At residence locations when the customer has no regular business telephone and the use of the service can be considered as more of a business than of a residence nature; or when such business use passes over to residence telephones; for example when, business places are ordinarily closed in compliance with the law or established custom.
- d. Where the place of business and residence of a customer are on the same premises and no telephone service is installed in the place of business, the business rate shall be charged for the telephone service installed in the residence.
- e. At residence locations, when a line termination is located in a shop, office or other place of business.
- f. At any location where the listing of service at that location indicates a business, trade or profession except as specified below.

**Public Service Commission**

## 2. Residence Rates Apply at the Following Locations:

- a. In private residences where business alphabetical or classified telephone directory listings are not provided.
- b. In private apartments of hotels, rooming houses or boarding houses where service is confined to the customer's use and elsewhere in rooming houses which are not advertised as a place of business or which have less than five rooms for roomers or which furnish meals to less than ten boarders, provided business telephone directory listings are not furnished.
- c. In the place of residence of a clergyman and in the place of residence of a physician, dentist, veterinary, surgeon or other medical practitioner, provided the customer does not maintain an office in the residence. In the residence of a Christian Science practitioner, nurse or midwife, or in the office of any of this group of persons, provided the office is located in the customer's residence and is not part of an office building. In any of such cases, the listing may indicate the customer's profession but only in connection with an individual name. If listings of firms, partnerships, etc., or additional listings of persons not residing in the same household are desired, business rates apply.
- d. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.

## 3. Deposits and Guarantees of Payment

- a. The Company may require a deposit or guarantee as a condition of service.
- b. No deposit or guarantee will be required by the Company because of race, sex, creed, national origin, marital status, age, number of dependents, condition of physical handicap, source of income, or geographical area of residence. (See F.6.d.)
- c. A deposit is subject to the following terms:
  - 1) It will not exceed estimated charges for two months service based on the average bill during the preceding twelve months or estimated for the next twelve months by the customer and the Company.
  - 2) It will bear interest of 9 percent per annum which will be credited annually upon the account of the customer or paid upon the return of the deposit whichever occurs first. Interest will not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.
  - 3) Upon discontinuance or termination, it will be credited, with accrued interest, to the charge stated on the final bill and the balance, if any, will be returned to the customer within 21 days of rendition of such final bill.

GENERAL REGULATIONSF. ESTABLISHMENT AND FURNISHING OF SERVICE - Business Only (Continued)  
MISSOURI  
Public Service Commission

## 3. Deposits and Guarantees of Payment (Continued)

## d. A deposit is subject to the following terms: (Continued)

- 4) Upon satisfactory payment of all undisputed charges during the last twelve billing periods, it will, with accrued interest, be promptly refunded or credited against charges stated on subsequent bills. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Company may withhold refund of a deposit pending the resolution of a dispute with respect to charges secured by such deposit.
  - 5) Each customer posting a deposit will receive a receipt in writing at that time or within ten days.
  - 6) The Company will provide means whereby a person entitled to a refund of a deposit is not deprived of the refund even though he may be unable to produce the receipt for the deposit provided he can produce identification to ensure that he is the person entitled to the refund.
  - 7) The Company will permit a customer, concurrent with the beginning of service, to post a deposit in two equal monthly installments or as otherwise agreed upon.
- e. In lieu of a deposit the Company may accept a written guarantee. The limit of the guarantee will not exceed the amount of a cash deposit.
- f. A guarantor will be released upon satisfactory payment of all undisputed charges during the last twelve billing periods. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute.

GENERAL REGULATIONS

MISSOURI

Public Service Commission

## F. ESTABLISHMENT AND FURNISHING OF SERVICE - Residential Only

## 4. Application for Service

- a. Applications for service may be made orally or in writing.<sup>(1)</sup> These applications become contracts upon the establishment of service.
- b. Upon a request for service and at the time a contract for service is entered into with a prospective residential customer, the Company will use a prepared statement to inform a prospective customer of the lowest cost service available.
- c. Any change in rates or regulations prescribed by the Missouri Public Service Commission modifies the terms and regulations of contracts to the extent of such change.
- d. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former customers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.
- e. If telephone service is established and it is subsequently determined that either condition in d. above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

## 5. Advance Payments

- a. At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and/or service connection charges, which may be applicable, in addition to such special construction and service charges as are to be borne by the applicant. The amount of the first month's service is credited to the customer's account on the first bill rendered.
- b. Federal, state or municipal governmental agencies may not be required to make advance payments.

## 6. Deposits and Guarantees of Payment

- a. The Company will maintain an alphabetical file of all unpaid disconnected accounts for a period of seven years. The Company will also maintain an alphabetical file of all disconnected accounts paid in the past six months.
- b. The Company may require an applicant for service to post a deposit if:
  - 1) The applicant is unable to establish that he had a previous account with a telephone utility for a period of at least twelve months for which all undisputed charges were satisfactorily paid; or
  - 2) The applicant has not previously had telephone service for a twelve month period and does not meet at least two of the following criteria:
    - a) Home ownership, excluding mobile homes
    - b) Vehicle ownership - car or truck
    - c) Is fifty or more years of age
    - d) Has been employed two years or more with the current employer
    - e) Has a savings account
    - f) Has a checking account
    - g) Has an existing loan from a financial institution not considered delinquent by the creditor

## F. ESTABLISHMENT AND FURNISHING OF SERVICE - Residential Only (Continued)

6. Deposits and Guarantees of Payment (Continued) **Public Service Commission**

- c. A present customer may be required to post a deposit or guarantee as a condition of continued service if undisputed charges in two out of the last twelve billing periods have become delinquent or the customer has had service discontinued under G.l.a. and/or G.l.b. of this section at any time during the preceding twelve billing periods.
- d. No deposit or guarantee or additional deposit or guarantee will be required by the Company because of race, sex, creed, national origin, marital status, age, number of dependents, condition of physical handicap, source of income, or geographical area of residence. (See F.3.b.)
- e. The amount of deposit for a new applicant will be twice the average monthly bill for all residence subscribers. If, within the first six months of establishing service, the customer incurs toll or other charges in any one billing period which are greater than 400% of the amount of the deposit previously required, an additional deposit may be required.
- f. The amount of deposit for a present customer will be twice that customer's average monthly billing for exchange and long distance charges. The average monthly billing will be based on the actual billing for the immediate months preceding the request for the deposit, not to exceed twelve months.
- g. On deposits held thirty days or more, simple interest at the rate of nine percent per annum shall be credited annually to the account of the customer or paid upon the return of the deposit, whichever occurs first. Interest will not accrue on any deposit after the date on which a reasonable effort has been made to return it to the customer.
- h. An applicant for service, or a present customer, may satisfy a deposit requirement by providing a Contract of Guaranty in an amount not to exceed the requested deposit, from a present customer with at least two years of established service whose service has not been suspended for nonpayment within the last twelve months. The guaranty contract shall be on a form provided by the Company which shall include the Company's right to transfer charges to the limit of the guaranty, from a defaulted bill of the customer, from whom a deposit or a Contract of Guaranty was required, to the guarantor's account or accounts and the further right to suspend the guarantor's service. A guarantor shall be released upon satisfactory payment by the customer of all undisputed charges during the last twelve billing periods.

GENERAL REGULATIONS

MISSOURI

F. ESTABLISHMENT AND FURNISHING OF SERVICE - Residential Only (Continued) ~~Public Service Commission~~

## 6. Deposits and Guarantees of Payment (Continued)

- i. The fact that a deposit has been made, or a guaranty provided, shall in no way relieve the customer from his responsibility to pay undisputed charges prior to their becoming delinquent nor constitute a waiver or modification of the provisions set forth in this Tariff providing for the temporary suspension of service or the termination of the service for nonpayment of undisputed, delinquent charges.
- j. Upon termination of the service, the amount of the deposit with accrued interest, shall be applied in payment of any unpaid charges for exchange or long distance service and the balance, if any, shall be returned to the customer within twenty-one days of the rendition of the final bill.
- k. Upon satisfactory payment of all undisputed charges during the last twelve billing periods, it will, with accrued interest, be promptly refunded or credited against charges stated on subsequent bills. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent provided it is not in dispute. The Company may withhold refund of a deposit pending the resolution of a dispute with respect to charges secured by such deposit.
- l. Each customer posting a deposit will receive a receipt in writing at that time or within ten days.
- m. The Company will provide means whereby a person entitled to a refund of a deposit is not deprived of the refund even though he may be unable to produce the receipt for the deposit provided he can produce identification to ensure that he is the person entitled to the refund.
- n. The Company will permit a customer, concurrent with the beginning of service, to post a deposit in two equal monthly installments or as otherwise agreed upon.
- o. A guarantor will be released upon satisfactory payment of all undisputed charges during the last twelve billing periods. Payment of a charge is satisfactory if received prior to the date upon which the charge becomes delinquent, provided it is not in dispute.

## F. ESTABLISHMENT AND FURNISHING OF SERVICE

FEB 1 1989

## 7. Billing and Payment

MISSOURI

- a. The Company will during the first billing period in which a customer receives service provide the customer with an itemized account of charges for the service for which he has contracted. The Company will render a separate bill for concurrent residence service unless otherwise requested by the customer.
- b. The Company will after the initial bill for new service render a bill during each billing period for monthly recurring charges in advance and toll charges in arrears. Special billing arrangements may be established for service provided to governmental agencies.
- c. The customer is responsible for all charges in conjunction with the services furnished him including collect toll messages which have been accepted at the customer's telephone.
- d. The Company will render bills on a cyclical basis whereby the customer receives his bill on or about the same day of each month. Billing cycles may be altered by sending an insert or other written notice explaining the alteration not less than 30 days prior to the effective date of the alteration. This notification is not required when a customer requests a number change or when the customer disconnects and reconnects service or transfers service from one premises to another, which may affect the customer's billing cycle.
- e. Bills are due as specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.
- f. The customer shall have at least 21 days from the rendition of a bill to pay the charges stated. However, when the customer has had service discontinued within the last 12 months or where the customer incurs toll or other charges at any time during the billing period which are equal to at least 400% of the amount of the deposit or guarantee previously required from the customer, payment may be demanded for the toll charges by a telephone call to the customer followed by written notification of such demand sent by first class mail. If the toll charges remain unpaid for 10 days from rendition of written notification or a mutually established late payment arrangement date or 21 days from rendition of the bill, such charges will be deemed delinquent.
- g. For billing purposes, each month is presumed to have 30 days.
- h. Retroactive billing adjustments may be made for a period not to exceed three years.

## G. DISCONTINUANCE OF SERVICE

MISSOURI

1. The Company may discontinue the service and remove its equipment under the following circumstances, provided suitable notice has been given to the customer, as required:

CANCELLED

- a. Nonpayment of an undisputed delinquent charge.
  - b. Failure to post a required deposit or guarantee. SEP 15 1994
  - c. Unauthorized use of Company facilities in a manner which creates an unsafe condition or creates the possibility of damage or destruction to such equipment which may tend to injuriously affect the efficiency of the Company's plant, property, or service.
  - d. Failure to substantially comply with the terms of a settlement agreement.
  - e. Refusal after reasonable notice to permit inspection, maintenance or replacement of telephone utility equipment.
  - f. Material misrepresentation of identity in obtaining telephone utility service, and use of the service in such a manner that, in the opinion of the Company, constitutes abuse or fraud.
  - g. As provided by state or federal laws.
  - h. Nonpayment of undisputed, delinquent state or interstate long distance service charges billed by the Company or undisputed, delinquent exchange service charges including any FCC-approved end user charge or both.
2. Service shall not be disconnected under G.1. unless written notice by first class mail is sent or delivered to the customer at least 5 days prior to the date of proposed discontinuance.
3. At least 24 hours preceding a discontinuance, the Company will make reasonable efforts to contact the customer to advise of the proposed discontinuance and what steps must be taken to avoid discontinuance.
4. Service may be discontinued during normal business hours on or after the date specified in the notice of discontinuance. Service will not be discontinued on a day when the offices of the Company are not available to facilitate reconnection of service, or on a day immediately preceding such a day. Service will not be discontinued for nonpayment of delinquent charges within five days after a charge has become delinquent, except as provided under G.7 of this section. FILED

## G. DISCONTINUANCE OF SERVICE (Continued)

MISSOURI  
Public Service Commission

5. The Company will postpone a discontinuance for a time not in excess of 21 days if the telephone is necessary to obtain emergency medical assistance for a person who is a member of the household where the telephone service is provided and where such person is under care of a physician. Any person who alleges such emergency shall, if requested, provide the Company with reasonable evidence of such necessity.
6. The Company will restore service upon the customer's request when the cause for discontinuance has been eliminated.
7. Notwithstanding any of the preceding provisions in this section, service to a customer may be discontinued at any time after written notice has been sent, certified mail, to such customer at his last known address and at the address where the service to be discontinued is provided if such a customer:
  - a. Incurs charges not covered by a deposit or guarantee and evidences an intent not to pay such charges when due.
  - b. Damages or evidences an intent to damage Company facilities.
  - c. Upon written objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction on the grounds that such service is, or will be, used for an illegal purpose.
  - d. The notice required in 7.a. and 7.b. will state how the customer has evidenced his intent not to pay or to damage Company facilities.
8. Restoral of Service
  - a. Payment may be made by the customer for restoration of service in any reasonable manner including personal check. A personal check may be refused if a customer check for payment of service has been dishonored, excepting bank error, within the last twelve months.

## H. TERMINATION OF SERVICE

MISSOURI

Public Service Commission

1. Contracts for service may be terminated prior to the expiration of the contract period provided advance notice is given to the Company and upon agreement to pay all charges due for the service furnished, plus any termination charges which might be applicable.
2. No minimum or termination charge will apply (unless otherwise stated specifically in this Tariff) where a new customer takes over the service of the former customer, provided the service is to be furnished at the same location without interruption and that the new customer assumes all unpaid charges on the original contract. Minimum and termination charges will apply for any service furnished under the original contract which is not retained by the new customer.
3. Where a contract for service with a one-month minimum period is canceled before establishment of the service is completed, a charge not to exceed the service charge specified is applied if all or a portion of the facilities have been installed.
4. No minimum or termination charge will apply in the event the service is terminated because of condemnation, destruction or damage to property by fire or other cause beyond the control of the customer.
5. Concurrent with the effective date of this tariff, interconnection of automatic dialing and answering-announcing devices where the intended use of such devices is for telephone solicitation shall not knowingly be allowed by the Company where calls initiated by the device cannot be terminated at will by the called party and dial tone restored to the called party promptly upon termination of the call by the called party.
  - a. Any prerecorded message issued by an automated dialing-announcing device shall be preceded by an announcement which states:
    - 1) The name and address of the calling party.
    - 2) The purpose of the message.
    - 3) The message is coming from automated equipment.

## H. TERMINATION OF SERVICE (Continued)

5. b. An automatic dialing device is defined as any automatic or manually dialed-announcing device which when attached to a telephone line, has the capability of initiating calls on the telephone network and incorporates the following features:

- 1) Storage capability of multiple numbers to be called; or
- 2) A random or sequential number generator that produces numbers to be called; and
- 3) Has the capability, working alone, or in conjunction with other equipment, of disseminating a pre-recorded message to the number called; and

c. This regulation shall remain in effect and be subject to such changes or modifications as the Missouri Public Service Commission may direct in the exercise of its jurisdiction.

## I. MINIMUM CONTRACT PERIODS

1. Except as specified elsewhere in this Tariff, the minimum contract period is one month from the date service or additions to service are established and the minimum charge is the authorized rate for one month. For purposes of rate administration, each month is considered to have 30 days.
2. The Company may require a contract period longer than one month at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service.

MISSOURI

Public Service Commission

## 1. Private Property

- a. An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.
- b. The applicant shall be required to pay the costs over and above those applicable for a normal installation under the following terms:
  - 1) If additional entrance or distribution facilities are required.
  - 2) If the conditions are such as to require special equipment, maintenance or methods of construction.
  - 3) If the stability of the customer has not been established.
  - 4) If the construction costs are excessive as compared with the revenue to be derived for any other reason.
  - 5) Charges will include materials, contract services, and loaded labor.(\*).
  - 6) The Company will provide an estimate of actual charges to the customer prior to the start of construction.
- c. The customer will provide the Company, without charge, written permission for the placing of the Company's facilities on the property.

## 2. Installation of Telephone Lines within Subdivisions

- a. Telephone lines constructed, installed and owned by the Company in subdivisions shall be installed underground.
- b. For the purposes of this underground service rule only, the following terms shall have the meanings indicated for them:
  - 1) Applicant: The developer, builder or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency or other legal entity recognized by law applying for the construction of an underground telephone system in a subdivision.
  - 2) Building: A single structure, roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety, both physically and in operation for single-family residential occupancy in a subdivision.
  - 3) Multiple-occupancy building: A structure which stands alone, enclosed with exterior walls or which is cut off from adjoining structures by fire walls, built for permanent use, erected, framed of component structural parts and unified in entirety, both physically and in operation for reasonably permanent occupancy as two or more single-family residences in a subdivision.
  - 4) Development-subdivision: A lot, tract or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per recorded plat thereof if such recordation is required by law.
  - 5) Distribution line: A main-line facility within the development, directly or indirectly connecting the customers in a development to the telephone central office.
  - 6) Service line: That portion of the circuit or line extending from a pedestal or pole directly to the point of demarcation.

## 2. Installation of Telephone Lines within Subdivisions (Continued)

- c. All distribution and service lines, except pedestals, installed within a development shall be installed underground; shall conform to the Company's construction standards; and shall be owned and maintained by the Company. Such installation shall be performed by the Company or by such other entity as the Company may authorize to do the work.
- d. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
- e. The applicant for telephone service to a development or a lot therein shall:
  - 1) At his own cost, provide the Company with easements satisfactory to the Company for installation, maintenance, alteration, replacement and repair of distribution and service lines and related facilities.
  - 2) At his own cost, clear the ground, in which the aforesaid facilities are to be installed, of trees, stumps and other obstructions. It is understood that the telephone facilities may be installed in the same trench as facilities to be installed for the purpose of providing other utility service to the development if installed in accordance with the National Electric Safety Code as from time to time amended.
  - 3) Applicant shall keep the trenches in which the facilities are to be installed or the path to be utilized for installation of underground facilities by "plowing in" (as distinguished from "trenching") clear of machinery and other obstructions during the installation and will otherwise cooperate with the Company to avoid unnecessary costs.

## 4) Advances by applicant

- a) Where due to the manner in which a subdivision is developed, the utility is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the utility may require a reasonable advancement for the construction from the applicant before construction is commenced in order to guarantee performance.
- b) Upon request, the applicant shall deposit with the Company, prior to the commencement of the installation of the facilities referred to above, an advance payment in an amount equal to the Company's estimated costs of installing the facilities within the development. Such advance payment is conditioned upon the agreement of the Company to refund semiannually without interest to the applicant for each customer located within the development receiving telephone service from the Company within the period of ten years from the date of installation of facilities that percentage of the total advance payment that each lot bears to the total number of lots in the development.
- c) Any portion of an advance remaining unrefunded ten years from the date the utility is first ready to render service will be retained by the utility and credited to the account for contribution in aid of construction.
- d) If after the acceptance of application for service, the design of the development is changed in a manner which requires recomputation of the Company's estimated installation costs or the estimated costs of installation are increased for any other reason not the fault of the Company, the advance referred to above may be increased and the Company may defer or discontinue installation of facilities until such time as the additional amount of the deposit has been received by the Company.

GENERAL REGULATIONS

FEB 1 1989

MISSOURI

Public Service Commission

## J. SPECIAL CONSTRUCTION (Continued)

## 2. Installation of Telephone Lines within Subdivisions (Continued)

- j. In circumstances where the application of these rules appears impracticable or unjust to applicant or the Company or discriminatory to other customers; e.g., difficult rock conditions, the Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.
- k. These rules and regulations shall not amend or supersede the Company's line extension policy set out in other rules and regulations on file with the Missouri Public Service Commission except in residential subdivisions.

## 3. Temporary Service

Where plant construction (either inside or outside the Base Rate Area) is required to provide any service or facility, temporary in character, or where it is necessary to place temporary construction in advance of permanent construction in order to meet the customer's requirements, or when in the judgment of the Company the service or facilities cannot be reused in the event the customer disconnects the service or facilities, the Company may require the applicant to pay the non-recoverable costs of the temporary construction or to contract for service beyond the initial period, or both.

## 4. Extension of Facilities

## a. General

MISSOURI  
Public Service Commission

Extension of facilities are additions to Company line facilities, such extensions will be owned and maintained by the Company.

## b. Application

- 1) Charges for extension of facilities apply only within the Suburban Area of an exchange.
- 2) Mileage is computed from existing Company facilities up to the drop pole or pedestal.
- 3) Mileage is computed using actual route mileage.
- 4) Each premises of an applicant is treated as a separate application for purposes of mileage and charge computation.
- 5) Any footage allowance will apply only once per premises.
- 6) Charges for extension of facilities for an individual project will be assessed and collected once per premises only.

## c. Charges

Extension of facilities charges are due and payable prior to the commencement of construction. This charge applies in addition to any other applicable charge or rate in this tariff.

## 1) Unit of Charge

A Unit of Charge is determined by multiplying the total of the Basic Local Exchange Rate plus any applicable Suburban Mileage amount by 12.

CANCELLED

## 2) Application of Charge Unit

- a) First 1/2 mile
- b) 1/2 to 3/4 mile
- c) 3/4 to 1 mile
- d) 1 to 1 1/2 miles
- e) 1 1/2 to 2 1/2 miles
- f) 2 1/2 to 5 miles
- g) Each additional 2 1/2 mile increment or fraction

GENERAL REGULATIONS

FEB 1 1989

## J. SPECIAL CONSTRUCTION (Continued)

## 4. Extension of Facilities (Continued)

## d. Refund of Charges

MISSOURI

Public Service Commission

Customers who have paid extension of facilities charges will be credited one charge unit described in c. on each yearly anniversary of their in-service date beginning with the first anniversary, until either: 1. the entire advance payment has been refunded, or 2. the customer ceases to retain the service for which the extension of facilities charges were assessed.

## e. Grouping of Applicants

At the option of the Company, applicants may be grouped in a project subject to the following conditions:

- 1) Grouping may be done only at the inception of a project.
- 2) No applicant will be included in a group project when doing so would result in a higher charge than individual application.
- 3) Computation of group project mileage: total route mileage will be determined by the Company, collective free footage allowance will be subtracted therefrom and the remaining footage will be divided equally among the total number of applications.

## f. Contracts

Contracts covering a maximum of three years of service may be required by the Company as a condition precedent to the establishment of service. Such contracts will not require payments in excess of those otherwise required by this schedule and shall not interfere with the Company's right to collect amounts as provided for elsewhere in its tariff schedules.

## g. Saving Clause

Arrangements may be made, other than as provided for above in this schedule, in the following cases subject to prior authorization of the Public Service Commission of the state of Missouri, when required:

- 1) Where the applicant requests a particular type of construction or a specific route for extensions to meet the applicant's special requirements and where the construction or route so requested differs from the normal standards of the Company and is not required by law.
- 2) Extension of facilities involving underground crossings of railroads, highways or power lines, submarine cable or long river crossings.
- 3) Any other extension of facilities involving unusual or disproportionately large construction expenditures.

## K. SPECIAL ASSEMBLIES FOR SPECULATIVE PROJECTS

MISSOURI  
Public Service Commission

1. Special assemblies of equipment or speculative projects for which provision is not otherwise made in this Tariff may be provided where practicable if not detrimental to any of the services furnished by the Company.
  - a. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided:
    - 1) Maintenance expense
    - 2) Depreciation expense—including reusable and nonrecoverable items
    - 3) Administration expense
    - 4) Taxes—including federal income tax
    - 5) Any other specific items of expense that may be associated with the facility provided
    - 6) A reasonable return on investment
  - b. The estimated installation cost used in the ~~derivation~~ <sup>CANCELLED</sup> of the various expense items shall include the following: (\*)
    - 1) Material
    - 2) Material overhead
    - 3) Installation labor
    - 4) Installation labor overhead
  - c. The Company will provide an estimate of actual rates and/or charges to the customer prior to installation.
2. In connection with marketing and sales studies and marketing and sales programs, the Company reserves the right to waive Service Connection Charges within specified areas for such periods of time as designated by the Company and approved by the Missouri Public Service Commission.

(\*) Loaded labor includes costs which are direct in nature, such as the wages of craft personnel, and also includes indirect overhead costs which cannot be specifically assigned to projects. These indirect overhead costs include supervision, vehicle, house services, pension and payroll tax expenses. Other indirect costs such as vacation, sick time and meetings are also included. These costs are accumulated in a pool of costs and then are distributed as actual hours are worked by craft personnel.

## L. TAX ADJUSTMENTS

MISSOURI  
Public Service Commission

1. All excise taxes including gross receipts taxes, franchise taxes, occupation taxes, license taxes, etc., imposed by a city, town or village or other local governmental agency shall be added as a separate item to the charges for local exchange service rendered to and for persons located within the limits of the city, town or village imposing such tax, as follows:
  - a. Taxes based on receipts or income and calculated on a percentage thereof.
    - 1) Where any excise tax imposed by a city, town or village is based on a percentage of gross receipts, revenue or income, a pro rata portion of such tax shall be added as a separate item to the customer's statement for local exchange service rendered and shall be calculated by applying thereto a percentage factor equivalent to the percentage factor of the tax.
  - b. Taxes consisting of a stated amount in dollars and cents.
    - 1) When a tax imposed by a city, town or village is a stated amount, a pro rata portion of such tax shall be added as a separate item to the customer's statement for local exchange service rendered and shall be calculated by applying thereto the same percentage factor as the total annual amount of the tax bears to the gross receipts of the Company from local service rendered during the preceding calendar year to the persons located within the taxing municipality.

DEFINITIONS

ACCESS LINE - The termination of a central office line on a customer's premises, usually at a protector. MISSOURI Public Service Commission

ADDITIONAL LISTING - Any listing of a name or other authorized information in connection with a customer's telephone number in addition to that which he is entitled in connection with his regular service.

AUTHORIZED USER - A person, firm or corporation (other than the customer) on whose premises a telephone, PBX or private-line service or channel is located and who may communicate over such channels in accordance with the terms of the Tariff.

BASE RATE - A rate for urban grades of exchange service available to customers located within a Base Rate Area.

BASE RATE AREA - A specific area within which local telephone exchange service, other than rural-line or suburban service, is furnished at rates quoted in the Local Exchange Service Tariffs without extra mileage charges.

BILL - A written demand for payment for service or equipment and the taxes and franchise fees related thereto.

BILL INSERT or INSERT - A written notice which is enclosed with a bill.

BILLING PERIOD - A normal usage period of not less than 28 nor more than 31 days.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional or occupational nature.

CENTRAL OFFICE - A switching unit in a telephone system which provides service to the general public, having the necessary equipment and operating arrangements for the terminating and interconnecting customer lines and trunks or trunks only. There may be more than one central office in a building or exchange.

CENTRAL OFFICE CHARGE - The charge for work associated with the central office including but not limited to central office connections, cable cross connections and central office program work.

CENTRAL OFFICE LINE - A circuit directly connecting an individual or party-line main station, PBX switchboard, or an intercommunicating system with a central office.

**Public Service Commission**

**CHANNEL** - A path for communication between two or more stations, or central offices, furnished in such a manner as the Company may elect, whether by wire, radio, or a combination thereof, and whether or not by a single physical facility or route.

**CHARGE** - An amount due for service, taxes and franchise fees related thereto.

**CIRCUIT** - A channel used for the transmission of electrical energy in the furnishing of telephone and other communication services.

**CLASS OF SERVICE** - The various categories of service generally available to the customer such as business, residence, public or semipublic service.

**COIN BOX TELEPHONE SERVICE** - A telephone set, equipped with a coin-collecting device, designed for a combination of customer and public use provided at the option of the Company at locations more or less public in character. The customer will be in control of the key to the coin collection receptacle and will collect all monies from the coin receptacle. Coin Box Telephone Service is considered a form of customer service.

**COIN TELEPHONE SERVICE** - See "PUBLIC TELEPHONE."

**COMMISSIONS** - A percentage of amounts handled paid as a fee in consideration of service rendered to the Company.

**COMPANY** - Contel of Missouri, Inc.

**CONNECTING COMPANY** - A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interchanged.

CONNECTOR - See "SWITCH."

CONNECTION CHARGE - See "SERVICE CHARGE."

CONSTRUCTION CHARGE - A separate nonrecurring charge made for the construction of facilities in excess of those contemplated under the rates quoted in the Exchange Tariffs.

CONTINUOUS PROPERTY - The plot of ground, together with any building thereon, occupied by the customer, which is not divided by public highways or separated by property occupied by others. Where a customer occupies property on both sides of a street, alley, highway, body of water, railroad right-of-way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the customer furnished all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - The agreement between a customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of the Tariffs.

CORD SWITCHBOARD - See "PBX SERVICE".

CORDLESS SWITCHBOARD - See "PBX SERVICE".

COST - The cost of labor and materials, which includes appropriate amounts to cover the Company's general operating and administrative expenses.

CUSTOMER - A person responsible for payment for service.

CYCLE BILLING - A system which results in the rendition of bills to various customers on different days of a month.

DATA ACCESS ARRANGEMENT - A protective connecting arrangement for use with the network control signaling unit, or in lieu of the connecting arrangement, an arrangement to identify a central office line and protective facilities and procedures to assure proper operation and protection of the telecommunications network.

DELINQUENT CHARGE - A charge which is not paid in full on which payment is due.

DEFINITIONS

MISSOURI

DEMARCATIION POINT - That point at which the Telephone Company's responsibility for installation and maintenance on a tariffed basis ends and the customer's option to install and/or maintain inside wire begins.

For Simple Inside Wire the demarcation point is the first penetration at or inside a customer's premises on the customer's side of the protector where inside wiring becomes dedicated to an individual customer's use. For an individual customer's dwelling, this point of connection will generally be twelve inches on the customer's side of the protector. In those locations where there is a Telephone Company-provided plug-in jack within twelve inches of the customer's side of the protector, that plug-in jack will serve as the demarcation point. The drop and block, including the protector, will continue to be provided by and remain the property of the Telephone Company.

For Complex Inside Wire the demarcation point is the first jack or interconnection strip on the customer's side of the Telephone Company Network Terminal. This jack or interconnection strip is generally located within twenty-five (25) feet of the customer's common equipment, i.e., any telecommunications apparatus in which two or more business lines terminate which facilitates pick up. This jack or interconnection strip remains the property of the Telephone Company.

DEPOSIT - A money advance to the Company for the purpose of securing payment of delinquent charges which might accrue to the customer who made the advance.

DIAL SWITCHING EQUIPMENT - A unit of electromechanical or electronic switching equipment used in a central office or in connection with a PBX system.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

DISCONNECT NOTICE - The written notice sent to a customer following billing notifying him that his service will be discontinued if charges are not satisfied by the date specified on the notice.

DISCONTINUANCE OF SERVICE or DISCONTINUANCE - A cessation of service not requested by a customer.

DISPUTE - See "IN DISPUTE."

DROP WIRE - That portion of a circuit between the pole-line or cable distributing box and the point of demarcation on or at the building in which the station or switchboard is located.

DEFINITIONSMISSOURI  
Public Service Commission

**EXCHANGE** - A geographical area established for the administration of telephone service in a specified area, called the "exchange area," which usually embraces a city, town or village and its environs. It may contain one or more central offices together with the associated plant, equipment and facilities used in furnishing communication service within that area.

**EXCHANGE AREA** - The territory served by an exchange.

**EXCHANGE LINE** - Any circuit connecting an exchange station with a central office.

**EXCHANGE SERVICE** - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulations and charges specified in the Local or General Exchange Tariffs. Exchange facilities are used to establish and maintain connection between an exchange and the other telephone plant and facilities in connection with long-distance calls or Extended Area Service calls.

**EXTENDED AREA SERVICE** - Interexchange telephone service furnished at a flat rate between two or more exchange areas.

**EXTENSION AND PBX STATION MILEAGE** - See "MILEAGE."

**EXTENSION LINE** - See "LINE EXTENSION"

**EXTENSION STATION** - See "TELEPHONE SET".

**EXTRA EXCHANGE LINE MILEAGE** - The measurement on which charges are based for that portion of the circuit extending beyond the Base Rate Area but within the Exchange Area, which is used to furnish urban classes of service in the Suburban or Rural Area.

**EXTRA LISTING** - See "ADDITIONAL LISTING."

**FLAT RATE SERVICE** - Service furnished at a fixed monthly charge, including Extended Area Service where applicable.

**FOREIGN ATTACHMENT** - Lines, instruments, appliances or apparatus not owned or furnished by the Company.

**FOREIGN CENTRAL OFFICE** - Any central office other than that which serves the area in which the customer is located.

FOREIGN EQUIPMENT - See "FOREIGN ATTACHMENT."

FOREIGN EXCHANGE LINE MILEAGE - The measurement applying to that portion of a central office line connecting a customer with a foreign central office, from the common boundary line to the customer's station, for which a monthly charge is made in addition to the base rate for exchange service.

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a customer through a central office of an exchange other than the exchange regularly serving the area in which the customer is located.

GRADE OF SERVICE - The term used in describing exchange service with respect to the number of main terminals which may be connected to one central office line (one-party, two-party, four-party, multi-party).

GRANDFATHERED EQUIPMENT - Equipment so designated by the F.C.C. which may be connected to services of the Company.

GUARANTEE - A written promise from a responsible party to assume liability up to a specified amount for delinquent accounts which might accrue to a particular customer.

IN DISPUTE - Any matter regarding a charge or service which is the subject of an unresolved inquiry.

INDIVIDUAL LINE - An exchange line designed for the connection of a telephone set.

INITIAL SERVICE PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment whether or not retained by the customer for such minimum length of time.

INQUIRY - Any written or oral comment or question regarding a charge or service which is directed to a telephone utility by a customer or prospective customer.

INSERT - See "BILL INSERT."

INSTALLATION CHARGE - A nonrecurring charge made at the time of installation of communications service or equipment, which applies in addition to service charges and other applicable charges for service or equipment unless specifically excepted.

INTERCOMMUNICATING SYSTEM - An arrangement involving two or more stations which enables a user to signal and connect with other stations in the system.

JACK - A modular connecting device between network line terminations and station equipment.

**PREMISES** - The buildings, portion or portions of a building on continuous property used and/or occupied at one time by the customer in the conduct of his business or as a residence. Where floor space in adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered as the same premises insofar as the customer who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

**PRIVATE BRANCH EXCHANGE SYSTEM** - An arrangement of equipment consisting of switching apparatus with attendant's telephone, trunks to a central office and stations connected with the switching apparatus, providing for intercommunication between these stations and communication with the general exchange and interexchange systems. Throughout this Tariff, the commonly used abbreviation, "PBX", will be substituted for the words "Private Branch Exchange" and "PABX" will be substituted for the words "Private Automatic Branch Exchange".

Any communications system or its components which has the capability to automatically select or direct a line from a group or groups of lines in a predetermined fashion shall be classified as a PBX/PABX System.

- A. **PBX Trunk:** A circuit connecting a PBX system with a central office.
- B. **Switchboards:** Switchboards are classified as follows:
  - 1. **Cordless Switchboard (Key Switchboard):** A switchboard on which all lines terminate on keys which may be used to interconnect stations, and stations and trunk lines.
  - 2. **Dial Switchboard:** A switchboard on which interconnection of stations, and stations and trunk lines is established by means of dialing.
- C. **Power Source:** Power furnished for talking and for operating lamp or visual signals and relays.
- D. **Ringing Current:** Current furnished by means of a circuit from a central office or some other source of supply to enable signaling within a PBX system.

MISSOURI

SPECIAL RATE AREA - A portion of an exchange area in which Special Base Rates apply.

STATION - Specific identifying number associated with a location on a communications system.

SUBSCRIBER - See "CUSTOMER."

SUBURBAN AREA - The territory surrounding the Base Rate Area and/or Special Rate Area in which suburban and rural services are furnished and in which urban classes of service are furnished at established rates plus extra exchange line mileage charges.

SUBURBAN SERVICE - Service furnished to customers outside the Base Rate or Special Rate Area(s) but within the exchange area.

SWITCH - A unit of dial switching equipment which provides interconnection between station lines or trunks.

SWITCHBOARD - See "PRIVATE BRANCH EXCHANGE SYSTEM."

TARIFF - The schedule of rates and charges, rules and regulations adopted and filed by the Company and approved by the Missouri Public Service Commission.

TELEPHONE COMPANY - See "COMPANY."

TELEPHONE SET - A telephone instrument consisting of a transmitter, receiver, and associated apparatus connected to permit transmission and receipt of telephone messages.

DEFINITIONS

MISSOURI

**TERMINATION OF SERVICE or TERMINATION** A cessation of services requested by a customer.

**TIE LINE** - A circuit connecting two PBX systems for the purpose of interconnection between the stations connected with such systems.

**TIE LINE MILEAGE** - The measurement on which the rates for tie lines connecting customers' switchboards are based.

**TOLL CENTER** - A telephone switching center at which the operations function (message timing, switching and recording) takes place in connection with the provision of toll message service.

**TOLL LINE** - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

**TOLL MESSAGE** - A message between stations in different exchange areas and furnished under the provisions of the applicable Toll Tariff.

- A. **Person-to-Person Toll Message:** A toll message in which the user stipulates a desire for communication with a specified person or extension station at a specified location.
- B. **Station-to-Station Toll Message:** A toll message in which the user stipulates a desire for communication only with a specified telephone or switchboard.
- C. **Collect Message:** A toll message in which the charge may be reversed provided the charge is accepted at the called station. A collect call may be billed to a Credit Card or third-party number. In case of a public or semi-public coin telephone the charges must be billed to a Credit Card or third-party number, or the call may be reoriginated from the called station.
- D. **Third Number Message:** A toll message in which associated charges are billed neither to the calling station nor to the called station but rather to a station not involved in the message.
- E. **Credit Card Message:** A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

DEFINITIONSMISSOURI  
Public Service Commission

**TOLL RATE** - The initial period charge prescribed for a toll message usually based upon a minimum initial period and distance between exchanges.

**TOLL SERVICE** - Toll service (Long Distance Service) is that part of the total telephone service rendered by the Company which is furnished between customers in different exchange areas in accordance with the rates and regulations specified in the Company's Toll Tariff.

**Trouble Isolation Charge** - The charge applied for time spent by a Company employee on a repair visit to determine the source of trouble on customer-provided equipment, and/or inside wire.

**TRUNK LINE** - A circuit over which customers' messages are sent between two central offices or between a central office and a PBX system.

**UNDERGROUND SERVICE CONNECTION** - A customer's "drop" wire which is run underground from a pole line or an underground distributing cable.

**USER** - A person, not necessarily a customer, on whose behalf a contract for service has been entered into.

**WATS** - Wide Area Telecommunications Service. The furnishing of inward or outward switched telephone communications service between a wide area service line and specified service areas.

## A. Administrative (Continued)

MISSOURI

Public Service Commission

2. The Local Exchange Service Rates in this section are for line access service only and do not include any terminal equipment beyond the point of demarcation with the exception of Coin Box Service. The rates are subject to the conditions set forth herein and the General Regulations governing provision of service. The General Regulations are set forth in Section 2 of this Company's Tariff.

SEP 15 1994

## 3. Conditions

## a. Service Upgrades

BY 93-1

Public Service Commission

At locations where facilities permit, public service is not offered to customers requesting new telephone service or to customers requesting a change in their existing telephone service. (C)

Locations in which facilities permit the exclusive provision of One-Party service for all customers within an exchange will be designated as such on the Local Exchange Service Offerings Sheets, item B. following:

Those locations in which facilities permit the exclusive provision of one-party service for all customers within a designated area will be identified on the appropriate Exchange, Zone and/or Base Rate Area Map as approved by the Missouri Public Service Commission. Existing four-party customers will be allowed to continue their service until such time as they are upgraded by the Company as shown on the approved "Local Exchange Service Offerings" sheets and/or maps. At the time the customer's four-party service is upgraded to one-party service, the application of the normal Service Charge(s) will not apply.

The four-party conversion will consist of the following:

- 1) The Company will remove the party line instrument adapter, or, if modifiable, rewire the instrument. The customer will not be charged for a premises visit or for rewiring the instrument when required.
- 2) As the Company completes upgrading, as shown on approved "Local Exchange Service Offerings" sheets and/or maps, only business and residence individual line flat rate service will be available. One-party rates will be effective for each customer on the date the customer's service is upgraded to one-party service.

2. The Local Exchange Service Rates in this section are for line access service only and do not include any terminal equipment beyond the point of demarcation with the exception of Coin Box Service. The rates are subject to the conditions set forth herein and the General Regulations governing provision of service. The General Regulations are set forth in Section 2 of this Company's Tariff.

## 3. Conditions

## a. Service Upgrades

At the option of the Company, the upgrading of facilities will be accomplished on a line-by-line basis as facilities permit.

## b. Discontinuance of EAS

The Company will discontinue service from specific EAS routes between exchanges as a result of a survey as set forth following:

- 1) Company has received a petition or petitions from one of the affected exchanges requesting that the Company conduct a survey to determine whether EAS should be discontinued.

If prior surveys have been conducted in the affected exchanges, at least two years shall have elapsed since the last survey before an additional survey is initiated.

- 2) A minimum of 50% of the combined total customers in the affected exchanges must vote. Then, at least two thirds (66 2/3%) of the combined total customers in the affected exchanges voting, must vote to discontinue such service.

- 3) The survey cards will be returned by the customers to the Secretary of the Public Service Commission for validation and tabulation. The Public Service Commission will advise the Company of the survey results and, if the appropriate requirements are met, the Company will then discontinue such service, together with the appropriate EAS Rate Component, as soon as is practicable.

- 4) The term "customer" is defined in Section 3 of this Tariff.

## 5. Local Exchange Rate Component (Continued)

Public Service Commission

- a. 1) Schedule A and B Rate Group Classifications are determined by two elements. They are:

- a) Minimum grade of service offered in each exchange. (See 5.b. following).
- b) The Flat Rate Calling Area - A Flat Rate Calling Area is defined as the area within which station-to-station calling is permitted without the application of Message Toll Charges. Such an area may consist of one or more central offices, as well as one or more exchanges (as is the case when Extended Area Service is provided between exchanges).

The size of the Flat Rate Calling Area is determined by the total number of access lines, identified below:

Main Telephone Access Lines (Excluding Company Access Lines);  
 Centrex Administrative Lines;  
 Foreign Exchange Terminals of this Company;  
 Mobile Telephone Units, stations, including Fixed Units;  
 Public and Coin Box sets;  
 PBX and PABX Trunks;  
 Key Business Lines.

- 2) Schedule C rates are shown on Sheet 13.
- 3) Schedule Metro-I rates are shown on Sheets 13.1 and 13.2.
- b. The schedules of Local Exchange Rate Components, by class and grade of service shown on Sheets 11 through 13.2 are included herein:
- 1) Schedule "A" includes exchanges in which the minimum classes and grades of service offered are:

Within the Base Rate Area - business and residence individual access line service (B1-R1), and

Outside the Base Rate Area - rural business and residence four party service (AB4-AR4). (1)

## 5. Local Exchange Rate Component (Continued)

- a. 1) Schedule A and B Rate Group Classifications are determined by two elements. They are:

a) Minimum grade of service offered in each exchange. (See 5.b. following).

b) The Flat Rate Calling Area - A Flat Rate Calling Area is defined as the area within which station-to-station calling is permitted without the application of Message Toll Charges. Such an area may consist of one or more central offices, as well as one or more exchanges (as is the case when Extended Area Service is provided between exchanges).

The size of the Flat Rate Calling Area is determined by the total number of access lines, identified below:

Main Telephone Access Lines (including Centrex Administrative Stations);  
Foreign Exchange Terminals of this Company;  
Mobile Telephone Units, stations, including Fixed Units;  
Public and Coin Box sets;  
PBX and PABX Trunks;  
Key Business Lines.

2) Schedule C rates are shown on Sheet 13.

3) Schedule Metro-I rates are shown on Sheets 13.1 and 13.2. (N)

b. The schedules of Local Exchange Rate Components, by class and grade of service shown on Sheets 11 through 13.2 are included herein: (T)

1) Schedule "A" includes exchanges in which the minimum classes and grades of service offered are:

Within the Base Rate Area - business and residence individual access line service (B1-R1), and (T)

Outside the Base Rate Area - rural business and residence four party service (AB4-AR4).

INTERIM LOCAL CHARGE

MISSOURI

Public Service Commission

Effective May 9, 1990, the Company will charge customers, in addition to all other applicable rates and charges, an Interim Local Charge, as set forth below.

The following rates are designed to recover net estimated revenue losses associated with the implementation of Community Optional Service (COS). These rates will be in addition to all other applicable rates and charges as outlined in this tariff. (T)

The Interim Local Charge will recover the estimated net revenue losses associated with the implementation of Community Optional Service (COS) routes. (T)

If, after such review, the actual net revenue loss is found to be less than the revenue collected under this Interim Local Charge, the Company will make a credit or refund to customers of the difference between the actual net revenue loss and the revenue collected under this Interim Local Charge. Any such credit or refund will also include interest at a rate of 9% per annum.

In addition, after such review, the Interim Local Charge will be adjusted on a go forward basis in order to recover the actual net revenue loss. If the actual net revenue loss is greater than the revenue collected under this Interim Local Charge, then the Interim Local Charge will be adjusted on a go forward basis in order to recover the actual net revenue loss.

The following charges are applicable:

|            | <u>S &amp; E<br/>Code(s)</u> | <u>Monthly<br/>Rate(*)</u> |
|------------|------------------------------|----------------------------|
| Business:  | ILAB                         | \$2.10                     |

APR 11 1990

INTERIM LOCAL CHARGE

MISSOURI

Effective May 9, 1990, the Company will charge customers, in addition to all other applicable rates and charges, an Interim Local Charge, as set forth below.

This Interim Local Charge has been developed based on anticipated subscription to the initial nineteen (19) Community Optional Service (COS) qualifying routes. This Interim Local Charge is designed to recover the actual net revenue loss associated with the provisioning of COS. A review of this Interim Local Charge will be conducted to compare the net revenue loss projections versus the actual net revenue loss. If, after such review, the actual net revenue loss is found to be less than the revenue collected under this Interim Local Charge, the Company will make a credit or refund to customers of the difference between the actual net revenue loss and the revenue collected under this Interim Local Charge. Any such credit or refund will also include interest at a rate of 9% per annum. In addition, after such review, the Interim Local Charge will be adjusted on a go forward basis in order to recover the actual net revenue loss. If the actual net revenue loss is greater than the revenue collected under this Interim Local Charge, then the Interim Local Charge will be adjusted on a go forward basis in order to recover the actual net revenue loss.

The following charges are applicable:

|            | <u>S &amp; E<br/>Code(s)</u> | <u>Monthly<br/>Rate(*)</u> |
|------------|------------------------------|----------------------------|
| Business:  | ILAB                         | \$2.10                     |

MISSOURI  
Public Service Commission

6. Conditions (Schedule Metro-I)

- a. Local Calling Scopes (LCS) for the exchanges listed on Sheets 13.1 and 13.2 include all inter-exchange calling between exchanges.
- b. Toll calling points for intrastate/interLATA will remain the individual exchange entity.
- c. Upon MPSC approval of the Metro-I Schedule, the Company will conduct a survey by mail under the supervision of the Missouri Public Service Commission Staff.

If a simple majority (i.e. greater than 50 percent) of the customers voting from the Metro-I Schedule Exchanges, as of the date of the election, vote in favor of establishing the Metro-I Schedule at the filed rates, the service will be implemented.

## 7. Extended Area Service Rate Component

- a. The schedule for Extended Area Service Rate Component is shown on Sheet 16. Extended Area Service Rate Components assigned from this table are shown on Sheets 2 through 6 of this Section, following the Exchange Name and EAS Points.
- b. When the quantity of access lines in the Flat Rate Calling Area of an exchange through normal growth exceeds or falls below the access line element limits (Sheet 16 - Factor One and/or Factor Two) of its effective Extended Area Service Rate Component assignment for more than three consecutive months, the Company will automatically reassign the proper effective rate upon approval of revised tariffs filed with the Missouri Public Service Commission.
- c. When the scope of the Flat Rate Calling Area of an exchange is reduced by elimination of other exchanges from its Flat Rate Calling Area, the Company will recalculate the appropriate access line element (Sheet 16 - Factor One and/or Factor Two) by filing revised tariffs with the Missouri Public Service Commission.
- d. The Extended Area Service Rate Components are applicable to Intra-Company EAS routes only; with the exception of the three Inter-Company routes now existing (Milo, Revere and Roby exchanges). Parameters stated above specifically precludes EAS service to Metropolitan Exchanges.

## A. Administrative (Continued)

JUN 19 1989

## 7. Extended Area Service Rate Component (Continued) MISSOURI

(T)

Public Service Commission

- e. The Extended Area Service Rate Component is developed by using the Factors in the following steps:

## 1) First Step - Determine:

- Factor One. Total access lines in service within only the home exchange portion of the Flat Rate Calling Area.
- Factor Two. Total access lines in service within only the extended area portion of the Flat Rate Calling Area.
- Factor Three. The mileage increments between the home exchange and each extended area exchange is determined by cumulative air line measurement between toll rate centers. (See EAS Rate Component Schedule on Sheet 16).

## 2) Second Step - Apply:

- The access line element is determined by applying Factors One and Two into the Access Line Element Table shown on Sheet 16.
- The appropriate Extended Area Service Rate Component is then determined by using the Access Line Element (derived from 2)a) above) together with Factor Three shown on Sheet 16.

## 1) First Step - Determine:

- a) Factor One. Total access lines in service within only the home exchange portion of the Flat Rate Calling Area.
- b) Factor Two. Total access lines in service within only the extended area portion of the Flat Rate Calling Area.
- c) Factor Three. The mileage increments between the home exchange and each extended area exchange is determined by cumulative air line measurement between toll rate centers. (See EAS Rate Component Schedule on Sheet 16).

## 2) Second Step - Apply:

- a) The access line element is determined by applying Factors One and Two into the Access Line Element Table shown on Sheet 16.
- b) The appropriate Extended Area Service Rate Component is then determined by using the Access Line Element (derived from 2)a) above) together with Factor Three shown on Sheet 16.

METROPOLITAN CALLING AREA (MCA) PLAN

OCT 28 1993 (N)

A. General

MISSOURI  
Public Service Commission

1. The Metropolitan Calling Area (MCA) Plan is an optional plan for selected exchanges.

B. Service Description

1. MCA service is available in three distinct areas in Missouri: the St. Louis MCA, the Kansas City MCA and the Springfield MCA.
2. In GTE exchanges, MCA is an optional service which provides the subscriber with an optional local calling area including the respective Metropolitan Exchange and certain customers in other exchanges where MCA service is also available, as described in this Section.
3. Exchanges are grouped into different MCA rate classifications. In the St. Louis and Kansas City MCAs, exchanges where optional MCA service is available are classified as MCA-3, MCA-4 and MCA-5. In the Springfield MCA, exchanges where optional MCA service is available are classified as MCA-2.

C. Availability of Service

SEP 18 1994

1. St. Louis MCA

BY

93-1

- a. The GTE Midwest Incorporated (former GTE Missouri) MCA-4 exchanges where MCA service is available are: Dardenne, O'Fallon and St. Peters.
- b. The GTE Midwest Incorporated (former GTE Missouri) MCA-5 exchanges where MCA service is available are: Augusta, Defiance, Foristell, Moscow Mills, New Melle, Old Monroe, Troy, Wentzville and Winfield.

LOCAL EXCHANGE SERVICE

METROPOLITAN CALLING AREA (MCA) PLAN

C. Availability of Service (Cont'd)

2. Kansas City MCA

- a. The GTE Midwest Incorporated (former GTE Missouri) MCA-4 exchanges where MCA service is available are: Cleveland and Peculiar.
- b. The GTE Midwest Incorporated (former GTE Missouri) MCA-5 exchanges where MCA service is available are: Drexel, East Lynne and Garden City.

3. Springfield MCA

- a. The GTE Midwest Incorporated (former GTE Missouri) MCA-2 exchanges where MCA service is available are: Elkland, Fordland, Highlandville, Hurley, Marshfield, Ozark and Sparta.

D. Service Implementation

1. MCA service is being implemented between the first quarter of 1994 and September 1994. Service may not be available in all MCA exchanges during this time.

E. Calling Scope

1. Service Areas

- a. St. Louis MCA - The total service area for the St. Louis MCA is comprised of the following six groups of zones and exchanges:

- 1) MCA-Central includes the Principal Zone of Southwestern Bell's (SWBs) St. Louis Metropolitan Exchanges.
- 2) MCA-1 includes the following zones of SWBs St. Louis Metropolitan Exchange: Ferguson, Ladue, Mehlville, Overland, Riverview, Sappington and Webster Groves.

H. Regulations

1. Unless otherwise specified in these regulations, MCA is offered to all classes and grades of residence and business customers located in an MCA exchange. MCA Service is also available in conjunction with Foreign Exchange Service in a MCA exchange.

2. MCA Service is not offered in conjunction with Public, Semi-Public, Customer-Owned Pay Telephone or Cellular Service.

3. MCA is designed and intended for the exclusive use of the end user customers of the Company. MCA is not to be shared, resold or used in any configuration of customer-provided equipment with the intent of reselling the service. MCA is available to interexchange carriers or other telecommunications service providers for administrative trunks only.

4. Unless otherwise specified, MCA is subject to the Rules and Regulations applying to all customers as specified in the General and Local Exchange Tariff of the Company. Furthermore, all Rules and Regulations governing local exchange service apply to MCA service.

5. The minimum service period for subscription to MCA service is one month.

6. Rate Application

a. The MCA monthly rates as specified in this Section apply on a per-line basis except for CentraNet® or Centrex type services which will be billed on a PBX trunk equivalent type basis, as specified in the General and Local Exchange Tariff of the Company.

b. The MCA monthly rates are billed one month in advance.

c. MCA rates and charges apply in addition to all other rates and charges paid by the customer for other services of the Company.

7. Service Charges, as specified in this Tariff are applicable on a per line basis when a customer adds or deletes MCA service. These charges will be waived in an exchange for the first sixty (60) days from the date that MCA service becomes available in that exchange.

GENERAL SERVICES

BILLED NUMBER SCREENING SERVICE

A. GENERAL

1. Billed Number Screening Service is available to subscribers of the Company's local exchange services. This service prevents the billing of collect calls, third number billed calls or both to a customer's telephone account.
2. The minimum contract period for Billed Number Screening Service is one month.

B. RATES

1. The following rates and charges apply to the provisioning of Billed Number Screening Service and are in addition to all other applicable charges as specified elsewhere in the Company's tariff.

|                                                                                                      | <u>GSEC</u>         | <u>Monthly<br/>Rate</u> | <u>Nonrecurring<br/>Charge</u> |
|------------------------------------------------------------------------------------------------------|---------------------|-------------------------|--------------------------------|
| a. Option 1 - No Collect or<br>Third Number Billing,<br>per line screened<br>over 49 lines, per line | IN SCREEN<br>BNSBLK | \$1.50<br>1.00          | \$ *<br>*                      |

GENERAL SERVICES

COIN TELEPHONE SERVICE

Public Telephone

A. General

Public Telephone Service is furnished for use of the general public at the option of the Company and is not a substitute for business service.

B. Rates

Each local message . . . . . \$ .25

C. Conditions

1. Standard booths may be furnished for Public Telephone Service at no charge when in the judgment of the Company they are required.
2. Directory listings will not be provided in conjunction with Public Telephone Service.
3. The Company retains the option of furnishing and placing such signs as may be necessary.
4. The Company will continue to install and maintain inside wire for Company owned coin sets.
5. The Company may furnish public telephones without coin collecting equipment in selected locations for the purpose of satisfying demand for optional billing services on an originating basis only. In the normal mode, Coinless Public Telephone service affords customers the option of selecting a preferred billing arrangement for outgoing messages, charging to a third number or to a Company credit card account, or placing calls collect. In certain locations, however, calls may be billed on a collect basis only.

CUSTOM CALLING SERVICE

MO. PUBLIC SERVICE COMM.

A. General

Custom Calling Service consists of one or more of the following features which provide special kinds of customer controlled or prearranged and fixed communications features on individual access lines. Custom Calling Service is available only through central offices which, at the Company's option, are appropriately equipped. Operating specifics may vary by central office equipment type but can be described generally as:

1. Call Forwarding - Permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer. (See NOTE.)
  - a. Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.
2. Call Forwarding Busy Line (Fixed) - This service, permanently activated, provides customers the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access line number, Digital Centrex line number, or other line number of the customer at another location on a different premises when such incoming calls encounter a normal busy line condition.
  - a. Calls Forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.

## A. General

MISSOURI

Custom Calling Service consists of one or more of the following features which provide special kinds of customer-controlled/pre-arranged Communications features on individual access lines. Custom Calling Service is available only through central offices which, at the Company's option, are appropriately equipped. Operating specifics may vary by central office equipment type but can be described generally as:

1. Call Coverage-Busy Line is a call forwarding pre-arranged feature which allows calls attempting to terminate on a busy station to be forwarded to a customer's Message Manager or answering service number. This feature makes possible the completion of calls that would normally reach "busy" treatment, and allows the caller to leave a message on the customer's voice mailbox. The number of the remote station is fixed and must be entered within the switch when the feature is assigned. The number cannot be activated or arbitrarily changed by the customer. The number of calls that may be forwarded is implicitly controlled by the available lines at the destination and explicitly controlled by the Company, which has the ability to limit the number of simultaneous forwardings due to the Call Coverage-Busy Line feature. (\*)

CANCELLED

- a. Calls Forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.

Public Service Commission

2. Call Coverage-No Answer is a call forwarding pre-arranged feature which allows customers to have their telephone calls automatically forwarded to their Message Manager number if not answered within a specific number of rings. This feature allows for the completion of calls that would normally go unanswered, allowing callers to leave a message on the customer's voice mailbox. The number of the remote station is fixed and must be entered within the switch when the feature is assigned. The number cannot be activated or arbitrarily changed by the customer. The number of calls that may be forwarded is implicitly controlled by the available lines at the destination and explicitly controlled by the Company, which has the ability to limit the number of simultaneous forwardings due to the Call Coverage-No Answer feature.

- a. Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.

NOTE: The grade of transmission on calls forwarded and three-way calling may vary upon the distance and routing required to complete such calls; therefore, the normal grade of end-to-end transmission cannot be guaranteed on such calls.

A. General (Continued)

3. Call Forwarding No Answer (Fixed) - This service, permanently activated, provides customers the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access line number, Digital Centrex line number, or other line number of the customer at another location on a different premises when such incoming calls encounter a no answer condition after a specific number of rings, such number of rings to be specified when this service is ordered. (C)
- a. Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number. (C)
4. Call Forwarding Busy Line/No Answer (Fixed) - This service, permanently activated, provides customers the ability to redirect incoming calls to their home or business to the customer's preselected Automatic Access line number, Digital Centrex line number or other line number of the customer at another location on a different premise when such incoming calls encounter either a normal busy line condition or a no answer condition. (N)
- a. Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number. (N)
5. Call Screening - Enables the customer to restrict outgoing operator handled and direct dialed toll calls from the service point to only those calls which are charged to the called number, a third number or to a calling card account. Incoming screening prevents collect or third number calls from being billed to the line. (T)
6. Call Waiting - Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call. (T)

CUSTOM CALLING SERVICE (Continued)

## A. General (Continued)

MISSOURI  
Public Service Commission

3. Call Forwarding--Permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer. (See NOTE.)
  - a. Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.
4. Call Screening--Enables the customer to restrict outgoing operator handled and direct dialed toll calls from the service point to only those calls which are charged to the called number, a third number or to a calling card account. Incoming screening prevents collect or third number calls from being billed to the line.
5. Call Waiting--Provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call.
6. Remote Call Forwarding--Allows calls placed to a customer's telephone number in one central office to automatically be forwarded by company central office equipment to another customer designated line located outside that central office's serving area. (See NOTE.)
7. Speed Calling--Permits customer calling to other telephone numbers through the dialing of a code rather than an entire telephone number. Two capacities are available: 8- or 30-number code lists.
8. Three-Way Calling--Allows for the addition of a third number to a connection made between two numbers without the assistance of a company operator. (See NOTE.)
9. Distinctive Ringing--Enables customers to have multiple telephone numbers associated with a single line. This service will enable the customer to receive calls dialed to two or more numbers without having additional lines. A distinctive ringing pattern will be provided for each of the additional telephone numbers to facilitate identification of incoming calls. An additional directory listing is included at no charge.

11. (Cont'd)

For calls originating from a line with a multiline hunt group, ordinarily the main telephone number is delivered. If the calling telephone number is not available for forwarding to the called party, the customer's display device will give an anonymous indication. The calling telephone number is unavailable from calls made through some large PABX systems, from most cellular radio calls, and currently from interexchange carrier calls. Nor is the calling telephone number made available when incoming calls have been handled by an operator or charged to credit cards.

Customers subscribing to Calling Number ID will be responsible for the provision of compatible display equipment. The Company assumes no liability for any incompatibility of the customer provided display equipment.

Caller ID information may not be sold or given to another party without the caller's consent. Caller ID information may only be used for: (a) routing or completion of calls, (b) billing of calls, (c) account management purposes, (d) services directly related to the call or transaction, (e) verification of calling party identity and (f) marketing products or services that are directly related to those previously acquired by the customer from the number delivery services subscriber. This applies if the number delivery services subscriber has an existing relationship with the customer. Caller ID customers failing to comply with any of these conditions will have their service terminated.

MISSOURI  
Public Service Commission

A. General (Continued)

12. Cancel Calling Number Delivery (Per Call) - Allows customers, in areas where Calling Number Identification is available, to inhibit the delivery of their telephone number to an identification device, by activating blocking immediately prior to a call.
13. Cancel Calling Number Delivery (Per Line) - Allows a single-line customer to make all calls with the delivery of his/her calling number identification (CNI) marked as "private" to the people he/she is calling. If the preassigned access code for Cancel Calling Number Delivery (Per Call) is dialed on the line, the calling number will be delivered on the next call placed.

This service is available only to established shelters of domestic violence intervention agencies, state and county departments of human resource shelters, law enforcement agencies and other such agencies, their employees and volunteers, or individuals where it is certified that the personal safety of these employees or individuals will be jeopardized without Per Line blocking.

14. Automatic Busy Redial - is an arrangement which permits the customer (N) to redial automatically the last number dialed. If the called line is found to be busy, a 30-minute queuing process begins. The customer is then given an indication that the network will attempt to set up the call when the called line is idle. The network periodically tests the busy/idle status of the called line until both lines are found idle, the customer cancels the request, or the queuing process expires. If both lines are found to be idle, the calling party is alerted with a distinctive ring signifying that the call can now be completed. (N)

A. General (Continued)

15. Automatic Call Return - allows a customer to automatically return the (N)  
last incoming call whether it is answered or not. Upon activation of  
the feature, the number of the most recent party who called is dialed  
automatically. If the called line is found to be busy, a 30-minute  
queuing process begins. The customer is given an indication that the  
network will attempt to set up the call when the called line is idle.  
The network periodically tests the busy/idle status of both parties  
until both lines are found idle, the customer cancels the request, or  
the queuing process expires. If both lines are found to be idle, the  
calling party is alerted with a distinctive ring signifying that the  
call may now be completed.
16. Call Block - allows a customer to block incoming calls from a maximum  
of 12 telephone numbers. The customer also can block incoming calls  
placed from the last calling number even if the number is unknown to  
the customer. Blocked calls are routed to a recorded announcement  
which specifies that the called party is not accepting calls.
17. Call Tracing Service - allows the customer to immediately and  
automatically trace the last incoming call received from a local  
service. Upon the customer's request the trace information will be  
provided to law enforcement agencies by the Company but will not be  
released directly to the customer. To initiate the call trace, the  
customer must contact the Company at the number provided in the voice  
announcement within ten (10) days of the incident. Call Tracing  
Service performs the function of recording call information, but in no  
way identifies the person(s) actually placing the call(s). By  
accepting the Service, the customer agrees that GTE shall not be  
liable for damages due to an inability to trace the call(s). Call  
Tracing Service will be the only nuisance call tracing service  
available to residential one-party and business one-party customers  
where this feature is offered. (N)

18. Special Call Acceptance - allows a customer to select (maximum of 12) (N) customer telephone numbers from which calls are to be received. All other calls are intercepted and routed to a recorded announcement that informs the caller the customer is not accepting calls. Calls from numbers outside the specified exchanges will ring normally.
19. Special Call Forwarding - is an arrangement which permits a customer to prespecify telephone numbers (maximum of 12) from which incoming calls are to be forwarded. During the period that Special Call Forwarding is activated, only calls from the prespecified numbers will be forwarded.
20. Special Call Waiting - allows a customer to choose up to 12 numbers which can activate Call Waiting. Incoming calls placed from numbers not selected by the customer receive busy signals when the customer's line is busy. Customers may not subscribe to Call Waiting and Special Call Waiting on the same line.
21. VIP Alert - allows a customer to program up to twelve (12) telephone numbers of selected callers enabling the customer to distinguish certain incoming calls from all others by a distinctive ring tone. If a customer also subscribes to Call Waiting, calls from the selected numbers will be distinguished by a special Call Waiting tone. (N)

CUSTOM CALLING SERVICE (Continued)MISSOURI  
Public Service Commission

## C. Conditions

1. Custom Calling Service may be provided on individual lines, Private Branch Exchange trunks and key business lines and may not be provided in conjunction with coin telephone services.
2. The grade of transmission on calls forwarded and three-way calling may vary upon the distance and routing required to complete such calls, therefore, the normal grade of end-to-end transmission cannot be guaranteed on such calls.
3. When the Remote Call Forwarding Customer requests a number change for the call forwarding location, the number to which calls are forwarded to or both, Service Order charges as specified elsewhere in this tariff apply.
4. Remote Call Forwarding may not be terminated in a coin telephone.
5. Identification of the originating telephone number will not be provided to Remote Call Forwarding customers.
6. Transmission quality may vary depending on the routing required, thus Remote Call Forwarding is not represented as suitable for transmission of data or for being forwarded again at the distant location.
7. Remote Call Forwarding is provided on the condition that the customer subscribe to sufficient facilities to adequately handle calls without interfering or impairing services offered by the Company. If, in the opinion of the Company, additional Remote Call Forwarding facilities are needed to avoid interference with or impairment of services offered, the customer will be required to subscribe to such additional facilities. In the event the customer refuses to subscribe to adequate Remote Call Forwarding facilities, the service shall be subject to termination.
8. The Remote Call Forwarding terminating telephone may not be equipped with the Call Forwarding Feature.

CUSTOM CALLING SERVICE (Continued)

**MAR 24 1993**

C. Conditions (Continued)

**MO. PUBLIC SERVICE COMM.**

9. Call Charges

- a. The originating station is responsible for all charges on calls placed to the Remote Call Forwarding number as specified elsewhere in these tariffs.
- b. The calling party is responsible for toll charges associated with calls between the originating telephone and the call forwarding location. The Remote Call Forwarding customer is responsible for the applicable customer dialed station-to-station charges associated with messages between the call forwarding location and the terminating telephone. On local calls, the Remote Call Forwarding customer is responsible for the payment of applicable Measured Service usage charges per the appropriate local exchange tariff, the local area calling message charges, or extended area service rates referred to in this tariff.

10. Remote Call Forwarding is not available with Metropolitan Optional Service Plan (MOSP) which is associated with Extended Area Service.

11. Thirty (30) Day Money Back Guarantee

- a. If the customer notifies the Company he is not satisfied with the service(s), the customer will be entitled to a full refund of one (1) month's monthly recurring charge (MRC), or portion thereof if subscription is less than 30 days. The feature(s) for which the credit is being issued will be discontinued from the customer's line. This refund will be applied as a credit on the customer's bill. Each customer will be entitled to the credit one time per service. Customers who initially request a Custom Calling feature(s) as listed following, will have 45 days from initiation of service to notify the Company of their intent to cancel the feature(s) and receive the full 30 day refund. Any customer that has had a Custom Calling feature(s) in service more than 45 days will not be eligible for the refund on that feature(s).

CUSTOMER OWNED PAY TELEPHONE SERVICE

FEB 10 1994

A. General

MISSOURI  
Public Service Commission

1. Customer Owned Pay Telephone Service will apply for use with customer provided instrument-implemented pay telephones at locations accessible to the public, e.g., stores, business places, including boarding or rooming houses, employee lounges and school or college buildings, where desired by the owner of the premises. Customer Owned Pay Telephone Service includes coin, coinless, card reader or a combination of coin/card reader telephones.
2. Customer Owned Pay Telephones must be connected to a Customer Owned Pay Telephone Access Line. Only one Customer Owned Pay Telephone may be connected to a Customer Owned Pay Telephone Access Line.
3. Joint User Service may be furnished in connection with Customer Owned Pay Telephone Service.
4. Directory listings may be provided under the regulations governing the furnishing of listings for business main line subscribers. However, listings (not indicating a business or profession) provided in connection with Customer Owned Pay Telephone Service furnished at boarding or rooming houses or at other locations where the party desiring the additional listings resides, are furnished under the regulations covering the furnishing of listings in connection with residence main line service.
5. Customers who provide Customer Owned Pay Telephone Service shall not charge users more than twenty-five cents (\$.25) per local telephone call.
6. For purposes of this tariff, the term "customer" is defined as the party responsible for payment of the Customer Owned Pay Telephone Service access line.
7. Any surcharge established with a rate recovery mechanism to recover the costs of implementing and maintaining programs as provided for in R. S. MO 190-300 (8) and 209.255, e.g., surcharges for Emergency Telephone Number Service (9-1-1) or Dual Party Relay/Telecommunication Relay Service, shall not be imposed on access lines used to provide pay telephone service.

(T)

B. Responsibility of the Customer (Continued)

MISSOURI  
 Public Service Commission

6. Each customer must provide, attached to the set, instructions for use including specific instructions for the above requirements, refunds and complaints, one-way calling if so equipped, long distance, access instructions, that the customer provided pay telephone set is not a Contel of Missouri, Inc. Public Telephone. Said instructions shall also show the telephone set's working telephone number and include a local or toll free number to allow the public to directly contact the private pay phone owner. (T)
7. Must provide and attach to the set, a notice that detailed toll billing records showing date and time of all calls, together with the called numbers, will be provided by Contel of Missouri, Inc. to the Customer Owned Pay Telephone Service customer, who shall be identified by name in said notice. (1) (N)
8. The Customer-Owned Pay Telephone Service customer shall indemnify and hold Contel of Missouri, Inc. harmless from any and all loss, damage and expense occasioned by or arising out of claims for injury to persons or damage to property caused by or contributed to by the provision of detailed toll billing records to the Customer Owned Pay Telephone Service customer by Contel of Missouri, Inc., including but not limited to, any disclosure of said detailed toll billing records by the Customer Owned Pay Telephone customer. (N)
9. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message. (T)
10. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Customer Owned Pay Telephone Service (COPTS) and for providing proof of said authority prior to installation of service. (T)

C. Violation of Regulations

1. Where any customer-provided instrument-implemented pay telephone is in violation of this tariff, the Company will promptly notify the customer of the violation and will take immediate action, including the disconnection of service, as is necessary for the protection of the telecommunications network and Company employees. (T)

(1) This includes only toll calls billed by Contel of Missouri, Inc. (N)

## B. Responsibility of the Customer (Continued)

Public Service Commission

6. Each customer owned coin telephone must prominently display the name and a contact telephone number for the provider of that telephone. The charges for local service and any surcharges on long distance calls, must also be prominently displayed.
7. The customer shall not program or cause to be programmed any such telephone used in connection with this service to limit the duration of a local message.
8. The customer shall be responsible for obtaining a Certificate of Service Authority (CSA) to provide Customer Owned Coin Telephone Service (COCTS) and for providing proof of said authority prior to installation of service.

## C. Violation of Regulations

1. Where any customer-provided instrument-implemented coin telephone is in violation of this tariff, the Company will promptly notify the customer of the violation and will take immediate action, including the disconnection of service, as is necessary for the protection of the telecommunications network and Company employees.
2. The customer shall discontinue use of the customer-provided instrument-implemented telephone or correct the violation and notify the Company in writing within 5 days after receipt of such notice that the violation has been corrected.
3. Failure of the customer to discontinue such use or to correct the violation will result in the suspension of the customer's service until such time as the customer complies with the provisions of this tariff.

## D. Rates

1. Nonrecurring Charges, as specified in Section 6, SERVICE CHARGES, apply in addition to other charges specified for Customer Owned Coin Telephone Service.
2. A "local message" from Customer Owned Coin Telephone Service served by a given exchange, is a completed local call originating at such service and terminating at any service which may be called without a toll charge.

CUSTOMIZED NUMBER SERVICE

MO. PUBLIC SERVICE COMM.

A. General

1. Customers of the Company may request assignment of specific telephone numbers. If the telephone number or numbers requested by the customer are available, the Company may assign the number to the customer.
2. The Company will do its utmost to protect specific number assignments requested by the customer from changing. However, unavoidable circumstances may arise where the number assignment may need to be altered. In these instances, the Company reserves and retains the right:
  - a. To discontinue, change or reassign telephone numbers in any exchange area whenever it deems it necessary or appropriate in the conduct of its business, or in accordance with the rules and procedures of the Company. If this should occur, the Customized Number Service Charge will not be refunded to the customer.
  - b. To reject any request for specific telephone numbers for any reason, including but not limited to: relocation of a central office, limited central office capacity, or numbers that may, in the Company's sole opinion, be offensive to the public.
  - c. Of ownership of all telephone numbers and prohibits the assignment of a telephone number by or from any customer to another, except as otherwise provided in this Tariff.

B. Rates

1. The appropriate Service Charges as found in Section 6 of this Tariff will apply for Customized Number Service in addition to the following monthly charges.

DIRECT INWARD DIALING SERVICE (DID) (\*)MISSOURI  
Public Service Commission

Direct Inward Dialing Service To Customer Premises Located Switching Systems

## A. General

1. Direct Inward Dialing Service to customer premises located switching systems is furnished subject to the availability of facilities and the availability of telephone numbers.
2. The service includes the central office switching equipment necessary for direct inward dialing from the exchange and long distance message telecommunications network directly to terminal equipment associated with customer premises located switching systems.
3. The service must be provided on all lines in a trunk or network access line group arranged for inward service. Routing of calls to selected numbers within the direct inward dialing number group over a separate trunk or network access line group is not contemplated.
4. The charges for the service, as provided in B. Rates following, are in addition to all applicable charges for PBX/PABX service with which this service is associated and the applicable network access line and service charges.
5. Operational characteristics of interface signal between the Company-provided connecting arrangements and the customer-provided switching equipment must conform to the rules and regulations the Company considers necessary to maintain proper standards of service.
6. The Company shall not be responsible to the customer or authorized user or joint user if changes in protection criteria or in any of the facilities, operations or procedures of the Company render any facilities provided by a customer, authorized user or joint user obsolete or require modification or alteration of such equipment or system or otherwise affect its use or performance.
7. Direct-in-dial Trunks may be provided in the quantity determined by the Company to be sufficient for adequate service, only in exchanges where the Central Office is equipped for such service. When otherwise provided, Direct-in-dial Trunks will be furnished at rates based on cost.

DIRECTORY ASSISTANCE SERVICE

SEP 18 1994

MISSOURI

## A. General

BY

93-1

Public Service Commission

Directory Assistance is a service furnished by the Company which allows customers to obtain telephone numbers by calling the Directory Assistance number.

1. Directory Assistance is subject to the regulations and charges shown herein.
2. Charges for Directory Assistance Service apply when customers of the Company request assistance in obtaining telephone numbers in the local calling area (1 + 411) in which the customer receives Local Exchange Service.
3. Charges also apply for providing Directory Assistance Service for telephone numbers located outside the local calling area but within the same customer Area Code (1 + 555 + 1212).

## B. Regulations

1. An allowance of three calls per month, at no charge, will be made for each access line.
2. A maximum of two requested telephone numbers is provided with each Directory Assistance call.

## C. Exemptions

1. Charges for Directory Assistance Service are not applicable to calls placed from:
  - a. Hospitals
  - b. Customers who certify through the business office that they are unable to use a directory because of a visual or physical handicap.
  - c. Coin Boxes
2. Charges for Directory Assistance Service do not apply when the number requested is in the same area code as the customer and a sent paid, home area code, long distance call appears on the customer's bill within the same billing period.

## C. Conditions

1. A primary listing, which may include the name, address and telephone number of the individual, organization, firm or corporation for whom the service has been contracted, will be furnished at no charge.
  - a. Listings will be limited to such information as is necessary for proper identification.
  - b. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
  - c. The Company may refuse to insert any listing which in its judgment does not facilitate the use of the directory.
2. An additional listing may include the same address and telephone number as the primary listing, except that a different address may be shown for line access terminations located on other premises occupied solely by the customer.

Additional listings may be furnished with business or residence service for members of the same family who occupy the same premises at the rates shown above.

A dual name listing uses the same surname with no more than two individual given names. Each given name is defined as any combination of the following, not to exceed two:

(1) Applicable to the former Webster County Telephone Company customers only.

3. An alternate call listing refers a calling party to certain other telephone numbers after business hours or on Sundays or holidays, or if there is no answer on the first listed number.

Where the alternate call number is to be that of another customer, the listing will be furnished only with written approval of the other customer.

4. Nonlisted service is the omission of a customer's listing from the telephone directory only. It may be obtained from the directory assistance operator.
5. Nonpublish service is the omission of a customer's listing from both the telephone directory and information records.
- a. When nonpublish service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
  - b. No charge will apply to nonpublished numbers for customers having other listed services.
6. Line of Information is listed information in addition to a primary or extra listing that is intended to supply additional or special instructions to the calling parties.
7. The charge for additional, alternate, nonlisted or nonpublished listings begins on the day the information records are posted.
8. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is distributed to the customers to the day the succeeding directory is distributed to the customers. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for at least thirty days.

GENERAL SERVICESEMERGENCY CONFERENCE SERVICEMISSOURI  
Public Service Commission

## A. General

Emergency Conference Service is furnished in the interest of the public safety by means of equipment located in a central office of the Company. These Conference/Alerting Systems are multistation ringdown telephone conference circuits designed primarily for use in local emergency reporting and alerting applications. These systems provide simultaneous access to up to 60 local stations either from a dedicated telephone (i.e., a "master" station) or from any local telephone via a listed directory number.

The systems, in their reporting and alerting capacities, provide volunteer firemen and other emergency teams with emergency conferencing capabilities.

EMPLOYEE DISCOUNT SERVICE (\*)MISSOURI  
Public Service Commission

## A. General

Employees' Service is offered to all permanent, full-time employees at their residence telephones when such telephone service is provided by this Company.

## B. Rates

1. Service may be furnished to employees by the Company at a less than standard rate for each service in the residence when, in its judgment, the interests of the Company in rendering continuous service to the public will be advanced.
2. Concessions may be made to employees for miscellaneous equipment or facilities.
3. No concessions will be made to employees for installations, moves, and changes.

## C. Conditions

1. Employees' Telephone Service at their residence is available to employees of the Company having at least three months continuous credited service with the Company. This service is not available when the employee resides in a boarding and/or rooming house.
2. One primary listing may be provided in the name of the employee (except that the listing of a married woman may be in her or her husband's name.)

LOCAL OPERATOR SERVICEMISSOURI  
Public Service Commission

## A. General

1. Local Operator Service is furnished to customers upon their request in order to complete local calls.
2. There are five classes of local service offered; Credit Card Calls, Operator Station Calls, Person to Person, Busy Line Verification and Busy Line Interrupt. When operator assistance is required to complete a local call, the rates appearing under B. Rates will apply.

## a. Calling Card Calls

Customer dialed "0+" calls and completed by the caller or completed by the operator that will be billed to the caller's calling card instead of the telephone originating the call.

## b. Operator Station Calls

Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or to a third number. Includes operator placed calls to Directory Assistance.

## c. Person-to-Person Calls

Customer dialed "0-" calls where the operator completes the call and arranges billing. Can be billed to the originating telephone number, calling card, collect or a third number.

## d. Busy Line Verify

Customer requested operator assistance in determining if a called line is actually busy or out-of-service.

## e. Busy Line Interrupt

Calls wherein the customer requests the operator to interrupt conversation on a busy line and give a message to the person whose line is being interrupted.

SEASONAL AND VACATION SERVICE (\*)MISSOURI  
Public Service Commission

## A. General

Seasonal and Vacation rates service is provided to residence or business customers whose requirements for telephone services are less than that which might normally be provided in any twelve month period.

## B. Rates

1. The monthly rate will be based upon 50% of the regular rate for the basic and associated additional services suspended for a minimum of 30 days and a maximum of 120 days.
2. Appropriate Service Charges apply for restoral of service.

## C. Conditions

1. Seasonal and Vacation rates service will be furnished under the following conditions:
  - a. Available to all grades of residence and business exchange service where the usage is of a seasonal nature.
  - b. Outward service may be provided at the Company's option during the period of suspension if equipment capabilities permit.
  - c. Charges may be billed in total prior to the suspension of service, or monthly at the option of the Company.

900 CALL BLOCKING SERVICE

## A. General

**MISSOURI**  
**Public Service Commission**

900 Blocking Service provides residence and business customers with the ability to block access from a particular network access line to all telephone numbers for which the 900 NPA must be dialed.

The service is classified as a local exchange telecommunications service.

## B. Rates

1. The subsequent Service Order Charge as stated in Section 6 of this Tariff is applicable to the initial business line blocked. Each additional line is subject to an additional charge as follows:

|                               | <u>S &amp; E<br/>Code</u> | <u>Nonrecurring<br/>Charge</u> |
|-------------------------------|---------------------------|--------------------------------|
| Business, per additional line | BLK2                      | \$4.00                         |
| Residence                     | I.D. Only CB9             | No Charge                      |

2. If 900 and 976 Blocking Service are ordered at the same time, only one Subsequent Service Order Charge or Nonrecurring Charge applies per line.

## C. Conditions

1. The Company's obligation to furnish network facilities for 900 Blocking Service is dependent upon the availability of suitable facilities. Because of central office and other facility limitations, it may not be possible for the Company to provide all of the services that may be requested.
2. 900 Blocking Service is available only for blocking access to all 900 NPA telephone numbers from a particular network access line, and not for blocking access to a specific 900 NPA telephone number.

~~RECEIVED~~SERVICE CHARGES

FEB 1 1989

## A. General

MISSOURI  
Public Service Commission

Service charges are nonrecurring charges for establishing services or modifying existing service. Service charges are caused by customer requests only.

## 1. Service Order Charge

- a. The charge for receiving and recording information from a customer or applicant. One of the following will apply:
- b. A primary charge applies to customer requests initiating service.
- c. A subsequent charge applies to all customer requests other than those initiating service.

## 2. Central Office Charge

- a. The charge for work associated with the central office including but not limited to central office connections and cable cross connections.
- b. The charge for one to four software changes made to the stored program of an Electronic PBX, performed at the same time.

## 3. Restoration of Service Charge

- a. The charge for restoring service after suspension for which the customer is responsible.

1. Charges in this section apply in addition to all other rates and charges in this tariff unless specifically excepted.
2. One or more charges may be applicable, based on the services requested by the customer.
3. Only one service order charge applies per customer contact.
4. Restoration of Service Charge (S & E Codes: CRSB, CRSR) applies to service reconnected after disconnection for nonpayment, and applies in lieu of any other service charges.
5. For each line termination handled, a Wiring Charge will apply.

C. Exceptions

Service charges do not apply to:

1. Removal or discontinuance of equipment.
2. Termination of service.
  - a. Service Charges do apply to a change in service, i.e. conversion from touch calling to rotary capability.
3. Service established at an interim location nor to the subsequent re-establishment of service at the same or another location, due to the destruction of the customer's premises by a natural disaster, flood or other acts of God. (C)
4. Main service regrades.
5. Calling card requests.
6. Billing Address Changes.
7. Legal Name Changes.

E. Special Promotions

1. At various times throughout the year, the Company may propose to offer a special promotion in various exchanges equipped to provide Custom Calling Services, in order to increase the number of features in service. The Company will notify the Commission in advance of these promotions and obtain their approval.
  - a. GTE Missouri requests a waiver of service connection charges for Custom Calling Features and Touch Call Services for all exchanges.
  - b. The time frame requested for this waiver will be ninety (90) days beginning March 1, 1994 through May 29, 1994. (C)
2. In conjunction with the Company's schedule of central office conversions, GTE Missouri will conduct a special promotion limited to the following exchanges:

| <u>Exchange(s)</u> | <u>Conversion Date</u> |
|--------------------|------------------------|
| Wheatland          | 5/11/93                |

E. Special Promotions

1. At various times throughout the year, the Company may propose to offer a special promotion in various exchanges equipped to provide Custom Calling Services, in order to increase the number of features in service. The Company will notify the Commission in advance of these promotions and obtain their approval. (C)

- a. GTE Missouri requests a waiver of service connection charges for Custom Calling Features and Touch Call Services for its Licking exchange.

The time frame requested for this waiver will be ninety (90) days beginning with the effective date of this tariff, November 8, 1991 through February 8, 1992. (C)

## E. Waivers

(N)

- The Company may, during certain promotional periods, waive or discount Service Charges, as listed under 3. below, and/or monthly rates for a designated period of time. The Company will notify the Missouri Public Service Commission in advance of these promotions and obtain their approval.
- Specific Service Charges may, at the option of the Company, be waived for a period not to exceed 60 days prior to, and 60 days following the conversion to a digital central office, or with the establishment of Touchtone and/or Custom Calling type services.

SERVICE CHARGES

## E. Link Up Missouri

Assistance For Initiating Service

## 1. Applicability

Applicable to qualifying residential households as defined under eligibility requirements below. These reduced charges described below shall be assessed only for a single residential telephone line per eligible household at principle place of residence.

- a. All tariffed charges applied in initiating telephone service to residential customers shall either be reduced by one half of the amount required to connect the customer to the local telephone network or thirty dollars, whichever is less.
- b. An interest free, 6-month deferred payment schedule will be established for the charges of initiating local telephone service at the customer's option. The company shall inform each eligible customer of the availability of the 6-month deferred payment schedule.

## 2. Eligibility Requirements

The following requirements shall be used by the company to determine the eligibility of a customer for Link Up Missouri assistance.

- a. For federal income tax purposes, the applicant is not a dependent unless over sixty years of age.
- b. The applicant is currently receiving MEDICAID/medical assistance payments from the State of Missouri, and has provided their Department of Social Services Client Number (DCN) to the Company.

FEB 22 1991

## A. GENERAL

MISSOURI

Public Service Commission

1. Lifeline Service applies a credit to the Basic Local Exchange Service monthly recurring access line rates for qualifying residential customers.

## 2. Eligibility Requirements

Lifeline Service is available to those customers who are certified by the Department of Social Services as eligible to receive Utilicare benefits. The Department of Social Services shall inform such persons about how to apply for assistance under the Lifeline Service plan and shall provide to each person documentation of eligibility for participation in the program.

## B. CONDITIONS

1. Lifeline Service is limited to one line per household at the customer's primary residence.
2. Service charges do not apply when Lifeline Service is added to an existing service, or is discontinued, and it is the only service being ordered.
3. A total credit of \$4.00 applies as follows:

|                                                                        | S&E<br>Code | Monthly<br>Rate |
|------------------------------------------------------------------------|-------------|-----------------|
| a. A credit applies to the monthly Federal Subscriber Line Charge, and | SLCR        | \$ 2.00         |
| b. A credit applies to the monthly access line rate.                   | ALCR        | 2.00            |

4. All recurring or non-recurring charges for any service other than Lifeline Service shall be billed at tariffed rates.
5. When the customer is no longer eligible for Lifeline Service, the Lifeline credit will be discontinued and regular tariffed rates and charges will apply.

DIGITAL CENTREX SERVICE

SEP 18 1994

MISSOURI

(T)

## A. General

BY 93-1 Public Service Commission  
 Digital Centrex Service is a fully integrated digital communication Central Office service designed to serve customers from 2 to 200 lines.

## B. Rates

1. The rates set forth below are for Company provided services & equipment; station equipment is located at the designated customer location(s).
2. Digital Centrex Service Access Rates:
  - a. In addition to rates as specified below, individual access line rates for LOCAL EXCHANGE SERVICE, Section 4, apply as appropriate.
  - b. The Federal Subscriber Line Charge (End User Charge) applies to both the local exchange individual access lines as well as Digital Centrex Intragroup Calling Lines and is in addition to the rates described in 3b. below.
  - c. Installation and/or change charges are applicable as set forth in Section 6, SERVICE CHARGES of this tariff.
3. Intragroup Calling Services (lines not designated as access lines).
  - a. Intragroup Calling Service lines provide communication paths for intra customer calling.
  - b. Intragroup Calling Service Monthly Rates Per Line:

| <u>1 - 200 lines</u> | <u>S &amp; E Code</u> | <u>Monthly Rate</u> |
|----------------------|-----------------------|---------------------|
| 0 - .5 miles         | IG01                  | \$3.25              |
| .6 - 1.0 miles       | IG02                  | 4.50                |
| 1.1 - 1.5 miles      | IG03                  | 5.70                |
| 1.6 - 2.0 miles      | IG04                  | 6.95                |

CONTEL ENHANCED BUSINESS SERVICES (Continued)MISSOURI  
Public Service Commission

## C. Conditions

1. Customer premise equipment must be compatible with the services and equipment provided by the Company.
2. Contel Enhanced Business Services is offered as a service in exchanges where facilities are available.
3. The minimum charge for services provided under this shall be one month.
4. Touch calling service is necessary in order to have the Contel Enhanced Business Services features. Touch calling service is provided at the rates specified in Section 5 of this tariff.
5. Any combination of Contel Enhanced Business Services features listed in paragraph D. may be added to a one party touch calling access line, with the exception of Busy Transfer and Call Waiting being mutually exclusive.
6. Speed Calling is available only to customers with 6 or more Contel Enhanced Business Services equipped access lines.
7. Individual access lines may be grouped in communications groups of 2 or more lines.

## D. Description of Service Features

Contel Enhanced Business Services includes the following features:

## 1. Basic

- a. Intercom Calling - This feature provides intra-group communications. This is accomplished by dialing a preassigned station code.
- b. Don't Answer Transfer - This feature provides the transferring of a call after a predetermined number of rings from a called number to an assigned number within the group.
- c. Distinctive Ringing - This feature allows called members of a group to distinguish between intra-group calls and calls from outside the group by providing two different ringing patterns.
- d. Busy Transfer - This feature provides the transfer of calls outside the group encountering a busy condition to an alternate line in the same group.

## C. Conditions

SEP 13 1994

MISSOURI

BY 93-1 Public Service Commission

1. Customers subscribing to Digital Centrex Service will be required to have a minimum of two (2) access lines. The customer may not mix business with residential lines of service within the same Digital Centrex Service subscription.
  2. If equipment is provided by the customer, it must be compatible with the services and equipment provided by the Company. This provision is applicable to BUSINESS SET SERVICE listed in Item B.5.a.
  3. Digital Centrex basic and enhanced services and features are only offered in central offices equipped to provide such service.
  4. Service area is limited to manufacturer's equipment specifications with respect to distance from the central office.
  5. The minimum charge for service provided under this tariff shall be one month.
  6. The Company will furnish one alphabetical and one classified directory listing without charge per system. Additional listings will be offered subject to the provisions outlined in GENERAL SERVICES, Section 5 of this tariff, or may be provided free if in the judgement of the Company such listings will improve service to the public, or reduce Company operating costs, or both.
  7. Extended Area Service (EAS) is available with this Service in the event the customer's Central Office Exchange has EAS.
  8. For service over 200 lines or greater than 2 miles from the central office, tariff rates as specified in Item B., will apply in addition to an appropriate portion of applicable special construction costs or expenses as specified in Section 2, GENERAL REGULATIONS, Special Assemblies of Equipment.
- Any contracts relative to the provision of this service will be provided to the Commission at least one (1) day prior to the effective date of the service. Rates contained in the contracts are under the authority of the Commission and may be altered by the Commission at any time during the life of the contracts.
9. Touch Calling service is necessary in order to have the Digital Centrex Service features. Touch Calling is available at the rates specified in Section 5 of this Tariff.

CONTEL ENHANCED BUSINESS SERVICES (Continued)MISSOURI  
Public Service Commission

## D. Description of Service Features (Continued)

- e. Convenience Dialing - This feature allows a customer group to establish abbreviated dialing patterns for up to 30 numbers with a maximum of 15 digits each. A controller can also be assigned in the group. This controller would be the only access line from which additions or changes to the list could be made.
- f. Call Pick Up - This feature allows the user to answer any call within the group by dialing a code.
- g. Call Hold - This feature allows the user to place an established call on hold by flashing the switch hook and dialing a code. This frees the line to originate another call or go back to the held call or use Call Pick Up.
- h. User Transfer - This feature allows the user to transfer an established call to another line within the group.
- i. Call Waiting - This feature provides a signal to a customer using the telephone that another call is being attempted to his number. The customer can "hold" the original call to answer the incoming call.
- j. Call Forwarding - This feature permits all calls directed to a customer number to be routed on to another dialable number, predetermined and activated by the customer.

Calls forwarded beyond the local (toll free) calling area will be charged to the customer, at the dial station-to-station rate, on every call answered at the "forwarded to" number.

Conferencing - This feature allows for the addition of a third number to a connection made between two numbers without the assistance of a company operator.

## Supplemental

Speed Calling - This feature permits customer calling to other telephone numbers through the dialing of a code rather than the entire telephone number. Two capacities are available.

- a. Individual Short List - 8 Numbers
- b. Individual Long List - 30 Numbers

CUSTOMER-PROVIDED EQUIPMENT AND INSIDE WIREMISSOURI  
Public Service Commission

## A. General

1. Customer-provided equipment and/or inside wire may be connected at the customer's premises to facilities of the Company for use with exchange access service in compliance with FCC regulations.
2. Customers may connect equipment, systems and/or inside wire registered or grandfathered by the FCC directly to the Company network.
3. The General Regulations contained in Section 2 of this Tariff apply when the customer elects to provide his own equipment and/or inside wire. In any instance where the Tariff of the Company conflicts with an effective order of the FCC, the FCC order will have precedence.
4. Responsibility of the Customer (New Installations)
  - a. A customer desiring to connect customer-provided equipment to the exchange and message toll network must make application to the Company. Such application may be made orally and followed by written application prior to the desired in-service date and shall include the following:
    - 1) The type and manufacture of each item of the grandfathered equipment or the registration number and ringer equivalence of the registered equipment.
    - 2) The number of main terminals to be connected.
  - b. Upon notification from the Company that the customer-provided equipment or inside wire is causing or is likely to cause harm, the customer shall make such change as is necessary to remove such harm. Failure to make such change will result in disconnection of service until such change is completed to the satisfaction of the Company.

CUSTOMER-PROVIDED EQUIPMENT AND INSIDE WIRE (Continued)MISSOURI  
Public Service Commission

## A. General (Continued)

## 4. Responsibility of the Customer (New Installations) (Continued)

- c. The customer may be required, as a condition of service, to pay in full all sums due the Company including, but not limited to, service charges, termination charges, minimum charges, and reimbursement for loss or damage to Company facilities as may apply.
- d. A customer must subscribe to, and be capable of providing operation for, sufficient quantities of main terminals to provide adequate access to his customer-provided equipment and/or inside wire in accordance with accepted communications industry standards.
- e. The customer must provide all of the terminal equipment and/or inside wire on the customer's side of the point of demarcation between Company owned equipment and customer-owned equipment.
- f. Use of Company facilities or service in connection with any device for recorded public announcements is subject to the following conditions:
  - 1) For purposes of identification, customers to telephone service who transmit recorded public announcements over facilities provided by the Company must include in the recorded message the name of the organization or individual responsible for the service and the address at which the service is provided.
  - 2) Customers transmitting factual public announcements such as time, stock market quotations, airline schedules and similar information are excluded from the preceding condition.
  - 3) Nonpublished telephone service will not be furnished for use with recorded public announcements.
  - 4) Failure to comply with the provisions of this Tariff shall be cause for termination of the service.

## 5. Responsibility of the Company

- a. The technical criteria for customer-provided systems, equipment, and inside wire is contained in the FCC tariffs of the AT&T Company with which this Company concurs.
- b. The Company shall not be responsible to the customer for changes in the technical criteria or in any of the facilities, operations or procedures initiated by the Company or appropriate regulatory agencies which might render any customer-provided equipment obsolete or require modification or alteration of such equipment or otherwise affect its use or performance. The Company will make a reasonable effort to notify a customer in advance of changes in technical criteria, operations or procedures which might affect customer-provided equipment or systems.
- c. The Company shall not be responsible for the installation, operation or maintenance of any customer-provided communications systems, equipment, or inside wire.

BY 93-1 /CPE3 25.00  
Public Service Commission

2. The following charges are applicable to the former Webster County Telephone Company customers for time spent by a Company employee when it is determined that the service difficulty or trouble report results from customer-provided terminal equipment, and/or communications systems, and/or Inside Wire connected or arranged for connection to Company facilities. Normal working hours are from 8:00 a.m. to 5:00 p.m., Monday through Friday, holidays excepted.

- a. In or out of the Base Rate Area during normal working hours:

1) Per occurrence. . . . . \$25.00

- b. In or out of the Base Rate Area after normal hours:

1) Minimum charge (two hours) . . . . . \$48.00  
2) Additional hour or fraction, each. . . . . 24.00

3. The above charges are in addition to all other rates and charges billed to the customer for other services and equipment.
4. The above mentioned charges will be waived for customers who have not been equipped with a network interface jack and who have not been instructed on how to use the network interface jack to isolate their own trouble.

PHONE NUMBER REFERRAL SERVICE (\*)

## A. GENERAL

MISSOURI  
Public Service Commission

1. Phone Number Referral Service provides a service to local exchange business and residence customers who have requested their service be discontinued because they have moved to a new location or requested a change in their telephone number. Dialing the customer's former number results in a prerecorded message which announces the new number.

## B. RATES

1. Rates set forth below are for referral service equipment located in the Company's central office facilities.
2. Installation and/or change charges are applicable as set forth in Section 6, SERVICE CHARGES of the tariff.
3. All service and referral charges listed below are per line.

| <u>DURATION OF SERVICE</u> | <u>S &amp; E<br/>CODE</u> | <u>NRC</u> |
|----------------------------|---------------------------|------------|
| a. 0 - 60 days             | PNR2                      | N/C        |
| b. 61 - 180 days           | PNR4                      | \$5.00     |
| c. 181 - 360 days          | PNR6                      | 10.00      |

PRIVATE LINE SERVICE - INTRAEXCHANGE - (\*) (Applicable to the former Webster County Telephone Company Customers only.)

MISSOURI  
Public Service Commission

## A. General

1. Private Line Service (Intraexchange) is the provision of local or inter-office channel circuits and tie lines to furnish communication services between two or more directly connected terminals or systems, without intermediate channel switching arrangements. Private Line Channels may be furnished within an exchange to extend the termination of Local Exchange Service to another premise.
2. The customer is responsible for the selection of the service, i.e., type of circuit signaling options, jacks and terminating interfaces required to meet his needs. The customer premises equipment, station apparatus and premises wiring must be compatible with the service provided by the Company. The Company has overall responsibility for the Private Line Service (up to the demarcation point on the customer premises at which the interface appears), including the selection of all local channels.
3. Exchange rates, rules and regulations apply for the exchange portion of the total service when Private Line Services are used in connection with Exchange Services or are connected to Exchange Services.
4. Service charges apply.

## B. Rates

|                                                                                       | S & E<br>Code | Monthly<br>Rate |

UNIVERSAL EMERGENCY NUMBER SERVICE (911)MISSOURI  
Public Service Commission

## A. GENERAL

1. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Service may include Selective Routing, Automatic Number Identification and Automatic Location Identification features.
2. 911 Service is offered subject to availability of facilities.
3. The 911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for 911 calling.
4. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

## B. RATES

1. The rates and charges for 911 Service will be determined on an individual case basis and will be in the form of Direct Sale Cost for P.S.A.P. Equipment, non-recurring charges, and recurring monthly charges. Individual features requested by the customer include, but are not limited to, direct sale P.S.A.P. equipment, central office modifications, data base preparation, data base management, trunking and maintenance.
2. Direct Sale of P.S.A.P. equipment shall be on terms mutually agreeable to the Company and the customer. CANCELLED

UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Continued)MISSOURI  
Public Service Commission

## B. RATES (Continued)

3. Non-recurring charges for 911 Service will be made to one "entity" (normally a city or county) based on actual costs from job order closings. These charges will include, when applicable, one or more of the following expense items associated with the equipment or service provided.

- a. Maintenance expense.
- b. Depreciation expense - including reuseable and/or recoverable items.
- c. Administrative expense.
- d. Taxes - including Federal Income Tax.
- e. Any other specific items of expense that may be associated with the facility provided.
- f. An approved return on investment.

(An estimate of the actual cost of the service will be provided upon request.)

4. The cost used in the derivation of the various expense items shall include the following.

- a. Material.
- b. Material overhead.
- c. Installation labor.
- d. Installation labor overhead.
- e. Engineering labor.
- f. Engineering overhead.

(An estimate of the actual cost of the service will be provided upon request.)

5. The monthly rate in addition to the charges in section B.2 and B.3 above shall be equal to the individual business one-party rate, per 911 termination, without the EAS additive.
6. Annual maintenance and administrative costs will be applied where capital additions were made, causing an increase in annual maintenance. These charges will be billed annually using the maintenance and administrative factors from the most current annual report.
7. The above rates apply in addition to applicable rates and charges for Private Line and Leased Line Services.
8. Service charges as specified in Section 6 of the tariff are applicable.

## C. CONDITIONS

1. 911 Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Service by the Company shall not be interpreted, construed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
2. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customers' premises.
3. Temporary or vacation suspension of service is not provided for any part of the 911 Service.
4. The 911 calling party forfeits the privacy afforded by non-listed and non-published service to the extent that the telephone number, address and name associated with the originating station location are furnished to the PSAP. The names, addresses and telephone numbers of telephone customers whose listings are not published in directories or listed in Directory Assistance Offices is confidential. Information will be provided only for the purpose of responding to emergency calls.
5. The Company's entire liability to any person for interruption or failures of 911 Service shall be limited to the terms set forth in this section and other sections of this tariff.

## C. CONDITIONS (Continued)

6. The Customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.
7. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative.
8. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.

9. The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 service features and the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer, its user, agencies or municipalities, or the employees or agents of any one of them.
10. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by Central Offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
11. Application for 911 Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.

UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Continued)

## C. CONDITIONS (Continued)

MISSOURI  
Public Service Commission

13. When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations as well as the unique combinations of police, fire and ambulance or any other appropriate agencies responsible for providing emergency service in the 911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Company. The customer will associate these ESN's with street address ranges or other mutually agreed upon routing criteria in the 911 serving area. These ESN's will be carried in the Data Management System (DMS) to permit routing of 911 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the 911 serving area. The following terms define the customer's responsibility in providing this information:
- a. Initial and subsequent ESN assignments by street name, address range and area or other mutually agreed upon routing criteria shall be furnished by the customer to the Company prior to the effective date of service.
  - b. After establishment of service, it is the customer's responsibility to continue to verify the accuracy of the routing information contained in the master address file and to advise the Company of any changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of 911 calls to the proper PSAP.

UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Continued)MISSOURI  
Public Service Commission

## C. CONDITIONS (Continued)

## 13. (Continued)

- c. The Company will provide to the customer on request a complete written copy of the master address file to permit the customer to verify accuracy of the police, fire and ambulance PSAP routing designations.
- d. Changes, deletions and additions which the customer desires to have made in the master address file should be submitted on an "as occurred" basis.
- e. The Company will furnish a written copy to the customer for verification showing each change, deletion and addition to the master address file.

- 14. In order to protect the confidentiality of unlisted numbers, the Company will supply Automatic Location Identification (ALI) services only where the P.S.A.P. equipment, and DMS services are supplied by the local exchange carrier.

## D. DEFINITION OF TERMS

- 1. Automatic Location Identification (ALI): A feature by which the name and address associated with the calling party's telephone number (identified by the ANI feature as defined following) is forwarded to the PSAP for display. Additional telephones with the same number as the calling party's (secondary locations, off-premise, etc.) will be identified with the address of the telephone number at the main premise.
- 2. Automatic Number Identification (ANI): A feature by which the calling party's telephone number is forwarded to the PSAP's Display and Transfer Units via the 911 Control Office.
- 3. Data Management System (DMS): A system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

UNIVERSAL EMERGENCY NUMBER SERVICE (911) (Continued)MISSOURI  
Public Service Commission

## D. DEFINITION OF TERMS (Continued)

4. Emergency Service Number (ESN): When the Selective Routing feature is provided, the customer is responsible for identifying primary and secondary PSAP locations, as well as the unique combinations of police, fire, ambulance or any other appropriate agencies responsible for providing emergency service in the 911 serving area. An Emergency Service Number (ESN) will be provided for each unique combination by the Data Management System (DMS). The customer will associate these ESN's with street address ranges or other mutually-agreed-upon routing criteria in the 911 serving area. The ESN's will be carried in the DMS to permit routing of 911 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the 911 serving area.
5. Public Safety Answering Point (PSAP): An answering location for 911 calls originating in a given area. A PSAP may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAP's respond first; secondary PSAP's receive calls on a transfer basis only and generally serve as a centralized answering location for a particular type of emergency call.
6. Selective Routing (SR): A feature that routes a 911 call from a Central Office to the designated primary PSAP based upon the identified number of the calling party.

ST. CHARLES COUNTY DISCOUNT PLAN

FEB 1 1989

## A. General

MISSOURI  
Public Service Commission

1. The St. Charles County Discount Plan is a toll service offered to residence and business customers at discounted toll rates between the intrastate exchanges as specified below.

## B. Rates

1. The discount will be 50% and will apply to MTS toll charges on all originating toll calls from the calling to the terminating intrastate exchanges as specified below. When application of the discount results in a fractional charge, the amount will be rounded to the nearest cent.
2. Service Charges apply for enrollment in this plan after the initial 90 days of availability.
3. A monthly rate of \$2.00 applies per access line.\*
4. Intrastate Exchanges

EXPERIMENTAL EXTENDED MEASURED SERVICE (EMS)

FEB 1 1989

## A. General

MISSOURI

1. This experimental Extended Measured Service (EMS) is the provision of a new arrangement of extra-exchange calling which is provided at less than filed toll rates where a community of interest has been demonstrated.
2. This new service is being offered to the following exchanges in accordance with Missouri Public Service Commission, Case No. TO-86-8, dated March 20, 1987, effective April 21, 1987:

## B. Rates

1. Rates for this experimental service are offered on the basis of the following plans:
    - a. Extended Community Calling Service (ECC)
      1. Business and residence customers in the above exchanges are provided a 50% discount on tariffed Message Toll Service (MTS) rates for originating calls from the listed calling to the terminating exchanges.
      2. Residence customers have the option of choosing an alternate plan instead of Extended Community Calling Service.
    - b. Optional Message Rate Service (OMR) - residence only (1)
      1. This alternate plan has a subscription rate of \$5.00 per month (30 days minimum subscription period) and 25¢ per call on originating calls from the listed calling to the terminating exchanges. S & E Code: OMRP
  2. OMR Service and ECC Service are mutually exclusive.
  3. After the initial ninety (90) day period of this service offering, service charges apply for customer requested changes to or from the Optional Message Rate (OMR) Service areas.
- (1) OMR rates apply to all lines of an account.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1)

## A. GENERAL

MISSOURI  
Public Service Commission

1. Enhanced Emergency Number Service, also referred to as E9-1-1 or Enhanced 9-1-1 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the Emergency Service Agency (ESA) may receive telephone calls dialed to the three (3) digit telephone number 911. E9-1-1 Service includes the lines and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. Enhanced 9-1-1 Service is an updated emergency system offering additional features as compared to the basic 9-1-1 system.
  - a. "911" is a three-digit telephone number designated as the "Universal Emergency Number" for public use throughout the United States to report emergencies and request emergency assistance.
  - b. E9-1-1 Service allows any person dialing "911" from a telephone usable for access to the local exchange telephone network, arranged to provide E9-1-1 Service, to be automatically connected to the appropriate Public Safety Answering Point (PSAP).
  - c. A Public Safety Answering Point (PSAP) may be designated as Primary or Secondary, which refers to the order in which calls are directed for answering. Primary PSAP's answer first; Secondary PSAP's receive calls on a transfer basis only.
2. The ESA must be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The ESA must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone central office areas arranged for E9-1-1 calling.
3. The E9-1-1 three (3) digit emergency number is not intended to replace the seven (7) digit telephone service of the various Public Safety Agencies which may participate in the use of this number. The ESA must subscribe to additional local exchange service at the PSAP for administrative purposes, the placing of outgoing calls and for receiving other emergency calls, including any which might be relayed by Company operators.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

MISSOURI

## A. GENERAL (Continued)

Public Service Commission

4. This offering is limited to the use of central office number 911 as the universal emergency number and only one 9-1-1 service will be provided within any geographical area.
5. E9-1-1 Service will be provided by the Company only where facility and operating conditions permit.
6. The Company may enter into a contract or contracts with the ESA or with other telephone companies in order to effectuate the Company's provision of 911 service in accordance with, pursuant to and subject to the terms, conditions and limitations of this Tariff. Any such contract(s) shall incorporate by reference the terms, conditions, and limitations of this Tariff.
7. Application for E9-1-1 Service must be executed in writing by the ESA. If application for service is made by an agent, then satisfactory evidence of the appointment must be provided in writing to the Company. At least one local law enforcement agency must be included among the participating agencies in any E9-1-1 offering.
8. E9-1-1 Service as a primary provider will include Selective Routing, Automatic Number Identification and Automatic Location Identification. Provision of other features may require central office modification. Features available in the E9-1-1 system may include but are not limited to: Call Detail, Default Routing, Fixed Transfer, Switchhook Status, Forced Disconnect, Manual Transfer, Night Service/Call Transfer, Emergency Ringback and Overflow Call Transfer-Additional Locations.

**CANCELLED**

A more detailed list of descriptions and limitations of the features listed above is maintained in the Company's telephone service office.

JAN 21 1992  
BY 1st R.S. #49

9. Selective routing is available in digital central office service areas when an Enhanced 9-1-1 System is served by more than one PSAP or when a central office is split by a political boundary and one of the political areas does not subscribe to E9-1-1 Service. This service routes the call to the correct PSAP or an announcement, as appropriate, based on the caller's telephone number.
10. An initial listing of customer names, telephone numbers and addresses from the company's data base as well as periodic updates may only be provided to the ESA for the purposes of building and maintaining the ALI database and/or MSAG.

EMERGENCY TELEPHONE SERVICE (9-1-1)

B. CONDITIONS

1. Definition

- SEP 15 1994  
93-1  
BY Public Service Commission  
MISSOURI  
DEC 12 1991  
UTILITY DIVISION  
P. S. C. MO.
- a. 9-1-1 is the three-digit telephone number designated throughout the United States as the emergency telephone number to be used by the public to obtain law enforcement, medical, fire, rescue, and other emergency services.
  - b. 9-1-1 Service enables a caller dialing 9-1-1 from a station with access to the local exchange telephone network, arranged to provide 9-1-1 Service, to be automatically connected to the appropriate Public Safety Answering Point (PSAP). A PSAP is the communications facility, designated for a specific territory, to which 9-1-1 calls are routed for response. The Service, including non-regulated components, may be provided from any one of the following three categories:
    - (1) B9-1-1 (or Basic 9-1-1) Service automatically routes 9-1-1 calls to a PSAP but provides no information about the location or telephone number of the caller.
    - (2) C9-1-1 (or ANI-only 9-1-1) Service automatically routes 9-1-1 calls to a PSAP and provides the calling telephone number (through automatic number identification or ANI) to the PSAP attendant who answers the call. C9-1-1 Service is comprised of B9-1-1 Service plus ANI spill.
    - (3) E9-1-1 (or Enhanced 9-1-1) Service automatically routes 9-1-1 calls to a PSAP and provides the calling telephone number and address, and may also provide the name of the telephone access line subscriber and the names of the Emergency Response Agencies with responsibility for the caller's location. E9-1-1 will provide a PSAP with the location of the billing or lead telephone number in cases where a nonregulated telecommunication service provider (e.g., Private Branch Exchange (PBX), Shared Tenant Service (STS), etc.) has failed to provide the customer with their subscribers' names, addresses, and telephone numbers. E9-1-1 Service is comprised of C9-1-1 Service plus ALI provisioning.

SPECIALIZED SERVICESENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

## A. GENERAL (Continued)

11. Automatic Number Identification (ANI) spill may be provided for the telephone number of the calling party to be forwarded to the designated PSAP.

a.) ANI spill does not guarantee the capability of forwarding the number of a multiparty line end user. For calls placed to an E9-1-1 PSAP from off premises stations and stations behind business systems, ANI spill will display the identity of the main billing number.

b.) The PSAP's premises equipment used in conjunction with Enhanced 9-1-1 ANI spill must be reviewed by the Company to determine the compatibility of the unit with the Enhanced 9-1-1 Service requested.

12. Equipment used in conjunction with E9-1-1 Services located at the PSAP may be provided by the Company or the customer subject to Company approval.

13. This service, like all of the Company's other services, is offered subject to the general terms and conditions contained in the General Rules and Regulations section of this tariff and, in particular, the liability of the Company's provisions in that section of the tariff.

a. Automatic Location Identification (ALI)

A feature designed to permit information regarding the location of the calling party to be displayed on a display screen at a PSAP when a 9-1-1 call is received.

b. ALI Database

A database of ALI records containing access line subscribers' names, addresses, telephone numbers, and ESNs to be used for 9-1-1 purposes. This database, once provided to the customer, may include additional information about that location. Subscriber names may be omitted as a local option.

c. Alternate Routing

A feature that will route a 9-1-1 call to a location other than the primary PSAP, should some temporary condition prevent the primary PSAP from answering the call.

d. Automatic Number Identification (ANI)

A feature designed to permit the telephone number of the calling party to be displayed on a display screen at a PSAP when a 9-1-1 call is received.

e. ANI Spill

A central office generated data stream that forwards the telephone number of the calling party.

f. Caller

An individual who places a 9-1-1 call in order to obtain emergency assistance. May also be referred to as an end user.

g. Customer

Governmental unit or other entity authorized to provide 9-1-1 Service.

## B. RATES

1. The following rates and charges apply in addition to all other applicable rates and charges shown elsewhere in this tariff.
2. The following rates will be used in whole or in part in the specific contractual arrangements made by the Company. As the Company may be the primary provider or may subtenant a primary provider for E9-1-1 service, specific rates will apply for the billing of the appropriate agency or local exchange carrier.
3. The following rates do not apply to current 911 configurations which were in service as of August 1, 1988 and installed on an individual case basis.

## a. PLAN 1

The Company, being a  
Primary provider, shall  
apply the following rates -

## Per Access Line:

|                                         | S&E<br>Code(6) | Monthly<br>Rate (1) | S&E<br>Code(6) | NRC (1) |
|-----------------------------------------|----------------|---------------------|----------------|---------|
| 1) Enhanced 9-1-1 Service               | Varies         | \$ .32              | -              | \$ -    |
| 2) C.O. Feature Modification Charge (5) | Varies         | (2)                 | Varies         | -       |
| Per Record:                             |                |                     |                |         |
| 3) Database Scrub Charge                | -              | -                   | Varies         | 2.00    |

The Company, not being a  
Primary provider, shall  
apply the following rates  
in whole or in part -

## Per Access Line:

|                                  | S&E<br>Code(6) | Monthly<br>Rate (1) | S&E<br>Code(6) | NRC (1) |
|----------------------------------|----------------|---------------------|----------------|---------|
| 1) Record Transaction Charge (3) | Varies         | \$ .09              | -              | \$ -    |
| 2) Selective Routing Charge (4)  | Varies         | .07                 | -              | -       |
| 3) ALI Database Cluster Charge   | Varies         | .13                 | -              | -       |
| Per Record:                      |                |                     |                |         |
| 4) Database Scrub Charge         | -              | -                   | Varies         | 2.00    |

- (1) Annual adjustment will be performed based on most recent twelve (12) months' data. Non-recurring charges will be adjusted only for increases in access lines.
- (2) Charges for central office modifications for the provision of specialized E9-1-1 features will be based on cost to provide and will be calculated on an individual case basis.
- (3) Charge includes cost for central site, administration and nightly updates; a minimum charge of \$50.00 shall apply.
- (4) This charge applies as circumstances require when political jurisdictions do not match exchange boundaries.
- (5) See A. GENERAL, Item 8, Sheet 35.
- (6) S & E Code varies - see Administrative Tariff, this Section.

2. Definition of Terms (Continued)

93-1  
Public Service Commission  
MISSOURI  
UTILITY DIVISION  
P. S. C. MO.

h. Default Routing

A feature activated when an incoming 9-1-1 call cannot be selectively routed due to an ANI failure, garbled digits or other causes. Such incoming calls are routed from the 9-1-1 control office (location of the selective routing function) to a preselected PSAP.

i. Emergency Response Agency

For the purpose of this Tariff, an Emergency Response Agency (ERA) is a functional division of an agency authorized to respond to requests from the public to meet emergencies related to safety and/or health. The agency is prepared to provide its service(s) in response to a 9-1-1 call received at, or transferred from, a PSAP.

j. Emergency Service Number

An Emergency Service Number (ESN) is assigned by the customer to all subscribers served by each combination of Emergency Response Agencies (i.e., which police, fire, and ambulance service is responsible for that subscriber's location). Thus the service area of each PSAP and Secondary PSAP can be defined in terms of the ESNs for which it is responsible. The ESN is recorded in the ALI database (where established) to inform the PSAP attendant which ERA is responsible for each 9-1-1 caller's location and in the Selective Routing records (where Selective Routing is established) to assist in determining call routing to the correct PSAP.

k. End User

An individual who may place a 9-1-1 call in order to obtain emergency assistance. May also be referred to as a caller.

Public Service Commission, P. S. C. MO.  
MISSOURI

1. Host Provider

The telephone company that serves exchanges within the customer's serving area and provides 9-1-1 service to the customer and, where applicable, acts as the coordinator of other regulated telephone companies which serve as secondary providers within the customer's serving area.

m. Master Street Address Guide (MSAG)

A perpetual database defining the geographic area of a 9-1-1 service, such as by an alphabetical list of the street names, high-low house number ranges, community names, PSAP identification codes, and Emergency Service Numbers (ESNs).

n. Nonlisted/Unlisted

Subscriber information that is not listed in the published phone directory but is made available via Directory Assistance Service.

o. Nonpublished

Subscriber information that is neither listed in the published phone directory nor available via Directory Assistance Service.

p. Public Safety Answering Point (PSAP) - Primary

A primary PSAP is the initial answering point responsible for taking appropriate action on a 9-1-1 call by either providing the response itself from the Emergency Response Agencies dispatched from that center or by transferring the call to a secondary PSAP for action. A primary PSAP must be operated on a 24-hour (seven-days-a-week) basis.

q. Public Safety Answering Point (PSAP) - Secondary

A secondary PSAP responds to 9-1-1 calls transferred from a primary PSAP by dispatching those Emergency Response Agency services under its authority. It may become the initial respondent to a 9-1-1 call in an alternate routing configuration where the primary PSAP is unable to answer the call.

UTILITY DIVISION

r. Selective Routing

BY 93-1  
Public Service Commission  
MISSOURI

P. S. C. MO.

A service that routes calls to the correct PSAP based on the caller's ANI. This service is available when a C9-1-1 or E9-1-1 system is served by more than one PSAP or when a central office is split by a political boundary and one of the political areas does not subscribe to 9-1-1 services.

s. Subscriber

A person or business that orders access line service from a telephone company.

t. Secondary Provider

A regulated telephone company that participates in offering 9-1-1 service under an agreement with the host provider.

3. General

- a. 9-1-1 Service is restricted to one-way incoming emergency service only.
- b. The Company shall not be required to provide 9-1-1 Service to less than an entire central office (switching entity). The Company does not undertake to answer and forward 9-1-1 Service calls, but furnishes the use of its facilities to enable the customer's personnel to accept such calls on the customer's designated premises.
- c. 9-1-1 Service is provided solely for the benefit of the local governmental unit; the provision of such service shall not be interpreted, construed, or regarded as being of the benefit of, or creating any Company obligation toward, or any right of action on behalf of any third person or other legal entity.
- d. Intercept service for any seven-digit emergency number(s) replaced by 9-1-1 Service will be provided for a period of time as negotiated between the Company and the customer; however, in no case shall intercept service be provided for more than one year or beyond the next directory issuance, whichever is longer.

## B. RATES (Continued)

MISSOURI

Public Service Commission

## 5. E9-1-1 Funding Surcharge

- a. The Company, as directed by the ESA, may impose a surcharge as provided by law, to each business and residential end-users local exchange telephone bill to establish funding for E9-1-1 service within said end-users respective county or municipality. This surcharge is in addition to all other lawful rates and charges. This surcharge will be distributed to the respective ESA less a billing and collection fee as provided by law.

## 6. Program Development Charges

- a. These are charges applicable to the work necessary to design, develop, test and maintain any special programming required to support E9-1-1 Service, its billing and its data base management. The rate will be based on Company time and materials expended. Cancellation of the service in whole or in part by the ESA prior to establishment thereof will require payment of an amount equal to the cost of engineering, manufacturer's billings resulting from equipment orders, installation, assembly, labor, cost of removal and any other costs incurred up to the time of cancellation resulting from the ESA's order for service.

## 7. Quotation Preparation

- a. The ESA may request a quotation for all costs associated with the provision of the facilities needed to satisfy the ESA's service requirements. A quotation so provided does not bind the Company to the rates set forth in the quotation. All rates for services or facilities to be provided by the Company will be determined in accordance with the guidelines in this Tariff. No charge will be incurred by the ESA for such a request.

8. A manual processing fee will be incurred for database updates if information is provided via paper records from other local exchange carriers or elsewhere.

- e. 9-1-1 Service is limited to the use of central office telephone number 9-1-1 as the emergency telephone number. Only one 9-1-1 Service will be provided within any government agency's locality.
- f. 9-1-1 calls originated from local exchange telephone network access facilities shall be completed to the appropriate PSAP without a charge being assessed to the end user by the Company. Calls from a pay telephone shall not require a coin to be deposited or payment of any charge.
- g. Calls placed from all stations, including those with non-published or unlisted numbers, to a PSAP may display subscriber information associated with such numbers to emergency 9-1-1 responding personnel. The subscriber forfeits the privacy afforded by a nonlisted or nonpublished service upon placing a 9-1-1 call.
- h. The main telephone directory listing for the PSAP must be a seven-digit administrative telephone number of a listed emergency number. A listing for the PSAP will also be provided under 9-1-1 at no additional charge.
- i. The Company will not prorate any billing among agencies of the same governmental entity jointly subscribing to 9-1-1 Service.
- j. All nonregulated telecommunications service providers (e.g., Private Branch Exchange (PBX), Shared Tenant Service (STS), etc.) in an E9-1-1 service area should provide current lists of their subscriber's names, addresses, and telephone numbers in GTE standard format to the customer for inclusion in the E9-1-1 database.
- k. Information provided by the Company as part of the provision of C9-1-1 or E9-1-1 is to be used only for the purposes of answering and dispatching emergency calls.

**B. RATES (Continued)****MISSOURI****Public Service Commission****9. Special Service Arrangement Charges**

- a. If E9-1-1 Service requirements cannot be met with regularly offered service arrangements, special arrangements will be furnished when practical by the Company at charges equivalent to the costs of furnishing such arrangements. These special charges will be applicable to such items as engineering and special program development associated with billing and data base management.
- b. Costs as referred to in this section may include but are not limited to:
  - 1) Cost of Maintenance
  - 2) Cost of Operation
  - 3) Depreciation of the installed cost of any facilities used to provide the special service arrangement based on the anticipated useful service life of the facilities with an appropriate allowance for the net salvage.
  - 4) General Administration expenses, including taxes on the basis of average charges for these items.
  - 5) Any other item of expenses associated with the particular special service arrangement.
  - 6) An amount, computed on the installed cost of the facilities used to provide the special service arrangement, for return on investment.
- c. The installed costs mentioned above includes cost of equipment and materials provided or used plus the cost of installing, including engineering, labor, supervision, transportation, right-of-way, and other items which are chargeable to the capital accounts.
- d. Special service arrangement rates are subject to review and revision conditioned upon changing costs.

1. Charges for customer-initiated changes and rearrangements affecting service address and ALI database records (e.g., street name and number changes, emergency services territorial or name change, jurisdictional boundary changes and rearrangements, etc.) other than those processed in normal daily updates will be based upon the actual costs for such changes and rearrangements. In such cases, a valid comparative listing of changes must be supplied providing direct and individual reference to existing designations.
- m. Where a 9-1-1 call is placed by the calling party via interconnection with an interexchange carrier or operator service provider, the Company cannot guarantee the completion of said call, the quality of the call, or any features that may otherwise be provided with 9-1-1 Service. Because the addresses of these service providers' subscribers are not provided to the regulated telecommunications service providers, the customer must obtain them directly.
- n. In Selective Routing configurations where the central office does not provide ANI due to ANI failure, garbled digits, multiparty lines, etc., Default Routing will be utilized.

4. Customer Obligation

- a. Application for 9-1-1 Service must be executed in writing by each customer and must be accompanied by satisfactory proof of authorization to provide 9-1-1 Service in the exchanges where service is requested. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer.
- b. The customer is responsible for dispatching the appropriate emergency service within the 9-1-1 service area, or will undertake to transfer all 9-1-1 Service calls received to the governmental agency with responsibility for dispatching such services, to the extent that 9-1-1 services are reasonably available.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

MISSOURI

## C. CONDITIONS

Public Service Commission

1. The Company provides E9-1-1 Service solely for the benefit of the ESA operating the PSAP. The provision of E9-1-1 Service by the Company shall not be interpreted, construed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the ESA.
2. The Company does not undertake to answer and forward E9-1-1 calls, but furnishes the use of its facilities to enable the ESA's personnel to respond to such calls at the ESA's premises.
3. Seasonal and Vacation Service is not provided for any part of the E9-1-1 Service.
4. This service is furnished to ESA's only for the purpose of voice reporting of emergencies by the public.
5. E9-1-1 information consisting of the names, addresses and telephone numbers of end-users whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential. Whether or not this information corresponds to listings that are not published in directories or listed in the Directory Assistance records, the customer agrees to use such information only for the purpose of responding to E9-1-1 calls.
6. The E9-1-1 calling party forfeits the privacy afforded by Private (Non-published) and Semi-Private (Nonlisted) telephone number service to the extent that the telephone number, address and name associated with the originating station location are furnished to the PSAP. Information will be provided only for the purpose of responding to emergency calls.
7. The Company's entire liability to any person for interruption or failure of E9-1-1 Service shall be limited to the terms set forth in this Section and other Sections of this Tariff.

c. The 9-1-1 Service applicant must submit to the Company written concurrence to the following terms and conditions by all participating agencies:

- (1) The applicant shall have the sole responsibility for determining which public safety agencies will participate in (jointly) subscribing to a 9-1-1 Service offering, and for the control and staffing of the PSAP.
- (2) The primary PSAP will answer all calls on a 24-hour, seven-days-a-week, basis.
- (3) Each primary PSAP must subscribe to sufficient 9-1-1 Service lines to adequately handle incoming calls in each PSAP's average busy hour so that no more than one call out of 100 (P.01 transmission grade of service) encounters a busy signal. In other words, the 9-1-1 Service network from each central office to the central office serving the primary PSAP must provide a minimum of a P.01 transmission grade of service or two trunks, whichever is the higher standard.
- (4) Each primary PSAP shall and each secondary PSAP should subscribe to at least three lines as follows:
  - (a) At least one seven-digit non-emergency local exchange line with at least one listed directory number for administrative calls.
  - (b) At least one non-listed seven-digit local exchange line for forwarding or transferring 9-1-1 calls to locations other than those connected to that PSAP by dedicated lines.
  - (c) At least one non-listed seven-digit number to be used by other PSAP's and Emergency Response Agencies to reach the PSAP. This number must be in addition to those listed above.

8. The ESA shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data base(s), and overall operation of the system. The ESA shall make such operational tests as, in the judgment of the ESA, are required to determine whether the system is functioning properly for its use. The ESA shall promptly notify the Company in the event the system is not functioning properly.
9. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro rata charges for the service affected during the period of time that the service was fully or partially inoperative.
10. Each End-User and ESA also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the End-User, ESA or by any other person or entity, and whether or not such loss, claims, demands, suits or other action or liability arises out of, or is related to, any agreement between the Company and the ESA for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the End-User, ESA or others.
11. Each ESA and End-User also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of E9-1-1 service features and the equipment associated therewith, or by any services which are or may be furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing E9-1-1 service hereunder, and which arise out of the negligence or other wrongful act of the Company, the ESA, its user, agencies or municipalities, or the employees or agents of any one of them.

12. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the ESA to make arrangements to handle all E9-1-1 calls that originate from telephones served by Central Offices in the local service area whether or not the calling telephone is situated on property within the geographical boundaries of the ESA's public safety jurisdiction. Neither the ESA nor the Company shall have any responsibility under this paragraph for 911 calls that carry foreign dial tone, whether they originate within or outside of the ESA's public safety jurisdiction, or for calls originating from mobile/cellular telephones.
13. When possible, any terminal equipment used in connection with E9-1-1 Service shall be configured so that it is unable to extract any information from the Automatic Location Identification (ALI) database other than information relating to a number (identified through the Automatic Number Identification (ANI) feature as the source) of an in progress E9-1-1 call.
14. The ESA is to maintain the ALI database as strictly confidential. The ALI database, in part or in whole, shall not be copied, used, distributed, disclosed, disseminated, or communicated in any way by the Emergency Service Agency, its employees or agents, except to the extent necessary to use and operate the 911 service. The ALI data base is confidential and shall remain the property of Contel. The Emergency Service Agency shall have no rights of ownership or use beyond the use necessary for 911 service.
15. The ESA is wholly responsible to acquire, input and maintain additional/supplemental information concerning additional location information, medical information, or other unique conditions at each address. This process will be necessary on an ongoing basis as residents move into, within, or out of the 911 service area and should be collected from all residents (including those served by other telephone companies) as the Emergency Service Agency desires.
16. The ESA must furnish to the Company, in writing, its agreement to the following terms and conditions:
- That at least one PSAP will be provided and staffed on a 24-hour, seven-days per week basis.
  - That the ESA accepts responsibility for dispatching, or having others dispatch police, fire, ambulance or other emergency services as required to the extent such services are reasonably available.

## C. CONDITIONS (Continued)

MISSOURI  
Public Service Commission

## 16. (Continued)

- c. That the ESA will develop an appropriate method for responding to calls for nonparticipating agencies which may be directed to the E9-1-1 PSAP by calling parties.
- d. That the ESA will subscribe to, or provide, telephone equipment with a capacity adequate to handle the number of incoming E9-1-1 lines recommended by the Company to be installed.

17. It will be the intent of the Company to provide facilities designed to provide a call blocking probability of one call per hundred during normal busy hours for E9-1-1 Service. In no case shall the ESA subscribe to less than two (2) E9-1-1 Service lines per host central office routing calls to a control office. The Company will provide the necessary facilities from the control office to the PSAP(s).

18. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the ESA contracting for E9-1-1 service. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the ESA for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the ESA.

19. When the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the end-user or the failure of the facilities provided by the end-user, a pro rata adjustment of the fixed monthly charges involved will be allowed as covered by Section 2 of this Tariff. Where allowances on monthly charges for Service Features of E9-1-1 Service are involved, only those Service Features which are affected by the interrupted service shall be considered; and, further, only those access lines on the interrupted portion of a service shall be considered in determining the number of access lines affected.

5. Liability

- a. The Company's entire liability to the customer or any person for interruption or failure of 9-1-1 service shall be limited by the terms set forth in this section, the General Regulations section of this tariff, and in any sections of other tariffs which apply to the provision of 9-1-1 service by the Company. This 9-1-1 service is offered solely to assist the customer in providing 9-1-1 emergency service in conjunction with applicable fire, police, and other public safety agencies. By providing this service to the customer, the Company does not create any relationship or obligation, direct or indirect, to any third party other than the customer.
- b. The Company shall not be liable for civil damages, whether in contract, tort or otherwise, to any person, corporation, or other entity for any loss or damage caused by any Company act or omission in the design, development, installation, maintenance, or provision of 9-1-1 service other than an act or omission constituting gross negligence or wanton or willful misconduct. However, in no event shall the Company's liability to any person, corporation, or other entity for any loss or damage exceed an amount equal to the prorated allowance of the tariff rate for the service or facilities provided to the customer for the time such interruption to service or facilities continues, after notice by the customer to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the customer.
- c. The customer shall indemnify and hold harmless the Company from any damages, or other injuries which may be asserted by any person, business, governmental agency, or other entity against the Company as a result of any act or omission of the Company or customer or any of their employees, directors, officers, or agents except for Company acts of gross negligence or willful or wanton misconduct in connection with developing, adopting, implementing, maintaining, or operating the 9-1-1 system or for releasing subscriber information, including nonpublished or unlisted information in connection with the provision of the 9-1-1 service.

20. When the Selective Routing feature is provided, the ESA is responsible for identifying primary and other PSAP locations as well as the geographic area, or Emergency Service Zone (ESZ), served by unique combinations of police, fire and ambulance or any other appropriate agencies responsible for providing emergency service in the 911 serving area. An Emergency Service Number (ESN) will be provided by the Company for each unique ESZ. The ESA will associate these ESNs with street address ranges or other mutually agreed upon routing criteria on the Master Street Address Guide (MSAG) for the 911 serving area. These ESNs will be contained in the Data Management System (DMS) to permit routing of 911 Service calls to the primary and other PSAPs responsible for handling of calls from each telephone in the 911 serving area. The following terms define the ESA's responsibility in providing this information.

- a. Initial and subsequent assignments by MSAG street names, address ranges and areas, or other mutually agreed upon routing criteria, to specific ESNs shall be furnished by the ESA.
- b. After establishment of service, it is the ESA's responsibility to continue to verify the accuracy of the routing information contained in the MSAG, and to advise the Company of any changes in street names, establishment of new streets, changes in address numbers used on existing streets, closing and abandonment of streets, changes in police, fire, ambulance or other appropriate agencies' jurisdiction over any address, annexations and other changes in municipal and county boundaries, incorporation of new cities or any other matter that will affect the routing of 911 Service calls to the proper PSAP.
- c. The ESA has an obligation to verify police, fire and ambulance PSAP routing designations. On request, the Company will provide a complete printed copy of the MSAG to assist the ESA in its verification.
- d. Changes, deletions and additions in the MSAG are the responsibility of the ESA. Notification to the Company should be made as changes occur. After such notification, the Company will furnish a printed copy to the ESA for verification showing each change, deletion and addition to the MSAG.

- d. The Company shall not be liable or responsible for any indirect, incidental, or consequential damages associated with the provision of the 9-1-1 service when any 9-1-1 call originates from a system or line which makes the provision of specific location information impossible to provide for technical reasons. These technical reasons can include, but are not limited to, technical inability to provide subscriber information associated with multi-party lines, or private telecommunications services, such as PBXs or shared tenant services and calls originating over CentraNet lines.
- e. The Company accepts no responsibility for obtaining subscriber record information from private telecommunications systems, such as PBXs or shared tenant services, unless provided to the Company by a customer. At the rates set forth herein, the Company will integrate any records provided to it by the customer in a Company-standard format for inclusion in a 9-1-1 database. However, by doing so, the Company makes no representation or warranty regarding the accuracy of the data provided to it by a customer and shall not be liable or responsible for any indirect, incidental, or consequential damages associated with the provision of this data by the customer, which may be asserted by any person, business, government agency, or other entity against the Company.
- f. The Company shall not be liable or responsible for any indirect, incidental, or consequential damages associated with the provision of 9-1-1 service when there is a failure of or interruption in 9-1-1 service due to the attachment of any equipment by a customer to Company facilities. The customer may, with the prior written consent of the Company, which consent shall not be reasonably withheld, attach features, devices, or equipment or other vendors to the equipment or network facilities provided by the Company. Said attachments, devices, or equipment must meet all applicable federal and state registration or certification standards. The Company reserves the right to refuse attachments if the Company determines that said attachments will degrade the 9-1-1 system ordered by the customer, Company facilities or otherwise affect its telephone operations.

BY 1st R.S. #6
24. The Company, its employees, agents or representatives, except in cases of willful misconduct or gross negligence, shall not be liable for death or injury to the person or for damage to property as a result of undertaking, participating in or carrying out duties involved in tracing an E9-1-1 call in an emergency situation where there is either no name, address or location of the E9-1-1 caller available or there is not a correct name, address or location of the E9-1-1 caller. In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the company may be requested, required, have undertaken or participated in the tracing of an E9-1-1 call.
25. The ESA agrees to provide trained personnel for 24-hour coverage and receive all E9-1-1 calls routed to the PSAP. The ESA recognizes that the addresses provided with Automatic Location Identification (ALI) may be the same addresses that the Company maintains for its normal business records and the Company cannot guarantee their existence or accuracy in emergency situations. Therefore, the ESA recognizes that addresses must first be verified from a calling party. The Company will make every reasonable effort to update the ALI Database by the beginning of the third business day (excluding weekends and holidays) following the Company's completion of service during normal business hours. The ESA accepts responsibility for dispatching, or the responsibility for having others dispatch, police, fire, rescue or other emergency services as required. **FILED**

EMERGENCY TELEPHONE SERVICE (9-1-1)

B. CONDITIONS (Continued)

5. Liability

- g. The Company shall not be liable for any civil damages caused by an act or omission of the Company in the good faith release of information not in the public record, including nonpublished or nonlisted subscriber information to emergency service providers responding to calls placed to a 9-1-1 service or host providers using such information to provide a 9-1-1 service.
- h. The Company shall have no liability whatsoever to any person arising from its provision of, or failure to provide, 9-1-1 Service to any subscriber to a nonregulated telephone service (e.g., shared tenant service). It is the obligation of the customer to answer, respond to, transfer, terminate, dispatch, or arrange to dispatch emergency services, or otherwise handle all 9-1-1 telephone calls that originate from telephones within the customer's service area. Neither the customer nor the Company shall have any responsibility for 9-1-1 calls that carry foreign dial tone, whether they originate within or outside of the customer's service area, or for calls originating from mobile/cellular telephones.
- i. The Company shall not be liable for any mistakes, omissions, interruptions, delays, errors or defects in transmission or service caused or contributed to by the negligence or willful act of any person other than the Company, or arising from the use of customer provided facilities or equipment.

EMERGENCY TELEPHONE SERVICE (9-1-1)

DEC 12 1991

(C)

C. DESCRIPTION

**UTILITY DIVISION  
P. S. C. MO.**

1. B9-1-1 (Basic 9-1-1 Service)

- a. B9-1-1 Service provides for routing all 9-1-1 calls originated by stations with given central office prefix codes to a single PSAP which is prepared to receive those calls via a 9-1-1 Service line.
- b. Interoffice 9-1-1 service is provided via dedicated trunking. 9-1-1 service from the central office serving the PSAP is provided over dedicated lines or trunks.
- c. The following rate elements apply to a typical B9-1-1 arrangement:
  - (1) 9-1-1 Central Office Enabling - Enables the central office to recognize 9-1-1 as a valid number and connect a 9-1-1 call to a 9-1-1 Service Line or dedicated 9-1-1 trunk.
  - (2) 9-1-1 Service Line - A business network access line connecting the PSAP and its serving central office. The business individual line and/or business trunk or key business line rate is applicable.
  - (3) Interoffice Trunk - A dedicated facility between central offices (intra- or interexchange). The Interoffice Trunking Charges apply to each trunk ordered. A minimum of two trunks is required on each interoffice route.
    - (a) Mileage - Applicable to each trunk on a per airline mile basis.
    - (b) Trunk Termination - Applicable to each end of each trunk terminated.
- d. Additional 9-1-1 Features, as described on Sheet 68, are available with 9-1-1 Service where conditions permit.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

## D. DEFINITION OF TERMS

MISSOURI

Public Service Commission

Additional/Supplemental Information - Special driving instructions, medical requirements, hazardous material warnings, or information on other unique conditions. This is information which is displayed on the PSAP screen for each caller.

Agency - A person or entity, which may include the ESA and public safety agencies, providing emergency or other services to which PSAP Attendants transfer certain 911 telephone calls, in accordance with the ESA's instructions.

Alarm Indication - A visual and/or sound alarm designed to alert a PSAP Attendant to potential hardware problems, network failure, or an all lines busy situation.

ALI Database Cluster - A redundant database that matches the records held at the main ALI database location. The clusters are located closer to the PSAP locations than the central site database.

Alternate PSAP - The PSAP where 911 telephone calls are to be routed when the Primary PSAP shuts down for routine maintenance, an emergency, or because it does not operate 24-hours a day. An Alternate PSAP can be another Primary PSAP, a Secondary PSAP, an Overflow PSAP, or any other location designated by the ESA.

Alternate Routing/Night Service - A feature designed to permit 911 telephone calls to be routed to an alternate location designated by the ESA, if: (a) all 911 lines to the Primary PSAP are busy; or (b) the Primary PSAP regularly closed down for a period of time; or (c) an emergency forces the Primary PSAP to close down.

Automatic Location Identification (ALI) - A feature designed to permit the street address information for the location of a telephone included in the exchanges of an Enhanced 911 Service installation, from which a 911 telephone call is received, to be displayed on a display screen at a PSAP. Additional telephones with the same number as the calling party's (secondary location, off premises, etc.) will be identified with the address of the telephone number at the main location. ALI for calls from party line telephones will not be automatically displayed.

Automatic Location Identification (ALI) Database - A database resulting from matching the address ranges contained in the Master Street Address Guide (MSAG) with the telephone numbers contained in the Telephone Number (TN) Database.

EMERGENCY TELEPHONE SERVICE (9-1-1)

C. DESCRIPTION (Continued)

2. C9-1-1 (ANI-Only 9-1-1 Service)

a. The following rate elements apply to a typical C9-1-1 arrangement:

(1) 9-1-1 Central Office Enabling - Enables the central office to recognize 9-1-1 as a valid number and to connect such calls to a 9-1-1 Service Line or dedicated 9-1-1 trunk. Also enables the central office to generate ANI for the caller's telephone number and provide it to the 9-1-1 Service Line or dedicated 9-1-1 trunk.

(2) 9-1-1 Service Line - Same as B9-1-1 Service.

(3) Interoffice Trunk

(a) Mileage - Same as B9-1-1 Service.

(b) Trunk Termination - Same as B9-1-1 Service.

b. C9-1-1 Service includes ANI Spill which is the provision of the caller's telephone number to the PSAP. ANI Spill may not be provided from multi-party end users. For calls placed to a PSAP from off-premises stations and stations behind business systems, where ANI Spill is provided, it will provide the identity of the primary telephone service billing or lead number.

c. The PSAP's premises equipment used in conjunction with ANI Spill Service must be reviewed by the Company to determine the compatibility of the unity with the C9-1-1 Service requested. If changes are necessary to make this service compatible with the services offered herein, time and material charges will apply.

d. Selective Routing is available on an optional basis with C9-1-1 Service.

e. Additional 9-1-1 Features, as described on Sheet 68, are available with C9-1-1 Service where conditions permit.

## D. DEFINITION OF TERMS (Continued)

MISSOURI

Public Service Commission

Automatic Number Identification (ANI) - A feature designed to permit the number of a telephone from which a 911 telephone call is placed to be displayed on a display screen at a PSAP.

Call Conferencing - A feature designed to permit a PSAP Attendant to transfer the call to another Agency and have all people talk to one another - the 911 caller, the PSAP Attendant, and the Agency.

Call Detail Recording - A feature designed to permit the creation of a print-out of information regarding each 911 telephone call answered by the PSAP, which information may, but does not necessarily include: the ANI telephone number; the identification number of the position of the PSAP Attendant handling the call; the Trunk Number; the time the call was received, the time the call was answered by the PSAP Attendant; the time, if any, that the call was transferred; and the time the call was terminated.

CANCELLED

Call Monitoring - A feature designed to permit a PSAP Attendant to transfer a given 911 telephone call to another Agency and stay on the line if desired to assure the call is transferred.

BY 1st R.S. #64

Call Taker Details and Comments - A feature designed to permit a PSAP Attendant to type onto a keyboard any comments and send that information to an Agency with compatible equipment. The permissible length of the comments will vary depending on the type of equipment selected.

Called Party Hold - Once the PSAP has answered the call, a communication link is established that cannot be broken by the party that has called. The call remains connected until terminated by the PSAP.

Data Management System (DMS) - A complex system of manual procedures and computer programs used to create, store and update the data required to provide the Selective Routing (SR) and ALI features.

Default Routing - A feature activated when an incoming Enhanced 9-1-1 call cannot be selectively routed due to an automatic number identification failure, garbled digits or other causes. Such incoming calls are routed from the control office to a default public safety answering point. Each incoming Enhanced 9-1-1 facility group to the control office is assigned to a designated default public safety answering point.

Display Screen Transfer - A feature designed to permit a PSAP Attendant to transfer an entire screen of information related to a 911 telephone call, to another Agency, subject to that Agency's having and maintaining compatible computer equipment.

EMERGENCY TELEPHONE SERVICE (9-1-1)

C. DESCRIPTION (Continued)

3. E9-1-1 (Enhanced 9-1-1)

a. The following rate elements apply to a typical E9-1-1 arrangement:

(1) 9-1-1 Central Office Enabling - Same as C9-1-1 Service.

(2) 9-1-1 Service Line - Same as C9-1-1 Service.

(3) Interoffice Trunk

(a) Mileage - Same as C9-1-1 Service.

(b) Trunk Termination - Same as C9-1-1 Service.

(4) Automatic Location Identification (ALI) Database - An E9-1-1 database that contains subscriber names, telephone numbers, addresses and Emergency Service Numbers (ESNs), and is periodically updated by the Company. A per database charge is applicable to each database and a per record charge is applicable to all records in each database. When GTE is not responsible for the system's ALI database, a per record charge will apply to all GTE records provided to the ALI database manager. The customer is responsible for the following:

(a) Providing a correct set of addresses and ranges, known as a Master Street Address Guide (MSAG), with ESNs assigned to each address. This must include all Company and participating telecommunication service subscriber addresses and be based upon Company standards.

(b) Advising the Company in a timely manner of any changes in the MSAG or ESN assignments.

b. In the event that the customer requests to begin construction of an MSAG/ALI database prior to full application to C9-1-1 or E9-1-1 service, charges for ALI database construction and maintenance will apply.

c. The PSAP's premises equipment used in conjunction with ANI Spill Service must be reviewed by the Company to determine the compatibility of the unit with the E9-1-1 Service requested. If changes are necessary to make this service compatible with the services offered herein, time and material charges will apply.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

DEC 21 1989

## D. DEFINITION OF TERMS (Continued)

MISSOURI  
Public Service Commission

Diverse Routing - A feature designed to permit the ESA to provide processing of 911 telephone calls over alternate paths to reduce the chance of service interruptions due to possible interference in facilities. The feature is available only where facilities exist.

Emergency Service Agency (ESA) - The ESA is a municipality of other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The ESA is legally authorized to subscribe to the Enhanced E9-1-1 Service and has public safety responsibility by law to respond to telephone calls from the public for emergency police, fire or other emergency services within the telephone Central Office area arranged for E9-1-1 calling.

Emergency Ringback - Permits the attendant, by operating the flash key, to ring an E9-1-1 party who goes on-hook after the E9-1-1 call has been answered. This feature is available only for systems where E9-1-1 lines are provided via dedicated arrangements from the originating central offices.

Emergency Service Number (ESN) - When the Selective Routing feature is provided, the ESA is responsible for identifying primary and secondary PSAP locations, as well as the unique combinations of police, fire, ambulance or any other appropriate agencies responsible for providing emergency service in the E9-1-1 serving area. An Emergency Service Number (ESN) will be provided by the Company for each unique ESZ. The ESA will associate these ESN's with street address ranges or other mutually agreed upon routing criteria in the E9-1-1 serving area. The ESN's will be carried in the DMS to permit routing of E9-1-1 calls to the primary and secondary PSAP's responsible for handling of calls from each telephone in the E9-1-1 serving area.

**CANCELLED**

4. Optional Services

SEP 15 1994

a. Selective Routing

BY 93-1

- (1) Selective Routing Service routes calls based on the caller's ANI. This service is available when a C9-1-1 or E9-1-1 system is served by more than one PSAP or when a central office is split by a political boundary and one of the political areas does not subscribe to 9-1-1 services. The customer is responsible for the following:
  - (a) Providing a correct set of addresses and ranges, known as a Master Street Address Guide (MSAG), with Emergency Service Numbers (ESN) assigned to each address. Each ESN must be assigned to a PSAP. This must include all Company and participating telecommunication service subscriber addresses and be based upon Company standards.
  - (b) Verifying the accuracy of the call routing by participating in tests with the Company prior to service establishment, and subsequent to any ESN change, to ensure that calls from each ESN are correctly routed.
  - (c) Advising the Company in a timely manner of any changes in the MSAG or ESN assignments.
- (2) The following rate elements apply to Selective Routing:
  - (a) Database Administration - The per database charge to create and maintain the MSAG and ALI database structure.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

DEC 21 1989

## D. DEFINITION OF TERMS (Continued)

MISSOURI

Public Service Commission

Emergency Service Zone (ESZ) - A geographic area served by a unique combination of law enforcement, fire and rescue squads. The ESA, and not the Company, has sole responsibility for providing to the Company complete, accurate, and timely information regarding the service boundaries of all Agencies to which a 911 telephone call from an End User may be transferred or routed.

End Users - Persons making 911 telephone calls originating from exchanges, or portions of exchanges, included in a particular Universal Emergency Number Service installation.

Error Reports - Written documents or oral or computer reports noting discrepancies identified when processing the Telephone Number (TN) Database against the Master Street Address Guide (MSAG), or other applicable data tables and files, during the creation and updates of the ALI Database.

Forced Disconnect - A function of the Enhanced 9-1-1 central office trunk circuit that prevents the jamming of the Enhanced 9-1-1 Service exchange lines. The public safety answering point attendant is able to release a connection even though the calling party has not hung up.

Idle Tone Application - A feature designed to permit a PSAP Attendant to obtain an audible tone indication of whether the telephone from which a 911 call was placed is on or off hook.

Manual ALI Request - A feature designed to permit a PSAP Attendant -- in the event that the telephone number (ANI) and location of the telephone from which a 911 telephone call is placed (ALI) are not automatically displayed on a display screen -- to obtain from the 911 telephone caller the telephone number and/or service address and/or subscriber name, for the telephone from which the 911 telephone call is placed, and thereafter call up on a display screen the information in the ALI Database corresponding to that telephone number by typing the information provided by the End User onto a keyboard. ALI Database information will not be displayed for 911 telephone calls made on a party line, and the 911 caller from a party line must provide to the PSAP Attendant information regarding the caller's location.

Manual Transfer - A feature designed to permit the PSAP Attendant to transfer a 911 telephone call to another telephone by dialing 10 digit telephone number or 2 digit speed dialing code.

4. Optional Services (Continued)

a. Selective Routing (Continued)

(2) (Continued)

(b) Database - The charge on a per record basis to develop and update street ranges, list correct addresses, assign ESNs and PSAPs to each record, and transmit the ALI to the database management system that will be accessed by the caller's ANI. Database rate elements include monthly rates and nonrecurring charges for each database and for each record within each database.

(c) Selective Router - The hardware and software that provides selective routing assignment codes to a central office for a 9-1-1 call and connects the incoming 9-1-1 trunks to the central office that will route the calls.

Trunk termination charges do not apply to the end of any interoffice trunks that terminate on a Selective Router.

(d) Selective Router Interface - A component of a Selective Routing System consisting of interface cards that enable a 9-1-1 trunk or a central office to be able to communicate with the Selective Router's computer. The quantity of cards required varies directly with the quantity of trunks terminating at the Selective Routing System.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

## D. DEFINITION OF TERMS (Continued)

MISSOURI

Public Service Commission

Master Street Address Guide (MSAG) - The document or computer file listing standard street names, address ranges and ESNs for all telephones included in the exchanges and portions of exchanges served by Enhanced 911 Service.

Night Service/Call Transfer - Provides for the routing of calls to a designated alternate location for purposes of closing the public safety answering point down for a period. There are two mutually exclusive options for Night Service/Call Transfer. Under the scheduled option all calls may be transferred at a preprogrammed time (daily, weekly, monthly or annually). Immediate option calls may be transferred at the direction of the Supervisory position. In either case, alternative answering points must be programmed.

Overflow Call transfer - A feature designed to automatically transfer 911 telephone calls to the Overflow PSAP, instead of the Primary PSAP, when all lines to the Primary PSAP are busy.

Overflow PSAP - The PSAP used to receive overflow calls when all lines to the Primary PSAP are busy, pursuant to the Overflow Call Transfer feature. The ESA is solely responsible for designating the Overflow PSAP.

Preliminary MSAG - A preliminary form of the MSAG, including street names and address ranges, for all locations containing telephones included in the exchanges and portions of exchanges served by Enhanced 911 Service.

Primary PSAP - The PSAP where 911 telephone calls are first routed, as directed by the ESA.

PSAP Attendant - An individual located at the Primary PSAP, the Secondary PSAP, the Overflow PSAP, or the Alternate PSAP, who answers a 911 telephone call from an End User.

PSAP Service Boundary - The exchanges and portions of exchanges served by Universal Emergency Number Service which the ESA shall assign a particular PSAP to answer, transfer, respond, and/or otherwise handle 911 telephone calls originating from such exchanges and portions of exchanges.

Public Safety Answering Point (PSAP) - The location housing PSAP Terminal Equipment and PSAP Attendants which the ESA designates to answer telephone calls originating within the PSAP Service Boundary. A PSAP may be designated by the ESA as Primary, Secondary, Alternate, or Overflow referring to the order and/or manner in which 911 telephone calls are directed to that PSAP.

ENHANCED EMERGENCY NUMBER SERVICE (E9-1-1) (Continued)

MISSOURI

## D. DEFINITION OF TERMS (Continued)

Public Service Commission

Secondary PSAP - A PSAP to which a 911 telephone call answered by a Primary PSAP is transferred, in accordance with the ESA's policies, procedures, and/or instructions.

Selective/Fixed Transfer - A feature designed to permit a PSAP Attendant to transfer a 911 telephone call (voice and/or display screen data, depending on type of equipment and service) to another Agency, person or entity by pressing one or more keys on a keyboard or telephone console.

Selective Routing (SR) - A feature designed to permit the routing of 911 telephone calls from End Users calling from within a certain PSAP Service Boundary, to the PSAP designated by the ESA as the Primary PSAP for calls originating within that PSAP Service Boundary, regardless of any difference between the PSAP Service Boundary and the Central Office Boundary. The Selective Routing feature depends upon the completeness, accuracy, and timeliness of the MSAG and ESZ data supplied to the Company by the ESA, and the Telephone Number (TN) Data Base information supplied by the Company, or other entities.

Selective Routing (SR) Database - A feature designed to permit Selective Routing of 911 telephone calls from End Users calling from a given area, to the PSAP designated by the ESA as the Primary PSAP designated to answer calls from that area, regardless of any difference between the PSAP Service Boundary and Central Office Boundary. The SR Database consists of Telephone Number (TN) Database information and selected portions of the MSAG, including ESN and ESZ information. The completeness, accuracy, and timeliness of the SR Database depends upon the accuracy of the MSAG and ESZ data supplied to the Company by the ESA, and the Telephone Number (TN) Database information supplied by the company, or other entities.

Service Address - The address at which the telephone is physically located.

Switchhook Status - A feature designed to provide the PSAP Attendant with an audible and/or visual indication of the End User's switchhook status (whether the telephone from which an End User is making a 911 telephone call is on or off hook).

Telephone Number (TN) Database - A database created by the Company, containing a list of all telephone numbers included in the exchanges and portions of exchanges served by Enhanced 911 Service, and the corresponding Service Addresses and Subscriber Names.

SERVICES FOR ENHANCED SERVICE PROVIDERS

MO. PUBLIC SERVICE COMM.

A. General

1. This tariff section contains regulations, rates and charges applicable to the provision of certain functional network capabilities. These capabilities, Services for Enhanced Service Providers (ESPs), expand the ability of ESPs to provide services to their clients through the use of the public switched telephone network. These network capabilities are provided by Contel of Missouri, Inc. d/b/a GTE Missouri, hereinafter referred to as the Company.
2. Services for ESPs are furnished only in central office areas where facilities and equipment, as determined by the Company, permit.
3. Services in this section of the tariff, designed primarily for ESPs are also available to others.

B. ESP Services

ESP Services are services offered by the Company in conjunction with exchange access line service as outlined in Section 4 of this Tariff. Customers may order and utilize these services to connect to the Company's local exchange network to provide enhanced services to the customer's clients. These services are as follows:

1. Message Waiting Indication - Audible

This service provides the ability for a customer to send a customer's client line to receive an alerting signal in the form of an audible stutter dial tone. This alerting signal will be used by the customer to inform its clients that call information is waiting for them. This service is used in conjunction with Forwarded Call Information - Intraoffice.

SERVICES FOR ENHANCED SERVICE PROVIDERS

MO. PUBLIC SERVICE COMM.

B. ESP Services (Continued)

2. Forwarded Call Information - Intraoffice

This service provides information on the called number (the customer's client line which was busy or did not answer and is equipped with call forwarding), the forwarded to number (the customer's enhanced service number to which redirected calls are forwarded), and the reason calls were forwarded or placed to the customer. The reasons for forwarding information may include when a client's line is:

- busy;
- not answered;
- either busy or not answered; or
- used to call the customer directly

Customer subscribing to this service must also subscribe to Data Link service.

3. Data Link

The facility that connects the customer's location to the Company's central office. This facility provides the capability of delivering to the customer information such as the called number, the call forwarded number, and the condition of the call being forwarded by each central office serving area in which the customer wishes to offer enhanced services. Customers subscribing to this service must also subscribe to Forwarded Call Information - Intraoffice.

4. Queuing

This service provides customers subscribing to PBX Access lines or Digital Centrex lines arranged in a multiline hunt group the capability to equip that group with a queuing feature. Calls made to a multiline hunt group equipped with the queuing feature will complete immediately if there is an idle terminal in the hunt group. However, if all terminals in the hunt group are busy, the call is placed on queue and waits its turn to be served.

SPECIALIZED SERVICES

SERVICES FOR ENHANCED SERVICE PROVIDERS

B. ESP Services (Continued)

5. User Transfer

This service provides customers subscribing to PBX Access or Digital Centrex lines used in conjunction with ESPs equipment the ability to temporarily hold an established call, originate another call to a third party, and then transfer the first call to the third party. When a call has been transferred the original line/trunk is cleared to place or receive another call.

C. Definitions

1. Client - The term "client" denotes any individual, partnership, association, joint-stock company, trust corporation, or governmental entity or any other entity which subscribes to the services offered by the customer utilizing those services provided under this Section of the Tariff.
2. Customer - The term "customer(s)" denotes an ESP, individual, partnership, association, joint-stock company, trust corporation, or governmental entity or any other entity which subscribes to the services offered under this Section of the Tariff.
3. Enhanced Service Provider - An Enhanced Service Provider (ESP) is a provider of telecommunication related services to its patrons, offered over the Company transmission facilities, which employ computer processing applications that act on the format, content, code, protocol or similar aspects of the patron's transmitted information; provides the patron additional, different or restructured information; or involve patron interaction with stored information.
4. ESP Bill Option - This is an ordering and billing option that allows a customer, on behalf of that customer's clients, to order and pay for the provisioning and monthly recurring charges of only those services necessary to establish a call forwarding service or a forwarded call information service. Should a client dispute authorization for the exercise of this option in conjunction with his/her service, the customer will be held liable for orders involving clients for whom no agency agreement exists.

D. Regulations and Conditions

1. Undertaking of the Telephone Company

- a. The limitation of the Company's liability is set forth in Section 2 of this Tariff.
- b. The Company may disconnect the customer's service for failure to comply with any provision(s) of this Tariff or any tariff of the Company.
- c. ESP Client Services billed to ESP orders can only be accepted if the client line is specified and available for provisioning.
- d. If the Company finds the provision of ESP Services, as outlined herein, is adversely affecting or would adversely affect the Company's ability to provide, complete or maintain the level of or quality of its other services to its exchange telephone customers, the Company may refuse to provide or may discontinue providing such services.
- e. ESP Services will not be provided in connection with Public Coin Telephone Service, Semipublic Coin Telephone Service, or Party Line Service.
- f. Charges for calls between the originating location and the call forward equipped line are applicable in accordance with regularly filed tariffs for operator station or person toll.
- g. The Company is not required to notify an ESP customer when the Company disconnects a service of another customer who is also the ESP's client.

D. Regulations and Conditions (Continued)

2. Enhanced Service Provider's Obligations

- a. Customer services as outlined herein and the promotion and provision thereof must comply with all applicable Federal, state and local laws, rules and regulations.
- b. The customer shall indemnify, defend, protect and save harmless the Company against any and all losses, claims, demands, suits, causes of action, damages, costs or liability in law or in equity of every kind and nature whatsoever, including attorney's fees, arising directly or indirectly from the service or in connection therewith, including but not limited to any loss, damage, expense, or liability resulting from any infringement or claim or infringement of any patents, trademarks, or copyright, or resulting from any claims of libel or slander.
- c. The customer is responsible for all provisioning and monthly recurring charges for billed-to-ESP services including those situations in which the customer's client and/or the Company has temporarily suspended or disconnected that client's service.
- d. The customer has exclusive responsibility and control over the content, quality, and characteristics of services or conversations conducted over the customer's equipment. The Company assumes no liability for the quality, defects in, or content of those services. The customer shall exclude from its services any matter, the dissemination of which is prohibited by law, or by rules, regulations or order of any governmental agency.
- e. The customer shall not publish or use any advertising, sales promotion material, or other publicity relating to the subject matter of ESP Services wherein the Company's name or language, signs, markings or symbols are used, from which the connection of the Company's name therewith may be, in the Company's judgment, reasonably inferred or implied without the prior written approval of the Company.

2. Enhanced Service Provider's Obligations (Continued) MO. PUBLIC SERVICE COMM.

- f. The customer is financially responsible for any and all costs and expenses involved in providing its services, including, but not limited to, the customer's premises equipment, program development, advertising, and promotional expenses. The customer is financially responsible for all facilities required to connect the customer's equipment to the Company's serving wire center, in accordance with all applicable rates and charges under the Company's tariff.
- g. The customer's premises equipment shall be interconnected in accordance with the General Conditions and applicable rates as set forth in this Section, Customer Provided Equipment. If the customer violates this requirement, the Company may disconnect the customer's service.
- h. Customers subscribing to the services outlined in this Section of the Tariff, are required to subscribe to PBX facilities or Digital Centrex lines capable of supporting the enhanced service(s) being offered. Also, they may be required to subscribe to as many additional PBXs or Digital Centrex lines as, in the judgment of the Company, are required to adequately handle calls without impairing service to others.
- i. The customer is responsible for disconnecting ESP Services ordered for its client(s), including those situations where the customer's client(s) no longer have service with the Company.
- j. The customer is responsible for the payment of applicable charges for each forwarded call completed in conjunction with User Transfer Service.
- k. The ESP will not disclose the calling party's telephone number, except for services directly related to the call (e.g. call set-up, routing of calls, billing and maintenance) unless permission is given by the calling party.

SPECIALIZED SERVICES

RECEIVED

JUL 15 1992

DIGITAL DATA SERVICE

MO. PUBLIC SERVICE COMM.

A. GENERAL

1. Digital Data Service is an intraexchange service which supports synchronous, full-duplex transmission at bit rates of 2.4, 4.8, 9.6, 19.2 and 56 Kilobits per second (Kbps) between the serving wire center of the customer designated locations.

2. There are five synchronous speeds offered through Digital Data Service.

a. 2.4 Kbps

These facilities are best used for single terminal configurations.

b. 4.8 Kbps

These facilities are best used for single terminal configurations.

c. 9.6 Kbps

These facilities can be used for single terminal configurations and multiple terminal configurations through the addition of customer-provided multiplexers.

d. 19.2 Kbps

These facilities can be used for single terminal configurations as well as multiple terminal configurations through the addition of customer-provided multiplexers.

e. 56 Kbps

These facilities are suitable for all data transmissions. They require the ability to connect to a synchronous network. These facilities may be ordered as two-point or multipoint configurations. However, multipoint configurations are rare due to the considerable bandwidth of the circuit, but are available. Customer-provided multiplexing of the lower speed synchronous or asynchronous circuits between two CDLS is common at this speed.

JUL 15 1992

DIGITAL DATA SERVICE

MO. PUBLIC SERVICE COMM.

B. CONDITIONS

1. Digital Data Service provides a transmission path for digital data signals between two customer designated locations within an exchange.
2. Digital Data Service is furnished for duplex operation on a full-time basis (24 hours a day, seven days per week).
3. Digital Data Service can only be provided within the same exchange where existing digital facilities and equipment permit. Services between serving wire centers must have digital service components (digital connectivity) between all intermediate offices to have the ability to provide the service.
4. There are two types of facility configurations over which Digital Data Service is provided, two-point and multipoint.

~~CANCELLED~~

a. Two-Point

A two-point configuration is a circuit which is provided to connect two CDLs.

SEP 10 1994

BY

93-1

Public Service Commission  
MISSOURI

b. MultiPoint Service

A multipoint configuration is a circuit that is provided to connect three or more CDLs through a telephone company hub wire center. Multipoint Digital Data Service is provided in the following manner:

- (1) Special Access Line per CDL to their respective serving wire centers.
- (2) Special Transport facility between hub wire centers.
- (3) Special Transport facility between the serving wire centers associated with the customer designated locations and the hub wire center.
- (4) Special Transport Termination at each end of the Special Transport facility terminating in a telephone company serving wire center when applicable.
- (5) Supplemental Features - Bridging equipment charges for each bridging location and other Supplemental Features when applicable.

C. RATES AND CHARGES

MO. PUBLIC SERVICE COMM.

1. General

There are four basic rate elements which may apply to Digital Data Service:

CANCELLED

- Special Access Line (SAL)
- Special Transport (ST)
- Special Transport Termination (STT)
- Supplemental Features

SEP 17 1994

BY 93-1

Public Service Commission  
MISSOURI

2. Special Access Line

A Special Access Line (SAL) provides the transmission facilities to a customer designated location (CDL) or the facilities between a CDL and the serving wire center. This rate element varies by the bit-rate of the circuit ordered.

The applicable rates are the nonrecurring charge and monthly rate set forth per Digital Special Access Line installed.

One SAL charge applies per CDL at which the facility is terminated. This charge applies even if the facilities to the CDL do not transit a serving wire center. This charge also applies even if the CDL and the serving wire center are collocated in a telephone company building, except as specified below.

3. Special Transport

Special Transport provides the transmission facilities between the serving wire centers associated with two CDLs. This rate element is per airline mile. Fractional miles are rounded to the next whole mile.

The Special Transport rate will not apply if both CDLs are in the same serving wire center.

FILED

C. RATES AND CHARGES (continued)

MO. PUBLIC SERVICE COMM.

4. Special Transport Termination

Special Transport Termination provides the equipment and arrangements necessary to terminate the Special Transport facility at a telephone company serving wire center. One Special Transport Termination charge applies for the termination of each end of a Special Transport facility for Digital Data Services.

The Special Transport Termination rate will not apply if both CDLs are in the same serving wire center.

5. Supplemental Features

Supplemental Features may be added to a Digital Data Service circuit to improve its utility to meet specific communications requirements. These are not necessarily identifiable with specific circuit bit-rate, but rather represent the end result in terms of performance characteristics which may be obtained. Although the facilities necessary to perform a specified function may be installed at various locations along the path of the Digital Data Service circuit, including the customer designated location, it will be provided for as a single rate element. The Supplemental Feature available for Digital Data Service is described below:

a. Digital Data Service Bridging

Provides for a multi-junction unit (MJU) arrangement to bridge 2.4 Kbps, 4.8 Kbps, 9.6 Kbps, 19.2 Kbps or 56 Kbps Digital Data Service facilities. Different speeds cannot be mixed on the same bridge. This function is provided on a per port basis.

CONTROLINK® Digital Channel Service

MO. PUBLIC SERVICE COMMISSION

A. GENERAL

1. CONTROLINK® Digital Channel Service is an intraexchange multifunctional digital channel service which provides access transport between a customer's premises and the local serving office on a channelized basis (DS0) over a single high-capacity (DS1) digital facility.
2. CONTROLINK® Digital Channel Service is provided in capacity increments of 24 digital channels within a single DS1 signal.
3. The following types of network services as specified in other tariffs are available on a channelized basis via CONTROLINK® Digital Channel Service. These services may be furnished on a link basis across multiple jurisdictions when connected with CONTROLINK® Digital Channel Service.
  - a. Analog Voice Service (exchange lines/trunks), and CentraNet® lines, foreign exchange, off-premises extensions, and voice private lines.
  - b. Analog Data Service
  - c. Digital Data Service (2.4; 4.8; 9.6; 19.2; 56 Kbps)
  - d. DS1 (1.544 Mbps) Service
4. CONTROLINK® Digital Channel Service is comprised of the following components:

Digital Channel Capacity  
Digital Channel Activation  
Service Activation  
Customer Premises Channelization

- a. The Digital Channel Capacity, Digital Channel Activation and Service Activation will be at the rates and charges as specified in this Tariff.

SPECIALIZED SERVICES

CONTROLINK® Digital Channel Service

MO. PUBLIC SERVICE COMM.

B. DIGITAL ARCHITECTURE

1. CONTROLINK® Digital Channel Service differs in provisioning method and numbering format from end-to-end services. These services will be available from the Company on a link (partial channel) basis rather than as an end-to-end service. This architecture is intended to promote more efficient connectivity of analog and digital networks in the future.
2. The time required to provision service is known as the service date interval. The service date interval for CONTROLINK® Digital Channel Service and related network services connected to CONTROLINK® Digital Channel Service will differ from the normal guidelines applicable to end-to-end services.
3. CONTROLINK® Digital Channel Service will be available on a digital basis at the network interface on a customer's premises. Traditional analog services, like off-premises stations, and automatic access lines, can be provided on a digital basis to a customer's premises by the Company when a customer desires them encoded in a DS1 bit stream. Under those conditions, they will be provided as DSO channels by the Company. Both the Company and the customer have joint responsibilities to ensure the proper transmission of the provided services. Normal analog channel network interface specifications will be superseded by the electrical specifications of the 1.544 Mbps (DS1) channel which is actually terminated. Each digital channel provided will have identity only as a "time slot" within a DS1 channel. Compatible digital to analog conversion equipment must be provided by the customer (optional) to derive the desired analog services. Any Channel Service Units (CSUs) necessary for digital services are the responsibility of the customer (optional).

CONTROLINK® Digital Channel Service

SEP 15 1994

MO. PUBLIC SERVICE COMMISSION

C. DEFINITIONS

BY

93-1

1. Digital Channel Capacity - A multifunctional DS1 signal between the customer premises and the central office. This digital link can be used to transport switched and dedicated services. This element acts as the transport medium for the service activations ordered by the customer. Digital Channel Capacity is available in increments of 24 digital channels.
2. Digital Channel Activation - The Digital Channel Activation is the quantity of channels the customer has activated at the central office. The Digital Channel Activations ordered by the customer cannot exceed the quantity of the Digital Channel Capacity.
3. Service Activation - A Service Activation is the connection between CONTROLINK® Digital Channel Service and the network service accessed.
4. Customer Premises Channelization - Provides access to the DS0 time slot within the DS1 signal associated with a specific CONTROLINK® Digital Channel Service. Customer Premises Channelization utilizes D4 type channel bank equipment.
5. Channel Service Unit (CSU) - The term CSU denotes network channel terminating equipment provided by the customer to terminate digital channel facilities on a customer's or user's premises.
6. DS0 - The term DS0 denotes a channel service expressed in terms of its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It is generally referred to as having a 64 Kbps transmission bit rate signal; however, customer transmitted bit rates are limited to 56 Kbps. The required format and interface specifications are stated in Section 7000 of the GTE Technical Interface Reference Manual.
7. DS1 - The term DS1 denotes a channel service expressed in terms of its digitally encoded bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate and provided for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BPRZ) bit stream format. Unframed signal formats are not permitted or compatible with Company equipment. The required format and interface specifications are stated in Section 7000 of the GTE Technical Interface Reference Manual.

CONTROLINK® Digital Channel Service

MO. PUBLIC SERVICE COMM.

D. REGULATIONS

1. CONTROLINK® Digital Channel Service is furnished subject to the availability of facilities from digital central office equipment located in a central office building owned or leased by the Company.
2. This service is available within an exchange where appropriate digital facilities are available as determined by the Company. Service inquiries will be necessary to determine availability. Special Construction Charges as specified elsewhere in this Tariff may be applicable.
3. The 1.544 Special Transport Mileage will apply when a customer's request for CONTROLINK® Digital Channel Service is provisioned in a central office other than the customer's local serving office.
4. The customer may activate any number or combination of digital channels within the limitations as set forth in this Section. Digital channels may be activated coincident with installation or at any time subsequent to Digital Channel Capacity installation. Once activated, a digital channel is subject to a minimum service period.
5. All CONTROLINK® Digital Channel Service must be channelized in a single equipment location on a customer's premises. CONTROLINK® Digital Channel Service cannot be split between premises, or multiple locations within a premises. Extensions (as specified in other sections of this Tariff) may be furnished on a link basis between multiple locations. Standard network interfaces will be provided by the Company for analog and digital services consistent with existing practices.
6. Individual digital channels may be activated and furnished on a link (partial channel) basis with service offered in other sections of this Tariff. The regulations, rates, and charges specified in this Tariff are applicable for the CONTROLINK® Digital Channel Service component of the customer's end-to-end service. The regulations, rates, and charges in other sections of this Tariff are applicable to the customer's interconnected services (i.e., private lines, etc.), for the non-CONTROLINK® Digital Channel Service component of the customer's end-to-end service.

CONTROLINK® Digital Channel Service

MO. PUBLIC SERVICE COMMISSION

D. REGULATIONS (Continued)

7. The total number of digital channels activated by the customer may not at any time exceed the total Digital Channel Capacity. Additionally, there are some necessary restrictions in total system capacities where certain types of services are channelized, i.e., some channelizing equipment may require two DSO channels per channel provided by the Company thereby reducing the basic system stated capacity substantially. The Company will notify the customer when the Digital Channel Capacity is affected.
8. Central Office channelization (component of Digital Channel Capacity) generally provides analog to digital conversion to permit individual exchange services and private line channel services to be transported over digital high capacity facilities. This channelization is also intended for use at Company or customer designated locations where different high capacity digital network links terminate in the same central office and must be converted to individual analog or digital channels before individual service links can be crossconnected. Digital Channel Capacities are provided in groups of 24 DSO channels, and are subject to the limits as set forth in the previous paragraph.
9. Customer Premises Channelization generally provides analog to digital conversion at a customer's premises. This allows individual exchange services and private line services to be transported over digital high capacity facilities. The termination of this channelization will be in a single equipment location on a customer's premises. The customer must provide suitable floor space, controlled environment, and a source of nonswitched 120 volt 60 Hz. AC power to support this service. Emergency backup power and ring generating equipment capabilities are available for an extra charge on an Individual Case Basis.
10. When the Company provides CONTROLINK® Digital Channel Service channelization equipment at a customer's premises, it is not necessary for the customer to provide Channel Service Units (CSU's) for associated channels.

CONTROLINK® Digital Channel Service

D. REGULATIONS (Continued)

MO. PUBLIC SERVICE COMMISSION

11. Channelization on a customer's premises may be provided by the customer or the Company. Joint provisioning of channelized services introduces joint responsibilities between the customer and the Company as specified following:

a. Responsibilities of the Company:

- 1) The Company will endeavor to activate its portion of joint service in a timely manner on the negotiated date to support installation requirements.
- 2) The Company will provide the customer with information regarding the type and the manufacturer of central office channelization equipment to be used in each application.
- 3) The Company will attempt to limit its selection of central office equipment to avoid operational and administrative difficulties associated with a multi-vendor central office environment.
- 4) The Company reserves the right to change its equipment vendors should equipment availability, price or technological advantages make such a change attractive or necessary.
- 5) The Company will notify the customer, generally a minimum of six months in advance, of any need to change its central office equipment to allow the customer sufficient time to respond, make any necessary changes, and schedule cooperative testing for cutover, if required.
- 6) Digital synchronization timing for CONTROLINK® Digital Channel Service will be provided by the Company.

MO. PUBLIC SERVICE COMMISSION

D. REGULATIONS (Continued)

11. (Continued)

b. Responsibilities of the Customer:

- 1) The customer must be prepared to activate his portion of joint service in a timely manner on the negotiated date, providing testing equipment and personnel to support installation requirements, as may be necessary.
- 2) The customer will be responsible for selecting his own equipment. Customer equipment must be compatible with the Company provided channelization at the central office.

c. Trouble Resolutions:

- 1) The Company will assist the customer in resolving any installation or day-to-day channel service problems. However, the Company does not assure responsibility for the compatibility or suitability of the customer's equipment. Dispatches to customer premises caused by customer equipment troubles will result in Service Charges as set forth in this Tariff, to the customer.
12. The technical specifications and standard network interfaces for DS1 and associated channelized services are stated in Section 7000 of the GTE Technical Interface Reference Manual. Channelized DS1 service is available only with D4 channel bank equipment or compatible, equivalent equipment.
13. Emerging technology, such as low bit rate voice multiplexing techniques, may permit additional quantities of individual channels to be channelized on a single DS1 signal. Equipment providing this capability does not generally assure compatibility between different manufacturers. Some equipment may not be suitable for data transmission or tandem network line application. Rates, charges, and availability of this equipment will be negotiated with the customer on an Individual Case Basis.

CONTROLINK® Digital Channel Service

MO. PUBLIC SERVICE COMMISSION

E. APPLICATION OF RATES

1. Three basic rate elements; Digital Channel Capacity, Digital Channel Activation, and Service Activation are applicable to each CONTROLINK® Digital Channel Service.
2. The Digital Channel Capacity element provides for the mileage based transport and the central office channelization. Digital Channel Capacity is offered with 36, 60, or 84 month Term Payment Plan periods. A month-to-month option is available only after the completion of the selected Term Payment Plan period.
3. Digital Channel Activation is a recurring charge for each DS0 channel activated within the Digital Channel Capacity. The Digital Channel Activation is offered on a month-to-month basis. When CONTROLINK® Digital Channel Service facilities are used to transport DS1 Service, the DS1 Service Activation charge is applied in lieu of the Digital Channel Activation charge.
4. Service Activation charges are recurring charges and are applicable for each network service (switched or dedicated) required by the customer. Service Activation is offered on a month-to-month basis. For DS1 services, a DS1 Service Activation charge is applicable.
5. Customer Premises Channelization is an optional component. Channelization at the customer's premises is available as a Company functionality at the rates described in this Tariff. In addition to this charge, a Customer Premises Service Activation charge will apply for each network service with Company provided channelization. Otherwise, the customer has the option to support premises channelization with CPE devices.
6. Monthly rates and charges as specified in this Tariff for Digital Channel Capacity apply according to the requested channel capacity. These rates apply regardless of the number of digital channels that are actually activated by the customer at a point time.

PSC. PUBLIC SERVICE COMM.

E. APPLICATION OF RATES (Continued)

7. Exchange and long-distance calling is provided within CONTROLINK® Digital Channel Service via the appropriate service activation. A network access charge will apply to each Service Activation that utilizes basic exchange access from the local serving office, except foreign exchange service. The network access charges when utilized for CentraNet® will be ordered and billed as specified in this Tariff. This charge is in addition to all other applicable CONTROLINK® Digital Channel Service charges.
8. Rates and charges specified in other Tariff sections for services such as Touch Calling, Custom Calling features, etc., are in addition to the monthly rates for CONTROLINK® Digital Channel Service. End User Subscriber Line charges are applicable to CONTROLINK® Digital Channel Service.
9. The rates and charges for other services connected or extended beyond CONTROLINK® Digital Channel Service (i.e., off-premises extensions and private lines, etc.) are in addition to the rates specified in this Tariff for the CONTROLINK® Digital Channel Service portion necessary to provide customer end-to-end service. This will also apply to Nonrecurring Charges and Service Charges as specified in other Tariffs for activities involving the non-CONTROLINK® Digital Channel Service portion of the customer end-to-end service.
10. Digital Channel Capacity is available under Term Payment Plans only for rate periods of 36, 60, or 84 months. All elements of a Term Payment Plan will expire at the same time (be coterminous).
  - a. The customer may order additional Digital Channel Capacity(s) during a Term Payment Plan period. The expiration date of the additional capacity(s) will be the same expiration date as the original Term Payment Plan period.
  - b. Customer Premises Channelization Capacity charges (applicable only if Company provided) are available under Term Payment Plans only for rate periods of 36, 60, or 84 months.
  - c. Digital Channel Activation charges are available only on a month-to-month basis.

MO. PUBLIC SERVICE COM.

E. APPLICATION OF RATES (Continued)

10. (Continued)

- d. Service Activation charges are available on a month-to-month basis.
  - e. Individual network services (switched or dedicated) that are connected to CONTROLINK® Digital Channel Service, are not available under the Term Payment Plan rate stability provisions. Those services are subject to their standard tariff provisions and minimum service periods as appropriate.
11. At the expiration date of the customer's selected Term Payment Plan period, the customer may continue service under a new Term Payment Plan or on a month-to-month basis. Rates for service under these options will be the current rates as specified in this Tariff.
12. A Termination Liability Charge will be applicable should the customer discontinue service prior to the end of the Term Payment Plan. This is subject to the following exemptions:
- a. No Termination Liability Charge will be applicable for the Digital Channel Capacity when the customer renegotiates a new Term Payment Plan for the same equipment or larger system at the same location for a period of time greater than the time remaining on the existing Term Payment Plan, subject to payment periods contained in E.10.
  - b. All CONTROLINK® Digital Channel Service Components are coterminous with the Digital Channel Capacity with which they are associated. Any activations subscribed to on a month-to-month basis have a minimum service period of one month and no associated Termination Liability Charge.
13. A Termination Liability Charge will be calculated based on the sum of the monthly payments remaining under the customer's Term Payment Plan, adjusted to the present value at the date of termination, based upon a 12% APR discount. The Termination Liability Charge is due in full at the date of termination.

MO. PUBLIC SERVICE COMM

1. Service Charges

BY 93-1  
Public Service Commission  
MISSOURI

a. Service Establishment Charge

This charge applies to the initial Digital Channel Capacity(s) ordered by a customer for receiving, recording and processing the request for service. This charge includes processing orders to establish initial Digital Channel and Service Activations and/or Company provided Customer Premises Channelization. This charge includes common centralized testing, coordination and accounting activities.

This charge also applies to subsequent orders received to establish additional Digital Channel Capacity(s).

b. Service Change Charge

This charge applies on a per Digital Channel Capacity Service Activation basis associated with a customer request for modifications to an existing service. This would include activities such as, but not limited to:

change of associated channel assignment  
additional supplemental features  
activate/deactivate Digital Channel Activation  
activate/deactivate Service Activation

This Service Change Charge will be applied on a first and each additional basis and is in addition to Service Charges as specified elsewhere in this Tariff.

SPECIALIZED SERVICES

OCT 15 1992

HIGH CAPACITY DIGITAL DS1 (1.544 Mbps) SERVICE

MO. PUBLIC SERVICE COMM.

A. GENERAL

1. High Capacity Digital DS1 Service is an intraLATA dedicated high capacity channel used for simultaneous two-way transmission of serial, bipolar, return-to-zero isochronous digital signals at a transmission speed of 1.544 megabits per second (Mbps). This service is designed to provide an average performance of at least 95% (percent) error free seconds of transmission over a continuous 24 hour period.

B. CONDITIONS

1. DS1 Service is available only on a point-to-point intraexchange/intraLATA basis. This service is provided between two Customer Designated Locations (CDLs).
2. DS1 Service is furnished on a full-time basis, 24 hours a day, seven days per week.
3. DS1 Service can only be provided within the same exchange where existing digital facilities and equipment permit.

C. RATES AND CHARGES

1. There are three basic rate elements which may apply to DS1 Service:
  - Special Access Line (SAL)
  - Special Transport (ST)
  - Special Transport Termination (STT)
2. Special Access Line
  - a. A Special Access Line (SAL) provides the transmission facilities between a Customer Designated Location and the serving wire center.

RECEIVED

HIGH CAPACITY DIGITAL DS1 (1.544 Mbps) SERVICE

OCT 15 1992

C. RATES AND CHARGES (Continued)

MO. PUBLIC SERVICE COMM.

3. Special Transport

- a. Special Transport (ST) is defined as the facilities for digital transmission provided between two serving wire centers. This rate element is per airline mile. Fractional miles are rounded to the next whole mile.
- b. The Special Transport rate will not apply if both CDLs are in the same serving wire center.

4. Special Transport Termination

- a. Special Transport Termination (STT) provides the equipment and arrangements necessary to terminate the Special Transport facility at a serving wire center. One Special Transport Termination charge applies for the termination of each end of a Special Transport facility for DS1 Services.
- b. The Special Transport Termination rate will not apply if both CDLs are in the same serving wire center.

5. Optional Payment Plan (OPP)

- a. A customer may elect to participate in an Optional Payment Plan (OPP) arrangement for DS1 Service. The OPP allows a customer to order the "First System" DS1 Special Access Line over a 12, 36, or 60 month payment period. The OPP applies to the "First System" DS1 Special Access Line rate element ordered between a customer designated location and its serving wire center. When the same customer orders "Additional System" DS1 Special Access Lines at the same Customer Designated Location, the standard nonrecurring and monthly rates, as set forth in this Tariff for "Each Additional System", will apply.

OCT 15 1992

C. RATES AND CHARGES (Continued)

MO. PUBLIC SERVICE COMM.

6. Early Termination Liability

- a. When a "First System" DS1 OPP Special Access Line is discontinued prior to the end of the payment period, two levels of termination liability may apply based on the remainder of the OPP payment period in effect at the time of disconnect as indicated below.

1) 12 Month Contract OPP

- a) 50% of any remaining portion of the first year's recurring charges.

2) 36 Month Contract OPP

- a) 50% of any remaining portion of the first year's recurring charges. In addition, for any remaining portion of the second and third year, the customer will be liable for 10% of the total monthly charges in that time period.

3) 60 Month Contract OPP

- a) 50% of any remaining portion of the first year's recurring charges. In addition, for any remaining portion of the second and third year, the customer will be liable for 20% of the total monthly charges in that time period.

SEP 15 1994

93-1

7. Early Termination Without Liability

- a. During the OPP payment period, should the currently effective rate for a customer's "First System" DS1 OPP Special Access Line increase, the customer may, at their option, terminate the service without penalty or liability.

8. Notification of Discontinuance

- a. Notice of discontinuance must be given by the customer at least thirty (30) days prior to actual discontinuance. Monthly charges will apply for a period of thirty (30) days from the date the Company receives discontinuance notification or until the requested discontinuance date, whichever period is longer.

Public Service Commission**

A. GENERAL

This section contains the application, description, definitions, standard/optional feature packages, regulations, and rates and charges applicable to Switched Data Service furnished by the Company where technological capabilities exist.

B. DESCRIPTION

1. Switched Data Service is a network service which provides the capability for switched digital end-to-end data transport.
2. The customer may subscribe to Switched Data Service under the following service arrangements, except when conditions specified under G. Regulations are applicable:

- a. Low Speed Switched Data - Low Speed Switched Data Service supports 300, 1200, 2400, 4800, 9600 and 19,200 bits per second asynchronous full or half duplex connections and 1200, 2400, 4800, 9600 and 19,200 bits per second synchronous full or half duplex connections.

Single Line  
CentraNet<sup>®</sup> Line

**SEP 15 1994**

- b. High Speed Switched Data - High Speed Switched Data Service supports 48,000, 56,000 and 64,000 bits per second synchronous full duplex connections.

Single Line  
CentraNet<sup>®</sup> Line

**BY SEP 15 1994  
PUBLIC SERVICE COMMISSION  
MISSOURI**

- c. Switched Data Individual Line Loop Extension - An extended loop capability which transports Switched Data usage between the customer premises and the local serving central office. Each Switched Data Individual Line Loop Extension provides one channel which supports data transmission only. Each channel can transmit up to 56,000 bits per second, or up to 64,000 bits per second, depending on technology.

- d. Switched Data Channel Access - A 1.544 high capacity digital facility which transports Switched Data usage between the customer's premise and the local serving central office on a channelized basis. Each Switched Data Channel Access provides 24 digital channels which support data transmission only. On a per channel basis, the customer can transmit data up to 56,000 bits per second.

C. DEFINITIONS

Asynchronous

A method of transmitting data in which each transmitted character is preceded by a start bit and followed by a stop bit, thus permitting the interval between characters to vary.

Bit

A binary digit. The smallest unit of information in the binary system of notation.

Bits Per Second

The number of bits transmitted per second. A measure of the speed of transmission of digital information.

**CANCELLED**

Digital

Information which is expressed in discrete or noncontinuous form.

SEP 15 1994

Full Duplex

Type of communication that supports the transmission of signals in both directions simultaneously. This is not associated with simultaneous transmission of voice and data communications.

BY 93-1  
Public Service Commission  
MISSOURI

Half Duplex

Type of communication that supports transmission of signals alternately in both directions, but is not capable of simultaneous and independent transmission and reception. This is not associated with simultaneous transmission of voice and data communications.

Hunting

A search through a group of numbers until an idle station is found or the last number of the group is reached.

Synchronous

A method of transmitting data in which the data characters and bits are transmitted at a fixed rate with the transmitter and receiver synchronized, eliminating the need for individual start bits and stop bits.

D. STANDARD FEATURES

1. Data Line Security - This feature prevents a call from being interrupted by override tones, such as a call waiting tone, or other test or busy verification tests that would interrupt the flow of data.
2. Intercom Dialing - This feature allows customer group stations to complete calls to other stations without the assistance of an attendant, by dialing a 2 through 7 digit number. This feature is applicable to CentraNet<sup>R</sup> customer groups only and is restricted to the serving wire center only.
3. Direct Dialing - This feature allows the user to place local and long distance calls without the assistance of an attendant by using the standard 7 through 10 digit dialing methods.

E. OPTIONAL FEATURES

1. Data Direct Connect - This feature provides an automatic connection between a Switched Data calling line that goes off-hook and a predetermined location.
2. Data Closed User Group - This feature, restricted to CentraNet<sup>R</sup> Lines, provides partitioning of Switched Data lines into groups where calls within such a group are allowed, but calls between such groups are denied.
3. Voice Option - This feature allows simultaneous voice and data communications over a single Switched Data line. This feature is available where technical capabilities exist. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.

F. OPTIONAL FEATURE PACKAGES

**MISSOURI  
Public Service Commission**

The following feature packages are available for use with Switched Data Service, except where specified:

1. Feature Package Data 1000 includes:

- a. Data Individual Speed Call-Short List - The use of the Individual Speed Call-Short List is limited to an individual Switched Data line. A short list consists of a maximum of eight stored numbers. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- b. Data Call Forward (All/Busy/No Answer) - This feature allows a customer to have incoming calls to a Switched Data line automatically forwarded to a predetermined number. Data Call Forward consists of three variations as follows: all calls, busy and no answer. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- c. Data Last Number Redial - This feature enables a subscriber to redial the last called number by depressing a single key rather than the entire number. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- d. Data Toll Restriction - This feature will restrict toll calls from being placed over Switched Data lines.
- e. Data Sequential Hunt Group - This feature assigns a pilot telephone number to the hunt group. Hunting is sequential, i.e., starting at the first line assigned to the pilot telephone number and ending at the last line.

F. OPTIONAL FEATURE PACKAGES (Cont'd)

**MISSOURI**

**Public Service Commission**

2. Feature Package Data 2000 - This package offers the customer a choice of combining any or all of the features contained in Feature Package Data 1000 plus:

- a. Data Call Back - This feature allows a Switched Data user encountering a busy station to be notified when the busy station becomes idle and to automatically establish the call. This feature is available with CentraNet<sup>R</sup> intercom calling only. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- b. Data Saved Number Redial - This feature allows a customer to dial a saved number by depressing a single key rather than the entire number. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- c. Data Circular Hunting - This feature assigns a pilot telephone number to the hunt group. Hunting starts after the first idle line found by the previous hunt and continues until the hunting starting point is reached. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- d. Data Group Speed Calling - This feature provides storage for an abbreviated numbers list which is shared for use by a group of data lines. The list may be updated by a service order or by a user designated as the controller. Only the controller can add to, change or delete numbers from the list. Other lines with access to this list are restricted. This feature is available to CentraNet<sup>R</sup> intercom calling only. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.
- e. Data Individual Speed Call-Long List - The use of the Individual Speed Call-Long List is limited to an individual Switched Data line. A long list consists of maximum of thirty (30) stored numbers. This feature is not available with Switched Data Channel Access nor with Switched Data Individual Line Loop Extension.

G. REGULATIONS

**MISSOURI**

**Public Service Commission**

1. In addition to the following regulations, the appropriate regulations in other sections of this Tariff will also apply.

2. Switched Data Service is comprised of the following rate elements:

**CANCELLED**

- Switched Data Customer Line
- Service Connection Charges
- Optional Features
- Software Reconfiguration Charge
- Network Usage Charge
- Customer Premises Channelization (Optional)

SEP 15 1994

BY

93-1

Public Service Commission  
MISSOURI

3. The minimum billing period for which service is provided is one month.
4. FCC Subscriber Line Charges as specified in the GTE Operating Companies Tariff, FCC No. 1, will apply to Switched Data Service.
5. For Presubscription of an Interexchange Carrier, the rates and regulations as set forth in Section 6 of the General Telephone Operating Companies Tariff, FCC No. 1 will apply to Switched Data Service.
6. A directory listing for Switched Data service will be provided, upon request, in accordance with this Tariff.
7. Customer Premises Channelization, a component of Switched Data Service, may be provided by the customer or the Company. When the Company provides channelization equipment at a customer's premises, it is not necessary for the customer to provide a channel access card for the associated channels. The termination of this channelization will be in a single equipment location on a customer's premises. The customer must provide suitable floor space, controlled environment, and a source on a non-switched 120 volt, 60 Hz AC power to support this service. Emergency backup power and ring generating equipment capabilities are available for an extra charge on an individual case basis.
8. Switched Data Channel Access is required where:
- a. Customers are restricted by the technical requirements specified herein.

G. REGULATIONS (Cont'd)

**MISSOURI  
Public Service Commission**

8. (Cont'd)

- b. A customer's local serving central office is not capable of providing Switched Data. The Company will determine the nearest central office capable of providing Switched Data. Interoffice digital high capacity mileage (1.544) will apply from the noncapable central office to the central office capable of providing Switched Data at the rates shown in Section 5 of the Intrastate Access Tariff, PSC MO. NO. 12. In this situation, the customer will utilize the dialing plan associated with the central office that delivers the digital dial tone.

9. Switched Data Individual Line Loop Extension is required where:

- a. Customers are restricted by technical requirements as specified herein.
- b. A customer's local serving central office is not capable of providing Switched Data. The Company will determine the nearest designated central office capable of providing Switched Data Service. Interoffice digital data service (DDS) mileage will apply from the noncapable central office to the central office capable of providing Switched Data at the rates shown in Section 5 of the Intrastate Access Tariff, PSC MO. NO. 12. In this situation, the dialing plan associated with the central office that will be providing the Switched Data service to the customer will be utilized.

10. Dialing Method

- a. Access to Switched Data Service is obtained through a dial-up connection via the public switched telephone network using the standard 7 through 10 digit methods.
- b. Origination of calls for 800, 900, 976, 0- (intraLATA) and 0+ (intraLATA) is limited to voice calls only. These calls will be provided with the Voice Option feature of Switched Data Service when requested by the customer.

AUG 16 1993

G. REGULATIONS (Cont'd)

**MISSOURI  
Public Service Commission**

11. Technical Requirements

- a. Switched Data requires the use of customer provided data equipment which must be compatible with the Company's equipment and facilities.
- b. Customers who choose to subscribe to the Single Line or CentraNet<sup>R</sup> Line arrangement are subject to the distance limitations listed below as a result of digital signal power loss which are technology dependent. Switched Data Service will be provided where local loops do not exceed the following limitations:
  - 1) on the DMS-100 central office switch: 42 dB loss at 80 kilohertz, equating to a range from approximately 12,000 feet to approximately 18,000 feet, depending on cable gauge and including customer wiring.
  - 2) on the GTD-5 central office switch: 26 dB loss at 80 kilohertz, equating to a range from approximately 8,000 feet to approximately 15,000 feet, depending on cable gauge and including customer wiring.
  - 3) on a non-ISDN equipped 5ESS central office switch: 42 db loss at 80 kilohertz, equating to a range from 12,000 feet to approximately 14,000 feet, depending on cable gauge and including customer wiring.

Where these conditions cannot be met, the customer must subscribe to Switched Data Individual Line Loop Extension or subscribe to Switched Data Channel Access for Switched Data Service.

H. APPLICATION OF RATES

1. Switched Data CentraNet<sup>R</sup> Line rates are determined by the total number of either Low Speed or either High Speed lines, (i.e., if a customer requests 55 Low Speed lines and 25 High Speed lines, all 55 Low Speed lines will be billed at the "50-100" rate and all 25 High Speed lines will be billed at the "2-49" rate).
2. Rates and charges specified in other sections of this Tariff for services provided in conjunction with Switched Data Service (i.e., Touch-Call, Smart Call features, CentraNet<sup>R</sup> features, etc.) are in addition to the monthly rates for Switched Data Service.
3. Customer Premises Channelization is an optional component of Switched Data Channel Access. The customer has the option to support premises channelization with CPE devices or to be made available by the Company. Channelization at the customer premises when provided by the Company is available at the rates specified in this section of the Tariff. Both the Customer Premises Termination per access (24 channels) and the Customer Premises Channelization per channel will apply.
4. Switched Data lines placed in a business group do not require Network Access Registers (NARS) for outbound data traffic. However, the customer may choose to purchase additional NARS to support all terminating traffic that may be increased by Switched Data.
