SECTION 1 - TECHNICAL TERMS AND ABBREVIATIONS

1.1 Definitions

Application for Service - a standard order form which includes all pertinent billing, technical and other descriptive information which will enable the carrier to provide the communication service.

Authorization Code - a numerical code, one or more of which are assigned to a customer to enable a reseller to identify use of service on its account and to bill the customer accordingly for such service. Multiple authorization codes may be assigned to a customer to identify individual users or groups of users on its account.

Authorized User - a person, firm, corporation or other entity authorized by the customer to receive or send communications.

Automatic Dialing Device - an apparatus provided by the carrier which, when attached to customer's telephone equipment, dials the carrier's facilities, emits an authorization code, and forwards the called number to the carrier's facilities.

Bandwidth - the total frequency band allocated for a channel.

Busy Hour - the two consecutive half hours during which the greatest volume of traffic is handled.

Cancellation of Order - a customer-initiated request to discontinue processing a service order, either in part or in its entirety, prior to its completion.

Carrier - Cincinnati Bell Any Distance (CBAD) Inc., unless specifically stated otherwise.

Company - Cincinnati Bell Any Distance Inc., sometimes referred to as "carrier."

Completed Calls - calls answered at the distance end. If a customer is charged for an incomplete calls, the Company will issue a one minute credit upon the customer's request.

Custom Account Coding - key, legend or table created by the customer for a unique project or account numbers for its private use.

Customer - the person, firm, corporation or other entity that orders or uses service and is responsible for payment of the rates and charges under a contract or this tariff.

Customer Premises Equipment - communications equipment located at the customer's premises. Such equipment may be provided by the customer or by The Company.

SECTION 2 - RULES AND REGULATIONS (continued)

2.16 General Service Descriptions

The Company offers Message Telecommunications Service or MTS, Inbound 800 Service, Calling Card Service and Operator Services. The customer's total monthly use of Carrier's service is charged at the applicable rates per minute set forth herein.

2.16.1 Message Telecommunications Service (MTS)

MTS or 1+ dialing is achieved by when the LEC programs the customer's telephone lines to automatically route 1+ calls to the Company's network. For business customer's service is billed in six 6-second increments, with a minimum billing of 6 seconds. For residential customers service is billed in 60-second increments with a minimum billing of 60 seconds.

2.16.2 Toll Free (i.e., 800/888) Service

Toll Free Service is inbound telecommunications service which permits calls to be completed to the customer's location without charge to the calling party. Access to the service is gained by dialing a ten-digit telephone number which terminates at the customer's location. Toll Free Services originate via normal shared use facilities and are terminated via the customers' local exchange service access line. Toll free service is offered to presubscribed customers and is not a stand-alone product.

The Company will accept a prospective Toll Free Service at customer's request for up to ten (10) toll free telephone numbers and will reserve such numbers on a first-come first-served basis. The Company does not guarantee the availability of numbers until assigned. The requested Toll Free Service telephone numbers, if available, will be reserved for and furnished to the customer.

If a customer who has received a Toll Free Service number does not subscribe to Toll Free Service within thirty (30) days, the Company reserves the right to re-assign the number to another customer.

The Company will participate in porting toll-free numbers only if the customer's account balance is zero and all undisputed charges incurred as a result of the toll-free number have been paid.

The following optional features are available with the toll free service.

Time of day routing allows the customer to change the telephone number where the toll free telephone number terminates. The toll free telephone number can be re-routed to four different terminating telephone numbers based on three variables: time of day (1/2 hour increments); day of the week; and holiday schedule.

Area code blocking permits customers to select the area codes from which they may receive calls.

800 Directory Service provides the customer with the option to have their 8XX number listed in directory assistance.

SECTION 2 - RULES AND REGULATIONS (continued)

CANCELLED

February 17, 2005

**MISSOURI PUBLIC
SERVICE COMMISSION**

2.16 General Service Descriptions (continued)

2.16.3 Calling Card Service

Calling Card Service allows subscribers who are away from home or office to place calls by gaining access to the Company's network via an 800 number. Calling Card Service is provided to presubscribed customer and is not a stand-alone product. Billing increments for calling cards are in 6 second increments with a 30 second minimum.

2.16.4 Directory Assistance

Listed telephone numbers will be provided to requesting customers at a per call charge.

2.17 Usage Charges and Billing Increments

2.17.1 Usage Charges

Usage charges are determined by the time of day rate periods and minutes of use within each rate period. The rate period is determined by the time and day of call origination at the customer's location.

2.17.2 Billing Increments

Unless specifically stated in the product description, usage is billed in six 6-second increments for business customers and 60-second increments for residential customers.

2.18 Pay Telephone Surcharge

A surcharge shall be assessed for each call made from a pay telephone to a Company-provided toll-free number or placed by using a travel card and dialing the Company's prefix in the form 101XXXX. This charge is to compensate the Company for the Federal Communications Commission assessment which is paid by the Company to pay telephone service providers for the use of their pay telephone instruments. The following charges are applicable on the first day of the billing month following the effective date of FCC Order 99-7 in CC Docket No. 96-128.

Per Call Charge:	\$0.35
------------------	--------

2.19 Directory Assistance Charge (unless stated otherwise in Section 4)

Per Call Charge	Interstate	\$1.99
	Intrastate	.80
	Calling Card	1.25

SECTION 2 - RULES AND REGULATIONS (continued)

2.23 Operator Services (continued)

b) Operator Station

This is a service whereby the caller places a non-person-to-person call with the assistance of an operator (live or automated). When placing an operator station call, the caller is connected to a non-specified individual at the terminating end. Such calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.

c) Person-to-Person

This is a service whereby the person originating the call specifies to Cincinnati Bell Any Distance Inc.'s operator a particular person to be reached, or a particular person, station, room number, department, or office to be reached through a PBX attendant. Person-to-person calls may be billed to a calling card, credit card, the called number (collect) or a valid third party telephone number.
