

OPTIONAL SERVICES AND FEATURES

6. Optional Services and Features (Cont'd)Missouri Public
Service Commission6.7 Nuisance Traps

REC'D NOV 17 2000

A. Description

Nuisance Traps provide the capability of capturing and recording the telephone number of the calling party for each local telephone call to the customer's telephone number. The calling party's number is captured by telephone company switching equipment and is transmitted to a local law enforcement agency where a report is printed containing the time of the call and the calling party. Nuisance traps will not be installed unless requested by a law enforcement agency of the local, state, or federal government pursuant to a court order or certification by a United States Attorney General. Results of the nuisance trap will only be disclosed to appropriate law enforcement agencies in accordance with applicable law.

Unusual expenses such as overtime or prolonged work incurred in gathering data for nuisance trapping will be charged to the particular customer at the company's current loaded labor rate. This charge will not apply to law enforcement agencies making requests.

B. Service Charges

The Multi Element Charge Plan as outlined in Section 5 will apply for establishing this service.

C. Availability

Nuisance Traps will be available only where technically feasible and where appropriate arrangements have been made with a law enforcement agency.

D. Rates

	<u>Monthly</u>	<u>Non-Recurring</u>
Nuisance call trapping	\$3.00	\$7.50

OPTIONAL SERVICES AND FEATURES6. Optional Services and Features (Cont'd)Missouri Public
Service Commission6.9 Remote Call Forwarding

REC'D NOV 17 2000

A. General

Remote Call Forwarding (RCF) service is a service whereby a call placed from the originator to a customer's Remote Call Forwarding telephone number is automatically forwarded by Telephone Company digital central office equipment to another telephone number designated by the customer. This number does not have to be in the exchange where RCF is ordered.

B. Regulations

- A. Remote Call Forwarding service is offered subject to availability of suitable facilities and provided no unusual expense is involved.
2. Remote Call Forwarding service is not offered where the terminating station is a coin telephone.
3. The Telephone Company will not provide identification of the originating telephone number to the Remote Call Forwarding customer.
4. Transmission characteristics may vary depending on the distance and routing necessary to complete the remotely forwarded call.
5. Remote Call Forwarding service is not represented as suitable for satisfactory transmission of data.
6. Remote Call Forwarding service is available when used in connection with Local Exchange Service and interstate or intrastate Long Distance Message Telecommunications Service, interstate or intrastate 800 Service.
7. Remote Call Forwarding service is provided on the condition that the customer subscribe to sufficient facilities to adequately handle calls to the Remote Call Forwarding number without interfering with or impairing any services offered by the Telephone Company.

6.9 Remote Call Forwarding (Cont'd)

B. Regulations (Cont'd)

8. Directory Listings

One listing covering the exchange in which the call forwarding Central Office is located is provided without charge. Additional Directory Listings may be obtained under rates outlined in Section 6.7 of this Tariff.

9. Customer Activity Charges as established in Section 5 of this tariff are applicable to the establishment of Remote Call Forwarding.

C. Rates and Charges

1. The following charges are for the Remote Call Forwarding service only and are in addition to applicable charges for service and equipment with which it is used.

	Monthly Rate
Remote Call Forwarding, per access path	\$ 1.50

2. Usage Charges

Usage charges applicable to remotely forwarded calls for that portion of the call from the call forwarding location to the answering location shall be charged in addition to the monthly rate specified above. The Remote Call Forwarding customer is responsible for any applicable customer-dialed station-to-station charges or interstate and intrastate charges specified in the Long Distance Message Telecommunications Service or 800 Service Tariffs. The aforementioned charges apply to all calls answered at the call forwarding location, including person-to-person and collect calls, if accepted.

SPECIAL CONSTRUCTIONMissouri Public
Service Commission

REC'D NOV 17 2000

7. Special Construction**7.1 Excess Construction Charge**

1. Where no facilities are in place, the Company will build 1000 feet of a mile of circuits to any rural customer for business or residence use without excess construction charges.
2. For all distance over 1000 feet an excess construction charge based on the time and materials used for construction will be charged.
3. The first 1000 feet of circuit on private property for local exchange service will be provided by the Company. Any distance beyond the first 1000 feet will be charged to the customer at time (loaded labor rate) and materials used for construction. An advance payment of the reasonable cost of construction will be required. The customer shall furnish suitable right-of-way to the Company.
4. Ownership of all facilities constructed under this section to the demarcation point will remain with the telephone company.

7.2 Special Construction

When a special type of construction is desired by a customer, as when underground service connections are desired in places where aerial drop wires are regularly used to reach customer's premises, an additional charge is made. This charge is equal to the difference between the estimated cost of the special type of construction and the average cost of standard construction.

Title to all facilities constructed and paid for wholly or in part by the subscriber is vested in the Company.

Service Commission7. Special Construction (Cont'd)

REC'D NOV 17 2000

7.3 Temporary Service:

Where plant construction is required to provide exchange extension line, etc., service, temporary in character, the Company may require the applicant to pay charges based upon the costs involved or to contract for service beyond the initial period or both.

7.4 Installations of Telephone Lines Within Subdivision, Telephone Lines Constructed, Installed and Owned by Utilities in Subdivisions Shall be Installed Underground.

A. The following definitions are used in this section of the tariff:

APPLICANT: The developer, builder, or other person, partnership, association, firm, private or public corporation, trust, estate, political subdivision, governmental agency, or other legal entity recognized by law, applying for the construction of a telephone distribution system in a subdivision.

BUILDING: A single structure roofed and enclosed within exterior walls, built for permanent use, erected, framed of component structural parts and unified in its entirety both physically and in operation for single-family residential occupancy in a subdivision (Definition excludes mobile home).

SUBDIVISION: A lot, tract, or parcel of land divided into two or more lots, plots, sites or other divisions for use for new residential buildings or the land on which is constructed new multiple-occupancy buildings per a recorded plot thereof if such recordation is required by law.

7. Special Construction (Cont'd)

REC'D NOV 17 2000

7.4 Installations of Telephone Lines Within Subdivision, Telephone Lines Constructed,
Installed and Owned by Utilities in Subdivisions Shall be Installed Underground.
(Cont'd)

B. The Company upon receipt of the applicant's proper application will install an underground telephone system with suitable materials to assure that the applicant will receive reasonably safe and adequate telephone service. The provision of the underground telephone system will be provided at no charge except where a charge is permitted under Paragraphs (D) and (F) of this section of the Tariff. Temporary service is provided under Paragraph (E) of this section of the Tariff.

C. Rights-of-way and Easements

1. Within the applicant's subdivision, the Company will construct, own, operate, and maintain underground telephone lines only along public streets, roads, and highways which the Company has the legal right to occupy, and on public lands and private property across which rights-of-way and easements satisfactory to the Company may be obtained without cost or need for condemnation by the Company.
2. Rights-of-way and easements, within the subdivision, satisfactory to the Company, must be furnished by the applicant in reasonable time to meet construction and service requirements before the Company shall be required to commence its installation. Such rights-of-way and easements must be cleared of trees, tree stumps and other obstructions and graded to within six inches of final grade, by applicant, at no charge to the Company. Such clearance and grading must be maintained by the applicant during construction by the Company.

REC'D NOV 17 2000

7.4 Installations of Telephone Lines Within Subdivision, Telephone Lines Constructed,
Installed and Owned by Utilities in Subdivisions Shall be Installed Underground.
(Cont'd)

D. Advance Payments

1. Where, due to the manner in which a subdivision is developed, the Company is required to construct an underground telephone distribution system through a section or sections of the subdivision where service will not be connected for at least two years, then the Company may require an advance payment equal to the estimated cost of construction from the applicant before construction is commenced. If in the judgment of the Company an advance is required under the above described conditions, the Company has the right to refuse installation of the underground system until the required advance is paid to the Company.
2. If an advance is required under these rules, then the advance, without interest, shall be returned to the applicant on a pro-rata basis as the permanent service connection is made to each building or multiple-occupancy buildings.
3. Any portion of an advance remaining unrefunded ten years from the date the Company is first ready to render service with the extension will be retained by the Company and credited to the appropriate construction account.

E. Temporary Facilities

1. Temporary facilities may be installed to provide service when necessary, for a maximum period of one year.
2. Where it is necessary to place temporary facilities in advance of the permanent underground telephone system in order to provide telephone service, the Company may require the applicant to pay the estimated non-recoverable costs of the temporary facilities. If the required costs under the above described conditions apply, the Company has the right to refuse installation of the temporary facilities until the required costs are paid to the Company.

F. Special Conditions

1. In circumstances, where the application of these rules appears impractical or unjust to applicant or the Company, or discriminatory to other customers, (e.g., difficult rock conditions), the Company or applicant shall refer the matter to the Missouri Public Service Commission for special ruling or for the approval of special conditions which may be mutually agreed upon prior to commencing construction.

7.5 Special Assemblies of Equipment or Speculative Projects

Special assemblies of equipment or speculative projects for which provision is not otherwise made in the Tariff may be provided where practicable if not detrimental to any of the services furnished by the Company.

1. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge, or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special equipment or service provided.
 - a. Maintenance expense
 - b. Depreciation expense
 - c. Administration expense
 - d. Taxes--including federal income tax
 - e. And other specific items of expense that may be associated with the facility provided
 - f. A reasonable return on investment

9. Operator ServicesMissouri Public
Service Commission9.1 Operator Verification/Interruption Service

REC'D NOV 17 2000

A. Description

1. Customers may obtain assistance in determining if a called line is in use (herein called verification) or in interrupting a conversation in progress due to an urgent or emergency situation (herein called interrupt) by calling the "0" operator.
2. Verification and interrupt service is furnished where and to the extent that facilities permit.
3. The customer shall indemnify and hold the Company harmless against all claims that may arise from either party to the interrupted call or any person.

B. Regulations

1. Verification:

A charge applies each time the operator verifies a called line and hears voice communication.

2. Interrupt:

A charge applies each time an operator interrupts a conversation that is in progress on the called line.

3. If an operator both verifies the condition of the line and interrupts conversation on the same request, the interrupt charge only applies.
4. The charge for interrupt applies whenever the operator interrupts the conversation even though one or the other parties interrupted refuses to terminate the conversation in progress.
5. Charges may not be billed on a collect basis or reversal of charge basis.
6. The charges for verify/interrupt service are in addition to any applicable rates and charges associated with local or Long Distance Message Telecommunications Service.

ACCESS TARIFF CONCURRENCE**10. Intrastate Access Services****A. Access Tariff Concurrence**

Access services are those services which are described in the Access Services Tariff of Mark Twain Rural Telephone Company. These services are offered by the Company to intrastate interexchange customers (ICs) in accordance with the rules and regulations specified in the Access Services Tariff of Mark Twain Rural Telephone Company and approved by the Missouri Public Service Commission, and in any amendments thereto and authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for access services of Mark Twain Rural Telephone Company. Rates for these services are set out in the following pages of this concurrence. (T)

B. Provision of Services

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to an intrastate IC, upon reasonable notice, services of the type offered in Mark Twain Rural Telephone Company's Access Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Mark Twain Rural Telephone Company's Access Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company. (T)

C. Cancellation Rights

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

DISTANCE LEARNING COMMUNICATIONS SERVICES
Missouri Public Service Commission12. DISTANCE LEARNING COMMUNICATIONS SERVICES CONCURRENCE

REC'D NOV 17 2000

The Company concurs in the rules and regulations governing intrastate interexchange Distance Learning Communications Service as set forth in Oregon Farmers Mutual Telephone Company's Tariff on file with and approved by the Public Service Commission of the State of Missouri, and in any amendments thereto as authorized by the Missouri Public Service Commission or applicable law. The Company does not concur in the rates for Distance Learning Communications Service of Oregon Farmers Mutual Telephone Company. Rates for these services are set out in the following pages of this concurrence.

PROVISION OF SERVICES

The Company, to the extent that such services are or can be made available with reasonable effort and after provisions have been made for the Company's telephone exchange services, will provide to customers, upon reasonable notice, services of the type offered in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff pursuant to the terms and conditions specified therein and at the rates specified in the following pages of this concurrence. The Company's concurrence in Oregon Farmers Mutual Telephone Company's Distance Learning Communications Services Tariff shall not be construed or deemed a representation that all services and service components described therein are available from the Company.

CANCELLATION RIGHTS

The Company reserves the right to cancel and make void the above concurrence statement, subject to requirements as may be ordered by the Missouri Public Service Commission, at any and such time as it appears that such cancellation is in the best interest of the Company and/or its customers.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

13. Universal Emergency Number Service (911)Missouri Public
Service Commission

REC'D NOV 17 2000

13.1 General

- A. Universal Emergency Number Service, also referred to as 911 Service, is a telephone exchange communication service whereby one or more Public Safety Answering Points (PSAP) designated by the customer may receive telephone calls dialed to the telephone number 911. 911 Service includes a line and equipment necessary (excluding CPE) for the answering, transferring and dispatching of public emergency telephone 911 calls originated by persons within the serving area. 911 Service may include Selective Routing, Automatic Number Identification and Automatic Location identification features.
- B. The 911 emergency number is not intended to replace the telephone service of the various Public Safety Agencies which may participate in the use of this number. The 911 customer must subscribe to additional local exchange service at the PSAP for administrative purpose, for the placing of outgoing calls and for receiving other emergency calls, including any which might be relayed by Company operators.
- C. 911 Service is offered subject to availability of facilities.
- D. The 911 customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated. The customer must be legally authorized to subscribe to the service and have public safety responsibility by law to respond to telephone calls from the public for police, fire or other emergency services within the telephone Central Office area arranged for 911 calling.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

13. Universal Emergency Number Service (911) (Cont'd)Missouri Public
Service Commission

REC'D NOV 17 2000

13.1 General (Cont'd)

- E. The Company may enter into a contract or contracts with the 911 customer or with other telephone companies in order to effectuate the Company's provisions of 911 Service in accordance with, pursuant to, and subject to the terms, conditions and limitations of the Tariff. Any such contract(s) shall incorporate by reference the terms, conditions and limitations of this Tariff.
- F. The rates and charges contained herein are in addition to all other applicable rates and charges located in other parts of this tariff.

13.2 Conditions

- A. 911 Service is provided solely for the benefit of the customer operating the PSAP. The provision of 911 Service by the Company shall not be interpreted, construed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity other than the customer.
- B. The Company does not undertake to answer and forward 911 calls, but furnishes the use of its facilities to enable the customer's personnel to respond to such calls on the customer's premises.
- C. Temporary or vacation suspensions of service are not provided for any part of the 911 Service.
- D. 911 Service information consisting of the names, addresses and telephone numbers of Subscribers whose listings are not published in directories or listed in the Directory Assistance records is treated as strictly confidential except as indicated in Section 15.3(E) following.
- E. End Users dialing 911 forfeit the privacy afforded by nonpublished and unlisted telephone number service to the extent that the telephone number, address and name associated with the originating station location may be furnished to a PSAP. Information will be provided only for the purpose of responding to emergency calls.
- F. The Company's entire liability to any person for interruption or failures of 911 Service shall be limited to the terms set forth in this section and other sections of this tariff.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

13. Universal Emergency Number Service (911) (Cont'd)Missouri Public
Service Commission

REC'D NOV 17 2000

13.2 Conditions (Cont'd)

- G. The customer shall have the responsibility of discovering all errors, defects and malfunctions, in the transmission of calls and data, data bases(s), and overall operation of the system. The customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall promptly notify the Company in the event the system is not functioning properly.
- H. The Company's liability for any loss or damage arising from errors, interruptions, defects, failures or malfunctions of this service or any part thereof whether caused by the negligence of the Company or otherwise shall not exceed an amount equivalent to the pro-rata charges for the service affected during the period of time that the service was fully or partially inoperative.
- I. Each customer also agrees to release, indemnify and hold harmless the Company from any and all loss, claims, demands, suits or other action, or any liability whatsoever, whether suffered, made, instituted or asserted by the customer or by any other party or person, for any personal injury to or death of any person or persons, or for any loss, damage or destruction of any property, whether owned by the customer or others.
- J. The customer also agrees to release, indemnify and hold harmless the Company for any infringement or invasion of the right of privacy of any person or persons, caused or claimed to have been caused, directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, occasion or use of 911 Service features and the equipment associated therewith, or by any services furnished by the Company in connection therewith, including, but not limited to, the identification of the telephone number, address or name associated with the telephone used by the party or parties accessing 911 Service hereunder, and which arise out of the negligence or other wrongful act of the Company, the customer its user, agencies or municipalities, or the employees or agents or any one of them.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

13. Universal Emergency Number Service (911) (Cont'd)Missouri Public
Service Commission13.2 Conditions (Cont'd)

REC'D NOV 17 2000

- K. Because the Company serving boundaries and political subdivision boundaries may not coincide, it is the obligation of the customer to make arrangements to handle all 911 calls that originate from telephones served by Telephone Company Wire Centers served by the PSAP whether or not the calling telephone is situated on property within the geographical boundaries of the customer's public safety jurisdiction.
- L. Application for 911 Service must be executed in writing by each customer. If application for service is made by an agent, the Company must be provided in writing with satisfactory proof of appointment of the agent by the customer. At least one local law enforcement agency must be included among the participating agencies in any 911 offering.
- M. The customer is required to furnish the Company its agreement to the following terms and conditions:
1. That all 911 calls will be answered on a 24-hour day, seven-day week basis.
 2. That the customer has responsibility for dispatching the appropriate emergency service vehicles within the 911 Service area, or will undertake to transfer all 911 calls received to the governmental agency with responsibility for dispatching such services, to the extent that such services are reasonably available.
 3. That the customer will develop an appropriate method for responding to calls for non-participating agencies which may be directed to the 911 PSAP by calling parties.
 4. That the customer will provide CPE with a capacity adequate to handle the number of incoming 911 lines recommended to be installed by the Company. It is the customer's responsibility to ensure its CPR is compatible with the service(s) provided by the Company.

UNIVERSAL EMERGENCY NUMBER SERVICE (911)

13. Universal Emergency Number Service (911) (Cont'd)Missouri Public
Service Commission13.2 Conditions (Cont'd)

REC'D NOV 17 2000

- N. This service is offered solely as an aid in handling assistance calls in connection with fire, police and other emergencies and does not create any relationship or obligation, direct or indirect, to any person other than the 911 customer contracting for 911 Service. In the event of any interruption of the service, the Company shall not be liable to any person, corporation or other entity for any loss or damage in an amount greater than an amount equal to the pro rata allowance of the tariff rate for the service or facilities provided to the 911 customer for the time such interruption continues, after notice to the Company. No allowance shall be made if the interruption is due to the negligence or willful act of the 911 customer.
- O. The rates charged for 911 Trunking Service do not contemplate the constant monitoring or inspection of facilities to discover errors, defects, and malfunctions in the service, nor does the Company undertake such responsibility. The 911 customer shall make such operational tests as, in the judgment of the customer, are required to determine whether the system is functioning properly for its use. The customer shall notify the Company in the event the system is not functioning properly.
- P. In the absence of willful misconduct or gross negligence, no liability for any death or injury to any person or for any damage to property shall attach to the Company, its employees, agents or representatives as a result of or in connection with any situation in which the Company may be requested, required, have undertaken or participated in the tracing of a 911 call.
- Q. The customer recognizes that the addresses provided to it by the Company are the same addresses that the Company maintains for its ordinary service, billing or directory records and the Company cannot unconditionally guarantee their existence or accuracy in emergency situations. Therefore, the customer recognizes that addresses should, where circumstances permit, be verified from a 911 calling party. When the customer becomes aware of any inaccuracies in the data, it shall promptly notify the Company in writing. The Company shall make the correction within a reasonable time under the circumstances.

Three-Digit Dialing Service (811)

A. General Regulations

1. The 811 Service is a locally assigned three digit abbreviated dialing code provided to a state One Call System ("SOCS") for use in providing advance notice of excavation activities to underground facility operators by way of voice grade facilities. Federal Communications Commission ("FCC") Docket 92-105 mandates that incumbent local exchange carriers in each local calling area make the 811 abbreviated dialing code available to a SOCS as a tariffed, local calling area based service (the "811 Service").
2. The 811 Service allows a Company subscriber to access a SOCS call center by dialing only the 811 abbreviated dialing code. Subject to other terms and conditions of this tariff, Company subscribers shall be able to make, and the SOCS shall be able to receive, calls using the 811 Service as part of their local exchange service.
3. All 811 Service calls shall be local in nature and shall not result in any expanded area calling, intraLATA toll or interLATA long distance or pay-per-call charges to Company subscribers.
4. The 811 Service is not available for the following classes of service: inmate service, 1+ and 0+ calling, 0- operator assisted calling and 101XXXX calling. The 811 Service is otherwise available wherever local service is available.
5. 811 Service is available from the Company within the Company's service area only. To provide access to 811 to end users in another company's service area or to a Competitive Local Exchange Carrier ("CLEC") end user within the local calling area, the SOCS must make appropriate arrangements with the other company or CLEC serving that territory. The SOCS should work separately with competing local providers to ascertain that its end user customers will be able to reach one-call services provided by dialing 811.

B. Obligations of the SOCS

1. The SOCS may, but is not required to, submit a written application for 811 service to the Company which will include:
 - a. The local, foreign exchange or toll free telephone number into which the Company is to translate the dialed 811 abbreviated code.
 - b. For network sizing and protection, an estimate of annual call volumes, the expected busy hour and holding time for each call to the 811 Service.
 - c. Complete contact information.
2. If requested by the Company, the 811 provider shall assist the Company in responding to complaints made to the Company concerning 811 Service.
3. Local Calling for Company Subscribers
 - a. The SOCS, in cooperation with the Company, will assure that all 811 Service calls are local and do not generate Extended Area Service ("EAS"), Metropolitan Calling Area ("MCA") service, intraLATA toll, interLATA long distance or pay-per-call charges for Company subscribers.
 - b. The SOCS must supply the Company with a toll free number. The Company will translate the 811 digits into the telephone number provided by SOCS.
 - c. The SOCS is responsible for obtaining all necessary permissions, licenses, written consents, waivers and releases and all other rights from all persons whose work, statements or performances are used in connection with the 811 Service, and from all holders of copyrights, trademarks and patents used in connection with the said service.

C. Obligations of the Company

1. The Company shall provision the 811 Service in accordance with FCC directives and the terms of this tariff.
2. When an 811 Service call is placed by the calling party via interconnection with an interexchange carrier, the Company cannot guarantee the completion of said 811 Service call, the quality of the call or any features that may otherwise be provided with 811 Service.
3. The Company does not undertake to answer and forward 811 Service calls but furnishes the use of its facilities to enable SOCS to respond to such calls at SOCS established call centers.
4. The rates charged for 811 Service do not contemplate the inspection or constant monitoring of facilities to discover errors, defects, and malfunctions in service, nor does the Company undertake such responsibility. The SOCS is responsible for making such operational tests as, in the judgment of the SOCS, are required to determine whether the Company's facilities are functioning properly for its use. The SOCS is responsible for promptly notifying the Company in the event the Company's facilities are not functioning properly.

D. Liability

1. The Company's entire liability to any person for interruption or failure of the 811 Service shall be limited to the terms set forth in this section and other sections of this Tariff.

2. The liability of the Company for losses or damages of any kind arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission, or failure or defects in any facility furnished by the Company occurring in the course of furnishing 811 Service, or of the Company in failing to maintain proper standards of maintenance and operation or to exercise reasonable supervision, shall in no event exceed an amount equivalent to the proportionate charge to the SOCS for the 811 Service and local exchange service for the period of service during which such mistake, omission, interruption, delay, error or defect in transmission or defect or failure in facilities occurs.
3. The Company is not liable for any losses or damages caused by the negligence of the SOCS.
4. The Company shall not be liable to the SOCS for any damages the SOCS may incur that result from any changes, modifications or rulings made by the FCC.
5. The Company will make every effort to route 811 calls to the SOCS call center, however, the Company will not be held responsible for routing mistakes or errors.
6. The 811 Service is provided solely for the benefit of the SOCS. The provision of the 811 Service by the Company shall not be interpreted, constructed or regarded, either expressly or implied, as being for the benefit of or creating any Company obligation toward any third person or legal entity.

RADIO COMMON CARRIER INTERCONNECTION SERVICE
Missouri Public Service Commission

15.1 GENERAL

REC'D DEC 11 2000

This tariff contains regulations, rates and charges applicable to the provision of Radio Common Carrier Interconnection Services provided by Rock Port Telephone Company, hereinafter referred to as the Telephone Company, to all carriers, hereinafter referred to as Carrier, for Type 1 and Type 2B connecting circuit arrangements as found, for descriptive purposes only, in the Bell Communications Research, Inc. Technical Reference TR-NPL-000145, Compatibility Information for the Interface between a Cellular Mobile Carrier and a Wireline Exchange Carrier dated April 1986 and Technical Reference TR-EOP-000352, Cellular Mobile Carrier Interconnection Transmission Plans, dated May 1986. This tariff is also applicable to all carriers for line side interconnection as found, for descriptive purposes only, in Bell System Technical References, Number 43303 dated December 1981.

This tariff provides, where facilities are available, connection with the Telephone Company network for originating calls from a landline customer to an RCC customer, for terminating calls from an RCC customer to a landline customer, and for High Capacity 1.544 Mbps Radio Transmitter Links.

The regulations and rates in this tariff are in addition to the regulations, rates and charges in other Telephone Company tariffs.

15.2 DEFINITIONS

The following definitions are in addition to those found in the Telephone Company's Local Exchange Tariff.

ACCESS SERVICE TARIFF: The Telephone Company's intrastate Access Service Tariff on file with the Missouri Public Service Commission, offering exchange access to intrastate customers.

RADIO COMMON CARRIER INTERCONNECTION SERVICE
Missouri Public
Service Commission

15.2 DEFINITIONS (Cont'd)

REC'D DEC 11 2000

CELL SITE: A cell site is an RCC transmission point where the radio signal is transmitted to the RCC mobile customers.

CELLULAR MOBILE CARRIER (CMC): A common carrier provider of domestic public cellular telecommunications service, as defined in Part 22, Subpart K, of the Rules of the FCC.

END OFFICE: An end office is a local Telephone Company central office where the exchange service customer's station loops are terminated to connect to each other and the network.

LOCAL CALLING SCOPE: Refers to the area of calling included in the local rates of the Telephone Company as defined in the Local Exchange Tariff.

LOCAL EXCHANGE TARIFF: Refers to the Schedules of LOCAL EXCHANGE SERVICE, AND GENERAL RULES AND REGULATIONS applying to the intrastate services and facilities of the Telephone Company, as approved by the Missouri Public Service Commission.

MOBILE TELEPHONE SWITCHING OFFICE (MTSO): An RCC's switching equipment or terminal used to provide the RCC's switching services or, alternatively, any other point of termination designated by the RCC. The MTSO does the switching that connects the RCC's customers within its Radio Service Area to the Telephone Company's facilities.

NXX CODE: A block of 10,000 consecutive telephone numbers having the same 3-digit prefix.

RADIO COMMON CARRIER INTERCONNECTION SERVICE Missouri Public
Service Commission

15.2 DEFINITIONS (Cont'd)

REC'D DEC 11 2000

ORIGINATING TRAFFIC: Traffic delivered to an RCC for termination on the RCC system within the Radio Service Area.

ORIGINATING USAGE: Landline originated traffic delivered to an RCC for mobile termination within the Radio Service Area of the RCC Carrier.

POINT OF INTERCONNECTION: The end office (Type I or 2B connection circuit) that the RCC chooses to connect for terminating traffic in the Telephone Company network. For example, where terminating traffic is switched to other end offices in the LATA, Interexchange Carriers and operator or auxiliary services, e.g. 411, 911, and 555-1212.

POINT OF TERMINATION: The point of demarcation on a carrier's premises where the Telephone Company's responsibility for service ends.

RADIO COMMON CARRIER (RCC): A licensee under Part 22 or Part 73 of the FCC Rules and Regulations who provides radio telecommunications service excluding Rural Radio Service. A Radio Common Carrier for purposes of this tariff is a Cellular Mobile Carrier.

RADIO COMMON CARRIER INTERCONNECTION SERVICE: Hereafter referred to as service, are dedicated circuits between a RCC's point of termination and the Telephone Company's point of switching for the exchange of traffic. Such circuits may be one-way or two-way.

RADIO TRANSMITTER LINKS: Dedicated voice and/or data circuits provided by the Telephone Company between an RCC MTSO and tower/cell site locations or between tower/cell site locations.

15.2 DEFINITIONS (Cont'd)

REC'D DEC 11 2000

RCC SERVICE AREA: The geographic area served by a RCC's system where the RCC is authorized to provide service under Part 22 or 73 of the FCC Rules and Regulations. For cellular carriers this area is the Cellular Geographic Service Area (CGSA).

SERVICE GROUP: A group of RCC connection service circuits of the same configuration combined into a single service group for traffic handling.

TANDEM OFFICE: A telephone company switching system that provides a concentration and distribution function for originating and terminating traffic between Telephone Company end offices or the network.

TERMINATING TRAFFIC: Traffic received from a carrier for delivery to a point on the intraLATA wireline exchange network.

TERMINATING USAGE: RCC mobile originated traffic interchanged with the Telephone Company for landline termination at a point on the intraLATA wireline exchange network.

TYPE 1 CONNECTING CIRCUITS: Connecting circuits that interconnect the RCC with the Telephone Company's end office, via line side connection allowing originating or terminating calls from or to that end office, allowing access operator services, directory assistance services, 911, community information services, to other end offices in the LATA and Interexchange Carriers.

TYPE 2B CONNECTING CIRCUITS: Connecting circuits that interconnect the RCC with the Telephone Company's end office via trunk side connection allowing originated or terminated calls by directory numbers (DNs) served only by that specific Telephone Company end office.

15.3 GENERAL REGULATIONS

REC'D DEC 11 2000

15.3.1 Liability of the Telephone Company

- A. The Telephone Company's failure to provide or maintain service under this tariff subject to the interruption allowance provisions of this tariff, shall be excused by labor difficulties, government orders, civil commotions, acts of God, and other circumstances beyond the Telephone Company's reasonable control.
- B. Where a RCC carrier's service is interrupted other than by negligence or willful act of the Telephone Company, and it remains out of order for 24 hours or longer after the Telephone Company has been notified and has access to the RCC's premises, adjustments shall be made to the RCC. The adjustment shall be based on the time the interruption is first reported and shall be the pro rata part of the monthly rates the service is inoperative. The adjustment may be credited to a subsequent bill.

For calculating credit allowances, every month is considered to have 30 days.

A credit does not apply for any period the RCC does not allow the Telephone Company personnel access to the facilities so they can investigate and clear trouble.

REC'D DEC 11 2000

15.3.1 Liability of the Telephone Company (Cont'd)

- C. The Telephone Company's liability, if any, for its gross negligence or willful misconduct is not limited by this tariff. With respect to any other claim or suit, by an RCC or any other for damages arising out of mistakes, omissions, interruption, delays, errors or defects in transmission, the Telephone Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the RCC for the period of service during which such mistakes, omission, interruption, delay, error or defect in transmission or service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the RCC under this tariff as an allowance for interruptions. Any such mistakes, omissions, interruptions, delays, errors or defects in transmission of service, which are caused or contributed to by the negligence or willful act of the RCC or which arise from the use of RCC-provided facilities or equipment, shall not result in the imposition of any liability whatsoever upon the Telephone Company.
- D. The Telephone Company is not liable for any act or omission of other providers of services to the RCC.

15.3 GENERAL REGULATIONS (Cont'd)

REC'D DEC 11 2000

15.3.2. Obligation of the Carrier

- A. The RCC is solely responsible for payment of all charges for facilities and services furnished by the RCC, including charges for service originated from, or charges accepted at such facilities (e.g. collect calls and third number charges).
- B. Where it is necessary for the Telephone Company to place equipment at the RCC's premises, the RCC shall make available access, floor space and power for the service without cost to the Telephone Company.
- C. The rates and rate structure established by this tariff shall not apply to the RCC's provision of toll calling from a landline telephone to another landline telephone, except for, but not limited to, the provision of optional carrier features such as custom calling and voice storage.

15.3.3 Payments, Deposits and Termination of Service

A. Advance Payment

When making application for service, the RCC may be required to pay at the time the application is accepted an advance payment equal to the installation charges and one month's charges for the services provided.

The amount of the advance payment will be credited to the RCC's account and applied against any indebtedness.

15.3 GENERAL REGULATIONS (Cont'd)

REC'D DEC 11 2000

15.3.3 Payments, Deposits and Termination of Service (Cont'd)

B. Late Payment

If the entire amount billed, exclusive of any amount disputed by the RCC, is not received by the Telephone Company within thirty (30) days of the bill date or if any payment is received by the Telephone Company in funds which are not immediately available to the Telephone Company, then a late payment charge equal to the lesser of 1. or 2. following shall apply to the unpaid balance:

1. the highest interest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily and applied for each month or portion thereof that an outstanding balance remains, or
2. 0.000657 per day, compounded daily and applied for each month or portion thereof that an outstanding balance remains.

C. Deposits

The Telephone Company may, in order to safeguard its interest only, require an RCC to make a deposit prior to or at any time after the provision of service to the RCC to be held by the Telephone Company as a guarantee of payment of rates and charges. The deposit may not exceed the rates and charges for two months plus the amount for any termination charges attributable to the service.

15.3 GENERAL REGULATIONS (Cont'd)

REC'D DEC 11 2000

15.3.3 Payments, Deposits and Termination of Service (Cont'd)

C. Deposits (Cont'd)

The fact that a deposit has been made in no way relieves the RCC from complying with the Telephone Company's regulations as to advance payment or the prompt payment of bills or constitute a waiver or modification of the regular practices of the Telephone Company providing for the discontinuance of the facilities for nonpayment of any sums due the Telephone Company for facilities provided. Simple interest at the rate of 9 percent per annum will be paid on deposits held 30 days or more.

At such time as the provision of service to the RCC is terminated, the amount of the deposit will be credited to the RCC's account and any credit balance which may remain will be refunded.

At the option of the Telephone Company, such a deposit may be refunded or credited to the RCC's account at any time prior to the termination of the provision of service to the RCC. Should a deposit be credited to the RCC's account, no interest will accrue on the deposit from the date such deposit is credited.

15.3.10 Telephone Numbers (Cont'd)

REC'D DEC 11 2000

- C. Telephone numbers are normally provided on a consecutive number basis in groups of 100 or 1000 having the same steering digit. Numbers may be provided on a nonconsecutive basis when acceptable to the RCC and the Telephone Company and, if within the normal limitations of the serving office. The RCC shall acquire and retain the same rights to telephone numbers as an independent telephone company.
- D. The RCC's switching equipment must be arranged to provide for intercept of unused numbers transmitted to the switching equipment.
- E. Line-side interconnection includes the provision of a single number for each line-side termination.

15.3.11 End User Common Line Charges

End User Common Line (EUCL) charges are not applicable to this service.

15.3.12 RCC Provided Facilities

RCC's shall have the right to transport traffic over facilities provided by the RCC to any location geographically proximate to the Type 1 or Type 2B Connection Circuits with the Telephone Company switching offices. That location must be owned/leased and maintained by the RCC and access to that location by Telephone Company employees for installation and maintenance purposes must be available.

15.4 DESCRIPTION OF SERVICE

REC'D DEC 11 2000

15.4.1 Type of Service

Radio Common Carrier Interconnection Service circuits and switching are line-side switching using end office Type 1 Connecting Circuit arrangements and trunk side using Type 2B Connecting Circuit arrangements. Wink start, answer and disconnect supervisory signaling are provided from electronic offices. Line side interconnection is made using line-side terminating equipment in the end office. Line-side signaling may be ground start with on-hook indication to the carrier at the distant end or may be loop supervision.

Service may be arranged for two-way or one-way traffic either in the originating or terminating direction where facilities and equipment permit. Separate service groups may be required in each direction for two-way operation. Different types of facilities or switching arrangements may not be combined in a single service group.

15.4 DESCRIPTION OF SERVICE

Missouri Public
Service Commission

15.4.2 Calling Scope

REC'D DEC 11 2000

Any calling scope available to the landline customers is available to the carrier.

- A. Type 1 and Type 2B interconnections may only be to end offices that serve telephone subscribers within the RCC Service Area of the RCC's system.
- B. Local terminating usage rates and intrastate access charge rates will apply based on the point of interconnection where the call is delivered to the Telephone Company.

15.4.3 Type 1 Interconnection

- A. Type 1 terminating service may be used to access valid NXXs in the LATA, operator services, Directory Assistance (411 and 555-1212), emergency reporting service (911), exchange telephone repair and business offices, community information services of an information provider, and the services of an interexchange carrier.
- B. For Type 1 connection service, the Telephone Company shall select the first point of switching within the LATA. The carrier may request a different first point of switching where facilities and measurement capabilities are available. When required by technical limitations, a separate service group will be established for each type of switching arrangement.

- A. Calls completed via the Type 2B interconnection circuit(s) are terminated to or originated by directory numbers (DNs) served only by that specific Telephone Company end office. With Type 2B connections, calls may terminate only to directory numbers served by the end office where the Type 2B interface is located. Type 2B terminating calls cannot be routed to services provided by Feature Group B (FGB), Feature Group C (FGC), or Feature Group D (FGD) Interexchange Carriers (ICs), International Carriers (INCs), or operator services, public response networks, Directory Assistance, or Type 2A or Type 2B interconnections of other carriers.
- B. Telephone Company end offices available for Type 2B interconnection will be restricted to those offices having the required capabilities, e.g. measuring and recording. Generally, available offices include those large offices with stored program control (SPC) type technology.
- C. A Type 2B interconnection may be used in conjunction with the Type 2A interconnection on a high-usage alternate routing basis to serve high-volume traffic between the MTSO and the Telephone Company end offices(s). Type 2B interconnections used in conjunction with a Type 2A interconnection will utilize the same NXX code(s) assigned to the Type 2A and no additional number changes are applicable. If the RCC utilized a Type 2B as a stand-alone interconnection and used the interconnection for originating traffic, the RCC has the option of using a dedicated NXX code. The selection of Type 2B end offices may be inside or outside the local calling area of the designated Type 2A rate center subject to office capability. Landline-to-mobile charges will still be based on the calling area designated for the Type 2A connection.

RADIO COMMON CARRIER INTERCONNECTION SERVICE**15.5 FEATURES**Missouri Public
Service Commission**15.5.1 Optional Features - Nonchargeable**

REC'D DEC 11 2000

A. Outpulsing

This option provides the end office capability of providing up to 10 digits of the called party telephone number to the RCC's location. The RCC may request that only some of the digits in the telephone number be forwarded. When a steering digit is required (e.g., third digit of the NXX code), only 7 digit outpulsing will be furnished.

B. Delay Dial Start-Pulsing Signaling

This option provides a method of indicating to the originating trunk circuit a readiness to accept address signaling information by the terminating trunk circuit. Delay dial is the off-hook signaling sequence. The delay dial signal is the off-hook interval and the start-pulsing signal is the on-hook interval. With integrity check, the calling offices will not out-pulse until a delay dial (off-hook) signal followed by a start-pulsing (on-hook) signal has been identified at the calling office.

C. Immediate Dial Pulse Address Signaling

This option forwards dial pulses from the Telephone Company end office to the RCC without a start-pulsing signal from the RCC. This option is available only to RCCs who have existing dial pulse services.

15.5.1 Optional Features - Nonchargeable (Cont'd)

REC'D DEC 11 2000

C. Immediate Dial Pulse Address Signaling (Cont'd)

Such arrangements may be continued under this tariff, but the RCC may not add to or move these arrangements.

D. Dial Pulse Address Signaling

This trunk-side option provides for the transmission of number information, e.g. called number, between the Telephone Company end office switching system and the RCC's premises (in either direction) by means of direct current pulses.

15.5.2 Optional Features - Chargeable

A. Testing Capabilities

This service is provided, in the terminating direction where appropriate equipment is available (both telephone company and RCC), with seven digit access to balance (100 type) test line, milliwatt (102 type) test line, nonsynchronous or synchronous test line, automatic transmission measuring (105 type) test line, data transmission (107 type) test line, loop around test line, short circuit test line and open circuit test line. Additional Cooperative Acceptance Testing, Automatic Scheduled Testing, Cooperative Testing, Manual Scheduled Testing and Nonscheduled Testing may be provided if requested as set forth in the Access Service Tariff.

15.6 RATE REGULATIONS

REC'D DEC 11 2000

The Telephone Company's charge for circuits and switching provided in the interconnection of traffic with RCCs is as follows:

15.6.1 Type 1 - Originating Only Connection Circuits

- A. The charge for two-wire or four-wire connecting circuits used exclusively for the interchange of one-way originating traffic shall be equivalent to the charge for a two-wire or four-wire termination and channel mileage and multiplexing if required, as found in the Access Service Tariff.
- B. The charge for a 1.544 Mbps connecting circuit, equivalent to 24 voice grade circuits, used exclusively for the interchange of one-way originating traffic shall be equivalent to the charge for a 1.544 Mbps channel termination and channel mileage if required, as found Section 15.7.3 following.

15.6.2 Type 1 - Terminating Only Connecting Circuits

- A. Telephone Company charges for the termination of RCC originated traffic interchanged with the Telephone Company and destined to points on the intraLATA/local wireline exchange network shall be on a usage sensitive basis. To the extent that a Telephone Company office lacks the capability of measuring terminating usage for billing purposes, terminating usage charges shall be calculated based on assumed minutes of usage pursuant to paragraph 15.6.2(D).

15.6.2 Type 1 - Terminating Only Connecting Circuits (Cont'd)

- B. The terminating usage charges for RCC originated traffic interchanged with the Telephone Company and destined to points within the local calling scope of the RCC's end office shall be as specified in paragraph 15.7.1 following.
- C. The terminating usage charges for RCC originated traffic interchanged with the Telephone Company and destined to points outside the local calling scope of the RCC's end office shall be constructed by referencing the following rate elements and levels, at the premium rate levels from the Access Service Tariff: Section 10.1.1 - Carrier Common Line Access: Section 10.1.2 - Local Transport and Local Switching (LS1). These rates will remain equivalent, through this rate reference, and will change as rate changes are effectuated in the Access Service Tariff.
- D. In the event the Telephone Company is unable to measure specific terminating usage from the end office where service is provided, charges based on assumed minutes shall apply as follows: (1) the Telephone Company and the RCC shall jointly develop the assumptions for use in calculating the monthly terminating usage which will be billed for the initial quarter of each RCC's operation; (2) based upon actual usage data provided by the RCC, each individual carrier's average minutes of use from the prior quarter will be used for monthly billing purposes for the next quarter.

15.6 RATE REGULATIONS

REC'D DEC 11 2000

15.6.2 Type 1 - Terminating Only Connecting Circuits (Cont'd)

- E. Local Terminating Usage measurement on RCC terminating traffic delivered to the Telephone Company for termination within the local calling scope begins when the Telephone Company's end office switch receives an off-hook supervisory signal from the end office serving the called party, indicating that the called party has answered and transmits that same information to the RCC's location. The measurement of terminating call usage ends when the Telephone Company's end office switch serving the carrier receives an on-hook supervisory signal from either the RCC or the called party.

15.6.3 Type 1 - Two Way Connecting Circuits

- A. The recurring charges, other than terminating usage charges, for the provision of connecting circuits used for interchange of both originating and terminating traffic (two-way connecting circuits) shall be prorated. It is assumed that 18% of the traffic interchanged between the Telephone Company and the RCC over two-way circuits is originating traffic. The charge for each two-way circuit will be 18% of the charge specified in paragraphs 15.6.1, A, or 15.6.1, B, preceding. In addition, all terminating traffic interchanged over two-way circuits is subject to terminating usage as described in paragraph 15.6.2 preceding.

**MISSOURI
Public Service Commission
LOCAL EXCHANGE SERVICE TARIFF
WIRELESS TERMINATION SERVICE**

A. Application of tariff

This tariff applies to intraMTA traffic originated by a Commercial Mobile Radio Service (CMRS) provider and terminated to end-user subscribers of the Telephone Company (i.e., wireless to wireline traffic) without the direct interconnection of the CMRS provider's and the Telephone Company's networks and where the CMRS provider is physically connected with and delivers traffic to a third party ILEC(s) which in turn delivers the traffic to the Telephone Company.

B. General

1. This service is provided to Commercial Mobile Radio Service (CMRS) providers licensed by the Federal Communications Commission (FCC).
2. Wireless Termination Service is limited to wireless-to-wireline traffic that originates and terminates within the same Major Trading Area (MTA) (i.e., intraMTA traffic)
3. Wireless Termination Service is not available to wireless-to wireline traffic that originates and terminates in two different MTAs (i.e., interMTA traffic). In those situations where a CMRS provider terminates interMTA traffic to the end-user subscribers of the Telephone Company then the rates, terms and conditions of the appropriate access tariff of the Telephone Company (either intrastate or interstate) will apply.
4. These Regulations and Rates are in addition to the Regulations, Rate and Charges in other Telephone Company tariffs.
5. This tariff applies except as otherwise provided in 1) an interconnection agreement between the CMRS provider and the Telephone Company approved by the Commission pursuant to the Act; or 2) a terminating traffic agreement between the CMRS provider and the Telephone Company approved by the Commission.

LOCAL EXCHANGE SERVICE TARIFF
WIRELESS TERMINATION SERVICE**

6. This tariff does not apply to traffic for which the CMRS provider has contracted or otherwise arranged with some other carrier (e.g. an IXC) to assume the responsibility for terminating the traffic.
7. The Company reserves the right to withdraw or cancel this tariff upon final resolution of the appeal of the Commission's January 27, 2000 Report and Order in Case No. TT-99-483, et al., currently pending review in Cole County, Missouri, Circuit Court Case No. 00CV323379.

C. Definitions

1. "Act" - the Communications Act of 1934, as amended by the Telecommunications Act of 1996, and as from time to time interpreted in the duly authorized rules and regulations of the Federal Communication Commission or a state regulatory commission.
2. "CTUSR" - Cellular Terminating Usage Summary Report, provided by Southwestern Bell Telephone Company, tracks the minutes for calls originating from CMRS providers and terminating to LECs.
3. "CMRS" - Commercial Mobile Radio Service, as defined in the Act.
4. Commission - Missouri Public Service Commission.
5. FCC - Federal Communications Commission.
6. ILEC - Incumbent local exchange telecommunications company, a local exchange telecommunications company authorized to provide basic local telecommunications service in a specific geographic area within the State of Missouri as of December 31, 1995, or a successor in interest to such a company.

continues. Any such mistakes, omissions, interruptions, delays, errors, or defects in transmission of service, which are caused or contributed to by the negligence or willful act of the CMRS provider or which arise from the use of the CMRS provider's facilities or equipment, shall not result in the imposition of any liability whatsoever upon the Telephone Company.

3. The Telephone Company is not liable for any act or omission of other providers.

E. Records and Billing

1. The Telephone Company shall issue a bill to the CMRS provider based on the best information available to the Telephone Company including, but not limited to, records of terminating traffic created by the Telephone Company at its end office or tandem switch.
2. If possible, the CMRS provider will provide to the Telephone Company billing records in standard industry formats regarding calls it originates that terminate on the Telephone Company's network. Records will be provided at an individual call detail record, if possible, with sufficient information to identify the specific date and time of the call, the call duration, and the originating and terminating numbers.
3. If a CMRS provider is unable to provide billing records of the calls that it originates to the Telephone Company, the Telephone Company may use usage reports and/or records (such as a CTUSR) generated by a third party ILEC whose network is used to transit the traffic as the basis for billing the CMRS provider. If the CMRS provider is unable to provide billing records, the CMRS provider will have the responsibility of providing, on a quarterly basis (or as otherwise agreed to by the Telephone Company), a report to the Telephone Company providing the percentage of the CMRS provider's traffic terminated to the Telephone Company that is intraMTA or interMTA traffic. The report will also detail what percentage of the interMTA traffic is intrastate and what percentage is interstate. Such reports shall be based on studies of actual traffic originated by the CMRS provider and terminated to the Telephone Company.

4. Reports regarding the percentages of intraMTA or interMTA traffic (and the intrastate or interstate jurisdiction of interMTA traffic) shall be based on a reasonable traffic study conducted by the CMRS providers and available to the Telephone Company upon request. Such studies shall be conducted no less frequently than once each quarter to ensure that the CMRS provider is using an accurate intraMTA/interMTA percentage.
5. The CMRS provider shall pay the Telephone Company for all charges in accordance with the rates set forth in this tariff. Such payments are to be received within thirty (30) days from the effective date of the billing statement. The CMRS provider shall pay a late charge on any undisputed charges which are not paid within the thirty (30) day period. The rate of the late charge shall be the lesser of 1.5% per month or the maximum amount allowed by law. The CMRS provider shall pay the Telephone Company the reasonable amount of the Telephone Company's expenses related to collection of overdue bills, such amounts to include reasonable attorney fees.

F. Verification Reviews

The CMRS provider will be responsible for the accuracy and quality of its data as submitted to the Telephone Company. Upon reasonable written notice, the Telephone Company or its authorized representative shall have the right to conduct a review and verification of the CMRS provider to give assurances of compliance with the provisions of this tariff. This includes on-site verification reviews at the CMRS provider's or vendor locations. The review may consist of an examination and verification of data involving records, systems, procedures and other information related to the traffic originated by the CMRS provider and terminated to the Telephone Company. The CMRS provider will provide the Telephone Company with reasonable access to such information as is necessary to determine amounts payable under this tariff.

G. Refusal and Discontinuance of Service

1. If the CMRS provider fails to comply with any of the terms and conditions of this tariff, including any payments to be made by it on the dates and times herein specified, the Telephone Company, may on thirty (30) day's written notice by

Certified U.S. Mail to the CMRS provider, refuse additional applications for service and/or refuse to complete any pending orders for service by the non-complying CMRS provider at any time thereafter, or may discontinue the provision of the services to the non-complying CMRS provider at any time thereafter. In the case of such discontinuance, all applicable tariff charges shall become due. Discontinuance of service or the refusal to provide additional services is not appropriate where the CMRS provider has failed to pay for traffic terminated to the Company prior to February 19, 2001.

2. If the Telephone Company does not refuse additional applications for service or discontinue the provision of the services involved on the date specified in the thirty (30) day's notice, and the CMRS provider's noncompliance continues, nothing contained herein shall preclude the Telephone Company's right to refuse additional applications for service or to discontinue the provision of the services to the non-complying CMRS provider without further notice.
3. If the Telephone Company is unable to effectuate discontinuance of service at its own office it may request the assistance of other ILECs with whom the Telephone Company's network is connected. The Telephone Company may request such other ILEC(s) to take the necessary steps within its/their office(s) to disconnect service to the non-complying CMRS provider or to take such other actions as are necessary and appropriate to effectuate discontinuance of service as authorized by this tariff. This tariff specifically gives authority to such other ILEC's to respond to and honor a request to effect discontinuance of service from the CMRS provider to the Telephone Company without further regulatory authorization.
4. In the event a CMRS provider for whom the Telephone Company has effectuated discontinuance of service requests reconnection or restoration of service, such service will not be reconnected or restored unless and until such CMRS provider has paid to the Telephone Company the actual costs assessed to the Telephone Company by any other ILEC for such ILECs assistance in effectuating such discontinuance of service.

H. Rates and Charges

1. The rates and rate elements applicable to Inter-MTA Traffic are set forth in the Telephone Company's Switched Access Tariff. The rates for Termination of IntraMTA Traffic are shown in the Rates section below.
2. Rates for termination of IntraMTA Traffic:
\$ 0.0538 per minute of use (MOU)
