2.2.10 Extension Services

A. Regulations

1. In addition to the general regulations and definitions applicable to private line services set forth in Section 2 of this Tariff, the following regulations apply to Extension Service.

(CP) a. Voice Grade Service (300(1) and 400 Series Channels)

Extension service is that of furnishing service components for one or more service points for each authorized connection to a private line voice grade service equipped for communication among three or more service points at a time, and furnished to a branch or agency of the United States Government for the collection and dissemination of information relating to air traffic control activities and similar information of public interest in connection with supervision of the flight of aircraft along civil airways.

b. Sub-Voice Grade Services (200 Series Channels)

- (CT)
1. Extension service is that of furnishing service components to allow connection with a private line sub-voice grade service furnished to a branch or agency of the United States Government for the collection and dissemination of weather information or miscellaneous airways information pertaining to the supervision of flight of aircraft along civil airways.

2. Connection may be made as follows:

- Receiving Only Service - for reception of weather and miscellaneous airways information transmitted over the Government service to which it is connected.

- Sending and Receiving Service - for transmission of flight plans to and acknowledgement of such plans from the Government service to which the connection is authorized.

- (AT) (1) Obsolete-applicable to existing service installations at existing locations for existing customers.

SERVICES AND RATES

2.2 DESCRIPTION OF SERVICES-(Continued)

2.2.10 Extension Services-(Continued)

B. Rates

1. Voice Grade Services

a. Local Channels

A charge as specified in 2.2.3, preceding, for two local channels to the customer's premises applies for each extension service not located on the same premises as a government station and arranged for communication among three or more stations at one time.

b. Extension Service Arrangements

1. Where one or more extension services are located on the same premises and in the same building as a station on the government service, charges apply as follows:

Per station, per month (TNE) . . . (CR) \$ 7.00
Nonrecurring charge, per station 14.30

2. Where one or more extension services are located on the same premises but in a different building as a station on the government service, charges apply as follows:

First station, per month (UNE). (CR) \$10.85
Additional Station, same building,
per month (TNE) (CR) 7.00
Nonrecurring charge, per station 14.30

(CR)

3. Where one or more extension services are connected to a government service by interexchange channels, a charge of \$18.90 (ZME) per month applies at the exchange at which such connection is made, for each extension service so connected in addition to the charges for interexchange channel, channel terminals, and local channels and station equipment.

2.2.11 Special Bridging Service

(AT) A. Split Band Bridging Arrangement (1)

1. Description of Service

This service provides for a four-wire frequency split common port and two-wire multiple port bridging arrangement intended for application in multipoint voice frequency, data or tone signaling networks.

Certain terms used in this Tariff in connection with Special Bridging Service are defined as follows:

Master Station - In connection with Special Bridging Service, the one service point of a multipoint network located on a customer's premises, which communicates with each remote service point.

Remote Station - In connection with Special Bridging Service, one of the many service points on a multipoint network which is connected to the master service point by a bridging arrangement.

Access Line - In connection with Special Bridging Service, that dedicated channel or channels connecting the master service point, remote service point or interconnecting service point to a special bridge.

Interconnecting Station - In connection with Special Bridging Service, one of the many service points on a multipoint network which is connected to a special bridge and is provided for connecting two special bridges together through customer-owned and maintained equipment located at a remote service point.

(MT)

(AT) (1) Effective January 22, 2005, the Split Band Bridging Arrangement will become obsolete – applicable to existing service installations at existing locations for existing customers. The service will be completely withdrawn on December 31, 2005.

SERVICES AND RATES

(CT) 2.2 DESCRIPTION OF SERVICES (cont'd)

(CT) 2.2.11 Special Bridging Service (cont'd)

(AT) B. Passive Bridging Arrangement (1)

1. Description of Service

This service provides for a network of up to ten passive two-wire ten-port bridges. Each bridge is capable of connecting a combination of remote stations, interoffice channels or interbridge connections totaling nine to one master station, interconnect station, interoffice channel or interbridge connection. This service is intended for application in multi-point voice frequency, data or tone signaling networks.

2. Application

Regulations applicable to Passive Bridging Arrangements, except as otherwise specified below, are in addition to the regulations contained in other sections of this Tariff.

3 Regulations

- a. Passive Bridging Arrangements are provided on voice grade service with a transmission rate normally suitable for 75 baud, but can be utilized with equipment operating at rates up to a maximum of 400 baud.
- b. A maximum of ten (10) serving offices, each equipped with a Passive Bridge, is permitted on a multi-point network.
- c. A maximum of 90 remote stations is permitted on a multi-point network.
- d. Remote stations connected to a Passive Bridge are limited to the same serving office area in which the Passive Bridge is located.

(AT) (1) Effective January 22, 2005, the Passive Bridging Arrangement will become obsolete – applicable to existing service installations at existing locations for existing customers. The service will be completely withdrawn on December 31, 2005.

Issued: December 23, 2004

B. Passive Bridging Arrangement-(Continued)

3. Regulations-(Continued)

- i. Service can be provided under two circuit configurations as follows:
 - (1) Data collective system provides one-way transmission from Remote Stations to the Master Station and is designed to provide an end-to-end loss of 16 dB relative to 1000 Hz.
 - (2) Data polling system provides two-way transmission between the Master or Interconnect Station and Remote Stations and is designed to provide an end-to-end loss of 38 dB relative to 1000 Hz.
- j. Transmission Parameters and Specifications as specified in 2.2.3, C. are not guaranteed for this service.
- k. Additional points of termination are not provided with Special Bridging Service.

SERVICES AND RATES

2.2 DESCRIPTION OF SERVICES-(Continued)

2.2.12 Local Area Data Service

A. Regulations

In addition to the Regulations specified previously in this Private Line Service Tariff, the following regulation applies to these services:

Provision of this service does not contemplate connection to the public switched message network.

(CT) B. Description of Service

Local Area Data Service will provide, subject to availability of service components, channels suitable for baseband transmission of data signals between two points on the same premises or different premises within the same serving office area. Service is limited to points that are not more than six (6) cable-route miles apart, as determined by the Telephone Company, using normal cable routing between the points to be served. This service is offered only for balanced transmission of data signals conforming to the signal power limitations and other parameters specified in the applicable Bell System Technical Reference.

1. Local Area Data Service channels require use of nonloaded cable service components. In the event that only loaded service components are available, the Telephone Company will, at the customer's request, deload service components as specified under the Special Construction provisions of this Tariff as provided in Section 1, Paragraph 1.4.4.

SERVICES AND RATES

2.2 DESCRIPTION OF SERVICES-(Continued)

2.2.13 Customer Operating Center Service

A. Regulations

(CP)

1. A customer who operates a Customer Operating Center requiring large, dedicated quantities of local channel types 101, 102, 415, 417, 420, 422,423 or 428 between their location and its normal serving office may, at this option, subscribe to Customer Operating Center Service.
2. For the purpose of this Tariff, a Customer Operating Center is a customer premises:
 - a. Operated by the customer over which the customer has control and provides security.
 - b. From which the customer furnishes and administers services to multiple patrons in a geographical area. The term "patron" denotes a subscriber to the services offered by the operator of a Customer Operating Center.
 - c. At which a system, or a group of systems, operated by the customer to receive signals and messages which are recorded, maintained and supervised by the customer.
 - d. At which the customer has regularly scheduled observers, operators and/or equipment in attendance at all times, which upon receipt of a signal or message from a patron, take such action as shall be required under the rules established by the customer for their/its guidance.

(CT)

3. Ownership of service components provided in accordance with this offering remains with the Telephone Company.

B. Method of Applying Rates

1. Recurring Monthly Rates

- a. Dedicated cable - a monthly rate applies per cable of a specific quantity of pair and length.

- (1) Cable sizes available are 100, 200, 300, 400, 600, 900, 1200, 1500, 1800, 2100, 2400 and 2700.

(RT)

No supplement to this tariff will be issued except for the purpose of canceling this tariff.

Private Line Service Tariff
Section 2
Original Sheet 82

SERVICES AND RATES

2.2 DESCRIPTION OF SERVICES-(Continued)

(NR) 2.2.13 Customer Operating Center Service-(Continued)

B. Method of Applying Rates-(Continued)

1. Recurring Monthly Rates-(Continued)

a. (Continued)

(2) The customer will provide the cable size he wishes to have dedicated to his use and agrees to payment of charges per each dedicated cable.

(3) Distances are measured in airline one-quarter-mile increments from the customer's operating center to its normal serving office. The maximum distance for this service is one mile.

b. Local Channel activated - a monthly charge per local channel activated also applies. This monthly charge and all associated Private Line Channel charges are billable to the Customer Operating Center subscriber only and not his patron.

2. Nonrecurring rates - are applicable:

a. Per dedicated cable.

b. Per local channel activated, this charge and all associated Private Line Channel charges are billable only to the Customer Operating Center subscriber.

3. Termination Liability Contract (1)

a. To the extent there is no other requirement for use by the Telephone Company of facilities provided under this plan, a termination contract will apply for facilities furnished at the request of the customer between his premises and the normal service office.

b. The termination liability period is five (5) years.

(1) The Termination Liability Contract and nonrecurring charges will not apply for existing customers at existing locations with existing facilities who reconfigure their services if such reconfiguration request is made within 60 days of the effective date of this Tariff.

SERVICES AND RATES

2.2 DESCRIPTION OF SERVICES-(Continued)

2.2.13 Customer Operating Center Service-(Continued)

B. Method of Applying Rates-(Continued)

3. Termination Liability Contract-(Continued)

c. The amount of the termination liability contract is equal to the estimated amount for:

(1) Cost of the installed service components provided including costs incurred for rearrangements of existing service components and/or construction of new service components as appropriate, less net salvage. Installed cost includes the cost of:

- equipment and materials provided or used,
- engineering, labor and supervision, rights of way.

(2) License preparation, processing and related fees.

(3) Any other items of expense associated with the particular situation.

d. The five-year termination liability contract, as described above, applies per dedicated cable and is reduced by 1/60 for each month of the five-year period that the cable is in service from the date it is placed in service for a specific customer.
